INTRODUCTION TO THE TEACHER

This gamebook is intended to assist the elementary school (FLES) Latin teacher in introducing the reading and writing of English derivatives and cognates after these have been mastered audio-lingually in the Instructional Services' Latin course HOW THE ROMANS LIVED AND SPOKE (ROMANI VIVENTES ET DICENTES): A HUMANISTIC APPROACH TO LATIN FOR CHILDREN IN THE FIFTH GRADE.

Each exercise or opus without an asterisk (*) contains practice on derivatives and cognates actually listed in the Teachers' Guide for HOW THE ROMANS LIVED AND SPOKE. Each opus with an asterisk contains practice on derivatives and cognates which may be taught from the Latin roots occurring in a particular unit but which are not specifically listed in it. A special effort has been made to make the exercises meaningful and attractive to a broad spectrum of the children in our schools. The reading of the derivatives and cognates precedes the writing; the easier type of exercise precedes the more difficult. Emphasis is placed on using the derivatives and cognates in context.

Every teacher of FLES Latin should observe the following guidelines in utilizing this gamebook:

1. The children must be taught to understand and speak the English derivatives and cognates before any reading or writing exercise in the gamebook is attempted. Suggestions for teaching understanding and speaking skills are found in the Teachers' Guide, HOW THE ROMANS LIVED AND SPOKE.

2. The exercises should ordinarily be done during the Latin period under the guidance and supervision of the Latin teacher and without impinging upon the time of the cooperating classroom teacher.

3. The Latin teacher should focus attention of the pupils on only one opus at a time.

4. Each opus should be approached in the spirit of fun and adventure. Contests should be devised by the Latin teacher to stimulate this spirit among the pupils.

5. Ordinarily pupils should be called upon to read items in the opus aloud while other pupils provide the answers. With some classes, however, silent reading during which the Latin teacher's role becomes tutorial may be desirable occasionally, but answers should be checked toward the end of the period.

6. The teacher should involve the tactile skills of the pupils in some of the exercises. For instance in Opus 2, the teacher may ask the pupils to cut or tear out Fred Flintstone's rocks and paste them into place in the sentences.
7. The exercises should be used selectively according to the needs and interests of the children involved. The use of the gamebook should in no way destroy the primarily oral thrust of the FLES Latin program. In general no more than one exercise should be used per week with classes that receive daily instruction in Latin.

LOOK FOR THE LATIN WORD will help to extend the English vocabulary of the pupils in a uniquely efficient way through the Latin roots of our language.
