This 1973 report is the result of a continuing workshop funded by the Santa Barbara High School District. Its purpose was to formulate goals, objectives, program description and evaluation for effective secondary school library service. The librarians of the high school district drafted this publication. Although initially directed toward the implementation of Planning, Programming, Budgeting System, their ideas have been influenced by the implications of the Stull Bill for library service. Items can be stated one way to describe the library programs, but stated another way become a job description for the professional librarian and the supporting staff. Because of the Stull Bill it was decided to use the job rather than the program description. Librarians from all the secondary schools of the district worked together to present goals that would reflect a composite viewpoint of service in a building level library. Since every library is different, any librarian making use of this publication will need to select, change and adapt these goals and objectives to fit their situation. Also, it is acknowledged that library service must change, grow and develop just the same as the educational system within which it works. Goals and objectives need to be reconsidered and reevaluated periodically. (Author/NH)

EVALUATION
This 1973 report is the result of a continuing workshop funded by the Santa Barbara High School District. Its purpose was to formulate goals, objectives, program description and evaluation for effective secondary school library service.

The librarians of the high school district met in brainstorming sessions, many hours beyond the designated forty. They drafted this publication. Although initially directed toward the implementation of Planning, Programming, Budgeting System, their ideas have been influenced by the implications of the Stull Bill for library service. Items can be stated one way to describe the library program, but stated another way become a job description for the professional librarian and the supporting staff. Because of the Stull Bill it was decided to use the job rather than the program description.

Librarians from all the secondary schools of the district worked together to present goals that would reflect a composite viewpoint of service in a building level library. It is understood, of course, that every library is different. Any librarian making use of this publication will need to select, change and adapt these goals and objectives to fit another situation. Also, it is acknowledged that library service must change, grow and develop just the same as the educational system within which it works. Goals and objectives need to be reconsidered and reevaluated periodically.

A great deal of though has been given to the question of the percentages given in the objectives. They are still only educated guesses but arrived at with almost full consensus. They should not be taken by others as established figures. It will take years of working with processes for evaluation to give them a sound basis.

In our first draft of P.P.B.S and the Library Goals, Objectives and Program the attempt was made to include quality factors, behavior that reflected attitudes, and some of the many intangible aspects of a school library program. The response to this convinced the group this was appreciated. Reflected in the goals and objectives are those areas most important to library service and the proper concern of the librarians.

The librarians hope sight has never been lost of the fact that it is the young people we serve who are our ultimate raison d'être. Every aspect of the consideration of the group had its heart their needs, their desires, and their welfare.

In conclusion we wish to thank those persons and groups whose approval has made this workshop possible. This includes the Board of Education, The Secondary Curriculum Council and Mr. Arthur North, Associate Superintendent. We want to
acknowledge the valuable assistance given by Dr. J. Roy Barron, Director of Instructional Materials. Our gratitude also goes to Mr. Paul Jillson of the Santa Barbara County Schools office for the inspiration and guidance he gave us.

ESSENTIALS OF A GOOD LIBRARY PROGRAM

In order to have a school library program which will help achieve the school's educational aims and objectives, and meet the needs of teachers and students, the school library must have adequate and well balanced resources:

Personnel

A librarian with educational vision to formulate and implement the program.

Clerical and sub-professional assistants to free the librarian from the volume of time consuming detail necessary in acquiring, processing and circulating library materials, for whom specialized training in library routines and methods is important.

Clerical assistance in special areas such as textbook and audio-visual services.

Materials

A library collection in books and other forms of the printed word, and a variety of media including audio-visual materials. The basic collection will be materials of a high standard of quality with a quantity of over ten books per student.

Facilities

A library reading room, equipped for use of multi-media, with adjoining workrooms and offices, conference rooms for small group study, a classroom for class presentations, quarters to house audio-visual materials and equipment, with textbooks housed nearby. Special furniture and equipment for operations peculiar to library service are necessary.

The extent to which the school library program can function and be successful depends upon active endorsement and financial support from:

The Board of Education

The implementation of the most effective school library program is the responsibility of the Board of Education. It defines the goals and aims of the educational community and understands the relationship of the library to these goals. It is the obligation of the Board to allocate the financial support necessary to carry out the library program.

The Superintendent

The Superintendent understands the library program and its relationship to the educational goals of the district. He is responsible for promoting the library program in the areas of budget, implementation and personnel.
Directors of Curriculum and Instructional Materials

As specialists in areas of instruction and policy, they serve as consultants to the librarians, interpret the aims and needs of the library to the Superintendent and Board, and give direction to the district wide development of libraries.

The Principal

The Principal is a key person in the development of a good school library program. He encourages wide and effective utilization of the library by teachers and students. He is aware of the objectives of the library program and interprets them to the faculty and community. Unless the librarian functions with the support of the Principal, the full potential of a good library program can never be realized.

The Teacher

The teacher seeks to know the collection, especially in his subject areas, and considers the library as an extension by his classroom, and an integral part of the educational program.

Parent-Teacher and Other Community Groups

Both the lay and educational community should expect, cooperate with and support a good library program in all possible ways.

The Student Body

The student is the end product around which all library activities are centered, and is its reason for being. When students use the library and have positive attitudes toward its activity, they are evidence of an effectively implemented library program.

From:

The primary goal of an effective library program is, of course, to promote the general over-all objectives of the school in which the library serves. The purposes and objectives adopted by the Board of Education for junior and senior high schools are given on the following pages. Within the context of these goals, the High School District librarians present their goals and objectives for library service.

PURPOSES AND OBJECTIVES OF THE SANTA BARBARA ELEMENTARY AND SECONDARY SCHOOLS

Implementing Statement: Junior High Schools

It is the function of the junior high schools to educate students in grades 7, 8, and 9 in accordance with requirements prescribed by the State of California and the Board of Education.

In fulfilling this basic function, the individual junior high school:

1. Helps the student in his transition from childhood to adolescence; and from the elementary school, with its essentially child-centered emphasis, to the high school, with its greater emphasis on subject matter.

2. Continues and expands instruction in basic skills and encourages further development of attitudes and appreciations begun in the elementary schools.

3. Requires certain basic courses, including English, mathematics, history, geography, American government, science, physical education, homemaking for girls, industrial arts for boys, art or music.

4. Provides elective courses in various subject areas so that students may explore a number of occupational possibilities and cultural interests. This exploration of many avenues of learning enables students to acquire the background necessary to a wise selection of the area of specialization in later school years.

5. Provides opportunities for daily practice of democracy and Americanism in order to promote the student's sense of civic responsibility and his dynamic belief in the American way of life.

6. Provides extra-curricular activities that constitute an extension of the academic program.

7. Assists the student to:
   a. Pursue learning that will develop his greatest potential.
   b. Develop personal understanding and appreciation for both the fine arts and the practical arts.
   c. Acquire self-confidence and develop conscientiousness in accepting the discharging responsibilities.
   d. Develop dependability and pride in self, home, school, community, and nation through personal and group activities.
   e. Grow in maturity by gradually transferring decision making to him in choice of elective subjects, in student government, and other appropriate means.
   f. Develop and maintain physical and mental health.

PURPOSES AND OBJECTIVES OF THE SANTA BARBARA ELEMENTARY AND SECONDARY SCHOOLS

Implementing Statement:  Senior High Schools

It is the function of the senior high schools to educate students in grades 10, 11, and 12 in accordance with requirements prescribed by the State of California and the Board of Education.

In fulfilling this basic function, the individual high school:

1. Serves as a comprehensive high school accommodating all of the youth of the community.

2. Provides:
   a. A sound general education for all students, regardless of their vocational abilities and interests.
   b. Effective training for those students who will complete their full-time education upon graduation from high school.
   c. Effective programs for those students whose vocations will depend on their subsequent education in colleges and universities.

3. Assists the student in his transition from adolescence to young adulthood and in his development and maintenance of sound physical and mental health.

4. Continues and expands instruction in basic skills, attitudes, and appreciations.

5. Requires certain basic courses, including English, history, American government, science, mathematics, physical education, and driver education.

6. Provides elective courses that will enable the student to explore areas not included in his basic program of instruction and to develop skills and appreciations in areas of special interests and talents.

7. Maintains a program of extra-curricular activities that offer opportunities for developing personal interests and abilities, group activities, and practice in the democratic processes.

8. Fosters development of a democratic school spirit; understanding and respect among students with differing backgrounds, abilities, and goals; and appreciation for the dignity and inter-relationship of all kinds of labor and skills needed for our complex society.

**FORMULA**
GOAL 3: Each student will have the opportunity, through services of credentialed librarians and supporting staff, to find library materials efficiently or properly organized for easy retrieval, use or loan.

OBJECTIVES

3.1.1 Given the need to locate library materials, at least 90% of the time students using the library will find proper cataloging and classification which facilitate retrieval.

3.1.2 Given the need to have a successful experience in the use of the library, at least 90% of the time students will receive efficient service from the classified staff and student assistants at the check-out desk.

3.1.3 Given the need to use a wide variety of materials, at least 90% of the time students will find a loan policy designed to meet their needs.

JOB DESCRIPTION

The Professional Librarian

3.2.1 Catalogs all types of materials (print and non-print).

3.2.2 Supervises the clerical staff and student assistants in their tasks in connection with cataloging, processing and circulation of materials.

3.2.3 Establishes procedures for the storage, retrieval and loan of all types of materials.

3.2.4 Maintains and revises a current card catalog of all materials.

3.2.5 Supervises the maintenance of a current shelf list of all materials for inventory and other purposes.

The Supporting Staff

3.3.1 Processes all types of materials for loan: Types catalog cards, shelf list, etc.

3.3.2 Attaches labels, pockets, plastic jackets, etc.

3.3.3 Files catalog and shelf list cards, subject to revision by a librarian.

3.3.4 Other

EVALUATION

3.4.1 Student Activity: Students to be given the author or title of books and other materials to be located through the use of the card catalog and the classification system. The student assistants to be given the materials to be located and the students to be given the location of books and other materials such as pockets, plastic jackets, etc.

3.4.2 See Survey Questions for Goal 3 in APPENDIX 2.

3.4.3 A spot check at predetermined intervals of students and teachers to show activities in and the use of the library and its resources.
GOAL 3: (continued)

... to find library materials efficiently organized for easy retrieval, use or loan

OBJECTIVES

3.1.4 Given an interest in using materials in ephemeral form (pamphlets, catalogs, etc.), at least 90% of the time students will find them organized for easy retrieval, use or loan.

3.1.5 Given an interest in using audiovisual materials (tape and disc recordings, filmstrips, art and study prints, realia, etc.), at least 90% of the time students will find them organized for easy retrieval, use or loan.

JOB DESCRIPTION

The Professional Librarian

3.2.6 Supervises the clerical staff and student assistants in organizing periodicals for storage and circulation.

3.2.7 Establishes a pamphlet file based on acceptable list of broad subject headings.

3.2.8 Establishes a system for cataloging and processing storage and use of all types of audiovisual materials.

The Supporting Staff

3.3.3 Assists students in finding the location of all types of materials and prepares pamphlets and other ephemeral materials.

3.3.4 Prepares pamphlets and other ephemeral materials for circulation.

3.3.5 Maintains the periodical collection and handles correspondence relating to inquiries not received, etc.

3.3.6 Types orders for magazines on microfilm and maintains tongue orders for magazines.

3.3.7 Assists in coordinating cataloging and processing materials for storage and location of all types of materials.

3.3.8 Prepares pamphlets and other ephemeral materials.

GOAL 5: Each teacher will have the opportunity, through library resources and the services of credentialed librarians, to have access to materials needed to attain the goals of an ever changing instructional curriculum, and to support the curriculum. 

OBJECTIVES

5.1.1.1 Given the need for materials to support the curriculum, at least 75% of the time teachers using the library will find these materials in the collection.

5.1.2.1 Given the adoption of new courses or the implementation of new methods of instruction, at least 90% of the time teachers will find that the library has a minimum of one book per student on the subject, as well as related print and non-print materials, or funds (other than the library budget) for establishing that minimum.

5.2.1.1 Selects curriculum related materials from a background of:
- Knowledge of the curriculum
- Membership on curriculum committees where new or changing courses are planned
- Knowledge of the existing collection
- Study of course outlines kept on file in the library

5.2.2.1 Budgets funds allocated for library materials to support the curriculum.

5.2.3.1 Spends additional funds when provided to strengthen new courses or non-textbook courses.

5.2.4.1 Reserves and uses approximately 5% of the library materials budget for high priority items to be purchased for quick delivery.

5.3.1.1 Completes routines as specified in Goal 2 which are pertinent to curriculum related materials.

5.3.2.1 Assists in the production of various audio-visual materials.

5.3.3.1 Assists in the selection of course outlines and new materials for curriculum-related courses.

Job description

Institutional and professional needs

Evaluating institutional programs and activities developed with consultation for the school, district, and/or state as a means to have access to materials needed to attain the goals of an effective library experience for students, at least 90% of the time.
GOAL 5:

Each teacher should have access to materials needed to attain the goals of an instructional program and a library developed with consideration for the needs of both the school and the community.

OBJECTIVES

5.1.5 Given the need for effective learning experiences, at least 95% of the time students will have the assistance of both the teacher and the librarian when their class is using the library.

5.1.6 Given an interest in using the professional collection, at least 90% of the time teachers will find relevant materials and/or information about resources in district and county professional libraries.

JOB DESCRIPTION

The Professional Librarian:

5.2.9 Serves as a resource person in assisting teachers and students in locating and interpreting materials as needed for class use.

5.2.10 Shares with the teacher the responsibility for effective learning activities.

5.2.11 Develops patterns for the use of media reflective of the needs of individual students or groups of students.

5.2.12 Serves as a resource person in assisting teachers to evaluate the appropriateness of a specific medium as to: content, relevance, timeliness.

EVALUATION

In determining whether or not the professional librarian meets the objectives above, student data will include:

- The percentage of time that students have the assistance of both the teacher and the librarian.
- The percentage of time that teachers find relevant materials and/or information about resources in district and county professional libraries.

The librarian will use the professional collection in district and county programs to enhance student learning.

The Supporting Staff:

5.1.5 Given the need for effective learning experiences, at least 95% of the time students will have the assistance of both the teacher and the librarian when their class is using the library.

JOB DESCRIPTION

OB jective 5: Each teacher to have access to materials needed to attain the goals of an ever changing instructional program, and a library developed with consideration for his instructional and professional needs.
GOAL 6: Each student will have the opportunity, through library resources and the services of credentialed librarians, to develop a growing vocabulary and the ability to read increasingly difficult materials

OBJECTIVES

6.1.1 Given that a wide range of materials is necessary to meet the individual needs of students in their reading program, at least 90% of the time students will have the option to choose from the library's comprehensive collection.

6.1.2 Given the fact that reading is an individual experience, at least 90% of the time students will exercise the right to select their own materials for free reading, remedial or developmental reading.

6.1.3 Given the fact that success in reading must start with the student's own aims and interests, at least 75% of the time students will find appealing books and other materials to develop their skills.

JOB DESCRIPTION

The Professional Librarian

6.2.1 Selects books and other materials with consideration of the needs of the reading program.

6.2.2 Keeps informed of the varied methods and technology used in the teaching of reading.

6.2.3 Supports classroom collections only in reading classes to serve as a bridge to the library's collection.

6.2.4 Knows the approximate level of difficulty of many books and advises students needing books at a given level.

The Supporting Staff

6.3.1 Supplies the clerical assistance necessary to prepare materials for a teacher-operated loan system in the classroom.

6.3.2 Supervises students in the operation and care of equipment used in the library for development of reading skills.

EVALUATION

6.4.1 See Survey Questions for Goal 6 in APPENDIX 2.

JOB DESCRIPTION

The Professional Librarian

7.2.1 Develops a program of orientation appropriate to the grade level for students to learn how to use the media collection of the library, including:
- The physical arrangement of the library
- The location of materials
- The plan of organization of materials
- Regulations for the loan of materials
- The necessity for maintaining a library atmosphere conducive to learning

The Supporting Staff

7.3.1 Assists with the program of orientation, primarily in the location of materials and the proper use and care of materials and equipment.

7.3.2 Assists students in the use of library tools.

7.3.3 Types master copies of tests and/or activities.

7.3.4 Checks diagnostic tests, activities, etc.

EVALUATION

7.4.1 Test questions

See Appendix A-C for

7.4.2 Tests at the beginning of grades 7 and 10 to determine instructional needs can be repeated at the end of these grades (or later) to determine if instructional needs have been met. 18.2.1 Plans a program of training for student assistants which will develop the skills needed for daily tasks and increase their knowledge and appreciation of the library and its resources.

18.2.2 Supervises and instructs student assistants in their daily routines and assigns part of the supervision to the supporting staff.

18.2.3 Establishes standards and evaluates the work of the student assistants and assigns grades earned for knowledge and performance.

18.2.4 Develops ways to cultivate in student assistants positive attitudes toward work and service.

The Supporting Staff

18.3.1 Assists in the training and instruction of student assistants.

18.3.2 Supervises student assistants in the completion of their assigned daily tasks.

18.3.3 Revises the work of student assistants in filing, slipping, shelving, etc., where accuracy is important.

18.3.4 Records the student assistant's progress in learning activities, programmed instruction, etc., when these are used to increase their knowledge of the library.

EVALUATION

18.4.1 See Evaluation for Goal 7 which will also apply to this goal.

18.4.2 Student assistants are given academic and citizenship grades relating to the breadth of their knowledge of library materials and procedures and their attitude in carrying out their daily work.

18.4.3 Multiple Choice Test Questions in APPENDIX 3-4C may be used with student assistants.
GOAL 18: (continued) to become a library assistant or volunteer and provide opportunities for them to assist in the preparation of a vocation. Seek to identify students who have the opportunity to observe the librarian's role in establishing effective library service and the librarian's role in establishing effective library service. Given the desire to become a library assistant or volunteer and provide opportunities for them to assist in the preparation of a vocation.

OBJECTIVES

18.1,2
Given the desire to become a library assistant or volunteer, at least 90% of the time students will broaden their personal work experience, including the ability to work with others.

18.1.3
Given an interest in library work, at least 90% of the time students will have the opportunity to observe the librarian's role in establishing effective library service in order to assess librarianship as a vocational choice.

18.2
The Professional Librarian

18.2.5
Plans enrichment in library experiences such as field trips, etc.

18.2.6
(lives recommendations upon request to prospective employers of successful student assistants)

18.3.5

EVALUATION

18.2.7
Other opportunities to work with prospective employers of successful student assistants will be provided. At least 90% of the students will participate in field trips, etc.

18.3.7
Given an opportunity to receive guidance and instruction in order to become a student library assistant or volunteer and provide opportunities for them to assist in the preparation of a vocation.

18.4.7
(continued)
The Board of Education shall seek to provide books and all other appropriate types of material of the highest literary quality, and scholarship standards, and production techniques that meet the objectives of the educational program; and that comply with provisions of the California Education Code, Title V of the California Administrative Code, and policies of the Board as hereinafter set forth.

In attaining this goal, the Board of Education reaffirms the statement on purposes and objectives of the Santa Barbara School District(s), adopted June 21, 1962, revised February 8, 1968; and sets forth the following additional principles as operational guides for the selection of books and other published materials or audio-visual media.

1. The adoption of textbooks for use in Santa Barbara Secondary Schools is a legal responsibility of the Board of Education. The process of selecting and evaluation instructional materials for use in the schools is primarily a professional responsibility by personnel deemed most competent for this task by virtue of their professional training, experience, and assignments.

2. Freedom to read and freedom of the Press are inseparable parts of the total concept of freedom upon which our society is based. In a free society, differences of opinion may develop relative to the appropriateness of instructional materials selected for use in the schools. It is the duty of the Board and the staff to consider objectively any questions in this regard. It is also the duty of the Board and staff to guard against pressures by individuals and groups who wish to use the schools as instruments of biased views through exclusion or removal of instructional materials with which they do not agree, or through inclusion of a disproportionate quantity of materials that support such views.

APPENDIX 3 C
LIBRARY BILL OF RIGHTS

The Council of the American Library Association reaffirms its belief in the following basic policies which should govern the services of all libraries:

1. As a responsibility of library service, books and other reading matter selected should be chosen for values of interest, information and enlightenment of all the people of the community. In no case should any book be excluded because of the race or nationality or the political or religious views of the author.

2. There should be the fullest practicable provision of material presenting all points of view concerning the problems and issues of our times, international, national, and local; and books or other reading matter of sound factual authority should not be proscribed or removed from library shelves because of partisan or doctrinal disapproval.

3. Censorship of books, urged or practiced by volunteer arbiters of morals or political opinion or by organizations that would establish a coercive concept of Americanism, must be challenged by librarians in maintenance of their responsibility to provide public information and enlightenment through the printed word.

4. Libraries should enlist the cooperation of allied groups in the fields of science, of education, and of book publishing in resisting all abridgment of the free access to ideas and full freedom of expression that are the tradition and heritage of Americans.

5. The rights of an individual to the use of a library should not be denied or abridged because of his race, religion, national origin or political view.

6. As an institution of education for democratic living, the library should welcome the use of its meeting rooms for socially useful and cultural activities and discussion of current public questions. Such meeting places should be available on equal terms to all groups in the community regardless of the beliefs and affiliations of their members.

By official action of the Council on February 3, 1951, the Library Bill of Rights shall be interpreted to apply to all materials and media of communication used or collected by libraries.
School libraries are concerned with generating understanding of American freedoms and with the preservation of these freedoms through the development of informed and responsible citizens. To this end the American Association of School Librarians endorses the Library Bill of Rights of the American Library Association and asserts that the responsibility of the school library is:

To provide materials that will enrich and support the curriculum, taking into consideration the varied interest, abilities, and maturity levels of the pupils served.

To provide materials that will stimulate growth in factual knowledge, literary appreciation, aesthetic values, and ethical standards.

To provide a background of information which will enable pupils to make intelligent judgments in their daily life.

To provide materials on opposing sides of controversial issues so that young citizens may develop, under guidance, the practice of critical reading and thinking.

To provide materials representative of the many religious, ethnic, and cultural groups and their contribution to our American heritage.

To place principle above personal opinion and reason above prejudice in the selection of materials of the highest quality in order to assure a comprehensive collection appropriate for the users of the library.

Adopted July, 1955
American Library Association Council
THE FREEDOM TO READ

It is in the public interest for publishers and librarians to make available the widest diversity of views and expressions, including those which are unorthodox or unpopular with the majority.

Publishers and librarians do not need to endorse every idea or presentation contained in the books they make available. It would conflict with the public interest for them to establish their own political, oral or aesthetic views as the sole standard for determining what books should be published or circulated.

It is contrary to the public interest for publishers or librarians to determine acceptability of a book solely on the basis of the personal history or political affiliations of the author.

The present laws dealing with obscenity should be vigorously enforced. Beyond that, there is no place in our society for extra-legal efforts to coerce the taste of others, to confine adults to the reading matter deemed suitable for adolescents, or to inhibit the efforts of writers to achieve artistic expression.

It is not in the public interest to force a reader to accept with any book the prejudgment of a label characterizing the book, author as subversive or dangerous.

It is the responsibility of publishers and librarians, as guardians of the people's freedom to read, to contest encroachments upon that freedom by individuals or groups seeking to impose their own standards or tastes upon the community at large.

It is the responsibility of publishers and librarians to give full meaning to the freedom to read by providing books that enrich the quality of thought and expression. By the exercise of this affirmative responsibility, bookmen can demonstrate that the answer to a bad book is a good one, the answer to a bad idea is a good one.

CALIFORNIA ASSOCIATION OF SCHOOL LIBRARIANS

POLICIES ON INTELLECTUAL FREEDOM IN LIBRARIES

Intellectual Freedom in Libraries

A Statement of Policy

Adopted by California Library Association
School Library Association of California

A. Preamble

The following statement of policy was developed by the Intellectual Freedom Committee of the California Library Association and Book Selection Policies Committee of the School Library Association of California. These professional associations are directly concerned with the freedom of all members of a democratic society to read what they will in the course of making the social, educational, and political judgments on which that society is based. Without such freedom the very fabric of democracy is in danger. There is evidence that books and libraries are the chief bastion against the pressures toward conformity which are in large part already overwhelming the motion picture, radio and television, and the press. Only in libraries can the interested citizen hope to find all the relevant facts concerning current controversial issues. It is appropriate that librarians should deem their freedom and that of their libraries of the utmost importance to the continued existence of democracy.

B. Authority

Through their respective Executive Boards the Associations have sponsored the Intellectual Freedom Committee of the California Library Association and the Book Selection Policies Committee of the School Library Association of California to act in their behalf in all four areas of concern described below. These areas of concern constitute continuing responsibilities of the two Committees, acting separately or together, until this Statement of Policy is amended or revoked.

C. Areas of Concern

1. The Associations are concerned with watching for proposed legislation at the state, local, and school district level which might place library collections in jeopardy or which might restrict, prejudice or otherwise interfere with the selection, acquisition or other professional activities of librarians.

   The Committees are instructed to write letters to and talk with legislators and administrators to present the Association's point of view, and to appear before legislative and administrative committees in the interest of preserving freedom of the press and the right to read.

2. The Associations are also concerned with legislation at the state, local, and school district level which tends to strengthen the position of libraries and other media of communication as instruments of knowledge and culture in a free society.

   The Committees are instructed to watch for legislation in the general field of the communication of knowledge and ideas which the Associations might desirably support as being beneficial to the whole concept embodied in the
phrase "Freedom to Read." The committees are instructed to inform the Association memberships of such impending legislation, to present their recommendations, and to tender the Associations' support to such legislation.

3. The Associations are concerned with proposed or actual restrictions imposed by administrative authority on library materials or on the selection judgments, order procedures, or administrative practices of librarians. The Committees are instructed, at will or on request of either party to a controversy, to (a) determine the facts; (b) develop a statement of the Associations' position in relation to this statement of policy; (c) present the Associations' position to all interested parties, including the Press, when, in the Committees' judgment, this seems wise or necessary.

4. The Associations believe that every library in order to strengthen its own selection process and to provide an objective basis for the evaluation of that process, should develop an official statement of policy for the selection of library materials. The Committees are instructed to collect existing selection policies from all types of libraries, to promote their development and official adoption by libraries not yet having them, and to develop sample prototypes of selection policies for the guidance of librarians writing such policies.

PROTECTING THE STUDENT'S RIGHT TO READ AND TO BE INFORMED

The California Association of School Librarians support the belief that:

... each student has the right to read and to be informed

... each person, including the student himself, has the responsibility to protect this right to read and to be informed

... each student has the right to study and discuss significant moral, scientific, social, economic and political issues

... each student must have access to a wide variety of books and other materials related to the curriculum and to his personal needs

... each type of learning material must be evaluated in terms of the course of study, methods of teaching, and the personal growth and development of the student

APPENDIX 4 D
... each student according to his maturity level, has the right to have access and to use these materials in order to develop an ability to exercise critical judgment, make wise choices, and to be a contributing member of a democratic society

... any attempt to impose specific ideas or to limit the thinking of students must be withstood

Betty Bell moved that we approve Protecting the Students' Right to Read and be Informed as amended and read by Paul Crawford, member, Instructional Materials Committee. Seconded by Bob Muller. Motion carried.

A RESOLUTION
CALIFORNIA ASSOCIATION OF SCHOOL LIBRARIANS

Be it resolved that the California Association of School Librarians is vigorously opposed to any law, however well intentioned, which curtails intellectual freedoms by denying access to literature, art and museum objects, motion pictures and other media of communication on the grounds that such matter is obscene, pornographic, or indecent without the proper legal safeguards as interpreted by the United States Supreme Court to protect works of art or literature from arbitrary or capricious censorship.

Be it further resolved that the California Association of School Librarians is therefore opposed to the following proposed bills:

A.B. 9; S.B. 79; S.B. 79; S.B. 96 as failing to provide those safeguards and/or being so vague and imprecise so as to render the law unworkable.

APPENDIX A D
TO: School Administrators
FROM: State Board of Education
SUBJECT: Resolution pertaining to local discretion in the selection and retention of books

The State Board of Education at its meeting in Los Angeles on May 24, 1963, adopted the following resolution:

BE IT RESOLVED, that books in our public schools should continue to be chosen by local school district librarians, teachers, and school officials for the purpose of satisfying the educational needs of the serious student and the inquiring mind; and

BE IT FURTHER RESOLVED that any pressure to restrict the choice of local schools, or to remove books from local school libraries should be resisted, whether the pressure comes from local groups espousing a particular point of view or from state officials.
STATEMENT ON LABELING

In view of our own convictions and those of other practicing librarians whose counsel we sought, the Committee on Intellectual Freedom recommends to the A.L.A. Council the following policy with respect to labeling library materials.

Librarians should not use the technique of labeling as a means of predisposing readers against library materials for the following reasons:

1. Although totalitarian states find it easy and even proper, according to their ethics, to establish criteria for judging publications as "subversive," injustice and ignorance rather than justice and enlightenment result from such practices, and the American Library Association has a responsibility to take a stand against the establishment of such criteria in a democratic state.

2. Libraries do not advocate the ideas found in their collections. The presence of a magazine or book in a library does not indicate an endorsement of its contents by the library.

3. No one person should take the responsibility of labeling publications. No sizable group of persons would be likely to agree either on the types of material which should be labeled or the sources of information which should be regarded with suspicion. As a practical consideration, a librarian who labeled a book or magazine pro-communist might be sued for libel.

4. Labeling is an attempt to prejudice the reader, and as such it is a censor's tool.

5. Labeling violates the spirit of the Library Bill of Rights.

6. Although we are all agreed that communism is a threat to the free world, if materials are labeled to pacify one group, there is no excuse for refusing to label any item in the library's collection. Because communism, fascism, or other authoritarians tend to suppress ideas and attempt to coerce individuals to conform to a specific ideology, American librarians must be opposed to such "isms." We are, then, anticommunist, but we are also opposed to any other group which aims at closing any path to knowledge.

Unanimously adopted by the American Library Association Council, July 13, 1951.

APPENDIX 5
PROCEDURE FOR HANDLING CHALLENGES OR CRITICISMS CONCERNING BOOKS OR OTHER REFERENCE MATERIAL

I. Whenever a citizen of the District wishes to register a suggestion or criticism concerning instructional materials recommended for Board adoption or in current use, he shall be expected to provide the following information in writing to the Superintendent of Schools, in order that his viewpoint may be considered thoroughly and objectively:

A. His name, home and/or business address, and telephone number(s)
B. Date of communication
C. Group or organization, if any, which he represents
D. Author, title, publisher, and copyright date of subject material
E. Specific reasons for suggestion or criticism
F. Page reference for each objection, and specific nature of each objection
G. Suggested disposition of material being challenged (i.e., exclude or withdraw from all students; reconsider in comparison with other specified material; substitute another specified age group of students for whom material shall be available; other disposition)
H. Suggestions, if any, on other material he considers to be more appropriate, and reasons for his opinion

II. The Superintendent shall inform the Board of Education regarding the citizen's challenge, and shall present a recommendation for the Board's consideration as early as feasible after following the procedure outlined below

III. The following procedure shall be followed for review of instructional materials:

A. The book or other material shall be returned to the appropriate district committee for re-evaluation, along with the materials presented by the citizen. This committee is to be made up specifically of professionals in the area under challenge. It is understood that they can, and are urged to, use additional expertise of professional staff within the district

B. The committee shall submit a report to the Superintendent on the materials under consideration, including:
   1. An analysis of the material, relative to the criticisms of the citizen; and
   2. Recommendations
IV. If the Board determines a need for further study, a committee of experts in the field shall be appointed, to include:

A. Two members of the appropriate material selection committee;
B. Three professionally qualified members of the Santa Barbara community, in the field in question or closely related fields;
C. One member of the teaching staff of Santa Barbara City College, or one member of the teaching staff of Westmont College;
D. One member of the teaching staff of U.C.S.B.; and
E. One member of a local public library who has expertise in this field and/or in the area of instructional material selection criteria; or

V. The committee shall submit a report to the Board of Education on material under consideration, including:

1. An analysis of the material, relative to the criticisms of the citizen; and
2. Recommendations

VI. The citizen shall be informed in writing of the Board's decision relative to his suggestion or criticism

Subject: Family Life/Sex Education

Date: September 19, 1969

The new state legislation on Family Life/Sex Education instruction requires that any written or audio-visual material used in a class in which human reproductive organs and their functions and processes are described, illustrated, or discussed, shall be available for inspection by parent or guardian prior to the holding of the course.

As noted in our letter to parents, materials for instruction in Family Life/Sex Education will be available for examination in our Health Instruction Office. In order that we may have a complete set, please send to Mrs. Henriksen by Friday, September 26, one copy of any instructional material for class use that describes, illustrates, or discusses the functions and processes of the human reproductive organs.

Related supplementary or library material may also be available in your school for study by individual students or small groups. When such material is used for instruction of a class, parents must be given the opportunity to examine it. Certificated personnel directly responsible for use of such material not deposited in the Health Instruction Office should be reminded of their responsibility.

You may want to schedule a meeting for teachers and librarians to discuss mutual legal responsibilities and to establish effective procedures. Mr. Barkelew, Mrs. Henriksen, and Dr. Barron are available for such meetings.
