The Inventory was constructed to measure career awareness among elementary school students. In Test I students are shown a number of pictures portraying workers. They are asked to identify the worker's occupation in each situation. In Test II they identify which occupation requires a college education. Test III assesses the workers they may know; Test IV assesses their knowledge of workers who perform services from those who make products; Test V examines prestige; VI at occupational clusters; and VII at what workers in different jobs like to do. For information on its construction, administration, and interpretation, see CE 000 371. (AG)

DIRECTIONS: We are going to look at some pictures that show people working and doing various jobs. As we look at the picture we are going to "identify" the worker or occupation labelled with a capital letter such as "A", "B", or "C". There are 5 choices given. You are to mark the number of the answer that best identifies the worker. Let us do the sample together.

SAMPLE: Which of the following best names worker A in the sample picture?

1. A) artist  
   B) home economist  
   C) teacher  
   D) nurse  
   E) principal

Picture 1

The best answer is letter C "teacher". On your answer sheet mark within the lines letter C after the first answer.

We look at the same picture to choose a worker that is most closely related to a teacher. There are 5 choices. You are to mark the number of the answer that is most related to the worker in the picture. Let us do the sample together.

SAMPLE: Which worker is most related to the occupation shown in picture 1?

2. A) truck driver  
   B) chemist  
   C) doctor  
   D) principal  
   E) farmer

The best answer is letter D "principal". On your answer sheet after the second answer mark within the lines letter D.

You will mark your answers in this way for each picture. Are there any questions? We begin marking at the third answer and will finish this section and stop at number 63.

End of Test III.
DIRECTIONS: When we use the word "product" we mean things that we can feel, wear or touch, for example. Some workers are basically concerned with making products. Other workers are more concerned with "doing things" or "performing a service", for example, cutting our hair. Therefore, some jobs are usually considered "service occupations". In this question there are pairs of workers. You are to mark the number of the worker in each pair that you feel is basically a product occupation, that is, they make things for people. Let us do the sample together. Which picture shows a product occupation?

SAMPLE:

102.

A. glassblower
B. lawyer

The worker, letter A, glassblower, shows a product occupation. Therefore on your answer sheets mark letter A after answer number 102. Are there any questions? Stop at number 106.

103.

A. farmer
B. nurse
104. A. carpenter  

105. A. postman  

106. A. motel clerk  

B. cashier  

B. welder  

A. photographer

End of Test IV
DIRECTIONS: Sometimes different jobs are thought of by people as having a better standing or higher prestige and status than others. For example, the occupation of President of the United States can be thought of as having more prestige than the mayor of your town. High prestige jobs are those that you especially respect or admire. In this question, pairs of occupations are presented in pictures. You are to mark the letter of the worker in each pair that you feel has higher prestige or status. Are there any questions? Stop at number 111.
