In an effort to orient the student of Latin to the humanities, a series of three guinmester courses focus on various aspects of life of a Roman family in the first century A.D. The third part of the trilogy, to be used independently or in sequence, concentrates on the telling of time by day and year, all about schools, animals, and gladiatorial combats. Emphasis is placed on English derivatives and on the comparison between Roman and contemporary society. A course description, goals and performance objectives, outline of course content, suggested activities, expansion of materials, and evaluation and references are included. Listening, speaking, reading, writing, values, and attitude performance skills are specified. Related documents include Part I, FL 004 663; Part II, SO 007 090.

**Attitudes:** VI-A,B

This is difficult to evaluate except for the pupils' active interest in the language in all its phases and in the people who spoke it. He should display an attitude of sympathetic understanding toward the culture, its people, and its language. He should demonstrate his awareness of some of the many reasons for studying Latin and perhaps the best way to evaluate this would be by his desire to continue his study of the language. To facilitate as objective an evaluation as possible, the following guide for noting activities of each student could be kept.
<table>
