Program objectives for 1973 for library services in Florida under the Library Services and Construction Act are delineated with a rationale and criteria for some of the programs. Tasks to accomplish these objectives are followed by beginning and termination dates for each task. Some programs included in the revision are the State library agency services, public library system development, book processing, service to special groups such as the aged, children, young adults, disadvantaged, the handicapped, and those in State institutions, a communications network project, union list of serials program, media projects and various grant proposals. To develop measures of library service outputs to be used along with standards in setting criteria of evaluation of services.

Assumption

Public library and state institution library standards are not totally adequate for measuring outputs of library service. 2. Adequacy of output measures when applied to evaluation of service.

Task - Development of library output measures or indicators.

6. Grants will be a maximum of $50,000 base grant per year. This base grant is computed by applying the annual federal-state matching ratio to local operating budget. In addition, there is a 10¢ per capita added for population above 50,000 and up to 100,000. The grant is awarded annually for two years. An additional grant of 10¢ per capita up to a maximum of $10,000 shall be allocated to an existing library system for one year upon the addition of a new county to the system.
POLICY -- PUBLIC LIBRARY SYSTEM DEVELOPMENT PLANNING GRANT

Some of the counties have library service of some type, usually municipal libraries serving their incorporated area. Some serve unincorporated areas as well. Other counties have no established library service.

Task - Awarding of public library development grants at the rate of two per year to counties establishing library service or going into a system.

3. There are now twenty-five major state institutions providing inadequate library service for their residents. A recent survey conducted of the major institutions revealed a total of 166,428 volumes in the libraries with only $276,577 expended for library service, which included salaries. It must be assumed that a large number of the volumes reported were donated to the institution and, on the whole are not desirable for the institution setting. Many should be discarded and replaced with new volumes selected to meet the needs of the residents.

LIBRARY SERVICE TO THE AGED

POLICY

Grants for library service to the aged are available to all counties receiving state aid. Those counties which have the highest percentage of aged residents (20% and over) will be given priority for grant awards provided they are eligible for state aid. Those counties are as follows: Charlotte, Citrus, Hernando, Highlands, Lake, Manatee, Martin, Osceola, Pasco, Pinellas, Sarasota, Volusia.

8.111 IMMEDIATE OBJECTIVE

To identify and cooperate with various agencies, public and private, which are involved with services for the aged.
Assumption

Numerous agencies, public and private, are providing services to the aged. In order to affect a total service program for the aged, all agencies involved in service programs should cooperate and coordinate efforts. Service programs may then prove to be more effective and efficient.

Criteria

1. Identification of public and private agencies serving the aged.

2. Number of social agencies with which library is engaged in cooperative activities (Ideal = total number of social agencies serving the aged in a given location).

Task - Identification and cooperation with agencies serving aged.

Time:  (Start)  July 1, 1973  
        (Finish) June 30, 1978  LSCA termination  
                        June 30, 1979  State termination  

112 IMMEDIATE OBJECTIVE

To provide personnel in all levels of library service with knowledge and understanding of the aged.

Assumption

Personnel who have knowledge and understanding of the needs and interests of the aged should be provided to work with programs to serve the aged. This personnel should include professional librarians and the aged themselves. There should be at least one person involved in each project for the aged who has the special knowledge of how best to serve the aged.

Criteria

Number of libraries serving the aged having personnel working with the program (Ideal = one person per program).

Task - Provide LSCA Title I grants to public libraries which will assist in providing service to the aged, including professionals with understanding of the problems of the aged and members of this age group themselves.

Time:  (Start)  July 1, 1973  
        (Finish) June 30, 1978  LSCA termination  
                        June 30, 1979  State termination  

8.113 IMMEDIATE OBJECTIVE

To provide library materials especially suited to the needs and interests of the aged.

Assumption

1. Because of physical disabilities such as loss of eyesight, loss of muscular coordination, etc., it is necessary to provide certain special materials in order to adequately serve the aged. Many of the elderly require large print materials, talking book machines and record disks, etc. Often audio-visual materials are preferable because some elderly find holding a book difficult.

2. The subjects included in materials supplied to the aged may be wide in variety. Light or recreational material on a variety of subjects is certain to be requested by the aged library users. The kinds of subjects provided for the aged should be no different from those which are provided for the general public. Materials also need to be provided which will give the aged person information useful in adjusting to his new life style such as social security information, health services available to him, etc.

Criteria

1. Percentage of user satisfaction with kinds of library material provided. (Ideal = 75%).

2. Percentage of user satisfaction with subjects available in specialized formats especially suited for use by the aged. (Ideal = 75%).

3. Number of libraries in areas of high aged population concentration which provide materials suited for use by the aged. (Ideal = all libraries).

4. Number of aged using materials provided especially for them, as compared to the total aged population in a given area. (Ideal = constant increase).

Task - Provide LSCA Title I grants to public libraries for providing materials especially suited to the aged, such as large print materials, audio-visual materials, etc.

Time:

(Finish) June 30, 1978 LSCA termination
June 30, 1979 State termination
8.114 IMMEDIATE OBJECTIVE

To develop library programs especially suited to the needs and interests of the aged.

Assumption

Because of his lifestyle, the aged citizen has special needs and interests and any library program addressing itself to the aged should consider this. Programs should be developed which will assist the aged citizen to adjust to a new way of life. For some, there are changes due to retirement, smaller income, failing physical conditions, and loss of independence which must be compensated for if they are to live satisfactory lives. Library programs, by providing information, education and entertainment, may assist the elderly in making their adjustment.

Criteria

1. Percentage of user satisfaction with programs. (Ideal = 75%).

2. Number of libraries in area of high aged population concentrations which provide programs for the aged. (Ideal = all libraries).

3. Kinds of programs offered by each library.

Task

1. Provide LSCA Title I grants to public libraries to assist in providing programs aimed at the aged, including recreational, educational and informational programs.

   (Finish) June 30, 1978 LSCA termination
   June 30, 1979 State termination

   June 30, 1979 State termination
8.115 IMMEDIATE OBJECTIVE

To develop the means of making library services and materials accessible to the aged.

Assumption

It is not always possible for the aged to come to the library building. Therefore, it is necessary to take the services and materials of the library to the aged where they are. The methods of doing this may vary: bookmobiles, vans, station wagons, home visitors, service to institutions with elderly residents, etc.

Criteria

1. Number of aged in a given area receiving library services and materials as compared to the total population to be served. (Ideal = constant increase).

2. Number of library programs outside of the library building as an indication of quality of service.

14.1 **LONG RANGE OBJECTIVE**

To provide easy access to the full range of media resources of libraries.

14.11 **INTERMEDIATE OBJECTIVE**

To overcome, insofar as is possible, the media resource inadequacies of each type of library.
14.111 IMMEDIATE OBJECTIVE

To increase accessibility to media resources through the communications network.
Assumption

1. Such devices as union lists, indexes, etc., make the process of location of media resources easier and faster. They provide for greater accessibility to media resources of all types.

Conference of directors and staff on the public library network (four resource center libraries) to review the administration and operation of the communications network as it pertains to their interlibrary loan and resource center activities.

Assumption

1. The communications network has been in operation since 1968. During that time, little has been done to standardize operations or review administrative activities. Also, closely tied to the public library network is the regional resource center concept. It appears that a meeting of all those administratively and operationally involved with these activities would serve to improve the communications network.
