The materials of this program are written to individualize the teaching of Spanish to English speakers, and are designed to provide as much flexibility as possible for both the teacher and student. The materials can be used for large groups, small groups, and individual work, although direct teacher-student contact is considered to be beneficial. This package is focused on typical dances of the Spanish world. The materials included in the course are a teacher's booklet, a student's booklet, and tapes. The teacher's booklet contains specific instructions, the written copy of the taped oral presentation of the material with answer keys, a vocabulary list, and bibliographic references as well as the full content of the student's booklet. The student's booklet comprises oral general presentation of the material in the package, and performance objectives for parts 1, 2, and 3, which consist of: content descriptions, pictures, listening comprehension and speaking exercises, self-check tests, silent reading and writing, cruci-cruci (cross words), and maps. INSTRUCTIONS FOR THE TEACHER

The materials of this program are written to individualize the instruction and to provide as much flexibility as possible for both the teacher and the student.

The materials can be used for large group, small group and individual work, and this facilitates more effective learning for the student. However, it should be clearly understood that direct teacher-student contact continues to be of primary importance.

LARGE GROUP

The term, "large group," refers to the entire class or to that portion of a class, 10-20 in number, which is working at the same rate.

SMALL GROUP

The term, "small group," refers to 3-5-6 etc. students who are at the same point of development in their studies. The students in small group activity are capable of studying together on their own without direct supervision after receiving specific instructions from the teacher. Small groups will spontaneously arise as an outgrowth of the large group instruction.

INDIVIDUAL WORK

This term refers to one student studying a set of materials at his own rate. He can progress as slowly or as rapidly as he is able. Under the teacher's direction he should be able to move through the materials in an orderly progression of study.
