VII. COURSE PROCEDURES, STRATEGIES AND SUGGESTED LEARNING ACTIVITIES

A. Unit I - To include a history of the classical period and its characteristics knowledge of the social trends will better prepare the pupil and he will learn to recognize classical composers and the classical style of writing by first exploring the meaning of "classical" and understanding the historical implications of this period.

1. A discussion of the term "classical" and what the pupils believes it to mean can draw out the true meaning of classical as related to the 18th century.

Note: True meaning of "classical" can be found in:

2. The social and political changes in Italy and France in the late 18th century are of primary importance in understanding the evolution of classicism. Discussions should encompass: 1, 2, 3

a. The Cosmopolitan Age and national differences

b. Enlightenment and Humanitarianism. With the rise of the middle class, rulers became interested in social reform. They sponsored public concerts as a symbol of these reforms.

---

1*The History of Western Civilization* pp. 412, 413, 414
c. Polarization of art and learning, a growth of the "back to nature" movement.
d. Prosaic age – all literature was prose.
e. Discussion of "rococo" in art, literature, architecture, and music.

3. Development of classical style, includes:
   a. Crystallization of musical forms into fixed patterns.
   b. A harmonic chordal pattern
   c. Modifications in the use of counterpoint. Harmonies were used according to patterns of root progressions established by Rameau in 1722.

   (1) Cycle of fifths

   Note: Though unrelated to the Classical Period, modern examples of the cycle of fifths would prove interesting as a listening lesson.

   (a) Patterns of Jazz, Jerry Coker, Jimmy Casale, Gary Campbell and Jerry Green, 1970.

   (b) Album, The Blues and the Abstract Truth, Impulse S-5

4. Variations in dynamics, including the crescendo, diminuendo, forte, piano, sforzando and staccato are clearly evident in Haydn's Surprise Symphony in G Minor. (any good recording)

5. Pupils learn that the symphony orchestra had not yet reached the peak in instrumentation, but was steadily growing with the addition of woodwinds and some brasses (horns and trumpets).
6. The true classical style is developed in the new forms:
   a. The sonata-allegro form
   b. The classical symphony.

   These forms can be found in their entirety under the content outline. Suggested listening for the classical symphony and the sonata-allegro form: Haydn's London Symphony No. 104.

7. An excellent film depicting life during the classical period: Mozart and His Music, Coronet, 1944.

B. Unit II

1. Review
   a. Social characteristics of Classical Period
   b. Recordings
   c. Classical forms
      (1) Symphony
      (2) Sonata-allegro

2. Characterize music of the Classical Period
   a. Instrumental music: Classical spirit more evident in instrumental music than opera.
   b. Melodic style: Individual and compact in character, often folk-like, instead of the long lines and the involved figuration of baroque polyphony.
   c. Homophonic style gains precedence over polyphonic style. At this point a discussion of the "Alberti bass" would be appropriate.4

---

4 A History of Western Civilization, p. 418
d. Though counterpoint has not been discarded as a musical tool, it is of secondary importance at this time.

e. Orchestration: The basis of modern orchestration was established in the Classical Period by establishing the standardization of instrumental combinations and added attention to varieties of instrumental tone-color. This achieved an expressive style which became known as the "Empfindsamer Stil."

(An excellent film exemplifies this style and introduces the music of J. S. Bach's sons: Bach Family, The UMIV, 1959 Kinescope. Among the selections included in this film are:

- Canonic Trio
- Trio Sonata
- Trio in A Minor)

f. The introduction of dynamics in the classical period can be reviewed by listening to excerpts from Haydn's Surprise Symphony in C Minor.

C. Unit III

Devoted to composers who were most influential in bringing about the classical feeling of enlightenment through their music.

Divide the class into four committees (if the class is small). Let each elect a chairman who will draw one of these names: Gluck, Haydn, Mozart, Beethoven. If the class is large, and
names of other Classical composers listed in the outline. This unit is to be student-oriented, the instructor serving as a resource and adviser. Library time, concert field trips, in-school live performances can all be planned by the steering committee and instructor. Each pupil will be assigned a composer or facet of a composer's life for in-depth research and report. Encourage use of scores, pictures, recordings, film strips, or any audio-visual material pertinent to the individual reports. Be sure each student creates an awareness of the influence of the politics, economics, and locale upon the composer's creative output.

Also, encourage a maximum of individuality and projection of self into the study and consequent reports. A "This is Your Life", or "You Are There" mini-drama, live performances by vocal and/or instrumental groups of pupils might be outcomes of committee work.

Suggested A-V materials:

Recordings, Surprise Symphony and Symphony No. 101 (The Clock) - Haydn; Music in Perspective, Melvin Berger & Frank Clark

Film, Mozart and His Music

Recordings of Mozart: The Marriage of Figaro, Symphony No. 40, Piano Concerto No. 3, Requiem, Don Giovanni.

Glorious Things of Thee Are Spoken

John Newton

Glorious things of thee are spoken, Zion, city of our God!

He, whose word cannot be broken, Formed thee for His own abode.

On the Rock of Ages founded, What can shake thy sure repose?

With salvation's walls surrounded, Thou mayst smile at all thy foes.

My Mother Bids Me Bind My Hair

Franz Joseph Haydn

Allegro

1. My mother bids me bind my hair With bands of rosy hue,
2. 'Tis sad to think the days are gone When those we love are near.

Tie up my sleeves with ribbons rare, And lace my bodice blue,
I sit up on this mossy stone, And sigh when none can hear.

For why, she cries, sit still and weep, While others dance and play?
And while I spin my flaxen thread, And sing my simple lay

A - las! I scarce can go or creep, While Lubin is a - way.
The village seems a - sleep or dead, Now Lubin is a - way,

A - las! I scarce can go or creep, While Lubin is a - way,
The village seems a - sleep or dead, Now Lubin is a - way,

While Lubin is a - way, is a - way, is a - way.

Allegretto

Franz Joseph Haydn

Maiden fair, O deign to tell If my ditty please thee,

Then I’ll sing a last fare-well, And no longer tease thee.

Hymn to Joy

J. C. Friedrich von Schiller
Translated by Albert Stoeessel

Ludwig van Beethoven from Symphony No. 9

Hail to thee! Oh joy divine, thou daughter of Elysium,
We approach thy shrine all holy Singing praises as we come,
Bound together by the spell the radiance of thy presence brings, All
man-kind shall be as brothers in the shadow of thy wings.

THE HEAVENS RESOUND

Ludwig van Beethoven
(Words by Andreas Hofer)

The heavens resound with His praises eternal, In might and glory they combine.

The Voice of Praise
(Ave verum)

J. Lilian Vandevere
Wolfgang Amadeus Mozart

Great Creator, all creation, Thee who comforted the lonely heart,

Tender Father, Thee we worship. We sing of Thy loving care.

Nature teaches all Thy glory, speaks in beauty to tell Thy praise.

Earth and sky show forth Thy glory and lead all our thoughts to Thee.

O God of love, let Thy children praise Thy name!

X. ASSESSMENT

Course offerings should be assessed in terms of their own objectives. These may involve especially prepared tares of short phrases for identification, self-designed tests, teacher observation, student interview, group discussion, and observable reaction. Information and data learned is not as important as learning good listening attitudes and habits and absorbing the cultural historical patterns of the era.
