ABSTRACT

Project Unidos is an E.S.E.A. Title VII Bilingual/Bicultural program in Riverside County, California. The project is responsible for the organization and administration of inservice and preservice programs for approximately 43 certified teachers and 43 classified instructional assistants. This is the final evaluation report on a series of summer preservice workshops conducted during a 14-day period. The report is organized and written to serve as an organizational and evaluative model for the development of future Title VII pre- and inservice programs. The model encompassed three large general stages with six organizational phases. The preoperational stages were preassessment, setting of goals and objectives, and final assessment. The operational stage consisted of implementation. The evaluation stage consisted of evaluation and feedback to staff. Section 2 includes scores for the participating personnel on a questionnaire evaluating the workshop. Included in the appendix are the Needs Assessment Instrument and its results, the evaluation instrument used in the workshop, and the 1974 Summer Preservice Workshop Agenda. (Author/RC)

BACKGROUND

Project Unidos is an E.S.E.A. Title VII Bilingual/Bicultural program in Riverside County. The project has classrooms in the following school districts: Riverside, Corona-Norco, and Alvord Unified, together with Elsinore and Perris Elementary. The project is responsible for the organization and administration of inservice and preservice programs for approximately 43 certificated teachers and 43 classified instructional assistants.

This is the final evaluation report on a series of summer preservice workshops conducted during a 14-day period. The report is organized and written to serve as an organizational and evaluative model for the development of future Title VII Pre and In-Service Programs.

SUMMER WORKSHOP STRUCTURE

The 1974 Summer Workshop on Bilingual/Bicultural Education was organized on a system-based model. The sequential time-line is diagrammed in Table A. The model encompassed three large general stages with six organizational phases. The organizational model is diagrammed below:

- PHASE I: PRE-ASSESSMENT
- PHASE II: SETTING OF GOALS AND OBJECTIVES
- PHASE III: FINAL ASSESSMENT

PHASE I: PRE-ASSESSMENT

The pre-assessment phase had two basic aims:

1. To establish a summer workshop advisory committee, with the composition made up of project teachers and teacher assistants. The function of this committee would be to assist the project director in organizing the summer workshop.

2. To mail a two-page survey to each of the project teachers and teacher aides for the solicitation of ideas as to the structure of the summer preservice workshop.

On February 12, the Project Director met with the entire teaching staff at the Curriculum lab in the Riverside Unified School District. During this meeting, the director discussed and presented preliminary plans for the 1974 summer workshop. As a result of this meeting, a teacher and teacher assistant advisory committee was established to assist the director in structuring the summer workshops. Below are outlined the names of those persons formulating the committee:

- Chenta Quintana Teacher Lincoln School; Corona-Norco Unified School District
- Aurora Gonzales Teacher Assistant Lincoln School; Corona-Norco Unified School District
- Marina Mosqueda Teacher Lincoln School; Corona-Norco Unified School District
- Rachael Pino Teacher Assistant Lincoln School; Corona-Norco Unified School District
- Vera Harrison Teacher Lincoln School; Corona-Norco Unified School District
- Lucille Ahumada Teacher Assistant Lincoln School; Corona-Norco Unified School District
- Tina Marinez Teacher Jackson School; Riverside Unified School District
- Warren Jones Teacher Garretson School; Corona-Norco Unified School District
- Mr. Ignacio Alfaro Principal Longfellow Elementary School Riverside Unified School District
- Mr. Armando Lopez Administrative Assistant Riverside Unified School District
In keeping with the proposed aims of the pre-assessment phase, a two-page survey was sent to all project personnel on March 4. This survey gave the entire staff direct input into the structuring and organizing of the workshop. The survey also served as a guide in outlining specific staff instructional needs to the Project Director. The deadline for returning the survey was March 15, which enabled the staff two weeks to complete the survey—although some were returned as late as March 21. A copy of this survey can be reviewed in the appendix of this report.

From March 15 to the first week of April, the results of the survey were tabulated and summarized by the Project Director, Fernando Worrell. The results of this survey can also be reviewed in the appendix of this report.

PHASE II: SETTING WORKSHOP GOALS AND OBJECTIVES

On April 5, the Summer Advisory Committee of teachers and teacher assistants met with the Project Director to review the results of the survey. From these results the committee, together with the Director, formulated the following goal and objectives for the summer preservice workshop:

**GOAL:** To further develop instructional methods and materials relevant to Bilingual/Multicultural Education.

**OBJECTIVES:**

1. To provide consultants within specialized fields to assist classroom teachers in better implementing bilingual education.

2. To develop additional classroom materials relative to bilingual/multicultural education.

3. To review, identify, and select bilingual/bicultural materials appropriate to grade level.

4. To utilize expertise of project teachers in presenting workshops in bilingual/bicultural teaching techniques.

5. To gain some understanding from project-parents as they relate their concerns about bilingual/bicultural education.
After the formulation of the goal and objectives, the Director asked each of the committee members to review the survey results and return on April 22 with recommendations in the following areas:

1. Workshop location
2. Length of workshop
3. Daily schedule for the workshop
4. Subject matter emphasis
5. Specific consultants and speakers

PHASE III: FINAL ASSESSMENT

On April 22, the committee met again to finalize plans for the workshop. At this meeting the committee made recommendations in the following areas:

1. The area of concentration of the workshops should be Spanish as a second language instruction.

2. The workshops should be separated as per grade level, i.e. K-3, 4-6 concentration.

3. The workshop should be 14 days in duration starting June 24 and terminating July 13.

The Director, together with the committee's recommendations and keeping with the goal and objectives that were formulated, developed the following guidelines for the workshop:

1. A materials development workshop will be provided as to enable teachers and teacher-aides in developing classroom materials at the workshop.

2. A major portion of the summer workshops must be conducted by project teachers and teacher-aides.

3. A series of workshops must be conducted as to provide direct information from parents involved in the program.

4. A commercial materials exhibit room will be organized as to enable staff to review current materials in Bilingual/Bicultural Education.

5. Each Monday, a keynote speaker will present a concept as it relates to Bilingual/Bicultural Education. The three speakers chosen were:

   Dr. Meliton Lopez: Topic: "Bilingual/Bicultural Education as a Viable Educational Alternative."

   Dr. Carlos Cortes: Topic: "Multicultural Education Within an Elementary School Curriculum."
Dr. Ed. Steinman: Topic: "LaV vs Nichols: What does it Mean to Bilingual Education?"

6. The entire workshop is open to all persons interested in Bilingual Education, not just project persons involved in Project Unidos which was the case in the previous years.

PHASE IV: IMPLEMENTATION

On May 23, a letter describing the finalized plans and structure for the Summer Workshop was sent to all staff members. A copy of this letter is located in the appendix of the report.

Individual school visitations were made by the Project Director on May 20, 21, 22, 23, 24, 29, and 30. This enabled each school staff to clarify any questions, with the Director, that remained unanswered about the workshop. A complete agenda was printed and sent to each project teacher and teacher assistant by June 3. A copy of the entire agenda can be found in the appendix.

On June 3, the Project Director met with the advisory committee at one of the project schools. The purpose of the meeting was to again receive feedback from the staff as to the entire organizational structure. This was the final meeting before the actual starting date, which was June 24.

PHASE V: EVALUATION

The evaluation of the workshop was done on a post-test design. The evaluation format and questionnaire was constructed by the director, Mr. Fernando Worrell, and can be located in the appendix of this report.

The format of the questionnaire evaluated several facets of the workshop, one being the achievement level for the goal and each of the five proposed objectives. Together with measuring the goal and objectives, each of the workshop leaders were evaluated on a scale ranging from 1 to 6. The scale is outlined below:
1. Poorly prepared with no information made available.
2. Below average with little information provided.
3. Adequate, somewhat informative, but needed depth.
4. Above average, informative, but needed depth.
5. Good, informative, and well organized.
6. Excellent and extremely informative.

The third section of the evaluation questionnaire asked the teachers to answer the question, "At the completion of the workshop (I):"

1. Developed additional classroom materials.
2. Was able to review teacher-made and commercial bilingual materials.
3. Was able to gain a better understanding of the needs of parents as relative to the bilingual program.
4. Felt that this preservice workshop provided me ideas that I could implement in September.

The last section of the questionnaire was open-ended for the staff and had two questions as outlined below:

1. It asked the staff to draw a comparison between the 72-73 and 73-74 summer preservice workshop.
2. The last question asked for any personal reactions to the entire 73-74 Summer Preservice Workshop.

The final evaluation report of the workshop attempted to answer the following questions:

1. Was the goal of the summer workshop achieved?
2. At what level did the summer workshop complete its objectives?
3. How effective was each workshop leader in providing viable information to the staff?
4. How did both the teachers and teacher assistants evaluate the effectiveness of the entire workshop?
5. Was the workshop geared specifically to teachers and teacher assistants?
6. Was there any differences between teacher and teacher assistants at the two grade levels, i.e. K-3, 4-6, as to the effectiveness of the workshop?
7. How effective were the three guest speakers in communicating the message to both teachers and teacher assistants?
8. How adequate was the Material Development Room for the development of classroom materials?
PROCEDURE/FINDINGS

All teachers and teacher assistants were asked to fill-out a questionnaire evaluating the workshop. The questionnaire was filled-out the last day of the workshop.

Table 1 outlines mean scores for the 6 groups of participants at the workshops. As shown on Table 1, both teacher and teacher assistants had extremely high mean scores of 4.86 and 4.83. When the two groups were broken down by grade level, the mean scores were even higher. An analysis of the data indicates that both teachers and teachers assistants evaluated the workshop as good, informative, and well organized.

Table 2 sought to investigate differences between teachers and teacher assistants as to the over-all effectiveness of the entire workshop. As the t score indicate, there was no significant difference between teachers and teacher assistants. These results point out that information presented at the workshop was valuable for both teachers and assistants. It also substantiated that teachers and teacher assistants were both provided with valuable information specifically for their grade levels.

Table 3 presents means and t scores for only the 3 guest speakers. A mean score for teachers of 5.41, indicates that the three speakers provided good, informative, and well organized materials. The t scores of .022, .002, and .635 were non-significant, therefore, reinforcing the idea that information provided was relevant across all grade levels, as well as to teachers and teacher assistants.

Table 4 produced the percentage levels by teachers and teacher aides is assessing the degree of accomplishment of the workshop goal. The percentages overwhelmingly supported the success in achieving the workshop goal. Approximately 92% of the teachers and 91% of the assistants felt the goal was achieved. The percentages as to the grade levels were equally as high.
Tables 6, 7, 8, 9, 11, and 12 have outlined the achievement level for each of the four workshop objectives. Each table represents a different group of responses i.e.:

Table 6 = Teachers only
Table 7 = Teacher assistants only
Table 8 = Teachers Grade Level K-3
Table 8 = Teachers Grade Level 4-6
Table 10 = Teacher Assistants K-3
Table 11 = Teacher Assistants 4-6

The results for each of the objectives is extremely high. In all groups the percentage of responses as to the total achievement of the objectives was not less than 76%. Which meant, to say, that a great majority of the staff evaluated the 5 objectives as "totally achieved".

Table 5 outlines the percentages of responses by teachers to the question, "At the end of the workshop (I)". The results indicate that:

1. 100% of all the groups felt they developed additional classroom material.

2. Approximately 98% of all the groups felt they were able to review teacher made and commercial bilingual materials.

3. Approximately 96% of all the groups felt they were able to gain a better understanding of the needs of parents as related to the bilingual program.

4. 100% of all groups felt that this preservice workshop provided me with ideas I could implement in September.

Tables 5, 7, 8, 9, 11, and 12 also have the percentages of responses for each workshop leader. These percentages are broken out into the various groups i.e. teachers, teacher assistants, etc. These tables provided each workshop leader an opportunity for self evaluation and also the project director a more objective instrument in future workshop leader selection.
The questionnaire solicited staff comments on the topics:

1. Materials Development Room.
2. Materials Exhibit Room.
3. Comparison between 72-73 Summer workshop with that of the 73-74 workshop.
4. Reaction to the entire 73-74 Summer Workshop.

Below are outlined the staff comments taken from the questionnaire for each of the four areas:

1. MATERIALS DEVELOPMENT:

1. "A good supply neat! and pleasant atmosphere, good cooperation, and help from Ontiveros."
2. "Sorry that there was not enough material; fairly well organized."
3. "Excellent! Dick did an excellent job. Was on his toes all day Very dedicated!"
4. "Better organized, although it was a bit crowded during the rush hour."
5. "Excellent."
6. "Ran out of materials too soon but most of the time it was very good."
7. "It was an excellent idea to have it open--the game will be of great value in the future."
8. "The most helpful and practical idea yet in a workshop. There is nothing like taking home a finished product."
10. "Excellent idea--Would have liked some system so that materials were rationed more equitably."
11. "Good."
12. "Marvelous! Very helpful room."
13. "Very good--Sure was help to have a place to work."
14. "Excellent, but I believe that the distributions of materials could have been more equitable. So many of the new teachers involved in meetings, while the other teachers were using materials and we were left out."
15. "Well equipped and everything from clips to tag board was well furnished."
16. "Excellent under the circumstances—could have been more equitable distributed rather than first come, first serve, but after all, where there's a will, there's a way.

17. "They were really good, specially some of the materials and machines."

18. "Very well organized."

19. "Was great! We could have had more paper, but otherwise beautifully organized."

20. "Todo estubo estupendo! Fabuloso!!"

21. "Beautiful, Beautiful"

22. "Outstanding."

23. "Todo estubo estupendo! Fabuloso!!"

24. "Well organized, Dick Did a beautiful job in keeping us well supplied with everything we needed.

25. "Very good and useful."

26. "Excellent variety of materials available."

2. MATERIAL EXHIBIT ROOM:

1. "Excellent!"

2. "O.K."

3. "Great"

4. "Sorry, there was so many incidents of materials missing. Some of the materials were excellent."

5. "Very good if we would've had funds to order with."

6. "Very Good!"

7. "Beautiful"

8. "Took back many ideas for providing this, along with the teachers."

9. "Great, also, we had everything there to see and get ideas!"

10. "Good display—but more catalogues were needed and time to order materials."

11. "Very good. Loaded with excellent ideas."

12. "Beautiful! Very informative and everyone was willing to share."

13. "Excellent—all good quality."

14. "Enjoyed seeing the ideas and getting to play with them—to see how
they would work. Something sound and look good. But in actual practice aren't very good."

15. "Good"

16. "Very good. Had some trouble finding things."

17. "Could have been more exhibits."

18. "Fine!"

19. "The materials offered were numerous and varied. A larger room would have given us a better view of the materials."

20. "Excellent!"

21. "We had a wide range of materials to select for class activities."

22. "Good selection to look at and get ideas for purchasing materials."

23. "Adequate display but more ideas to be in the development room!"

24. "Informative for those who needed to see what is available in bilingual materials."

25. "A lot of great ideas."

26. "Excellent display of material for varied uses, I wish I would have had some money to spend."

27. "I was so busy utilizing ideas and creating games that I didn't see much in there."

28. "Very good."

29. "Fantastic!"

30. "Good exhibits, but would like to see more on cassettes, records, films, etc."

31. "Gave good ideas even if purchase wasn't made."

32. "Very good--lots of new ideas!"

33. "Outstanding!"

3. **COMPARE THIS WORKSHOP WITH THE 72-73 SUMMER PRE-SERVICE:**

1. "Much better--better orientated; More time to develop material; improved workshops."

2. "Even Better in quality and ideas."
3. "Very good."

4. "Much better, was an 'actual workshop' we really put out the work and utilized our time much better in developing games and better methods of teaching."

5. "This workshop was way better than the one last year. I enjoyed it more because of the teacher inservice. I felt that the co-operation between everyone was very good."

6. "Better, I worked more on this one, felt more involved."

7. "Last year was enlightening for me because this where I first heard of Dual Model, but this summer was the best organized workshop. The material covered and the interaction among staff members was great."

8. "Very good!"

9. "This one was 100% better!"

10. "This workshop provided more ideas and materials for participants."

11. "The 72-73 workshop had too much theory and not enough practical material development."

12. "I was not around for 72-73 Summer Pre-service. But this was better than 69-70, 70-71, 71-72."

13. "Last summer was good, but I feel that this workshop was more unified, 'hard hitting' and relevant to needs."

14. "This workshop was much more practical! Really enjoyed the opportunity to develop materials as went along. Thought teacher-given workshops were for most part--excellent!"

15. "This workshop was much more productive in the way of materials and much more meaningful."

16. "Better."

17. "I did not attend 72-73, but this pre-service was excellent."

18. "Both were great and exciting with a few exceptions."

19. "I have received many things from all the workshops."

20. "Better organized and more informative than last year."

21. "Much better."

22. "No estube presente en esa ocacion por motivos ajenos a mi voluntad."
23. "Teachers and aides were more aware of the needs of the classroom and thus applied themselves more. The consultants were more understood because the people thought on the same lines, now that we are involved and believe in the same thing."

24. "Better organized, more informative, not boring."

25. "This was the best by far. I have been in the project for 4 going on 5 years. I think the bringing in of teachers and consultants for our summer workshops was excellent."

4. REACTIONS TO ENTIRE 73-74 PRE-SERVICE WORKSHOP:

1. "The idea of involving us in for what we thought we needed for our summer workshop was great."

2. "I believe I came out of this workshop with a better understanding of Bilingual/Bicultural Education. I had more time to make material I can implement in my classroom next year. I think this workshop was very well organized. Teachers giving workshops were far more informative than the paid consultants."

3. "Very, very, good I would have been completely lost without it. I shudder to think that I might have been one of those teachers who will be hired with little or no preparation. Very informative and inspiring."

4. "Excellent. This was the first workshop I attended and was surprised to find all the different activities. Everyone was very friendly and made me feel at home. Mr. Worrell is a wonderful person and one we could not do without. He is essential to our bilingual program."

5. "I can use many of our project teachers ideas. Please open it up so more people can understand Bilingual education. Your people are very well informed, how about each school presenting a bilingual/bicultural workshop in their school."

6. "Enjoyed it very much. Everyone was very cooperative and friendly. Received loads of ideas and information. Looking forward to putting them to use."

7. "Tremendous opportunity. Impossible to absorb everything presented due to volume of material. I enjoyed each day. Program very well organized. I am proud to be part of this project aunque no soy chicana. Would quality of our classroom performance diminish without central office staff. NO!"

8. "Excellent! Made me more confident for the fall. Extremely sold on the program and at the quality and dedication of the experienced Bilingual teachers."
9. "Overall it was fantastic! A lot of hard work and often a rat race. I found the teacher workshops were on the whole great! I especially enjoyed Cortes and Steinman. I have a pet peeve about listening to lectures that are not meaningful and consultants that just come to either entertain or talk on a PhD level."

10. "Best inservice yet. And for its emphasis on 4-6 grades— it could have had a still greater degree of stress. There is such a wealth of information and materials at K-3 levels that materials for this part of the workshop are never difficult to find. But we really do need to dig a little more for upper grade materials."

11. "I feel this workshop gave two good foundations:
   1. It provided consultants to speak on basic theory and techniques.
   2. It provided experienced teachers who could demonstrate actual methods of application in the classroom."

12. "Lots of material, but needed more time to digest it."

13. "Excellent"

14. "I feel that the ones I attended were of great value."

15. "Fantastic!
    Great!
    Informative!
    Well organized!
    Beautiful!"

16. "Excellent-- tengo un monton de juegos, idea y cosas para el otono."

17. "Good, great, tremendous, but so tiring! It was well worth all the time and effort I have put into Bilingual program to come away with so many new and exciting ideas. I know this sounds silly, but I can hardly wait until September!"

18. "Compact with quality—right length of time."

19. "Very Good! It will be very helpful to me in September. Very well organized and very good selection of speakers. I especially enjoyed Al Pill, Dr. Steinman, and Dr. Cortes. I was able to make many materials and hopefully to implement new ideas in September."

20. "We had some excellent speakers within in our staff. Their workshops were well organized and very well presented. All in all an excellent workshop—one of the best."

21. "Excellent. We are getting better."
22. "I though that the interaction of both teachers and aides was great! I met a lot of resourceful and helpful friendly people. I especially enjoyed the presentation of the teachers and aides. This workshop has made the coming year alot easier to face! I feel good because I've learned alot!!"

23. "Superb."

24. "Excellent new ideas were presented."

25. "This was a very good, well planned workshop. The idea of dividing grade levels was excellent. By doing this the workshop was more concentrated on grade level. I got more out of this."

26. "Very concentrated but very, very good and full of impact."  

27. "Did not attend a sufficient portion to give an honest opinion. Did learn and enjoy from the time I did get to attend. Comment made to me (one I've made myself after attending workshop) not enough materials and speakers for 4-6."

28. "Good help  
   Painful growth  
   Happy interaction"

29. "This 74 Summer workshop helped me in that it provided a new insight into bilingual education. New methods, more processes for development of games and ways for using in the classroom. I feel that I now have something to get me started."

30. "I found this to be a most informative workshop and pleasant that I was able to attend. Has given me much food for thought and many great ideas to try out in my classroom."

31. "This was an excellent workshop and certainly very well organized and very educational. Two prior workshops I've attended in Texas did not prepare me as well for the coming school year as I fell this one did. I should have thanked everybody for sharing ideas with me, and I thank you Fernando for letting me attend your workshop. It is an experience that will help me become a better bilingual educator."

32. "Fantastic! The best one I've attended. Very beneficial to all of us."

33. "Great!"

34. "As a new teacher, I feel extremely lucky in all aspects."

35. "Very hard working but worth it. Lots of new ideas to implement in class."
36. "Very well organized and comprehensive workshop. A lot of ideas to be applied in teaching. Consideration, cooperation, and help from other teachers and aides. Congratulations to all of you."

37. "Frankly, I was very impressed! I felt everyone displayed a high degree of education towards education. Each person displayed a great amount of expertise in everything they shared. I certainly fell very enthused over the total picture of bilingual/bicultural. I leave with a great respect for all the educators in the Riverside area--and hope we can keep in touch."

CONCLUSION

From the results taken from the questionnaire, the following conclusions can be made about the 1974 Summer Preservice Workshop:

1. The goal of the workshop, which was to develop instructional methods and materials relevant to Bilingual Multicultural education, was achieved at all levels of instruction.

2. The five objectives as outlined were achieved at all levels of instruction. In summary, the staff felt that the consultants, which were provided, assisted classroom teachers in better implementing bilingual/bicultural teaching techniques. The staff felt they gained a better understanding of the concerns to bilingual/bicultural education of project parents. And finally, the results again support the idea that many materials were developed by the staff during the 14-day workshop.

3. The effectiveness of many of the workshop leaders was measured at a high level by the project staff. Specifically, the project director can be more objective in identifying stronger and more informative leaders for future workshop sessions.
4. The effectiveness of the entire workshop was evaluated as good, informative, and well organized by teachers and teacher assistants.

5. The overall summer workshop was deemed successful by both teachers and teacher assistants. This conclusion re-enforced the concept that the Summer Preservice was not just "teacher orientated" or "teacher-aide orientated" but "staff orientated."

6. The success of the workshop was supported across all grade levels. The information provided in the workshops was valuable for both K-3 and 4-6 grade level teachers and teacher assistants.

7. The three guest speakers were rated as very well organized and informative by both teachers and teacher assistants.

8. The effectiveness of both the materials exhibit and the materials development room was rated as extremely successful by both teachers and teacher assistants.

PHASE VI: FEEDBACK

The final phase of the evaluation system was to provide the results to all workshop participants and district level administrators.

RE:  1974 Summer Preservice Workshop

We are again closing out another school year, but not without promoting Bilingual Education beyond our own classrooms. Project Unidos, during the 1973-74 school year, has sponsored various workshops, together with a highly successful Bilingual/Multicultural Conference for teachers, administrators and parents who desired additional information about Bilingual Education. Considering the change in Directors and the addition of new central staff personnel, I feel that this year has been the most productive during the four year funding history of the project in the promotion of bilingual/multicultural education. I feel that many project teachers and aides throughout the five school districts have developed confidence in developing and presenting bilingual teaching materials to our own staff as well as other teachers.

Our Parent Advisory Committee has had strong participation from four of the five school districts throughout the year. The individual school parent clubs have organized many activities under the banner of bilingual education. We are now in the final planning stages of organizing the 1974 summer preservice workshop.

This summer the focus of the preservice workshop will be DEVELOPMENT OF MATERIALS. The summer workshop will be held at University Heights Middle School in Riverside Unified School District starting on June 24 and ending July 12. Workshop leaders include Dr. Carmen Sadek, Dr. Richard Barrutia, Juan Leon, Carlos Cortez, Mel Lopez (remember him), along with approximately 17 Project Unidos teachers giving workshops. Included in the workshop will be Project visitations from the Bicep and Follow-Through Staffs. The development of such an exciting preservice must be credited to a group of teachers and aides who formulated an advisory committee in providing the initial feedback for the design of the entire workshop. An agenda of the summer workshop outlining time, location and leaders will be sent to each teacher and aide in Project Unidos within the next two weeks. The entire preservice is open to everyone and anyone who has had an interest in bilingual/multicultural education, although only those directly involved in Project Unidos and the staff from Longfellow Elementary School will be able to receive college credits for attendance. Attendance is mandatory for all.
Project Unidos staff and arrangements for non-attendance must be cleared through the director. A stipend of $210.00 per participant will be available for Project Unidos teachers and aides.

In closing, I want to thank all teachers and aides who have spent extra time and effort in promoting bilingual education. For those teachers and aides not returning next year, we wish them the best of luck and hope they will continue to support bilingual instruction. And for those of us returning...see you at University Heights Middle School.

Sincerely,

8. I would be willing to conduct a workshop this summer:

1. Barbara Sirney: Upper Grade Learning
2. Julie Bushard
3. Wanda Sotelo
4. Maria Martyn: Writing and Reading Materials in Spanish

10. If you were to be the person responsible for structuring the workshop, what general plan would you like to see being used (state time of day you would start and end; also some idea as to having teachers and aides together or separate for instruction, etc.

1. 8:00 - 12:00 (Aides & Teachers together) Over 5 weeks. If additional time is necessary for workshop, for teachers only or for aides only, this could be done in afternoons.

2. 8:00 - 12:30 By afternoon it's hot, we're tired and little is accomplished.
2. 8:00 - 12:30 For most part, aides work in some areas as teachers so would need similar exposure.

3. 8:00 - 2:00 (Bring sack lunches) Teacher and aide should attend together.

3. 8:00 - 2:00 With ½ hour break for lunch. Teachers and aides together.

4. 8:00 - 3:00 M.T.W.T.F. University Credit 5-6 Units Amphasis on methods and procedures, methods on how to fully utilize the services of an aide.

5. 8:30 - 2:00 Small group work: some with teachers and aides, others just teachers. When a large group assembles it is most difficult to get anything accomplished.

6. 8:30 - 3:00 Teachers and aides together

7. 8:30 - 3:30 Teachers and aides should be exposed to the same materials and instruction, but perhaps you could use an hour for a "rap" session where the teachers and aides could talk about how to have a better relationship with each other.

7. 8:30 - 3:30 Teachers and aides should work together for planning. We should be given time to plan our daily schedule, time block, etc. Other's ideas would be very valuable to me.

8. 8:30 - 12:30 Doesn't make any difference to me whether separate or together.

9. 9:00 - 2:00 One 15 minute break in the morning, 45 minutes for lunch. All time should be used productively (no long introduction of speaker, explanations down to last detail of itinerary of day, etc. Choice of activities-aide and teacher should decide whether or not they want to be together. Have upper grade activities included this year. Have different things to do in one day. This idea of dealing with one concept per day is stifling and a waste of time. If a company is to bring in a product of theirs, have them demonstrate it and
tell how to use it. I'm tired of seeing all these "wonder gadgets" but not knowing what the Sam Hill they'd be effective for. If you could make the summer workshops as effective and interesting as the Inservice Day of 2.27, the two weeks could really be productive.

10. 10: - 2:30 Provided the room is air conditioned. Aides and Teachers together in a real equal basis situation. Workshops with very little lecture and much actual participation of members of workshop.

11. Please state any other idea or concern relating specifically to the summer workshop.

1. Practical please—with ideas and materials prepared for September.

2. We need more workshop time to prepare our projects; less time for just sitting and writing.

3. 4 weeks long. 8-12 daily.

4. Have teachers and aides sign up for a subject area. Eg. reading and have those people run a reading booth. Others will be in charge of other booths. Then in an all day session (Saturday), have a share the wealth day just among the Title VII people. We can rotate among the booths and gain and exchange ideas.

5. Designate 1 week for writing up materials for publication. Teachers and aides work together. Have a list of ideas or units for publication and let people sign up for what they want. Eg., (a) Cinco de Mayo (b) Diez y seis de Septiembre (c) Comparing Washington & Hidalgo (d) Comparing Lincoln & Juarez, etc.

6. Designate a day or two to work on all the ideas we obtained from the share the wealth day or from the consultants.

7. I feel teachers and aides should work together and plan together!

8. Specialist should present classes which are relevant to the bilingual classroom.
9. Materials and time to develop teaching materials that are vital, adaptive and creatively stimulating.

10. Spend one afternoon shortening the # of objectives in our tests. Select 10 basic skills in each academic area and make sure the children master them.

11. Have Javier Galvez for half a day to teach some simple dances.

12. I don't feel that the workshops should last more than two weeks.
