The guide is one of a series of 10 units composing an orientation to the world of work course designed especially for disadvantaged and handicapped students in the ninth and tenth grades. It is designed to provide basic and remedial instruction in personal development, math, and language skills while providing information and skills basic or common to employment in all occupations. Topics treated in the course are: (1) workers in society, (2) production and distribution of goods and services, (3) consumption of goods and services, and (4) employment versus unemployment. On completion of the course the student will be able to interpret the production of goods in our economy, analyze the relationship of money earned to purchasing power, and recognize factors affecting employment. Lesson plans present major and supporting concepts and specify performance objectives. Suggested resources are correlated to teaching-learning-evaluation strategies, which are subdivided to meet the separate needs of the disadvantaged and the handicapped. A resource section specifies sources and costs of audiovisual aids. The final section offers student materials which include a variety of supportive classroom materials. (MV)
ORIENTATION TO THE WORLD OF WORK UNIT

Introduction

This unit, "The Role of Work in Our Society," is one of the series of "Orientation to the World of Work" units designed for special vocational education teachers and other vocational teachers who have disadvantaged and handicapped students in their classes. There are nine other units in this series:

--Getting a Job
--How To Keep a Job
--Personal Development
--Occupational Safety
--Learning About Jobs
--Self-Appraisal for Employment
--Introduction to Orientation to the World of Work
--Taxes Affecting the Worker
--Handling Your Paycheck

Acknowledgments

Special thanks is extended to the typists, Ms. Nancye Kusche and Mrs. Mary Couch, and to the teachers who assisted in field testing, Mr. Arthur Craig, Mrs. Marietta Freeman, Mr. James Owensby, Mrs. Nancy Atkinson, Mrs. Dana Lee Proffitt, Mrs. Mary Alice Yokley, and Mr. Russell Hobbs.
UNIT: THE ROLE OF WORK IN OUR SOCIETY

I. Rationale

Disadvantaged and handicapped students often have first-hand experience with the unpleasant effects of unemployment and underemployment. However, they do need to:

1. find a way out--learn about the many opportunities for work available and how to obtain the best standard of living possible with earnings made.
2. gain perspective--balance needs and wants in terms of employment and standard of living goals.
3. develop respect for the different levels of jobs in the world of work--see how the most menial (for they may hold it) supports the most respected.
4. find the will power to follow the path to advancement--keep trying when the "chips" are down.

A knowledge of "The Role of Work in Our Society" will help the student do this by:

1. providing a picture of the interdependence of industries, farms, and producers of raw materials.
2. showing that the production of goods and services within a particular enterprise requires the labors of different levels of workers, each dependent upon the other for the ultimate outcome of his work.
3. showing how to manage needs and wants to obtain a better standard of living.
4. educating about unemployment so that it can be avoided.

This unit will be of particular help to those students who come from homes dependent upon welfare, for it shows that our society needs its members to work to produce the goods and services needed and wanted. It will be of particular help to the handicapped confined to lower level jobs, for it will help them feel pride in the work they do.

Some or all of the unit may be omitted for students who have had or are taking courses in general business, economics, or consumer economics. An oral pretest of the class will help the teacher decide whether or not to include this unit in the course of study for "Orientation to the World of Work."
II. Subject Matter Outline

A. Workers in Society
   1. Types of Workers
   2. Benefits and Rewards of Work

B. Production and Distribution of Goods and Services
   1. Goods
   2. Services

C. Consumption of Goods and Services
   1. Needs vs. Wants
   2. Purchasing Power and Standard of Living

D. Employment vs. Unemployment
   1. Factors Affecting Employment
   2. Effects of Unemployment
III. Unit Objectives

The student will

A. Identify the types of workers and the rewards and benefits of work in our society.
B. Interpret the production of goods and services in our economy.
C. Analyze the relationship of money earned to power of purchase.
D. Recognize the effects of employment vs. unemployment.

IV. Suggested Interest Approach
(Select the most appropriate.)

A. Filmstrip: "Managing Your Money Series" No. 3.
B. Comparison of an employed person with an unemployed person
C. Skit describing the role of work in our society--Teacher prepared
D. Time test using a set of electrical wires. Have ready a piece of three- to five-inch electrical wire for each student. Time students while they separate the individual wires. Compare completion times and quality of work done. During discussion, point out:
   (1) It takes some people longer to do a task than others.
   (2) The fastest worker does not always produce quality work.
   (3) Both basic production speed and a quality product are a must in industry.
MAJOR CONCEPT: A. Workers in Society

SUPPORTING CONCEPTS: 1. Types of Workers
2. Benefits and Rewards of Work

PERFORMANCE OBJECTIVES: The student will
1. List ten different kinds of workers.
2. List two benefits of work and three rewards of work.

### A: WORKERS IN SOCIETY 1: TYPES OF WORKERS

#### TEACHING-LEARNING-EVALUATION STRATEGIES

<tbody>
<tr>
<td><strong>Interest Approach:</strong> Describe several different types of unskilled, semi-skilled or skilled workers. <strong>Identify</strong> each kind of worker described. <strong>Note to Teacher:</strong> Divide into groups. The following definitions may be used to identify skilled, semi-skilled and unskilled jobs. These are not to be used as a &quot;rule of thumb&quot; definition but as a guide to help understand the different levels of job opportunities in the &quot;Exploration in the World of Work&quot; units. Also keep in mind that many occupations may be classified in more than one category. &quot;Skilled&quot; workers must have a thorough knowledge of the work in which they will be involved and may be expected to make independent judgments and accept the responsibility for the care and keep of valuable equipment or products.</td>
<td></td>
</tr>
<tr>
<td>Clip pictures of different types of workers (skilled, semi-skilled, unskilled). Identify the different kinds of workers.</td>

</table>
| View pictures of several different kinds of workers. Identify one thing they all have in common. | Same. | Suggested caption for pictures: "They ALL Work"  
Transparency Master: "Workers," p. 47 |
| Research and discuss such factors as  
(1) What is work?  
(2) Who must work? For example:  
--heads of household  
--parents supporting families  
--children supporting infirmed parents  
--persons who wish to improve their standard of living  
--people who work for secondary reasons, such as to help others, for enjoyment, etc.  
Evaluation: Explain the difference between work and the worker. | Evaluation: State orally the difference between work and the worker.  
Same. | Books:  
No. 11. Succeeding in the World of Work  
No. 12. Teenagers At Work  
No. 13. They Work and Serve (D) |
| Note to Teacher: Introduce the concept that there are many different ways in which people may work, such as the following:  
(1) With their hands  
(2) With their mind  
(3) With both their hands and mind  
Use current employment figures which illustrate that most people work. | Same. View a chart showing current employment figures which illustrate that most people work.  
Same. | Student Material:  
"Definitions," Work, p. 37 |
| | | Suggested resources:  
--Employment Service  
--Unemployment Insurance Division |
<table>
<thead>
<tr>
<th>DISADVANTAGED</th>
<th>HANDICAPPED</th>
</tr>

<tbody>
<tr>
<td>Interview several workers or research magazines to answer the question, &quot;why people work.&quot; Share results with class.</td>
<td>Listen to the results of interviews with several workers asking them why they work.</td>
</tr>
<tr>
<td>Compile the results of the interviews of workers which illustrate most people work to earn money.</td>
<td>Same.</td>
</tr>
<tr>
<td>Write down what would happen if people did not work. Read response to class and discuss.</td>
<td>Tell what would happen if people did not work.</td>
</tr>
<tr>
<td>Brainstorm: Discuss the effects non-workers have on workers such as:</td>
<td>Same.</td>
</tr>
<tr>
<td>--amount of tax dollars used for welfare assistance</td>
<td></td>
</tr>
<tr>
<td>--increased dignity and self-reliance of the worker vs. lack of dignity and self-pity of the non-worker</td>
<td></td>
</tr>
<tr>
<td>--work load of worker becomes too difficult and/or demanding</td>
<td></td>
</tr>
<tr>
<td>--delay of the production of goods and services</td>
<td></td>
</tr>
<tr>
<td>Point out the effects of a strike which keeps workers off the job.</td>
<td>Same.</td>
</tr>
</tbody>
</table>

Suggested interviewees or types of persons to look for:
--a mother and/or father
--a housekeeper
--a career person
--a retired person who works
--a wealthy person

**Books:**
- No. 5, Honey Kakes Sense, Shopping Quiz
- No. 14, Using Money Series, Book 3, "Spending Your Money"
### CONSUMPTION OF GOODS AND SERVICES 2: PURCHASING POWER AND STANDARD OF LIVING

#### TEACHING-LEARNING-EVALUATION STRATEGIES

<table>
<thead>
<tr>
<th>DISADVANTAGED</th>
<th>HANDICAPPED</th>
<th>RESOURCES</th>
</tr>
</thead>
</table>

**Buzz session:** Discuss the fact that the amount of money one has determines the number of needs and wants one can purchase. **Note to Teacher:** Guide the pupils to understand that the amount of money one has and how he spends it affect his standard of living.

**List** items which most families must have to live satisfactorily.

**Determine** the approximate cost of these.

Discuss reasons some items cost more dollars than others.
- quality
- design and style
- availability
- production and distribution costs

**Figure** the earnings of different rates per hour. **Determine** the extent to which each could buy certain goods and/or services such as the following:

**Worker A:** Worker A earns $2.40 per hour and usually works 40 hours per week. What are his weekly earnings?

**Worker B:** Earning $3.10 per hour, Worker B works 35 hours per week. What are his monthly earnings?

Same as for disadvantaged, except use easier figures such as:

John is working at a job which pays $1.70 per hour. He works 10 hours per week. What is John's gross earnings? Considering that this is not John's net income due to various deductions, what goods and/or services could John purchase?

---

Books:
- No. 8. *Opportunity Knocks Series*  
  --No. 8b. *You Pay for It*
- No. 4. *Life Today, ch. 4*

Transparency Master:
- "A Dollar Bill," p. 64

Newspapers, magazines, catalogs listing goods/services and the cost of each. (D/H)
Worker C: Worker C is a $1.80 per hour worker. How many hours would he have to work to earn the same money as Worker B?

Worker D: Worker D has a very good job, earning $4.20 per hour. How much does Worker D earn in 40 hours?

Point out some of the reasons why one worker earns more than another, works different hours, produces more goods, etc.

**Note to Teacher:** Arrange for a small assembly line operation in the classroom to manufacture a small product.

*Calculate* the time involved and the approximate cost of production.

*Determine* the retail cost of item produced to avoid loss in manufacturing operation.

**Evaluation:** Compare the items one can purchase when he makes $4000 as compared to $6000.

---

Solve some mathematical problems dealing with the loss of money coming from unemployment such as:

Joe is unemployed because the company with whom he was employed laid off workers to cut operating expenses. His rent and utility bills are due. He has his family to feed and payments to make on the car and furniture. Joe has managed a small savings and is now eligible for unemployment insurance, but this is not enough to continue present payment rates. What do you suggest Joe do?

Buzz Session: Determine the approximate amount of money it

Group activity: Solve some mathematical problems dealing with the loss of money coming from being unemployed such as:

Joe was earning $4000 per year when he was laid off his job. He took another job, after two months of being unemployed, paying $3500 per year. However, he had purchased a home, car and furniture out of a $4000 per year income. How can Joe meet his financial obligations at his present salary?

Same.

EXERCISE JOB DESCRIPTIONS

Worker A

My name is Joe. My job is very interesting. It is what I like to do. I work at [Name of Business]. Most of my time is spent repairing cars. What kind of worker am I? [Auto Mechanic]

Worker B

I'm Mary. I work at [Name of Business]. The customers there like me because I greet them, show them to their tables, and give them a menu. I do not take their orders or serve their food. Who am I? [Restaurant Hostess]

Worker C

I work at [Name of Business]. You know me as Doctor Jones. When something goes wrong with your teeth, you should come to see me. I am a [Dentist].

Worker D

Jane is my name. [Name of Business] is where I work. To prepare for my job I took several vocational courses, including typing and shorthand. I spend a lot of time working with papers. Can you guess my occupation? [Secretary]

Worker E

They call me Jim. I work at a place on [Name of Road]. You see, I work outside. I frequently do different jobs each day. I sometimes work with crops. Other times I work with farm animals on the place I own. Who am I? [Farmer]

Worker F

My name is Pam. My job is most interesting and satisfying to me. You might enjoy doing what I do. You see, I am employed at [Name of Business]. My main duty is to operate a cash register in the store. I ring up the customers' orders once they have selected their items. Who am I? [Cashier]

Note to Teacher: The job descriptions above are very elementary and may be more suitable for use by the handicapped than the disadvantaged. They may be made more difficult by adding: type of dress worn by worker, job hazards, advantages of following this line of work, equipment used, jargon of the trade, working hours, description of building where employed without giving name of business, type of work to which job is related, effect of weather (energy and other conditions) upon employment, etc. Other jobs may be selected and student encouraged to make up their own descriptions.
DEFINITIONS

Work -- the labor, task, or duty by which one can make a living

Worker-- one who performs a labor, task, or duty (especially one who works at manual or industrial labor or with a particular piece of material)

Goods -- items made or produced which one can see or handle (which are tangible) and which satisfy economic needs and wants

Services -- what one does for another that makes his life better (contributes to his welfare)

Need -- an item necessary to existence

Want-- something nice to have but not needed in order to live
SUGGESTED PARENT JOB SURVEY

- d) Librarian
- e) Secretary
- f) Custodian
- g) Cafeteria Worker
- h) Aide
- i) Maintenance Person
SUGGESTED EXERCISE SHEET

(Benefits and Rewards of Work)

Complete

1. Write a definition of work.  _____________________________________________

2. Who must work?  ______________________________________________________

3. Most people work to earn  _____________________________________________

4. What happens if people do not work?  ____________________________________

5. List two (2) benefits of work.
   A.  _____________________________________________
   B.  _____________________________________________

6. List three (3) rewards of work.
   A.  _____________________________________________
   B.  _____________________________________________
   C.  _____________________________________________
THE IMPORTANCE OF THE PRODUCTION OF GOODS

(May Be Taped For Handicapped Student)

Our country would not function if goods were not being produced. Goods are essential for our lives. We cannot live without them.

Goods come to us in the form of food, clothing, and shelter. Someone made the clothes we are wearing. Someone grew or produced the food we eat. Someone made the materials which went in the house we live in.

Thus, we find goods everywhere. They are produced by many different people. They all mesh together to make available to us the modern conveniences we enjoy—television, automobiles, ice cream, shoes, etc.
EXERCISE SHEET

(Goods and Services)

Please place either a "G" or "S" before each of these. If the worker produces goods, place a "G" before it. If the worker provides services, place an "S" before it.

1. Auto Mechanic  
2. Dentist  
3. Housewife  
4. Waitress  
5. Teacher  
6. Welder  
7. Painter  
8. Nurse  
9. Fireman  
10. Policeman  
11. Secretary  
12. Carpenter  
13. Printer  
14. Custodian  
15. Farmer  
16. Plumber  
17. Store Clerk  
18. Glass Blower  
19. Telephone Repairman  
20. Machinist
EXERCISE SHEET
(Needs vs. Wants)

Write either true or false in the blank:

true 1. A coat is a need.
false 2. A want is required in order to live.
true 3. All people have needs.
true 4. People produce goods and/or services to satisfy needs and wants.

Fill in the blanks:

1. Our basic needs are food, clothing, and shelter.
2. Three examples of wants are __________, __________, and __________.
3. One must choose between his needs and his wants according to the (money, dollars) he has.
PRODUCT MOVEMENT - WHO HELPED GET THE PRODUCT TO YOU?

A Piece of Clothing

    (and other)

A Loaf of Bread

a) Farmer  
b) Grain Elevator Worker  
c) Baker  
d) Packager  
e) Trucker  
f) Salesman  
g) Cashier  
    (and other)
THE PROGRESSION OF HOURS WORKERS HAVE WORKED PER WEEK
SKILL NEEDED FOR TODAY'S JOBS

A few decades ago very little knowledge was required to be a successful worker. Most work was done by hand or horsepower and required a great deal of strength but a limited amount of knowledge. Most people worked in agricultural occupations.

The day of sheer strength to do work is over. Most work is done mechanically and with machines. Skill is required to operate them.

Without training, a worker cannot operate a printing press; without skill a worker cannot type a neat letter; without a knowledge of metals one cannot be a successful welder.

Present day workers choose a career. They then proceed, usually through schooling, to learn the skills required to do the job well.
