The fifth annual edition of this guide is designed to assist administrators to identify activities on management procedures and staff leadership development. A substantial number of sponsoring organizations have contributed descriptions of a wide variety of seminars and other short-term professional development programs, most of which have been incorporated into this edition of the guide. Because of limited space, however, university degree programs, their component courses, and most of the annual meetings conducted by the professional associations have not been included. The information in each program summary is organized according to the following format: (1) name of activity; (2) sponsoring organization(s); (3) date(s) and location(s); (4) participant eligibility; (5) fees and what they cover; (6) room and board (place, location, costs); (7) application (dates, addresses, name of contact person for additional information); and (8) program description (topics, speakers, activities, etc.). Programs dealing with the same, similar, or related topics have been grouped together where possible, and the order of program summaries within each major section moves from general to more specific by subject matter. The sequence of program summaries in no way suggests any order of importance or endorsement but rather is intended to make the guide a more useful reference.

The Academy for Educational Development, Inc., a non-profit planning organization, was founded in 1961 to help meet the increasing need for colleges and universities in the United States for long-range programs in education and finance. Since its beginning, the Academy has undertaken a variety of major assignments for government agencies, foundations, national associations, and state-wide systems of education.

Management Division

To strengthen the management of the nation's institutions of higher education, the Academy established the Management Division in 1970 with corporate and foundation support. The Management Division provides practical information to college presidents and other administrators on problems they confront daily and on long-term problems involving programs and finances. The Management Division conducts research, publishes the results, and organizes conferences and professional development programs.

The American Council on Education, a national non-governmental organization founded in 1918 and comprised of over 1400 institutions of higher education and national and regional education associations, is the nation's major coordinating body for postsecondary education. Through voluntary and cooperative action, the Council provides comprehensive leadership for improving educational standards, policies, and procedures.

Office of Leadership Development in Higher Education

To provide direction, coordination, research, and assistance pertaining to professional development programs and academic leadership opportunities in higher education, the American Council on Education established the Office of Leadership Development in Higher Education in 1974. The Council's Academic Administration Internship Program (designed to strengthen leadership by identifying and training individuals who have shown promise for responsible positions in academic administration) and Institute for College and University Administrators (designed to improve the quality of academic leadership and institutional management through in-service professional development seminars and research) are integral activities of the Office of Leadership.
INTRODUCTION

This fifth annual edition of A GUIDE TO PROFESSIONAL DEVELOPMENT OPPORTUNITIES FOR COLLEGE AND UNIVERSITY ADMINISTRATORS is designed to assist administrators to identify activities on management procedures and staff leadership development.

The 1975 GUIDE is distributed as a joint publication of the Management Division of the Academy for Educational Development and the Office of Leadership Development of the American Council on Education. Subsequent editions will be prepared and published by ACE's Office of Leadership Development in keeping with its efforts to encourage professional development in higher education.

A substantial number of sponsoring organizations have contributed descriptions of a wide variety of seminars and other short-term professional development programs, most of which have been incorporated into this edition of the GUIDE. Because of our limited space, however, university degree programs, their component courses, and most of the annual meetings conducted by the professional associations have not been included. (A comprehensive, descriptive listing of annual meetings of the national and regional educational associations is contained in the pamphlet, Calendar of Meetings, published each September by the National Catholic Education Association, One Dupont Circle, Washington, D.C. 20036; price $3.00.)

The Academy and the Council appreciate and thank all of those who have contributed information about their programs. Further comments from users of the GUIDE and from organizations who would like to have their programs listed in future editions are welcome.

In most cases, the descriptions presented here were prepared by the sponsoring organizations. The GUIDE is intended solely as a source of information; the appearance or absence of a particular organization or program represents no endorsement, criticism or other evaluation by the Academy or the American Council.
FORMAT FOR PROGRAM LISTINGS

The information in each program summary is organized according to the following format:

1. Name of Activity

2. Sponsoring Organization(s)

3. Date(s) and Location(s)

4. Participant Eligibility

5. Fees and What They Cover

6. Room and Board (Place, Location, Costs)

7. Application (Dates, Addresses, Name of Contact Person for Additional Information)

8. Program Description (Topics, Speakers, activities, etc.)

Programs dealing with the same, similar, or related topics have been grouped together where possible, and the order of program summaries within each major section moves from general to more specific according to subject matter. The sequence of program summaries in no way suggests any order of importance or endorsement but rather is intended to make the GUIDE a more useful reference.
1. ACADEMIC ADMINISTRATION INTERNSHIP PROGRAM (AAIP)

4. Qualifications: 30-45 years of age; doctorate or generally recognized terminal degree, three years teaching experience; evidence of high potential for administrative leadership. Various qualifications may be waived when other evidence of potential is presented.

5. ACE pays program costs (e.g., seminars, selection & process, meetings); institution pays salary of Fellow and moving expenses, if any.

6. Presidents of ACE member institutions, between September 2, and November 15, 1975, nominate by prescribed procedure faculty and junior staff who have demonstrated potential for academic leadership. For information write Dr. Thomas M. Stauffer, Director, Academic Administration Internship Program, American Council on Education, One Dupont Circle, Washington, D.C. 20036. Phone (202) 833-4785.

7. Week-long seminars, consultation opportunities, an analytical paper, and extensive reading supplement the internship experience at policy and operational levels; a senior administrator acts as mentor. 38 Fellows have become presidents; others include vice presidents, provosts, academic deans. Race, sex, type of institution represented by candidates for AAIP, or other such factors have no bearing on possibility of selection.
1. WASHINGTON INTERNSHIPS IN EDUCATION

2. Institute for Educational Leadership of The George Washington University

3. A new program for 1975-76 is in the planning stage; dates not yet fixed.

4. Will depend on new program design.

5. &

6.

7. Information on the new WIE program will be available early in 1975. Inquiries should be addressed to Director, Washington Internships in Education, Suite 310, 1001 Connecticut Avenue, N.W., Washington, D.C. 20036. Phone (202) 223-3415.

8. WIE gives participants an opportunity to learn about the education policy-making process at the Federal and State levels and to become familiar in some depth with the major educational issues being dealt with at these levels. The intern is assigned to a public or private agency and participates regularly with fellow interns in an educational component consisting of seminars and field trips. 1974-75 interns will be working in Washington, D.C., and in the State capitals of Illinois and Massachusetts.

8. The challenge of the 70's demands a new kind of leader—vital, progressive, professional and versatile in dealing with the changing work force of a multi-dimensional world. Tomorrow's supervisor cannot be satisfied with yesterday's style of leadership. And today a program is needed—a program designed to equip the supervisor with the training essential to meet the standards of his new position. Through the use of expert instructors, groups processes and discussion, role playing and simulations, precourse work, case studies, lecturettes and audio-visual presentations, the manager or supervisor, upon completion of this course, will be able to: better identify his own and other management style and leadership impact; define a management problem situation and list alternatives for effective action; apply the steps and processes (delegation, performance standards, planning, interpersonal interaction, etc.) necessary to accomplish organizational expectations.

8. The faculty of the Management College of National Graduate University brings to bear in a condensed fashion the techniques and knowledge of sound management. Facets deemed to be of most immediate use to practitioners are presented in such a manner that participants will find themselves discussing and debating their customary ways of handling issues within the framework of information which may be new to them or approached in a different manner. It is expected that they will return to their responsibilities with new outlooks, new skills, new tools, new ways to keep abreast of change and new friends to help and stimulate them as they advance. Some of the topics of discussion are delineation and use of community power networks, affirmative action, union contracts, and productivity. The teacher-leaders of this course have been involved in a wide variety of management-centered responsibilities. Their approach aids practitioners in realizing new ways of handling both routine and occasional problems. The course director is Dr. William R. VanDersal, Dean, Management College of National Graduate University, author of The Successful Supervisor in Government and Business and The Manager in Government and Business.

8. This seminar is a new and integrative overview of behavioral science concepts and principles specially designed for managers. Special "linkages" with the real world have been built into the design to make a difference in the executive's function. Through a process of instrumentation and feedback, the manager will be able to cite attitudes and predictions regarding managerial effectiveness related to personal and organizational needs. These will then be investigated and compared to behavioral science values and predictions within a research-learning format to confirm or reject "personal" theories, evaluate the individual learner's practices and assess their effects on others. In short, this four-day program provides an integration and synthesis of management theories, and a self-knowledge of the executive's own styles of management and effectiveness in relating to others.

8. Managers typically run out of time before they run out of any other resource. This is partly because time cannot be stockpiled and partly because managers control so little of what they do have. Their time is imposed upon by superiors, equals, and subordinates in ways and at times defying all attempts at effective control. Yet if the manager is to succeed, he must control it. This seminar explores in depth the methods that successful managers at all levels use to control time effectively. On completion of this seminar each participant will be better able to: organize his time to meet higher management's requirements, the immediate requirements of the rest of the organization, and his own requirements in becoming a more effective administrator; understand the uniquely different activities to which the manager should devote his time; help those with whom he works to "gear" time to objectives and priorities of organizational needs.

8. The disadvantaged worker has always experienced great difficulty entering and moving within the world of work. In addition to contending with disadvantages which are responsible for his or her lack of status within he society, the disadvantaged employee must also contend with a new set of experiences and individuals, many of whom do not understand or are not sensitive to the acclimation he or she is undergoing. This program is directed towards those with whom the disadvantaged worker will have contact, directly or indirectly, during such a new vocational experience. In this two day seminar, we first trace the development process of such an individual and pinpoint characteristics which he or she may possess. Secondly, we examine characteristics of a work atmosphere which will be conducive to the disadvantaged worker's successful entry into the work force.

8. CAREER PATHS FOR WOMEN is an experiential-based program to help women identify resources available to chart a career path. It covers creative thinking, building a self inventory of capabilities, desires, goals, personal constraints, resources and their uses, an inventory analysis to offer a fresh look at yourself, an exercise in charting out a career goal. It's a one-day experience helping women visualize the goal-setting process. It's exactly what males are offered in many organizations to help them to more responsible positions. This grooming helps match abilities with needs of a growing organization. Women, especially those who want more satisfaction from time spent at work, can benefit from this work-
shop.

8. In the past, the only assessment deemed necessary for a new technology was to determine whether it would do what it was supposed to do. Furthermore, this issue was assumed to be of importance only to those who would sponsor or use the new technology. However, we have learned that technology always has impacts beyond those intended by its sponsors, and that unforeseen costs of new technology may be imposed on people who have nothing to do with sponsoring or using it. The term "technology assessment" has come to mean the deliberate search for secondary consequences of new technology, and the determination of whether the benefits of some new technology (both intended and unintended) are sufficient to offset the costs (both intended and unintended) of that technology. Seminar leaders have included such well known scholars as Joseph P. Martino and Dr. Marvin Cietron.

THE AMERICAN ASSOCIATION OF UNIVERSITY ADMINISTRATORS held its third National Assembly in Boston, Massachusetts, April 29-May 1, 1974, and is making plans for National Assembly Four, to be held in Atlanta, Ga., April 27-29, 1975. Policy statements on collective bargaining and on the rights of administrators have been adopted. Twenty-four-hour seminars on collective bargaining and on accountability have been held in the Northeast, Southeast, Midwest, and Far West. Three similar seminars are being arranged for 1974-75 on the theme, "Politics and Higher Education." An invitational conference on major issues faced by higher education administrators will also be held. A Clearinghouse for Career Advancement has been established to serve members. A newsletter Communiqué is issued quarterly. Investigative services for members are provided. Chapters have been established in Alabama, Rutgers (New Jersey), and Western New York State. For further information contact Fred A. Bennett, General Secretary, American Association of University Administrators, One Library Circle, Crosby Hall, Buffalo, New York 14213. Phone (716) 245-5551.

BRAKELEY, JOHN PRICE JONES INC. has in the past offered seminars in the areas of organization, planning and governance. Though no seminars in these areas are scheduled for 1975, they will be offered in sufficient demand as indicated. For more information contact Charles A. Brecht, President, Brakeley, John Price Jones Inc., 6 East 43rd Street, New York, New York 10017. Phone (212) 697-7120.

THE COLLEGE PLACEMENT COUNCIL, INC., through its Professional Training and Development Committee, encourages and supports universities in developing and conducting national institutes for career planning and placement personnel. Most of the seven regional college placement associations affiliated with the Council conduct annual workshops for placement directors and/or employer representatives who recruit college graduates. For more information contact Warren E. Kaufman, Editor, College Placement Council, P.O. Box 2263, Bethlehem, Pennsylvania 18001.
DOUGLAS TROUT ASSOCIATES, INC. offers the development/total approach to consulting and training for institutions of higher education. Committed to the ideal that small, private colleges are a vital and dynamic element in American education, DTA serves its clients - small, private institutions - through a team of specialists working together with a generalist senior consultant. DTA functions to educate and train a college president's staff in the total spectrum of college life - academic, administrative, financial management, long-range planning, and development master plan, establishing client independence through newly acquired competence. For further information, contact Douglas G. Trout, Ph.D., Douglas Trout Associates, Inc., 3122 Davenport Street, N.W., Washington, D.C. Phone (202) 244-7523.

ENCAT (the Encouragement of New College Administrative Talent) is a recent cooperative program of the AMERICAN COUNCIL ON EDUCATION's Office of Women in Higher Education, and Office of Leadership Development in Higher Education. The purpose is to help identify, encourage, and facilitate, mainly through regional workshops, the entry of qualified people into positions of administrative responsibility in higher education, with particular emphasis placed on women and ethnic minorities.

The first ENCAT program was a WORKSHOP "FOR WOMEN CONSIDERING CAREERS IN COLLEGE AND UNIVERSITY ADMINISTRATION, held in April of 1974 in the Central East Coast area. The three-day pilot program offered speakers, seminars and case studies exploring problems, issues, and requisite skills in college administration; special concerns and considerations in career decisions; administration leadership possibilities; and professional development opportunities in higher education.

This experimental effort was so highly successful that additional ENCAT programs are being considered on a cooperative basis with regional associations, state-wide systems, and other higher educational consortia. Additional information may be obtained from the Office of Women, or the Office of Leadership Development at the American Council on Education, One Dupont Circle, Washington, D.C. 20036. Phone (202) 833-4694.
INTERCHANGE PROGRAM FOR HIGHER EDUCATION, GOVERNMENT, AND BUSINESS PROFESSIONALS is a projected program of the Office of Leadership Development in Higher Education, American Council on Education. The overall program will include three sub-programs, each having separate requirements with the basic requirement in all three being current employment at accredited American colleges and universities.

INTERCHANGE will broker year long exchanges of faculty and administrative personnel with government and business, and will operate on a pilot basis during its first year. Individuals interested in further information should contact Dr. Thomas M. Stauffer, Office of Leadership Development in Higher Education, American Council on Education, One Dupont Circle, Washington, D.C. 20036. Phone (202) 833-4765.

THE NATIONAL ASSOCIATION OF STUDENT FINANCIAL AID ADMINISTRATORS will conduct a number of training programs in 1975 which are in the process of being developed and planned. The workshops are intended to equip beginning and experienced financial aid administrators to handle the diversity of responsibilities which accompany the position. For further information contact Richard L. Tombaugh, Executive Secretary, NASFAA, 910 17th Street, N.W., Washington, D.C. 20006. Phone (202) 785-0453.

THE NATIONAL CENTER FOR DISPUTE SETTLEMENT (NCDS) of the American Arbitration Association conducts various seminars and workshops under the general designation of Alternative Approaches to Problem Solving Using Negotiations, Mediation and Arbitration. Some activities may apply to the campus situation, others may not. Techniques used in these activities include role playing, case studies, audio-visual aids, small group discussions and general meetings. The seminars and workshops are most often developed in cooperation with other groups such as individual universities and associations, and groups of specialized professionals such as campus ombudsmen. College and university officials interested in either attending up-coming activities or co-sponsoring an activity with NCDS should contact Phyllis E. Kaye, Assistant Director for Program Development, National Center for Dispute Settlement, 1212 16th Street, N.W., Washington, D.C. 20036. Phone (202) 628-1545.
