Ninety-two films, filmstrips, multi-media kits, slides, and audio cassettes, produced between 1964 and 1974, are listed in this selective annotated bibliography on consumer education. The major portion of the bibliography is devoted to films and filmstrips. The main topics of the audio-visual materials include purchasing, advertising, money management, decision making, credit, consumer fraud, consumer law, and consumer agencies. The materials, classified according to elementary and secondary school levels, are intended to supplement courses in consumer education. The addresses of suppliers and the costs of the materials are provided. (DE)

Preface

Shortly after the opening of the Center for Consumer Education Services in 1971, Dr. Irene Oppenheim prepared the first edition of this MONOGRAPH. Following its publication and distribution, it gained a reputation as being exceedingly helpful to teachers and others involved in consumer education. And, like all other listings of materials and/or resources, soon became a bit outdated. Consequently the first edition was updated and revised in 1972.

Since that time educational publishers and developers of audio-visual educational materials have supplied enough new teaching aids to warrant a complete replacement of our initial MONOGRAPH and its subsequent revision. This publication is therefore all new, with only three or four of the original listings being included.

The format has changed, too. Audio-visual materials are listed in groups, i.e. films, filmstrips, multi-media kits, slides, and audio cassettes. We have also expanded the annotations and included the date of publication. The addresses of suppliers and the costs of materials are as accurate as we could make them. Those materials which are included in our collection at CCES are indicated with an asterisk (*).
One word of warning to the reader. We have not attempted to list all available materials. Our selected list is limited by availability, date of publication, and to a great extent by our personal knowledge and evaluation of the materials. The listings are not intended to be complete -- nor does a listing herein necessarily indicate our endorsement.

Hopefully this publication will be of value to teachers of young consumers. Please remember, however, that an audio-visual teaching aid is exactly that -- and only that!! It cannot take the place of the teacher -- it can only assist the teacher... We strongly suggest that these materials be previewed by the teacher before being used in a classroom situation.

Films

Advertising: Information, Persuasion or Deception (1973) (Color - 12½ minutes)

Every purchase represents an attempt to satisfy needs and desires on many different levels -- from the most practical to the completely irrational. Advertisers try to reach the consumer on all these levels. Starting from this premise and employing a light but critical approach, the film helps students distinguish between the informational and manipulative uses of advertising.

Purchase: Journal Films, Inc., 909 West Diversey Parkway, Chicago, Illinois 60614 - $155.00
Rental: $11.00

Analyzing Advertising (1973) (Color - 13 minutes)

Acquaints young consumers with some of the techniques used by commercial advertisers to influence consumers to buy their products or services. Presents a variety of ads and commercials in several different media (magazines, newspapers, television, radio and billboards), then dissects and analyzes the advertisements. Presents examples of emotional advertising, celebrity advertising, the logical or factual approach and misleading or pseudo-factual advertising. Designed for use with elementary school students.

Purchase: Centron Educational Films, 1621 West Ninth Street, Lawrence, Kansas 66044 - $185.00
Rental: $13.50
The Buy Line (1972) (Color - 14 minutes)

The film opens with a rapid montage of contemporary visual advertising. We examine each ad, learning about psychological seduction, disclaimers, false and misleading statements, etc. We also examine good ads that provide decision-making information. Actual ads are presented (with product names masked) to illustrate how they use fantasy appeals to power, sexuality, popularity, and status to get the consumer to buy the product. Finally, a group of typical consumers, plus a Consumer Protection Specialist from the Federal Trade Commission, share their opinions about advertising and offer personal criteria for judging ads and their products.

Purchase: FilmFair Communications, 10900 Ventura Boulevard, Studio City, California 91604 - $180.00

Rental: $15.00

Caught! (1972) (Color - 24 minutes)

A film which depicts teenage shoplifting. Two girls are caught shoplifting in a department store. Methods of surveillance by store personnel and electronic devices are clearly shown. The film describes the extent of shoplifting and shows how this is not only morally -- but legally wrong. The film should be of particular interest to junior and senior high school students, but is acceptable for any age group. Certainly one of the most appropriate teaching aids concerned with the consumer's responsibility in the marketplace.

Purchase: National Retail Merchants Association, 100 West 31st Street, New York, New York 10001 - $230.00

Rental: $70.00 for five days

The Consumer Game (1973) (Color - 20 minutes)

Reviews psychological and motivational techniques used to sell a product. Explains the concepts of comparison shopping, unit pricing, convenient packaging, financing, guarantees and labels. These are applied to realistic situations spiced with tongue-in-cheek advertisements that illustrate the point. Arte Johnson of "Laugh In" fame is the host.

Purchase: Pyramid Films, Box 1048, Santa Monica, California 90406 $280.00

Rental: $20.00

**Consumer Education: Budgeting** (1968) (Color - 12 minutes)

Going it on your own for the first time may be the best way to learn the importance of a budget. This is aptly illustrated as two sisters are followed as they set up their own apartment, go on spending sprees and overextend their credit. The importance of individual budgets is demonstrated and the very important financial basis of living, based on sound budget planning, is covered.

Purchase: BFA Educational Media, 2211 Michigan Avenue, Santa Monica, California 90404 - $145.00

Rental: $8.00

---

**Consumer Education: Installment Buying** (1968) (Color - 13 minutes)

This film presents a vivid dramatization of the benefits and dangers of purchasing commodities on the installment plan. By viewing two sisters involved in the purchase of a car, every facet of installment buying is explored. Down payments, interest charges, maximum loan limits and many other important factors are presented.

Purchase: BFA Educational Media, 2211 Michigan Avenue, Santa Monica, California 90404 - $155.00

Rental: $8.00

---

**Consumer Education: Retail Credit Buying** (1968) (Color - 11 minutes)

A charge plate can become a spending hazard. It's so easy. Two sisters learn this the hard way. Father shows them the correct method of computing credit charges, The money paid in interest, and the various facets of buying on credit. The film also shows that credit buying can be an asset -- not always a liability.

Purchase: BFA Educational Media, 2211 Michigan Avenue, Santa Monica, California 90404 - $135.00

Rental: $8.00
Consumer Education: Who Needs It? (1972) (Color - 15 minutes)

Introduces problem areas for the consumer; food quality, pricing and labeling; automobile sales, service and safety; advertising practices; credit buying; and the need for consumer protection.

Purchase: Churchill Films, 662 North Robertson Boulevard, Los Angeles, California 90069 - $180.00

Rental: Write for quotation

Consumer Power: Advertising (1971) (Color - 22 minutes)

Mr. Ralph Nader, well-known consumer advocate, and Mr. Ted Factor, an advertising executive, address themselves to a set of very provocative questions regarding advertising's effect on our daily lives.

Purchase: BFA Educational Media, 2211 Michigan Avenue, Santa Monica, California 90404 - $285.00

Rental: $20.00

Consumer Power: Credit (1973) (Color - 20 minutes)

This is the second in a series of three films, the first dealing with advertising. Deals with consumer questions such as: To what extent does credit encourage customers to buy more than they need or can afford? How can the consumer protect himself from exorbitant charges and/or interest? How can the wise use of credit benefit the individual and our economy? Ralph Nader, and such people as consumers, businessmen, car dealers and bankers explore these and many other questions which face us daily.

Purchase: BFA Educational Media, 2211 Michigan Avenue, Santa Monica, California 90404 - $275.00

Rental: $22.00

Consumer Power: Whistleblowing (1973) (Color - 23 minutes)

Who is responsible for our society? What can we do to right the wrongs we perceive? This film directs the viewers' attentions to these questions. It is an important film for the new, more active citizen. Ralph Nader addresses himself to provocative questions. Informed citizens who have formed other points of view provide data and stir controversy designed to cause viewers to think and discuss problems that should concern us all.

Purchase: BFA Educational Media, 2211 Michigan Avenue, Santa Monica, California 90404 - $310.00

Rental: $25.00
Consumerism: Let The Seller Beware (1972)  (Color - 22 minutes)
A segmented interview with Ralph Nader that highlights present and future issues facing consumers: automobile safety, pollution, faulty products, the quality and safety of foods, and mechanisms for enforcing consumer laws.

Rental: Consumers Union Film Library, 267 West 25th Street, New York, New York 10001 - Rental only: $10.00

A Credit Cart Bouquet (1973)  (Color - 10 minutes)
This film discusses how one goes about getting the most from the "rental dollar" when borrowing money or financing merchandise. First-hand experiences from people of different backgrounds -- plus a little sage advice from a friendly flower-vendor, helps point up the fact that successful borrowing or obtaining credit, depends to a great extent on one's age, work history and other factors. We are urged to "read the fine print" and informed that lending institutions (i.e. banks, credit unions, etc.) charge different rates. Prior knowledge helps us more carefully choose the way in which we borrow.

Purchase: Communications Group West, 6335 Homewood Avenue, Suite 204, Hollywood, California 90028 - $130.00
Rental: $11.00

Deciding (1973)  (Color - 14 minutes)
Documents a shopping excursion by a brother and sister to buy a birthday gift for their father. Concepts illustrated include: goals in relation to needs; setting limits on the financial resources available; developing a list of acceptable alternatives; evaluating available product information; judging of goods on the basis of need, cost and quantity; and beginning a new savings program for the next purchase. Designed especially for elementary school students.

Purchase: Centron Educational Films, 1621 West Ninth Street, Lawrence, Kansas 66044 - $185.00
Rental: $18.50
**Food Labeling: Understanding What You Eat** (1973) (Color - 11 minutes)

By examining the process of labeling foods, the film raises some fundamental questions concerning nutrition. How can you know what you are eating? How can you identify the foods that are best for you? What should you be looking for in a given product, and how can you eat to solve a weight problem? What isn't on the label and is it important?

Purchase: Journal Films, Inc., 909 West Diversey Parkway, Chicago, Illinois 60614 - $145.00
Rental: $11.00

**Foot In The Door** (1972) (Color - 9½ minutes)

(Also available in Spanish version)

A potential victim of consumer fraud tells how a door-to-door salesman tried to sell her a color TV at her home. During the dramatized situation, she tells how her awareness of fraud came about because, as a resident of a low-income housing project, she had been victimized by a similar pitch a year earlier. Her alertness in the present case results in arrest of the salesman. The film continues with a police lieutenant, familiar with fraud, who describes several pitches that can entrap people (home improvement frauds, magazine sales, etc.), and lists basic questions to ask ourselves before signing a contract. Finally, a baby picture sales woman describes sales methods and some of her psychological tricks. The film closes as the door opens and the baby picture sales woman begins to "pitch" the viewing audience.

Purchase: FilmFair Communications; 10900 Ventura Boulevard, Studio City, California 91604 - $140.00
Rental: $15.00

**Harry J. Woods Is At The Door** (1973) (Color - 13 minutes)

Harry J. Woods is a travelling "con-man." Unlike representatives of the many reputable firms engaged in legitimate door-to-door sales, Harry J. Woods is a specialist in selling people things they wouldn't ordinarily purchase. This entertaining film follows Harry through a typical day's operation as he first convinces a young couple that they should invest in home improvement -- then talks an older man into buying nine magazines in order to get one free -- and pulls a fast switch on a harried housewife by leaving her an expensive sewing machine and very much in debt.

Purchase: Communications Group West, 6335 Homewood Avenue, Suite 204, Hollywood, California 90028 - $170.00
Rental: $17.00
Magical Disappearing Money (1972) (Color - 11 minutes)

(Also available in Spanish version)

A cheerful, slightly scatterbrained "food expert witch" appears in a supermarket and works her magic to draw the customers around her. Then, item by item, she explains, with accompanying magic, why certain purchases by the customers are unwise.

Purchase: FilmFair Communications, 10900 Ventura Boulevard, Studio City, California 91604 - $145.00
Rental: $15.00

Money Tree (1971) (Color - 20 minutes)

The Money Tree can do as much to impress the need for consumer education on the minds of secondary school students as any instructional material we know of. The story is a tragedy -- but so are all broken marriages, especially when those affected are young, in love, and have the highest hopes and the brightest futures. In today's society many young people never consider the impact economic pressures can have on their futures. The Money Tree is an attempt to put the student into an "emotional" situation where he can identify with the pain and reality of human experience, and be motivated into discussions about the monetary problems that can exist in marriage. The story is real -- at least as real as the producers could make it. There are thousands of young couples in our social counseling agencies, and in our bankruptcy and divorce courts every day. It need not happen!

Purchase: AIMS Instructional Media Services, Inc., P.O. Box 1010, Hollywood, California 90028 - $260.00
Rental: $20.00 for three days, $5.00 each additional day

Not You Too! (1973) (Color - 8 minutes)

This film on the topic of consumer frauds illustrates many varieties of frauds perpetrated on the consumer. Some of the frauds included are: Unnecessary repairs of autos; mail order schemes; high pressure sales; phone solicitations. The film offers possible solutions to consumer fraud; letters of complaint to the company involved; and letter of complaint to the local police.

Purchase: Communications Group West, 6335 Homewood Avenue, Suite 204, Hollywood, California 90028 - $100.00
Rental: $12.00
**On Your Own** (1972)  
(Color - 23 1/2 minutes)

Who can best interpret the true meaning of consumer and homemaking education in today's world? Students! And this film lets them tell, in their own words, what consumer and homemaking education means to them -- the impact on their lives today and their future. This realistic provocative film explores a wide range of instruction: a teacher and student group visit a supermarket to learn about pull dates on perishable foods; community consumer research projects, a classroom on wheels; community studies on renting versus home ownership; tire purchases, and automobile repairs; careers in child development and fashion merchandising; family relations, exploring goals and values and the decision-making process.

The film offers an overview of consumer and homemaking education curriculum and its interest and appeal to both boys and girls.

Purchase: FilmFair Communications, 10900 Ventura Boulevard, Studio City, California 91604 - $300.00

Rental: $30.00

---

**The Owl That Gave A Hoot** (1967)  
(Also available in Spanish version)

( Color - 15 minutes)

A cartoon film developed by the Office of Economic Opportunity expressly for low-income consumers. Although suitable for all ages, young students should be particularly pleased with the talking animals, especially the "shady" characters who take advantage of shoppers and then join in song.

Purchase: Sales Branch, National Audio-Visual Center (GSA), Washington, D. C., 20409 - $47.00

Rental: No longer available
*Read Before You Write* (1972)  
(Also available in Spanish version)

A young couple considers a typical installment purchase (a TV set). The film follows them from their obvious enchantment outside the store window to a new awareness when they learn to really examine a contract before they sign it. Inside the store, the couple is about to sign a contract when a consumer education program appears on "their" TV. It explains what a properly drawn installment contract should include: such as specific description of the purchase, written confirmation of special aspects of the sale, details on interest and other charges, how to renegotiate the contract, etc. The salesman winces and the couple listens. Their final decision to shop for better credit terms is made when the wife's arithmetic shows the high cost of low payments.

Purchase: FilmFair Communications, 10900 Ventura Boulevard, Studio City, California 91604 - $100.00
Rental: $10.00

*The Supermarket* (1964)  
(Color - 10 minutes)

A very humorous film, perhaps a bit outdated in terms of current fashions, but still worth using. There are no voices used in the film -- only background music. The film portrays persons shopping in a typical supermarket. Perhaps the most important message is that consumers can add to the cost of merchandise through careless shopping. Could well be used for any age group as an introduction into supermarket shopping.

Loan: Mrs. Margaret Clark, Regional Consumer Affairs, Representative, Sperry & Hutchinson, 30 Superior Drive, Natick, Massachusetts 01760 - No charge
There Is A Law Against It (1972)  
(Also available in Spanish version)

Four familiar consumer problems are introduced in this film: garnishment of wages, unauthorized auto repair work, payment demanded for a debt already paid, and a housewife pressured into signing a purchase contract by a door-to-door salesman. The film then dramatizes how new consumer laws in one state (California) protect the consumer in each case. It explains provisions of the laws, responsibilities of the businesses involved, and the steps the consumer should take. The film ends by emphasizing that it is up to the consumer to take advantage of these laws and that no law can protect the consumer from himself.

Purchase: FilmFair Communications, 10900 Ventura Boulevard, Studio City, California 91604 - $115.00

Rental: $10.00

This Is Fraud! (1972)  
(Also available in Spanish version)

A car advertised on TV has "just been sold" and the customer is steered to more costly buys -- the old "bait and switch" technique. A door-to-door vacuum cleaner salesman secretly spills additional dirt on the floor to make his machine seem better. A woman reminds a contractor that he said his stucco job would last "as long as the house" -- he says there is nothing like that in the contract she signed. The methods of recourse for such common consumer fraud cases are described -- e.g., trade association offices, small claims court, licensing bureau, district attorney's office, legal aid society, etc. Using three of the cases dramatized, the film underscores how certain danger signals in each case could have helped stop the fraud before it happened.

Purchase: FilmFair Communications, 10900 Ventura Boulevard, Studio City, California 91604 - $115.00

Rental: $10.00
**Tommy's First Car** (1972)  
*Also available in Spanish version*

Tommy is ready to buy his first car. At the used car lot, his father shows Tommy where to look for clues that can indicate the car's condition and possible necessary repairs -- tires, seat springs, foot pedals, shock absorbers, lights, etc. Getting the salesman's OK to have their own mechanic check out the car, the father, on the way, shows Tommy how to properly test the car's brakes, steering, and general condition of the engine. Finally, their mechanic goes over the car and gives them an estimated cost of necessary immediate repairs and the probable life of such items as the battery, brakes, etc. Tommy now has the facts, costs and understanding to make an intelligent decision.

**Purchase:** FilmFair Communications, 10900 Ventura Boulevard, Studio City, California 91604 - $145.00  
**Rental:** $15.00

**Using Money Wisely** (1971)  
*Color - 18 minutes*

Ron Webster, a professional money management counselor, reacts to the cliches and excuses that the "man-in-the-street" offers. He introduces us to three typical families with money problems representing a cross section of economic levels. We follow them as they encounter, and reach solutions to their money management difficulties.

The film was prepared by the Credit Union National Association, and is geared to the adult with emphasis on the blue collar worker.

**Purchase:** Journal Films, Inc., 909 West Diversey Parkway, Chicago, Illinois 60614 - $240.00  
**Rental:** $18.00

**Why Do You Buy?** (1972)  
*Color - 9½ minutes*

This film features Frank Frontlash and Mildred Maximum - they buy things. Frank and Mildred are modern consumers. In addition to their basic material needs -- food, shelter, clothing -- they also have some important psychic needs which they try to satisfy with the things they buy. The film, through a fictionalized and comical approach, focuses in on the emotional elements which enter into the buying decision. It further shows how advertising utilizes the emotional appeals to sway our buying decision.

**Purchase:** Journal Films, Inc., 909 West Diversey Parkway, Chicago, Illinois 60614 - $125.00  
**Rental:** $9.00
Filmstrips

MONOGRAPHS

I - CONSUMER EDUCATION: AN INTERDISCIPLINARY APPROACH - A
basic statement concerning consumer education and its importance in
the educational program of all elementary and secondary schools. De-
fines consumer education -- what it is and what it is not -- and
suggests means for including it in the curriculum.

II - SELECTED AUDIO-VISUAL MATERIALS FOR CONSUMER EDUCATION -
An annotated bibliography of selected audio-visual materials ap-
propriate for use in consumer education classes. Includes films, filmstrips, slides, transparencies, and multi-media resource packages
with reference to source and cost.

III - A SURVEY OF EXISTING CONSUMER EDUCATION PRACTICES IN NEW
JERSEY SCHOOLS - A detailed report of a survey conducted by the Cen-
ter for Consumer Education Services at the close of the 1970-71
school year. Results are presented in narrative form, with wide use
of tables. An excellent overview of consumer education which sup-
ports most assumed practices, but reveals some unexpectations.

IV - CONSUMER EDUCATION IN THE SCIENCE CURRICULUM - This pub-
location presents a strong argument for a consumer oriented approach
to the school science curriculum. The reasons for introducing con-
sumer science, as well as explanations on how to do it, are clearly
indicated. Many ideas for consumer oriented science projects are
given, including a suggested outline for organizing the activity,
and a sample unit on testing and rating shampoos.

V - CONSUMER EDUCATION IN THE ENGLISH CURRICULUM - This pub-
lication has been prepared to provide teachers of English with a
springboard for action. It is not a curriculum guide or a course of
study -- it contains only ideas, suggestions, and motivation for
English teachers to use in developing their own contribution to a
truly "relevant" area of education today -- consumer education.

VI - TEACHING CONSUMER EDUCATION: A COMMON-SENSE APPROACH - An
extremely practical, logical statement which defines and explains
basic components of consumer education; motivates and guides school
personnel in planning and teaching this vital subject area; presents
a positive approach to program implementation; and explores the
lofty educational potentials of consumer education.

ALL MONOGRAPHS are distributed free of charge to local school
superintendents, county superintendents, state department personnel,
college and university personnel, and advisory committee members.
Visitors to the Center for Consumer Education Services may receive
complimentary copies. Additional copies of all MONOGRAPHS are avail-
able at a cost of $1.00 per copy from: Vocational-Technical Curricu-
um Laboratory, Building 4103 - Kilmer Campus, Rutgers University,
New Brunswick, New Jersey 08903.
