Presented by the Master Planning Committee of the Colorado Department of Institutions and the Division of Developmental Disabilities is a behavior inventory of sequential skills in four areas basic to the normalization of developmentally disabled persons. Instructional objectives are listed in the following areas: physical, including perceptual motor, fine motor, and gross motor skills; communication including writing, reading, speech and language skills; self-management and daily living skills; and employment including work performance, administrative routine, and self-employment skills. Objectives are arranged in defined levels, (such as advanced ball handling skills) and broken down into sequential steps (such as client moves to catch 5" ball when rolled to him). (CL)
COLORADO STATE PLAN FOR THE DEVELOPMENTALLY DISABLED

MASTER PLANNING GUIDE
for Instructional Objectives

DIVISION OF DEVELOPMENTAL DISABILITIES MASTER PLANNING COMMITTEE:

Chief: Marvin L. Meyers
Assistant Chief: Richard K. Mason
Chairman: Howard Boozer, State Home and Training School, Wheat Ridge
Vice-Chairman: James P. Graves, Division of Developmental Disabilities

Members:

Kent Bennett, State Home and Training School, Pueblo
Steve Chiovaro, State Home and Training School, Grand Junction
Doris Morrison, State Home and Training School, Wheat Ridge, Parent
Herb Padzensky, Division of Developmental Disabilities
Paul Shibata, Volunteer in Service to America (VISTA)
Larry Velasco, Pueblo Community Center
Charlize Webb, State Home and Training School, Wheat Ridge, Parent
Ruth Wood, Boulder County Community Center Board

Task Force Members:

Christine Bahr, Denver County Community Center
Jim Boland, United Cerebral Palsy Association of Weld County
Stan Bond, AVATRAC, Arapahoe County
Alice Brescia, State Home and Training School, Pueblo
Gerri Brown, State Home and Training School, Wheat Ridge
Betty Bruengeman, Colorado Springs Community Center
Ellen Busdicker, Denver County Community Center
Pat Cadex, State Home and Training School, Grand Junction
Sid Clack, State Home and Training School, Wheat Ridge
Carol Cox, State Home and Training School, Wheat Ridge
Ila Custer, Lakewood Village, Longmont, Parent
Barbara Dick, Arapahoe County Community Center
Garrett Dick, Laradon Hall, Denver
Betty Dickson, State Home and Training School, Wheat Ridge, Parent
Bonnie Gable, State Home and Training School, Grand Junction
Dr. F. William Hap, Laradon Hall, Denver
Lynda Hein, Arapahoe County Community Center
Anna Hill, Division of Developmental Disabilities
Cora Holmes, H.I.P. Project
Dorothy Jochim, Jefferson County Community Center
Stella Jones, Denver County Community Center
George Kemper, State Home and Training School, Wheat Ridge
Eunice Klein, State Home and Training School, Wheat Ridge, Parent
Sue Lyon, Laradon Hall, Denver
Ardith McGinty, State Home and Training School, Wheat Ridge
Eddie Navarro, State Home and Training School, Wheat Ridge
Lorna O'Neal, Cerebral Palsy Center, Denver, Parent
Judy Pierson, Foothills Rehabilitation Center
Wallace Ragan, Jefferson County Community Center
Betty Rider, State Home and Training School, Wheat Ridge, Parent
Virginia Ruddick, State Home and Training School, Pueblo
Ann Schaffer, State Home and Training School, Grand Junction
Gloria Shanahan, Laradon Hall, Denver, Parent
Aprilly Stellpflug, Pueblo County Community Center
Christine Thurston, Jefferson County Community Center
Beth Townsend, SEMBCS
Henry Turner, Interested Citizen, Fleming, Colorado
Gene Van Blaricon, Denver County Community Center
Sharon Vecellio, Arapahoe County Community Center
Jo-Ann Ward, Adams County Community Center
Bill West, Denver Association for Retarded Citizens
Marian Williams, State Home and Training School, Wheat Ridge
Ila Wilson, Denver County Community Center
Dave Wood, State Home and Training School, Wheat Ridge
Dr. John Wooster, Weld County Community Center

Special Contributors:

V. Lucile Bramley, Division of Developmental Disabilities
Carol Bushkovski, Division of Developmental Disabilities
Marilyn Day, State Home and Training School, Pueblo
Laurice Denham, Boulder County Community Center
Dieter Eberl, Division of Developmental Disabilities
Vicki Garcia, State Home and Training School, Pueblo
Ted James, Larimer County Community Center
Lloyd Landin, Boulder County Community Center
Gary Lewis, Longmont Workshop
Sue Pottorff, Division of Developmental Disabilities
Jean Reichen, State Home and Training School, Wheat Ridge
Dominic Reinpold, State Home and Training School, Wheat Ridge
Dan Sheehan, Jefferson County Mental Health Center
Susan Sporn, VISTA, Division of Developmental Disabilities
Robert J. Stephens, Division of Developmental Disabilities
Angela Yaron, Division of Developmental Disabilities
The Colorado Department of Institutions and the Division of Developmental Disabilities established the Master Planning Committee in 1972 to fulfill the need for a comprehensive long-range plan for the care and training of the Developmentally Disabled clients.

The resulting Guide is to establish a consistent approach in determining goals and objectives to be used to direct the progress of the Developmentally Disabled client. The Guide is designed as a workable tool to identify each client's individual developmental needs and will soon also identify the services required to meet these needs. The Guide is also a communication base to be used within and between services.

The results of the Master Planning Guide for Instructional Objectives (MPG) are presented in four major categories: physical, communications, self-management, and employment skills. The Committee defined skill categories and a group of task forces composed of experts in each area explored and developed each category. The Committee edited and reorganized the attached Guide into its present form.

The MPG is an inventory of positive measurable adaptive behaviors listed in a developmental sequence or in approximate order of difficulty. The most advanced skills are listed first and the basic skills follow. The skills and definitions listed are milestones of behaviors, and, therefore, the MPG does not represent range of behaviors which an individual may acquire, but rather the basic skills necessary for the normalized development of the client.

The MPG is not a test, nor methodology, nor curriculum, but provides instructional objectives. The Adaptive Behavior Scale can be used to assess general strengths and weaknesses of a client. The MPG is used to develop and report specific objectives for the client. The MPG is used because it provides a broader and more indepth listing of skills than the A.B.S. There are no constraints on methodology extended to the direct personnel in raising the level of the client, but if help is needed to develop programs, the ABS-MPG printout provides a listing of programs that are available for each item of the A.B.S. In the MPG, provisions are only made for normal sequential development. The experience and professional training of those with appropriate expertise must be utilized to adopt the program to the specific need of each client. In applying the MPG to the client for individualized prescriptive programming, it is imperative to consider the client's environment and culture. It must be noted that a client because of certain disabilities, who cannot meet a completion of a skill category, shall be allowed to progress in his development in other skill categories. These categories are interrelated and dependent.

The determination that a client has achieved an objective (milestone) in the MPG is based on his performing the skill independently. The criterion for "independently" is performing the skill 80% (4 out of 5) of the time in the appropriate situation (when no indication of consistency is defined in a milestone). However, depending on the individual client and the behavior, more or less trials may be used and a higher or lower percentage may be used.
The services provided portion is a refinement of the sixteen discrete services first introduced in the DDSA. This portion of the Master Plan is incomplete and is being modified to encompass all support services required to meet client needs without regard to specific agency roles. Also, a special skills unit will be forthcoming as an addendum to the MPG, which involves skills, such as wheelchair management, prosthetic device management, special communication skills, etc.

This Committee will be an on-going Committee and request for changes in the MPG should be addressed to the Master Planning Committee. The Committee will work on the listing and defining the services needed by the client next.
## INDEX

### Physical Skills
- **40000** Physical Skills
  - **41000** Perceptual Motor
    - **41100** Advanced Perceptual Motor (Writing Readiness and Position of Self in Space Concepts)
  - **41200** Basic Perceptual Motor
  - **42000** Fine Motor Skills (Swallowing, Eye Movement, Hand Function)
  - **43000** Gross Motor Skills
    - **43100** Advanced Gross Motor Skills (Tumbling, Hopping, Kicking, etc.)
    - **43200** Intermediate Gross Motor Skills (Basic Stair Climbing, Running, Ramps and Inclines, etc.)
    - **43300** Basic Gross Motor Skills (Walking, Sitting, Rolling, Head Control, etc.)

### Communication Skills
- **50000** Communication Skills
  - **51000** Writing Skills
  - **52000** Reading Skills
  - **53000** Speech and Language Skills

### Self-Management Skills
- **60000** Self-Management Skills
  - **61000** Personal Skills
    - **61100** Decision Making Skills
    - **61200** Responsible Behaviors Skills
    - **61300** Interaction with Others Skills
    - **61400** Interaction with Community Services
  - **62000** Leisure/Recreation Skills
  - **63000** Maintenance of Physical Health Skills
  - **64000** Home Management Skills
    - **64100** Economic Activity Skills (Banking, Budgeting, Purchasing and Currency Management)
    - **64200** Telephone Usage Skills
    - **64300** Practical Math Skills (Measuring, Time Numbers)
    - **64400** Care of Home and Grounds Skills
    - **64500** Food Service Skills (Preparation, Storage, Dishwashing, and Clearing)
    - **64600** House Cleaning Skills
    - **64700** Care of Clothing and Household Linens Skills
  - **65000** Activities of Daily Living Skills
    - **65100** Grooming Skills (Cosmetic, Hair Care, Bathing, etc.)
    - **65200** Toileting Skills
    - **65300** Dressing Skills
    - **65400** Body Parts Skills
    - **65500** Eating Skills

### Employment Skills
- **70000** Employment Skills
  - **71000** Obtaining Employment Skills
  - **72000** Work Performance Skills
    - **72100** General Work Skills
    - **72200** Quantity of Work Skills
    - **72300** Quality of Work Skills
  - **73000** Administrative Routine Skills
    - **73100** Rules and Regulation Skills
    - **73200** Safety Skills

PHYSICAL SKILLS DEVELOPMENT

40000 Physical Skills Developed
Definition: Physical Skills are those motor and perceptual motor skills required for the individual to function in his environment.

Goal: To develop the motor skills in correlation with sensory experiences necessary to function independently in normal society.

41000 Perceptual Motor Skills Developed
Definition: Those behaviors which integrate sensory experiences with motor responses.

41100 Advanced Perceptual Motor Skills
Definition: Advanced Perceptual Motor Skills are those behaviors stated below:

41110 Writing Readiness Skills (give equal trials to both sides)
Definition: Writing Readiness Skills are those required to trace, copy, and draw basic shapes. (Circles, triangles, horizontal line and vertical line).

41111 Drawing of Basic Shapes from Memory.
41112 Copying of Basic Shapes.
41113 Tracing of Basic Shapes.

41120 Position of Self in Space Concepts
Definition: Position of Self in Space Concepts are those behaviors required to demonstrate awareness of relationships between objects and/or self.

41121 Concept of Near-Far
41122 Concept of High-Low
41123 Concept of Through and Around
41124 Concept of Beside (give equal trial to both sides)
41125 Concept of In Front-Behind
41126 Concept of Over-Under
41127 Concept of In-Out
41128 Concept of Up-Down
41129 Concept of On-Off

41200 Basic Perceptual Motor Skills
Definition: In order to develop basic perceptual motor skills, planned stimulation involving all senses and required responses should be integrated when teaching other skills. Those areas to be stimulated should include but are not limited to: visual, auditory, tactile, spatial awareness.

41210 Visual
41220 Auditory
41230 Tactile
41240 Spatial Awareness
42000 Fine Motor Skills Developed
Definition: Fine Motor Skills are those behaviors required to achieve precision in control of small muscle groups, especially of the eyes, mouth and hand.

42100 Swallowing Skills (Place tongue blade flat between side teeth of both jaws to observe movements in mouth for occasional checking).
Definition: Swallowing Skills are those behaviors required to take food through the mouth and esophagus into the stomach.

42110 Client combines steps below until smooth pattern of swallowing is achieved.
42120 Client pushes food to backsides of mouth as teeth grind solid food to be swallowed.
42130 Client keeps food in mouth by closing lips when swallowing soft foods.
42140 Client elevate tongue to front of roof of mouth as soft food slips backward and is swallowed.
42150 Client raises back of tongue and pushes front of tongue forward past teeth to swallow liquids or soft foods.

42200 Eye Movement Skills - Visual Tracking (keep object no more than 12" from clients' eyes).
Definition: Eye Movement Skills are those behaviors required to attend to an object moving in a variety of positions.

42210 Client attends to object moving in a combined pattern.
42220 Client attends to object moving horizontally from one side past midline.
42230 Client attends to stationary object for 3 seconds.
42240 Client makes eye contact with instructor for 3 seconds.

42300 Hand Function Skills
Definition: Advanced Hand Function Skills are those behaviors required for thumb and finger grasping and other finger use.

42310 Advanced Hand Function Skills
Definition: Advanced Hand Function Skills are those behaviors required for thumb and finger grasping and other finger use.

42311 Client pushes with tip of index finger using a downward force.
42312 Client points to object on flat surface with index finger.
42313 Client holds small object with one hand by voluntarily keeping fingers together.
42314 Client holds large object with both hands by voluntarily separating fingers.
42315 Client transfers object from one hand to the other hand with tips of thumb and index finger closed around object.

42316 Client lifts object off flat surface with tips of thumb and index finger closed around object.

42317 Client closes tips of thumb and index finger around object on flat surface.

42318 Client transfers object from one hand to other hand with fingers and thumb closed around object.

42319 Client lifts object off flat surface with fingers and thumb closed around object.

42320 Basic Hand Function
Definition: Basic Hand Functions are those behaviors required to purposefully grasp an object and to position client's palm by moving the forearm.

42321 Client uses one hand and slaps ball with palm upward.

42322 Client uses one hand and slaps large object in front of him with palm inward.

42323 Client uses one hand and slaps flat surface with palm downward.

42324 Client uses both hands and slaps flat surface with palm downward.

42325 Client holds object and draws it toward his body.

42326 Client claps hands in front of body.

42327 Client opens hand and drops object voluntarily.

42328 Client closes hand around presented object by using fingers to gather object to palm.

42329 Client reaches for object with open hand.

43000 Gross Motor Skills Developed
Definition: Gross Motor Skills are those behaviors required to achieve physical stability, motion and locomotion.

43100 Advanced Gross Motor Skills Developed
Definition: Advanced Gross Motor Skills are those behaviors stated below.

43110 Advanced Ball Handling Skills, Using 5' Ball
Definition: Advanced Ball Handling Skills are those gross eye/hand coordination behaviors required to catch and propel a 5" ball.

43111 Same as 43112 except overhand.

43112 Client steps forward with opposite foot when throwing ball underhand to directed location with preferred hand.

43113 Client moves to catch ball when rolled toward him.
43114 Client rolls ball to directed location with one hand (equal trials to both sides).
43115 Client catches ball with 2 hands when ball is lobbed behind him so that he must move to catch the ball.
43116 Client catches ball with 2 hands when ball is lobbed to right or left of him, so that he must move to catch the ball.
43117 Client catches ball with 2 hands when ball is lobbed in front of him so that he must move to catch the ball.
43118 Client catches ball with 2 hands when ball is lobbed directly to him.

43120 Tumbling Skills
Definition: Tumbling Skills are those behaviors required for the movement of the body comprising at least a complete revolution head over head.

43121 Client repeats procedure for 2 or more rolls.
43122 Client squats with back toward mat, hands are placed in front between legs with palms on mat. Head is tucked forward, legs and hands push backward as body rolls backward and over.
43123 Client repeats procedure for 2 or more rolls.
43124 Client squats, hands are placed in front between legs with palms flat on mat; head is tucked and directed under as legs push child forward and over.

43130 Hopping and Skipping Skills
Definition: Hopping Skills are those behaviors required for balancing on one foot then jumping forward and landing on that same foot, maintaining balance.
Definition: Skipping Skills are those behaviors required for rapidly alternating feet during hopping activity and maintaining balance.

43131 Client completes 5 consecutive patterns in 10 seconds.
43132 Client completes 5 consecutive patterns in 20 seconds.
43133 Client steps on one foot, then hops on same foot, client steps on other foot then hops on this foot, child completes patterns in 6 seconds.
43134 Same as 43136 with no support (equal trials to both feet).
43135 Same as 43136 using one-handed support (equal trials to both feet).
43136 Client balances on one foot, then jumps forward on one foot with two-handed support (equal trials to both feet).
43137 Same as 43139 without support (equal trials to both feet).
43138 Same as 43139 with only one-handed support (equal trials to both feet).
43139 Client stands and lifts one foot off floor, stands and balances for one second with two-handed support (equal trials to both feet).
Climbing Skills - Using 8' Ladder at a 30 degree angle with rungs 8" to 10" apart.
Definition: Climbing Skills are those behaviors required to ascend and descend a ladder.

Client ascends to the top and descends to the bottom with step over step, pattern.
Client stands on second from lowest rung, with hands two rungs above shoulder level, client places left foot down one rung and right hand down one rung; next, puts right foot down one rung, right hand down one rung below left foot and left hand down one rung below right hand.
Client has hands at shoulder level rung, places left hand up one rung and right foot up one rung; next, client places right hand one rung above left hand and left foot one rung above right foot.
Same as 43146 beginning at top of ladder, continuing pattern until client reaches the floor.
Same as 43147 continuing pattern until client reaches the top of ladder.
Client stands with feet on second lowest rung and hands one rung above shoulder level, client places one foot down one rung and follows with other foot, client moves one hand down one rung, followed by other hand, continue pattern until floor is reached.
Same as 43148, then client places one hand at next highest rung followed by his other hand; client places one foot up one rung and follows with other foot.
Client stands with both feet on lowest rung and both hands on rung at shoulder level; client steps down to floor on one foot and then follows with the other.
Client places both hands on rung at shoulder level and places one foot on lowest rung, then brings other foot up onto lowest rung.

Advanced Stair Climbing Skills
Definition: Advanced Stair Climbing Skills are those behaviors required to ascend and descend steps, using one foot per step alternately, without support and hesitation.
Client descends stairs in a balanced position, using one foot per step alternately.
Client ascends stairs in a balanced position, using one foot per step alternately.
Client descends stairs in a balanced position using one foot per step, alternately, with one hand gripping rail.
Client ascends stairs in a balanced position using one foot p.r step, alternately, with one hand gripping rail.

Kicking Skills
Definition: Kicking Skills are those behaviors required to propel an object by using the foot as the driving force.
Client kicks ball, placed or rolled, to desired location.

Client kicks placed ball to desired location.

Client runs to ball that is rolling towards him and kicks it with one foot (equal trials to both feet).

Client walks to ball that is rolling towards him and kicks it with one foot (equal trials to both feet).

Client runs to ball and kicks placed ball with one foot (equal trials to both feet).

Client walks to ball and kicks placed ball with one foot (equal trials to both feet).

Client balances on both feet and kicks rolling ball with one foot (equal trials to both feet).

Client balances on both feet, ball is placed in front of one foot as leg is moved backward and forward in order to hit the ball with force (equal trials to both feet).

Client balances on both feet, ball is placed in front of one foot, the child's leg is moved forward as foot moves in sliding motion, until contact is made with ball (equal trials to both feet).

Jumping Skills
Definition: Jumping Skills are those behaviors required to propel the body upward and maintaining balance.

Client bends to half crouch with arms extended behind him, and swings arms forward, straightens his knees and stretches his body out in forward motion.

Client stands on floor level with feet slightly apart and parallel, knees flexed and trunk slightly bent forward, arms hanging loosely at sides.

Client stands on 2" high platform, with feet slightly apart and parallel, knees flexed and trunk slightly bent forward.

Intermediate Gross Motor Skills
Definition: Intermediate Gross Motor Skills are those behaviors stated below:

Intermediate Ball Handling Skills, Using 10" Ball
Definition: Intermediate Ball Handling Skills are those gross eye/hand coordination behaviors required to catch and propel a 10" ball.

Client, standing with feet slightly apart, catches ball after single bounce, using both hands.

Client, standing with feet slightly apart, holding ball with both hands, pushes ball away from body with downward motion, using single bounce toward directed goal.

Client, standing with feet slightly apart, holding ball with both hands, pushes ball downward and catches ball with both hands after bounce.
Client, standing with feet slightly apart, holding ball with both hands, drops ball and catches it after bounce (any way he can).

Client, standing, catches ball rolled toward him.

Client, standing with feet slightly apart, catches lobbed ball with two hands.

Client, standing with feet slightly apart, holds the ball away from body with both hands; throws ball forward underhand, using parallel arm movement.

Client, sitting on floor, catches ball with both hands when rolled towards him.

**Basic Stair Climbing and Curbs Skill**

Definition: Basic Stair Climbing and Curbs Skills are those behaviors required to ascend and descend one or more steps, maintaining balance.

- Client walks to curb and steps down.
- Client walks to curb and steps up curb.
- Client descends stairs, one foot leading the other foot, one stair step at a time: child grasps rail with one hand.
- Client ascends stairs in a balanced position using one foot leading as other follows, one stair step at a time; one hand grips rail.
- Client ascends stairs on his hands and feet in a reciprocal crawl pattern.
- Client ascends stairs in a knee-hand position, using a pulling-pushing motion.
- Client ascends stairs using a pull-push motion, using total body.

**Running Skills**

Definition: Running Skills are those behaviors required to move quickly or more rapidly than walking or in bi-pedal locomotion so that for an instant neither foot is on the ground.

- Client independently runs to desired location.
- Client independently maintains running gait.
- Client increases speed with assistance until running gait is achieved.
- Client walks forward as fast as possible using reciprocal arm swing.

**Use of Ramps and Inclines Skill** (board description: 8'X20"X2")

Definition: Use of Ramps and Inclines Skills are those behaviors required to ascend and descend by walking, maintaining balance on a regular sloped surface.

- Client ascends and descends a board with a width of 10" (1'X10"X2"), increasing height of board by 2", 4", and 8".
Client ascends and descends an 8'X20"X2" ramp, increasing height of board by 2", 4", and 8".
Client descends ramp at 2" height walking.
Client ascends ramp at 2" height using a walking gait.

Advanced Walking
Definition: Advanced Walking Skills are those coordinated behaviors involving the total body to proceed in a rhythmic bi-pedal locomotion.

Client walks using heel-toe gait.
From standing position, client walks to and seats himself in a chair.
Client walks on soft and irregular surfaces.
Client changes walking direction voluntarily with control.
Client stops walking voluntarily with control.
Client maintains standing position when threatened from back.
Client maintains standing position when threatened from front.
Client maintains standing position when threatened from left or right.
Client walks forward with reciprocal arm swing.

Basic Gross Motor Skills Developed
Definition: Basic Gross Motor Skills are those elementary behaviors stated below.

Basic Ball Handling Skills (Gross Eye/Hand Coordination)
Definition: Basic Ball Handling Skills are those Gross Eye/Hand Coordination behaviors required to catch and propel a ball over 10" in diameter.

Client standing picks up ball placed in front of him without losing balance.
Client propels ball forward using both arms when standing in stationary position.
Client catches ball when lobbed from arms' distance using two arms and gathering ball to chest when standing in stationary position.
Client rolls ball forward to teacher, pushing with both hands when seated on the floor.
Client rolls ball forward, pushing with both hands when seated on the floor.
Client catches ball when lobbed from arms' distance, using two arms and gathering ball to chest when seated on floor.
Client propels ball forward using both arms when seated on floor.
Client catches rolling ball using two arms and gathering ball to chest when seated on floor.

Walking Skills
Definition: Walking Skills are those behaviors required for bi-pedal locomotion with one foot on the ground at all times.
43321 Client walks to his desired location.
43322 Client assumes a standing position from the floor without support.
43323 Client falls with control to sitting position.
43324 Client stands without support.
43325 Client stands with one-handed support and then walks with one-hand support.
43327 Client walks with two-handed support.
43328 Client, with two-handed support, pulls to stand from kneeling position.
43329 Client stands with two-handed support.

43330 Crawling Skills
Definition: Crawling Skills are those behaviors required for quadrupedal locomotion (using both arms and legs).

43331 Client crawls from one place to another.
43332 Client crawls in reciprocal pattern (left arm-right leg and right arm-left leg) with stomach off floor.
43333 Client assumes hand-knee position with stomach off floor.
43334 Client maintains position on hands and knees with stomach off floor.
43335 Client pulls forward on hands as he pushes with legs when on his stomach.
43336 Client props on hands when on his stomach.
43337 Client pulls forward on forearms when on his stomach.
43338 Client rocks back and forth on forearms when on his stomach.
43339 Client props on forearms when on his stomach.

43340 Sitting Skills
Definition: Sitting Skills are those behaviors required to maintain the upper portion of the body in an upright position.

43341 When client is pushed off balance forward, he arches his neck and trunk backward.
43342 When client is pushed off balance to one side, head and trunk arch to the opposite side (equal trials to both sides).
43343 When client is pushed off balance forward, both arms are extended forward.
43344 When client is pushed off balance to one side, his hand on that side and the opposite left leg are extended (equal trials to both sides).
43345 Client maintains sitting position in chair without foot support.
43346 Using rotation, client assumes sitting position from lying on stomach.
43347 Client leans forward while sitting and then re-erects himself to sitting position.
43348 With no support, client maintains sitting position on flat surface with his legs out in front.
43349 With two-handed support, maintains sitting position on flat surface with his legs out in front.
Rolling Skills
Definition: Rolling Skills are those behaviors required to move the body from stomach to back and back to stomach in a continuous movement.

- Client rolls to move from one place to another.
- Client completes continuous rolling (2 or more rolls).
- Client rolls completely from back to back.
- Client rolls completely from stomach to back.
- Client rolls from back to stomach (segmental).
- Client rolls completely from stomach to back (segmental).
- Client rolls from back to side.
- Client rolls from side to back.
- Client rolls from stomach to side.

Head Control
Definition: Head Control Skills are those behaviors required to move and maintain the head in a balanced position.

- Client maintains head in line with body when on back and raises to sitting position.
- Client raises head above body plane when suspended in air, supported only at the waist with stomach up.
- Client keeps plane of face perpendicular to the floor and line of vision parallel to the floor when tilted to the side while in the air (equal trial to both sides).
- Client raises head above body plane when suspended in air, supported only at the waist with his stomach down.
- Client keeps chin on chest when going from a sitting position to lying on back.
- Client maintains head in line with body when in sitting position, then turns head left and right.
- Client raises head above body plane when on back.
- Client turns head left and right when on stomach and head is raised above body plane.
COMMUNICATION SKILLS DEVELOPED
Communication Skills Developed
Definition: Communication Skills are those behaviors required for clients to express and receive ideas, thoughts, emotions and opinions by work and/or non-verbal means.
Goal: For each client to attain independent proficiency in all areas of communication.

Writing Skills Developed
Definition: Writing Skills are those behaviors necessary to communicate in graphic form.

Level VII
Definition: Samples of writing behaviors needed to communicate from approximately a 10 year and over consistent with standardized, normative data.
- 51110 Client fills out forms.
- 51120 Client writes a business letter.
- 51130 Client outlines.
- 51140 Client takes notes.

Level VI
Definition: Writing behaviors generally acquired during a period of approximately 9-10 year age level consistent with standardized, normative data.
- 51210 Client writes complex sentences; (including dependent and independent phrases, conjunctions, series of words, clauses, etc.) with 25% accuracy.
- 51220 Client writes simple directions with 25% accuracy.
- 51230 Client alphabetizes according to the first four letters of words with 25% accuracy.
- 51240 Client writes to express his ideas, emotions, opinions, etc.
- 51250 Client uses hyphens and parenthesis and underlines with 25% accuracy.
- 51260 Client addresses envelopes observing margins and spacing.

Level V
Definition: Writing behaviors generally acquired during a period of approximately 8-9 year age level consistent with standardized, normative data.
- 51310 Client uses comma with 50% accuracy and quotation marks in some simple sentences with 10% accuracy.
- 51320 Client differentiates and constructs in writing declarative, interrogative, exclamatory and imperative statements with 10% accuracy.
- 51330 Client uses capital with 25% accuracy.
- 51340 Client uses colon and semicolon with 10% accuracy.
- 51350 Client uses an exclamation point with 50% accuracy.
- 51360 Client, when writing, uses noun markers (a, an, the) correctly, i.e., an apple, as opposed to a apple.
- 51370 Client can write simple personal letters unassisted.
- 51380 Client, when writing, spells correctly 70% of the time, the words to which he has been exposed.
Level IV
Definition: Writing behaviors generally acquired during a period of approximately 7-8 year age level consistent with standardized, normative data.

1. Advanced
   1411 Client, when writing, correctly spells words to which he has been exposed, 50% of the time.
   1412 Client uses a colon to express time, with 50% accuracy.
   1413 Client prints answers to questions.
   1414 Client uses an apostrophe in common contractions with 10% accuracy.
   1415 Clients' mean written sentence is ten words.
   1416 Client copies or traces cursive, with 25% accuracy, (i.e., copying and tracing).

2. Basic
   1421 Client uses synonyms when writing to avoid repetitions (i.e., happy, joyful) 10% of the time.
   1422 Client to alphabetize according to the first letter, with 35% accuracy.
   1423 Client to print personal letters and invitations with 25% accuracy.
   1424 Client prints his own address in full and is able to address an envelope to another person, with information provided on worksheet (i.e., copying a format).
   1425 Client demonstrates an awareness of correct grammar usage through the sentences and stories he prints, with 25% accuracy.
   1426 Client uses period and question mark appropriately (i.e., "The class is having a party"
"Is the class having a party").

Level III
Definition: Writing behaviors generally acquired during a period of approximately 6-7 year age level consistent with standardized, normative data.

1510 Client composes and prints paragraphs using 4-6 simple sentences (i.e., when describing field trips, stories read aloud, etc.).
1520 Client, when writing, correctly spells words to which he has been exposed with 25% accuracy.
1530 Client may apply spelling rules (i.e., consonant blends, sh, ch, st, etc.).
1540 Client composes and prints simple statements and questions.
1550 Client prints own first and last name.
1560 Client uses capitals appropriately when printing some proper nouns and familiar given names.
1570 Client copies letters, words, and sentences from a model on blackboard in front of room.
51600 Level II
Definition: Writing behaviors generally acquired during a period of approximately 5-6 year age level consistent with standardized, normative data.

51610 Client establishes and maintains an acceptable and uniform size of letters.
51620 Client recognizes and prints from memory letters of the alphabet with which he is familiar.
51630 Client prints own given name with no model.
51640 Client forms a series of letters from left to right.
51650 Client copies numerals and words.

51700 Level I
Definition: Samples of writing behaviors generally acquired before approximately 5 year age level consistent with standardized, normative data.

51710 Client traces forms and simple geometric shapes.
51720 Client assembles letters to correctly spell own first or nickname (i.e., using alphabet blocks, plastic letters, etc.).
51730 Client has motor concept of start-stop in manipulation of pencil.
51740 Client controls movement of writing instrument when coloring and drawing.

52000 Reading Skills Developed
Definition: Reading Skills are those behaviors required to gain meaning from a system of written signs which are used to represent oral language.

52100 Level VI
Definition: Samples of reading behaviors needed to communicate from an approximately 9 year age level consistent with standardized, normative data.

52110 Client is able to recognize propaganda techniques.
52120 Client reads for personal enjoyment.
52130 Client is able to distinguish between fact, fiction and opinion.
52140 Client reads in order to verify answers to questions.
52150 Client reads at a rate of 120 words per minute with no more than 2 errors.

52200 Level V
Definition: Reading behaviors generally acquired during a period of 8-9 year age level consistent with standardized, normative data.

52210 Client demonstrates a knowledge of prefixes and suffixes (i.e., n, un, em, dis, be, in, th, ty, ful, less, ness).
52220 Client locates and applies basic information in newspaper, (i.e., headlines, movie guide, etc.).
Client uses guide words in books (i.e., dictionary, phone book, etc.).

Client recalls from silent reading and is able to:
- a. predict outcomes and b. find proof.

Client reads fluently for listeners' enjoyment of a story.

Level IV
Definition: Reading behaviors generally acquired during a period of approximately 7-8 year age level consistent with standardized, normative data.

Client demonstrates a knowledge that words have multiple meanings (i.e., "Turn off the light," "A feather is light.").

Client demonstrates recall from stories read silently by:
- a. naming characters, b. giving main idea, c. giving conclusion, d. giving details, e. giving sequence, f. understanding relationships.

Client uses alphabetical order to find entries on a page (i.e., He can find a familiar name in the phone book, or a familiar word in a phone book, or a familiar word in a picture dictionary) with 25% accuracy.

Client identifies vowel sounds in words.

Client uses a table of contents with 25% accuracy.

Client demonstrates beginning knowledge of word changes (i.e., a. compound words - bedroom, barnyard, b. possessiveness and word endings - s, ed, d, ing, er, est, y, ly, t; c. contractions - I'll, can't, etc.; d. root words - going, jumps, laid).

Client demonstrates knowledge of words which are pronounced the same but are spelled differently (i.e., rode, road).

Client identifies medial and final consonant sounds in words.

Client reads with phrasing and intonation to express meaning.

Level III
Definition: Reading behaviors generally acquired during a period of approximately 6-7 year age level consistent with standardized, normative data.

Client identifies initial consonant sounds in words.

Client answers inference questions about a story he has read or heard.

Client answers who, what, when, where, why and how questions about a story he reads.

Client reads silently with comprehension of the main idea.

Client reads sentences using punctuation as a guide, 25% of the time.

Client reads vocabulary of selected pre-primer reading series and can identify words in various settings (experience, charts, word cards, etc.).
52470 Client reads and follows simple directions (i.e., "draw a dog," "color it brown.").

52500 Level II
Definition: Reading behaviors generally acquired during a period of approximately 5-6 year age level consistent with standardized, normative data.

52510 Client demonstrates a beginning awareness that letters have sound.
52520 Client sight reads 50 words (i.e., names of friends, family, colors, protective words, days of week, months, etc.).
52530 Client recognizes the likenesses and differences in words containing visual similarities.
52540 Client indicates the development of some listening skills (necessary for effective reading) by following directions, repeating sounds heard and/or identifying, rhyming sounds and by giving information about a story's main idea, sequence of events, details and/or mood.
52550 Client demonstrates acknowledgement of the concept of words.
52560 Client names numbers 0-10.
52570 Client recognizes the relationship between capital and small letters.
52580 Client recognizes his own given and surname in print.
52590 Client demonstrates a knowledge of the concept of "letter" by being able to indicate a letter in a series of letters.

52600 Level I
Definition: Samples of reading behaviors generally acquired during a period of 3-5 year age level consistent with standardized, normative data.

52610 Client identifies sounds necessary for effective reading 25% of the time (i.e., a. client can identify a variety of sounds; car, horn, baby cry, etc. b. Client can identify various rhythms, c. Client can identify changes in pitch and tone, d. Client can identify changes in volume).
52620 Client can arrange two to four pictures in correct sequence to tell a familiar story.
52630 Client sorts pictures by class or category (i.e., clothing, items, animals, etc.) 25% of the time.
52640 Client names both objects (nouns) and action (verbs) in a book.
52650 Client can point to top and bottom of a page when asked.
52660 Client demonstrates an interest in reading (i.e., client wants to look at books, listen to stories and often has a favorite book).
52670 Client matches like pictures, objects, shapes, and colors (i.e., a tree to a tree, blue to blue).
Speech and Language Skills Developed

Definition: Speech & Language Skills are those behaviors required for a communication system that includes the comprehension and usage of gestural and vocal symbols.

Level VIII

Definition: Samples of Speech and language behaviors needed to communicate from an 84 months age level consistent with standardized, normative data.

Advanced

53111 Client uses an average of 9-11 words in sentences and phrases.
53112 Client uses speech-language skills, persuasively to fulfill needs and to identify himself with groups.
53113 Client demonstrates competency in every form of grammatic structure that is common to his environment.
53114 Client discusses own capabilities and life goals and gives rationale for them.
53115 Client describes how he will achieve a long-range goal.
53116 Client verbally describes how he would cope with a dangerous situation and gives rationale for doing so.
53117 Client verbally expresses fears regarding school, job, social problems, etc.

Basic

53121 Client talks about other people's emotions and attitudes.
53122 Client indicates he would ask for help and advice from appropriate source.
53123 Client questions rules; and verbalizes disagreement with rules.
53124 Client verbally expresses judgments of himself and others.
53125 Client attempts to justify his behavior.
53126 Client expresses his awareness of differences in others.

Level VII

Definition: Speech & language behaviors generally acquired during a period of 65-84 months age level consistent with standardized, normative data.

Advanced

53211 Client listens to clues or definitions about words and can identify the words in word games.
53212 Client initiates and maintains conversations in small groups.
53213 Client spontaneously and accurately talks about past and future experiences.
53214 Client has competency in using the majority of the time-sense words and phrases common to his environment.
Client listens to and re-tells stories in his own words, sequencing events correctly.
Client uses every form of sentence common to his cultural environment.

**Basic**
- Client follows directions when given to a group.
- Client answers specific questions based on a story he has previously heard.
- Client gives category definitions for common objects (i.e., "What is an apple?" "A fruit?").
- Client constructs and tells stories from pictures.
- Client's social conversation contains relevant questions; and client shows interest in answers.
- Client rephrases simple directions in his own words.

**Level VI**
Definition: Speech & language behaviors generally acquired during a period of approximately 52-65 months age level consistent with standardized, normative data.

**Advanced**
- Client makes spontaneous corrections in his grammar.
- Client demonstrates knowledge of "either-or" by responding accurately to such phrases as, "You can have either candy or ice cream."
- Client uses 2 adjectives to modify a noun (i.e., "Howard has a big red truck.")
- Client uses an average of 6-8 words in sentences and phrases.
- Client uses complex sentences with a dependent clause (i.e., "I'M going to the park, after my nap.") 25% of the time.
- Client defines simple words.

**Basic**
- Client, when asked, tells whether or not he can perform a certain skill.
- Client follows subtle suggestions concerning his behavior rather than command only (i.e., "I think Kent would like you to go out and play with him.")
- Client uses auxilary verbs (i.e., "to be"). 25% of the time.
- Client verbally and/or gesturally expresses subtle emotions (i.e., boredom, disgust, embarrassment, and self-criticism.)
- Client verbally and/or gesturally expresses his plans in a logical sequence.
- Client follows 4-5 step concrete commands in sequence (i.e., "After you go upstairs and put your toys away you can come back down and wash your hands for supper.")
Level V
Definition: Speech and language behaviors generally acquired during a period of approximately 40-52 months age level consistent with standardized, normative data.

Advanced
Client's verbalizations indicate an increase in social awareness as evidenced by his comments concerning others and their situations. (Ego-centered speech decreases.)

Client can produce all consonant sounds by stimulation, even if not spontaneously used.

Client demonstrates an awareness of days of the week by associating specific activities with specific days (i.e., "I watch cartoons on Saturday.")

Client demonstrates an awareness of past, present and future by using words such as: yesterday, today, tomorrow, (but not necessarily with accuracy.)

Client demonstrates an awareness of parts of the day by using words such as: night, morning, afternoon, (but not necessarily with accuracy.)

Client uses past, present, and future tenses in verb usage in connected speech (i.e., "Larry fell down." "Larry is falling." "Larry will fall.")

Client identifies objects by descriptive properties (i.e., "What is round?")

Client demonstrates an awareness of parts of the day by using words such as: night, morning, afternoon, (but not necessarily with accuracy.)

Client demonstrates an awareness of past, present and future by using words such as: yesterday, today, tomorrow, (but not necessarily with accuracy.)

Client demonstrates an awareness of parts of the day by using words such as: night, morning, afternoon, (but not necessarily with accuracy.)

Client identifies objects by descriptive properties (i.e., "What is round?")

Client uses third person possessive pronouns (i.e., "His, her, their.")

Basic
Client answers why and how questions with a "because" type of phrase (i.e., "I cried because I fell down.") 25% of the time.

Client can verbalize the following concepts when telling stories: a. color c. space (i.e., between, over, etc.) b. size d. number (1-4)

Client asks "how" questions and expects a meaningful answer.

Client's speech is 98% intelligible in connected speech.

Client uses an average of 4-5 words in sentences and phrases. (Verbalizations include all parts of speech).

Client uses noun, verb, object sentence pattern (i.e., "Doris rides a horse.")

Client identifies familiar objects by verbally and/or gesturally indicating how they are used.

Client follows simple three-step commands, which require motoric responses (not necessarily in sequence) i.e., "Close the door, turn on the light, come sit down."

Client's voice is well-modulated and takes on the rhythmic patterns of the mother or mother substitute.
E. Level IV
Definition: Speech & language behaviors generally acquired during a period of 30-40 months age level consistent with standardized, normative data.

Advanced
53511 Client is able to use whispered speech.
53512 Client uses an average of 3-4 words in sentences and phrases.
53513 Client spontaneously monitors and begins to correct his speech by using adults' speech as a mode.
53514 Client's speech is understood by everyone 40-60% of the time. (However, intelligibility will vary according to the situation and audience.)
53515 Client relates experiences showing some understanding of sequential qualities.
53516 Client spontaneously talks about the activity in which he is engaging.
53517 Client completes simple associative statements (i.e., "The dog says woof. The cat says ")
53518 Client uses noun phrases with adjectives (i.e., "A big truck."
53519 Client demonstrates a color and/or number category concept by discriminating 8 colors or numbers.

Intermediate
53520 Client demonstrates a knowledge of the change of meaning in sentences by the positioning of subject and object (i.e., "The car is pushing the truck." "The truck is pushing the car.").
53521 Client relays simple messages from one person to another.
53522 Client recites from memory rhymes, songs, phrases, or prayers to which the client has been repeatedly exposed.
53523 Client attends for 5-10 minutes to a simple story concerning activities of his environment.
53524 Client calls family members by name and responds appropriately to questions about family relationships (i.e., "Who is your brother?").
53525 Client verbalizes states of being (i.e., hunger, pain, sleepy, hot, cold, etc.).
53526 Client verbally and/or gesturally identifies action in pictures (i.e., running, jumping, cooking, etc.).
53527 Client uses 2-3 word expressions for controlling his environment (i.e., commands, threats, demands, etc.)

Basic
53530 Client demonstrates a color and/or number category concept by discriminating colors or numbers, but not always accurately.
53531 Client develops use of personal pronouns "my and mine" and begins using "I" although frequently confused with "me".

25
Client uses personal pronouns in reference to others (i.e., you, he, and they).

Client shows understanding of time concepts (i.e., "in a minute," "after your nap," and "now") by responding to and using simple words and phrases 25% of the time.

Client shows understanding of size concepts by responding to and using simple words and phrases (i.e., big and little) 25% of the time.

Client tells own full name and sex spontaneously.

Client can name pictures of objects common to his environment (i.e., cat, dog, house, etc.)

Level III
Definition: Speech & language behaviors generally acquired during a period of approximately 20-30 months age level consistent with standardized, normative data.

Advanced
- Client answers simple who, what, where, questions in 2-3 word responses 25% of the time.
- Client asks simple who, what, where, and why questions (i.e., "Where Daddy?" "What's that," etc.)
- Client uses simple plurals (i.e., He begins adding "s" to some) 25% of the time.
- Client uses noun and predicate correctly in sentences and phrases (i.e., "Daddy go bye-bye," etc.) 25% of the time.
- Client uses adverbs, even though incorrectly, to describe (i.e., "Me go fast," etc.) 25% of the time.
- Client uses adjectives singly, to describe (i.e., pretty, dirty, etc.) 25% of the time.
- Client demonstrates a knowledge of past tenses, even though incorrectly formed, by adding "ed" to verbs in his vocabulary (i.e., goed, walked, etc.)
- Client uses an average of 2-3 words in sentences and phrases.

Intermediate
- Client uses personal pronouns in reference to self, especially "me", 25% of the time.
- Client can repeat 2-digit sequences (i.e., (Examiner) "Say, 1-4"; (Client) "1-4", etc.)
- Client asks for help for personal needs (i.e., "Coat off", "Light on.", etc.)
- Client uses at least 2 higher level prepositions in general conversation (i.e., in, under, etc.) 25% of the time.
- Client can imitate familiar environmental sounds spontaneously and/or when asked.
- Client's verbalization consists of:
  a. predominately ego-centered words.
  b. emotional expression.
  c. social conversation.
- Client uses demonstrative pronouns accompanied by gestures during a 50-word utterance (i.e., "that ball").
Client has ability to attend for 2-3 minutes to familiar objects and people in his environment (i.e., T.V., familiar and ego-centered songs and stories.)

53630 Basic
53631 Client's vocabulary is easily understood 50% of the time by familiar persons.
53632 Client identifies by pointing to, a named picture (i.e., "Point to the cat.")
53633 Client classifies or groups, at least in his general conversation, many familiar objects, person, pets, etc., 25% of the time.
53634 Client uses situational clues to assist in comprehension, even though he does not understand many specific words (i.e., "A child may not understand the command "Go to the table for supper.", but when he sees the food he will comprehend that it is time to eat.)
53635 Client follows simple, one-step commands given without gestures (i.e., "Come here.")
53636 Client expresses approximately 80 words within one hour of group free play.

53700 Level II
Definition: Speech & language behaviors generally acquired during a period of 10-20 months age level consistent with standardized, normative data.

53710 Advanced
53711 Client understands and responds accurately by voice and/or gestures to what is said to him, rather than to how it is said.
53712 Client communicates by pulling persons to show him an object, person, or situation.
53713 Client verbalizes at least 2 simple prepositions and modifiers with nouns for descriptive purposes (i.e., on, more cookie, me up, down, etc.)
53714 Client can use 2 word utterances to express an idea about that which is not seen (i.e., "Daddy gone.", etc.)
53715 Client will use 1-2 word sentences to express himself about immediate environment (i.e., ego-centered, vocabulary begins developing).
53716 Client uses imitative intonation patterns with accuracy (i.e., question inflection, exclamatory inflection, etc.)

53720 Basic
53721 Client attends to simple action rhymes and songs by singing to self, rhythmical rocking, eye contact, etc., when stimulated by other source.
53722 Client responds accurately by voice and/or gestures to one-step verbal-gestural commands (i.e., "Sit down", "Come here," etc.)
Client responds accurately by voice and/or gestures to the following communications common to his environment:

a. simple statements (i.e., "Milk all gone.")
b. simple questions (i.e., "Want to go bye-bye?")
c. simple action words (i.e., "Let's run.")
d. simple greetings (i.e., "Hi!")

Client consistently uses specific sounds and sound sequences, which are understood by familiar persons, to elicit specific responses (i.e., "uh" for "Pick me up", "wa" for "Get me water," etc.)

Client consistently uses specific sounds and sound sequences for naming specific objects (i.e., "ba" for ball; "da" for daddy, etc.)

Level I
Definition: Speech & language behaviors generally acquired during a period of 0-10 months age level consistent with standardized, normative data.

Advanced

Client responds vocally and/or gesturally when his name is called.

Client increases dexterity of vocal mechanism in the use of intonational patterns (i.e., pitch, melody, volume, etc.)

Client attempts to name familiar objects with inconsistent vocal production (i.e., uses different sounds for the same object: ball is called "ba", "gu", or "i").

Client shows understanding of others' gestures, by reaching up to extended hands or waving in imitation of others, etc., 25% of the time.

Client imitates sounds and sound sequences (i.e., sounds such as da, ba, ka, etc.), he hears others making.

Client, by means other than crying, indicates wants and emotions by differential vocal intonations and/or motor movement (i.e., varied facial expressions, changes in body posture, etc.)

Intermediate

Client attends for at least 2-4 seconds to the face of a familiar speaker.

Client indicates ability to differentiate between others' friendly and angry tones by changing body postures, facial expressions, etc.

Client self-initiates and repeats his own sounds and sound sequences, apparently for pleasure.

Client vocalizes when others make sounds to him.

Client responds by vocalizing, patting and/or smiling, etc., to own image in mirror.

Self-Management Skills Developed:
Definition: Self-Management Skills are those behaviors required to perform the following skills; I. Personal Skills; II. Leisure Time; III. Maintenance of Physical Health; IV. Home Management Skills; V. Activities of Daily Living Skills.
Goal: For each client to attain independent proficiency in Self-Management Skills.

Personal Skills:
Definition: Personal Skills are those behaviors required for Responsible Behavior, Interaction with Others Skills, Decision-Making Skills, Interaction with Community Services Skills.

Decision-Making Skills
Definition: Decision-Making Skills are those behaviors required to determine what to do.

Client makes a decision based upon the possible consequences of 3 or more actions in a multiple choice situation.
Client makes decision based upon the possible consequences of two actions.
Client compares possible consequences of two actions.
Client identifies possible consequences of both actions in a choice of two.
Client identifies possible cause(s) of a given effect.
Client identifies possible effects of a given cause.

Responsible Behavior Skills
Definition: Responsible Behavior Skills are those behaviors required to be able to answer for his conduct and obligations.

Client conforms to the stated and implied rules of conduct for school, work, leisure time, and home situations.
Client fulfills commitments.
Client informs concerned others of his destination and expected time of return.
Client accurately recounts occurrences (tells the truth).
Client accepts legitimate blame for his actions.
Client performs assigned task and he volunteers for and performs task.
Client receives permission before borrowing property, cares for others' property, as he should his own and returns borrowed property.
Client identifies own property from others and claims ownership of items and defends own possessions.
Interaction with Others Skills
Definition: Interaction Skills are those behaviors required for interaction in Discussion, Interaction in Activities and Self-Control, and Socialization Skills.

Interaction in Discussions Skills (Self-Confidence)
Definition: Interaction in Discussion Skills are those behaviors required to have self-assurance during a conversation.

61311 Client leads a group in a discussion.
61312 Client suggests ways to reduce future failure situations.
61313 Client verbalizes an opinion of subject being discussed.
61314 Client verbalizes success and failure.
61315 Client initiates conversations.
61316 Client answers questions.

Interaction in Activities Skills (Self-Confidence)
Definition: Interaction in Activities Skills are those behaviors required to have self-assurance in group functions.

61321 Client initiates group activity.
61322 Client leads group in an activity.
61323 Client performs activity in a new situation in which success is uncertain.
61324 Client participates in Activities

Self-Control Skills
Definition: Self-Control Skills are those behaviors required to curb emotions or desires (Client curbs short-term desires in order to get long-term reward and he also shows consideration of others' feelings by controlling impulses).

61331 Client maintains reasonable composure when faced with failure, problems and disappointments.
61332 Client is considerate of others.
61333 Client maintains reasonable composure when angered.
61334 Client maintains reasonable composure when criticized.
61335 Client maintains reasonable composure with changes in activities.
61336 Client considers action before carrying it out.
61337 Client does not disrupt others.
61338 Client accepts friendly teasing.

62800 Basic Movement and Physical Fitness Skills
Definition: Basic Movement and Physical Fitness Skills are those behaviors required to develop strength, mobility and agility. (i.e., working to improve fine and gross motor skills, exercising, apparatus activities (jungle gym, bars, jump rope, trampoline).

62900 Other

63000 Maintenance of Physical Health Skills
Definition: Maintenance of Physical Health Skills are the following behaviors: Posture, First Aid, Care of Illness, Selection of Diet, and Handling of Medication Skills.

63100 Handling of Medication Skills
Definition: Handling of Medication Skills are those behaviors required to store medication.

63110 Client recognizes medication and uses recommended storage procedures.
63120 Client secures medication as directed.
63130 Client seeks dispensation of medication.

63200 Selection of Diet Skills
Definition: Selection of Diet Skills are those behaviors required to choose nutritionally balanced meals and to maintain a recommended weight.

63210 Client chooses a nutritionally sound meal.
63220 Client chooses food to maintain a recommended weight.
63230 Client avoids foods injurious to his own health.
Care of Illness Skills
Definition: Care of Illness Skills are those behaviors required to care for illness and to seek further medical attention when there is a need.

- 63310 Client takes or applies medication or treatment as recommended.
- 63320 Client seeks a yearly medical checkup.
- 63330 Client seeks help for illness which requires medical attention.
- 63340 Client seeks help for all illness.

First Aid Skills
Definition: First Aid Skills are those behaviors required to care for minor wounds and burns and to seek further medical attention when there is a need.

- 63410 Client demonstrates a knowledge of the procedures of utilizing emergency services (ambulances, etc.)
- 63420 Client seeks help for wounds and burns which require medical attention.
- 63430 Client applies first aid procedures for minor wounds and burns.
- 63440 Client seeks help for all minor wounds and burns.

Posture Skills
Definition: Posture Skills are those behaviors required to hold and move the body in a manner in order to enhance normal growth, development and appearance.

- 63510 Client holds arms in a natural and relaxed manner when standing, walking and sitting.
- 63520 Client walks in a relaxed manner without shuffling or dragging feet, turning feet in or out, or walking on the sides of feet.
- 63530 Client stands and walks erect in a relaxed manner.
- 63540 Client sits erect in a chair in a relaxed manner. If female, and in a dress, client sits with legs together.
- 63550 Client holds tongue in mouth and closed while listening and walking.
- 63560 Client holds head erect in a relaxed manner.

Home Management Skills Developed
Definition: Home Management Skills are those behaviors required for Economic Activity Skills, Telephone Usage Skills, Practical Math Skills, Care of Home and Grounds Skills, Food Services Skills, House Cleaning Skills, and Care of Clothing Skills.

Economic Activity Skills
Definition: Economic Activity Skills are those behaviors required to perform Basic Math Skills, Currency Management Skills, Purchasing Skills, Budgeting Skills, and Banking Skills.
Banking Skills
Definition: Banking Skills are those behaviors required to start an account at a bank and to manage a checking and/or savings account.

- Client opens an account at a bank which meets his needs (location, bank hours, services).
- Client balances bank book.
- Client records check or withdrawals.
- Client writes checks or withdrawals from savings only when he has adequate funds.
- Client records deposits. (Bank may do all the calculations).
- Client deposits money in bank.
- Client endorses checks.

Budgeting Skills

**Currency Management Skills**
Definition: Currency Management Skills are those behaviors required to identify and handle coins and dollars.

- **64141** Client counts and identifies the correct amount of change to be returned from a purchase.
- **64142** Client counts the coins and bills needed to cover the cost of purchases.
- **64143** Client counts the coins needed to cover the cost of a small purchase.
- **64144** Client demonstrates equivalences of small coins and small bills.
- **64145** Client demonstrates equivalences of coins.
- **64146** Client identifies coins and bills.
- **64147** Client demonstrates awareness that money or tokens have value.

**Telephone Usage Skills**
Definition: Telephone Usage Skills are those behaviors required to communicate by utilizing the telephone.

- **64210** Client uses white and yellow pages to locate several numbers he needs.
- **64220** Client places long distance calls.
- **64230** Client records and relays messages left by the caller.
- **64240** Client uses dial, touch and pay phone to place calls.
- **64250** Client converses on a phone courteously and distinctly.
- **64260** Client answers phone politely and distinctly.

**Practical Math Skills**
Definition: Practical Math Skills are those behaviors required to perform basic math, time management and measuring skills.

**Advanced Measuring Skills**
Definition: Measuring Skills are those behaviors required to estimate lengths, weights, and sizes.

- **64311** Client tells liquid measurement facts (i.e., 4 quarts = 1 gallon).
- **64312** Client tells weight measurement facts (i.e., 16 ounces = 1 pound).
- **64313** Client tells linear measurement facts (i.e., 12 inches = 1 foot).
- **64314** Client tells counting facts (i.e., 12 = 1 dozen).
- **64315** Client measures liquids using a container with several marked lines.
- **64316** Client tells weight of an item using a scale.
- **64317** Client measures using inch, foot and/or yard.
Basic Measuring Skills
Definition: Basic Measuring Skills are those behaviors required to make weight, length and size distinctions.

- Client makes weight distinctions (i.e., light, lighter, lightest, heavy, heavier, heaviest.)
- Client makes length distinctions (i.e., long, longer, longest.)
- Client makes size distinctions (i.e., small, smaller, smallest, big, bigger, biggest.)

Advanced Time Management Skills
Definition: Time Management Skills are those behaviors required to deal with selective time periods, tell time from a clock or watch and plan time for work and relaxation.

- Client arrives at scheduled events on time (lunch, dinner, work, appointments.)
- Client tells time to the nearest minute.
- Client tells time to the nearest half-hour.
- Client states activities planned for a few days.
- Client states activities planned for one day.
- Client lists or verbalizes planned activity in some order of rational priority.
- Client tells time to the nearest hour.
- Client identifies the seasons and months and some activities that are associated with them.

Basic Time Management Skills
Definition: Basic Time Management Skills are those behaviors required to identify the days of the week and time periods of the day.

- Client identifies the days of the week and the activities associated with specific day.
- Client identifies time periods of the day and the activities associated with specific time periods (i.e., morning, breakfast, etc.).

Basic Math Skills
Definition: Basic Math Skills are those behaviors required to perform simple adding and subtracting.

- Client adds and subtracts dollars and cents. (i.e., $2.79 + $8.00).
- Client subtracts two-digit numbers (i.e., 25 - 18).
- Client adds two digit numbers. (i.e., 18 + 19).
- Client counts by 5's to 60.
- Client identifies written digits and demonstrates one to one relations between numbers and objects to 100.
Client subtracts one-digit numbers (i.e., 9 - 7).
Client adds one-digit numbers (i.e., 5 + 7).
Client identifies written digits from 1 to 10.
Client counts objects to demonstrate one to one relationships between numbers and objects up to 10.

Care of Home and Grounds Skills
Definition: Care of Home and Grounds Skills are those behaviors required to care for walks, porches and lawns and to utilize home maintenance and emergency services.

Home Maintenance Service Skills

Client demonstrates a knowledge of the procedures of utilizing home maintenance services.
Client notifies or informs someone of the need for home maintenance services.

Emergency Service Skills
Definition: Emergency Service Skills are those behaviors required to utilize services for safety and protection. The services include those of police, fire, etc.

Client demonstrates a knowledge of the procedures of utilizing emergency services.
Client notifies or informs someone of the need for emergency services.

Yard Care Skills
Definition: Yard Care Skills are those behaviors required to maintain the lawn and garden.

Client weeds the yard as needed.
Client waters the lawn as needed.
Client mows the lawn as needed.
Client picks up debris in yard as needed.

Care of Walks and Porches Skills
Definition: Care of Walks and Porches Skills are those behaviors required to maintain the outside walkway, steps, and porches.

Client clears the porches, steps and walks of snow.
Client sweeps the porches.
Food Service Skills
Definition: Food Service Skills are those behaviors required for table setting and clearing, dishwashing, food storage, food serving and food preparation.

Food Preparation Skills
Definition: Food Preparation Skills are those behaviors required to prepare food.

- Client uses measuring utensils to measure food for mixing and preparing.
- Client uses the manual kitchen utensils.
- Client uses electric kitchen appliances to help prepare foods.
- Client uses electric and/or gas surface elements for heating and cooking food.
- Client regulates the oven for baking and/or heating foods.
- Client uses the broiler to prepare foods.
- Client uses a paring and/or butcher knife safely.
- Client prepares simple foods that require no cooking.
- Client serves prepared food in the dish required.

Food Storage Skills
Definition: Food Storage Skills are those behaviors required to remove food from the store and store in the storage areas.

- Client places frozen vegetables, fruits, meats and perishables in the freezer.
- Client places fresh vegetables, fruits, meats and perishables in the refrigerator.
- Client places new canned or packaged food in storage areas.
- Client places leftovers in the storage area.
- Client removes desired food from the storage area.

Dishwashing Skills
Definition: Dishwashing Skills are those behaviors required to wash, rinse and dry dishes, silverware, pots, pans and utensils.

- Client adjusts the water temperature, adds soap, and washes and rinses dishes, silverware, pots, pans and utensils.
- Client washes, rinses and dries breakables.
- Client dries utensils, silverware, dishes, pots, and pans.
- Client dries utensils.
64535 Client scrapes dishes, pots, pans, and silverware in preparation for washing.
64536 Client returns all dishes, silverware, pots, pans and utensils to the proper storage area.

64540 Table Setting and Clearing Skills
Definition: Table Setting and Clearing Skills are those behaviors required to set, clear, and clean the table.

64541 Client identifies, assembles and set the table with necessary tableware.
64542 Client places silverware next to plates.
64543 Client clears and cleans the table.

64600 House Cleaning Skills
Definition: House Cleaning Skills are those behaviors required to clean and maintain neatness of all areas of one's home through use of cleaning agents and common cleaning equipment.

64610 Care of Household Appliances Skills
Definition: Care of Household Appliances Skills are those behaviors required to clean and maintain their appearance and insure their functioning.

64611 Client operates appliances and electrical fixtures (light bulbs, thermostats, wall switches).
64612 Client seeks help when appliances need repair.
64613 Client cleans large appliances (refrigerator, stove).
64614 Client wipes clean and stores small appliances.

64620 Wall, Woodwork, Windows and Glass Cleaning Skills
Definition: Wall, Woodwork, Window and Glass Cleaning Skills are those behaviors required to clean from said surfaces.

64621 Client applies cleaner and wipes away dirt and streaks from walls, windows, woodwork and glass surfaces.
64622 Client identifies and assembles necessary equipment for cleaning walls, woodwork, windows and glass surfaces.
64623 Client cleans said surfaces as necessary.

64630 Care of Rugs Skills
Definition: Care of Rug Skills are those behaviors required to vacuum, shampoo or wash rugs.

64631 Client applies and removes shampoo from unwashable rugs.
64632 Client shakes and/or washes scatter rugs.
64633  Client vacuums rugs.

64640  Care of Floor Skills
Definition: Care of Floor Skills are those behaviors required to wash, wax, sweep, or vacuum wood, tile or linoleum floors.

64641  Client waxes and polishes floors.
64642  Client washes and rinses floor.
64643  Client sweeps and vacuums floors.

64650  Bath and Kitchen Fixture Cleaning Skills
Definition: Bath and Kitchen Fixture Cleaning Skills are those behaviors required to apply cleaner, scrub, rinse and/or polish tubs and toilet.

64651  Client applies, scrubs, rinses and/or polishes bath or kitchen fixtures.
64652  Client identifies and assembles the necessary equipment for cleaning bath and kitchen fixtures.
64653  Client cleans bath and kitchen fixtures as needed.

64660  Care of Furniture Skills
Definition: Care of Furniture Skills are those behaviors required to dust, polish, and/or clean furniture and upholstery.

64661  Client maintains furniture in usable condition.
64662  Client vacuums and cleans upholstered furniture.
64663  Client dusts and polishes wood surfaces of furniture.

64670  Bedmaking Skills
Definition: Bedmaking Skills are those behaviors required to apply sheets, blankets, pillows with pillow cases, and bedspreads smoothly and evenly on a bed.

64671  Client periodically strips and changes linens.
64672  Client makes the bed.

64680  Trash Collection and Removal Skills
Definition: Trash collection and Removal Skills are those behaviors required to store trash in container in the home and to remove trash from the home to collection sites periodically.

64681  Client removes trash and perishable wastes to collection sites periodically.
64682  Client disposes of trash and perishable wastes in the designated container.

64700  Care of Clothing and Household Linens Skills
Definition: Care of Clothing and Household Linens Skills are those behaviors required to hang up, fold, and/or put away wearing apparel and household linens.
Mending Skills
Definition: Mending Skills are those behaviors required to attach buttons and sew up tears, seams, and hems in articles of clothing.

64711 Client recycles items beyond repair or alteration for other uses.
64712 Client seeks mending services.
64713 Client mends tears, seams, and hems.
64714 Client sews on buttons.

Ironing Skills
Definition: Ironing Skills are those behaviors required to remove wrinkles from clean clothing and household linens with an iron.

64721 Client irons his clean clothing and household linens without damage.
64722 Client sets up equipment needed for ironing (i.e., ironing board).
64723 Client discriminates between clothing and household linens which should be ironed and those which need not be by sorting clean clothing and household linens into iron and no-iron pile.

Cleaning Skills
Definition: Cleaning Skills are those behaviors required to wash and dry clothing and household linens which do not require dry cleaning.

64731 Client separates clothing and household linens to be washed from those that must be dry cleaned or washed by hand.
64732 Client uses a washer and dryer to wash and dry clothing and household linens.
64733 Client separates washable clothing by category (white and colors, hot and cold).
64734 Client performs simple washing and drying of clothes.

Storage of Clothing and Household Linens Skills
Definition: Storage of Clothing and Household Linens Skills are those behaviors required to hang up, fold, and/or put away wearing apparel and household linens.

64741 Client folds and stores clean household linens.
64742 Client places the soiled articles in a laundry bag or hamper.
64743 Client hangs up clothing on hooks or hangers.

Care of Shoes
Definition: Care of Shoes Skills are those behaviors required to repair, polish, wipe and store shoes.
Activities of Daily Living Skills Developed
Definition: Activities of Daily Living Skills are those behaviors of eating, dressing, toileting, and grooming.

Grooming Skills
Definition: Grooming Skills are those behaviors required to maintain personal cleanliness, health, and appearance.

Cosmetic Skills
Definition: Cosmetic Skills are those behaviors required to use cream, lotion, make-up, deodorant and shave.

Client assembles, shaves, and puts away articles needed to shave.
Client selects cosmetics/chemical aids for varying occasions, weather and health conditions.
Client applies make-up to eyes, face and lips.
Client applies deodorant and/or anti-perspirant on a regular basis.

Selection of Clothing and Shoes Skills
Definition: Selection of Clothing Skills are those behaviors required to select clean, untorn clothing and shoes which fit for various weather and occasion.

Client selects clothing and shoes for varying occasions.
Client selects clothing and shoes for varying weather conditions.
Client discriminates between clothing and shoes in need of repairs and those that do not.
Client discriminates between clothing and shoes that fit and those that do not.
Client changes underwear and clothing as needed.

Nail Care Skills
Definition: Nail Care Skills are those behaviors required to clean, trim and file finger and toe nails.

Client trims and/or files his nails.
Client cleans his nails.

Menstrual Care Skills
Definition: Menstrual Care Skills are those behaviors required of a female to apply and change napkins or tampons with sufficient frequency to keep her clothing free from blood stains and body free from odor during menstruation.
65141 Client applies and changes napkins or tampons with sufficient frequency.
65142 Client removes and disposes of napkins or tampons during menstruation.
65143 Client applies napkins or tampons during menstruation.
65144 Client indicates when menstruation begins.

65150 Hair Care Skills
Definition: Hair Care Skills are those behaviors required to clean and dry, comb and/or brush, set hair.

65151 Client seeks hair care services.
65152 Client sets hair.
65153 Client removes excess moisture from his hair.
65154 Client wets hair, applies shampoo, rubs it into his hair and rinses his hair.
65155 Client combs and brushes hair.

65160 Teeth Brushing Skills
Definition: Teeth Brushing Skills are those behaviors required to clean own teeth with toothpaste and toothbrush.

65161 Client applies toothpaste.
65162 Client brushes his teeth and rinses his mouth.

65170 Nose Blowing Skills
Definition: Nose Blowing Skills are those behaviors required to clean nostrils and nasal area using a tissue or handkerchief.

65171 Client blows his nose into tissue or handkerchief.
65172 Client wipes his nose with tissue or handkerchief.

65180 Bathing Skills
Definition: Bathing Skills are those behaviors required to cleanse body with soap and water and dry with a towel.

65181 Client adjusts shower or bath water temperatures.
65182 Client dries his body.
65183 Client soaps and washes his body.

65190 Washing Hands and Face Skills
Definition: Washing Skills are those behaviors required to cleanse hands with soap and water and dry with a towel.

65191 Client washes his hands and face without getting his clothes wet.
65192 Client dries his hands and face with a towel.
65193 Client washes his hands and face with soap and water.
65194 Client wets his hands and face with water.

65200 Toileting Skills
Definition: Toileting Skills are those behaviors required for elimination, adjustment of clothing, and hygiene required for the use of toileting facilities.

65210 Hygiene Skills
Definition: Hygiene Skills are those behaviors required to use toilet tissue, flush a toilet and wash hands after elimination.

65211 Client washes his hands with soap if available.
65212 Client flushes the toilet.
65213 Client takes tissue from a dispenser.
65214 Client wipes self clean and disposes of the tissue in the toilet after elimination.

65220 Adjustment of Clothing Skills
Definition: Adjustment of Clothing Skills are those behaviors required to arrange underpants, pants and/or dress before, during and after elimination.

65221 Client tucks in shirt or blouse or adjusts pants or dress after elimination.
65222 Male Client opens and closes the flies on his pants and underpants before and after elimination.
65223 Female Client:
(1) holds her dress up while seated on a toilet.
(2) holds her dress up while pulling her underpants down and up.
65224 Client pulls his pants and/or underpants up after elimination.
65225 Client pulls his pants and/or underpants down before elimination.

65230 Elimination Skills
Definition: Elimination Skills are those behaviors required to eliminate in a toilet.

65231 Client (male) while standing in front of the toilet or urinal will hold the penis so that the stream is directed into the toilet.
65232 Client eliminates only in a toilet.
65233 Client indicates need to eliminate.
65234 Client eliminates in a toilet on a regular schedule.

65300 Dressing Skills
Definition: Dressing Skills are those behaviors required to put on, take off and fasten clothing and accessories.
Accessory Dressing Skills
Definition: Accessory Dressing Skills are those behaviors required to take off, put on, and fasten items which include hair accessories, (ribbons, hats) jewelry, clothing accessories (watches, belts, pins) and devices such as glasses, hearing aids, braces and false teeth.

65311 Client ties, buckles, snaps, hooks, zippers accessories as needed.
65312 Client puts on accessories.
65313 Client takes off accessories.

Back Opening Garment Dressing Skills
Definition: Back Opening Garment Dressing Skills are those behaviors required to take off, put on and fasten clothing which opens completely down the back such as blouses, sweaters, dresses, smocks and aprons.

65321 Client zips, buttons, hooks, ties or snaps Back Opening Garments as needed.
65322 Client puts on Back Opening Garments.
65323 Client takes off Back Opening Garments.

Front Opening Garment Dressing Skills
Definition: Front Opening Garment Dressing Skills are those behaviors required to take off, put on and fasten clothing which opens completely down the front such as shirts, blouses, coats, jackets and sweaters.

65331 Client ties, zips, buttons, hooks, or snaps Front Opening Garments as needed.
65332 Client puts on Front Opening Garments.
65333 Client takes off Front Opening Garments.

Pull-Over Garments Dressing Skills
Definition: Pull-over Garments Dressing Skills are those behaviors required to take off, put on and fasten clothing which go over the head such as T-shirts, sweaters, dresses, skirts and nightgowns.

65341 Client zips, buttons, hooks, or snaps Pull-Over Garment as needed.
65342 Client puts on Pull-Over Garments.
65343 Client takes off Pull-Over Garments.

Pant-like Garment Dressing Skills
Definition: Pants-like Garment Dressing Skills are those behaviors required to take off, put on, and fasten clothing, which require stepping into such as slacks, shorts, pants-skirts, jump suits, and undergarments.

65351 Client zips, ties, buttons, hooks, or snaps Pants-like Garment as needed.
65352 Client puts on Pants-like Garment.
65353 Client takes off Pants-like Garment.

65360 Stocking Dressing Skills
Definition: Stocking Dressing Skills are those behaviors required to take off, put on and fasten hosiery such as socks, hose, pantyhose and leotards.

65361 Client fastens stockings if necessary.
65362 Client puts on stockings.
65363 Client takes off stockings.

65370 Footwear Dressing Skills
Definition: Footwear Dressing Skills are those behaviors required to take off, put on and fasten articles such as shoes, boots, sandals, slippers and overshoes.

65371 Client ties, buckles, snaps, buttons, hooks, or zips footwear as needed.
65372 Client puts on footwear.
65373 Client takes off footwear.

65400 Body Parts Skills
Definition: Body Parts Skills are those behaviors required to identify the list areas of a human body.

65410 Advanced Body Parts

65411 Client identifies chest.
65412 Client identifies eyebrow.
65413 Client identifies shoulders.
65414 Client identifies ankle and wrist.
65415 Client identifies neck.
65416 Client identifies side.
65417 Client identifies elbows.
65418 Client identifies waist and hips.
65419 Client identifies chin and cheek.

65420 Intermediate Body Parts

65421 Client identifies heel.
65422 Client identifies teeth.
65423 Client identifies fingernails.
65424 Client identifies fingers and toes.
65425 Client identifies stomach.
65426 Client identifies legs.
