Adults often return to school to acquire skills useful or necessary to enter or change their status in the world of work. It is helpful for them to have access to materials which describe familiar careers and introduce new jobs and occupations. This annotated compendium is designed to meet that need by reviewing and listing printed and audiovisual materials produced in the last five years. To serve as an organizational framework for the more than 700 materials reviewed, a classification system was developed by means of which each major occupational field is linked to the United States Office of Education Career Clusters. Access to the materials is by catalog number and also by way of an index of occupational titles. The following information is included in each note: catalog number, title, author, publication date, price, media and time for audiovisual materials, number of pages, reading level based on the Fry Readability Formula (I-grades 1-8, II-grades 9-12, or III-grades 12 on) source, and an abstract. The review forms used, and occupational information sources are appended. (Author/BP)

The work presented herein was performed pursuant to a grant from the U.S. Office of Education, Department of Health, Education, and Welfare. However, the opinions expressed herein do not necessarily reflect the position or policy of the U.S. Office of Education, and no official endorsement by the U.S. Office of Education should be inferred.
Resources represents the combined work and efforts of Survey staff and volunteers during the past year. Each spent considerable time reviewing many of the career informational materials included in this compendium. We extend special thanks to the following volunteers:

David Bliss
Robert Brown
Anne Garrett
Alan Greenfield
Sylvia Hoffman
Zelda Kapner
John Murphy
Martha Polling
Barbara Porath
Bob Schwartzberg
Eva Schwartzberg
Armand Sebastianelli
Jean Tatum
Miren Uriarte

All career materials reviewed in Resources are catalogued by a system developed by Survey staff with the expertise and guidance of Mr. Emmanuel Weinstein, Occupational Analyst, U.S. Department of Labor. We are indebted to Mr. Weinstein for his invaluable assistance and cooperation.

We are also grateful to members of our Advisory Board for assistance in developing review forms for both printed and audio-visual materials. In addition they helped determine the style and format used for each review.

Our thanks are also extended to the many professional and commercial organizations, trade associations, state and federal agencies, and publishing houses that contributed career materials which form the body of this compendium.

To the Survey staff I extend my personal thanks for their dedication, enthusiasm, and cooperative efforts.

NOTE TO THE READER

The Adult Career Education Resources Survey has been funded by the U.S. Office of Education for an additional year, through June 1975. During this extended period, Survey staff will field test the career development activities suggested in Explorations, Part 1. Field testing will be designed to measure appropriateness as well as effectiveness of these activities for various adult student populations. Based on field test results, suggested activities will be refined or modified, and published in a revised edition.

Adult education teachers (either ABE or adult continuing education) who wish to participate in the field test are encouraged to contact us, preferably by October 15, 1974.

We also welcome any comments you may have about Explorations, Part 1.

INTRODUCTION

Adult career education focuses on preparing, training, or retraining persons for work. Ideally this thrust should culminate in the student's ability to enter a career and deal with the vocational world. One goal of career education, then, is to prepare individuals to attain self-fulfillment by learning and preparing for their vocational roles. These roles may be multiple and change throughout one's lifetime. Recent U.S. Department of Labor statistics indicate that the average worker may soon expect to hold five to nine different jobs during his or her working career.

Adults return to school, either Adult Basic Education (ABE) or continuing education, for a variety of reasons. They may consider additional education as a means of self-development, self-fulfillment, or to attain basic human needs such as food, clothing and housing. They may also recognize that changing job patterns and developments in technology, products, and markets require continuing education and upgrading of skills. Through career education, adult students may have an opportunity to better understand the role of work in our society, the wide range of career and job opportunities, and the ever-changing job market. The Adult Career Education Resources Survey is based on the premise that adult career education should create career awareness, orientation, exploration, and preparation.

Objectives of This Compendium

Adults often return to school to acquire skills useful or necessary to enter or change their status in the world of work. It is helpful, therefore, for them to have access to materials which describe familiar careers and introduce new jobs and occupations. This compendium is designed to meet that need. Printed and audio-visual materials describing a wide range of jobs and occupations were retrieved and reviewed to provide a resource listing specifically designed for adult students. This guide is useful to students, teachers, counselors and librarians.

Career materials published and produced in the last five years form the body of Resources. It is recognized that some of these materials may be dated, notably in the areas of salary and job outlook. Efforts were made to include only the most up-to-date materials. Older materials were occasionally included if they offered useful and timely information, especially if more recent materials were unavailable in a particular field. Those interested in exploring an occupational family or specific career may use Resources to locate and obtain materials in such fields. Materials may be obtained by writing directly to the source.

Resources is also designed for use in conjunction with career activities suggested in Explorations, Part I (Guidelines for Career Development in Adult Education). This supplemental publication recommends career development activities which reinforce skill-development curricula in reading, writing, oral communication and critical thinking. Written for the adult education teacher, Explorations, Part I presents career activities which address adult student needs for utilizing career materials as well as developing increased career awareness.
Resource Retrieval

Locating and retrieving career materials was an extensive task. Letters requesting printed and audio-visual career materials were sent to trade and professional associations, state and federal governments and agencies, individual publishers of career information, private industries and various educational projects. Quarterly reviews of counseling and career related literature were searched, such as the Counselor's Information Service of B'nai B'rith Career and Counseling Services and the Vocational Guidance Quarterly (National Vocational Guidance Association). Other career information listings were retrieved from the Occupational Outlook Handbook and references in the Encyclopedia of Associations, American Personnel and Guidance Association, and American Vocational Association. Labor unions, publishers, the Department of Labor and Manpower Administration were also contacted to secure career materials. Many states have departments of labor or employment services which publish career information materials. Some are included in Resources. Readers are urged to request materials from their own state sources rather than from other states. These materials are usually available free of charge to state residents and at a small charge to out-of-state residents.

Over 2,500 requests for career materials were made, many of which provided information or leads to other sources. A listing of sources from which materials included in Resources were received is included in this compendium as Appendix B. Materials available at no charge, single copy free, or at low cost were particularly sought in consideration of small budgets usually allotted adult education programs.

Review of Materials

Upon receipt, career materials were reviewed by members of the Survey staff and a group of volunteers (see Acknowledgments). Volunteers were provided with training by project staff and an explanatory set of guidelines on how to use and interpret the review instruments. In order to maintain consistency and quality of reviews, Survey staff performed continuing random sample checks of materials reviewed by others of the staff and volunteers. Approximately 15% of the materials were reviewed by more than one individual.

Two review forms, one for printed materials and the other for audio-visual media, were developed and tested by Survey staff to insure that each material reviewed included information basic to the investigation and exploration of a career or occupation. Samples of the two review forms are included in Appendix A. They may provide a tool for the adult education teacher or student to review career materials not listed in this compendium.

Criteria for review included in the forms encompass job descriptions, salary scales, hours and working conditions, personal requirements, education and other prerequisites. Special attention was given to the material's appropriateness and usefulness for an adult population. Review priority was given materials that described careers requiring no more than a high school education.
Reading Levels

The Fry Readability Formula, developed by Dr. Edward Fry of Rutgers University Reading Center, was used to determine reading levels. This particular readability formula was selected because of its applicability to all levels of reading difficulty. Reading levels, included in each review, are classified in one of the following groups:

- Level I - Grades 1 - 8
- Level II - Grades 8 - 12
- Level III - Grades 12+

Although special attention was given to locating career materials with a reading level at eighth grade or below, such materials were difficult to locate. In fact, many materials received were written at reading level III, a level inappropriate for most ABE students. This was occasionally the case for materials describing occupations requiring no more than a high school education.

Teachers and reading specialists note, however, that many individuals are able to read materials written at a more difficult reading level than the level at which these persons test. Some are slow readers or need time to look up unfamiliar words. Therefore, materials listed in this compendium with reading level III should not be disregarded. They offer challenging information, often about careers requiring post-secondary training, and may serve to stimulate the student's motivation for further education.

Abstracts

Each item listed in Resources is annotated. Areas of information covered in the publication or material are outlined. Special qualities, such as the listing of additional sources of information, or unusual quality of print or presentation are noted. Abstracts are written in a brief, telegraphic style. Differences in abstracts result from varying writing styles of reviewers. A more detailed explanation of the information contained in each review and abstract follows.

Explanation of Reviews

The following information is included in each review:

Catalog Number: Each abstract is categorically classified according to the cataloging system in the publication.

Title: Includes subtitles or identifying numbers, such as order numbers.

Author: Listed if given.

Date: Publication or production date, when available.

Price: Cost, single copy free, no charge, rental charge, etc. Any other specifications, such as enclosing a self-addressed, stamped envelope, are noted.
**Media:** Applies only to audio-visual materials to differentiate between film, filmstrip, slides, cassettes, videotapes, or other.

**Time:** Length of audio-visual materials.

**Pages:** Length of printed materials.

**Reading Levels:**

- **1** - Grades 1 - 8
- **II** - Grades 9 - 12
- **III** - Grades 12+

**Source:** Includes name and address of the source to facilitate requesting material(s).

**Abstract:** Notes areas of information covered in the publication or material. This information may include description of work duties, work settings and conditions, qualifications and preparation, credentials required, methods of job entrance, personal attributes, and advancement possibilities. Employment outlook, income level, other potential personal rewards, history of the occupation, its importance to the community, and advantages and disadvantages of the career may also be included. Style, quality and effectiveness are also considered. Additional information sources, the audience to whom the material is addressed, and any other pertinent information is also noted.

**Sample Reviews:**

Slide series introduces careers in professional and commercial photography. Enhancing graphics and sound depicts the duties and responsibilities of the two career fields. Series appeals to those of all educational levels. Fields represented offer good growth potential for a lifetime career.

The adult career resources beginning on page 25 were rated by the Adult Career Education Resources Survey as "Recommended," "Highly Recommended," or "Recommended as of Superior Quality." Those reviews which received a rating summary of "Not Recommended" are not included in this compendium. Those which received a rating of "Recommended with Reservation" are included where higher rated resources were not available; however, reservations are noted in the abstract.
CATALOGING SYSTEM

To serve as an organizational framework for the more than 700 materials reviewed in Resources, a classification system was developed. The cataloging system is designed for ease in use and adaptation by adult educators, should they wish to catalog career materials they may acquire.

Each major occupational field of the cataloging system is linked to the U.S. Office of Education Career Clusters: Agri-business and Natural Resources, Business and Office, Communications and Media, Construction, Consumer and Home-making Education, Environment, Fine Arts and Humanities, Health, Hospitality and Recreation, Manufacturing, Marine Science, Marketing and Distribution, Personal Services, Public Services, and Transportation. Appropriate USOE career clusters are noted in the preface description of each major occupational field.

Major occupational fields used in the Adult Career Education Resources Survey cataloging system have been assigned a numerical designation using the first two digits of a five digit system. The Survey's occupational fields have been arranged alphabetically as follows:

- 01,000 ADMINISTRATION AND MANAGEMENT
- 02,000 COMMUNICATION
- 03,000 CONSTRUCTION
- 04,000 EDUCATION
- 05,000 FINE ARTS
- 06,000 HEALTH SCIENCES
- 07,000 INDUSTRIAL PRODUCTION
- 08,000 NATURAL RESOURCES AND ENVIRONMENT
- 09,000 NATURAL SCIENCES
- 10,000 OFFICE AND CLERICAL
- 11,000 REPAIR AND MECHANICS
- 12,000 SALES AND MARKETING
- 13,000 SERVICE (PERSONAL, PROTECTIVE, PUBLIC, OTHER)
- 14,000 SOCIAL SCIENCES
- 15,000 TECHNICAL SCIENCES
- 16,000 TRANSPORTATION

The third digit refers to the sub-category which, when utilized, divides an occupational field into several specific career areas. The last two digits are assigned to alphabetically listed, specific jobs and careers. There are 99 spaces for occupations in each subcategory. In this compendium increments of 5 or less, depending on the number of occupations included in each career area, have been utilized. This allows for growth and expansion of the Survey cataloging system.

Note that the designation "99" has been assigned to "other" careers in each occupational field or career area. Such "other" jobs and careers include areas in which there is a scarcity of information, few workers are required, or there is a limited employment outlook. Following is a sample listing and interpretation:
TRANSPORTATION

Driving Career

16. 2 15

Local Truck Drivers

Each occupation is assigned only one listing in the cataloging system. Actuaries, for instance, are listed in OFFICE AND CLERICAL under Insurance Carriers; they are not listed in NATURAL SCIENCES under Mathematics Occupations. Familiarity with the cataloging system will facilitate locating occupations that may be in question. If an occupation is not easily located, its placement may be checked in the occupational title index, which alphabetically lists occupations and notes their catalog and page numbers. This index appears at the end of Resources.

Some career information materials, however, may be listed in several categories. This occurs when a piece of information describes more than one job or career.

Following is the complete cataloging system used in this compendium.

01.00

ADMINISTRATION AND MANAGEMENT

Most administrative personnel are professional office workers who run or assist in running businesses and other organizations. Duties of personnel represented in this category include overseeing and assuming responsibility for the accomplishment of specific tasks. Organizational abilities as well as policy and decision-making in the conduct of daily business may also be part of that responsibility. Careers are included from the following U.S. Office of Education Career Cluster areas: Business and Office, Marketing and Distribution, Public Services.

01.005 Accountants
01.010 Advertising workers
01.015 Attorneys/Lawyers
01.020 Bank officers
01.025 City managers
01.030 Credit officers
01.035 Hospital administrators
01.040 Hotel, restaurant and club managers
01.045 Industrial traffic managers
01.050 Marketing research workers
01.055 Office managers
01.060 Personnel workers
01.065 Public relations workers
01.070 Purchasing agents
01.099 Other

02.000 COMMUNICATIONS

Communications is often synonymous with public information. Keeping the public informed about current events and their effect on people's daily lives is a major function of the communications field. Ways in which people express their thoughts and ideas, as well as the interpretation of the thoughts and ideas of others are functions of this career area. Careers are included from the following U.S. Office of Education Career Cluster areas: Communications and Media, Public Services.

02.100 Writing Careers
02.105 Literary writers
02.110 Newspaper editors
02.115 Newspaper reporters
02.120 Technical writers
02.199 Other

02.200 General Communications Careers
02.205 Interpreters/translators
02.210 Television and radio announcers
02.299 Other

03.000 CONSTRUCTION

Activities in this industry include the construction of buildings, interior construction (i.e., electricians, elevator constructors, etc.), and construction of public works (roads, dams, bridges, etc.). Construction workers deal not only with new construction projects, but also with additions, alterations and repair of existing structures. Careers are included from the U.S. Office of Education Career Cluster area: Construction.

03.005 Asbestos and insulation workers
03.010 Brick'ayers
03.015 Carpenters
03.020 Masons (cement and concrete finishers)
03.025 Construction laborers
03.030 Electricians (construction)
03.035 Elevator constructors
03.040 Floor covering installers
03.045 Glaziers
03.050 Lathers

Marble setters, tile setters, and terrazzo workers
Operating engineers (constructor machinery operators)
Painters and paperhangers
Plasterers
Plumbers and pipefitters
Rooters
Sheet metal workers
Stone masons
Structural, ornamental, and reinforcing iron workers; riggers, and machine movers
Other

EDUCATION

Occupations in this category are concerned with imparting information and knowledge about the arts, sciences and other academic fields or physical activity. Teaching, administering or advising others in any of these subject matters encompass the major areas of education. Because library careers also deal with the dissemination of information, they are also included under education. Careers are included from the following U.S. Office of Education Career Cluster area: Public Service.

Administrative Careers

College administrators
Elementary and secondary school administrators
Other

Library Careers

Librarians
Library technicians
Other

Teaching Careers

Adult education teachers
College and university teachers
Kindergarten and elementary school teachers
Nursery school teachers
Secondary school teachers
Special education teachers
Teacher aides
Other

### FINE ARTS

Creativity, aesthetics and expression of ideas are involved in the fine arts. Careers dealing with the performing arts, designing, and graphic arts fall into this category. Careers are included from the following U.S. Office of Education Career Cluster areas: Environment, Fine Arts and Humanities, Communications and Media, Manufacturing, Public Services.

#### Performing Arts Careers
- 05.100
  - 05.105 Actors and actresses
  - 05.110 Dancers
  - 05.115 Musicians and singers
  - 05.199 Other

#### Graphic and Design Careers
- 05.200
  - 05.205 Architects
  - 05.210 Artists (painters, sculptors, etc.)
  - 05.215 Commercial artists
  - 05.220 Display designers
  - 05.225 Floral designers
  - 05.230 Industrial designers
  - 05.235 Interior designers
  - 05.240 Landscape architects
  - 05.245 Photographers
  - 05.299 Other

### HEALTH SCIENCES

Included in this occupational field are careers concerned with the preservation and restoration of health as well as prevention of illness. Positions at the professional, technical and support levels are involved in this field. Careers are included from the following U.S. Office of Education Career Cluster areas: Health, Public Service.

#### Dental Careers
- 06.100
  - 06.105 Dentists
  - 06.110 Dental assistants
  - 06.115 Dental hygienists
  - 06.120 Dental laboratory technicians
  - 06.199 Other

NATURAL RESOURCES AND ENVIRONMENT

Careers in this area are concerned with the earth's composition, the use of its resources, life in our environment and the living things which compose that environment. Careers are included from the following U.S. Office of Education Career Cluster areas: Agri-business and Natural Resources, Environment, Marine Sciences.

NATURAL SCIENCE

This occupational area is concerned with the physical world and its living beings. People working in this career area, as opposed to those in Natural Resources and Environment, are concerned with pure research or theory development. Careers are included from the following U.S. Office of Education Career Cluster areas: Agri-business and Natural Resources, Environment, Marine Science, Public Services.

Environmental Scientists

Booklet gives a helpful overview of the VA bureaucracy as it lists and describes the many career categories available. Because it is tied into the Civil Service system, the VA's description of background requirements seem vague. Good data is given on opportunities for women and minorities.

Discusses types of business occupations and careers, opportunities available, preparation needed and qualifications which must be met. Careers in automatic data processing, clerical and secretarial occupations, management, marketing and distribution, bookkeeping and accounting, teaching and as a business owner are discussed.
01.000 TITLE: The Coating Industry—Creative Challenge in Management and Science
DATE: 1967
PRICE: $0.50
PAGES: 16
READING LEVEL: III
SOURCE: Paint Industry Education Bureau
1500 Rhode Island Avenue, N.W.
Washington, D.C. 20005

Good presentation of jobs in coating industry. Includes responsibilities, salaries, and educational requirements. Most positions require college degrees, but there are some positions for high school graduates. Excellent information on industry’s work.

01.000 TITLE: Invitation to Achievement: Your Career in Management
DATE: 1972
PRICE: Single Copy Free on official stationary
PAGES: 32
READING LEVEL: III
SOURCE: American Management Association
American Management Association Building
135 West 50th Street
New York, New York 10020

Booklet describes management career, including work duties and history of occupation. Qualifications, advancement possibilities, employment outlook, and methods of entrance mentioned. Opportunities for women included.

Excellent description of the field and choices within it. In-depth explanation of opportunities, education requirements, personal qualifications, opportunities for training and promotion, outlook, working conditions and earnings highlight this occupational brief.
01.005 TITLE: Accountant
DATE: 1972
PRICE: No Charge
PAGES: 3
READING LEVEL: III
SOURCE: Idaho Department of Employment
Research and Analysis Section
Box 7189
Boise, Idaho 83707

Brief concisely covers this career field. Duties, working conditions, hours and salaries are given. Employment outlook, opportunities for women and educational requirements are more than adequately discussed.

01.005 TITLE: Accounting for Your Future
DATE: 1971
PRICE: No Charge
PAGES: 23
READING LEVEL: III
SOURCE: United Business Schools Association
1730 M Street, N.W.
Washington, D.C. 20036

Excellent guide for those interested in an accounting career. Duties, salaries, educational requirements of accountants both in private businesses and government are outlined. Information also given on outlook of the career and on opportunities for women.
Pamphlet discusses twenty-two different careers in the hospital financial department. Included are explanations of work duties, education and skills, qualifications, and salary.

Booklet is aimed at those planning college. Describing nature of the profession, history, advancement opportunities, income, personal characteristics and educational requirements, this booklet is a complete review of the career.
Professionals working in the major accounting areas answer questions on: job-related personal rewards, advancement opportunities, educational preparation, entry salaries and potential income, job responsibilities, advantages and disadvantages of the profession. Aimed at high school students, booklet contains relevant information for adults. Opportunities for women and minorities indicated. Report of an AICPA study on the impact of future economic, social, political and technical development on job prospects for accountants.

Excellent booklet describing different jobs in advertising, their duties, qualifications and potential. It also gives guidance as to the educational requirements of a career in advertising.
This flyer describes the job of setting up advertising displays in retail outlets. Primarily describes duties and training requirements. Salaries, hiring outlook and personal qualifications not given.

Booklet describes the field of advertising and various job classifications within the field. Different levels of supervisors in public relations are included. Qualifications and college information listed.
Pamphlet begins with excellent introduction explaining the brochure. Information includes lawyers' role in society, different types of lawyers and duties. Pre-law education is given along with law school requirements, costs, financial aid and rules for admission to the bar. Statistics of the profession are included.

Aimed solely at women, this report discusses women's status in the legal profession. Much useful career information is imparted through narration. Good career sketches included.
01.020 TITLE: Bank Manager (Branch) (Career Summary S-325)

DATE: 1973  PAGES: 2  PRICE: $.20  READING LEVEL: III

SOURCE: Careers, Inc.
Largo, Florida 33540

Description of duties, working conditions, personal and educational requirements and salaries for those interested in bank manager positions. It also includes a list of related careers and future job outlook for bank managers.

TITLE: Health Careers in Texas

DATE: 1973
PRICE: No Charge to Texas residents; $1.00 for out of state residents

SOURCE: Texas Hospital Association
Texas Health Careers Program
6225 U.S. Highway 290 East
P.O. Box 4553
Austin, Texas 78765

Booklet gives detailed information on nature of work, education required, schools and programs offering training and salaries for health careers. General occupational areas covered include nursing, rehabilitation, laboratory, technical, and other (such as administration, laundry, and food service).
Thirty-two career sheets on health occupations, including dental hygienist, occupational therapy assistant, sanitarian, medical technologist, dental laboratory technician, medical emergency technicians, therapeutic recreationist, physical therapy assistant, dietitian. Each pamphlet includes information on nature of the job, duties, salary, educational requirements and opportunities in the field. A list of colleges (New York) and universities, hospitals and other places offering training in the different careers is included.

This booklet offers an excellent job description for each position in a nursing home, emphasizing personal characteristics and educational requirements. Because it attempts to discuss all nursing homes, specifics such as salaries, hours, and working conditions are omitted.
This pamphlet presents five health occupations by describing a person in the field. Work duties, salaries and working conditions described realistically. Up-to-date information presented in interesting manner.

Excellent guide to careers in medicine and related fields, including rehabilitation, social work, medical technology, radiology, dietetics, office work and hospital careers. Information on each career includes nature of the work, educational and personal requirements, opportunities for advancement, salaries and future outlook. An extensive list of where to write for information on other health careers also given.
Pamphlet gives a brief explanation of seven types of nursing home careers, including physical therapists, dietitians, and administrators. Job duties well explained, but more information needed on education and training, and occupational outlook.

This comic book covers a wide range of health careers, giving training, entrance methods, responsibilities and job satisfaction information for doctors, nurses, aides, x-ray personnel, dentists, dental hygienists, and other health personnel. Accurate and interesting overview with a factual approach. Most occupational portraits are sex-stereotyped.
Forty-eight health careers are described in this booklet. Among those included are careers in hospital administration, nursing services, medical and professional care, eye care, rehabilitation and therapy, technology, personal and community health and clerical. For each, the nature of work, personal and educational qualifications, opportunities and salaries are mentioned.
06.000 TITLE: Virginia Health Careers

DATE: 1974

pressman. Wages, entry path and working conditions are
discussed in detail. Training (apprenticeship, on-the-
job, high school vocational and part-time cooperative
programs), personal and educational requirements, unions
and outlook discussed.

07.499 TITLE: Can I Be a Technician?

DATE: 1971  PAGES: 16  PRICE: No Charge  READING LEVEL: II

SOURCE: General Motors
Public Relations Staff
General Motors Building
Room 1-101
Detroit, Michigan 48202

Booklet outlines the many areas in which a technician may
work and the responsibilities of a technician are specifically
described. Offering extensive information on preparation,
the booklet discusses several levels of entry. Additional
sources of information are included.
This brochure is aimed at those planning college and gives an overview of the opportunities in conservation careers. Various careers are discussed (farming, teaching, research, business, etc.) as well as training and places of employment. Work in numerous federal agencies is described.

Aimed at college-bound men. Reviews scope of poultry industry, emphasizing technology and its importance as a food source. Jobs as managers, nutritionists, geneticists, technical sales and services, research, teaching, and extension workers described. Credentials, employment outlook, salary and work settings included. Job entrance, duties, advancement and personal attributes not developed.
08.000 TITLE: Careers in Resource Conservation

MEDIA: Slide Series
DATE: 1971
PRICE: $13.00 w/cassette,
      $10.50 w/script
TIME: 10 minutes

SOURCE: Soil Conservation Society of America
7515 N.E. Ankeny Road
Ankeny, Iowa 50021

General introduction to careers available in conservation. Effective visuals. Slide series lists further sources of information. For full effect, slide series should be augmented with Conservation Careers ($1.50), available from Soil Conservation Society of America (see above address).

08.000 TITLE: Careers in Wildlife Conservation

DATE: 1967
PRICE: Single Copy Free
PAGES: 36
READING LEVEL: II

SOURCE: Olin Mathieson Chemical Corporation
Winchester-Western Conservation Department
East Alton, Illinois 62024

Presentation of job requirements and educational requirements in the following conservation wildlife fields are given: soilologist, wildlife manager, conservation officer, wildlife educator and related fields. Job definitions, work duties, salary, educational, personal attributes and other information is included.
This collection of articles on various aspects and different careers in soil conservation gives excellent insight into this career field. Booklet gives the reader in-depth information on the field. Further resources are listed.

Introduction to many jobs in the agri-business and natural resources occupational family: farmer, extension service agents, horticulturist, agronomist, veterinarian, lumberman, forester, miner, geologist, and other specialties. General information, educational requirements and work responsibilities given. History of occupation and salary not discussed. Entrance methods briefly mentioned.
Preparation for a Career in Fish Conservation

DATE: 1967
PRICE: No Charge
PAGES: 5 + Supplement
READING LEVEL: III

SOURCE: Department of the Interior
        Bureau of Sport Fisheries and Wildlife
        Washington, D.C. 20240

Discusses the five major areas of employment for fishery biologists (research, hatcheries, etc.). Educational requirements are described along with training programs. Additional fact sheet concerning civil service information is included.

Preparation for a Career in Wildlife Conservation

DATE: Not Given
PRICE: No Charge
PAGES: 6
READING LEVEL: III

SOURCE: Department of the Interior
        Bureau of Sport Fisheries and Wildlife
        Washington, D.C. 20240

Different phases of conservation are discussed including research, administration and management, teaching, extension work and outdoor writing. Training is explained at different levels, noting courses and facilities. Employment opportunities with federal government are described.
Where the Action Is... A Career in Parks, Recreation and Conservation

DATE: 1973
PRICE: $.15

SOURCE: National Recreation and Park Association
1601 North Kent Street
Arlington, Virginia 22209

Listing of occupations in recreation and conservation area include therapeutic recreation specialist, zoo, wildlife and game management, outdoor education specialist, private recreation clubs, landscape architecture, park and recreation planners. Educational training and salary discussed. Information very general.

A Wildlife Conservation Career for You

DATE: 1969
PRICE: Single Copy Free

SOURCE: The Wildlife Society
Suite S-176
3900 Wisconsin Avenue, N.W.
Washington, D.C. 20016

Brief explanation of career areas in wildlife conservation research, education, information, management, and planning. Although geared to those seeking professional opportunities, accurate information is provided for those not going on to higher education. Personal attributes of individuals entering this career area, salary potential and job locations are detailed. Additional sources of information given.
08.005 TITLE: Farm Equipment Operator (No. 36)

DATE: 1973  PAGES: 5
PRICE: Single Copy Free  READING LEVEL: III

SOURCE: Mississippi Employment Security Commission
P.O. Box 1699
Jackson, Mississippi 39205

Good presentation of working conditions, hazards, entry and wages of the farm equipment operator. Pamphlet also lists establishments where work will be found. Physical requirements and training needed as well as employment outlook and promotional opportunities are discussed.

08.010 TITLE: Fruit Growers (No. 44)

DATE: 1974  PAGES: 4
PRICE: $.49  READING LEVEL: III

SOURCE: Science Research Associates
259 East Erie Street
Chicago, Illinois 60611

Occupational brief on fruit growers includes an historical introduction and information on the fruit industry. Work duties, setting, preparation, earnings and outlook given. Additional information sources listed. Initial high capital outlay and uncertainties (weather, market fluctuations, etc.) noted.
08.010 TITLE: Vineyard Manager (No. 274)

DATE: 1972  PAGES: 3  PRICE: No Charge  READING LEVEL: III

SOURCE: California Department of Human Resources Development
Human Relations Agency
800 Capital Mall
Sacramento, California 95814

This occupational guide, aimed at those seeking employment in California, describes the career of a vineyard manager. Opportunities for employment, though limited, are discussed. Working conditions, salaries, duties, training and opportunities for promotion are also covered.

08.015 TITLE: Hunting and Fishing Guide (No. 354)

DATE: 1973  PAGES: 4  PRICE: $0.35  READING LEVEL: II

Moravia, New York 13118

Occupational brief explains this career by describing the nature of the work, conditions, licensing requirements, qualifications and earnings. Also included are advancement opportunities, employment outlook and further sources of information.
TITLE: Ask Any Forester
DATE: 1973
PRICE: No Charge
PAGES: 5
READING LEVEL: III
SOURCE: Society of American Foresters
1010 16th Street, N.W.
Washington, D.C. 20036

Pamphlet describes profession and responsibilities of a forester. Variety of positions in federal and state service, educational institutions, private and industrial forestry. Salary ranges are included. Career piece aimed at those planning college. Personal satisfaction stressed.

TITLE: In Your Service - The Work of Uncle Sam's Forest Rangers (No. 0100-1369)
DATE: 1972
PRICE: $.25
PAGES: 22
READING LEVEL: II
SOURCE: United States Department of Agriculture
Forest Service
Washington, D.C. 20250

Booklet describes in words and pictures the various areas in which forest rangers work: wood, water, wildlife, forage and recreation. History and duties discussed. Very general description of each area with no specific information given on salary, hours, or benefits.
This material gives a broad view of nonprofessional forestry occupations. Different positions' skills and functions needed are included. The pamphlet also supplies information on schools offering forestry. Forestry regions to write to and areas where the civil service exam may be taken to enter this field are included.

Brochure is aimed at those planning college but contains information of interest to all exploring the career field of range manager. This clearly written brochure discusses the range manager's importance in maintaining nature's balance in the range ecosystems. The variety of places of employment, training requirements and supply and demand are also noted.
TITLE: Rangeland Specialist (No. 482)

DATE: 1973
PRICE: $.35
READING LEVEL: III
Moravia, New York 13118

This occupational brief stresses the work responsibilities of the rangeland specialist and gives insight into the working conditions, place of employment, and income. A good career for one who likes people and the out-of-doors. Personal qualifications are emphasized and educational requirements are also given.

DATE: 1971
PRICE: $.10
READING LEVEL: II
SOURCE: United States Department of Agriculture
Soil Conservation Service
Office of Information
Washington, D.C. 20250

Career opportunities with the Soil Conservation Service are briefly discussed. Soil scientists, engineers, range conservationists and soil conservationists are described briefly. Educational qualifications, training and benefits are glossed.
This pamphlet is recruitment literature for students. It offers a brief overview of each of the major career areas (for positions as an engineer, soil scientist, woodland conservationist, and others). Promotion schedules and training are briefly discussed, but other information is not included.

Interesting article describes work of a New York conservation officer. Gives concise information as to job requirements, qualifications, salaries and employment outlook. Does not mention opportunities for women.
Pamphlet describes in detail the work duties and working conditions of nurserymen. Hours, earnings and training requirements are presented. Personal requirements are stressed. Places of employment and outlook are mentioned.

Describes varying responsibilities of the water quality engineer in New York State. Aimed at New York State residents, it notes training, ranging from a two year community college course to graduate training. Salary levels are briefly discussed. Used as a supplement to other career information.
Review of environmental-related occupations, including life scientist, foresters, chemists, meteorologists, ecologists and others. Higher education emphasized but "blue-collar" jobs included. Salary, job entry, advancement and work duties not given. Often directed to "kids". Mentions job opportunities for women and handicapped but not in a positive way.

Brief descriptions of marine science careers given, including fishing, oceanography, biological and geological oceanography, meteorology, geography, cartography, ecology and diving. In addition, educational requirements, working conditions, job techniques and general information regarding the ocean described. History and salary information not given.
Can I Be a Scientist?

DATE: 1972  PAGES: 16
PRICE: No Charge  READING LEVEL: III

SOURCE: General Motors
Public Relations Staff
Detroit, Michigan 48202

Pamphlet explains the basic work and different fields of science. It also makes suggestions on preparing for a career in science. Basic and applied research, teaching, and other areas of scientific work are briefly described.

A Career in Ecology

DATE: 1970  PAGES: 7
PRICE: Single Copy Free  READING LEVEL: III

SOURCE: Ecological Society of America
Department of Biology
Rutgers University
Camden, New Jersey 08102

Various research and applied careers in the field of ecology listed with possible places of employment. Suggested courses of study including specialization areas at the graduate level. Salary and fringe benefits noted. Additional sources on readings in the field included.
Booklet discusses aspects of aerospace science and technology and the necessary preparation for these fields. Aimed at those preparing for college. Fields of specialization in aerospace (fluid mechanics, thermodynamics, acoustics, etc.) and three basic members of the aerospace team (scientist, engineer, technician) are briefly introduced. An extensive bibliography and list of colleges offering engineering programs is included.

Introduction to many jobs in the agri-business and natural resources occupational family: farmer, extension service agents, horticulturist, agronomist, veterinarian, lumberman, forester, miner, geologist, and other specialties. General information, educational requirements and work responsibilities given. History of occupations and salary not discussed. Entrance methods briefly mentioned.
Booklet gives a broad overview of careers available in the fight to protect the environment. Training requirements and environmental employers also discussed. A list of junior colleges and colleges offering courses in environmental protection is given. Careers for those not going on to higher education listed as well.

Discussion of marine science branches, physical, chemical, geological and biological oceanography, and fisheries. Educational preparation, employment outlook, salaries, non-academic experience included. Suggested readings and educational institutions offering marine science curricula listed.
This career brief outlines duties, working conditions, personal qualifications, training requirements and opportunities of a geophysicist. Earnings and future outlook of this career presented. It also includes summary of related careers and sources of further information.

Descriptive introduction gives examples of various branches of geophysics including seismology, meteorology and hydrology. Opportunities, personal requirements, education and earnings discussed. Also describes job entry, advancement, and future outlook. A short list of references and professional organizations is included.
Very detailed booklet provides in-depth examination of the meteorology field. Theoretical and applied research, as well as operational, engineering, and educational meteorology are explored. Useful charts and graphs are included. A listing of suggested readings is attached.

Career summary lists duties, working conditions and personal qualifications for a meteorologist. Educational requirements are given with a list of colleges. Earnings, outlook and places of employment are also covered.
Range of oceanographic work discussed: aboard research vessels, library or laboratory work and the instruments used. Hours, salary, personal attributes, educational requirements, employment outlook, advancement, employing agencies and institutions given. Suggested readings listed. Opportunities for women mentioned.

History of oceanography, places of employment, salary, employment outlook, importance of oceanography to world community included in this occupational brief. Academic preparation emphasized. Physical, geological, chemical, biological oceanography and other specialties mentioned; specific work duties glossed. Further information sources listed.
Pamphlet provides excellent description of job duties, present work and projects being conducted by animal scientists in the Agricultural Research Service. Particular duties of physiologists, animal husbandmen, geneticists, microbiologists, parasitologists, and anatomists detailed. Other useful career information, however, is only sketchily presented and/or absent.

Thorough description provided of the work of a life scientist. Specific career opportunities are examined: botanists, zoologists, microbiologists, anatomists, embryologists, geneticists, pathologists, physiologists, pharmacists, biochemists and biophysicists. Starting salaries provided for various types of employment conditions. Advantages and disadvantages, necessary prerequisites for employment and scholarship information explored. Chapter on women in the biological sciences included.
Aimed at college-bound men. Reviews scope of poultry industry, emphasizing technology and its importance as a food source. Jobs as managers, nutritionists, geneticists, technical sales and services, researchers, teaching, and extension workers described. Credentials, employment outlook, salary and work settings included. Job entrance, duties, advancement and personal attributes not developed.

This collection of articles on various aspects and different careers in soil conservation gives excellent insight into this career field. Booklet gives the reader in-depth information on the field. Further resources are listed.
This pamphlet gives a brief description of the environmentalist and a general list of job duties. Article gives an overview of this occupation. Employment outlook and importance of occupation to community are noted.

Different phases of conservation are discussed including research, administration and management, teaching and extension work and outdoor writing. Training is explained at different levels, noting courses and facilities. Employment opportunities with federal government are described.
09.200 TITLE: A Wildlife Conservation Career for You
DATE: 1969  PAGES: 11
PRICE: Single Copy Free  READING LEVEL: III
SOURCE: The Wildlife Society
Suite S-176
3900 Wisconsin Avenue, N.W.
Washington, D.C. 20016

Brief explanation of career areas in wildlife conservation research, education, information, management and planning. Although geared to those seeking professional opportunities, accurate information is provided for those not going on to higher education. Personal attributes of individuals entering this career area, salary potential and job locations are detailed. Additional sources of information given.

09.205 TITLE: Biochemist
DATE: 1970  PAGES: 4
PRICE: $3.50  READING LEVEL: III
Moravia, New York 13118

General field of biochemistry is defined. Work duties in specialty areas outlined and related to the various fields in which biochemists are employed. Work conditions, salaries, advancement, personal and training requirements, and future employment prospects are considered. Opportunities for women noted.
09.205 TITLE: Careers in Biochemistry  
DATE: 1972  
PRICE: $0.27  
PAGES: 5  
READING LEVEL: II  
SOURCE: American Society of Biological Chemists, Inc.  
Educational Affairs Committee  
9650 Rockville Pike  
Bethesda, Maryland 20014  

Pamphlet discusses the field of biochemistry and gives representative examples of biochemical research. Explains how to prepare for a career in biochemistry and gives valuable references for further information.

09.210 TITLE: Careers in Biology  
DATE: 1972  
PRICE: No Charge  
PAGES: 2  
READING LEVEL: III  
SOURCE: American Institute of Biological Sciences  
Educational Division  
3900 Wisconsin Avenue, N.W.  
Washington, D.C. 20016  

Fact sheet discusses biologists and briefly lists different scientists in the biological field. Describes required education, opportunities available (research, government, military) and salaries. Also covers working conditions and names several professional associations. Additional information sources listed.
09.210 TITLE: Conservation Biologist: Fisheries Biology and Wildlife Biology
AUTHOR: Sandy Marvinney
DATE: 1974  PAGES: 4
PRICE: No Charge to New York  READING LEVEL: II
SOURCE: New York Department of Environmental Conservation
Division of Educational Services
Albany, New York  12201

A two page leaflet describing role of conservation biologist in fishery and wildlife fields. Written in article format, article notes field work, laboratory research, educational and public relations duties, and recommendations for government regarding environmental legislation. Preparation, credentials, salary and advancement given. Methods of job entrance not included.

09.210 TITLE: A Guide to Opportunities in Cell Biology
AUTHOR: Birgit Satir
DATE: 1960  PAGES: 27
PRICE: $.30  READING LEVEL: III
SOURCE: American Society for Cell Biology
Huntington Laboratories
Massachusetts General Hospital
Boston, Massachusetts  02114

Introduction describes cell biology and provides short history of the field. Includes educational requirements and career opportunities. Lists government and industry salaries and positions in scientific and educational areas. Interesting section on examples of current job openings in cell biology. Sources of additional information included.
This pamphlet defines soil scientist and describes work conditions and duties. Information on required education and training, salary, work conditions, and advancement is glossed. Soil classification, mapping, soil-survey interpretation, and soil investigation are briefly introduced.
09.299  TITLE: A Career in Animal Sciences

DATE: 1969  PAGES: 7
PRICE: Single Copy Free  READING LEVEL: III

SOURCE: American Society of Animal Science
113 North Neil Street
Champaign, Illinois  61820

Pamphlet stresses the importance of animal agriculture for science, food production and industries. High school preparation, college curricula described offering programs in animal science; government opportunities and potential income are discussed.

09.299  TITLE: A Career in Genetics

DATE: 1969  PAGES: 6
PRICE: $.20  READING LEVEL: III

SOURCE: American Genetic Association
1028 Connecticut Avenue, N.W.
Washington, D.C.  20036

Discusses meaning and importance of the field of genetics and where career opportunities are found. Personality and educational requirements and salary range are also given.
09.299 TITLE: Horticulture: A Rewarding Career

DATE: 1968             PAGES: 10
PRICE: Single Copy Free     READING LEVEL: III

SOURCE: American Society for Horticultural Science
        P.O. Box 109
        St. Joseph, Michigan  49085

Describes the variety of career opportunities within the field of horticulture. Aimed at those planning college. However, general information concerning the career field, its growth potential, and intangible rewards is also applicable to those not planning college.

09.299 TITLE: Microbiologists (No. 338)

DATE: 1973             PAGES: 4
PRICE: $.49             READING LEVEL: II

        259 East Erie Street
        Chicago, Illinois  60611

Description of the history of microbiology and the career today is given. Career brief is broken down into 5 major areas: teaching, medicine, public health, industry and agriculture, with descriptions given for each. Lists requirements, preparation, earnings and outlook. Additional facts such as percentage of women in field and their prospects, as well as prospects for handicapped make this most informative.
Brochure is aimed at those planning college but contains information of interest to all exploring the career field of range manager. This clearly written brochure discusses the range manager's importance in maintaining nature's balance in the range ecosystem. The variety of places of employment, learning requirements and supply and demand also included.

Excellent description of history, duties, working conditions, personal and educational requirements for the career of crop scientist. It also includes methods of entrance, advancement, wages and future prospects for crop scientists. Additional information sources listed.
Highly detailed booklet explores the field in terms of the types of organisms studied (biology, bacteriology, etc.) and their locales (agricultural, industrial, space). Emphasis placed on background descriptions of the career field. High school and college curricula described, employment outlook and salaries discussed. Bibliography of recommended materials is attached.

This brief is aimed at women exploring the career area of botany or working with plants. History, nature of the work, working conditions and variety of career possibilities in the field of botany or horticulture included. The brief is aimed at those planning college, but contains useful information for all exploring the field.
09.299 TITLE: Preparation for a Career in Fish Conservation

DATE: 1967 PAGES: 5 + Supplement
PRICE: No Charge READING LEVEL: III

SOURCE: Department of the Interior
Bureau of Sport Fisheries and Wildlife
Washington, D.C. 20240

Discusses the five major areas of employment for fishery biologists (research, hatcheries, etc.). Educational requirements are described along with training programs. Additional fact sheet concerning civil service information is included.

09.299 TITLE: Wood Technology: The Materials Science of the Forest Products Industry

DATE: 1973 PAGES: 6
PRICE: Single Copy Free to Career Guidance Counselors READING LEVEL: III

SOURCE: Society of Wood Science and Technology
P.O. Box 5062
Madison, Wisconsin 53705

Pamphlet presents wood technology as an educational discipline which relates to a very large variety of technological occupations. No specifics on careers are offered. Development of the field, its importance, general descriptions of the type of work, education and employers (industry, government, universities, etc.) are included.
09.299 TITLE: Zoologists (No. 180)
DATE: 1974
PRICE: $.49
PAGES: 4
READING LEVEL: II
259 East Erie Street
Chicago, Illinois 60611

Excellent presentation of background, specialties, work duties and conditions, personal and educational requirements of a career in zoology. It also includes methods of entrance, advancement opportunities, earnings and employment outlook. Sources of additional information included.

09.300 TITLE: Professional Opportunities in Mathematics
DATE: 1971
PRICE: $3.35
PAGES: 25
READING LEVEL: III
SOURCE: The Mathematical Association of America
1225 Connecticut Avenue, N.W.
Washington, D.C. 20036

Highly detailed pamphlet provides thorough background information on mathematical careers. Five major specialty fields are discussed: teaching, industry, government, applied probability, statistics and actuarial fields. Emphasis placed on the fact that there are intrinsic rewards to this career field other than financial remuneration. One drawback: small type makes reading exceedingly difficult.
Although dated, this career piece does have relevance for career exploration today. It gives specific careers for different levels of mathematics study and describes several career areas which utilize mathematics. The booklet utilizes an appealing approach to presenting careers in which math is used.

Career summary discusses two types of statisticians, mathematical and applied. Definitions of each, duties, working conditions and qualifications are given. Importance of education is stressed. Earnings, hours and outlook are included.
09.400 TITLE: The Coating Industry - Creative Challenge in Management and Science
DATE: 1967
PRICE: $.50
PAGES: 16
READING LEVEL: III
SOURCE: Paint Industry Education Bureau
1500 Rhode Island Avenue, N.W.
Washington, D.C. 20005

Good presentation of jobs in coating industry. Includes responsibilities, salaries, and educational requirements. Most positions require college degrees, but there are some positions for high school graduates. Excellent information on industry’s work.

09.405 TITLE: Astronomer (No. 210)
DATE: 1974
PRICE: $3.35
PAGES: 4
READING LEVEL: III
Moravia, New York 13118

Brief describes the occupation of an astronomer, work duties and working conditions. Salary, personal and educational requirements, including curricula, are covered. Additional reading materials listed.
Pamphlet contains excellent information on an astronomer's nature of work, salary, and educational requirements. Also included is an appendix of schools offering undergraduate and graduate degrees in astronomy, and an extensive bibliography.

This brochure describes the field of clinical chemistry by presenting a chemist at work. Areas of work in clinical chemistry, such as teaching, research, and quality control, are included. The scope and challenge of the field, necessary education, professional status and the future of the field are discussed.
Pamphlet supplies information on physics in teaching, research, administration and other careers. Covers salaries, educational preparation, financial assistance, and entry methods. Section on opportunities for minority youth and extensive bibliography included.

Highly technical booklet surveys the profession of physicists. Job duties and specialization of careers in the branches of nuclear, elementary particles, solid state and chemical physics discussed. Stress placed on necessary academic training and financial rewards. Related journals, professional societies and addresses of sources of additional information included.
Booklet is written using a narrative format to introduce the field of physics. History, discoveries and future goals are discussed. Stresses need for advanced education and basic personal interests necessary to pursue this career. Salaries and personal rewards are cited.
10,000 OFFICE AND CLERICAL

10,000 TITLE: Careers in Business
DATE: 1972 PAGES: 31
PRICE: $1.00 READING LEVEL: III
SOURCE: National Business Education Association
1201 Sixteenth Street, N.W.
Washington, D.C. 20036

Discusses types of business occupations and careers, opportunities available, preparation needed and qualifications which must be met. Careers in automatic data processing, clerical and secretarial occupations, management, marketing and distribution, bookkeeping and accounting, teaching and as a business owner are discussed.

10,000 TITLE: The Office and You...Careers
DATE: 1972 PAGES: 24
PRICE: $1.00 READING LEVEL: II
SOURCE: Administrative Management Society
Willow Grove, Pennsylvania 19090

Booklet is designed to inform the reader of the many different occupations available in an office. Mostly secretarial careers described. More attention given to describing offices, typical duties and daily activities.
10.000 TITLE: People Who Organize Facts (General Careers)

MEDI A: Filmstrip
DATE: 1972
PRICE: $37.50/set (1 of 4 in set)
TIME: 9 minutes

SOURCE: Guidance Associates
41 Washington Avenue
Pleasantville, New York 10570

Color, sound filmstrips available with records or cassettes and includes introductory filmstrip in the "People Who Organize Facts Program". Occupations dependent upon the organization and interpretation of factual materials are reviewed. A bookkeeper, cab dispatcher, water pollution tester, film researcher, and computer programmer explain the duties involved in their jobs. Several other occupations which also demand these qualities are highlighted. Strips emphasize importance of data to the community in its daily life. Other filmstrips in set review general careers, sports editor, bakery packager, and automotive researcher. Extensive user's guide included.

10.000 TITLE: Popeye and Business and Office Careers

AUTHOR: Joe Gill
DATE: 1973
PRICE: $.25
PAGES: 30
READING LEVEL: I

SOURCE: King Features
235 East 45th Street
New York, New York 10017

The function of banks is discussed. Types of starting positions listed as well as new clerical occupations created by the use of electronic data processing equipment. Flexibility of educational qualifications noted. On-the-job training and company-sponsored courses cited as possibilities for advancement. Working conditions, salary and benefits indicated.

Booklet introduces the many areas of banking: lending, marketing, trust services, international and correspondence banking, economics and others. Salary, benefits, qualifications and skills are glossed. Most information describes commercial banks and their departments.
10.100 TITLE: Employment Outlook for Banking: Bank Clerks, Tellers
Bank Officers (No. 1700-137)
DATE: 1972
PAGES: 8
PRICE: $.16
READING LEVEL: III
SOURCE: Superintendent of Documents
Washington, D.C. 20402
Excellent presentation of positions in banking. Emphasis
placed on bank clerks, tellers and bank officers. Information
included on nature of the work, advancement, employment outlook
and earnings. Educational requirements and in-service training
programs noted.

10.100 TITLE: Faces of a Bank
DATE: 1974
PAGES: 13
PRICE: $2.20
READING LEVEL: I
SOURCE: American Bankers Association
1120 Connecticut Avenue, N.W.
Washington, D.C. 20036
This booklet discusses five different positions in banks
using interviews. Included are a secretary, credit analyst,
service representatives, branch manager and loan officer.
Pictorial representation of each position with descriptions
of duties, working conditions and advantages given.
10.100 TITLE: Technical, Clerical and Trade Careers (No. 05-49)
DATE: 1970 PAGES: 9
PRICE: No Charge READING LEVEL: III
SOURCE: Veterans Administration
Forms and Publications Depot
2625 Shirlington Highway
Arlington, Virginia 22206

This booklet reviews career opportunities available at high school or technical school education levels, and discusses staffing needs of VA hospitals. Information given on types of jobs available, duties, training, employee salaries and benefits and entry procedures. Nationwide list of VA hospitals and offices included.

10.110 TITLE: Teller (Banking)
DATE: 1971 PAGES: 6
PRICE: No Charge READING LEVEL: II
SOURCE: Idaho Department of Employment
Research and Analysis Section
P.O. Box 7189
Boise, Idaho 83707

This occupational brief is aimed at Idaho residents but offers information for all interested in a career as a bank teller. Information given on duties, working conditions, and advancement opportunities. Some information mentioned, such as salary, is directed to Idaho residents and may not apply to other states.
The literature defines the career of a loan officer and describes duties of different loan officers (mortgage, installment, and commercial, for example). Working conditions, personal and educational requirements, hours, salary, advantages and disadvantages are presented. Opportunities for women, related occupations, and a bibliography are included.

Pamphlet uses case study format to illustrate various facets of information technology. Behavioral theory, technology and systems, basic science and computer science are explored for jobs as systems specialist and technologist. Educational preparation and curricula, areas of specialty (informatics, behavioral science) and other professional disciplines (library science, communications, etc.) are included.
Booklet reviews variety of computer careers at all levels including operations, clerical, and keypunch. Stresses career ladder concept and covers entry training required. Brochure emphasizes training after high school and classifies positions by trade school, community college, or university training. Section reviewing qualifications of training institutions included. Salaries for various positions in many U.S. cities are given as well as extensive additional sources of information.

Brochure discusses the computer industry's history and future. Gives description of different careers in the field, from programmer to engineer. Salary and required training are also discussed.
10.210 TITLE: Keypunch Operator

DATE: 1969
PRICE: No Charge
PAGES: 4
READING LEVEL: III

SOURCE: Idaho Department of Employment
Research and Analysis Section
P. O. Box 7189
Boise, Idaho 83707

Pamphlet is aimed at Idaho residents, particularly specific information such as wages. Nature of work, working conditions, employment opportunities and entry methods are given. Advancement opportunities also covered.

10.210 TITLE: Keypunch Operator (No. 19)

DATE: 1970
PRICE: Single Copy Free
PAGES: 4
READING LEVEL: III

SOURCE: Mississippi Employment Security Commission
P. O. Box 1699
Jackson, Mississippi 39205

Pamphlet is a well-organized presentation of this career giving job description, working conditions, hiring methods, physical and educational requirements. Promotional opportunities, employment outlook and an occupational ladder are included. Most information is general and applicable anywhere, but some, such as wages, may be applicable only in Mississippi.

**Source:** Chronicle Guidance Publications, Inc.  
Moravia, New York 13118  

Description given of the many branches of mechanical engineering. Importance of engineering is shown in relation to business, industry, and the community. Preparation for the field and a brief discussion of advancement is given. Bibliography is included.
Pamphlet describes work in materials science and engineering. Includes information on opportunities, salaries, how to prepare for this career and lists schools offering undergraduate programs. Opportunities for women noted.

Booklet is composed of several articles, each covering a different area of metallurgy. Personal and educational requirements, materials engineer, metallurgical research, nuclear energy, electrical and space technology are covered. The articles are primarily job descriptions.
Thorough description provided of duties involved in metallurgical careers, emphasizing differences between physical and chemical metallurgy. Necessary educational and personal qualifications delineated. Methods of job entrance and future employment implications discussed. Extensive listings of reference materials provided, including information on available scholarships. Photographs stress the accessibility of jobs for women.

Educational booklet provides illustrations and explanations of the coal industry. Opportunities discussed and a chart of advancement paths includes high school and college curriculum. List of pertinent facts, including salary and entry methods, given. Booklet cover taken from maps of a coal mine.
Career summary introduces a mining engineer aspirant to duties and working conditions. Discusses personal qualifications, necessary education, earnings and hours involved performing this type of work. Employment outlook is noted along with sources of further information.

Information on specific careers in petroleum engineering presented, noting general educational requirements, job duties, advancement possibilities, and employment outlook. Directed toward high school men planning college.
TITLE: Petroleum Engineers (No. 208)

DATE: 1973
PRICE: $4.49
PAGES: 4
READING LEVEL: II

259 East Erie Street
Chicago, Illinois 60611

History of oil industry given. General description of work of a petroleum engineer, requirements and education presented. Information on getting started and advancing is discussed. Salary, future outlook and suggested readings included.

TITLE: Careers in Photographic Science and Engineering

DATE: 1969
PRICE: Single Copy Free
PAGES: 8
READING LEVEL: III

SOURCE: Society of Photographic Scientists and Engineers
1330 Massachusetts Avenue, N.W.
Washington, D.C. 20005

This pamphlet gives a very general view of educational requirements and job qualifications in photographic engineering. No information presented on job outlook or salaries. Good supplemental source listing included.
Designed to recruit students in this specialization of the engineering field, the booklet describes various jobs at which consulting engineers work. Salaries and hiring prospects are briefly described.

Career summary reviews occupation of environmental engineer, emphasizing a description of work duties. Working conditions, personal qualifications, educational preparation and licensing, salary, hours and outlook included. Additional information sources listed.
Supervisory responsibilities of the hospital engineer in maintaining the plant are described. Educational and personal requirements, entry job suggestions, and salary range included. Brochure is part of a series on careers by the American Hospital Association.

Nature of nuclear engineering is examined in story form. Using a hypothetical example, all phases of the industry are examined. Educational requirements, salary, places of employment and employment opportunities are examined. In addition, related work and a list of suggested readings is included.
15.199 TITLE: What Is Engineering Technology?

DATE: 1972
PRICE: No Charge
PAGES: 5
READING LEVEL: III

SOURCE: California State Polytechnic University,
Pomona
3801 West Temple Avenue
Pomona, California 91768

Aimed at students in the engineering field, this flyer describes theoretical and academic aspects of engineering technology and its sub-fields. Career specifics, such as salaries and work duties, are not covered.

15.200 TITLE: Careers for a Technological Age

DATE: Not Given
PRICE: No Charge
PAGES: 20
READING LEVEL: III

SOURCE: Newark College of Engineering
323 High Street
Newark, New Jersey 07102

This recruitment literature for the Newark College of Engineering offers good information describing several engineering areas. Career information is provided on the field of engineering, nature of the work and training information.
15.200 TITLE: What's It Like To Be A Technician?

DATE: 1971
PRICE: Single Copy Free
PAGES: 14
READING LEVEL: II

SOURCE: General Electric
Educational Relations
570 Lexington Avenue
New York, New York 10022

This booklet containing general information is aimed at the younger student but can be successfully used with adults, especially if supplemented with more specific information. It gives a brief overview of several fields requiring technicians' skills. Future need for technicians is stressed. Further sources of information are given.

15.205 TITLE: Assignment: Worldwide with the United States Department of State

DATE: 1971
PRICE: No Charge
PAGES: 12
READING LEVEL: II

SOURCE: United States Department of State
Washington, D.C. 20520

Basic duties, qualifying standards, areas of assignment, financial and health benefits are detailed for positions in the Communications Center of the Foreign Service: communications and records assistants and communications technicians. PRICE: $ .49  

PAGES: 4  
READING LEVEL: II

259 East Erie Street  
Chicago, Illinois 60611

Lucid presentation of qualifications, duties, and work conditions of a bus driver. History entrance methods, means of promotion, salary, unions and employment outlook included. Mentions employment possibilities for women.

16.215 TITLE: Driver, Heavy Truck (Career Summary S-93)

DATE: 1974  
PRICE: $.20  

PAGES: 2  
READING LEVEL: III

SOURCE: Careers, Inc.  
Largo, Florida 33540

Local and long distance heavy truck driver summary includes duties, working conditions, personal qualifications, training, earnings, hours, benefits, occupational outlook, disadvantages, related careers, and other information sources.
16.215 TITLE: Truck Drivers

DATE: 1970
PRICE: Single Copy Free
PAGES: 2
READING LEVEL: IT

SOURCE: Missouri Department of Labor and Industrial Relations
Division of Employment Security
P.O. Box 59
Jefferson City, Missouri 65101

This brief devotes considerable space to a driver's duties, the nature and conditions of their work. Much care is spent pointing out the occupation's importance as well as its drawbacks, such as slow advancement. Job entry and wages are also covered quite adequately. Written for Missouri residents, brief is informative for all considering this career.

16.220 TITLE: Long-Haul Truck Driver

DATE: 1969
PRICE: No Charge
PAGES: 5
READING LEVEL: II

SOURCE: Idaho Department of Employment
Research and Analysis Section
P.O. Box 7189
Boise, Idaho 83707

Highly detailed review of the long-haul truck driver is presented in this leaflet. Considerable attention is paid to methods of job entry and advancement possibilities. Working conditions, wages and fringe benefits also presented. Although written for Idaho residents most information is applicable throughout the country. Sex-stereotyping throughout pamphlet.
TITLE: On the Road With the Truckers

AUTHOR: Hayes B. Jacobs

PAGES: 5
PRICE: No Charge
READING LEVEL: I

SOURCE: American Trucking Associations, Inc.
Education Section
1616 P Street, N.W.
Washington, D.C. 20036

Detailed history of the development of the truck and its use as a commercial vehicle. Narrative account of the author's first-hand experience on a trip with a truck driver team. Training programs mentioned as well as driver improvement classes. Average income indicated and prospects for the trucking industry's growth. Also noted is the increasing number of women drivers, particularly in husband and wife teams.

SOURCE: Missouri Department of Labor and Industrial Relations
Division of Employment Security
P.O. Box 59
Jefferson City, Missouri 65101

This brief devotes considerable space to a driver's duties, the nature and conditions of their work. Much care is spent pointing out the occupation's importance as well as its drawbacks, such as slow advancement. Job entry and wages are also covered quite adequately. Written for Missouri residents, brief is informative for all considering this career.
Information on merchant seamen briefly outlines work functions and responsibilities of those assigned to deck, engine and steward's departments. Describes entrance methods, advancement, credentials, salary range and benefits. Work conditions and scarce job opportunities considered.

Very good synopsis of opportunities in railroading. Specific careers are glossed. General requirements are mentioned: work settings, physical demands, salary, employment benefits, outlook and importance of this occupation. Listing of Class I railroads in this country is included. Pamphlet should be used with career materials that are more specific.
GENERAL CAREER AIDS

TITLE: Careerism: How to Select a Successful Career
DATE: 1971
PRICE: $1.25
PAGES: 155
READING LEVEL: II
SOURCE: Whizz/Information Services, Inc.
Rochester, New York 14609

Easy to comprehend book, blithely written but laden with factual knowledge and analogies, outlines various corporate jobs available. Vivid job descriptions, pitfalls and high points, means for advancement and technological aspects involved in the jobs are explored.

TITLE: Discovery
MEDIA: Filmstrip
DATE: 1973
PRICE: $119.50/with records
$135.50/with cassettes
TIME: (8) 15 minute filmstrips
SOURCE: Scholastic Book Services
904 Sylvan Avenue
Englewood Cliffs, New Jersey 07632

Series of eight sound, color filmstrips exploring the concept of work and why individuals choose certain careers. Various types of career opportunities are discussed and actual career areas are reviewed. Series gives sufficient insight into specific careers to know whether further exploration is warranted for the individual. Excellent teacher's guide and student workbooks included.
Directory is divided into three sections. 1.) Federal career occupations listing over 200 careers in all fields which are in demand by the federal government. Description of the job and personal qualifications are listed for each. 2.) Federal employers: a list of all the departments in the federal government, purpose and work of the department and who they are interested in hiring. 3.) Job briefs by college major, listing the major fields of study considered valuable for government employment.

This booklet covers nine broad categories of skilled, semi-skilled and unskilled occupations, primarily blue-collar work. Working conditions and duties are discussed, but are unspecified. Future personnel needs are discussed. Salary information is not included.
TITLE: Thinking About Work

MEDIA: Filmstrip
DATE: 1973

PRICE: $119.50 w/record
$135.00 w/record
Time: (8) 15 minute filmstrips

SOURCE: Scholastic
50 West 41st Street
New York, New York 10036

Part two of an eight part filmstrip series is concerned with exploring day-to-day working situations. Six careers are reviewed through people working in each field: air traffic controller, electronics technician, police officer, surveyor, reporter and mail carrier. Strip utilizes clear audio-visuals and maintains consistent quality of information about the career area.

**BEST COPY AVAILABLE**

**GRAPH FOR ESTIMATING READABILITY**

by Edward Fry, Rutgers University Reading Center, New Jersey

Average number of syllables per 100 words

<table>
<thead>
<tr>
<th>SHORT WORDS</th>
<th>LONG WORDS</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

![Graph](image_url)

**DIRECTIONS:** Randomly select 3 one hundred word passages from a book or an article. Plot average number of syllables and average number of sentences per 100 words on graph to determine the grade level of the material. Choose more passages per book if great variability is observed and conclude that the book has uneven readability. Few books will fall in gray area but when they do grade level scores are invalid.

**EXAMPLE:**

<table>
<thead>
<tr>
<th></th>
<th>SYLLABLES</th>
<th>SENTENCES</th>
</tr>
</thead>
<tbody>
<tr>
<td>1st Hundred Words</td>
<td>124</td>
<td>6.6</td>
</tr>
<tr>
<td>2nd Hundred Words</td>
<td>141</td>
<td>5.5</td>
</tr>
<tr>
<td>3rd Hundred Words</td>
<td>158</td>
<td>6.8</td>
</tr>
<tr>
<td>AVERAGE</td>
<td>141</td>
<td>6.3</td>
</tr>
</tbody>
</table>

**READABILITY 7th GRADE** (see dot plotted on graph)
