The guide's contents are designed as ideas that could be used to develop various career education concepts and objectives at the first grade level. The activities are to be integrated into existing curriculum, sequenced, and adapted to meet the needs of all people involved in education at the local school. The purpose of the guideline, a career education philosophy, summary of objectives, concepts to develop (grades K-6), and first grade objectives are outlined. Career education activities have been organized as they relate to three personal and world-of-work oriented objectives. Units are provided on: understanding feelings; personal attainment; goals and aspirations; school workers; parent's occupation; home and family workers and helpers; policemen; workers related to holidays, space, weather, animals, the circus and medical fields; the newsboy and the mailman. Each unit is keyed to a broad objective, broken down by specific behavioral objectives, for each of which there are suggested activities, teaching techniques, and resource materials. A sampling of activities includes stories, game and role playing, drawing, reading, films, demonstrations and discussions, singing, making a newspaper, and field trips. Guidelines for resource people and field trips are appended. (Author/NH)

The 1968 Vocational Education Amendments called attention to the need for innovative programs in education that would help students bridge the gap between school and work. In response to this legislation the State Board for Vocational Education in cooperation with the Department of Public Instruction, the Bismarck Public School District, and others have initiated a developmental program in Career Education. This program has been developed and field tested in the Bismarck District and other schools that have asked to become involved during 1970 - 1973.

The following materials have been compiled by the staff of North Dakota's Exemplary Career Education Program with the assistance of many individuals and groups. The contents are designed as ideas that could be used to develop various Career Education concepts and objectives. The activities are to be integrated into your existing curriculum, sequenced, and adapted to meet the needs of all people involved in education at the local school.
ACKNOWLEDGMENTS

The staff of the State Exemplary Project in Career Education gratefully acknowledge the help of the teachers, administrators and counselors in the Bismarck Public Schools for assistance in the development and field-testing of the suggested activities.

In addition to the personnel in the Bismarck School District many individuals and groups contributed to furthering the effort of Career Education in North Dakota. The project staff extends a special thank you to the staff of the State Board for Vocational Education, members of the Department of Public Instruction, and all other school districts, agencies, and individuals that helped make this publication a reality.
PURPOSE OF THIS GUIDELINE

The Career Education reference material included in this guideline represents information that will be helpful to teachers in achieving the goals of a Career Education program.

The guide provides a flexible framework to provide experiences that will support the learning principles needed to attain the required knowledge, attitudes and skills essential to productive living. Within this flexibility, there is a planned sequence from one grade level to next. The needs of the students, the involvement in the world of work and the classroom facilities should determine the selection of resource units to be utilized.

This guide does not provide a framework for a separate unit on careers. Rather, it is expected that learning experiences from the guide will be incorporated into existing units of instruction.

This guide is organized around three major objectives. To achieve these objectives the activities include expected student behavior and suggested learning experiences. Teachers are encouraged to add other goals and learning experiences which they have found successful.

The Career Education activities in this guide have been organized in the Table of Contents as they relate to the major subject areas and the three broad objectives. With this structure, the teacher has a ready reference for the selection of an activity appropriate for that area of the curriculum. In using the activities, the classroom teacher should make special note of the format as it applies to the student and teacher needs. Provisions have been made for a broad objective and supportive techniques. Also, suggested resources have been listed to help the teacher and student work out a plan of study. It is not intended that the teacher be limited to the activity as presented. Rather, it is to be thought of as a point of departure in accomplishing the desired objectives.
Career development is that one aspect of life-long individual development which relates to the occupational needs of the individual and which occurs with social, emotional, mental, physical, spiritual, and skill development. All facets of individual development are integrated with each other in a life-long continuing process.

Career Education in the elementary school provides for helping individuals build positive self-images, positive attitudes toward all work and workers, and a broad orientation to workers and occupations.

Emphasis on the career development of the individual calls upon teachers, administrators, counselors, parents, and the business community cooperatively searching for ways of providing meaningful activities and experiences for students. These activities should not be taught as an isolated course. An integrated approach giving emphasis to Career Education concepts when and where the appropriate opportunity arises will provide meaning and purpose to the curriculum.
SUMMARY OF CAREER EDUCATION OBJECTIVES

I. PREPARE FOR MAKING CAREER DECISIONS
   A. Know own characteristics relevant to career decisions.
   B. Know the characteristics and requirement of different careers and occupations.
   C. Relate own personal characteristics to occupational requirements.

Courage

1. To assist children in acquiring an understanding of the many aspects of courage.
2. To help children understand that courage is more than an outward show of bravery.
3. To encourage children to overcome trivial fears through awareness and understanding.

COURAGE is an inner feeling that causes a person to act bravely and responsibly. It is not to be confused with recklessness, for the acts of a courageous person will have different consequences from those of a reckless person. Both take chances, but the courageous person does so after considering the probable outcome of his action and deciding it is worth the risk, while the reckless person neither studies the situation nor considers the possible results of his behavior. Both may appear brave, but the reckless person often indulges in actions which are not only dangerous, but are really unnecessary.

Courageous action, then, is based upon reasoning and results from an analysis of the situation. The behavior exhibited is only the result of the process of courage, which includes a perspective that examines all aspects of the present and the future and selects those actions which seem most likely to be successful. This behavior requires confidence in one's ability to handle any situation that may arise.

Everyone has the opportunity for courageous behavior at all times if he is to remain true to his feelings and desires despite the possible opposition of the crowd; that is, it takes courage to be an individual. Anyone can become trapped in the security of routine and group activity. The courageous person is an individual, and reaps the benefits of the security and esteem that come from being and behaving like an individual.

But worst of all, what scared him most was the DARK.
1. Is everyone frightened of some things?
2. Should people try to stay away from the things that frighten them?

Alexander wasn't scared of anything. Not that he was foolish and bothered things that would make trouble.
1. What are some things people should not bother?
2. Does it show bravery to bother with things that could cause trouble?
3. What is the best thing to do with things that could be harmful?

Frogs and toads couldn't hurt anybody, and if Boo didn't like their looks and wanted to play with them, he could remember that they probably didn't like his looks either, and they didn't want to be played with anyway.
1. Do people meet others with whom they do not want to play?
2. Do they meet others who do not want to play with them?
3. What is Alexander trying to teach us?

Some of them were good and others were bad and dangerous.
1. Is it brave to go near a dog you do not know?
2. Is staying away from dogs you do not know the same thing as being afraid of them? Why?

No matter how much Alexander talked about it, Boo still was scared of the dark.
1. If you were Alexander, what would you say to Boo so he would not be afraid of the dark?
2. Do you think it takes courage to stay in the dark?

Down in the kitchen, Alexander jumped so high he bumped his head on the stove, but he ran upstairs as fast as a cat when he is in a hurry, and that is very fast.
1. Why did Alexander run upstairs to Boo?
2. Should people heed a call for help by a friend? Why?
3. Sometimes it takes courage to help others. Can you give an example?
COURAGE

COURAGE by Munroe Leaf

p. 26 “Look,” he said. and pointed at the lumps of darkest dark. “Wild
animals.”

1. Do you think there are really wild animals in the dark?
2. Why do you suppose Boo thought he saw them?
3. Does being afraid sometimes make people imagine things? Like what?

p. 34 Boo laughed too.

1. How is Boo learning not to be afraid of the dark?
2. Do you think after this he will be able to stay alone in the dark with-
   out being frightened?
3. Can people learn to overcome some of their fears this way?

SUMMARY DISCUSSION: All of us are afraid of something at one time or
another. Some things are best left alone because they may be dangerous.
Other things, however, are not frightening at all once we get to know them.

CAREER DEVELOPMENT ACTIVITIES

BROAD OBJECTIVE: To present appropriate occupational information about the world of work.

SPECIFIC BEHAVIORAL OBJECTIVE: To demonstrate knowledge of father's or mother's occupation, each child will be able to state at least one specific duty of his father's or mother's trade and at least one reason why it is important.

SUGGESTED SUBJECT AREA: Social Studies

SUGGESTED GRADE LEVEL: 1

ACTIVITY

1. Read story and discuss father's role in family. Use questionnaire to survey different jobs represented in the classroom.

2. Show filmstrip and/or film.

3. Fathers come into classroom as resource people. Explain their work - with time for questions provided.

4. Role-play father's work.

SUGGESTED TECHNIQUE

1. Motivating discussion questions:
   - "What work does your daddy do?" (Or where, or what type?)
   - "Does he wear a uniform?" (What kind, color, etc?)
   - "Does he go out of town to do his job?"
   - "Does he talk - listen - read - write in his work?"
   - Send home questionnaire for further information.

2. Promote discussion on filmstrip (which may need 3-4 sessions)

3. Orient resource person to needs of instruction and level of understanding of the group.

4. Use basic props like caps, simple tools, etc. for each worker's role in play.

The students in our class are studying about the importance of all types of work. We want to learn more about the work of each of the parents of all the boys and girls in ________'s class. (child's name)

Would you answer these questions for us and send it to school with your child. We will study how your job affects our lives.

1. What is your job? ____________________________

2. What are some of your duties? ____________________________

3. Is there anything about your work which the children in our class would enjoy seeing (pictures, materials, tools, uniforms, etc.)? ____________________________

4. Would you consider coming to our classroom to explain your work to the children and perhaps show tools or slides? ____________________________

5. Do you have a hobby you would like to discuss with and show the class? ____________________________

Thank you for your consideration.

8. Bags and construction paper as stated in technique.
CAREER DEVELOPMENT ACTIVITIES

BROAD OBJECTIVE: To develop positive attitudes toward the world of work.

SPECIFIC BEHAVIORAL OBJECTIVE: 1. To demonstrate the student's understanding of the value of cooperating in the planning of a party, groups of students will plan an assigned segment successfully, based on teacher observation. 2. To demonstrate a knowledge of workers involved in producing and distributing party supplies, students will correctly name five different workers involved.

SUGGESTED SUBJECT AREA General

SUGGESTED GRADE LEVEL 1

ACTIVITY
1. Plan a Halloween party.
2. List and discuss workers involved in foods, party treats, and costumes.
3. Assign committees to the various duties involved in planning and giving the party.
4. An apple bob can be used to lead into the workers and source of apples. (Tie apples on a string instead of putting them in water.)
5. Plan a party with activities directed toward a specific subject.

SUGGESTED TECHNIQUE
1. Plan the menu for the party. Emphasize that these supplies are the result of many workers' efforts. Have students list workers involved in obtaining these supplies to you for this party.

Discuss and encourage costuming. Encourage original costumes made from items at home. List the workers involved in obtaining such items.

Suggest and discuss bobbing for apples as a party game. Talk about where the apples will come from, ask questions that will bring discussion about fruit growers, pickers, transportation, etc.

2. Let class suggest workers listed.
3. Give each small group responsibility for some phase of the party.

RESOURCE MATERIALS
1. Food and costuming bought by children.

SUGGESTED CORRELATION FOR THIS ACTIVITY:
CAREER DEVELOPMENT ACTIVITIES

BROAD OBJECTIVE: To develop positive attitudes toward the world of work.

SPECIFIC BEHAVIORAL OBJECTIVE: To demonstrate a student's knowledge of a paper boy's work, each student will be able to name at least one job responsibility and one reason that a newsboy's job is important to us.

SUGGESTED SUBJECT AREA: Social Studies

SUGGESTED GRADE LEVEL: 1

IMMEDIATE NEIGHBORHOOD: Newsboy (November)

ACTIVITY

1. Display a daily newspaper and show students the different sections. Hold discussion on how many people have worked together to produce this paper.

2. a) View and discuss the illustration of newsboy on the picture fold-out. and b) "Newspaper Boy" (filmstrip)

3. Have an older brother (or a friend) come to the classroom to tell the children about being a newsboy.

4. Learn newsboy chant.

5. Check at home to see how many papers come daily, weekly

6. Make a news bulletin board for mounting news pictures and

SUGGESTED TECHNIQUE

1. Have children examine the sections, and then bring a paper from home so that each will have his own to examine. Point out concepts such as: newspapers are printed in a newspaper office; newspapers are taken by truck (or car) to newsboys; many people work at newspaper office, but the delivery boy is the youngest.

2. a) Show filmstrip and record b) Must be from same school - (6th Grade) Plan talk to first grade

3. Have the newsboy tell all the phases of being a newsboy: getting up early, taking the papers in all kinds of weather; collecting; being sure that everyone on his route has their evening paper.

4. What papers come? Report and bring copies of old ones to school. Find out why families want a newspaper. Why is it important? Why is the newsboy an important worker?

SUGGESTED RESOURCE MATERIALS

1. Newspapers from home.

3. Resource person 6th grade

4. Chant:
   I ride my bike around (pretend to ride bike)
   With my papers in a sack.
   I go to many houses,
   Delivering papers from my pack.
   (pretend to deliver papers)
   I like to be a paper boy
   And ride my bike around.
   (pretend to ride bicycle)

CAREER DEVELOPMENT ACTIVITIES

BROAD OBJECTIVE: To present appropriate occupational information about the world of work.

SPECIFIC BEHAVIORAL OBJECTIVE: To demonstrate a knowledge of the job responsibilities of postal workers, each child will be able to:

a) Illustrate three postal workers performing different duties
b) Explain very basically how a posted letter gets to its destination.

SUGGESTED SUBJECT AREA: Soc. Studies

ACTIVITY

1. Read stories from resource books.
2. Make a model post office.
3. View the picture fold-out and discuss jobs of the mailman.
4. Arrange a bulletin board and table display of postal items.
5. Sing songs.
6. View a filmstrip.
7. Meet the mailman that comes to your school.
8. Write a letter to mother and dad, and address an envelope.
9. Write a letter to a friend and mail it.

SUGGESTED TECHNIQUE

1. Use stories and illustrations to acquaint children with post office function.
2. Use shoe boxes for individual boxes. Stack, tape together, paint, and arrange like a section of the post office. Correlate with Valentine's Day so there will be lots of mail. Number post office boxes, and post the list of assigned numbers to each student's name. Children may use the post office for notes and various types of mail to their friends.
3. Questions: Where does the mailman get the mail? Where does he take it? Do many people work at the post office? Is mail brought to the post office too? From where? Who and what carries mail? Who is mail sent to?

You are supposed to visit me twice a year. I help take care of a very important part of your body. I tell you to brush your teeth after each meal. Who am I? (Dentist)

I bring milk to your houses. I drive a big truck. I also have cream, butter, and eggs in my truck. Who am I?

She wears a white dress. She helps people who are sick. She helps to make people well. What is her job?

I travel many miles every day. I bring letters and packages to people. Who am I?

Mr. Jones uses an instrument to check my eyes. He has me read a chart on the wall. If my eyes do not see very well, he gives me glasses.

I plant the seed for your puffed wheat. Most of my day is spent in the fields. I use many large machines. What is my job? (Farmer)

Many a letter I have seen him deliver in the heat of summer or the cold of winter. (Mailman)

He sweeps the floor and washes the windows. We see him in school. Who is he? (Janitor)

I help children cross the street. I help to keep our community safe. Part of my work is to see that laws are not broken. I am your friend. You can recognize me by the uniform I wear. Who am I?

He wears a white coat while examining your throat. And as he looks in your ears tells you never to fear. He takes your temperature with a stick called a thermometer. Who is he? (Doctor)

I work where people borrow and use information from newspapers, magazines, records, films, and books. Not every school or city has me. My job is known as a librarian.

Mr. Brown lives in our town. He is always ready to help. He travels in a fast, red truck. He helps put out fires. What does Mr. Brown do?

Miss Smith visits our school. She checks our eyes and also our teeth. Who is she?

I drive a large white truck which helps me deliver food to families in the city every day. My food comes from farm cows. You can eat some of these products and also drink some of them. Who am I?

I wake you in the morning. I hustle you off to school. I heal hurts and tuck you in at night.

John is a boy. He works for a large company. He helps us have things to read in our home. He carries rolled up printed sheets from door to door. He gets money for these sheets. Part of this money he gets to keep for himself. What is his job? (Paperboy)

I am up bright and early when you are fast asleep. I'm busy driving truck and delivering something good for you to drink.
Please list three kinds of jobs (occupations, vocations or professions) that you would enjoy doing when you grow-up. You may change your choices each year, if you feel different about your earlier selection.

| 9. Paint large clowns and work into a circus mural. One or two life size ones may be made by drawing around a child lying on the floor. Or you may make a paper bag clown. Add a head, feet (big floppy shoes) hands, etc. to bag. Paint clown suit on bag. | 9. Arrange on a mural or have a "Parade of Clowns." If they are added to a mural, use some of the people and animals the children have already made. During this activity, especially discuss the duties of a clown. (If this gets extra large it may be used in the hall outside the room.) | Music for Young Americans, 1966<br>"Let's Have a Circus," p. 57<br>"The Ponies," p. 58<br>"The Lion Tamer," p. 59<br>"Clowns," p. 60 (attached)<br>"Snake Charmers," p. 61<br>"The Circus Parade," p. 62<br>"Jumbo," p. 63 (attached)<br>"The Merry-go-round," p. 64<br><br>Our First Music, C.       1. Appropriate clothing
      2. Safety - conduct on tour
      3. Courtesy (going and at tour base)
      4. Departure time
   D. Follow-up
      1. Did you enjoy the trip and would you recommend trip to others? Why? Why not?
      2. Discuss observations (C)
      3. Were all your questions answered?
      4. Which of these workers would you like to be?
      5. What did you learn on this trip that you didn't learn in classroom?
FIELD TRIPS

Grade 1

Resource People

1. Tour Guides
   a. Talk on children's level
   b. Clear and a high voice
   c. Split groups so all can hear and benefit
   d. Give children ideas of what to look for before entering work area. If it is noisy, discuss briefly what will be seen, and then review after leaving the noisy area.
   e. Emphasize role of worker and not necessarily the product.
   f. Emphasize qualities needed in workers:
      1) punctuality
      2) getting along with co-workers
      3) responsibility to do your best work.
   g. Introduce workers as they are encountered on tour, with comments like "Mr. ______ is the man who does______."
