Exploring Careers in International Travel, Trade and Communications.

The career exploration program for grades 9 through 10, as part of a comprehensive K through 10 career development program, attempts to develop an awareness of and appreciation for work, extend knowledge of the variety of career opportunities, and provide experiences in career areas of individual interest. The document, a collection of materials consisting of student learning experience packets, a resource list, sample forms, instructional materials, and evaluation instruments, is designed to introduce the students to careers in international travel, trade, and communications. The introduction offers a career area definition, course objectives, a course strategy, procedures, and a suggested time table. The learning activities are organized into objectives, procedures, and resources and cover the following areas: introductory activities, foreign language careers, translating--interpreting, foreign service, teaching a foreign language, airline services, customs and immigration, travel agents, related careers, and self-evaluation of career maturity. Teaching strategies include role playing, discussion, information-gathering, interviews, and field trips. The appendix contains job titles, forms, worksheets, sample travel documents, self-evaluation checklists, and a resource guide. (JB)

(Tentative Copy)
The Career Development Program responds to the needs of students, taxpayers, and employers for the public schools to provide personal, social, and economic relevance in the educational process. It is an integral part of the educational process essential to the development of all students.

The Career Development components, which are Career Motivation (K-6), Career Orientation (7-8) and Career Exploration (9-10), develop an awareness and appreciation for work, extend knowledge of the variety of career opportunities, and provide experiences in career areas of individual interest. These goals are accomplished through a curriculum based on pupil activities involving simulation, role playing, and individual investigation. These activities require that administrators and teachers develop a new level of working relationships with community resources such as public institutions, business, labor, and industry.

Every individual's right to learn what he or she needs in order to be a producing, participating member of society is a fundamental responsibility of education. Each individual also has a right to self-fulfillment. Career Development, presented as inseparable elements inherent within every level and subject area of the school curriculum, provides each student with the skills and insights to recognize and pursue goals of personal significance. As a result of this program students will increase their abilities to make well-informed and experience-based decisions related to their personal life, school program, and career selection.

Donald R. Waldrip, Superintendent
Cincinnati Public Schools
CAREER EXPLORATION

Career Exploration is the 9th and 10th grade component of the Career Development Program. Its primary goal is to provide experiences related to career areas chosen by the student. Focus is on the student's perception of himself or herself in relation to the real world of career opportunities. Emphasis is on individualized and personalized activities and experiences.

The student chooses and studies a specific career area using skills and insights gained in earlier parts of the Career Development Program. Students explore occupations within the chosen area with particular attention to those most closely related to their own needs, interests, and abilities. They will experience some of the satisfactions, opportunities, limitations and frustrations peculiar to the various occupations.

Career Exploration is planned as the culmination of the Career Development Program. Successful exploratory experiences will enable the student to formulate and refine realistic and personally meaningful career goals. These experiences will also provide a basis for planning a course of studies in the 11th and 12th grades (and beyond) pursuing career goals.

FOREWORD

This manual is one of a series produced by Cincinnati Public Schools as a part of a project to provide Career Exploration for students in grades 9 and 10.

It is designed to provide activities and information about an occupational area that will provide a more in-depth study than presented in Career Orientation in grades 7 and 8.

This is a tentative guide and has been developed for the purpose of field testing and revising based upon feedback from participating teachers.

This manual was developed by Miss Pat Breiner, Spanish and History Teacher at Aiken Senior High School. Jack Ford, an instructional consultant, conducted the curriculum development under the general supervision of Mr. Ralph E. Shauck, Coordinator of Instructional Services.

I. INTRODUCTION
A. Definition of Career Area

Many people persist in the belief that a person who wishes to follow a career in foreign languages must necessarily become either a translator or interpreter. This is a very limited view of the potential careers in foreign languages. Few people use foreign language to the exclusion of all other skills and knowledge, and it is this fact that is the key to countless job opportunities which utilize foreign language. To some occupations, foreign language is the major component (translator, interpreter, foreign language teacher, military interrogator or linguist), but even in these cases other skills in geography, political science, education, technological areas, or military science may be necessary. To other occupations, a foreign language background is a required component of the occupation. Foreign Service officers, customs officers, immigration officials, travel agents, airline stewardesses and pilots, and businessmen in the import-export business would all be included in this classification. It should be evident that foreign language study can be an important factor in gainful employment in the very diversified occupations mentioned above. In addition, increasing technological advancements will soon be contributing to more job opportunities in foreign languages. This career area includes occupations which either have the knowledge of a foreign language as a prime requisite or in which a background in a foreign language would be an asset. It also includes occupations devoted to contact with and increased communication with people of other nations. Skill in foreign languages are very helpful in these occupations.

B. Course Objectives

1. To impress upon the student the value of foreign language study as a means of reaching the goal of gainful employment.

2. To emphasize that the student's own abilities and interests in other fields are to be encouraged along with skills in foreign language so that, in the end, he will be prepared to use his language in a field that will be interesting to him (airline services, foreign service, teaching, etc.)

3. To explore specific occupational areas listed below which utilize a foreign language:
   a. Translator - Interpreter (including military and business uses of the field)
   b. Customs & Immigration Officials
   c. Foreign Service personnel (for State Department and other U.S. agencies such as Peace Corps, U.S. Information Agency)
   d. Teaching foreign languages (on all levels, elementary to college)
   e. Airline services (including pilot, stewardess, ticket agent, mechanic etc.)
   f. Travel agents (including tour directors and guides)
B. Course Objectives (Continued)

4. To use self-analysis quizzes and job information sheets to help the student select which career (of the ones listed above) he/she is most interested in, and to which he/she is best suited.

5. To have each student compile a class notebook of useful information to which he/she may refer in future years when he/she wants to apply for these jobs or when he simply needs guidelines in his/her own leisure travel or everyday life (i.e. how to apply for a passport, how to ship goods overseas, etc.).

6. To help students develop acceptable standards of behavior such as desirable personality, emotional control, dependability, responsibility and loyalty.

C. Course Strategy

1. Introductory Activities

   a. The introductory period has two goals: (1) to catch the students' interest immediately and (2) to provide the student with useful information in a travel-related experience which he may use later in his everyday life.

   b. Briefly, the introductory activities are: (1) a brainstorming session to discover and rate according to interest those careers which use a Foreign Language, (2) a simulation of the process of applying for a passport, (3) information-gathering from this simulation activity (information to be written down on a sheet provided to the students and put in student notebook for later reference), and (4) discussion of other documents needed for travel or for occupations in one of these international areas. (See the pages following this introduction for more detailed explanation).

   c. Two days is the suggested time needed to cover the introductory period.

2. Procedure

   After completing the introductory activities, the class as a whole should proceed through the six major learning activity units (listed above in #3 of "Course Objectives"), in order to give the student a background in all of the available fields.

   Having gained this background, each student should then have the opportunity to choose from among the many fields he/she studied the one which most interests him/her. Small group field trips should then be organized for individual students so that they can observe and investigate their own major interest area in more depth (i.e., a group of 4 students may be sent to observe a travel agent, 2 others may elect to go to the customs bureau, while others may go to the airport).
C. **Course Strategy** (Continued)

The student should keep a class notebook which should be collected and graded towards the end of the course. This is designed to help keep the student current with his class activities since he will be asked to add various class sheets and homework assignments to the notebook day-by-day. See the outline for student notebooks in the appendix of this bulletin.

A special experience being planned for students in every career exploration course is a small group "Exploration Trip." Effort has been made to make this as simple as possible for the classroom teacher. As noted in Appendix C-3 these trips may take place before the first class meeting if the exploration course is scheduled for the 2nd, 3rd, or 4th quarter.

3. **Evaluation**

The last exploration activity in this course will ask each student to participate in a "Self Evaluation of Career Maturity" and will provide each student an opportunity to analyze and discuss their career-related experiences.

Evaluation of each student should be based on how well he completes the objectives and learning activities of each unit. Individual teachers may choose to give quizzes or tests as they wish over the material to see how much was actually learned. In addition, the student notebook should give the teacher a final clue as to just how much effort a student put into the course and what grade should be assigned to him.

II. Career Exploration Activities

A. Where to Begin --

1. Resources essential to pupil activities: Many resources listed on the following pupil activity sheets must be made available in the classroom before the students can begin the activities noted. These essential resources are specified IN WORDS on each exploration activity worksheet. THEY MUST BE OBTAINED BY THE TEACHER IN ADVANCE OF THE CLASS MEETING.

Examples:

a. Films

If . . . the worksheet reads:

```
RESOURCES
Film: Code Blue (C-7)
```

Then . . . The teacher must look in Appendix C, Item 7 for catalog information so that this film can be ordered in time for this activity.

b. Material to be duplicated by the teacher for use in class.

If . . . the worksheet reads:

```
RESOURCES
See Analysis Quiz (B-4,5,6)
```

Then . . . The teacher must duplicate a class set of this item which is found in Appendix B as items 4, 5, and 6. Duplication can be achieved by Xerographing, generating a ditto master via photocopying with IBM 107 and Thermofax or retyping onto a ditto master.

2. Optional resources to be used for enrichment, supplements and student or teacher reference are described only in the Appendix.

If . . . the worksheet reads:

```
RESOURCES
C-8
```

Then . . . This indicates that for this activity there is a potentially useful reference described in Appendix C, Item 8. This reference item is not essential to the completion of the student activity.

EXPLORATION ACTIVITY (INTRODUCTORY)

Use of the D.O.T. (Dictionary of Occupational Titles) Number:

The D.O.T. lists 35,550 jobs with a code number for each. The last three digits of this code refer to the relationship of that job to data, people and things. This exploration activity provides the students some experience in using this information to identify jobs which match their interests.

STEP 2. Use the handout sheet titled "Examples of D.O.T. Code Usage" and make an estimate of the correct code to describe this job. Record this estimate in Table I.

STEP 3. Use Volume I or II of the D.O.T. and look up the D.O.T. code designation for each job. Compare these designations to your estimate.

### Note to teacher: Depending upon when this course is offered during the year, you may wish to make plans for the class to go to the International Folk Festival held annually at the Cincinnati Convention Center in November. Dates for 1973 are November 16, 17, 18. Reduced rates on tickets are available for students through Travelers' Aid (721-7660). Since the festival is held on a weekend, individuals would probably have to go on their own. It may be used as an extra credit project possibly.
Day 1 - Introduction

1. Pass out index cards to students to list name, address, phone, grade, homeroom, languages studied, resource people they may know (occupations of parents and friends), and specific areas of interest within the course (airlines, customs, etc.). In order to write down this last item, they will have to wait until after the brainstorming activity listed in No. 2 (below).

2. Brainstorm for various occupations connected with International Travel, Trade, and Communication (list these on board).

Suggested Possibilities:

A. Customs agents (Federal government job)
B. Immigration and Naturalization Agencies (Federal government)
C. Translators and Interpreters
   1. U.N. and international agencies
   2. U.S. government
   3. Private business (import-export and marketing firms, overseas management for U.S. firms, telephone industry, TV and radio communications industry)
   4. Scientific (work at universities and in business)
   5. Freelance
   6. Military interrogators, linguists, translators, interpreter
D. U.S. Foreign Service
   (numerous personnel at all levels: clerks, librarians, ambassadors, etc.)
E. U.S.I.A. (U.S. Information Agency)
F. International Philanthropic organizations
   1. H.O.P.E. (Health Opportunities for People Everywhere)
   2. Peace Corps
   3. CARE
G. Teaching
   1. Elementary
   2. Secondary
   3. College
H. Travel agents and consultants
   1. Large national firms (American Express, Thomas Cooke, etc.)
   2. Small independent agencies
   3. Head of own business
   4. Guides and tour leaders (also as guides in U.S. for foreign visitors -- check with state, local, and federal government agencies, Chamber of Commerce, and Traveler's Aid).
I. Ship personnel
   1. Pleasure liners
   2. Merchant marine personnel
Day 1 (Continued)

J. Airline services
1. Pilots
2. Flight attendants
3. Flight engineers
4. Airline mechanic
5. Air traffic controller
6. Air dispatcher (flight superintendent)
7. Reservations agent
8. Public relations agent
9. Sales representative
10. Ticket agent
(Also: Personnel representative, ramp agent, air freight agent, passenger service agent, district and operations station manager, district sales manager, instrument technician, airline maintenance inspector, ground radio operator, teletypist)

K. Miscellaneous (Foreign language stenographer, taxi driver, foreign language film editor and "dubber").

3. Have students indicate their first 5 choices to study out of the list on board (letters A-K) to get an idea of where the interest lies (put these results on board). Also have students list specific areas of interest (by number and letter and name on their cards: Cl-U.N. Interpreter, etc.)

4. Pass out duplicated copies of passport applications and explain what is needed to obtain passport (2 special size photos, proof of citizenship with seal, etc., $12.00 check or money order). Have them complete application forms. At home they should ask their parents to see their birth certificate if possible (does it have a seal?) and they should check on any information they are unsure of.

Day 2 - Introduction (Continued)

1. Distribute special information sheet to be filled in.

2. Check to see that passport applications are complete.
   Discuss birth certificates and proof of citizenship.
   Discuss oath on application form (how can you lose your citizenship?)
   Pass around a sample passport:
   - length of validity?
   - what is prohibited by it? (places? actions by user?)
   - mention theft of passports (why? what to do if it happens?)
   - what is a visa? (where obtained? what is it for?)
   Mention Health Card (pass around a sample and discuss the following)
   - what inoculations are needed?
   - how must it be stamped and cleared?
   - where? addresses?
   - length of validity?
   - what are some voluntary inoculations?
   Mention International Driver's License (pass around sample)
   - where available?
   - length of validity?
   - what things must you have to apply?

<tr>
<td>Importer-Exporter</td>
<td>(D.O.T. 185.168 - also includes import-export agents, 184.118 and foreign clerk, 219.488). Duties of all three jobs listed above include the shipping of U.S. merchandise to other nations and the receiving of foreign goods into the U.S. Whereas the clerk deals more in the paperwork of customs duties, documents, invoices, and the conversion of currencies, the agent schedules freight, acts, as a coordinator between transportation companies and foreign or domestic merchants, and oversees the workers and general process of shipping and receiving. The importer-exporter may travel extensively and deal in selling and buying of foreign and domestic goods. His job probably requires the greatest command of foreign language since he deals directly with foreign merchants.</td>

## TIME SCHEDULE: ACTIVITIES FOR DAY 3

### OBJECTIVES

Students will be able to:

1. Identify those interests and abilities most necessary to success in the field of translating and interpreting.

Use available resources to find and write down the qualifications, rewards, and disadvantages to the job.

Attempt to translate a foreign language (FL) passage on the basis of his knowledge of English words as well as the cognate contained within the passage.

### SCHEDULE: ACTIVITIES FOR DAYS 12 & 13

#### OBJECTIVES

1. **Write a sample informative article for “broadcast” over a simulated Voice of America Program.**
   - Participate in an assigned role (writer, editor, broadcaster) in a class simulation of a Voice of America Program.
   - Assess the value of programs presented in relation to the needs discussed previously (in previous lesson).

<td>b) After dividing the class in half, each half should set up its own staff of writers of international news (presenting the U.S. point of view), national news, cultural affairs, sports, etc. Every student writes a sample article (including those who are selected editors and broadcasters). Articles are reviewed by editors who decide which articles would be best and have the most priority for presentation on a 15 minute broadcast. Articles are returned to the writer for revision or cutting before broadcast. Broadcasters should help decide what order to present the articles in and should rehearse before going on the “air.”</td>

**Choose a current topic of interest to the airline industry and be able to discuss the issue factually, presenting all sides of the picture.**

**Note To Teacher:** The first part of the period on Day 26 may be devoted to a brief discussion of the magazine articles assigned on Day 23. However, if the panel discussions (below) are meant to include the articles, then this preliminary discussion may be omitted.

1. The class should be divided into groups or panels and either be assigned or allowed to choose one of the following topics for discussion (these should be assigned in advance to allow time for preparation):
   
   a) The Cockpit - A Place for Women?
   b) The Price of Flying High - Are Fares Fair?
   c) Hijacking - Penalties and Solutions?
   d) What to Do About Overcrowded Airports.
   e) Supersonic Transport - Now or Never?
   f) The Airport and Noise Pollution.
Airplane Pilot  (D.O.T. 196.283)

Flies various types of airplanes and jets to transport passengers, mail, and freight. Is responsible for overseeing the preparation of the flight plan, the loading of freight, and the fueling and maintenance of the craft before takeoff. He then also bears the responsibility of actually flying the craft and acting as the chief of the crew on that plane.

Airplane Stewards and Stewardess (D.O.T. 352.878)

Sometimes known as flight attendants, these people take care of the needs of passengers during the flight. They prepare and serve meals and beverages, give instructions in emergency procedures, and in general, care for the wants and needs of individual passengers.

In addition, some of the students may wish to consider careers in other aspects of airline service such as: Flight engineer, airline mechanic, air traffic controller, air dispatcher, reservations agent, ticket agent, public relations agent, sales representative. Information on all of these (and others) is available either in the D.O.T., from the airline companies, or from the Federal Job Information Center (in some cases).
### Objectives

On the basis of several films or slide presentations of foreign countries, select one area of particular interest to which the student would like to plan a trip.

Note: The actual planning of the trip is an activity which takes place in Exploration Activity #9, Travel Agents. However, the activity being used here is for the purpose of transition into the travel units on customs and travel agents. Also because of the fact that most students have a limited travel experience, they will need some type of basis (which the films should help provide) on which to select and plan their trip.

### Activities

1. View several travel films and/or slides of foreign countries. These should be selected with the idea of showing some of the major areas of travel (and the reasons for their popularity - either price, business, or sightseeing) as well as other less traveled places.

### Resources

1. Teacher may use several resources which are not listed specifically here because 1) there is a great abundance of material available and 2) so that the teacher may have some freedom in choosing the course.

**Suggestions:**

1. Teacher uses own pictures from their own travels abroad (most teachers teaching this type of course are well traveled themselves).

2. Teacher has other teachers or friends give travel presentations to class (in many schools, teachers with travel experience frequently volunteer to show their pictures to foreign language classes).

3. Contact airlines for travel films.

4. Use films from the Cincinnati Public Schools Audio-Visual Aid catalogue. Look under "Social Studies" in the pink pages index.

| Demonstrate the knowledge of current events in the customs field by summarizing (in writing) a magazine article read concerning that topic. | Note To Teacher: The first part of this day will be used for the quiz on "Custom Hints" and for discussion of the job information sheet.  

1. Each student selects (or is assigned) an article from the list of articles dealing with customs. Read the article and summarize it on an index card which will be handed in on Day 33.  

Suggestion: This assignment may be carried out by taking those students who are not involved in the activity on Day 33 to the library to read the articles while the others stay in class to rehearse their play (the latter group would then have to do the assignment outside of class or else be excused from it in lieu of the activity they are presenting on Day 33). This suggestion depends, of course, on whether adequate adult supervision is available for both groups. | 1. List of Magazine Articles (Customs). See Appendix "Section C Resources." | Play the role of either a customs inspector or a returning U.S. citizen in a simulated customs inspection. | 1. a) A few days in advance, the students are told to bring small hand baggage and items they might have packed in them. Teacher should bring a few restricted articles such as fruit plant material, or certain "expensive" merchandise.  

b) Also in advance, students should be assigned roles as either inspectors or passengers (inspectors might be chosen on the basis of high test scores on Customs Quiz the previous day - they would not have to bring any baggage for their role.)  

c) Passengers are given a few minutes in class to fill out a customs declaration and to re-pack their bags -- this time some of them may include some of the restricted articles in order to see the reaction of the inspectors.  

d) Passengers then pass through inspection presenting their papers and their baggage for inspection. Inspectors should inspect thoroughly and follow the instructions in "Customs Hints" regarding penalties for importation of restricted articles or assessment of duty on imports above the $100 limitation.  

e) Class discusses and evaluates the experience: How thorough were the inspections? Were the penalties and assessments fairly administered in accordance with the laws? Did the passengers know what to do and did they behave properly? | 1. a) Teacher will need to supply certain "restricted articles" as suggested here.  

c) Customs Declaration Forms (form B-6b in appendix). Teacher should duplicate copies in advance.

| 1. Either participate in or evaluate the presentation of a fictional customs experience in the form of the play, "The Customs Caper." | 1. a) Presentation of the play. "The Customs Caper" by members of the class for the remainder of the class. Depending upon the desire of the teacher students may choose to do this project either for extra credit or as regular class work in place of reading the magazine articles assigned on Day 31. Students should be encouraged to bring or make simple costumes and props where possible. Because of the short time available to work on the play, students will probably have to read the lines instead of memorizing them.  

b) A short discussion may be held after the presentation to evaluate the play. What customs violations were depicted? How could efficiency have been improved? How realistic do you think the play was in its presentation of a customs experience? | 1. 10-14 copies of the play "The Customs Caper" to be found in the March, 1971 issue of Plays (vol. XXX, no 6). Many schools subscribe to this periodical, but it is also available through the Children's section of many public libraries. Plays are royalty free and copies of the script are available at 25¢ a copy to subscribers (50¢ to non-subscribers). For more information, write: Plays, Inc. 8 Arlington Street Boston, Massachusetts 02116 |

In general, the duties of these various members of the Bureau of Customs (under the U.S. Treasury Dept.) include enforcing U.S. customs regulations by: A) the inspection of international travelers' baggage at U.S. ports of entry, B) overseeing the manufacture of foreign goods which are to enter the U.S., C) appraising the value of foreign goods, D) overseeing and inspecting the entry of foreign goods through the mails, E) regulating the shipping and receiving of all goods to and from the U.S. either by sea or air, and various other duties. Immigration inspectors are concerned primarily with people instead of articles; they determine the eligibility of a person to enter the U.S. according to his documents (such as passport, visa, etc.)

**Note:** Teacher should make assignment for Day 36 at this time.
**OBJECTIVES**

(Objective continued from previous day-see Day 34: 43)

Evaluate the important sights of the native city and be able to describe the important points of those sights to a person who is unfamiliar with the city.

**ACTIVITIES**

1. Students, having seen and discussed the slides of Cincinnati, will make up individual lists of possible questions that a tourist might ask about those sights (write 1 or 2 questions for each sight).

**Note:** The rest of the class time today will be devoted to:

a) discussion of the job information sheet

b) explanation of upcoming assignment on planning a trip.

c) individual or partner-type study for tour-guiding simulation (and testing) on Day 36.

**RESOURCES**

(See Appendix-form E-7b for "Guide to Planning A Trip" (a copy of these instructions should be given to each student-teacher should duplicate these copies in advance).)
### Objectives

(Objective continued from Day 35: 7/3) Evaluate the important sights of the native city and be able to describe the important points of those sights to a person who is unfamiliar with the city.

### Activities

1. Each student takes a turn describing 3-4 of the slides originally shown on Day 34. The teacher selects these slides at random without telling the students in advance which ones they will be describing. The student plays the part of a tour guide in describing these and in answering questions which the 'tour group' (classmates) ask from the list of questions they have drawn up on Day 35.

### Resources

1. See Day 34 for resource listing. Teacher should notify the resource center in advance that they will be keeping the slides for at least 3 days.

| Plan a mock trip. Responsibilities for all the details of calculating expenses, making reservations, arranging a daily itinerary, and taking care of other travel details is completed by the student. The complete outline for the requirements of this project are listed in the appendix in "Guide to Planning a Trip" (form B-7b). | 1. Each student will plan a foreign trip which will last from 10-15 days and which will visit at least 4 different foreign cities (points of departure and return in the United States are not counted -- more foreign cities may be added if desired). See appendix for complete details. This assignment should be made originally on Day 35. Days 37 to 42 are to be used to give class time to work on the project since materials will probably be limited and there will be a need to share. This project can be handed in in notebook form on Day 43. Or-if the teacher prefers and time allows, the trips may be presented in front of the class. | 1. Form B-7B: "Guide to Planning a Trip"

Teacher should attempt to gather in advance materials such as airline schedules (available from airlines offices), travel books (Frommers $5-a-day books are suggested or Fodor's Travel Series), and other travel information. Libraries are often good sources but frequently members of the faculty may have such books or guides listing hotels, sights, restaurants and such. See if these can be borrowed.
Travel Agents (D.O.T. includes Travel-Accommodation Appraiser, 168.268; Travel Clerk 205.168; Transportation Clerk, 242.368; Travel Counselor, 237.168)

Essentially, all of the above deal in various ways with those people who are traveling either for business or pleasure. They arrange transportation, make reservations with hotels, ships, or airlines for their clients, and may also act as counselors who advise on where to go, when to go, and how to go. Many may also serve as tour guides.
**EXPLORATION ACTIVITY #10**

**Individual Student Exploration into Related Careers.** Because of the multiplicity of careers in this occupational area, many have been left untouched in this curriculum guide. **EXPLORATION ACTIVITY #11**

*(2 Days Suggested)*

**Student Self Evaluation of Career Maturity**

This activity is planned to help the students analyze and learn to value their career-related experiences and the level of their career maturity.

Seven areas of growth and development which have been identified for this use are as follows:

1. Individual and Environment (Social Awareness)
2. Economics
3. World of Work
4. Education and Training
5. Employability and Work Adjustment Skills
6. Vocational Decision Making
7. Self (Self-Awareness)

</tr>
</tbody>
</table>

- Respond, in a purposeful and business-like manner, to one or more questions which ask the student to analyze their experiences in each of the developmental areas.
DEFINITIONS OF DEVELOPMENTAL AREAS

Individual and Environment (Social Awareness)

In this area of the student's development, the student must determine who he is and how he relates to his environment. He must be involved in experiences which will help him to determine his relative abilities to work with people, to manipulate tools, to sense his presence in his environment, and to comprehend laws of nature and the processes for behavioral advancements within his community.

The student will be involved with understanding his interests, aptitudes, achievements, temperament, his family peers, his society, and etc.

Economics

Students must learn to see themselves as a productive worker unit who supports his community through efficient positive efforts as a producer and consumer. He must learn that the money he receives for his work is an important factor in determining the behavior of his community through the way in which he spends his money; the way in which he is willing to work for his money; and how this spending gives direction to the use of raw materials for production and consumption of goods and services to be used in his community.

The student must learn what is meant by a fair day's pay for a fair day's work and the implied obligations between the consumers and producers.

World of Work

This area is concerned with the student's development of a method for collecting information about jobs. It also is concerned with the student developing an understanding of what behavior is required to do certain jobs.

Examples of job information include, in part, the following items:

- Job entry levels
- Performance activities
- Working conditions
Education and Training

The student must learn what behavior modifications (education and training) will be expected of him for certain jobs. In doing so he will learn the innate abilities he has and if these abilities can be developed to the level required to perform certain jobs he chooses for his vocation.

Students must learn which educational programs will help them to acquire the experience that will help them to develop the performance behavior required for certain jobs.

Employability and Work Adjustment Skills

This section is concerned with attitude strategies and the importance of the development of successful attitude strategies which are necessary for continued economic gains.

Students must learn how good attitudes are a contribution to their own adjustment and success as well as the success of their community. People are dismissed from their jobs more often because they cannot get along with people than they are because they do not have the skills for their jobs.

Vocational Decision Making

Students must learn a method for making decisions if they are to become employable and well adjusted citizens. They must learn to gather facts about themselves, jobs, and values and how to weigh this information to reach a conclusion as to what work they are able to do and what work they want to do.

Self

In this area the Self as subject is the major focus. Self as subject requires that the person's own feelings, perceptions and beliefs are dealt
with. This requires an internal orientation to the activities as opposed to the external orientation of activities for the other areas.

Seven topics are developed in the broad area SELF. These trace self-awareness, self-acceptance and self-affirmation of the child through interests, aptitudes and abilities, achievement and values and attitudes.
SAMPLE QUESTIONS FOR CAREER MATURITY

Listed on this page are sample questions related to areas of growth and development.

1. **Self and Environment**
   - What things have I done with any degree of success?
   - What things have I done that others have commended me for doing exceptionally well?

2. **Economics**
   - How much money have I earned?

3. **World of Work**
   - What jobs have I held? Describe them in detail.

4. **Education and Training**
   - What courses have I taken that would prepare me for an entry job position?

5. **Employability and Work Adjustment Skills**
   - What were the expectations of employers concerning the job I have held?

6. **Vocational Decision Making**
   - Where could I get additional information about jobs and careers?

7. **Self**
   - What are the things I really like to do?
   - What are the things that I don't like to do?

75
A. WHO MAY BE ISSUED A PASSPORT

A passport may be issued only to citizens or nationals of the United States.

B. USE OF THIS FORM

1. This application must be personally presented to and executed by (a) a passport agent; (b) a clerk of any Federal court; (c) a clerk of any State court of record or a judge or clerk of any probate court; or (d) a postal clerk designated by the Postmaster General. A wife or husband who is to be included in the passport must appear in person with the applicant and also execute the application. Unmarried children under the age of 18 years who are to be included in a passport application are not required to appear in person. An unmarried person who has attained the age of 18 years must obtain a passport in his own name.

2. Under certain circumstances, a person who is the bearer of a passport issued within eight years prior to the date of a new application and who can submit that passport with his new application, may apply for a subsequent passport by mail. A person who may be eligible to apply for a passport by mail may obtain from Form DSP-82, "Application for Passport by Mail," completed, and the offices listed in Section 1. Before completing the form, the applicant should carefully read the instructions on the reverse side to determine that he meets all of the requirements for obtaining a passport by mail.

C. PROOF OF UNITED STATES CITIZENSHIP IS REQUIRED OF APPLICANTS

1. Applicants Who Were Issued or Included in Passports Previously. A passport issued previously to an applicant or one in which he was included, shall be accepted as proof of United States citizenship. The applicant shall submit the passport with the application. If the passport cannot be submitted other evidence of citizenship should accompany the application to avoid delay in issuance of the passport. The previous passport or citizenship documents will be returned with the newly issued passport.

2. Applicants Who Are Applying for Their First Passport.

a. Citizenship by Birth in the United States. A native-born citizen shall present his birth certificate or, if not obtainable, his baptismal certificate or a certified copy of the record of baptism. Birth and baptismal certificates, to be acceptable, shall show that the birth or baptism was recorded shortly after birth. If such primary evidence is not obtainable, he shall submit a notice by appropriate authorities that no birth record exists and such secondary evidence as census records, newspaper files, family bibles, school records or affidavits of persons with personal knowledge of the birth. The birth or baptismal certificate must show the applicant’s given name and surname. If it does not, or if the name shown is not in agreement with the name as presently used, clarify by secondary evidence as shown above will be required.

All documents submitted as evidence of United States citizenship by birth shall include the place and date of birth of the applicant and bear the seal of the office, if this is customary, and signature of the person before whom such documents were executed or by whom they were issued. Evidence, except affidavits and altered or mutilated documents will be returned by the Passport Office to the applicant unless the case may require further investigation.

b. Citizenship by Naturalization. A person who claims United States citizenship by naturalization shall submit his certificate of naturalization with his application.

c. Citizenship Through Parent(s). If United States citizenship was acquired through naturalization of a parent or parents, or by birth abroad to United States citizen parent(s), the certificate of citizenship issued by the Immigration and Naturalization Service shall be submitted with the application. If such a certificate is not available, submit the following documents:

(1) When Citizenship Was Acquired Through Naturalization of Parent or Parents. Parent(s) certificate(s) of naturalization, applicant’s foreign birth certificate and evidence of admission to the United States for permanent residence shall be submitted with the application. If citizenship was acquired through the naturalization of a sole parent, the other having been an alien, also submit the divorce decree showing naturalized parent has custody, or the death certificate of the alien parent, when appropriate.

(2) When Citizenship Was Acquired Through Birth Abroad to United States Citizen Parent or Parents. A Consular Report of Birth (Form FS-240) or Certification of Birth (Form DS-1350 or Form FS-545) issued by the Department of State shall be submitted with the application. If neither of these is available, the foreign birth certificate, evidence of the United States citizenship of parent(s) and an applicant’s alien certificate of citizenship was acquired through naturalization or naturalization of parent(s) showing the periods and places of residence in the United States and abroad (specifying any periods in the Armed Forces of the United States) if United States citizen parent(s) were naturalized before birth of applicant shall be submitted.

d. Requirements for Women Married Before September 22, 1922, or Married to Aliens Ineligible to Citizenship Before March 3, 1943. Evidence is required for persons in these categories should be discussed with the person executing the application.

D. PHOTOGRAPHS

1. Number and Recency of Photographs Required. Two duplicate signed photographs taken within six months of the date of the application, portraying a good likeness of and satisfactorily identifying the applicant shall be presented with the application.

2. Signature on the Photographs. Both photographs must be signed on the front along the left-hand side without marring the features. The signature on the photographs must agree with the signature on the application.

3. Photographs for More Than One Person. A group photograph is preferred when a wife and/or children are to be included in a passport. When it is not feasible to submit a group photograph, separate photographs may be submitted.

4. Photographs May Be in Color or in Black and White. Passport photographs are acceptable in black and white or in color. Photographs retouched to a point where the applicant’s appearance is changed are unacceptable. However, those retouched merely to eliminate shadows and lines are acceptable.
5. Size and Quality of Photographs. The Passport Office welcomes photographs which depict the applicant as a relaxed and smiling person. Photographs shall be clear, full face, and shall be printed on thin, unglazed paper base with a light, plain background.

They shall not be smaller than 2-1/2 x 2-1/2 inches nor larger than 3 x 3 inches in size. Prints shall be capable of withstanding a mounting temperature of over 200 degrees Fahrenheit. Vending machine or acetate or film base prints are not acceptable because they may fade before the passport expires. Also, snapshots, magazine or full length photographs are not acceptable.

E. IDENTIFICATION

All applicants applying under Section B must establish their identity to the satisfaction of the person executing the application. This may be done in one of the following ways:

1. Personal Knowledge of Identity. If the applicant is personally known to the person executing the application no further identification is required.

2. Documents to Prove Identity. The following items are acceptable if they contain the signature AND either a physical description or a photograph of the applicant:
   a. Previous United States passport;
   b. A certificate of naturalization or of derivative citizenship;
   c. Driver's license (not temporary or learner's license);
   d. A governmental (Federal, State, Municipal) identification card or pass;
   e. Any temporary identity card or document;
   f. Any document which has been altered or changed in any manner.

3. Witness in Lieu of Documents. If the applicant is not able to establish his identity by personal knowledge or by one of the above items, he shall be accompanied by an identifying witness who has known him for at least 2 years and who is a United States citizen. The identifying witness shall sign an affidavit in the presence of the same person who executes the passport application. The affidavit shall show that the witness resides at a specific address; that he knows or has reason to believe that the passport applicant is a citizen of the United States; the basis of his knowledge concerning the applicant; and that the information set forth in the affidavit is true to the best of his knowledge and belief. The witness shall be required to establish his own identity to the satisfaction of the person executing the application by one of the above means.

F. PASSPORT FEES

1. Amount of Fee
   a. Execution Fee. A fee of $2 shall be paid to the person executing the application. The execution fee is not collected by Federal officials when the application is for a No-Fee type passport. No other fee except postage or necessary emergency charges should be paid.
   b. Passport Fee. The fee for a passport is $10.

Payment should be made payable to the Passport Office. Coin or currency should not be submitted with applications unless application is made at one of the Passport Field Agencies shown in Section B-1.

G. HOW TO AMEND A PASSPORT

A passport may not be amended to exclude the bearer. It may be amended at the request of the bearer to show a married name, to correct the descriptive data, or to include or exclude a wife or husband or any minor children. Form DSP-19, Application for Amendment of Passport, may be used for this purpose.

This form is required and must be executed before an authorized person noted in Section B-1 when an individual is to be included in a passport. A person may be included and excluded from a passport once only.

Forms DSP-19 are available from the offices noted in Section B-1.

H. IMMUNIZATION INFORMATION

The International Health Regulations adopted by the World Health Organization stipulate that vaccination against smallpox, cholera, and yellow fever may be required as a condition of entry to any country.

Most countries require entering travelers to possess a valid International Certificate of Vaccination against smallpox. In addition, some countries require travelers to possess valid cholera and/or yellow fever Certificates.

Details concerning recommended and required immunizations and prophylaxis, for travel to all areas of the world, may be obtained from your local or State health department.

Hours: 8:30 A.M. to 4:00 P.M.
Monday thru Friday Telephone: 684-2965

REQUIREMENTS

1. PROOF OF CITIZENSHIP BIRTH CERTIFICATE from Public Record. It must bear the IMPRESSION SEAL and SIGNATURE of issuing authority. It must also show what date the record was made. If it was not recorded within one year after the birth date, it then must also show the evidence that was submitted at the time it was filed.

Or one of the following:
   a. CERTIFICATE OF BAPTISM. To be acceptable the baptism must have occurred within one year of the birth, the certificate must bear the church seal and it must state the birth place.
   b. CERTIFICATE OF NATURALIZATION.
   c. Previously Issued U.S. PASSPORT.

2. PHOTOGRAPHS. TWO (duplicates) recently taken (not over six months old), on thin unglazed paper with a light background, SIZE 2 1/2 x 2 1/2 inches. When more than one person is to be included in a Passport, the photo should be in a GROUP and may be 3 x 3 inches.

3. IDENTIFICATION. Acceptable means of identification which bear the SIGNATURE and either a physical description or a photograph of the applicant are:
   a. VALID DRIVER'S LICENSE.
   b. U.S. PASSPORT or NATURALIZATION paper.
   c. ID cards issued by U.S. Gov't. or Companies issuing cards to employees.

If none of the above means of identification are available, the applicant must bring an IDENTIFYING WITNESS ALONG WITH HIM. (The witness must have the same type of identification.)

4. FEES. $12.00 in the form of a PERSONAL CHECK OF THE APPLICANT OR MONEY ORDER made payable to "Passport Office." A Check or Money Order is required. Cash is not acceptable as the fee is forwarded together with an application through the mail to the State Department, Washington, D.C.
ADDITIONAL INFORMATION:

Office hours are shown on the sheet attached. However, it may be noted that the best time to appear in person generally is during the period from 8:30 - 9:30 A.M.

Processing time varies. A maximum of up to 8 (EIGHT) weeks is possible during the extremely heavy season which occurs from March thru June. The minimum is approximately 3 (THREE) weeks during the period from September thru December. If emergency processing is required, it may be necessary to appear in person at the Dept. of State, Passport Office Washington, D.C. or one of its Agency Offices which are located in ten major cities.

Under certain circumstances a person who has been the bearer of a Passport issued within 8 (EIGHT) years prior to a new application, and can submit that Passport with his application, may apply for a new Passport by mail with the use of a special pink form # DSP-82.

HEALTH INFORMATION:

For information concerning necessary immunizations contact the office that is handling your tickets: (Travel Agent, Airline Office etc.) OR The U.S. Public Health Service Room 245 U.S. Postoffice Bldg., 5th & Walnut Sts., Cincinnati, Ohio 45202. Telephone 684-2115.

INSTRUCTIONS TO TRAVELERS

International Certificates of Vaccination or Revaccination are official statements verifying that proper procedures have been followed to immunize you against a disease which could be a threat to the United States and other countries. The Certificates are second in importance only to your passport in permitting uninterrupted international travel. THEY MUST BE COMPLETE AND ACCURATE IN EVERY DETAIL, or you may be detained at ports of entry.

When your itinerary is complete, you may obtain information on Immunizations required or recommended for foreign travel from your local or State Health Department.

How to Complete Your International Certificate of Vaccination:

1. Enter your name and address on the cover of the booklet before presenting it to your physician.

2. On the Certificate required for your travel, print your name on the first line; sign your name on the second line, indicate your sex; and indicate your date of birth in the following sequence: day, month, year. Example: June 1940.

3. Vaccination against smallpox and cholera may be given by any licensed physician in the United States. The physician completes his part of the Certificate, takes it to your local health department to be validated. Yellow fever immunization may be obtained only at a designated Yellow Fever Vaccination Center. The Certificate must be stamped with the official stamp of the Yellow Fever Vaccination Center.

4. It is your responsibility to have the Certificates validated with an "approved stamp." THE CERTIFICATES ARE NOT VALIO WITHOUT AN "APPROVED STAMP."

INSTRUCTIONS TO PHYSICIAN

INFORMATION REQUESTED ON EACH CERTIFICATE MUST BE COMPLETE FOR THE CERTIFICATE TO BE VALID.

1. The space for primary vaccination against smallpox is to be used only when a person receives his vaccination for the first time. If unsuccessful, a new Certificate must be used for a repeat primary vaccination.

2. The dates on each Certificate are to be written with the day in Arabic numerals, followed by the month in letters and the year in Arabic numerals. Example: 1 Jan. 1971.

3. Vaccinations may be given by nurses and medical technicians if under the direct supervision of a qualified medical practitioner. The physician's WRITTEN signature must appear on the Certificate; a signature stamp is not acceptable.

4. If smallpox vaccination is contraindicated on medical grounds, you should provide the patient with a written statement on your letterhead, signed and dated, indicating the nature of the contraindication.

5. Information concerning official immunization requirements for international travel and the location of Yellow Fever Vaccination Centers in your area may be obtained from your local or State Health Department.

NOTE TO TEACHERS RE: SELF ANALYSIS-TRANSLATING

This self-analysis survey should be given at the beginning of the unit on translating and interpreting. It may be helpful to read through the items together, in case the reading ability of some of the students is limited. After the student has completed the form, you should go back and emphasize the importance of the attributes in the left hand column to success in this field. Ask the student why they are important.
**SELF ANALYSIS: TRANSLATING AND INTERPRETING**

**Directions:** Check the line closest to the statement that identifies you. If you are uncertain, check the middle space.

NOTE TO TEACHER RE: JOB INFORMATION SHEET

This sheet should be filled out for each of the 6 major areas to be covered. The student should use available resources such as those listed in Section C1 of this appendix ("Resource Books for Students and Teachers") to complete the form on his own time. The results should then be discussed in class so that everyone can share their findings. Finally, the completed form should go in the student's class notebook for future reference. In areas where there are many jobs under one heading (i.e. "Airline Services"), let the student choose the one occupation which most interests him (pilot, stewardess, etc.)

SELF-ANALYSIS QUIZ

AIRLINE SERVICES
PROCEDURE FOR EXPLORATION TRIPS

SCHEDULE CONSIDERATIONS:

An opportunity is to be provided for students to visit cooperating organizations in small groups for a highly personalized and individualized experience directly related to their career interests. It is essential to minimize the burden on cooperating organizations and to distribute this burden among all community resources and throughout the school year. To accomplish this, trips must be scheduled from the beginning of the school year, and be evenly spaced during the year until every student has been accommodated. The students in a quarter length exploration class may, therefore, participate in an exploration trip prior to, during, or following the time that the course is in progress.

PROCEDURES:

Once each month, or even less frequently, the teacher will need to:

1. Place a single phone call to a cooperating organization to set the date and time for the trip.

2. Notify Mr. Jerome Cousins (Education Center, 230 East Ninth St.) of the date and time for the trip.

3. Select six students from the Career Exploration class list.

4. Send permission slips and trip report forms to the selected students via their homerooms.

Permission slips and report forms are illustrated on the following pages. These forms should be reproduced from this curriculum guide as required.

The career committee chairman or coordinator will provide you with a list of organizations which are known to be willing and able to accommodate your students. Addresses, phone numbers and names of persons to contact will be provided.
NOTICE OF BAGGAGE LIABILITY LIMITATIONS

Liability for loss, delay, or damage to baggage is limited as follows unless a higher value is declared in advance and additional charges are paid: (1) For most international travel (including domestic portions of international journeys) to approximately $8.16 per pound ($18.00 per kilo) for checked baggage and $3.60 per passenger for unclaimed baggage; (2) For travel wholly between U.S. points, to $500 per passenger on most carriers (a few have lower limits). Excess valuation may not be declared on certain types of valuable articles. Carriers assume no liability for fragile or perishable articles. Further information may be obtained from the carrier.

IMPORTANT RECONFIRMATION NOTICES

If you break your journey for more than 72 hours at any point, please reconfirm your intention of using your continuing or return reservation. To do so, please inform the airline office at the point where you intend to resume your journey at least 72 hours before departure of your flight. Failure to reconfirm will result in the cancellation of your reservation.

If your journey is wholly within Europe, this notice does not apply to you.

JOURNEYS WITHIN CANADA/USA.

Contact the carrying airline for the applicable requirements.

ADVICE TO INTERNATIONAL PASSENGERS ON LIMITATION OF LIABILITY

Passengers on a journey involving an ultimate destination or a stop in a country other than the country of origin are advised that the provisions of a treaty known as the Warsaw Convention may be applicable to the entire journey, including any portion entirely within the country of origin or destination. For such passengers on a journey to, from, or with an agreed stopping place in the United States of America, the Convention and special contracts of carriage embodied in applicable tariffs provide that the liability of certain carriers, parties to such special contracts, for death of or personal injury to passengers in the event of their death or personal injury in most cases to proven damages not to exceed U.S. $75,000 per passenger, and that this liability up to such limit shall not depend on negligence on the part of the carrier. The limit of liability of U.S. $75,000 above is inclusive of legal fees and costs except that in case of a claim brought in a state where provision is made for separate award of legal fees and costs, the limit shall be the sum of U.S. $58,000 exclusive of legal fees and costs. For such passengers traveling by a carrier not a party to such special contracts or on a journey not to, from, or having an agreed stopping place in the United States of America, liability for death or personal injury to passengers is limited in most cases to approximately U.S. $9,000 or U.S. $18,000.

The names of carriers, parties to such special contracts, are available at all ticket offices of such carriers and may be examined on request.

Additional protection can usually be obtained by purchasing insurance from a private company. Such insurance is not affected by any limitation of the carrier's liability under the Warsaw Convention or such special contracts of carriage. For further information please consult your airline or insurance company representative.

NOTICE

If the passenger's journey involves an ultimate destination or stop in a country other than the country of departure the Warsaw Convention may be applicable and the Convention governs and in most cases limits the liability of carriers for death or personal injury and in respect of loss of or damage to baggage. See also notice headed "Advice to International Passengers on Limitation of Liability."

GUIDE TO PLANNING A TRIP

Specifications:

1) Trip should be from 10-15 days in length

2) Trip should visit no less than 4 major cities of a foreign country or countries (points of departure and arrival in the U.S. are not counted, such as New York, Boston, Los Angeles, etc.)

3) Arrange for the following items:

a. air transportation to and from destination
   - find out which carriers go where you want to go
   - find out price of ticket (roundtrip from Cincinnati) and time schedule
   - write up air tickets

b. transportation within and between the cities you visit
   - calculate price of transportation between cities (whether by air, bus, train, ship, or rented car)
   - where possible, arrange a time schedule

c. hotel reservations
   - choose hotels and calculate costs (remember to multiply the cost per night times the number of nights you plan to stay; also, if the price stated is for a double room, remember that, if you are traveling with someone, your cost is only half of that)

d. restaurants and meal costs (where will you eat and how much will it cost)

e. daily itinerary (what you plan to do or see each day, when in the day you'll see it, and how much it will cost)

f. what to pack (make a list of what you will take)

g. what you want to buy to bring home (where possible) and how much money you plan to spend on "souvenirs"
C. Resources
The following resources are available in either the school library or from one of the vocational counseling offices (at Aiken High School see Mr. Bert Mason)

**Dictionary of Occupational Titles (D.O.T.)** 1965 2 volumes
put out by U.S. Dept. of Labor
1st volume is most useful - has job descriptions

**Desk Top Career Kit** (better known as Largo Kit)
"Careers" Largo, Florida

**Encyclopedia of Careers and Vocational Guidance** ed. William E. Hopke 2 volumes.
Volume 1 - has broad description of career fields (i.e. "Air Transportation")
Volume 2 - deals with specific occupations (i.e. "Pilot," "Stewardess")

**Handbook of Job Facts** ed. Carole J. Lang (better known as the S.R.A.)

**SPECIFIC**

Krosney, Herbert and Mary Stewart. Careers and Opportunities In International Service. New York, 1965.†
Harrigan, Lucille. Opportunities in Foreign Service. New York, 1953.†

* Available in Aiken High School Library
† Available in Cincinnati Public Library (downtown branch)

Note: Any of these titles may be found in other libraries as well; they are listed here only for the libraries where there are actual known to exist.

CAREERS IN INTERNATIONAL TRADE, TRAVEL, AND COMMUNICATION

Miss Breiner, Period 2
Date

Date due: ____________________
Table of Contents

I. Getting Ready to Go! (Passport & Travel Information Sheet) ...
(Note to Teacher: See form provided in this appendix)

II. Careers in Translating and Interpreting
   A. Job Information Sheet
      (Note to teacher: Once again a form is provided for this; the
student should complete one of these for each of the six areas
covered)
   B. Self-Analysis Sheet
      (Note: See form provided in this appendix; there should be one
filled out for each of the six career areas)
   C. Report of Magazine Articles
      (Note: This section may only be applicable in some of the 6
career areas)
   D. Sample Application Form
      (Note: These may only be available in some of the six career areas)
   E. Field Trip Report
      (Note: A form is provided in the appendix; this section of the note-
book may vary from student to student. If small group field trips
are used, some students may have had a field trip in translating,
while others visited airlines)
   F. Extra Credit
      (Note: This section may be included if the student wants. It is
mentioned here as a help to the teacher, because it could help to
determine the A's from the B's or C's when quarter grades are made
out. News clippings or extra reports may be included here as
well as other material).

(Each of the following sections will include Parts A & B and possibly
parts C, D, E, F)

III. Careers in Foreign Service
IV. Teaching Foreign Language
V. Careers in Airline Services
VI. Careers As Customs and Immigration Officials
VII. Careers in Travel Agencies

Note to teacher: You may also wish to have the students add additional pages
concerning reports on speakers, films, etc. or you may wish
to let the students do such things as extra credit. A num-
ber of forms and worksheets are included in Section B of
the appendix for use in class; these may be included in the
notebooks if the teacher desires.
PROCEDURE FOR EXPLORATION TRIPS

SCHEDULE CONSIDERATIONS:

An opportunity is to be provided for students to visit cooperating organizations in small groups for a highly personalized and individualized experience directly related to their career interests. It is essential to minimize the burden on cooperating organizations and to distribute this burden among all community resources and throughout the school year. To accomplish this, trips must be scheduled from the beginning of the school year, and be evenly spaced during the year until every student has been accommodated. The students in a quarter length exploration class may, therefore, participate in an exploration trip prior to, during, or following the time that the course is in progress.

PROCEDURES:

Once each month, or even less frequently, the teacher will need to:

1. Place a single phone call to a cooperating organization to set the date and time for the trip.

2. Notify Mr. Jerome Cousins (Education Center, 230 East Ninth St.) of the date and time for the trip.

3. Select six students from the Career Exploration class list.

4. Send permission slips and trip report forms to the selected students via their homerooms.

Permission slips and report forms are illustrated on the following pages. These forms should be reproduced from this curriculum guide as required.

The career committee chairman or coordinator will provide you with a list of organizations which are known to be willing and able to accommodate your students. Addresses, phone numbers and names of persons to contact will be provided.
CAREER EXPLORATION TRIP PERMISSION FORM

You are scheduled for ______________________ (Career Course Title) which meets 1-2-3-4 quarter. Exploration trips will be scheduled throughout the year regardless of whether the course is in session.

FIELD TRIPS IN CAREER DEVELOPMENT

General Student Needs

1. Field trips commonize the background of the students so that there is a basis from which to develop a strong well-rounded instructional program.

2. Because the student is so far removed from his potential career, he needs a broad understanding and exposure to work.

3. Broad off-school-site experiences build readiness for learning by demonstrating that basic skills are essential to a productive work life.

4. To thoroughly understand a career, the student needs to see the job first hand.

5. Students may not realize all the implications/facets of an occupation in terms of personal interests until they have an exposure to the worker in action.

6. Omission of hands-on experiences may cause a lack of credibility in those courses taught, in the upper levels.

7. While field trips benefit the student, they also benefit the teacher, who, without their assistance, is required to serve as expert on the details of many careers which are not necessarily related to his own specialty.

8. Field trips, when used correctly, can be a source of creating better communication and understanding between business, labor and industry in the community and the school.

Specific Student Needs

Field Trips will do the following:

1. Develop an appreciation/awareness that an individual's skills, talents and senses are used in a variety of ways.

2. Develop an awareness of the importance of responsibility and attitude for one's work.

3. Encourage the development of communication skills. Broad off-school-site experiences demonstrate need and provide motivation for skill learnings.

4. Develop an awareness of the interdependence of the student and all workers.

5. Develop an awareness that there are many people who have different responsibilities in business, labor and industry.
1. The local administrator is responsible for observance of the guidelines by participating staff members.

2. The local administrator should take responsibility for appointing a person to finalize field trip arrangements.

3. There should be planning of each trip well in advance.

4. Teachers should make field trip plans in consideration of/consultation with other teachers who have a teaching responsibility for the pupils.

5. For the convenience of the faculty, field trip information should be given out several days in advance including destination, length of time out of school, and students participating.

6. The teachers should be aware/appreciative of the expense of the trip to the business or industry in relation to the time spent hosting visitors.

7. Teachers should justify the trip in relation to their instructional program.

8. Teachers who desire to take a particular field trip should plan the trip together, although they may not go together.

9. The faculty of each school may prepare a list of meaningful walking trips utilizing the resources of the local community.

10. After the arrangements have been made, and before the trip, there should be communication between the teacher and the contact person at the place where they are going to clarify teacher expectations.

11. Students should be adequately supervised not only for their safety, but to minimize the interruption to business or industry.

12. There should be well planned pre- and post-activities for each trip.

13. After each trip, there should be a note of appreciation to the business or industry. The teacher may communicate the extent to which expectations were met.

14. A follow-up report concerning the value of the trip and results relating to the specific reason for the trip should be submitted to the administrator/coordinator.

15. Identify the businesses and industries of the Cincinnati community that have only one representative (i.e. the phone company) and those businesses and industries that have multiple representatives in this community (i.e. bakeries, garages).
16. To avoid overloading of limited field trip sites, and to maintain privileges, it is necessary to clear requests for these trips through a central clearing office to be designated by Jack Ford.

17. Teachers may build a list of trips and experiences that parents could provide for their children outside of school hours.
