The guide is one of a series developed in a pilot project to integrate career education concepts with subject matter in secondary grades. The units are designed to reveal career orientation aspects of traditional topics within five major subject areas: English, social studies, mathematics, science, and health and physical education. The lesson plans are presented in brief outline form, but activities range from those of short duration to several weeks. All provide broad objectives, performance objectives, lesson procedures, and materials and resources in all media. The units in social studies directed to grades 8-12 cover armed services, housing, archeology, advertising, anthropology, geology, history, government, environment, the stock market, consumer education, agribusiness, saving money, international service, courts, labor organizations, transportation, marine science, cartography, business, banking, and income tax. (MDW)
INTRODUCTION TO SECONDARY CAREER EDUCATION ACTIVITIES

The Career Education Program of the Radford City Schools is a pilot project of research and development for career education techniques and materials. It is funded through a grant from the United States Office of Education which extends until December 14, 1974.

The activity approach was utilized to implement career education concepts on the secondary level. The activities were developed in five major subject areas which include Mathematics, English, Science, Health and Physical Education and Social Studies.

The intent of the activities is to assist in re-focusing traditional subject matter content to the extent that career orientation evolves as the original content is presented.

Some career activities are short in duration while others may consume several weeks.
GRADE: 8
SUBJECT: HISTORY

BROAD OBJECTIVES:

1. To help students explore the various careers in banking and related areas.

2. To enhance the students understanding of the world of money and the banking institution.

PERFORMANCE OBJECTIVE:

To help the student understand the following:
- interest
- checking account
- savings account
- loans
- other banking practices

LESSON PROCEDURE:

The class will be divided into groups, covering all the areas of banking. The class will create, as much as possible, materials needed to operate a bank. Each student will research his or her area of the banking world and either orally or written relate it to the class.

Various filmstrips, speakers, and books will be used to enhance the learning experience.

MATERIALS AND RESOURCES:

Books:

Basic Text:

Kits:

Modern Consumer Education. Grolier Educational Corp., 1970.
MATERIALS AND RESOURCES: (Continued)

Filmstrips:

Money Management. BPA Educational Media, Santa Monica, Cal., 1968.

Speakers:

Various Occupational Specialists.
RADFORD CITY SCHOOLS CAREER EDUCATION PROGRAM

'CITY GOVERNMENT"

GRADE: 8
SUBJECT: HISTORY

BROAD OBJECTIVES:

1. To foster learning in the various public service careers in city government.
2. To enhance the students knowledge of governmental operations and how their own city operates.

PERFORMANCE OBJECTIVES:

1. To help the students locate geographically the locations of city offices and buildings.
2. To help the students understand the various responsibilities and duties of city employees.

LESSON PROCEDURE:

Each student will be assigned at least one city official or department to research. The student will show on the city map the location(s) of the department. Other items of research will be included as necessary.

MATERIALS AND RESOURCES:

Books:

Kit:

Filmstrips:

Map:
City of Radford

MATERIALS AND RESOURCES: (Continued)

Speaker:
Various Occupations
RADFORD CITY SCHOOLS CAREER EDUCATION PROGRAM

"SAVING MONEY"

GRADE:  8
SUBJECT:  SOCIAL STUDIES

BROAD OBJECTIVE:
To orient students to the importance of and the various ways to save money.

PERFORMANCE OBJECTIVE:
The student will be able to give the advantages and disadvantages of various ways of saving money and be able to describe the jobs of one involved in these areas in terms of educational requirements, hours, advancement and salary.

LESSON PROCEDURE:
1. Class discussion on money - why it has value, the fluctuation of buying power and importance of saving.

2. List ways to invest money.

3. Free choice for individual research.

4. Paper to be written on research accompanied by list of sources of information. May be from books, filmstrips, tapes, personal interviews or any other reliable source.

5. Oral reports, skits, etc. to be presented to entire class - may be accompanied by charts, filmstrips, tapes, speakers, etc.

MATERIALS AND RESOURCES:

Text:

Books:

Audio and Visual:
"Banker". Career Division Laboratory TM. (Tape)
MATERIALS AND RESOURCES: (Continued)

Audio and Visuals:

"Money and You - Banks". Avid Corp. Filmstrip & Record
Filmstrip and Record
"Insurance". Western Tapes; Ed. Products Co.
"Stock Broker". Career Division Laboratory. Tape

Resource People -- Interviews:

Insurance Agent
Stock Broker
Banker
Member of Credit Union
Real Estate Agent
Jeweler
Art Collector
Antique Collector
GRADED: 8
SUBJECT: SOCIAL STUDIES

BROAD OBJECTIVE:
1. To orient the student with the area of consumerism.
2. To orient the student with the occupational world.

PERFORMANCE OBJECTIVE: (As A Consumer)
1. Help the student manage money.
2. Help the student understand the role of a provider.
3. Help the student understand modern buying habits.
4. Help the student understand his role in economics.

PERFORMANCE OBJECTIVE: (As A Worker)
1. Help the student manage an occupation.
2. Help the student to understand why and how to keep proper records.
3. Help the student understand profit and loss.
4. Help the student understand occupational requirements.
5. Help the student understand such things as: overhead expenses, insurance protection, and other occupational terminology.

LESSON PROCEDURE:
Each student plays a dual role of consumer and worker. Students can work together in groups of two in a business, but each one must maintain his own consumer role. Each student is to begin with an occupation of his choice which will make him self-sustaining in the classroom. Students have to purchase the following before the close of the exercise: house, car, insurance on car, heat, food for all year, gas for all year, and clothes for all four seasons of the year. It is also recommended that students purchase the following: luxury item, plan a vacation, and insurance on all belongings and person.

Each student will have the following to begin the exercise: $1500 in play money, all occupational needs and products, and a house, which he must sell. The students will have a folder in which they will keep all their related material.
LESSON PROCEDURE: (Continued)

Each student should contact someone in their occupational area before the exercise begins. This will give the student insight into the requirements and responsibilities of their respective occupations.

The exercise will involve sixteen school days.

Evaluation of each student will be based upon the following: preparedness each day, records of each student, fulfillment of requirements, product displays, and money management.

MATERIALS AND RESOURCES:

Modern Consumer Education. Grolier Educational Corporation, New York, New York.

Resource People:

Resource people in various occupations.
GRADE: 8
SUBJECT: HISTORY

BROAD OBJECTIVES:

1. To evaluate careers in advertising.
2. To enhance the students understanding of the purpose, means, and impact of advertising on the American way of life.

PERFORMANCE OBJECTIVE:

To help the student understand the following:

- why advertise
- types of advertising
- false or misleading advertising
- how to advertise

LESSON PROCEDURE:

Students will work in pairs, and they will create a product to sell to the class. Various filmstrips, speakers, and books will be used to supplement the learning activity.

MATERIALS AND RESOURCES:

Campbell, Hannah. Why Did They Name It.......? Fleet, 1964.

Tape:

Filmstrips:

Kits:

GRADE:  8
SUBJECT:  HISTORY

BROAD OBJECTIVES:

1. To help the student explore the various career opportunities in the armed services.

2. To help the student understand the volunteer army as opposed to the draft system.

PERFORMANCE OBJECTIVE:

To help the student understand the following:
- the new armed forces
- the old draft system
- why an armed service
- costs and sources of armed forces
- responsibilities of each citizen in regard to America’s armed forces

LESSON PROCEDURE:

By the use of textbooks, filmstrips, discussion, and various speakers, the student will investigate the realm of the armed forces.

MATERIALS AND RESOURCES:

Books:

Kits:

Pamphlets:
Various pamphlets from recruiting offices.
MATERIALS AND RESOURCES:  (Continued)

Speaker:

Occupational specialists

Basic Text:

GRADE: 8
SUBJECT: HISTORY

BROAD OBJECTIVES:

1. To help the student evaluate the various careers in home construction.

2. To enhance the student's knowledge in the historical development of the American home.

PERFORMANCE OBJECTIVES:

1. To help the student understand how a home is built, and who is involved.

2. To help the student understand why more people are needed to build a home today.

LESSON PROCEDURE:

Students will work in groups to construct a model home from a certain period of history, in which they will relate to the class what is used in building it and why.

As each period of history is covered, the students will understand how inventions have helped the homeowner.

A building contractor will be used to enhance learning in class.

GRADES: 9
SUBJECT: WORLD HISTORY AND/OR GEOGRAPHY

BROAD OBJECTIVES:

1. To orient students to the ways in which we have learned about prehistoric and early historic societies.
2. To explore careers in anthropology.

PERFORMANCE OBJECTIVES:

1. The student will be able to assess the contributions made by anthropologists to our knowledge concerning early man, modern primitive civilizations, and modern man.
2. The student will be able to describe the occupations of anthropologists in terms of educational requirements, methods and places of work, advancement possibilities, and approximate salaries.

LESSON PROCEDURES:

1. Class discussion relating to man and how we have obtained information about early man, his contributions to civilization, and his relationships to modern man.
2. Discussion specifically related to anthropology.
3. Free choice for individual research.
4. Oral or written reports. Oral reports may incorporate pictures, statistics, etc.
5. Filmstrips, films and other audio-visual materials.
6. Outside speakers to be invited either by instructor or students.
7. Field trips where applicable.

RADFORD CITY SCHOOLS CAREER EDUCATION PROGRAM

"PROFESSIONAL OCCUPATION: HISTORIAN"

GRADE: 9
SUBJECT: WORLD HISTORY AND/OR GEOGRAPHY

BROAD OBJECTIVES:

1. To orient students to the role of the historian as a contributor to our store of information about society.

2. To explore careers related to the historian.

PERFORMANCE OBJECTIVES:

1. The students will be able to evaluate the contributions made by the historian to society and to appreciate sound, unbiased information.

2. The students will be able to describe the occupation of a historian and the related fields in terms of opportunities, educational requirements, methods of study and research, and remuneration, both tangible and intangible.

LESSON PROCEDURE:

1. Class discussion relating to history and how we have obtained this information.

2. Use of books, tapes, career summaries, films and other available materials for individual study.

3. Use of a simulated situation whereby the student may evaluate and record data in the manner of the historian.

4. Use of resource persons in the field.

MATERIALS AND RESOURCES:

1. Books:

2. Career Summaries:

   "Historians".  SRA Occupation Brief, 1972.
MATERIALS AND RESOURCES: (Continued)

3. **Miscellaneous:**

   Any materials the instructor may wish, to establish a simulated situation for evaluating historical material. This may be past or current.

4. **Resource People:**

   Historian
   Museum Curator
GRADE: 9
SUBJECT: WORLD HISTORY

BROAD OBJECTIVE:

1. To orient students to the ways in which we have learned about pre-historic societies.

2. To explore the careers of archeology, anthropology, and geology.

PERFORMANCE OBJECTIVE:

1. The student will be able to assess the contributions made by archeologists, anthropologists, and geologists to our knowledge concerning early man.

2. The student will be able to describe the occupations of these three scientists in terms of educational requirements, methods and places of work, advancement possibilities, and approximate salaries.

LESSON PROCEDURE:

1. Class discussion relating to the contributions of early man and how we have obtained this information from pre-historic times.

2. Discussion specifically relating to archeology, anthropology, and geology.

3. Free choice for individual research.

4. Oral or written reports. Oral reports may be accompanied by pictures, statistics, filmstrips, tapes, etc.

5. Outside speaker to be invited either by instructor or student.

6. Incorporate role playing of various professions that relate to archeology, anthropology, and geology.

"CAREERS IN MASS TRANSPORTATION"

GRADE: 11
SUBJECT: U. S. HISTORY

BROAD OBJECTIVES:

1. To examine the need to establish and maintain mass transportation systems to conserve energy. (fossil fuels; oil, gas, coal)

2. To explore mass transportation today and be aware of career opportunities in these fields. (Railroad, air, water, bus, truck)

PERFORMANCE OBJECTIVES:

1. To become aware of the enormous consumption of energy in single vehicle conveyance as compared with mass transportation.

2. To understand the role of government, past and present, in mass transit systems.

3. To recognize the various occupations relating to training requirements, advancement, and salaries.

LESSON PROCEDURE:

1. Filmstrip: Transportation, Horseback to Jet.
2. Discussion - energy crisis - costs.
3. Independent study. (Choice)
4. Oral and written reports.
5. Resource people.
6. Use of newspaper.
7. Library study.
9. Identify occupations - educational and training requirements, salaries.

"CAREERS IN AGRIBUSINESS"

GRADE: 11
SUBJECT: U. S. HISTORY

BROAD OBJECTIVES:

1. To explore this gigantic field of production; supplies and services; mechanics; product processing, storage; and marketing.

2. To become aware of occupations in this most important business and the educational and job requirements, as well as earnings in the many sectors.

PERFORMANCE OBJECTIVES:

1. The student would be able to access that the present U. S. boom in farming is largely due to bad weather in many parts of the world, and also because of devaluation of the dollar.

2. To be aware of the fact that our government uses agriculture as a major point in diplomatic and trade negotiations.

3. Will recognize that present federal government policies of subsidies and price supports are not needed to restrain production.

LESSON PROCEDURE:

Class discussion on Cost of Food.
View filmstrip on The Farm Question.
Free choice of research.
Oral or written reports.
Resource person from the area.
Film: Foreign Marketing.
Filmstrip: Environmental Career.
Identify careers, requirements, training.
