Funded by Title I of the Elementary and Secondary Education Act (Migrant Education), the Colorado Migrant Child Identification and Recruitment Project (CMCIRP) identifies and enrolls all migratory children in the State in educational programs. Regional field representatives also refer the migrant family to all social service agencies serving the family. In order to meet the National Goals for Migrant Education, CMCIRP developed and implemented a systematic management system to identify migrant children not currently involved in or attending migrant education classes. The system provides intra and interstate communications for exchange of information on student movement. Designed to assure complete accountability of the State's migrant students in order to document information regarding the number of migrants and their locations within the state, CMCIRP provides such services as identifying those local educational agencies that need to establish migrant education programs to meet the migrant's needs. This allows the State and local educational agencies to develop planning procedures for the necessary educational programs appropriate in all areas where migrant children are located. This guide discusses CMCIRP's personnel and their responsibilities, forms which need to be kept, personnel procedures, and administrative policies. (NQ)

INTRODUCTION

COLORADO MIGRANT EDUCATION
AND
COLORADO MIGRANT CHILD
IDENTIFICATION AND RECRUITMENT PROJECT

Since 1953 the state of Colorado has provided educational programs to children of migratory agricultural workers. Based on this history of involvement in behalf of migratory children's education, Colorado is recognized nationally as a leader in the field of migrant education.

In 1966-67, Public Law 89-750, an amendment to Public Law 89-10, Title I, ESEA, allowed Colorado to utilize federal funds to expand migrant education programs. Thanks to a team effort by the U.S. Office of Education, the Colorado Department of Education and school districts in Colorado, today forty-two school districts in the state sponsor migrant education programs.

To assure an equal educational opportunity for migratory children, as well as to maintain their educational progression, the Colorado Migrant Education Program has undertaken to identify and enroll all migratory children in the state’s educational programs.
In order to accomplish this goal, the Colorado Migrant Child Identification and Recruitment Project (CMCIRP) has been implemented. Funded by Title I, ESEA, Migrant Education, CMCIRP employs regional field representatives to serve the migrant child throughout the state.

Regional field representatives work with all school districts in the state to identify and enroll migratory children in school. Moreover, like family contact representatives employed by school districts sponsoring migrant education, they refer the migrant family to all social service agencies that serve the family. But their primary aim is to ensure that the children secure an education.

In order to meet the National Goals for Migrant Education, CMCIRP has developed and implemented a systematic management system to identify migrant children who are not currently involved in or attending migrant education classes. Furthermore, the system provides intra and inter-state communications for exchange of information on student movement. This project is designed to assure a complete accountability of migrant students in this state in order to document information regarding the number of the target population and their locations within the state.
The Colorado Migrant Child Identification and Recruitment Project provides services such as identifying those LEAs that need to establish migrant education programs to meet target population needs. This allows the SEA and LEAs to develop planning procedures for the necessary educational programs appropriate in all areas where migrant children are located. Through uniform or systematic procedures in identification and recruitment, migratory children are placed in the state's educational programs. This further guarantees that all migrant children are identified on the Migrant Student Record Transfer System.

B. All contributions paid by the employee remain to his or her individual credit and are refunded if and when the employee leaves the public school service in the State of Colorado.
CONFLICT OF INTEREST

Employees are required to work a forty-hour week. Given this condition, employees are responsible for full-time employment. For an employee to hold down another job at the same time, shall be considered conflict of interest.

PROBATION

Should an employee be found to engage in several or repeated violations of policies and procedures, the director may find it necessary to place that employee on probation for the remainder of her or his contract year.

Should the employee believe the probation to be unwarranted, she or he may appeal to Weld BOCES director and the Cooperative Board. They, in turn, can decide whether probation is warranted.

VEHICLE USAGE

Since personnel must rely upon personal vehicles for job performance, during working hours only authorized school or agency personnel as well as migrant parents and children are to be conveyed.
Direct supervision of seasonal field representatives rests with regional field representatives (RFRs). Overall, supervision rests with director and assistant director of CMCIRP.

It is important to keep above surveying strategy at hand for ready reference when individuals inquire about seasonal field representative positions. Latter applicants will have to be apprised of what regions by county they will be required to survey under Regional Field Representative supervision, when interviews are conducted.

Seasonal field reps, like regional field reps, will be required to submit reports weekly. Daily logs, weekly schedules, etc. from seasonal field reps will be submitted each Friday to regional field reps. In turn, copies of these reports will be mailed to Central Office.

Office space for seasonal field reps: Since territory to be covered is so extensive, seasonal field reps will not need new housing agreements. Rather, regional field rep offices will serve as bases of operation for seasonal field reps.

Regional field reps will be required to maintain supervisory reports on SFRs.
PROFESSIONALISM

Since Project inception, cardinal principles to be abided by have included maintenance of composure and non-criticism of individuals and agencies or schools which employ them. Furthermore, and in view of the regionalized nature of CMCIRP, it becomes all too easy to make a decision on one’s own which possibly could backfire and result in repercussions. When in doubt: Never hesitate to call CMCIRP Central Office to discuss a possible course of action. CMCIRP Director and Assistant Director will gladly assist however possible in arriving at field decisions. An important decision made independently by a field representative, be it related to a child, family, school, agency, or farm without consultation with CMCIRP Central Office, could effect the entire Project, possibly adversely.

CMCIRP is the pilot project for Identification and Recruitment Programs in the West. The example its personnel sets should, in all cases, be exemplary.

It is crucially incumbent upon all CMCIRP personnel to adhere to professional standards that can but reflect favorably on CMCIRP.

As in any employment or professional situation where ethics, policies and procedures are involved, Colorado Migrant Child Identification and Recruitment Project (CMCIRP) personnel are responsible for adhering to professional ethics.

Any CMCIRP personnel selected to provide technical assistance to other States undertaking Migrant Child Identification and Recruitment Programs must realize they represent the State of Colorado at all times. Therefore, instate or out-of-state, conduct of personnel must be of the highest caliber. Refer to Number III of May 3, 1974 Policy Directive for an application of principle involved, there as here, for breach of professional standards.

Ethically CMCIRP personnel are responsible for maintaining a professional standard wherein any problem or complaint must be kept in-house. Failure to abide by this would be considered a serious breach of CMCIRP ethics and could subject an employee to dismissal.
PROFESSIONALISM

The same principle applies should a regional field representative find it necessary to have a particular problem or complaint resolved. Arrange a meeting with the Director of CMCIRP in order to seek an amicable resolution to the situation.

Should a seasonal field representative find cause to have a particular problem or complaint, this should be handled by the regional field representative. Should the latter be unable to arrive at a satisfactory solution, then the seasonal field representative should request to meet with the Director of CMCIRP in order to arrive at a satisfactory solution. All such situations, naturally, remain in strictest confidence.
FORMS

Daily Logs—All field personnel are required to submit weekly daily logs and weekly schedules. In order to enable field personnel to fulfill this managerial policy, Friday p.m. has been scheduled for all field representatives to complete their reports. These reports must be mailed each Friday p.m. to CMCIRP Central Office. It is vital that these reports, as well as mileage forms and receipts, be received the following Monday a.m. at Central Office for efficient processing. Daily logs at top have space for time. In that slot, please put due time spent for the particular activity you describe. For example, you could put 11:00 to 12:15 p.m. This will aid to document an 8-hour day. At the bottom of daily logs, you can put the amount of time spent in going to and from the particular location listed.

Weekly Reports or Schedules—Your weekly schedule must include information on contact people, agencies, etc. In addition include purpose. Please make certain to fill out this information. Pursuant to CMCIRP Policy Directive dated April 8, 1974, i.e., No. 5, field representatives must notify Central Office of circumstances which preclude carrying out assigned duties. Hence any changes in schedules must be approved by CMCIRP Director. Always confirm schedules with Director at the Central Office. Also referring to No. 5, a change in schedule can entail a change in travel. Such authorization for change in travel must come from CMCIRP Central Office, from the Director. Due to geographic limitations and the very nature of CMCIRP's regional offices being located as they are, it is necessary that each regional field representative clear his/her weekly schedule; either on Friday afternoon or the following Monday morning. Such clearance, of course, must come from CMCIRP Director, Central Office. No field representative will be allowed to perform such field work unless schedule clearance is obtained. Please submit via the mail, each Friday p.m., copies of both forms—daily and weekly to this office.

Dress Standards—With schools in session, note that CMCIRP abides by dress standards deemed expedient to Project success. In visiting schools and agencies, business dress is necessary. In the field, when contacting farmers, ranchers, and of course the migrant family, casual clothing is the logical standard. In dealing with such different clienteles, experience has shown, as demonstrated in New Jersey, that such dress standards are a positive approach to CMCIRP's statewide effort.

Again, suitable dress attire is necessary for Project work.
NON-SCHOOL ATTENDANCE- this form includes name, address and age of child along with father's occupation and reason for child not attending school.

SCHOOL DISTRICT MIGRANT CHILD SURVEY- states mainly name, age and grade of child. The main purpose of this form is classification of child.

COUNTY PROFILE by SCHOOL DISTRICT- when completed informs the field representatives how many migratory workers are employed on agriculturally related farms and industries. It lists crops grown and seasons grown. Names of schools in that district which migratory children can attend. States classification of children throughout the year.

FARM VISITATION- lists name and address of farm visited. Name of foreman, crew leader or farm owner to which field representative spoke to.

DAILY LOGS- includes places visited that day and information concerning those places.

WEEKLY WORK SCHEDULE- is used to inform director of activities planned for upcoming week.
LIST OF MIGRANT SERVICES and/or AGENCIES- lists those services and agencies who serve the migrants.

REGIONAL MIGRANT SERVICES- lists the agency visited and what specific services they provide for migrants and if there is bilingual personnel employed there.

MILEAGE SHEETS- designed to indicate exact amount of traveling done by field representatives for each working day. Mileage must be recorded from the odometer and totaled at the end of each page.

LONG DISTANCE TELEPHONE CALL LOG SHEET- each long distance call is recorded on this sheet with name of person and place called and date call was made. Purpose of call must be recorded.

STAFF EVALUATION- is designed so that each field representative can be evaluated on his performance; this gives him/her the opportunity to find where he/she needs improvement.

STUDENT CARD- general background information on child and family. This card is filed for further reference to enable CMCIRP to document each child identified and recruited.

FARM INFORMATION CARD- general information on farms that employ agricultural workers and locations of such farms.
ENGLISH and SPANISH—these forms will help determine the number of children of migratory agricultural workers in each school district. It is done in English and Spanish to help those parents who are monolingual.

AUTHORIZATION for ENROLLMENT—with parent signature this form authorizes the field representative to enroll each child on the Migrant Record Student Record Transfer System (MSRTS).

SUPPLEMENTARY SHEET—this form with parent signature indicates that the Migrant Student Record Transfer System (MSRTS) has been explained to them by the field representative.

ACTION FORM—follows the family if they move from one district to another district or from one county to another county, the field representative will send the action form to the area in which the family is moving to the field representative in that area showing what kind of help they need; also, to identify the children as rapidly as possible.

MONTHLY STATUS REPORT—at the end of each month these forms are turned in to the main office to show what progress has been made in each area.

Dear Parent,

The Colorado Migrant Child Identification and Recruitment Project, funded by the Migrant Education Program, Colorado Department of Education, is conducting a survey to determine the number of youngsters in each school system whose parents are presently doing farm work or who have done farm work at any time during the past five years.

If the above does apply to you, please complete the questions below.

If it does not apply to you, just fill in the space marked "Child's Name."

In either case please be sure to have your child return the form to his teacher as soon as possible.

Thank you for your cooperation in this very important matter.

Attentively,

*This report will better assist Colorado Migrant Education Program to work with the school districts in projection and planning of programs for migratory children. Accuracy is highly necessary.

Deadline for submission by mail to CMCIRP Central Office is one full week before the end of each month. This deadline is an absolute necessity.
PROCEDURES

During working hours, as part of your office routine, make certain that the secretary at your BOCS office knows where you can be contacted. It is highly important that the Project Central Office, as well as other individuals, knows your whereabouts.

Friday afternoons have been set aside for paper work. Friday mornings should be spent in the field. When necessary, seek to complete office work during the day, other than Friday a.m. It is very important that Regional Field Representatives and Seasonal Field Representatives mail in Friday p.m. logs, schedules, profiles, etc. Unless this is done a backlog is created.

Annual leave: two weeks a year on a twelve month contract. No accrual.

Sick leave will follow the procedures established by the BOCES Board Policies. Office personnel shall be governed by the following, this includes the Regional Field Representatives.

<table>
<thead>
<tr>

Submit odometer reading mileage forms weekly, along with daily logs and weekly work schedules.

Leave Taken
Leave policy for CMCIRP personnel is in accordance with WELD BOCES procedures and regulations.

Any leave requested or taken must be approved by CMCIRP Director.

Sick leave, annual leave, funeral leave, etc. must be approved by CMCIRP Director.

Should inclement weather prevent an employe from performing her/his duties on a given day, CMCIRP Central Office must be notified that a.m. in order to formulate employe's schedule for that day.
Leave (cont)

If ill and unable to perform one's duties, each employee must see to it that Central Project Office is informed each morning of employee's illness. After an absence of five days due to illness, a physician's verification of illness must be submitted to CMCIRP Director.

Requests for annual leave, in particular, should be requested well in advance of leave dates requested.

Should CMCIRP personnel be involved in other circumstances which preclude carrying out assigned duties, CMCIRP Central Office must so be notified that said circumstances prevent performance of duties on a given day. Of course nature of said circumstances will determine length of time taken to notify Central Office.

Compensatory Time

All field representatives are to take a lunch hour each working day. Field representatives are not expected to work during that time and receive compensatory time herein.

Regional field representatives should make certain that seasonal field representatives work an 8-hour day. So it is important that the 40-hour work week be observed.

TELEPHONE PROCEDURES

It is incumbent on all field representatives to certify proper business only use of the long distance telephone credit cards assigned to regional field representatives.

TIME LOGS

In maintaining your time reporting, please be certain that your daily activities show an 8-hour time-spent period. It is important to be able to account for a 40-hour work week.

JURY DUTY

If a regional field representative or any other full-time personnel of CMCIRP should be called on to serve on either a petit or grand jury, time off from CMCIRP duties will naturally be accorded, with pay.

Fees received as a witness or compensation for court and jury duty shall be forfeited by the individual to CMCIRP, Weld BOCES.
Procedures for Jury Duty (cont)

A written request and a copy of the summons shall be filed with CMCIRP director. Monies received while serving on jury duty shall be turned in to CMCIRP director and forwarded to Weld BOCES bookkeeper. These monies shall be credited to CMCIRP fund which is allocated from ESEA Title I, Migrant Education Program, from which the individual's salary is paid.
SURVEY by REGIONAL FIELD REPRESENTATIVE

In surveying counties, at each school district superintendent's office, you should request a copy of a map that shows the school district's boundaries. This will not be available to you in all cases, but where available the map will assist you to ascertain what farms, houses, and agriculturally related industries are located within school district boundaries.

As a surveying strategy, seek to determine (in those districts not sponsoring migrant education programs) whether any migratory children are in the district by first checking agencies, health, employment, welfare, agriculture, and employers before visiting the schools. This could aid in determining beforehand whether school district data is accurate.

Coordination with Colorado Department of Education, Office of Field Services is vital to CMCIRP. Do not forget to contact the field service coordinator responsible for your region. Visits to school districts are greatly facilitated in this way.

It is likewise important that you seek to document projections of migratory families in the counties you survey that actually have migratory agricultural workers employed.

As in the past, in addition to schools, you will be surveying all agencies and food-processing plants related to agricultural endeavor (co-ops, feedlots, packing plants, turkey and chicken plants, etc.)

For each migrant child (or children, if the child has brothers or sisters also in the same school or school district) identified on the Migrant Child Survey sheet, attach with the form the following: To the most accurate extent possible, trace the child's family migration pattern. For example:

Does the family have a home base in Texas? Have the father and/or family worked on farms in other states before coming to Colorado; list farmers' names and addresses if available from migrant family. Cite type of work father/mother have done, and the type currently being performed. Show migration pattern: where does family go from Colorado? To Michigan? Back to Texas? How long does family remain in Texas? Look for mobility and interruption of education.
1. Areas of migratory labor impaction.
2. Areas where migratory labor is employed, even on a marginal or short-term basis.
3. Crops grown in areas employing migratory labor.
5. Farms employing migratory labor; number of workers (migrant, that is):
6. Agriculturally related and food-processing plants employing migratory labor. Number of workers.
7. Agencies which provide services to migratory families. Number and names of children served.
8. Companies which contract for migratory labor.
   A. Acreage they contract.
   B. Number of workers contracted—determine if families travel with workers.
9. Individuals (crew leaders) who contract for migrant workers.
10. Inter and intrastate patterns of travel by migratory families seeking agricultural employment.
11. Schools the children can or will attend.

If there are any nonpublic schools in your area, do check with them to determine if there are any migratory children enrolled. Parochial and other denominational and nondenominational schools, in some cases, could have migratory children enrolled. And the recruitment effort can also be explained to the school administration.
VISITATIONS PROCEDURES

The following steps should be taken when field representatives are making school visitations:

I. Make an appointment to:

   Visit the superintendent of the school district to secure his written permission to visit the schools.

When you arrive at the superintendent's office, you do the following:

A. Introduce yourself to the secretary, show your I.D. card to her and ask her if it would be possible to see the superintendent. If it is not possible to see the superintendent, tell the secretary that you would like to visit certain schools in the district, and ask her if this would be possible. If not, make an appointment to see the superintendent as soon as possible. Then go to the next district on your schedule.

B. If you can see the superintendent, first introduce yourself, show him your I.D. card. Explain that you are from the Colorado Migrant Child Identification and Recruitment Project and that you would like his permission to visit certain schools in his district in order to enroll Migrant Students (those who are the children of migrant workers) on the National Migrant Student Record Transfer System.

C. If the superintendent asks you what the National Migrant Record Transfer System is, tell him that it is a system which allows the Migrant child's school record to follow him from school to school in whatever state he and his family move to. This is done by enrolling the child on a National Data Bank computer in Little Rock, Arkansas. The computer sends a record of all the newest information to the school where the child registers. The record includes Health, Testing and Academic information. All further information can be obtained through contacting Mrs. Kersten or Mrs. Johnson. All records, of course, are kept strictly confidential.
D. If the superintendent asks you who is a migrant student, give him a brochure, and explain the definitions to him as he reads them from the brochure.

E. Ask the superintendent if he knows, offhand, if there are any migrant students in his district and, if so, what schools would they be attending.

F. Show him a survey sheet and if he requests a survey, tell him that he can contact Dr. Archuleta at his office for further information, after the survey sheets have been distributed and completed.

G. Leave some literature with the superintendent, leave your card, thank him for his cooperation (even if he said they have no migrants).
RANCH AND FARM VISITS:

Rancher or Farmer—show your identification and explain your reason for visiting, stressing that you are interested only in the education of the Migrant children.

Crew Leader—introduce yourself and explain your reason for wanting to talk with him. Explain that you are not going to disturb his workers and that by getting the children into school the adults will be free to do their work. Explain that you would like to speak with the workers who have children in order to gain their consent to enroll the children in school. Mention that the children will receive free medical help as well as free breakfast and lunch. Also, you will see that the children have bus transportation back and forth to school.

Parent:

Explain who you are and your reason for being there. Tell them that you would like to enroll their children in school so that they will be taken care of until the family moves. Tell the parent that the child will receive medical and dental care from the summer school. If the parents are sick or request any other assistance, immediately refer them to the proper persons. Make sure that the parents receive whatever assistance promised them. If an agency is going to help them, check back in a few days to see that the case is being followed up.

Agency Visits:

Introduce yourself. Explain your reason for being there. In an agency such as Salud del Valle, you can point out the fact that you would like to work closely with them through referrals. Explain that your main interest is in the education field. Discuss the services CMCIRP offers as well as those offered by the agency you are visiting in order to determine whom to contact on referrals. Leave materials on CMCIRP and your business card so that the agency will be able to contact you when families move in.
