ABSTRACT

The field test report on the "Grocery Store Occupations" instructional unit for grade 1 is one of a series of reports on the Arizona developed Career Education Curriculum Units. Presented is specific information as to the success of the units in terms of the learner's cognitive, affective, and psychomotor behavior according to expressed performance and behavioral objectives. Cognitive and student and teacher attitudinal data were collected from six sites and projects in Arizona. Following the introduction, a brief description of the unit is given. The body of the document presents and discusses various tables showing field test results in the following areas: (1) information describing the field test, including demographic characteristics of both participating teachers and learners, (2) attitudinal data from both teachers and learners concerning the unit, (3) learner performance data on the lessons' specific items, and (4) teacher recruitment, refinement data, analysis, and comments. Four brief conclusions and recommendations are included. The document concludes with two appendixes: statistics and tabular data on student and teacher attitudes and a sample of the field test instrument package--UNIVAL (forms and questionnaires on student and teacher attitudes and student performance). (Author/BP)

* Documents acquired by ERIC include many informal unpublished *
* materials not available from other sources. ERIC makes every effort *
* to obtain the best copy available. Nevertheless, items of marginal *
* reproducibility are often encountered and this affects the quality *
* of the microfiche and hardcopy reproductions ERIC makes available *
* via the ERIC Document Reproduction Service (EDRS). EDRS is not *

FOREWORD

So many have contributed major input to the field test processes of unit delivery, monitoring and instrument completion, that it is impossible to extract, note, and applaud individual efforts. I am sure that all those involved in this major team effort can see how much has been accomplished and have a positive view of its educational significance for the young people of Arizona. By documenting and analyzing the capabilities of the career education units tested, we all have contributed a positive boost to career education in school districts across the state.

The task of Field Test Manager has been simplified considerably by excellent staff support from the Mesa Public Schools Department of Research and Evaluation, responsive assistance from the State Department of Education, and the effective management shown by the field test coordinators from the respective field test projects.

Frank Leo Vicino

PREFACE

This is one of a series of field test reports on Arizona developed Career Education Curriculum Units. This report presents unit specific field test material. Another report in this series contains information concerning overall field test rationale and compilation of results for all field tested units.

The work presented and reported herein was performed pursuant to contract from the Arizona State Department of Education. However, the opinions expressed herein do not necessarily reflect the position or policy of the Arizona State Department of Education and no official endorsement by the Arizona State Department of Education should be inferred.

APPENDIX II -- UNIVAL	

INTRODUCTION

The major purpose of most innovative programs such as career education is to affect positively learners' cognitive, affective, and psychomotor behavior according to expressed performance and behavioral objectives. The present field test of career education curriculum units is designed to examine the success of the unit in terms of the above. Cognitive and attitudinal data have been collected from sites and projects across the state of Arizona. The following projects were involved in the effort of field testing the units: Coconino, Central Maricopa, Mesa, Pinal, Pima, Roosevelt, Tri-County, WACOP, and Yavapai.

Data on the present unit, however, have been collected from the following sites:

Project	Classrooms Requested	Classrooms Used In Analysis*
Central Maricopa	3	3
Mesa	5	3
Pinal	3	3
Roosevelt	3	3
Tri-County	3	3
Yavapai	5	6
Total	22	21

*Data received in time for analysis

✓ Significant statistics are presented and discussed in the Field Test Results section of this report. Other statistics and tabular data are presented in Appendix I of this report.

UNIT DESCRIPTION
GROCERY STORE OCCUPATIONS

Grade 1: Grocery Store Occupations

This unit describes the occupations of meat cutter, shelf stocker, and cashier as they are performed in a grocery store. The basic purpose of this unit is to make students more aware of the various occupations in the grocery store and some of the duties each involves. This unit is aimed at first grade level students and is useful in the Social Studies, Art, and Math areas.

FIELD TEST RESULTS
GROCERY STORE OCCUPATIONS

This section of the report presents the data summary and analysis for the field test of the curriculum unit.

An outline of this section follows:

- A. A Description of the field test including demographic characteristics of both participating teachers and learners.
- B. Attitudinal data from both teachers and learners concerning the unit.
- C. Learner performance data on the lesson specific items.
- D. Teacher refinement data, analysis and comments.

DESCRIPTION OF
THE PARTICIPANTS

The data in this report was obtained from the projects, teachers, and learners described in the following tables.

1. Learners

Table I presents demographic information on the learners that were exposed to the unit in the field test. Examining Table I, it can be seen that the male and female learners are fairly evenly represented. There was little representation by minority groups. Out of 573 learners, 26% (146) were from minority backgrounds; 19% (108) Spanish Surname, 4% (24) Black, 2% (9) American Indian, and 1% (5) Other.

2. Teachers

Table II presents the total number and selected demographic characteristics of the teachers presenting the unit.

It can be noted from Table II that all the teachers that taught this unit were female. This can best be explained by the fact that this was a first grade unit.

TABLE I

NUMBER OF LEARNERS EXPOSED BY
SELECTED DEMOGRAPHIC CHARACTERISTICS

PROJECT	SEX		ETHNIC COMPOSITION					TOTAL NUMBER
	MALE	FEMALE	AMERICAN INDIAN	BLACK	SPANISH SURNAME	ANGLO WHITE	OTHER	
Central Maricopa	54	39	0	2	9	81	1	93

Total	0	21	1	4	9	1	6	8	10	0	0	3	0	0

The median years of experience for this group falls between 6-10 years. It should be noted that this group of teachers was quite sophisticated concerning career education. All 21 teachers were familiar with career education; ten had previously taught a career education unit or program and eight had actually developed a career education unit or program.

ATTITUDINAL DATA

1. Teacher Attitude

Included in each UNIVAL (Unit Evaluation Instrument) was an Instructor Attitudinal Data Sheet which asked two questions concerning attitudes toward career education in general and three questions concerning the teacher's attitude toward the unit (see Appendix II).

a. Teacher Attitude Toward Career Education

Examining the teachers' general attitude toward career education (Table III) it can be seen that the mean response across questions and projects is a very high 4.17, (on a scale where 5 is the highest positive response). Of the 42 possible responses, 35 (83%) are positive toward career education, 5 (12%) are of no opinion, and only 2 (5%) negative.

TABLE. III

TEACHER ATTITUDE TOWARD CAREER EDUCATION
(Number, Percent and Mean of Instructor Responses
to Attitude Items 1 and 2 Combined)

PROJECT	STRONGLY POSITIVE		POSITIVE		NO OPINION		NEGATIVE		STRONGLY NEGATIVE		MEAN
	N	%	N	%	N	%	N	%	N	%	
Central Maricopa	2	33	3	50	1	17	0	0	0	0	4.16
Mesa	2	33	3	50	1	17	0	0	0	0	4.16
Pinal	1	17	5	83	0	0	0	0	0	0	4.16
Roosevelt	4	67	1	17	1	17	0	0	0	0	4.50
Tri-County	3	50	3	50	0	0	0	0	0	0	4.50
Yavapai	4	33	4	33	2	17	2	17	0	0	3.83
Total	16	38	19	45	5	12	2	5	0	0	4.17

b. Teacher Attitude Toward the Unit

Table IV summarizes the teacher attitudes toward the unit.

The teachers' high positive attitude toward career education carried over somewhat to the teachers' attitude toward the unit. The teachers show a high 3.89 positive attitude toward the unit. Of the possible 63 responses, 49 (78%) are positive, 8 (12%) are of no opinion, and 6 (10%) negative.

Correlations between the Teacher Attitude toward career education and Teacher Attitude toward the unit were not significant (Appendix 1).

2. Learner Attitude

When Learner Attitude toward the unit is examined (Table V), we see a fairly high positive feeling toward the unit across all projects. Of the 3792 responses 84% were positive toward the unit, 10% no opinion, and only 6% were negative toward the unit.

Correlations between the Teacher Attitude toward the unit and Learner Attitude were not significant (Appendix I).

TABLE IV

TEACHER ATTITUDE TOWARD UNIT
(Number, Percent and Mean of Instructor Responses
To Attitude Items 3, 4 and 5 Combined)

PROJECT	STRONGLY POSITIVE		POSITIVE		NO OPINION		NEGATIVE		STRONGLY NEGATIVE		MEAN

Yavapai	536	90	41	7	21	3	2.86
Total	3189	84	375	10	228	6	2.78

LEARNER PERFORMANCE

In order to examine learners' performance on the unit, and to assess how well the objectives of the unit are met, cumulative scores over all the lesson items within the unit (total learner scores), were examined. Table VI presents the total learner scores in percentages by projects. This score reflects the unit's overall success concerning delivery of its objectives.

The scores from each project range from a low of 67% at Central Maricopa to a high of 90% at Roosevelt. These responses appear uniform with no one project varying far from the mean score (81%) thereby exerting a disproportionate influence.

Various other data was collected from the teachers involved in the field test of the units.

The data collected included the following information:

1. Teachers indicated whether they had experience in jobs other than teaching and whether this information helps in teaching the unit. It was found that 8 of the 21 teachers (39%) had previous experience in a job other than teaching. The eight were evenly divided when asked if that experience helped in teaching the unit.

(Tables VII and VIII)

TABLE VI

NUMBER AND PERCENT OF CORRECT LEARNER RESPONSES
TO LESSON IMBEDDED ITEMS FOR A GIVEN UNIT

PROJECT	NUMBER OF RESPONSES	NUMBER OF CORRECT RESPONSES	PERCENT OF CORRECT RESPONSES

NUMBER AND PERCENT OF INSTRUCTORS THAT TAUGHT
EACH UNIT BY WHETHER PREVIOUS EXPERIENCE HELPS
IN CAREER EDUCATION

PROJECT	YES		NO		NO PREVIOUS EXPERIENCE		TOTAL NUMBER
	N	%	N	%	N	%	
Central Maricopa	0	0	1	33	2	67	3
Mesa	0	0	0	0	3	100	3
Pinal	1	33	1	33	1	33	3
Roosevelt	1	33	1	33	1	33	3
Tri-County	1	33	1	33	1	33	3
Yavapai	1	17	0	0	5	83	6
Total	4	19	4	19	13	61	21

2. The teachers were asked how many guest speakers they used. Ten of the 21 teachers (48%) did not use guest speakers. A total of 19 guest speakers were used in the 21 classrooms.

(Table IX)

3. The teachers were also asked to indicate the amount of time devoted to the unit per week and what time of day (AM or PM) the unit was primarily taught. The median number of hours spent per week teaching the unit fell between 2-3 hours. Fifteen (71%) teachers taught the unit in the afternoon while 6 (29%) taught the unit in the morning. (Tables X and XI)

4. The teachers were also asked what kind of classroom or method of teaching they used. Fifteen (71%) of the classrooms were self-contained, 4 (19%) were open and 2 (10%) were team taught.

(Table XII)

Correlations were calculated between the above data and Student Attitude, Teacher Attitude and Student Performance. No significant correlations were found.

TEACHER REFINEMENT, ANALYSIS AND COMMENTS
--

Specific revision data was obtained by asking the field test teachers to make comments regarding each lesson taught. These comments were solicited in the UNIVAL.

TABLE IX

Yavapai	0	0	6	100	0	0
Total	4	19	15	71	2	10

The following list represents a composite of teacher comments regarding the various aspects of the unit, as well as a lesson by lesson critique of the unit. These comments have been analyzed and recommendations for revision presented.

TEACHER COMMENTS

When reading the teacher comments it should be noted that not all teachers respond to the open ended items. Therefore, some of the responses seem inconsistent with the teacher responses to the closed items. The closed items, it is felt, reflect a true attitude toward the unit over the teachers sampled. The teacher comments are from selected teachers that felt strongly enough to take the opportunity to respond. The comments are, therefore, more for curriculum refinement than for overall evaluation of the unit.

Central Maricopa

Too difficult and involved for 1st graders. Should be simplified a little confusing. Too involved for the whole class. Enjoyed unit. Took too long.

Pinal

Really good unit! Extended activities almost limitless. Need more individual and small group activities.

Mesa

Some concepts and terms too difficult. Requires too much teachers time for explanation.

Roosevelt

Unit needs more to it. What there was was good.
Not enough learning activities. Objectives not specific
enough. Too easy for some students.

Tri-County

Activities were well planned and quite easy to follow.
Good unit. Possibilities. Use grocery words for spelling.
Learn spanish words for groceries. Math became more
meaningful as the students saw its application.

Yavapai

Teacher and children enjoyed the unit. Use of cash
register enhanced math program good unit. Very good. We
had animals in when discussing meats.

SUMMARY

The relevant data collected during the field test is summarized below:

1. A total of 573 learners were exposed to this unit in 6 of the 9 participating projects. Fifty-three percent of the learners were male and 26% representatives of minority backgrounds.
2. Of the 21 teachers that presented the unit all were female, the median years of experience was between 6-10 years, and 18 had taught or developed career education material.
3. Teachers expressed a very positive attitude toward career education in general (4.17 on a scale where 5 was the highest positive response). Though still positive, the teachers' attitude toward this particular unit was lower (3.89).
4. The learners also exhibited a very positive attitude toward the unit with 84% of the 3792 responses positive, 10% no opinion, and only 6% negative.
5. The learners' overall performance was high (81% correct). There was very little variability across lessons and units.

6. A list of the teachers critical comments and recommendations was presented in the body of this report.

CONCLUSIONS AND RECOMMENDATIONS

1. Future users of this unit should review the unit in its entirety paying particular attention to the content of each activity noting when during their teaching year it is best to be taught.
2. During installation the teachers, while not constrained by field testing, should be made aware that the lessons as presented are only suggestions and may be modified, resequenced, augmented or reduced as desired.
3. This unit presents a wide range of activity suggestions, many of which may be extracted to constitute an enrichment program in addition to the unit.
4. This unit was well received by both students and teachers. It is recommended that this unit be included in the implementation phase of curriculum development.

GRADE LEVEL: 1

PART I

CAREER EDUCATION FIELD TEST
PROGRAM INFORMATION

Please print:

Instructor _____ School _____

Unit or Kit Title _____ District _____

Grade Level _____ Project _____

Date unit or Kit introduced in the classroom _____ / _____ / _____
mo. day year

Student data: (*the numbers should agree)

*Total number of students exposed to the unit _____

*Number of students of each sex: a. male _____ b. female _____

*Number of students in each ethnic group:

a. American Indian _____ d. Anglo White _____

b. Black _____ e. Other _____

c. Spanish Surname _____

DIRECTIONS: Circle the letter of your answer in each of the following questions.

Teachers:

How many years have you worked in the field of education?

- a. Less than one d. 11-15 years
b. 1-5 years e. More than 15 years
c. 6-10 years

Which of the following would best describe your exposure to Career Education (to date)? I have:

- a. Developed a Career Education unit or program
b. Taught a Career Education unit or program
c. Read a Career Education unit or program
d. Had some exposure to Career Education
e. Had no exposure to Career Education

What is your sex?

- a. Male _____
- b. Female _____

Is your classroom: (more than one answer may be applicable)

- a. Open _____
- b. Self-contained _____
- c. Team taught _____

What time of day were the lessons taught (predominantly)?

- a. AM _____
- b. PM _____

How much time did you devote to the unit each week?

- a. Less than 1 hour
- b. 1-2 hours
- c. 2-3 hours
- d. 3-5 hours
- e. More than 5 hours

How many guest speakers were used in conjunction with the unit?

- a. 0
- b. 1
- c. 2
- d. 3
- e. 4 or more

Have you had another occupation other than teaching?

- | | |
|----------------------|-----------------|
| a. Social sciences | e. Technical |
| b. Physical sciences | f. Construction |
| c. Chemical sciences | g. Industry |
| d. Business | h. _____ |

Did this experience help in teaching the Career Education unit?

a. Yes

b. No

Learner Performance Data

PART III

Instructor Attitudinal Data

Directions: Read each statement and place a check in the box under the heading that describes your response.

	Strongly Agree	Agree	No Opinion	Disagree	Strongly Disagree
1. Classes in my subject grade level would be more meaningful and relevant if focused around Career Education objectives.					
2. Career Education is just another fad that will soon be forgotten.					
3. After minimal revisions this unit will be ready for statewide distribution.					
4. The learning activities were very effective in helping meet the performance stated.					
5. The content of the unit relates directly to my regular class program.					

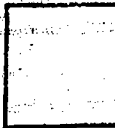

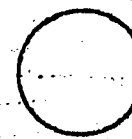

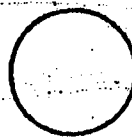

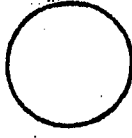

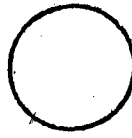

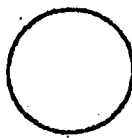

Indicate below any further comments concerning the strengths or weaknesses of the unit.

PART III (Continued)

Learner Attitudinal Data

On the following page is an attitudinal survey which we would like your learners to respond to. Please remove that page from this instrument and reproduce enough copies for each of your learners. We feel that it would be best if your learners responded to this survey at the completion of the unit. If your learners do not have the needed reading ability to complete the survey, please read and explain the items to them. After the learners have completed the survey, please tally their responses and record the total number of learners responding in each manner of the form provided below.

	YES	I DON'T CARE	NO
1.	<input type="text"/>	<input type="text"/>	<input type="text"/>
2.	<input type="text"/>	<input type="text"/>	<input type="text"/>
3.	<input type="text"/>	<input type="text"/>	<input type="text"/>
4.	<input type="text"/>	<input type="text"/>	<input type="text"/>
	HAPPY	OK	SAD
5.	<input type="text"/>	<input type="text"/>	<input type="text"/>
6.	<input type="text"/>	<input type="text"/>	<input type="text"/>
7.	<input type="text"/>	<input type="text"/>	<input type="text"/>

	YES	I DON'T CARE	NO
1. Would you want to know more about what we have learned in these lessons?			
2. Do you know more now about these lessons than before?			
3. Were the lessons interesting to you?			
4. Do you think that next year's class should be given these lessons?			
	HAPPY	OK	SAD
5. How did you feel about the lessons?			
6. How did most of your other classmates feel about the lessons?			
7. How did your teacher feel about the lessons?
