ABSTRACT

The first section of the manual for developing career education in existing Louisiana elementary school programs is an introduction to the concept and rationale of career education and to the roles of educators and parents in infusing career education into the curriculum. Section 2 discusses the availability and use of career education materials, and section 3 provides guidelines and suggested topics for guest speakers and field trips. Section 4, composing the bulk of the document, consists of unit plans covering: school helpers (K-1), whose hat is this? (grades 2-3), self-awareness (grades 4-6), communication (grade 5), work tasks and habits (grades 1-6), foods and nutrition (grade 6), the process of photosynthesis (grade 6), let's build a house (grades 3-6), people and their work (grades 1-2), and dental health workers and the law (grades 3-4). Each unit plan lists subject areas, goals, concepts, objectives, activities, resources, and evaluation criteria. The unit on dental health workers also includes the script for a one-act-play, "The Toothache Mystery: The Trial of the Dental Health Six." Two appendixes include an outline of the 15 job clusters and 21 job cluster hidden word puzzles. (JR)

FOREWORD

The infusion of career education into the subject matter areas requires considerable planning if it is to achieve maximum utility. This volume offers a variety of teacher strategies and curriculum units to ensure effective integration. It includes a rationale for career education and also a documentation of the needs for the emphasis on career education.

This volume is dedicated to those teachers who helped make the implementation of our first year of career education a success. A large part of this success is also attributed to the untiring efforts of the career education counselors.

Houston C. Jenks, Ph.D.
Editor
Supervisor of Career Education

INTRODUCTION
CAREER EDUCATION - WHAT IS IT?

Career education is defined by Kenneth B. Hoyt as the total effort of schools and the community to help all individuals become familiar with the values of our work-oriented society so that work can become possible, meaningful, and satisfying. It is a continuing, developmental process which should begin no later than kindergarten. Early attitudes and information about self and the world of work form the foundation for future career decisions.

The elementary level of career education, called career awareness, stresses awareness of self in relation to the work-a-day world. In becoming aware of themselves, students develop positive attitudes toward themselves and others. Awareness of careers begins with the students' home and community and gradually broadens to more remote career areas.

Motivation to join the work force is also an important aspect of career awareness. Good work habits and the personal and social satisfactions of work are stressed. Students learn that society requires the skills and services of all workers and thus they develop respect for all jobs.

Career awareness should be integrated into all phases of the curriculum, relating all subject matter to the diverse ways in which adults live and earn a living. The skills, knowledge, and attitudes necessary for success in work should be emphasized and phased into every subject for every child. Career education helps students to view their courses as relevant and meaningful to what they are doing now, and what they plan to do in the future. The ultimate goal of career education at the elementary level is to insure youngsters self and occupational awareness as a foundation for career decisions in their futures.

WHY CAREER EDUCATION?

Extensive documentation of the need for career education exists. To date, only 12% of the nation's high school students have been exposed to any kind of skill-producing training. Young people are not receiving the training to meet employers' needs. The proportions of college-prepared and vocationally-prepared students are also inconsistent with employers' needs. Department of Labor statistics show that the educational requirements for the labor force in the 1980's will be for 20% with baccalaureate or higher degrees, 25% with technical training, and 55% with vocational skills. These changes in the labor market demands have significant negative implications for young people, considering that youth unemployment rates already run two to three times higher than the national average. Persons between the ages of 14-19 and 20-24 rank first and second as having highest national unemployment rates.

In Louisiana, out of 100 students who enter the first grade, 45 drop out before completing high school. Of the 55 who graduate, 40 go to college and 13 graduate from college. Educational programs are drastically needed for the 87% of youth who do not earn college degrees.

The quantity and quality of vocational-technical education in Louisiana is woefully inadequate as compared with most states. State Superintendent of Education, Louis Michot, states that in far too many cases, a high school diploma does not mean access to a job because salable skills are lacking. Furthermore, many industries fail to locate in Louisiana, citing as reasons a lack of skills and low employment reliability among workers.

Locally, the rate of unemployment among the 18-21 year age group is 15.2%, second highest in the state. Local students lack knowledge of occu-
pations available to them. Statistics show that students are aware of only a few of the occupations that exist. Students also have very limited knowledge of appropriate work habits.

Positive attitudes toward self and others are important for success in employment. Statistics show that students in the upper grades have negative attitudes toward themselves and others. Furthermore, attitudes such as poor opinions of work, lack of responsibility and self-discipline, and misunderstanding of the real demands of work exist because young people have not had a systematically planned opportunity to learn and inculcate the values necessary for successful employment.

These statistics point out a drastic need for educational programs to furnish knowledge of occupations, job skills, good work habits, and positive attitudes toward self and others as they relate to the needs of area business and industry. Career education is the best answer to date for meeting the needs of our youth.
1973-74 SESSION-STATUS OF CAREER EDUCATION IN ST. CHARLES PARISH

Results of the first year of the career education program in St. Charles Parish are most encouraging. Elementary students have been exposed to more careers than ever before through subject-matter tie-ins, the use of career education materials in the classrooms, guest speakers, and well-planned field trips. Much time was spent involving students in self-awareness activities. Community members as well as school staffs have become actively involved in the program, but a total involvement of all persons interested in young people's futures is necessary for lasting results.

Because of federal funding for the 1973-74 session, evaluation instruments were used extensively throughout the parish in order to determine the extent to which the program objectives were met for students, administrators, teachers, and parents.

The following chart is presented to show the evaluation of the stated objectives:

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Each student, K-6, will be able to name the occupations of each member of his immediate family.</td>
<td>1. Sixty-seven percent of the students achieved the objective.</td>
</tr>
<tr>
<td>2. Eighty percent of the students, K-12, will be able to increase by five the number of occupations they can name.</td>
<td>2. Eighty-four percent of the elementary students increased the numbers of occupations named by five.</td>
</tr>
<tr>
<td>3. Each student, 1-12, will increase by five the number of desirable work habits he can name.</td>
<td>3. Sixty-three percent of the elementary students achieved the objective.</td>
</tr>
<tr>
<td>4. Ninety-five percent of the elementary students will have used materials from the career education centers.</td>
<td>4. Ninety-seven percent of the elementary students used materials from the career awareness centers.</td>
</tr>
<tr>
<td>5. Grade failures will have been reduced by ten percent from the 1972-73 to the 1973-74 session.</td>
<td>5. Grade failures in elementary schools were reduced by two percent.</td>
</tr>
<tr>

WHAT ROLES ARE INVOLVED IN CAREER EDUCATION?

The career education team is made up of counselors, principals, teachers, and parents. Each member plays an important role to insure youngsters self and career awareness as a foundation for future career decisions. It is important that all members of the team work together cooperatively to insure optimum results from the program.

Principal

As the head of the instructional staff, the principal acts as the facilitator of career education in the school by challenging the teachers to put forth their maximum effort for meeting the total educational needs of students. The principal can facilitate the implementation of career education by:

1. Encouraging teachers to integrate career concepts into all phases of instruction.
2. Involving students, staff, parents, and the community in the school's career education program.
3. Working closely with counselors in implementing the career education plan for the school.
4. Providing in-service training for teachers in career education.

Career Education Counselor

The major role of the career education counselor at the elementary level is to assist teachers in implementing career education in their classrooms. This counselor serves as a resource person in the following ways:

1. To assist in furnishing information and materials for career education activities in the classroom.
2. To assist teachers in developing career education subject matter related units.

3. To assist teachers in arranging class field trips, observations, and resource speakers used as culminations for career education units.

4. To maintain career awareness centers which house career materials.

5. To instruct teachers in the use of career materials.

6. To assist in administering and tabulating data for evaluative design.

Teacher

The effects of classroom experiences on the lives of children are largely determined by the teacher. Just as elementary teachers lay the foundation of skills for future learning, it is important that they lay the foundation of skills for self and career awareness to meet future career decisions. If the purpose of education is to prepare young people for life, then it is vitally important that every teacher become involved with career education. Career education is not another subject area for the teacher to teach. It is a process of refocusing activities in the classroom around career education themes, without altering or detracting from subject area concepts.

The teacher's role in career education includes the following:

1. To become familiar with career education concepts.

2. To integrate career education concepts with subject matter areas through the development of units.

3. To reinforce these concepts through the use of field trips, observations, and resource speakers.

4. To utilize career awareness materials in daily classroom activities.

5. To motivate student's career awareness through activities such as role-playing, group discussions, and "hands-on" involvement when possible.
Parent

The parent's role in career education is of vital importance. Elementary students first learn about the world of work and work attitudes from their parents.

Direct involvement of parents in classroom activities can be one of the most effective components of the career education program. Parents may become involved in the following ways:

1. Acting as resource speakers for their own occupations.
2. Helping to arrange for field trips to their work environments.
3. Sharing their avocations with students.
4. Contributing tools of their trade for "work role kits."
CAREER EDUCATION MATERIALS

AND

HOW TO USE THEM
Various audio-visual materials and books have been purchased to assist teachers in implementing career education in their classrooms. These materials can be used for group guidance to increase students' self-awareness or in conjunction with individual subject matter areas to increase students' career awareness. The following is a list of materials accompanied by descriptions:

A. Guidance Materials

1. **Dynamo Power.** Creative Education Systems. Grades K-2. This kit is dedicated to educating the whole child in the vital areas of attitudes and self-concept. Contents include: 10 recorded units on 5 cassettes, 10 filmstrips, 10 posters, patterns for hand puppets and flannel board characters, and a Leader's Guide including discussion questions, involvement activities for readiness, evaluation material, musical accompaniment for several songs and choral readings, finger plays, and short stories.

2. **Focus on Self-Development Stage I: Awareness.** SRA. Grades 3-4. Stage I is concerned with response, which ranges from the child doing something because it is expected of him to pursuing
16

It on his own and getting satisfaction from it. Contents include: cassette recordings, art and photo filmstrips, photoboard, teachers' guide, and pupil book - The Me I Know.

4. Focus on Self-Development Stage III: Involvement. SRA. Grades 5-6.
Stage III introduces the concept of involvement in causes of behavior, problem solving, and other topics which are important to children like choosing, family relationships, etc. Contents include: cassette recordings, art and photo filmstrips, 20 two-sided photoboard, teachers' guide, and pupil book - Being Me.

B. Social Studies Materials
1. Our Working World - Families. SRA. Grade 1. Families is a basic social studies program which may be used to supplement the social studies text, Families and Their Needs. It develops important concepts in sociology, anthropology, history, economics, geography, and political science. It is designed to correlate with all subject areas. Components include: Teacher's Resource Guide, pupil texts, Teacher's Guide to Problems Book, pupil problems book, and cassette recordings.

2. Our Working World - Neighborhoods. SRA. Grade 2. Neighborhoods is
a basal social studies program which may be used to supplement the social studies text, *Communities and Their Needs*. It is designed in a systems orientation, utilizing concepts from all of the social sciences. Components include: Teacher's Resource Guide, pupil texts, Teacher's Guide to Problems Book, pupil problems book, and cassette recordings.

3. **Our Working World - Cities.** SRA. Grade 3. *Cities* is a basal social studies program which may be used to supplement the social studies text, *People Use the Earth*. It uses the fundamental ideas of each of the social sciences and relates them to all subject areas. Components include: teacher's Resource Guide, pupil texts, Teacher's Guide to Problems Book, pupil problems book, cassette recordings, and filmstrips.

4. **News Lab.** SRA. Grade 5. *News Lab* is a supplement to the present social studies program. It can be used in large groups, small groups, or by individual students to enrich their knowledge of a newspaper's contents. Components include: 200 activity cards, a News Guide, evaluation sheets, and individual record folders.

5. **Worker Series Filmstrips.** Coronet. Elementary grades. The *Worker Series* is an audio-visual program for use in the elementary grades. It is designed to increase the student's understanding of a number of careers. Components include: teacher's guide and filmstrips with records entitled, "Workers and Their Work," "Workers Who Move Things," "Workers Who Sell," "Workers Who Fix Things," "Workers Who Provide Services," and "Workers in Professions."
6. **Career Education Program, Volume I.** Houghton Mifflin Company. Grades K-6. This volume of units is designed to assist teachers in implementing career education in their classrooms. Four extensive career education units are included for each grade level.

7. "Cluster for Personal Service Occupations." Upper Elementary Grades. Tasks are listed for elementary grades. Broad areas, levels, and jobs are listed along with skill development and related knowledge.

8. "Career Concepts and 15 Career Clusters." Upper Elementary Grades. Sixteen career concepts are listed for elementary school. The fifteen career clusters are listed with their related occupations.

9. "World of Work as It Relates to the Citrus Industry." Grades 4-6. Basic concepts, classroom activities, and a game, "To Market, To Market," are included in this unit. Societal interdependence, ecology, geography, mathematics, health, and creativity concepts are included.

10. **Louisiana State Social Studies Curriculum Guide 1973.** Grades K-6. Concepts, objectives, and activities are listed for anthropology, sociology, geography, economics, and political science for each grade level. A career correlation chart is included. This guide relates career concepts to social studies activities.

C. **Mathematics Materials**

1. **The Math Application Kit.** SRA. Grade 6. This kit is designed to make mathematical concepts more relevant to the world of work. The
emphasis shifts from teaching to learning the uses and applications of mathematics from the real world. Components include: a teacher's handbook, a student handbook, six groups of activity cards, and reference cards. The activity cards are grouped as follows: sports and games, occupations, social studies, appeteasers, science, and everyday things.

2. **Louisiana State Mathematics Curriculum Guide 1973.** Grades 1-6. Concepts, performance objectives, and related career-oriented activities are included for each grade level. All activities are correlated with textbooks.

D. Language Arts Materials

1. **Focus on Self-Development.** SRA. All levels. Numerous language arts activities are included in the teacher's guide.

2. **Popeye the Sailor Career Education Comic Books.** King Features. Upper elementary grades. This series of comics is an informative set of highly communicative materials which incorporate the use of visual stimuli, as well as the printed word, in conveying to the reader the qualifications required for occupations in various fields. The set includes a comic book for each of the fifteen occupational clusters.

3. **Louisiana State Language Arts Curriculum Guide 1973.** Grades K-6. This is a complete guide designed for use with basic texts and other resources. Career concepts and activities are included.
E. Art Materials

F. Music Materials

G. General Materials (for teachers)

3. *Career Education Resource Guide*. General Learning Press. All grades. The rationale for career education is discussed and career education is defined. The guide defines the role of the classroom teacher in implementing career education and lists numerous career games, activities, projects, and units.

4. *Selected Resources for Career Education*. All grades. This resource includes the basic characteristics for career education, needs for
the different areas, and a bibliography listing materials according to grade level.

5. **Louisiana State Plan for Career Education.** All grades. These books give operational definition of career education and an experience-based, sequential subject area plans for grades K-12.

6. "Occupations Related to 13 School Subjects." All grades. Diagrams for each school subject show related occupations and their numbers from the *Dictionary of Occupational Titles*. This is an excellent resource for making school subjects more relevant to the world of work.

7. "Career Education and Career Choice - What It Means." Kenneth Hoyt. All grades. Dr. Hoyt describes career choice as allowing students freedom to choose a career. He describes goals, the process, and career choice as it relates to vocational education.

8. "Career Education Concept Filters Down." All grades. This unit is about a pet shop. After exploring a pet shop, the entire class is to relate math, spelling, reading, and social studies to the experience. Trips to pet food factories, a veterinarian's office, and the SPCA are suggested. At the conclusion of the unit, students are to discuss the kinds of people employed in animal care and the kinds of satisfaction which such employees might encounter.

9. "A Career Development Program in the Chicago Public Schools." All grades. Activities are suggested for mathematics, science, spelling, directed studies, social studies, composition, reading, and art in this article.
10. "How Do the Young Become Adults?" James D. Coleman. All grades. This article discusses changes in the family, the workplace, and the school and suggests skills which the school can teach.

11. "Peacemaker, Plumber, Poet, Drummer, Why Children Must Explore the World of Work and How You Can Help Them." All grades. This article discusses questions that need to be asked and suggests relevant activities to be applied in the classroom. A discussion follows by teachers who have put career education plans to work.

12. Questions and Answers about Career Education. All grades. This article answers questions about career education and explains how it will be implemented in the elementary schools in Louisiana.

13. "Marland on Career Education." All grades. U.S. Commissioner of Education Marland speaks out for the new emphasis on career education. He gives his responses to some of the most frequently asked questions about career education.

14. "Activities to Help Implement Career Awareness." Grades K-6. Forty-eight excellent activities are listed which have been used in East Baton Rouge Elementary Schools.

15. "Free Films from Louisiana Power and Light Company." All grades. Directions for ordering films are included with a complete list of excellent films related to various careers.

H. Books for Students (available in most Career Awareness Centers)

2. A Book of Astronauts for You. Franklyn M. Branley
3. Animal Doctors - What Do They Do? Carla Greene
4. People Who Make Our Homes. Alta McIntire
5. Exploring Under the Sea. Marie Neurath
6. About Family Helpers. Elane Hoffman and Jane Heffelfinger
7. I Want To Be A Policeman. Carla Greene
8. I Want To Be A Zoo Keeper. Carla Greene
9. I Want To Be A Ballet Dancer. Carla Greene
10. I Want To Be A Fireman. Carla Greene
11. I Want To Be A Musician. Carla Greene
12. I Want To Be A News Reporter. Carla Greene
13. I Want To Be A Pilot. Carla Greene
15. I Want To Be A Nurse. Carla Greene
16. I Want To Be A Carpenter. Carla Greene
17. I Want To Be A Airplane Hostess. Carla Greene
18. I Want To Be A Ship Captain. Carla Greene
19. I Want To Be A Space Pilot. Carla Greene
20. I Want To Be A Librarian. Carla Greene
21. What Is A Community?
22. One-Hundred and One Summer Jobs
23. Job Opportunities for Young Negroes
24. Coast Guard Academy
25. Hobby Collections A-Z
26. What Does a Peace Corps Volunteer Do?
27. Let's Give a Show
28. How Artists Work
29. Hunters and Collectors
30. Puppets for Beginners
31. Men At Work in the South
32. How to Paint with Water Colors
33. How to Draw Cartoons
34. Science in a Vacant Lot
35. Start to Draw
36. The First Book of Jazz
37. Lighthouses
38. The Story of Flight
39. Space ABC's
40. The True Book of the Moonwalk Adventure
41. Farming Around the World
42. Let's Find Out About the Red Cross
43. I Know a House Builder
44. I Know a Policeman
45. I Know a Ranger
46. I Know a Telephone Operator
47. I Know a Truck Driver
48. I Know a Bus Driver
49. I Know a Grocer
50. I Know a News Reporter
51. I Know a Zoo Keeper
52. I Know a Banker
53. I Know an Animal Doctor
54. I Know a Farmer
55. I Know an Astronaut
56. I Know a Nurse
57. I Know a Dairyman
58. I Know a Bank Teller
59. I Know a Garageman
60. I Know a Mayor
61. I Know a Weatherman
62. Freight Trains in the Sky
63. Brooks Robinson: Sports Hero
64. Joe Namath: Sports Hero
65. Johnny Bench: Sports Hero
66. The Rock Hunters
68. About Friendly Helpers for Health and Safety
69. The Red Cross
70. The Peace Corps
71. Park Ranger: Equipment, Training, and Work of the National Parks
73. Who Will Clean the Air?
74. Who Will Wash the River?
75. Corn: From Farm to Market
76. Cotton: From Farm to Market
77. Sugar: From Farm to Market
78. Wheat: From Farm to Market
79. Houses
80. The Changing Tools for Science
81. What Does a P.C.W. Do?
82. What Happens When You Put Your Money in the Bank?

1. Filmstrips and Films (in some Career Awareness Centers)
   1. "Free Films from Louisiana Power and Light Company"
2. "Let's Go and Learn Series" - To a City, Zoo, etc.

3. "Getting Along with Yourself"

4. "Getting Along at Home"

5. "Getting Along with Friends"

7. "United States: Its Industry" - films include: Middle West, Southwest, New England, Western U.S., Middle Atlantic, Pacific Coast, and Southern U.S.
HOW TO USE CAREER EDUCATION MATERIALS

Various methods for using the materials in the career awareness centers are listed in each teacher's guide, accompanying the materials. The following are additional suggestions for using career education materials.

Focus on Self-Development. SRA

Stage I: Awareness, Grades 1-2
Stage II: Responding, Grades 3-4
Stage III: Involvement, Grades 5-6

Focus requires minimal preparation on the part of the teacher. Complete, easy to follow directions are found in the teacher's guide.

An introductory theme activity and a summary unit are used to introduce and conclude the material. All other units are devoted to a particular concept or focus. Each unit has a theme activity that presents the focus in more concrete terms.

The theme activities of each unit are generally recorded stories or filmstrips with accompanying sound track tapes that deal with a situation related to the focus. The theme activity should be used first to introduce the students to the concept in each unit. Directions for introducing each theme activity are presented at the beginning of each unit in the teacher's guide. Pictures of the filmstrips and written dialogues of recorded tapes are presented in the guide to enable teachers to easily preview the theme activities. A list of activities for reinforcing the focus, such as discussion questions, open-ended sentences, use of photoboards, and use of pupil books, follow the theme activities.

Although comprehensive plans for each unit are provided in the teacher's guide, it is hoped that the teacher will add her own knowledge and creativity to the program and not be restricted by questions or activities presented in
the unit plans.

The time schedule for presenting each unit is largely dependent on the students involved. Usually, a teacher will present the theme activity and ask the discussion questions on the first day. The second day she may choose two or three activities to reinforce the concept presented. On the third day, she may have the students express themselves in their activity books.

Each student should have his own activity book. The book is to be the personal property of each student. The students' work should not be graded or shared with the teacher unless the students wish to do so. In the book, the students are to express their feelings about the content of each unit by writing or drawing. For optimum benefit, the book should be used along with the unit theme activity, and not by itself. Page numbers to be completed for each unit are listed at the end of each unit.

There are twenty photoboards in each kit with black and white photographs on each. They serve as excellent resources for implementing verbal and written language arts activities. The teacher's guide gives suggestions for use of each photoboard and the units which they best reinforce.

The order of presenting the units, other than the introduction and summary, is largely up to the teacher. The units build logically upon each other and can be presented in the order in which they appear in the guide; however, some teachers may want to order them differently. To assist them, there is a section, "When is This Unit Best Presented," in this guide. There is also a "Topical Arrangement of Units" at the beginning of the teacher's guide.

The following information lists focus for each grade level.
Stage I: Awareness

Objectives and Activities for Grade 1

OBJECTIVES

A. Recognize the importance of a positive self-concept.

B. Recognize that different careers require the use of different tools.

C. Understand the relationship between careers and learned skills.

D. Identify the rights and responsibilities within the family and/or school environment.

E. Recognize the importance of each individual in the functioning of the family.

F. Identify and appreciate the different kinds of work people do in the home, school, and community.

G. Develop rules and accept direction and responsibility.

ACTIVITIES

A. Teach Unit B in Focus: 1

B. Teach Unit E in Focus: 1

C. Teach Unit E in Focus: 1

D. Teach Unit H in Focus: 1

E. Teach Unit J in Focus: 1

F. Teach Unit I in Focus: 1

G. Teach Unit N in Focus: 1

Objectives and Activities for Grade 2

OBJECTIVES

A. Recognize the importance of self as a member of a group.

B. Recognize individual capabilities and limitations as they relate to individual roles.

C. Develop an awareness of the basic economic principle of unlimited wants and limited resources.

ACTIVITIES

A. Teach Unit A in Focus: 1

B. Teach Unit D in Focus: 1

C. Teach Unit N in Focus: 1

Stage II: Responding

Objectives and Activities for Grade 3

OBJECTIVES

A. Recognize individual capabilities and limitations as they relate to occupational roles.

ACTIVITIES

A. Teach Unit B in Focus: II "The Me I Know" activity book.
OBJECTIVES

B. Relate home and school careers to the functioning of the community.

C. Increase awareness of the basic economic principle of unlimited wants and limited resources.

ACTIVITIES

B. Teach Unit C in Focus: II

C. Teach Unit Q in Focus: II

Objectives and Activities for Grade 4

OBJECTIVES

A. Develop understanding that a person's career choice should be related to his individual strengths and weaknesses.

B. Recognize the correlation of careers and life styles.

C. Cooperatively develop rules and accept direction and responsibility.

D. Develop appreciation for the role of individuals in the school environment.

E. Knowing a person's functioning in society may bring increased personal satisfaction and improved group morale.

F. Recognize what is required for human beings to get along with each other.

ACTIVITIES

A. Teach Unit C in Focus: II

B. Teach Unit A in Focus: II

C. Teach Unit J in Focus: II

D. Teach Unit G in Focus: II

E. Teach Unit Q in Focus: II

F. Teach Unit K in Focus: II

Stage III: Involvement

Objectives and Activities for Grade 5

OBJECTIVES

A. Identify special skills necessary for life roles.

B. Develop positive attitudes toward all forms of human endeavor in any career area.

C. Relate one's self perception to career requirements.

D. Explore and analyze attitudes concerning specific jobs.

ACTIVITIES

A. Teach Unit C in Focus: III

B. Teach Unit L in Focus: III

C. Teach Unit F in Focus: III

D. Teach Unit B in Focus: III
Objectives and Activities for Grade 6

OBJECTIVES

A. Study career areas based upon interest, values, and abilities.

B. Develop techniques for identifying and judging values as they relate to personal and possible life roles.

C. Recognize the influence of others upon personal values.

D. Apply the decision-making process in the study of careers.

ACTIVITIES

A. Teach Units A & D in Focus: III

B. Teach Unit B in Focus: III

C. Teach Unit L in Focus: III

D. Teach Unit F in Focus: III

Our Working World Series. SRA

Families, Grade 1
Neighborhoods, Grade 2
Cities, Grade 3

Our Working World Series is a basal social studies program to be used as a supplement to the present parish social studies program.

The Teacher's Resource Guide is a collection of activities that are designed to reinforce every major idea presented in the program. The guide is divided into units. Each unit has an opening section which contains the structure of the unit, unit activities, and unit evaluation details. Each unit has a unit activity, which is a cassette recording for grades one and two and a filmstrip with accompanying cassette recording for grade three. All units contain references to long-term activities, which can be carried on throughout the year.

All units are divided into chapters. Each chapter includes activities for different interest and ability levels. The first element in each chapter is the "flow chart." It identifies the contents of the chapter, the major ideas, how Our Working World can be correlated with other subject areas, and the various teaching strategies possible.

A Problem Book is available for each student. Directions for the book
are found in the Teacher's Guide to the Problems Book. The Teacher's Resource Guide recommends the pages to be completed for each unit.

The student text is another component of the program. Each chapter has three elements: a picture spread dealing with the broadest concept presented in the unit; a case study dealing with a more specific concept, emphasizing the reality of the world; and an episode dealing with the most specific concept presented, emphasizing the inner thoughts and feelings of the characters in the book. The text is designed to meet all ability level needs. Even the non-reader can grasp and discuss the concept presented, by studying the picture spread.

The following information presents objectives and activities for each grade level, using Our Working World Series.

Families

Objectives and Activities for Grade 1

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. Recognize that different careers require the use of different tools.</td>
<td>A. Teach Chapter 5 in Families</td>
</tr>
<tr>
<td>B. Be aware of and appreciate the dignity of useful work.</td>
<td>B. Teach Chapter 19 in Families</td>
</tr>
<tr>
<td>C. Understand the relationship between careers and learned skills.</td>
<td>C. Teach Chapter 3 in Families</td>
</tr>
<tr>
<td>D. Identify the rights and responsibilities within the family and school environment.</td>
<td>D. Teach Chapter 3 in Families</td>
</tr>
<tr>
<td>E. Develop rules and accept direction and responsibility.</td>
<td>E. Teach Chapter 16 in Families</td>
</tr>
</tbody>
</table>

Neighborhoods

Objectives and Activities for Grade 2

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. Recognize the importance of &quot;self&quot; as an individual and as a member of a group.</td>
<td>A. Teach Chapter 18 in Neighborhoods</td>
</tr>
</tbody>
</table>
OBJECTIVES

B. Recognize individual capabilities and limitations as they relate to individual roles.

C. Relate home and school careers to the functioning of the community.

D. Develop an awareness of the basic economic principle of unlimited wants and limited resources.

E. Help students identify similarities of specific careers to careers in general.

F. Acquire a knowledge of careers necessary for the maintenance of the community and to recognize the interdependency of these careers.

G. Recognize that different careers require proficiency in basic skill areas.

H. Recognize that different careers require the use of different tools.

OBJECTIVES

A. Recognize individual capabilities and limitations as they relate to occupational roles.

B. Relate home and school careers to the functioning of the community.

C. Develop self-concept as a potential working member of a group.

D. Identify similarities of specific careers in general.

E. Acquire a knowledge of careers necessary for a community to function and to recognize the interdependency of careers.

ACTIVITIES

B. Teach Chapter 12 in Neighborhoods

C. Teach Chapter 11 in Neighborhoods

D. Teach Chapters 7 & 8 in Neighborhoods

E. Teach Chapter 6 in Neighborhoods

F. Teach Chapter 5 in Neighborhoods

G. Teach Chapter 16 in Neighborhoods

H. Teach Chapter 5 in Neighborhoods

ACTIVITIES

A. Teach Chapter 6 in Cities

B. Teach Chapter 7 in Cities

C. Teach Chapter 6 in Cities

D. Teach Chapters 1 & 2 in Cities

E. Teach Chapter 8 in Cities
OBJECTIVES

F. Increase awareness of the basic economic principle of unlimited wants and limited resources.

G. Develop an awareness of exchange of goods.

ACTIVITIES

F. Teach Chapters 12 & 13 in Cities

G. Teach Chapters 3 & 4 in Cities

To further assist the teacher in utilizing Our Working World in the classroom, it has been correlated with social studies texts presently in use in the parish. Correlation information is presented later in this section.

Workers Series Filmstrips. Coronet

Grades K-4

Eight filmstrips and four records are included in this series: "Workers and Their Work," "Workers Who Move Things," "Workers Who Make Things," "Workers Who Sell," "Workers Who Fix Things," "Workers Who Provide Food," "Workers Who Provide Services," and "Workers in Professions." These filmstrips are easy to use and are most useful in visually reinforcing many concepts taught in social studies. A brief description of each filmstrip is included in the teacher's guide.

It is suggested that the teacher keep a list of these filmstrips in their social studies texts so that they may show the filmstrips at appropriate times during the year to introduce or reinforce concepts presented. It would also be useful to keep these filmstrips in mind for preparing classes for field trips or resource speakers.

The Worker Series has been correlated with the social studies texts presently in use in the parish to further assist the teacher in utilizing these excellent filmstrips in the classroom.
GRADE 1

Correlation: Families, The Worker Series Films, and Families and Their Needs

Explanation of Codes for Families at Work:

GRADE 5

News Lab, SRA

News Lab may be used in small groups of one to three or with the entire class to teach students the use of the newspaper in social studies or as a language arts activity. The kit is divided into different parts of the newspaper. The teacher's guide tells what skills are used for each card in the kit. The News Guide gives directions for using the newspaper. Folders are provided for each student to evaluate his work on each card. Spirit masters for maps are also included in the kit.

To further assist the teacher in using News Lab in the classroom, objectives and activities are listed in the following section.

OBJECTIVES

A. Acquire knowledge that in any community there is a wide variety of occupations.

B. To gain an understanding of the importance of the advertisement section of the daily newspaper in relation to occupations.

ACTIVITIES

A. Teach Advertising Section cards 66-71 and 74-77, News Lab

B. Teach Advertising Section cards 80-88, News Lab

GRADE 6

The Math Application Kit, SRA

The Math Application Kit is designed to make mathematical concepts more
relevant to the world of work. It can be used with small or large groups of students. The cards are grouped into sections: "Sports and Games," "Occupations," "Social Studies," "Appeteasers," "Science," and "Everyday Things." The difficulty in each section increases as the number on the cards increase in value. Other suggestions for using the kit are offered in the teacher's guide. It is suggested that students keep a folder on all of the cards which they have completed. The teacher may want to spend one class period in math weekly, using the kit as a class activity. Students enjoy working individually on cards after completing regular classroom assignments.

To further assist the teacher in utilizing the kit, the career objectives and activities for the Math Application Kit are listed in the following section.

**OBJECTIVES**

A. To understand that many occupations require mathematical applications.

B. To encourage further development of problem-solving techniques.

**ACTIVITIES**

A. Teach "Sports and Games" and "Everyday Things," Math Application Kit

B. Teach "Appeteasers" and "Occupations," Math Application Kit

**UPPER ELEMENTARY**

*Popeye the Sailor Career Education Comic Books, King Features Syndicate*

This set of comics is an informative set of books which can be used in the upper elementary grades to supplement reading and social studies material. The set includes a comic book for each of the fifteen occupational clusters,* each conveying to the reader, the qualifications required for occupations in

*A list of the 15 occupational clusters and puzzles on career clusters are included in the appendix of this manual.
various fields. The material can be used as a highly creative motivating device for inticing students to read and to learn about careers.
GUEST SPEAKERS AND FIELD TRIPS

Resource speakers and site visitations are useful for incorporating career concepts with subject areas. Such resources provide students with first-hand information about careers, life styles, job requirements, and work atmospheres.

Guest Speakers

Resource speakers, representing numerous occupations, are available and enthusiastic about sharing information about their careers and life styles with students. Following is a list of career areas in which speakers are available.

U.S. Air Force
Accountant
Attorney
Court Reporter
Judge
Banker
Bank Teller
Bookkeeper
Barber
Building Contractor
Cameras - Service Representative
Carpenter
Coach
Chemist
Chemical Plant (Operator)
Computer Analyst
Construction Superintendent
Cosmotologist
Diving Supervisor
Draftsman
Driller
Electrician
Employee Relations Associate
Engineer
Captain
Crab Factory Worker
Gauger
Deputy
Deputy Clerk of Court
Assistant District Attorney
State Policeman
Shift Coordinator
Lederman
Housewife
Home Economics Teacher

Insurance Supervisor
Maintenance Clerk
Librarian
Laborer
Maintenance Coordinator
Minister
Sr. Operator
Dental Technician
Heart Surgery Technologist
Medical Technician
Neutropathic Physician
University Nurse
Registered Nurse
Plant Nurse
Lab Technician
X-Ray Technician
Nursery School Director
Painter
Production Foreman
Production Technician
Restaurant Operator
Safety Director
Sales Engineer
Secretary
Supply Room Clerk
Shift Supervisor
Supervisor Environmental Quality Control
Speech Therapist
Teacher's Aide
TV Repairman
Trucking Fleet Manager
Lady Truck Driver
Utilities Operator
Wildlife Agent
Welder
Writer
When a guest speaker is invited to the class, it is important that teachers and students be well prepared. The following suggestions may be helpful:

1. Suggest a time limit for the presentation.
2. Advise the guest to bring some of the tools of his trade.
3. Encourage the guest to involve the students in a task that he generally performs at work.

Active involvement during the visits can help these experiences be particularly meaningful to the students. The following are suggestions for increasing student involvement:

1. Encourage students to gather information relative to one or several characteristics of the visitor and his work.
2. Encourage the use of appropriate questions or other data-gathering devices.
3. Have students develop hypotheses about what a particular worker is like before the visit; decide how to test their hypotheses; obtain the relevant information during the visit; and use this information to determine later the accuracy of their hypotheses.
4. Allow one group to act as hosts or hostesses, meeting the guest at the main office and directing him to the room.
5. Maintain a rotating chairmanship for introducing guests.
6. Allow experienced students to help operate audio-visual equipment.
7. Provide students with material to make a large name card to be displayed when guests are visiting.

The students may ask the following questions (adapted from The Valuing Approach; Waco: Educational Achievement Corporation, 1974) which are related to career concepts.

CONCEPT I: People work to satisfy many needs.

1. What do you enjoy most about your job?
2. What are some rewards, besides money, that you get from your job?
3. Do you work with a group or by yourself? Do you like that better?
4. What caused you to choose this job?
5. What other reasons do you think are important when you choose a job?

CONCEPT II: Many work roles may satisfy a person's needs and interests.
1. What other jobs have you had?
2. What are some other jobs you think you would like?
3. What do you do for fun?
4. Do you do anything in your job that you also do for fun?
5. Did you think about taking any other jobs when you were deciding about the one you have now? What were they?

CONCEPT III: Everyone makes career decisions.
1. How did you find out about your job?
2. Did you just happen to take your job, or did you really want this job?
3. What jobs did you miss because you chose this one?
4. What are the most important decisions you have ever made?

CONCEPT IV: Career development is a lifelong process.
1. What did you want to be when you were younger? How has that changed over the years?
2. Do you think you may change your mind again?
3. How many different jobs have you had? How long have you had this one?
4. What training or schooling did you have? Have you had to learn new things or go back to school?
5. Do you have any plans for retirement? How will you spend your time?

CONCEPT V: A person's work role is influenced by his environment.
1. Have you ever had to move for a job?
2. Do you ever see the people you work with when you have finished working?
CONCEPT VI: People are unique and should not be stereotyped according to their occupations.

1. How is your job different from other jobs at your work site? How is it like the other jobs at your work site?
2. If you had to take some kind of test for your job, did everyone who works where you do have to take the same test?
3. Do the people you work with have the same hobbies that you have? What are they?
4. Do the people who have your job all have something in common? What?
5. Do you think you are like the people you work with? Different? In what ways?

CONCEPT VII: Worker roles are interdependent.

1. If you are sick, who does your job?
2. How does your job help to make the "finished produce?"
3. Who works on the "product" before you get it? After you work on it?
4. Are risks involved in your job?
5. Do you decide when you work, or does someone else decide that?
6. Have you ever had a job that is now done by a machine?
CONCEPT VIII: Technology brings about change in our society.

1. What tools or machines do you use in your work?
2. How do machines help make your job easier? Harder?
3. Do you like operating tools or machines? How did you learn?
4. How was your job done twenty-five years ago?
5. Have you had to learn new things?
6. Have you ever had a job that is now done by a machine?

CONCEPT IX: Work roles for some may be leisure-time activities for others.

1. What are your hobbies?
2. Do you do anything for fun that you also do on your job?
3. Do you have to work overtime? Do you still have time for hobbies and other fun things?
4. Do you have a job that might be a sport or hobby for someone else?
5. Do you wish you had more leisure time? How would you spend it?

**Fluid Trips**

Students can appreciate the reality of work roles and atmospheres when they experience work situations first hand on field trips. The following list represents available work sites for visitation.

- American Bank
- Bank of St. Charles
- Bunny Bread
- Court of Appeals
- Hahnville Court House
- Eastman Kodak
- Mademoiselle's Beauty Salon
- Cattleman in Des Allemands
- Construction Sites (Geo. Landeche)
- Intercity Construction Co.
- Southport Construction Co.
- Com-Plex
- Michel Lecier Divers Inc.
- Fisheries - Crab Factory
- Seafood Processing Plant
- Farmers Export
- Ford's Texaco Service
- Monsanto
- St. Charles Hospital
- Loyola University Hospital
- LSU Medical School
- Little People's Day Nursery
- St. Charles Guide
- Hahnville Post Office
- St. Charles Parish School Board
- McBroom's Drive In
- Danny's Fried Chicken
- Spartan Supply
- Villere Marine, Hahnville
- Shell Oil Company
- Louisiana Power and Light Company
- Ned's TV Service
- Alter Fleet, Inc. (Trucking)
- St. Charles Waterworks
Some of the same rules apply to taking field trips as to inviting visitors to the classroom. The people at the work site will need to know something about the activities of the class and the purpose for the visit. They will need to be given a time limit for the visit, encouraged to demonstrate the tools of their trade, and encouraged to involve the children, if possible. A typical field trip gives each child the opportunity to observe workers in their occupational roles. Meaningful field trips do not just happen -- they require careful planning.

The following suggestions (adapted from The Valuing Approach; Waco: Educational Achievement Corporation, 1974) may be helpful in planning field trips:

A. Choose to visit with a worker whose work is related to a topic your class is studying.

2. Language Arts: newspaper office, publishing company, telephone company, television-radio station, advertising agency.

3. Mathematics: building-contracting company (or carpenter), supermarket, bank.

B. Make necessary arrangements with school, business, and parents for the following:

1. Transportation to and from site of visit.

2. Supervision of children by parents or other helpers.

3. Permission slips from parents.

4. Insurance restrictions of field-trip site.

5. Location of restrooms at sites.

6. Restrictions of children during visit.
C. Be as familiar as possible with the site yourself before taking your class there.

D. Specify acceptable and unacceptable behavior for the trip. Children should know what they can touch, what they may ask, and how they are expected to behave.

E. Provide guidelines for general observations. The following questions may be helpful in ascertaining the effect of the work role on the worker:

1. Do the workers seem to enjoy what they are doing? Why do you think so?

2. How does the work site look, smell, and feel? How might these things affect the employees?

3. Does the worker's job require a strict routine, or is he free to be creative? How might these things affect him or his work?

F. After the field trip, or perhaps the following day, allow the children to reflect upon their experiences. The following questions may be asked:

1. Do you think you might enjoy doing any of the jobs you saw on the trip? Which one(s)? What makes those special?

2. What contribution do you think the workers you saw make to the community? Explain.

3. What about that place of business would cause you to like or not like working there? How do you think the workers felt after a day in that environment?

4. Would you like to wear the kind of clothes the workers were wearing? Would you like to wear a uniform to school each day? What would be good about it? What would not be good about it?

5. What kinds of leisure-time activities might the workers and their families prefer to participate in after a day of work?
UNITS FOR IMPLEMENTATION OF CAREER EDUCATION

Elementary Level

<td>RESOURCES</td>
<td>EVALUATION</td>
</tr>
<tr>
<td>----------------------------------------------------------------------------</td>
<td>-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
<td>----------------------------------</td>
<td>---------------------------------------------------------------------------</td>
</tr>
<tr>
<td>2. Each student will be able to find at least one picture of a school worker and orally discuss it with the class.</td>
<td>2.1 Students are to find as many pictures of school workers as they can and present them orally to the class.</td>
<td>Magazine pictures, newspapers</td>
<td>1 picture presented = 1 point</td>
</tr>
<tr>
<td>3. Each student will participate in making and working on puzzles in small groups.</td>
<td>3.1 Students will work in small groups making posters of school workers, discussing the school workers in their groups.</td>
<td>Pictures, poster board, glue</td>
<td>All additional pictures = 1 point each</td>
</tr>
<tr>
<td></td>
<td>3.2 Teacher will cut posters into puzzle pieces.</td>
<td>Scissors</td>
<td>Teacher will observe that students are participating in activities.</td>
</tr>
<tr>
<td></td>
<td>3.3 Students will work puzzles in small groups. Groups will take turns with puzzles until each group has worked each puzzle.</td>
<td>Puzzles</td>
<td>Each member of each group completing puzzles first receives one piece of candy.</td>
</tr>
</tbody>
</table>
Concept 2. Different workers perform different roles in school.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Upon completion of the activities, each student will be able to construct a notebook which includes a picture of each school worker and one duty for each worker, and orally present this information to the class.</td>
<td>1.1 Students will visit one school worker at a time (from previous list) and observe work atmospheres. Students will listen to workers discuss their duties, responsibilities, and tools.</td>
<td>School workers</td>
<td>Teacher will observe that students are participating in activities.</td>
</tr>
<tr>
<td></td>
<td>1.2 Following each field trip, students will discuss the roles of each worker and the importance of each to the school.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.3 Following each field trip and discussion, students will draw a picture of each worker.</td>
<td>Pencils, paper, crayons</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.4 Upon completion of booklets, each student will orally present his booklet to the class, listing as many duties as he can for each worker.</td>
<td>Booklets</td>
<td></td>
</tr>
<tr>
<td>2. Each student will be able to participate in the game, &quot;A School Helper's Role.&quot;</td>
<td>2.1 Students will play a game, &quot;A School Helper's Role.&quot; One team will describe the role of a school helper. The other team will guess the occupation of the worker. Winning team receives reward.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Each worker drawn = 5 points each
Each duty discussed = 5 points each
Each member of each winning team will receive one piece of candy.
# Concept 2. (Continued)

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>3. Each student will be able to participate in a singing skit, &quot;If I Were A Principal.&quot;</td>
<td>3.1 Students are to learn the song, &quot;If I Were A Principal.&quot;</td>
<td>Song attached at end of unit.</td>
<td>Teacher will observe that all students are participating in activities.</td>
</tr>
<tr>
<td></td>
<td>3.2 Students are to take turns role-playing the different workers in the school as the part comes up.</td>
<td>Piano, if available.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>3.3 Students are to present the singing skit to another class.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

# Concept 3. Different workers require different tools to perform their skills.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Upon completion of activities, each student will be able to make at least one element of a &quot;school helpers&quot; mobile.</td>

<td>Resource speakers</td>
<td>Teacher will observe that students are participating in activities.</td>
<td></td>
</tr>
<tr>
<td>1.4 Students will compose questions which they will ask of visiting workers.</td>
<td>Paper, pencils</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.5 Students will write thank you notes to speakers.</td>
<td>Paper, pencils</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.6 Students will play game: &quot;Who Am I?&quot; Each student will select a card (in the shape of a worker's hat) from a grab bag and pantomime the role of the worker. The student who guesses the occupation first will get the next turn.</td>
<td>Worker's hat cards</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.7 Students will learn song, &quot;Put On Your Hat.&quot; (attached at end of unit)</td>
<td>&quot;Put On Your Hat&quot;</td>
<td>5 occupations and 5 tasks matched correctly to 5 hats = 10 points each</td>
<td></td>
</tr>
<tr>
<td>1.8 Students will complete ditto sheets with 10 hats to be matched to 10 occupational titles and 10 work tasks.</td>
<td>Quiz &quot;Whose Hat is it?&quot; (attached at end of unit)</td>
<td>All additional occupations correctly matched to hats = 5 points each</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>All additional work tasks correctly matched to hats = 5 points each</td>
</tr>
</tbody>
</table>
### Concept 1. (Continued)

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>2. Each student will be able to construct a hat of the worker about which he reported.</td>
<td>2.1 Students will make hats of workers about whom they reported and place them on a table.</td>
<td>Construction paper, scissors, tape, marking pens</td>
<td>Teacher will observe that students are participating in activities.</td>
</tr>
<tr>
<td></td>
<td>2.2 Students will select the hat of a worker other than his own and discuss:</td>
<td>Hats</td>
<td></td>
</tr>
<tr>
<td></td>
<td>- Someone he has seen wearing the hat</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>- What that person does in the job</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>- How the job contributes to society</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>- Desirable work habits</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Concept 2. Different jobs have different skill requirements.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Upon completion of the activities, each student will be able to write and orally present a report on a worker, including job title, one or more job requirements and skills, and one or more desirable work habits.</td>
<td>1.1 Students will collect headgear of various occupations by borrowing hats from parents, relatives, neighbors, etc.</td>
<td>Workers' hats</td>
<td>Teacher will observe that students are participating in activities.</td>
</tr>
<tr>
<td></td>
<td>1.2 Students will choose a hat and do research:</td>
<td>&quot;I Want To Be&quot; books; Carla Greene Dictionary Encyclopedia</td>
<td></td>

PUT ON YOUR HAT

Ride your horse and rope the cow. Put on your cow-boy hat. (clap, clap)

2. Put on your baseball cap.
Put on your baseball cap.
Hit the ball and make a run.
Put on your baseball cap.

3. Put on your football helmet.
Put on your football helmet.
Catch the ball and make a score.
Put on your football helmet.

4. Put on your chef's hat.
Put on your chef's hat.
Make a stew and omelet too.
Put on your chef's hat.

5. Put on your engineer's cap.
Put on your engineer's cap.
Steer the train straight down the track.
Put on your engineer's cap.

6. Put on your nurse's hat.
Put on your nurse's hat.
Bring a pill and give a shot.
Put on your nurse's hat.

7. Put on your fireman's hat.
Put on your fireman's hat.
Pull the hose and squirt the fire.
Put on your fireman's hat.

8. Put on your mailman's hat.
Put on your mailman's hat.
Deliver the mail and say, "hello."
Put on your mailman's hat.

9. Put on your policeman's hat.
Put on your policeman's hat.
Keep the people safe from harm.
Put on your policeman's hat.

Put on your safety hat.
Turn the valve and watch the gauge.
Put on your safety hat.
PROTECTS THE PUBLIC
USES A HOSE
WATCHES GAUGES
MAKES A TOUCHDOWN
GIVES SHOTS
MAKES HOME RUNS
COOKS FOOD
DELIVERS LETTERS
DRIVES A TRAIN
ROUNDS UP THE CATTLE

WHOSE HAT IS IT?

ENGINEER
COWBOY
BASEBALL PLAYER
POSTAL WORKER
CHEMICAL WORKER
FIREMAN
NURSE
POLICEMAN
CHEF
FOOTBALL PLAYER

Match each hat to the proper name and job by drawing a line.

**THE PROCESS OF PHOTOSYNTHESIS**

Unit Developers: Members of St. Charles Parish Career Education Course.

Grade: 6

Subject-Areas: Science, Social Studies, Language Arts.

Goal: To help pupils understand the process of photosynthesis and that many careers are related to biology.

Concept 1. Photosynthesis is the process whereby green plants produce food materials by utilizing carbon dioxide, water, and sunlight. The process occurs only in the presence of sunlight and chlorophyll.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Upon completion of activities, each student will be able to accurately diagram the process of photosynthesis.</td>
<td>1.1 Teacher will administer a pre-test to establish knowledge level of students.</td>
<td>Teacher made test on parts of plants and photosynthesis.</td>
<td>No grade will be given for test. Teacher will determine areas to stress in unit from weak areas on test.</td>
</tr>
<tr>
<td></td>
<td>1.2 Teacher will discuss terms: photosynthesis chloroplasts chlorophyll, etc.</td>
<td>Student text.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.3 Students will view filmstrips, films, or slides on parts of plants and photosynthesis.</td>
<td>Films and filmstrips from library and resource center</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.4 Students will list and study the function of the parts of green plants.</td>
<td>Student text</td>
<td>Teacher will observe that students are participating in activities.</td>
</tr>
<tr>
<td></td>
<td>1.5 Students will take field trip to collect plant specimens.</td>
<td>Field trip to Nature Trail in Paradis</td>
<td></td>
</tr>
</tbody>
</table>

104
<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.6 Students will dissect plants in class and make drawings of different parts.</td>
<td>specimens from field trip.</td>
<td>Teacher will observe that students are participating in activities.</td>
<td></td>
</tr>
<tr>
<td>1.7 Students will perform an experiment to extract chlorophyll from green leaves.</td>
<td>Specimens from field trip.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.8 Students will prepare soil in flats for growing plants.</td>
<td>Soil and flats.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.9 Students will orally discuss the process of photosynthesis.</td>
<td>Paper, pencils, marking pens</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.10 Students will diagram the process of photosynthesis and write a description of the process.</td>
<td>Correct diagram = 20 points</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Additional points may be given for paragraph</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Concept 2. In the process of photosynthesis, oxygen is released into the air.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Upon completion of suggested activities, each student will be able to accurately diagram the oxygen cycle in green plants.</td>
<td>1.1 Students will study the oxygen cycle.</td>
<td>Text, resource books, filmstrips</td>
<td>Teacher will observe that students are participating in activities.</td>
</tr>
<tr>
<td></td>
<td>1.2 Students will do experiment on the production of oxygen.</td>
<td>Mecuric oxide, heat source, text</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.3 Students will do experiment showing how oxygen supports burning and life.</td>
<td>Materials collected in previous experiments.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.4 Students will plant seeds and observe growth, making diagrams at different stages of development.</td>
<td>Seeds, prepared flats, paper, pencils</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.5 Students will make diagrams of the oxygen cycle in green plants.</td>
<td>Paper, pencils, marking pens, text</td>
<td>Correct diagram = 20 points.</td>
</tr>
</tbody>
</table>
### Concept 3: There is a parallel between the interdependence of living things, or division of labor in green plants, and the interdependence of people, or the specialization of occupations of people.

#### OBJECTIVES
- Each student will participate in small groups listing careers that are dependent on green plants, including at least 5 careers.
- Students will group careers into related career groups.
- Teacher will invite several speakers listed to address the class.
- Students will construct career trees dependent on green plants.
- Students will place career trees around the room and discuss them with the class.
- Students will bring to class products of careers listed on career trees.
- Students will show how these products depend on other careers to get to the market.
- Students will make a display showing the careers and stages of development through which a given product was derived from green plants.

#### ACTIVITIES
- Students will work in small groups listing careers dependent on green plants.
- Students will group careers into related career groups.
- Teacher will invite several resource speakers to address the class.
- Students will construct career trees dependent on green plants.
- Students will place career trees around the room and discuss them with the class.
- Students will bring to class products of careers listed on career trees.
- Students will show how these products depend on other careers to get to the market.
- Students will make a display showing the careers and stages of development through which a given product was derived from green plants.

#### RESOURCES
- Books
- Paper, pencils
- Resource speakers
- Wire, pictures, yarn
- Career trees
- Career trees
- Career trees
- Career trees

#### EVALUATION
- Career tree with 5 careers = 10 points
- Each additional career = 4 points each

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.3 Teacher will read to the class appropriate pages in <em>Popeye the Sailor and Construction Careers</em>.</td>
<td>Career Comic Books, King Features</td>
<td>Teacher will observe that students are participating in activities.</td>
<td></td>
</tr>
<tr>
<td>1.4 Students will work in small groups to make work briefs on each occupation.</td>
<td>Research books</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.5 Students will write poems about each occupation.</td>
<td>Paper, pencils</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.6 Teacher will arrange for contractor to address class and answer questions concerning construction careers.</td>
<td>Resource speaker</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.7 Students will visit construction sites to observe workers and their tools and tasks.</td>
<td>Field trip</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.8 Students will make a list of as many construction workers as they can name.</td>
<td>Paper, pencils</td>
<td>5 jobs listed = 2 points each</td>
<td></td>
</tr>
<tr>
<td>1.9 Students will learn songs: &quot;The Carpenter,&quot; &quot;New House.&quot;</td>
<td>&quot;New House&quot; and &quot;The Carpenter&quot; (attached at end of unit).</td>
<td>All additional jobs listed = 2 points each</td>
<td></td>
</tr>
</tbody>
</table>
## Concept 2. House plans are drawn to scale.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. After completing activities, each student will be able to draw house plans in small groups (for bird house).</td>
<td>1.1 Teacher will arrange for an architect or draftsman to address the class.</td>
<td>Resource speaker</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.2 Students will perform simple tasks of drawing things to scale (measure desk and draw to scale, etc.).</td>
<td>Graph paper, pencils, rulers</td>
<td>Each house plan = 5 points for each member of the group</td>
</tr>
<tr>
<td></td>
<td>1.3 Students will work in small groups to draw up house plans for bird houses.</td>
<td>Graph paper, pencils, rulers</td>
<td></td>
</tr>
</tbody>
</table>

## Concept 3. Carpenters are essential in the construction of a house.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Each student will participate in small groups to build a wooden bird house.</td>
<td>1.1 Teacher will arrange for a carpenter to address the class and demonstrate wood-working skills.</td>
<td>Resource speaker</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.2 Students will work in small groups building bird houses from plans.</td>
<td>House plans, wood, nails, glue</td>
<td>Each student participating in building a bird house will receive 25 points</td>
</tr>
</tbody>
</table>
### Concept 4.
Many houses require the skills of a brick mason.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Each student will participate in building a brick planter at school.</td>
<td>1.1 Teacher will arrange for a brick mason to address the class and demonstrate skills needed to construct a brick planter.</td>
<td>Resource speaker</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.2 Students will draw up plans for a brick planter.</td>
<td>Graph paper, pencils, rulers</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.3 Students will mix together mortar and construct a brick planter.</td>
<td>Mortar mix, bricks, trowel</td>
<td>Each student participating in building the planter will receive 25 points</td>
</tr>
</tbody>
</table>

### Concept 5.
The skills of a paper hanger, painter, and sheet rock finisher are necessary in building many houses.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Each student will participate in making a room divider for the classroom.</td>
<td>1.1 Teacher will arrange for guest speakers to address the class and demonstrate the skills necessary for constructing a room divider.</td>
<td>Resource speakers: Sheet rock finisher Paper hanger Painter</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.2 Students will draw up a plan for a room divider.</td>
<td>Graph paper, pencils, rulers</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.3 Students will construct a room divider by cutting, taping, and finishing sheet rock and applying wall paper to one side and painting the other.</td>
<td>Sheet rock, saw, tape, plaster, wall paper, paste, scissors, roller, paint, brushes</td>
<td>Each student participating in building the room divider will receive 25 points</td>
</tr>
</tbody>
</table>
## Concept 6. Electricians are essential in building a house.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Each student will be able to accurately diagram the flow of electricity from the switch box to the light and back again and also splice two wires together.</td>
<td>1.1 Teacher will arrange for an electrician to address the class and diagram the flow of electricity and demonstrate the splicing of electrical wires.</td>
<td>Resource speaker</td>
<td>Each diagram = 15 points</td>
</tr>
<tr>
<td></td>
<td>1.2 Students will make diagrams of the flow of electricity from the source to the light bulb and back to the source.</td>
<td>Paper, pencils, marking pens</td>
<td>Each wire spliced correctly = 10 points</td>
</tr>
<tr>
<td></td>
<td>1.3 Students will splice electrical wires.</td>
<td>Small pieces of electrical wire</td>
<td></td>
</tr>
</tbody>
</table>

## Concept 7. Building a house requires the cooperation of all workers involved.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Each student will be able to write a paragraph of at least 25 words concerning the cooperation necessary for workers involved in building a house, naming at least 5 workers.</td>
<td>1.1 Teacher may arrange for other construction workers to address the class.</td>
<td>Resource speaker</td>
<td>Paragraph with 25 words and 5 workers = 50 points</td>
</tr>
<tr>
<td></td>
<td>1.2 Students will discuss cooperation needed in building a house.</td>
<td></td>
<td>Additional points may be given for additional workers and quality of paper.</td>
</tr>
<tr>
<td></td>
<td>1.3 Students will write a paragraph listing as many workers as they can and explaining the necessity of cooperation among these workers.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
NEW HOUSE

New house. Build it up! Who's going to help me? Build it up!

Bring me a hammer. Build it up! Bring me a saw. Build it up!

Next thing you bring me, Build it up! Is a carpenter man. Build it up!

Substitute other tools and workers to get the house built.
1. The carpenter is working, sawing his lumber; I like to watch him
2. The mason is working, mixing his mortar; I like to watch him

work-ing, saw-ing his lum-ber. He goes ris, We go ras, He goes ris,
work-ing, mix-ing his mor-tar. He goes push, We go woosh, He goes push,

We go ras, Un-til he's cut his lum-ber, Then he will stop.
We go woosh, Un-til he's made his plas-ter, Then he will stop.
PEOPLE AND THEIR WORK

Unit Developers: Ruby Barlow, Nancy Billingsley, Veronica Green, Carolyn Matherne, Mamye Wade, and Danny Waterman.

Grade: 1-2

Subject Areas: Social Studies, Language Arts, Art, Music.

Goal: To increase students' awareness of many careers available within our society.

| Concept 1. Individuals are born resources of society. |
| Concept 2. Individuals have many kinds of careers. |
| Concept 3. Occupations contribute to society's progress. |
| Concept 4. Meaningful, rewarding careers are available to every individual. |

WORKER PLAY

The characters are:

Dentist, mailman, policeman, nurse, milkman, doctor, and teacher

DOCTOR:

I am a doctor. My job is to help make sick people well. Let's take a visit to my office. Open your mouth and say "ah." Sit up straight. I am going to listen to your heart. Take a deep breath, let out, deep breath, let out. You have a virus. Take this prescription to your druggist. Take the white tablet 3 times a day. Come back and see me in one week if you are not feeling better.

I enjoy my job helping others.

DENTIST:

I am the dentist. If you were to visit my office, you might hear me saying:

Step up in the chair. Lay your head down. Open your mouth wide. I am going to check your teeth. I am brushing your teeth with strawberry toothpaste. This tooth looks like it will have to come out. Don't worry, it will be over in a little while. You have been a good little boy, so here is a ring for you.

I enjoy my job helping boys and girls, moms and dads, grandmothers and grandfathers keep a bright healthy smile.

NURSE:

I am the doctor's helper. You might hear me say:

O.K. Johnny, get on the scale. You weigh 60 lbs. Now lie down on the table. Put this under your tongue. Roll up your sleeve. It won't hurt. Now then, it is all over. The doctor will be here in just a minute. Can you guess who I am? You are right. I am a nurse.

MAILMAN:

(Whistle) (Sing a little song.) Good morning, Mrs. Brown. Here is a letter for you. (Whistle) (Sing a little song.) (Knock on the door.) Hello. Here's a package for you. I carry packages and letters to all people. Sometimes I get bitten by a dog, but that doesn't stop me. I keep on smiling while I deliver the mail.
POLICEMAN:

I am a policeman. I help make the city a safe place in which to live. If you travel with me and my squad, you might hear this: Stop! (hold up hand) Come on. (wave hand) O.K. lady, let's see your driver's license. You were traveling 50 miles per hour and the speed limit is 40. I'll have to give you a ticket. I really am your friend.

TEACHER:

Good morning boys and girls. Let's get ready for language arts. What! You don't have a pencil? How can you do your work without a pencil? Billy, read page one. Very good, Billy. I am so proud of you.

I am a teacher. I taught the doctor, the nurse, the mailman, the policeman, and the dentist. Wouldn't you like to be a teacher like me?
If I were a teacher and a teacher were I, I'd go this-away,
If I were a doctor and a doctor were I, I'd go this-away,
If I were a dentist and a dentist were I, I'd go this-away,

And-a that-away, And-a this-away would I.
And-a that-away, And-a this-away would I.
And-a that-away, And-a this-away would I.
DENTAL HEALTH WORKERS AND THE LAW

Unit Developer: Nancy Billingsley.

Grade: 3-4

Subject Areas: Health, Language Arts, Social Studies, Art.

Goal: To increase the students' awareness of dental health concepts and dental health and legal careers.

Concept 1. Dental health workers have various jobs and contribute to society.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. After completing suggested activities, each student will be able to list at least 2 dental health workers.</td>
<td>1.1 Teacher will present the Health Career Cluster to the class and introduce dental health occupations.</td>
<td>&quot;Career Concepts and 15 Career Clusters&quot;</td>
<td>Teacher will observe that students are participating in activities.</td>
</tr>
<tr>

SCHOOL ____________________________

TEACHER ____________________________

STUDENT ____________________________

Dentist check teeth and gums. They clean teeth and take x-rays. Dentists fill cavities. Dentists can pull teeth. They can make artificial teeth. Dentists can also straighten crooked teeth. Dentists can also clean teeth. A dentist works in his office. He has a special chair with many instruments at his fingertips. He usually wears a white lab coat when he is working. A dentist can teach and do research also. Both boys and girls can be dentists.
To do this work you should like to:

Work with your hands
Be patient

A dentist must be able to:

Be on his feet for long periods of time
Do delicate work with his hands
Go to dental college after high school
How can you learn more about this job?

Talk to a dentist

Read books and magazines in your library

Visit a dentist's office or a dental laboratory

What can you do now if you want to find out if you might like to be a dentist?

Learn about the foods that are necessary to build good strong teeth

Learn and use the correct way to brush your teeth

Work with your hands
THE TRIAL OF THE
DENTAL HEALTH SIX

A One-Act Play
To Be Performed By Pupils*
As A Part Of
Dental Health Education

*Third or Fourth Grade Suggested
ABOUT THE PLAY

This dental health play was developed in response to suggestions from third grade teachers and dental health professionals who indicated that such an activity would be 1) fun and educational for pupils and 2) one of the best ways to expose parents to the dental health program of the school.

The play is one of a number of educational aids made available to selected schools by the Crest Professional Services Division of The Procter & Gamble Company. The broad objective of the program is to provide aids to teachers which will enable them to help children build good dental health habits which will last a lifetime.

Two third grade teachers who are members of the Advisory Council to the Crest School Program gave invaluable help in developing and trying out the play with their classes. They are Mrs. Jacqueline Bryant of the May Howard School in Savannah, Georgia and Miss Bonnie Karns of the Jennie E. Smith School in Newark, Delaware. We are indebted to these two teachers, to their pupils and to the dental hygienists in these schools. The experiences and recommendations resulting from the "trial runs" are reflected in the script itself as well as in the suggestions for putting on the play.

OBJECTIVES FOR PARTICIPATING PUPILS

. Increased understanding of the interlocking factors which play a part in good dental health (toothbrushing, fluorides, dental checkups, diet)

. Greater willingness to accept personal responsibility for the daily care of one's teeth

. Increased understanding of the long-range benefits of practicing good dental habits as children

. Recognition of the vital importance of dental checkups; viewing the dentist as a friend and helper

PLUS ... Aside from the dental health education objectives, pupils gain skills involved in memorizing lines and speaking clearly, develop more poise and grace in movement and, in general, gain from the exercise in self-expression and cooperation in a team effort.

DESIRABLE OUTCOMES FOR AUDIENCE

. For parents who view the play, a renewed personal commitment to fulfill their essential role in encouraging better dental health practices among their children and in checking up on their own dental health habits

. For anyone in the audience, a review and personal application of today's basic dental health philosophy -- which has implications for all who wish to keep their teeth for a lifetime

139
PRODUCTION HINTS

Complete scripts could be handled (on stage) by the Judge and the two Attorneys if this seems desirable, since these characters would normally have "papers" and folders with them in court. Also, the Judge might serve as a "prompter" to other characters, if needed.

Either an auditorium (with a stage) or a large classroom may be used to present the play. The play has been produced successfully in both situations. Where a classroom was converted, a screen was set up for pupils to stand behind until time for their appearance.

Pupils will need practice in projecting their voices and in pausing for laughter where appropriate. One of the teachers found it helpful to use a tape recorder for rehearsals, so pupils could listen to and evaluate their performances. A person skilled in dramatics might be invited to come and give special hints to the children.

"BEFORE" AND "AFTER" TIPS

BEFORE the play is presented, it would be helpful to have a few words of welcome and explanation by a moderator (teacher, school nurse, dental hygienist, or pupil). The moderator should explain that the play represents a culmination of a Dental Health Program and review of the activities of the pupils. If the play is presented during National Children's Dental Health Week, this event (and its purpose) should be commented upon as well.

AFTER the play, it would be useful to have a dental health expert (dentist, dental hygienist, or nurse) on hand to review the key aspects of dental health and the responsibility each person must assume if he or she wishes to have healthy teeth for a lifetime. If there is a parent audience, it would be well to stress their important role in the dental health of children. They might be invited to ask questions of the expert. The end of the play might be a good time to distribute copies of the parent letter/pupil quiz which was designed to promote parent-pupil interaction.
CHARACTERS

Clerk of the Court
Judge Wisdom
Terry Teen-Ager
Pete Good, the People's Protector
Jerry Jason, Attorney for Terry Teen-Ager
Prisoners (The Dental Health Six)
   Dr. Smile, a Dentist
   Miss Kindly, a School Nurse
   Mrs. Worker, Terry's Mother
   Tommy Toothpaste
   Bobby Toothbrush
   Candy Sweet
Jurors
(Use all pupils not assigned to another part)

JUDGE
Should wear a black (or colored) robe with flowing sleeves; might be borrowed from local clergy or choir member; or a graduation gown could be used.

PETE GOOD
Could wear an adult jacket and tie (not essential); adult-sized glasses (frames only)

DENTIST
Should wear a dental coat (sleeves can be rolled up) or a man's shirt turned backward

SCHOOL NURSE
Should wear a white uniform (can be too large) and a nurse's cap

MOTHER
Should wear a mature-looking dress below knees (can be too large); hat; big purse; wig, if desired
JERRY JASON
Could wear an adult jacket and tie (not essential); adult-size glasses (frames only)

TOMMY TOOTHPASTE
Costume could be made from an old pillowcase with holes cut for arms and neck, slit in center back part way and tied with string and large toothpaste tube drawn on front or tube could be cut from cardboard and pinned on (Note: could also use an old sheet or muslin cut to pillowcase size)

BOBBY TOOTHBRUSH
Costume could be made in same manner as the one described for Tommy Toothpaste, with a sketch of toothbrush substituted for the toothpaste

CANDY SWEET
Costume could be made in same manner as the one described for Tommy Toothpaste, with sketches of various kinds of sweet foods substituted for the toothpaste

TERRY TEEN-AGER
Should wear a wig done in a mature style; a midi- or maxi-skirt should be worn over her own shorter skirt or dress (the long skirt and wig to be removed at the end of the play to transform her from a teen-ager back to a third grader)
THE SCENE: A COURTHROOM

- A desk and chair for the Judge are arranged in the center back of stage (on a raised platform if possible).
- Chairs for the jury are arranged to the right of the Judge (slanted so jury members can look at the Judge or the audience).
- Chairs for the six prisoners are arranged partially in front of Judge's desk (but not to obscure him); or use low stools or nursery school chairs if desk can't be raised.
- Chair or high stool for Clerk of Court is to the left of the Judge.
- Chairs (3) and small tables (2) for Pete Good, Jerry Jason, and Terry Teen-Ager are at front extreme left of stage.
REQUIRED PROPS:

1. Sign for courtroom:

2. Gavel for Judge

3. Pencil for Clerk

4. "A Healthy Tooth" poster
   (mounted on cardboard for easier handling)

5. Dental floss

6. Over-size illustration of ADA seal (which appears on toothpaste) (mounted on cardboard for easier handling)

7. Yarn or ribbon in a bright color (to connect prisoners)

OPTIONAL PROPS:

(For use in courtroom)

1. State and United States flags

2. Pictures (drawn by pupils) of U.S. Presidents

3. Sign: "Silence - Court In Session"

4. Sign for jury section: "Jury"

5. Sign: "On Trial Today: The Dental Health Six"

6. Any other "decorations" pupils think would be appropriate for a courtroom
THE TOOTHACHE MYSTERY
The Trial of the Dental Health Six

When the curtain opens, the Clerk, Jury, Pete Good, Jerry Jason and Terry Teen-Ager are in their places. The Judge enters and everyone rises. The Judge strikes the desk with his gavel.

JUDGE: I declare the Supreme Court of the State of Prevention now in session. (He sits down and the others follow suit; Judge turns and speaks to Clerk) Has the jury been sworn in?

CLERK: Yes, your Honor.

JUDGE: What is the first case?

CLERK: (Stands and reads in a loud, clear voice from a sheet of paper, pronouncing each word distinctly) Terry Teen-Ager ... versus ... the ... Dental Health Six. (Clerk sits down)

JUDGE: Who represents Terry Teen-Ager?

JASON: (Stands up) I do, your Honor.

JUDGE: Please state the charges.

JASON: My client charges that the Dental Health Six let her get a terrible toothache. (Jason sits down)

JUDGE: Who represents the Dental Health Six?

GOOD: (Stands up) I do, your Honor. (Good sits down)

JUDGE: Clerk, bring in the prisoners.

(Clerk leaves the stage and returns leading six prisoners; a bright yarn or ribbon loosely connects the prisoners at their wrists, in such a way as to be clearly visible to the audience; they stand in front of the six chairs)
CLERK: (Speaking to prisoners) Do you swear to tell the truth, the whole truth and nothing but the truth?

PRISONERS: (All speaking together) Yes sir!

CLERK: You may be seated. (Prisoners sit down; Clerk returns to his seat)

JUDGE: (Speaking to Jury) In this court, the Jury is permitted to ask questions of the prisoners. (Turns to Jason) Present your case, Mr. Jason.

JASON: (Gets up and walks over and stands in front of the Judge; looks toward Jury and audience) Your Honor, my client got a very bad toothache and, in the State of Prevention, that is against the law. She should have been protected. We charge that the prisoners conspired to let this bad thing happen to her.

GOOD: (Gets up from table) I object, your Honor.

JUDGE: On what grounds, Mr. Good?

GOOD: On the grounds that there has been no proof of a toothache.

JASON: I am coming to that, your Honor.

JUDGE: Objection overruled. Proceed, Mr. Jason.

JASON: (Looks toward Nurse) Miss Kindly, what do you do for a living?

NURSE: I am a School Nurse.

JASON: Will you tell the court what happened in your office at ten o'clock last Monday morning.

NURSE: Terry Teen-Ager came in crying. Her jaw was swollen. She said she had a bad toothache.

JASON: And what did you do?

NURSE: I told her to sit down and I looked in her mouth.

JASON: And what did you see?

NURSE: I saw a hole in her tooth, a cavity. And her gums were very red. I think they had been bleeding.
GOOD: (Jumps up and shouts) Objection, your Honor. The Nurse is just guessing. She doesn't know there was bleeding.

JUDGE: Objection sustained. (Looks toward Jury) You have a question for the Nurse?

JUROR: Yes, your Honor. I would like to ask the Nurse if she is supposed to help keep Terry and other school kids from getting toothaches.

NURSE: Yes, I am. And I did try.

JUROR: Would you tell us what you did.

NURSE: When Terry was in the third grade, I went to her class and the teacher and I showed her how to brush her teeth the right way.

JUROR: Is that all you did?

NURSE: No, I told her and the other pupils that they should do to the dentist at least two times a year, so he can check their teeth.

JUROR: Did Terry go to the dentist twice a year as you told her to?

NURSE: I don't think so.

GOOD: (Jumping up and shouting) Objection, your Honor. The Nurse is guessing again.

NURSE: Sorry, your Honor.

JUROR: Did you tell Terry anything else besides about brushing her teeth and going to the dentist?

NURSE: Yes. I told her she was eating too much candy and sweet foods between meals.

JUROR: Did you tell her what to eat for snacks instead of sweets?

NURSE: Yes. I told her it would be better to eat an apple, or cheese and crackers or pretzels or something not sweet.

JUROR: Did she follow your advice?

NURSE: I don't know. I couldn't follow her around and watch her.

JASON: Now, I would like to turn to the next prisoner. Dr. Smile, what is your work?

DENTIST: I am a dentist.
JASON: And when did you last see Terry Teen-Ager?

DENTIST: Last Monday when she had the toothache.

JUROR: I would like to ask the dentist if he is supposed to help keep kids from getting toothaches?

DENTIST: Yes, I am.

JASON: Then you have failed at your job. You are guilty, aren't you?

GOOD: (Jumps up and shouts) Objection, your Honor.

JUDGE: On what grounds do you object?

GOOD: The dentist is being convicted without telling his side of the story.

JUDGE: Objection sustained. Dr. Smile, tell us why Terry got a toothache.

DENTIST: Your Honor, a dentist cannot prevent a toothache or any kind of dental health trouble if a person does not come in for a checkup.

JUROR: How often does a person need to have a checkup?

DENTIST: At least six months, like Miss Kindly said.

JUROR: Why so often?

DENTIST: One reason I check up is to see if there is a tiny cavity. Then I could do something to stop it from getting big and painful like the one Terry has.

JUROR: When was the last time Terry came for a checkup?

DENTIST: Three years ago.

JUROR: Is that all you do -- see if the person has a cavity?

DENTIST: No, I do other things besides that. If they are young, I put fluoride on their teeth.

JUROR: Why do you do that?

DENTIST: (Turns to Judge) Your honor, may I ask my lawyer to bring something which will help me answer that question?

JUDGE: Yes, you may.

(Good brings the Dentist the "Healthy Tooth" poster)
DENTIST: (Holds the poster so Jury and audience can see it; he points to the enamel section of the tooth) You see this part of the tooth? Fluoride helps make it stronger and that helps prevent cavities.

JUDGE: Thank you, Dr. Smile. Give the chart to the Clerk and he will mark it Exhibit A. (Clerk takes chart, marks an "A" on the back and lays it on the Judge's desk)

JUROR: Did you put fluoride on Terry's teeth?

DENTIST: Not for the last three years. I couldn't because she didn't come to see me.

JUROR: Is that all you do for children's teeth -- just check for cavities and put fluoride on them?

DENTIST: Oh no. I clean off the hard material that can form on their teeth -- if they do not clean their teeth thoroughly and regularly.

JUROR: Why do you do that?

DENTIST: Because if I don't, it makes their gums get sore and bleed and some day they might get bad dental disease.

JUROR: But couldn't a person get rid of it himself by brushing his teeth?

DENTIST: No, it is very stubborn. It won't all come off with a toothbrush. I have special instruments.

JUROR: Do you do anything else for children?

DENTIST: Yes. I check to see if their teeth are growing in right. (Pulls dental floss from his pocket and holds it up, pulling some of the floss from the container) Also, as children get older, I show them how to use dental floss.

JUROR: Why do you do that?

DENTIST: Because together, brushing and flossing help them keep their teeth clean.

JUDGE: Clerk, please take the floss and mark it Exhibit B.

(Clerk takes floss, marks it and puts it on Judge's desk)

JASON: Your Honor, I would like to move on to the next prisoner, Mrs. Worker, the mother of Terry Teen-Ager.

MOTHER: (Looks around at Judge) I am innocent, your Honor.

JASON: How can you say you are innocent when you let your daughter get a toothache?
MOTHER: I work very hard. I am very busy. I have other children to look after who are younger than Terry.

JASON: But couldn't you make Terry brush her teeth?

GOOD: (Jumps up and shouts) Objection, your Honor. A teen-ager should not have to be told by her mother to brush her teeth.

JUDGE: I agree.

GOOD: And your Honor, I believe a teen-ager is old enough to remind her mother when it is time for a dental checkup.

JASON: But what about her eating habits? She's guilty about that!

GOOD: Objection, your Honor. Nobody can control how a teen-ager eats these days. I don't care how hard you try!

JUDGE: I agree again, Mr. Good. Proceed with the other prisoners, Mr. Jason.

JASON: Candy, did you help Terry get the cavity that caused her toothache?

CANDY: Can I help it if I'm so sweet nobody can leave me alone?

JASON: So you admit you are guilty?

GOOD: (Jumps up and shouts) I object, your Honor. Mr. Jason is trying to make Candy guilty without hearing her side of the story.

JUDGE: Objection sustained. Let's hear your story, Candy.

CANDY: Well, if Terry would leave me alone except at mealtime, I wouldn't be around as often to do her harm.

JUROR: Why do you say that?

CANDY: (Looks up at Judge) Could I borrow Exhibit A, your Honor?

JUDGE: Yes, you may.

(Clerk hands Candy the chart; she points to the section on tooth decay)

CANDY: Here you see the acid at work causing tooth decay.

JUROR: Where does the acid come from?

CANDY: Acid is made from bacteria and sugar.

JUROR: Where do the bacteria come from?

CANDY: Bacteria are in the mouth all the time.
JUROR: Are bacteria bad?
CANDY: No. Bacteria only cause trouble when sugar is present. They go to work and make acids.
JUROR: Does that mean that if Terry nibbles on candy or sweet foods all day, acid is at work all day?
CANDY: That's right. It's busy making cavities ... and they get bigger ... and bigger ...
JASON: Your Honor, I'd like to question another prisoner.
JUDGE: Proceed, Mr. Jason.
JASON: Bobby Toothbrush, what is your job in dental health?
TOOTHBRUSH: I help get teeth clean.
JASON: And did you do your job with Terry?
TOOTHBRUSH: I did when she gave me a chance. But lately she didn't give me a chance.
JUROR: Please explain that.
TOOTHBRUSH: She would go for days without ever putting me in her mouth.
JUROR: But when she did put you in her mouth, did you do your job?
TOOTHBRUSH: No, because she wouldn't use me in the way the Nurse and teacher told her to when she was in the third grade.
JASON: And what about you, Tommy Toothpaste? What is your job in dental health?
TOOTHPASTE: I have two jobs.
JASON: Would you tell us what those two jobs are?
TOOTHPASTE: First, I am supposed to help Bobby Toothbrush do his job. You know, cleaning teeth.
JASON: And what is the second job?
TOOTHPASTE: If Terry and other kids choose a toothpaste with fluoride, we help prevent cavities.
JUROR: How can a person know which is the right kind? There is a lot of toothpaste in the stores.

TOOTH-PASTE: (Looks at Judge) Your Honor, may I ask my lawyer to bring something?

JUDGE: Yes, of course.

(Good brings Toothpaste an enlarged illustration of the American Dental Association seal)

TOOTH-PASTE: (Holding up seal) It is very easy to choose the right toothpaste. Just look for this seal on the tube. It's from the American Dental Association.

JUDGE: Clerk, please mark the seal Exhibit C. (Clerk takes seal, marks "C" on back and puts it on Judge's desk)

JASON: So, Tommy Toothpaste, you haven't been doing either of your jobs on Terry, have you? Not cleaning. Not protecting.

TOOTH-PASTE: Well, I don't see how I can do my work if a person doesn't put me in her mouth.

JASON: I see. (He looks at the Judge) Your Honor, that is all of my case. (He walks back to table and sits down)

JUDGE: (Looks at Jury) Members of the Jury, you have heard the evidence. How do you find the prisoners?

JURY: (All speaking together in a loud voice) NOT GUILTY!

JUDGE: I would like to thank the Jury. (He looks at Terry Teen-ager) Terry, please come here. (Terry walks over to Judge) You have heard what the Jury said?

TERRY: Yes, your Honor.

JUDGE: They seem to think the six prisoners are not the cause of your toothache. Do you agree?

TERRY: I guess so, your Honor.

JUDGE: Who do you think is the cause?

TERRY: I guess I am.

JUDGE: Why did you let yourself get a toothache?

TERRY: I guess I forgot to brush my teeth and go to the dentist and do the other things I learned in the third grade.
JUDGE: Then you don't blame the Dental Health Six anymore?

TERRY: No sir. It was really my fault.

JUDGE: All right. First, I want you to go and free the prisoners. (Terry goes over and removes the yarn which connects the prisoners and puts it on the Judge's desk)

TERRY: Here it is, your Honor.

JUDGE: Thank you. How old are you, Terry?

TERRY: Eighteen, your Honor.

JUDGE: I am going to give you a 10-year suspended sentence. Do you know what a suspended sentence is?

TERRY: No, your Honor.

JUDGE: It means I am going to take 10 years away from your life.

TERRY: I don't understand what you mean.

JUDGE: When you leave this court you will be eight years old again.

TERRY: Oh no!

JUDGE: Yes. You will have a second chance to follow the dental health rules you learned in the third grade. Do you understand now?

TERRY: Yes, your Honor.

JUDGE: Clerk, carry out the sentence. (clerk comes to Terry; pulls off her wig and unfastens the long skirt she was wearing over her dress. She faces the audience)

GOOD: (Cups his hands around his mouth and speaks in a loud voice to the audience) It seems that the famous Jerry Jason has finally lost a case!

JUDGE: (in loud voice to audience) I declare this court adjourned! (Bangs desk with gavel)

- curtain -

Curtain opens and cast lines up at the center front of the stage, holding hands and bowing.
The fifteen occupational clusters and puzzles for each cluster are included in the following pages. The puzzles include job titles, articles used in the jobs, and terminology associated with the careers. Following the fifteen puzzles on career clusters are four additional puzzles on occupations in mixed clusters. After completing the four final puzzles, students may wish to guess in which cluster each occupation belongs. Words may be found up and down, diagonally, or backwards in each puzzle. Students are to circle words on the puzzle as they find them and scratch out the words on the list. All puzzles were developed by Mrs. Carolyn St. Amant, Counselor, New Sarpy.
FIFTEEN OCCUPATIONAL CLUSTERS
JOB CLUSTERS

I. Construction Occupations Cluster

A. Asbestos and Insulating Workers
B. Bricklayers
C. Carpenters
D. Electricians
E. Cement Masons (cement and concrete finishers)
F. Marble Setters, Tile Setters, and Terrazzo Workers
G. Operating Engineers (construction machinery operators)
H. Painters and Paperhangers
I. Plasterers
J. Plumbers and Pipefitters
K. Roofers
L. Structural, Ornamental, and Reinforcing-Iron Workers

II. Manufacturing Occupations Cluster

A. Aircraft, Missile, and Spacecraft Manufacturing
B. Aluminum Industry
C. Baking Industry
D. Electronics Manufacturing
E. Industrial Chemical Industry
F. Paper and Allied Products Industries
G. Petroleum Refining

III. Transportation Occupations Cluster

A. Civil Aviation
B. Merchant Marine Occupation
C. Railroads
D. Trucking Industry

IV. Agri-Business and Natural Resources Occupations Cluster

A. Conservation
B. Ecology
C. Electric Power Industry
D. Farming, Dairying
E. Forestry
F. Machinery (farm equipment)
G. Mining
H. Natural Gas
I. Petroleum
V. Marine Science Occupations Cluster
   A. Fisheries Development
   B. Forecasting Weather
   C. National Defense
   D. Plant and Animal Life

VI. Environmental Occupations Cluster
   A. Conservation
   B. Ecology

VII. Business and Office Occupations Cluster
   A. Accounting
   B. Advertising Workers
   C. Business Law
   D. Marketing Research
   E. Office Workers
   F. Personnel Workers
   G. Public Relations Workers

VIII. Marketing and Distribution Occupations Cluster
   A. Marketing Research
   B. Wholesale and Retail Distribution
   C. Trade

WORDS MAY BE FOUND UP AND DOWN, CROSS OR DIAGONALLY. SOME MAY BE WRITTEN BACKWARDS.
THESE ARE ALL NAMES OF OCCUPATIONS. THEY ARE FAIRLY COMMON ONES.

ACROSS
2. One who reads commercials and gives news.
5. Studies composition and chemical properties.
6. Gives assignments to reporters and evaluates stories.
7. Supervise and coordinate activities of blue collar workers.
10. One who fixes dead people for burial.
11. One who works in a store.
12. People in charge of football team.
14. Brick _____ or cement _____.

DOWN
1. Man who performs in plays or movies.
2. Plans and designs buildings.
3. Construct walls of brick, tile, and other materials.
4. Plans and prepares food for parties and weddings.
7. Raises crops, animals, poultry, etc.
8. Plants grass and cares for lawns.
13. Person who keeps cities clean.
Concept 10. The same good work habits are important to many different occupations.

Concept 4. Every career requires some preparation and skills.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. After completing suggested activities, each student will be able to write and present to class a report listing at least 5 requirements of one food service job.</td>
<td>1.1 Each student will do research on the job he reported on (concept 3: 1.2), and write a paper listing skills, experience, earnings, and educational requirements.</td>
<td>Results of Interviews Resource books, work briefs</td>
<td>Teacher will observe that students are participating in activities.</td>
</tr>
<tr>
<td>2. Upon completion of all unit activities, each student will be able to answer 50% of the questions correctly on a teacher-prepared unit test.</td>
<td>2.1 Each student will take a test covering all concepts presented in the unit.</td>
<td>Teacher-prepared test Pencils</td>
<td>50% of answers correct = 50 points</td>
</tr>
</tbody>
</table>

Additional requirements = 7 points each

Reports of 35 words including 5 job requirements = 45 points

Additional points for all correct answers over 50%
STUDENT INTERVIEW FORM

1. What is your name? ____________________________________________

2. Where do you live? __________________________________________

3. What type of work do you do? __________________________________

4. Who are you employed by? ____________________________________

5. What skills do you need for this kind of work? ____________________

6. What subjects best prepared you for this job? ____________________

7. Did you go to college? ________ Did you go to a trade school? ________
   Were you trained on the job for this type of work? ________________

8. What do you like best about your work? __________________________

9. What are several of the advantages of your work? ________________

10. What are some of the disadvantages of your work? ________________

11. What "good work habits" are important in your type of work? ________

12. Minimum salary __________________

13. Maximum salary __________________

THE PROCESS OF PHOTOSYNTHESIS

Unit Developers: Members of St. Charles Parish Career Education Course.

Grade: 6

Subject Areas: Science, Social Studies, Language Arts.

Goal: To help pupils understand the process of photosynthesis and that many careers are related to biology.

Concept 1. Photosynthesis is the process whereby green plants produce food materials by utilizing carbon dioxide, water, and sunlight. The process occurs only in the presence of sunlight and chlorophyll.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Upon completion of activities, each student will be able to accurately diagram the process of photosynthesis</td>
<td>1.1 Teacher will administer a pre-test to establish knowledge level of students.</td>
<td>Teacher made test on parts of plants and photosynthesis.</td>
<td>No grade will be given for test. Teacher will determine areas to stress in unit from weak areas on test.</td>
</tr>
<tr>
<td></td>
<td>1.2 Teacher will discuss terms: photosynthesis, chloroplasts, chlorophyll, etc.</td>
<td>Student text.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.3 Students will view filmstrips, films, or slides on parts of plants and photosynthesis.</td>
<td>Films and filmstrips from library and resource center</td>
<td>Teacher will observe that students are participating in activities.</td>
</tr>
<tr>
<td></td>
<td>1.4 Students will list and study the function of the parts of green plants.</td>
<td>Student text</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.5 Students will take field trip to collect plant specimens.</td>
<td>Field trip to Nature Trail in Paradis</td>
<td></td>
</tr>
<tr>
<td>OBJECTIVES</td>
<td>ACTIVITIES</td>
<td>RESOURCES</td>
<td>EVALUATION</td>
</tr>
<tr>
<td>--------------------------------------------------------------------------</td>
<td>---------------------------------------------------------------------------</td>
<td>-----------------------------------------------</td>
<td>---------------------------------------------------------------------------</td>
</tr>
<tr>
<td>1.6 Students will dissect plants in class and make drawings of different parts.</td>
<td>Specimens from field trip.</td>
<td>Teacher will observe that students are participating in activities.</td>
<td></td>
</tr>
<tr>
<td>1.7 Students will perform an experiment to extract chlorophyll from green leaves.</td>
<td>Specimens from field trip.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.8 Students will prepare soil in flats for growing plants.</td>
<td>Soil and flats.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.9 Students will orally discuss the process of photosynthesis.</td>
<td>Paper, pencils, marking pens</td>
<td>Correct diagram = 20 points</td>
<td></td>
</tr>
<tr>
<td>1.10 Students will diagram the process of photosynthesis and write a description of the process.</td>
<td></td>
<td>Additional points may be given for paragraph</td>
<td></td>
</tr>
</tbody>
</table>
Concept 2. In the process of photosynthesis, oxygen is released into the air.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Upon completion of suggested activities, each student will be able to accurately diagram the oxygen cycle in green plants.</td>
<td>1.1 Students will study the oxygen cycle.</td>
<td>Text, resource books, filmstrips</td>
<td>Teacher will observe that students are participating in activities.</td>
</tr>
<tr>
<td></td>
<td>1.2 Students will do experiment on the production of oxygen.</td>
<td>Mercuric oxide, heat source, text</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.3 Students will do experiment showing how oxygen supports burning and life.</td>
<td>Materials collected in previous experiments.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.4 Students will plant seeds and observe growth, making diagrams at different stages of development.</td>
<td>Seeds, prepared flats, paper, pencils</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.5 Students will make diagrams of the oxygen cycle in green plants.</td>
<td>Paper, pencils, marking pens, text</td>
<td>Correct diagram = 20 points.</td>
</tr>
</tbody>
</table>
Concept 3. There is a parallel between the interdependence of living things, or division of labor in green plants, and the interdependence of people, or the specialization of occupations of people.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Each student will participate (in small groups) in building &quot;Career Trees&quot; of careers directly dependent on green plants, including at least 5 careers.</td>
<td>1.1 Students will work in small groups listing careers that are dependent on green plants.</td>
<td>Books</td>
<td>Teacher will observe that students are participating in activities.</td>
</tr>
<tr>
<td></td>
<td>1.2 Students will group careers into related career groups.</td>

**LET'S BUILD A HOUSE**

Unit Developers: Ruby Barlow, Nancy Billingsley, Veronica Green, Carolyn Matherne, Mamye Wade, and Danny Waterman.

**Grade:** 3-6

**Subject Areas:** Social Studies, Mathematics, Language Arts, Art, Music.

**Goal:** To develop students' awareness of the many job opportunities in the Construction Careers Cluster.

Concept 1. Many workers are needed to build a house.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Upon completing suggested activities, each student will be able to list at least 5 construction worker jobs.</td>
<td>1.1 Group discussion: Workers involved in construction careers.</td>
<td>&quot;Career Concepts and 15 Career Clusters&quot;</td>
<td>Teacher will observe that students are participating in activities.</td>
</tr>
<tr>
<td></td>
<td>1.2 Teacher will present &quot;Construction Careers Cluster.&quot; Vocabulary: residential architect, commercial architect, draftsman, industrial architect, landscape architect, plumber, concrete finisher, civil engineer, electrical engineer, brick mason, metal worker, carpenter, manufacturer, estimator, painter, paper hanger, contractor, foreman, etc.</td>
<td>Blackboard, chalk</td>
<td></td>
</tr>
<tr>
<td>OBJECTIVES</td>
<td>ACTIVITIES</td>
<td>RESOURCES</td>
<td>EVALUATION</td>
</tr>
<tr>
<td>------------</td>
<td>------------</td>
<td>-----------</td>
<td>------------</td>
</tr>
<tr>
<td>1.3 Teacher will read to the class appropriate pages in <em>Popeye the Sailor</em> and <em>Construction Careers.</em></td>
<td>Career Comic Books, King Features</td>
<td>Teacher will observe that students are participating in activities.</td>
<td></td>
</tr>
<tr>
<td>1.4 Students will work in small groups to make work briefs on each occupation.</td>
<td>Research books</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.5 Students will write poems about each occupation.</td>
<td>Paper, pencils</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.6 Teacher will arrange for contractor to address class and answer questions concerning construction careers.</td>
<td>Resource speaker</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.7 Students will visit construction sites to observe workers and their tools and tasks.</td>
<td>Field trip</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.8 Students will make a list of as many construction workers as they can name.</td>
<td>Paper, pencils</td>
<td>5 jobs listed = 2 points each</td>
<td></td>
</tr>
<tr>
<td>1.9 Students will learn songs: &quot;The Carpenter,&quot; &quot;New House.&quot;</td>
<td>&quot;New House&quot; and &quot;The Carpenter&quot; (attached at end of unit).</td>
<td>All additional jobs listed = 2 points each</td>
<td></td>
</tr>
</tbody>
</table>
### Concept 2. House plans are drawn to scale.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. After completing activities, each student will be able to draw house plans in small groups (for bird house).</td>
<td>1.1 Teacher will arrange for an architect or draftsman to address the class.</td>
<td>Resource speaker</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.2 Students will perform simple tasks of drawing things to scale (measure desk and draw to scale, etc.).</td>
<td>Graph paper, pencils, rulers</td>
<td>Each house plan = 5 points for each member of the group</td>
</tr>
<tr>
<td></td>
<td>1.3 Students will work in small groups to draw up house plans for bird houses.</td>
<td>Graph paper, pencils, rulers</td>
<td></td>
</tr>
</tbody>
</table>

### Concept 3. Carpenters are essential in the construction of a house.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Each student will participate in small groups to build a wooden bird house.</td>
<td>1.1 Teacher will arrange for a carpenter to address the class and demonstrate wood-working skills.</td>
<td>Resource speaker</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.2 Students will work in small groups building bird houses from plans.</td>
<td>House plans, wood, nails, glue</td>
<td>Each student participating in building a bird house will receive 25 points</td>
</tr>
</tbody>
</table>
### Concept 4. Many houses require the skills of a brick mason.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Each student will participate in building a brick planter at school.</td>
<td>1.1 Teacher will arrange for a brick mason to address the class and demonstrate skills needed to construct a brick planter.</td>
<td>Resource speaker</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.2 Students will draw up plans for a brick planter.</td>
<td>Graph paper, pencils, rulers</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.3 Students will mix together mortar and construct a brick planter.</td>
<td>Mortar mix, bricks, trowel</td>
<td>Each student participating in building the planter will receive 25 points</td>
</tr>
</tbody>
</table>

### Concept 5. The skills of a paper hanger, painter, and sheet rock finisher are necessary in building many houses.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Each student will participate in making a room divider for the classroom.</td>
<td>1.1 Teacher will arrange for guest speakers to address the class and demonstrate the skills necessary for constructing a room divider.</td>
<td>Resource speakers: Sheet rock finisher, Paper hanger, Painter</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.2 Students will draw up a plan for a room divider.</td>
<td>Graph paper, pencils, rulers</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.3 Students will construct a room divider by cutting, tapping, and finishing sheet rock and applying wall paper to one side and painting the other.</td>
<td>Sheet rock, saw, tape, plaster, wall paper, paste, scissors, roller, paint, brushes</td>
<td>Each student participating in building the room divider will receive 25 points</td>
</tr>
</tbody>
</table>
Concept 6. Electricians are essential in building a house.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Each student will be able to accurately diagram the flow of electricity from the switch box to the light and back again and also splice two wires together.</td>
<td>1.1 Teacher will arrange for an electrician to address the class and diagram the flow of electricity and demonstrate the splicing of electrical wires.</td>
<td>Resource speaker</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.2 Students will make diagrams of the flow of electricity from the source to the light bulb and back to the source.</td>
<td>Paper, pencils, marking pens</td>
<td>Each diagram = 15 points</td>
</tr>
<tr>
<td></td>
<td>1.3 Students will splice electrical wires.</td>
<td>Small pieces of electrical wire</td>
<td>Each wire spliced correctly = 10 points</td>
</tr>
</tbody>
</table>

Concept 7. Building a house requires the cooperation of all workers involved.

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>ACTIVITIES</th>
<th>RESOURCES</th>
<th>EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Each student will be able to write a paragraph of at least 25 words concerning the cooperation necessary for workers involved in building a house, naming at least 5 workers.</td>
<td>1.1 Teacher may arrange for other construction workers to address the class.</td>
<td>Resource speaker</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.2 Students will discuss cooperation needed in building a house.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>1.3 Students will write a paragraph listing as many workers as they can and explaining the necessity of cooperation among these workers.</td>
<td></td>
<td>Paragraph with 25 words and 5 workers = 50 points</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Additional points may be given for additional workers and quality of paper.</td>
</tr>
</tbody>
</table>
NEW HOUSE

New house. Build it up! Who's going to help me? Build it up!

Bring me a hammer. Build it up! Bring me a saw. Build it up!

Next thing you bring me, Build it up! is a carpenter man. Build it up!

Substitute other tools and workers to get the house built.
THE CARPENTER

1. The carpenter is working, sawing his lumber; I like to watch him
2. The mason is working, mixing his mortar; I like to watch him

work-ing, saw-ing his lum-ber. He goes ris, We go ras, He goes ris, work-ing, mix-ing his mor-tar. He goes push, We go woosh, He goes push,

We go ras, Un-till he's cut his lum-ber, Then he will stop.
We go woosh, Un-till he's made his plas-ter, Then he will stop.
PEOPLE AND THEIR WORK

Unit Developers: Ruby Barlow, Nancy Billingsley, Veronica Green, Carolyn Matherne, Mamye Wade, and Danny Waterman.

Grade: 1-2

Subject Areas: Social Studies, Language Arts, Art, Music.

Goal: To increase students' awareness of many careers available within our society.

- Concept 1. Individuals are born resources of society.
- Concept 2. Individuals have many kinds of careers.
- Concept 3. Occupations contribute to society's progress.
- Concept 4. Meaningful, rewarding careers are available to every individual.

WORKER PLAY

The characters are:

Dentist, mailman, policeman, nurse, milkman, doctor, and teacher

DOCTOR:

I am a doctor. My job is to help make sick people well. Let's take a visit to my office. Open your mouth and say "ah." Sit up straight. I am going to listen to your heart. Take a deep breath, let out, deep breath, let out. You have a virus. Take this prescription to your druggist. Take the white tablet 3 times a day. Come back and see me in one week if you are not feeling better.

I enjoy my job helping others.

DENTIST:

I am the dentist. If you were to visit my office, you might hear me saying:

Step up in the chair. Lay your head down. Open your mouth wide. I am going to check your teeth. I am brushing your teeth with strawberry toothpaste. This tooth looks like it will have to come out. Don't worry, it will be over in a little while. You have been a good little boy, so here is a ring for you.

I enjoy my job helping boys and girls, moms and dads, grandmothers and grandfathers keep a bright healthy smile.

NURSE:

I am the doctor's helper. You might hear me say:

O.K. Johnny, get on the scale. You weigh 60 lbs. Now lie down on the table. Put this under your tongue. Roll up your sleeve. It won't hurt. Now then, it is all over. The doctor will be here in just a minute. Can you guess who I am? You are right. I am a nurse.

MAILMAN:

(Whistle) (Sing a little song.) Good morning, Mrs. Brown. Here is a letter for you. (Whistle) (Sing a little song.) (Knock on the door.) Hello. Here's a package for you. I carry packages and letters to all people. Sometimes I get bitten by a dog, but that doesn't stop me. I keep on smiling while I deliver the mail.
POLICEMAN:

I am a policeman. I help make the city a safe place in which to live. If you travel with me and my squad, you might hear this: Stop! (hold up hand) Come on. (wave hand) O.K. lady, let's see your driver's license. You were traveling 50 miles per hour and the speed limit is 40. I'll have to give you a ticket. I really am your friend.

TEACHER:

Good morning boys and girls. Let's get ready for language arts. What? You don't have a pencil? How can you do your work without a pencil? Billy, read page one. Very good, Billy. I am so proud of you.

I am a teacher. I taught the doctor, the nurse, the mailman, the policeman, and the dentist. Wouldn't you like to be a teacher like me?
IF I WERE

If I were a teacher and a teacher were I, I'd go this-a-way,
If I were a doctor and a doctor were I, I'd go this-a-way,
If I were a dentist and a dentist were I, I'd go this-a-way,

And-a that-a-way, And-a this-a-way would I.
And-a that-a-way, And-a this-a-way would I.
And-a that-a-way, And-a this-a-way would I.
**DENTAL HEALTH WORKERS AND THE LAW**

Unit Developer: Nancy Billingsley.

Grade: 3-4

OCCUPATION  Dentist

Prepared by:

SCHOOL ____________________________

TEACHER ___________________________

STUDENT ____________________________

OCCUPATION Dentist

Dentists check teeth and gums. They clean teeth and take x-rays. Dentists fill cavities. Dentists can pull teeth. They can make artificial teeth. Dentists can also straighten crooked teeth. Dentists can also clean teeth. A dentist works in his office. He has a special chair with many instruments at his fingertips. He usually wears a white lab coat when he is working. A dentist can teach and do research also. Both boys and girls can be dentists.
To do this work you should like to:

   Work with your hands
   Be patient

A dentist must be able to:

   Be on his feet for long periods of time
   Do delicate work with his hands
   Go to dental college after high school
How can you learn more about this job?

Talk to a dentist
Read books and magazines in your library
Visit a dentists' office or a dental laboratory

What can you do now if you want to find out if you might like to be a dentist?

Learn about the foods that are necessary to build good strong teeth
Learn and use the correct way to brush your teeth
Work with your hands
THE TRIAL OF THE
DENTAL HEALTH SIX

A One-Act Play
To Be Performed By Pupils*
As A Part Of
Dental Health Education

*Third or Fourth Grade Suggested
ABOUT THE PLAY

This dental health play was developed in response to suggestions from third grade teachers and dental health professionals who indicated that such an activity would be 1) fun and educational for pupils and 2) one of the best ways to expose parents to the dental health program of the school.

The play is one of a number of educational aids made available to selected schools by the Crest Professional Services Division of The Procter & Gamble Company. The broad objective of the program is to provide aids to teachers which will enable them to help children build good dental health habits which will last a lifetime.

Two third grade teachers who are members of the Advisory Council to the Crest School Program gave invaluable help in developing and trying out the play with their classes. They are Mrs. Jacqueline Bryant of the May Howard School in Savannah, Georgia and Miss Bonnie Karns of the Jennie E. Smith School in Newark, Delaware. We are indebted to these two teachers, to their pupils and to the dental hygienists in these schools. The experiences and recommendations resulting from the "trial runs" are reflected in the script itself as well as in the suggestions for putting on the play.

OBJECTIVES FOR PARTICIPATING PUPILS

- Increased understanding of the interlocking factors which play a part in good dental health (toothbrushing, fluorides, dental checkups, diet)
- Greater willingness to accept personal responsibility for the daily care of one's teeth
- Increased understanding of the long-range benefits of practicing good dental habits as children
- Recognition of the vital importance of dental checkups; viewing the dentist as a friend and helper

PLUS ... Aside from the dental health education objectives, pupils gain skills involved in memorizing lines and speaking clearly, develop more poise and grace in movement and, in general, gain from the exercise in self-expression and cooperation in a team effort.

DESIRABLE OUTCOMES FOR AUDIENCE

- For parents who view the play, a renewed personal commitment to fulfill their essential role in encouraging better dental health practices among their children and in checking up on their own dental health habits
- For anyone in the audience, a review and personal application of today's basic dental health philosophy -- which has implications for all who wish to keep their teeth for a lifetime
PRODUCTION HINTS

- Complete scripts could be handled (on stage) by the Judge and the two Attorneys if this seems desirable, since these characters would normally have "papers" and folders with them in court. Also, the Judge might serve as a "prompter" to other characters, if needed.

- Either an auditorium (with a stage) or a large classroom may be used to present the play. The play has been produced successfully in both situations. Where a classroom was converted, a screen was set up for pupils to stand behind until time for their appearance.

- Pupils will need practice in projecting their voices and in pausing for laughter where appropriate. One of the teachers found it helpful to use a tape recorder for rehearsals, so pupils could listen to and evaluate their performances. A person skilled in dramatics might be invited to come and give special hints to the children.

"BEFORE" AND "AFTER" TIPS

- BEFORE the play is presented, it would be helpful to have a few words of welcome and explanation by a moderator (teacher, school nurse, dental hygienist, or pupil). The moderator should explain that the play represents a culmination of a Dental Health Program and review of the activities of the pupils. If the play is presented during National Children's Dental Health Week, this event (and its purpose) should be commented upon as well.

- AFTER the play, it would be useful to have a dental health expert (dentist, dental hygienist, or nurse) on hand to review the key aspects of dental health and the responsibility each person must assume if he or she wishes to have healthy teeth for a lifetime. If there is a parent audience, it would be well to stress their important role in the dental health of children. They might be invited to ask questions of the expert. The end of the play might be a good time to distribute copies of the parent letter/pupil quiz which was designed to promote parent-pupil interaction.
CHARACTERS

Clerk of the Court
Judge Wisdom
Terry Teen-Ager
Pete Good, the People’s Protector
Jerry Jason, Attorney for Terry Teen-Ager
Prisoners (The Dental Health Six)
    Dr. Smile, a Dentist
    Miss Kindly, a School Nurse
    Mrs. Worker, Terry’s Mother
    Tommy Toothpaste
    Bobby Toothbrush
    Candy Sweet
Jurors
    (Use all pupils not assigned to another part)

JUDGE
Should wear a black (or colored) robe with flowing sleeves; might be borrowed from local clergy or choir member; or a graduation gown could be used.

PETE GOOD
Could wear an adult jacket and tie (not essential); adultsize glasses (frames only)

DENTIST
Should wear a dental coat (sleeves can be rolled up) or a man’s shirt turned backward

SCHOOL NURSE
Should wear a white uniform (can be too large) and a nurse’s cap

MOTHER
Should wear a mature-looking dress below knees (can be too large); hat; big purse; wig, if desired
JERRY JASON
Could wear an adult jacket and tie (not essential); adult-size glasses (frames only)

TOMMY TOOTHPASTE
Costume could be made from an old pillowcase—with holes cut for arms and neck, slit in center back part way and tied with string—and large toothpaste tube drawn on front or tube could be cut from cardboard and pinned on (Note: could also use an old sheet or muslin cut to pillowcase size)

TERRY TEEN-AGER
Should wear a wig done in a mature style; a midi- or maxi-skirt should be worn over her own shorter skirt or dress (the long skirt and wig to be removed at the end of the play to transform her from a teen-ager back to a third grader)

BOBBY TOOTHBRUSH
Costume could be made in same manner as the one described for Tommy Toothpaste, with a sketch of toothbrush substituted for the toothpaste

CANDY SWEET
Costume could be made in same manner as the one described for Tommy Toothpaste, with sketches of various kinds of sweet foods substituted for the toothpaste
THE SCENE: A COURTROOM

- A desk and chair for the Judge are arranged in the center back of stage (on a raised platform if possible).

- Chairs for the jury are arranged to the right of the Judge (slanted so jury members can look at the Judge or the audience).

- Chairs for the six prisoners are arranged partially in front of Judge's desk (but not to obscure him); or use low stools or nursery school chairs if desk can't be raised.

- Chair or high stool for Clerk of Court is to the left of the Judge.

- Chairs (3) and small tables (2) for Pete Good, Jerry Jason, and Terry Teen-Ager are at front extreme left of stage.
REQUIRED PROPS:

1. Sign for courtroom:
   SUPREME COURT
   STATE OF PREVENTION

2. Gavel for Judge

3. Pencil for Clerk

4. "A Healthy Tooth" poster
   (mounted on cardboard for easier handling)

5. Dental floss

6. Over-size illustration of ADA seal (which appears
   on toothpaste) (mounted on cardboard for easier handling)

7. Yarn or ribbon in a bright color (to connect prisoners)

OPTIONAL PROPS:

(For use in courtroom)

1. State and United States flags

2. Pictures (drawn by pupils) of U.S. Presidents

3. Sign: "Silence - Court in Session"

4. Sign for jury section: "Jury"

5. Sign: "On Trial Today: The Dental Health Six"

6. Any other "decorations" pupils think would be appropriate for a courtroom
THE TOOTHACHE MYSTERY
The Trial of the Dental Health Six

When the curtain opens, the Clerk, Jury, Pete Good, Jerry Jason and Terry Teen-Ager are in their places. The Judge enters and everyone rises. The Judge strikes the desk with his gavel.

JUDGE: I declare the Supreme Court of the State of Prevention now in session. (He sits down and the others follow suit; Judge turns and speaks to Clerk) Has the jury been sworn in?

CLERK: Yes, your Honor.

JUDGE: What is the first case?

CLERK: (Stands and reads in a loud, clear voice from a sheet of paper, pronouncing each word distinctly) Terry Teen-Ager ... versus ... the ... Dental Health Six. (Clerk sits down)

JUDGE: Who represents Terry Teen-Ager?

JASON: (Stands up) I do, your Honor.

JUDGE: Please state the charges.

JASON: My client charges that the Dental Health Six let her get a terrible toothache. (Jason sits down)

JUDGE: Who represents the Dental Health Six?

GOOD: (Stands up) I do, your Honor. (Good sits down)

JUDGE: Clerk, bring in the prisoners.

(Clerk leaves the stage and returns leading six prisoners; a bright yarn or ribbon loosely connects the prisoners at their wrists, in such a way as to be clearly visible to the audience; they stand in front of the six chairs)
CLERK: (Speaking to prisoners) Do you swear to tell the truth, the whole truth and nothing but the truth?

PRISONERS: (All speaking together) Yes sir!

CLERK: You may be seated. (Prisoners sit down; Clerk returns to his seat)

JUDGE: (Speaking to Jury) In this court, the Jury is permitted to ask questions of the prisoners. (Turns to Jason) Present your case, Mr. Jason.

JASON: (Gets up and walks over and stands in front of the Judge; looks toward Jury and audience) Your Honor, my client got a very bad toothache and, in the State of Prevention, that is against the law. She should have been protected. We charge that the prisoners conspired to let this bad thing happen to her.

GOOD: (Gets up from table) I object, your Honor.

JUDGE: On what grounds, Mr. Good?

GOOD: On the grounds that there has been no proof of a toothache.

JASON: I am coming to that, your Honor.

JUDGE: Objection overruled. Proceed, Mr. Jason.

JASON: (Looks toward Nurse) Miss Kindly, what do you do for a living?

NURSE: I am a School Nurse.

JASON: Will you tell the court what happened in your office at ten o'clock last Monday morning.

NURSE: Terry Teen-Ager came in crying. Her jaw was swollen. She said she had a bad toothache.

JASON: And what did you do?

NURSE: I told her to sit down and I looked in her mouth.

JASON: And what did you see?

NURSE: I saw a hole in her tooth, a cavity. And her gums were very red. I think they had been bleeding.
GOOD: (Jumps up and shouts) Objection, your Honor. The Nurse is just guessing. She doesn't know there was bleeding.

JUDGE: Objection sustained. (Looks toward Jury) You have a question for the Nurse?

JUROR: Yes, your Honor. I would like to ask the Nurse if she is supposed to help keep Terry and other school kids from getting toothaches.

NURSE: Yes, I am. And I did try.

JUROR: Would you tell us what you did.

NURSE: When Terry was in the third grade, I went to her class and the teacher and I showed her how to brush her teeth the right way.

JUROR: Is that all you did?

NURSE: No, I told her and the other pupils that they should do to the dentist at least two times a year, so he can check their teeth.

JUROR: Did Terry go to the dentist twice a year as you told her to?

NURSE: I don't think so.

GOOD: (Jumping up and shouting) Objection, your Honor. The Nurse is guessing again.

NURSE: Sorry, your Honor.

JUROR: Did you tell Terry anything else besides about brushing her teeth and going to the dentist?

NURSE: Yes. I told her she was eating too much candy and sweet foods between meals.

JUROR: Did you tell her what to eat for snacks instead of sweets?

NURSE: Yes. I told her it would be better to eat an apple, or cheese and crackers or pretzels or something not sweet.

JUROR: Did she follow your advice?

NURSE: I don't know. I couldn't follow her around and watch her.

JASON: Now, I would like to turn to the next prisoner. Dr. Smile, what is your work?

DENTIST: I am a dentist.
JASON: And when did you last see Terry Teen-Ager?

DENTIST: Last Monday when she had the toothache.

JUROR: I would like to ask the dentist if he is supposed to help keep kids from getting toothaches?

DENTIST: Yes, I am.

JASON: Then you have failed at your job. You are guilty, aren't you?

GOOD: (Jumps up and shouts) Objection, your Honor.

JUDGE: On what grounds do you object?

GOOD: The dentist is being convicted without telling his side of the story.

JUDGE: Objection sustained. Dr. Smile, tell us why Terry got a toothache.

DENTIST: Your Honor, a dentist cannot prevent a toothache or any kind of dental health trouble if a person does not come in for a checkup.

JUROR: How often does a person need to have a checkup?

DENTIST: At least six months, like Miss Kindly said.

JUROR: Why so often?

DENTIST: One reason I check up is to see if there is a tiny cavity. Then I could do something to stop it from getting big and painful like the one Terry has.

JUROR: When was the last time Terry came for a checkup?

DENTIST: Three years ago.

JUROR: Is that all you do -- see if the person has a cavity?

DENTIST: No, I do other things besides that. If they are young, I put fluoride on their teeth.

JUROR: Why do you do that?

DENTIST: (Turns to Judge) Your honor, may I ask my lawyer to bring something which will help me answer that question?

JUDGE: Yes, you may.

(Good brings the Dentist the "Healthy Tooth" poster)
DENTIST: (Holds the poster so Jury and audience can see it; he points to the enamel section of the tooth) You see this part of the tooth? Fluoride helps make it stronger and that helps prevent cavities.

JUDGE: Thank you, Dr. Smile. Give the chart to the Clerk and he will mark it Exhibit A. (Clerk takes chart, marks an "A" on the back and lays it on the Judge's desk)

JUROR: Did you put fluoride on Terry's teeth?

DENTIST: Not for the last three years. I couldn't because she didn't come to see me.

JUROR: Is that all you do for children's teeth -- just check for cavities and put fluoride on them?

DENTIST: Oh no. I clean off the hard material that can form on their teeth -- if they do not clean their teeth thoroughly and regularly.

JUROR: Why do you do that?

DENTIST: Because if I don't, it makes their gums get sore and bleed and some day they might get bad dental disease.

JUROR: But couldn't a person get rid of it himself by brushing his teeth?

DENTIST: No, it is very stubborn. It won't all come off with a toothbrush. I have special instruments.

JUROR: Do you do anything else for children?

DENTIST: Yes. I check to see if their teeth are growing in right. (Pulls dental floss from his pocket and holds it up, pulling some of the floss from the container) Also, as children get older, I show them how to use dental floss.

JUROR: Why do you do that?

DENTIST: Because together, brushing and flossing help them keep their teeth clean.

JUDGE: Clerk, please take the floss and mark it Exhibit B.

(Clerk takes floss, marks it and puts it on Judge's desk)

JASON: Your Honor, I would like to move on to the next prisoner, Mrs. Worker, the mother of Terry Teen-Ager.

MOTHER: (Looks around at Judge) I am innocent, your Honor.

JASON: How can you say you are innocent when you let your daughter get a toothache?
MOTHER: I work very hard. I am very busy. I have other children to look after who are younger than Terry.

JASON: But couldn't you make Terry brush her teeth?

GOOD: (Jumps up and shouts) Objection, your Honor. A teen-ager should not have to be told by her mother to brush her teeth.

JUDGE: I agree.

GOOD: And your Honor, I believe a teen-ager is old enough to remind her mother when it is time for a dental checkup.

JASON: But what about her eating habits? She's guilty about that!

GOOD: Objection, your Honor. Nobody can control how a teen-ager eats these days. I don't care how hard you try!

JUDGE: I agree again, Mr. Good. Proceed with the other prisoners, Mr. Jason.

JASON: Candy, did you help Terry get the cavity that caused her toothache?

CANDY: Can I help it if I'm so sweet nobody can leave me alone?

JASON: So you admit you are guilty?

GOOD: (Jumps up and shouts) I object, your Honor. Mr. Jason is trying to make Candy guilty without hearing her side of the story.

JUDGE: Objection sustained. Let's hear your story, Candy.

CANDY: Well, if Terry would leave me alone except at mealtime, I wouldn't be around as often to do her harm.

JUROR: Why do you say that?

CANDY: (Looks up at Judge) Could I borrow Exhibit A, your Honor?

JUDGE: Yes, you may.

(Clerk hands Candy the chart; she points to the section on tooth decay)

CANDY: Here you see the acid that work causing tooth decay.

JUROR: Where does the acid come from?

CANDY: Acid is made from bacteria and sugar.

JUROR: Where do the bacteria come from?

CANDY: Bacteria are in the mouth all the time.
JUROR: Are bacteria bad?

CANDY: No. Bacteria only cause trouble when sugar is present. They go to work and make acids.

JUROR: Does that mean that if Terry nibbles on candy or sweet foods all day, acid is at work all day?

CANDY: That's right. It's busy making cavities ... and they get bigger ... and bigger ... and bigger.

JASON: Your Honor, I'd like to question another prisoner.

JUDGE: Proceed, Mr. Jason.

JASON: Bobby Toothbrush, what is your job in dental health?

TOOTHBRUSH: I help get teeth clean.

JASON: And did you do your job with Terry?

TOOTHBRUSH: I did when she gave me a chance. But lately she didn't give me a chance.

JUROR: Please explain that.

TOOTHBRUSH: She would go for days without ever putting me in her mouth.

JUROR: But when she did put you in her mouth, did you do your job?

TOOTHBRUSH: No, because she wouldn't use me in the way the Nurse and teacher told her to when she was in the third grade.

JASON: And what about you, Tommy Toothpaste? What is your job in dental health?

TOOTHPASTE: I have two jobs.

JASON: Would you tell us what those two jobs are?

TOOTHPASTE: First, I am supposed to help Bobby Toothbrush do his job. You know, cleaning teeth.

JASON: And what is the second job?

TOOTHPASTE: If Terry and other kids choose a toothpaste with fluoride, we help prevent cavities.
JUROR: How can a person know which is the right kind? There is a lot of toothpaste in the stores.

TOOTH-PASTE: (Looks at Judge) Your Honor, may I ask my lawyer to bring something?

JUDGE: Yes, of course.

(Good brings Toothpaste an enlarged illustration of the American Dental Association seal)

TOOTH-PASTE: (Holding up seal) It is very easy to choose the right toothpaste. Just look for this seal on the tube. It's from the American Dental Association.

JUDGE: Clerk, please mark the seal Exhibit C. (Clerk takes seal, marks "C" on back and puts it on Judge's desk)

JASON: So, Tommy Toothpaste, you haven't been doing either of your jobs on Terry, have you? Not cleaning. Not protecting.

TOOTH-PASTE: Well, I don't see how I can do my work if a person doesn't put me in her mouth.

JASON: I see. (He looks at the Judge) Your Honor, that is all of my case. (He walks back to table and sits down)

JUDGE: (Looks at Jury) Members of the Jury, you have heard the evidence. How do you find the prisoners?

JURY: (All speaking together in a loud voice) NOT GUILTY!

JUDGE: I would like to thank the Jury. (He looks at Terry Teen-ager) Terry, please come here. (Terry walks over to Judge) You have heard what the Jury said?

TERRY: Yes, your Honor.

JUDGE: They seem to think the six prisoners are not the cause of your toothache. Do you agree?

TERR: I guess so, your Honor.

JUDGE: Who do you think is the cause?

TERRY: I guess I am.

JUDGE: Why did you let yourself get a toothache?

TERRY: I guess I forgot to brush my teeth and go to the dentist and do the other thing, I learned in the third grade.
JUDGE: Then you don't blame the Dental Health Six anymore?

TERRY: No sir. It was really my fault.

JUDGE: All right. First, I want you to go and free the prisoners. (Terry goes over and removes the yarn which connects the prisoners and puts it on the Judge's desk)

TERRY: Here it is, your Honor.

JUDGE: Thank you. How old are you, Terry?

TERRY: Eighteen, your Honor.

JUDGE: I am going to give you a 10-year suspended sentence. Do you know what a suspended sentence is?

TERRY: No, your Honor.

JUDGE: It means I am going to take 10 years away from your life.

TERRY: I don't understand what you mean.

JUDGE: When you leave this court you will be eight years old again.

TERRY: Oh no!

JUDGE: Yes. You will have a second chance to follow the dental health rules you learned in the third grade. Do you understand now?

TERRY: Yes, your Honor.

JUDGE: Clerk, carry out the sentence.

(Clerk comes to Terry; pulls off her wig and unfastens the long skirt she was wearing over her dress. She faces the audience)

GOOD: (Cups his hands around his mouth and speaks in a loud voice to the audience) It seems that the famous Jerry Jason has finally lost a case!

JUDGE: (In loud voice to audience) I declare this court adjourned! (Bangs desk with gavel)

- curtain -

Curtain opens and cast lines up at the center front of the stage, holding hands and bowing.
APPENDIX
The fifteen occupational clusters and puzzles for each cluster are included in the following pages. The puzzles include job titles, articles used in the jobs, and terminology associated with the careers. Following the fifteen puzzles on career clusters are four additional puzzles on occupations in mixed clusters. After completing the four final puzzles, students may wish to guess in which cluster each occupation belongs. Words may be found up and down, diagonally, or backwards in each puzzle. Students are to circle words on the puzzle as they find them and scratch out the words on the list. All puzzles were developed by Mrs. Carolyn St. Amant, Counselor, New Sarpy.
FIFTEEN OCCUPATIONAL CLUSTERS
JOB CLUSTERS

I. Construction Occupations Cluster
   A. Asbestos and Insulating Workers
   B. Bricklayers
   C. Carpenters
   D. Electricians
   E. Cement Masons (cement and concrete finishers)
   F. Marble Setters, Tile Setters, and Terrazzo Workers
   G. Operating Engineers (construction machinery operators)
   H. Painters and Paperhangers
   I. Plumbers and Pipefitters
   J. Roofers
   K. Structural, Ornamental, and Reinforcing-Iron Workers

II. Manufacturing Occupations Cluster
   A. Aircraft, Missile, and Spacecraft Manufacturing
   B. Aluminum Industry
   C. Baking Industry
   D. Electronics Manufacturing
   E. Industrial Chemical Industry
   F. Paper and Allied Products Industries
   G. Petroleum Refining

III. Transportation Occupations Cluster
   A. Civil Aviation
   B. Merchant Marine Occupation
   C. Railroads
   D. Trucking Industry

IV. Agri-Business and Natural Resources Occupations Cluster
   A. Conservation
   B. Ecology
   C. Electric Power Industry
   D. Farming, Dairying
   E. Forestry
   F. Machinery (farm equipment)
   G. Mining
   H. Natural Gas
   I. Petroleum
V. Marine Science Occupations Cluster
   A. Fisheries Development
   B. Forecasting Weather
   C. National Defense
   D. Plant and Animal Life

VI. Environmental Occupations Cluster
   A. Conservation
   B. Ecology

VII. Business and Office Occupations Cluster
   A. Accounting
   B. Advertising Workers
   C. Business Law
   D. Marketing Research
   E. Office Workers
   F. Personnel Workers
   G. Public Relations Workers

VIII. Marketing and Distribution Occupations Cluster
   A. Marketing Research
   B. Wholesale and Retail Distribution
   C. Trade

IX. Communications and Media Occupations Cluster
   A. Newspapers (printing and writing)
   B. Radio
   C. Technology
   D. Television

X. Hospitality and Recreation Occupations Cluster
   A. Camps
   B. Hospitals
   C. Indoor Recreation Centers
   D. Industry
   E. Playgrounds

XI. Personal Service Occupations Cluster
   A. Barbers
   B. Building Custodians
   C. Cooks and Chefs
   D. Cosmetologists
   E. Firefighters
   F. Guards and Watchmen
   G. Hospital Attendants
   H. Models
   I. Police Officers
   J. Private Household Workers
   K. Social Services Workers
XII. Public Services Occupations Cluster
   A. Civil Service Employees
   B. Librarians
   C. Nutritionists
   D. Public Health Nurses
   E. Public Relations Workers
   F. Public Utilities
   G. Sanitarians

XIII. Health Occupations Cluster
   A. Chiropractor
   B. Dental Hygienist
   C. Dentists
   D. Dietician
   E. Hospital Administrator
   F. Medical Technologists
   G. Nurses
   H. Optometrist
   I. Osteopathic Physician
   J. Pharmacists
   K. Physicians
   L. Veterinarian
   M. X-Ray Technician

XIV. Consumer and Homemaking Occupations Cluster
   A. Cooperative Extension Service
   B. Communications
   C. Department Stores
   D. Federal Government (U.S. Department of Agriculture)
   E. Financial Institutions
   F. Food Manufacturers
   G. Private Business
   H. Research
   I. Social Welfare
   J. Teacher

XV. Fine Arts and Humanities Occupations Cluster
   A. Commercial Artists
   B. Industrial Designers
   C. Interior Designers and Decorators
   D. Performing Artists
   E. Social Scientists
   F. Teaching
