The career interest survey consists of an expanded list of occupations and was developed to provide information to assist secondary school counselors and the exploring division of the Boy Scouts of America in developing career awareness and exploration programs and activities in the Polk County schools. The United States Office of Education's 15 occupational clusters with their respective occupational breakdowns were used in compiling the booklet. Since a student's recreational interests are of importance to cooperating agencies, an additional section on recreation and hobbies was added to the classification system. The purpose of the document is to assist students in selecting their first and second career interest choice and their recreational choice each fall they are enrolled in secondary school. It is suggested that a record of the student's interests be kept in the student's permanent file. (Author/LJ)
FOREWORD

Background Information

The Career Interest Survey has been developed through the cooperation of the Mid-Iowa Council of the Boy Scouts of America, Des Moines Independent Schools, Polk County Board of Education and the Guidance Services Section of The Department of Public Instruction.

The United States Office of Education's fifteen occupational clusters with their respective occupational breakdowns were used in compiling this booklet. Slight modifications were made to enable the results of the survey to be computerized.

The fifteen occupational clusters are as follows:

- Agri-Business and Natural Resources
- Business and Office
- Communication and Media
- Consumer and Homemaking Education
- Construction
- Environment
- Fine Arts and Humanities
- Health
- Hospitality and Recreation
- Manufacturing
- Marine Science
- Marketing and Distribution
- Personal Services
- Public Services
- Transportation

The students' recreational interest is of importance to the cooperating agencies so a section titled 16.000 Recreation-Hobbies was developed. This section is located on page 22 of this booklet.

Purpose

The Career Interest Survey is designed to provide information that will assist school counselors and the Exploring Division of the Boy Scouts of America in developing career awareness and exploration programs and activities. This information will also assist school counselors in future educational planning for junior and senior high students in the Des Moines and surrounding Polk County schools.

Through guidance sessions, junior and senior high students will select their first and second career interest choice and their recreational choice each Fall that they are enrolled in a secondary school.

A computer print-out will be made available to the various agencies utilizing the information and a record of the student's interests will be kept in the student's permanent file.

Evaluation and follow-up regarding the Career Interest Survey will be conducted over a six year period.
