ABSTRACT

The guide suggests methods and resources for planning learning experiences in teaching consumer education to students at the K-12 levels. The major topics and related areas are: (1) financial planning (estimating income, estimating expenses, establishing goals, making decisions, and making the financial plan); (2) buying (importance of planned buying, developing shopping skills, obtaining buying information, and protecting the consumer); (3) borrowing (concept of credit, types and sources of credit, cost of credit, and wise use of credit); (4) protecting (assets that need protection, understanding and selecting insurance, types of insurance, consumer protection, and wills and estate planning); (5) investing and saving (reasons for saving and investing, deciding how much to save or invest, and deciding where to save or invest); and (6) sharing (types of public services, taxes that pay for public services, and collection and distribution of tax monies for public services). Behavioral objectives and learning experiences are suggested for the related areas of each topic and presented in grade levels groupings: K-3, 4-6, 7-9, and 10-12. A bibliography on each of the topics concludes each section. Pre/posttests and answer keys for each subject area and addresses for materials are appended. (EC)

Graduate Assistant

This guide was developed through the Center
for Family Finance Education, College of
Education, University of Georgia, in
cooperation with Mrs. Jacqueline Lassiter,
Deputy Director, Georgia Consumer Services
Program, Department of Family and Children's
Services, Atlanta, Georgia.

June, 1972
Copies of this guide may be purchased from:

The Department of Home Economics Education, or Department of Business Education, College of Education, University of Georgia, Athens, Georgia, 30601.

Price: $2.50
Acknowledgements

We are deeply indebted to the many teachers enrolled in the Family Finance Workshops and weekend seminars at the University of Georgia who have contributed ideas for the resource guide, pretested it with students in their classrooms, and made suggestions for revision of the Guide. Our special thanks to Mrs. Mary Helen Cebik and Mrs. Alice Trimble, graduate students at the University of Georgia, for the many hours in reviewing volumes of published materials and ideas from teachers, and incorporating those most important for learners in K-12 into this Guide.

To Mrs. Jacqueline Lassiter, Georgia Consumer Services and the Department of Family and Children's Services, for making possible an operational grant to conduct this study, and for Mrs. Lassiter's encouragement and support throughout the project we are most grateful. We also appreciate the continuous support of the Council for Family Financial Education and the Institute of Life Insurance who have supported an ongoing program in Family Financial Education at the University of Georgia since 1956. Resource persons from business, education and industry have contributed valuable technical information which has served as a foundation for the educational experiences suggested in the guide.

If the Guide contributes to an enlightened citizenry in consumer practices, our efforts will not have been in vain.

Introduction

Individuals and families are constantly making decisions about the use of their resources. The choices one makes as he purchases goods and services are largely determined by his values and goals. The market place is growing increasingly more complex and many persons both young and old are not prepared to decide among the alternatives available.

Consumer education is needed from the kindergarten throughout the school program to help develop the attitudes, knowledges and skills necessary to perform the buying, borrowing, investing, protecting, sharing, and saving functions for effective citizenship. This guide provides suggestions as to important concepts, objectives, learning experiences and resource materials to use in teaching consumer education. An attempt is made to divide the learning experiences according to grade levels and to show how all levels contribute to the realization of major objectives. This guide is designed to serve as a resource for teachers in planning experiences in Consumer Education. It may be of assistance to individual schools or school systems interested in developing their own curriculum guide.
The Development of the Guide

The 1970 Education in Family Finance Workshop, building on work done in previous years, focused on the identification of behavioral objectives for a program in consumer education. The 1971 Workshop continued this work by revising the objectives and adding classroom learning experiences organized by levels of learning: K-3, 4-6, 7-9, and 10-12. A 1971-72 in-service class in Consumer Education revised the materials, added additional resources to aid the student and teacher, and field tested it in approximately 40 different schools.

Organization of the Guide

The Guide is organized according to the following concepts: planning, buying, borrowing, protecting, sharing, and saving. Broad behavioral objectives are stated for each concept. Learning experiences to achieve these objectives are grouped under K-3, 4-6, 7-9, and 10-12. It is suggested that teachers at various levels plan together so that pupils will develop competency at each level before proceeding to a higher level. A wealth of resource materials related to each concept are suggested for each level. Questions are included that might be used at the senior or possibly junior high level as a pre and/or post assessment of students learning in each area.
Suggestions for Using the Guide

A resource Guide is not a prescription for learning but rather a resource from which teachers acquire ideas to serve as a basis for developing teaching models for a specific learning group. The arrangement of this resource guide is based on an organization by broad educational levels which implies cooperative planning among teachers to insure sequential coverage and development of consumer competencies. Involvement of all teachers possessing competencies in Consumer Education will expand the scope and provide for more effective programs. In initiating a consumer education program, the following questions should be considered by the school administrative staff:

1. Should the school utilize an individual teacher approach which integrates consumer education into existing courses?

2. Shall the school utilize a team approach which combines the experience of several teachers?

3. Should the school focus on a multi-disciplinary approach which incorporates consumer education into all courses in varying degrees of sophistication?

4. Should the school employ a systems approach which involves the entire school system, community agencies, and parents?
In developing a quality program in career education, effective links must be found between earning and spending of income. Approaches most desirable are those which eliminate artificial separation between preparation for a career and the development of basic economic and consumer competencies. The individual teacher at Grades K-3 might help pupils to become aware of concepts about planning, buying, borrowing, protecting, sharing, and saving. In Grades 4-6, the teacher might involve pupils in further orientation to these concepts. In Grades 7-9 mini-course might be made available on the exploration level. In Grades 10-12 students would be involved in advanced levels of decision-making related to the financial problems of individuals and families.

Additional Field Testing Planned

This preliminary guide will be field tested with an additional fifty (50) school systems, 1972-73. Test items will be developed for the elementary level which may be used as a pre and/or post assessment of students learnings. Further refinement will be made in those already developed. Suggestions for improving the guide are solicited by March 1, 1973, so that ideas might be incorporated in the next printing. Please mail your suggestions to:

I. FINANCIAL PLANNING

GOAL: The student will recognize the importance of estimating income, estimating expenses, clarifying values and goals, making decisions, and making financial plans.

<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. Estimating Income</td>
<td>K-3</td>
<td>1. Name the denominations of coins and paper money.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>2. Write the proper symbols for coins and paper money (1¢, 5¢, etc.).</td>
</tr>
<tr>
<td></td>
<td></td>
<td>3. Discuss the difference in real and play money. Using play money, practice counting money and making correct change.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>4. Use (play money) coins and currency and make change for $1.00 in five different ways.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>5. Define $1.00 -- the terms, allowance, income, and other resources.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>6. Construct a chart illustrating the resources students identified.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>7. Record on a daily basis the income for each student. Using this chart at the end of the unit, estimate income for one week or one month.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>8. Arrange a bulletin board to explain various sources of money.</td>

9. Discuss how items produced at home can be a source of income or saving. (For example, planting a garden, sewing clothing, taking care of toys, etc.)

10. Discuss why everyone must work in order to earn money for needs and wants.

11. Illustrate different jobs and discuss how all kinds of work must be done.

12. Write or tell a story, "What I want to be when I grow up."

1. Define and use terms such as barter, savings accounts, coins and paper money, checking accounts, checks, inflation, and deflation.

2. Discuss the possible sources of students' income.

3. Discuss the history of the system of exchange.

4. Conduct a survey to determine sources of income.

5. Construct charts and record income each day. At the end of the unit estimate income for one week, one month, one year.
<table>
<thead>
<tr>
<th>Objective</th>

<td>Learning Experiences</td>
</tr>
<tr>
<td>-----------</td>
<td>-------------</td>
<td>----------------------</td>
</tr>
<tr>
<td>4. List and discuss different part time job opportunities available in the community.</td>
<td>10-12</td>
<td>1. Review procedures for estimating personal income.</td>
</tr>
<tr>
<td>5. Discuss possible sources of family income.</td>
<td></td>
<td>2. List and discuss opportunities for employment in the community.</td>
</tr>
<tr>
<td>6. Identify the different types of checks -- certified, cashier, traveler, personal, and money order</td>
<td></td>
<td>3. Discuss ways students can save or increase money income by producing goods and services for personal use rather than buying them.</td>
</tr>
<tr>
<td>7. Divide into committees to do research on the different types of checks. Prepare report in a creative way - exhibit bulletin board, mural, etc.</td>
<td></td>
<td>4. Research qualifications and salaries for various occupations and professions.</td>
</tr>
<tr>
<td>8. List and discuss opportunities for employment in the community.</td>
<td></td>
<td>5. Write an essay on how much money you think you will be making when you graduate and how much income you might receive for services other than your job.</td>
</tr>
</tbody>
</table>
6. Construct a record sheet and record personal or hypothetical expenditures daily. From this record the student will make estimates of his income for one week, one month, and one year.

7. Reports on outside readings regarding sources of income.

8. Discuss how income can vary in each stage of the family life cycle.

9. Divide class into groups and have each group prepare a report of specific services offered by the local bank.

10. Write an essay or discuss in class bank services each student has used and why he used the service. The student should also try to think of additional services the bank should offer and why.

B. Estimating Expenses

The student will be able to determine how money is spent, keep personal expense records, and estimate expenses in real and hypothetical case studies.

1. Discuss how taking care of toys saves money.

2. Tell how your allowance or money you receive is spent.

3. Name some items that can be bought with specific amounts of money such as 10¢, 25¢, 50¢.
Objective | Grade Level | Learning Experiences

4. Show pictures of items and encourage students to estimate the cost.

5. Show paired pictures or items. Students should try to decide which is the most expensive of the pair and why. Items that might be shown: two types of dolls, two cookies (one with filling and one without or different sizes), two dogs, two boxes (one with candy inside and one empty), etc.

6. Set up a play store. Practice spending money for various items.

7. Record on a chart for a week the amounts spent for items such as lunches, candy, games, coloring books, etc.

8. Name one item you would like to buy and tell how much you must save in order to buy it.

9. Plan a party. Estimate expenses and keep records of money spent. After the party discuss how the finances could have been better managed.

</thead>
<tbody>
<tr>
<td>10.</td>
<td>4-6</td>
<td>Explain that money saved is for &quot;future purchasing&quot; while money that is spent cannot buy things at a later date.</td>
</tr>
<tr>
<td>11.</td>
<td></td>
<td>Discuss the difference in needs and wants.</td>
</tr>
<tr>
<td>12.</td>
<td></td>
<td>Give examples of some needs for some people that are wants for others.</td>
</tr>
<tr>
<td>13.</td>
<td></td>
<td>Cut pictures from catalogues and magazines that illustrate needs and wants.</td>
</tr>
<tr>
<td>14.</td>
<td></td>
<td>Suggest various articles and services known to be used or offered in the community. Classify as needs or wants.</td>
</tr>
<tr>
<td>1.</td>
<td>4-6</td>
<td>Write a story entitled, &quot;How I Spend My Money.&quot;</td>
</tr>
<tr>
<td>2.</td>
<td></td>
<td>Prepare a chart and record personal or hypothetical expenditures for a period of time (week or month). Divide the items listed into needs and wants. Discuss the difference between needs and wants.</td>
</tr>
<tr>
<td>3.</td>
<td></td>
<td>Identify which expenses on the chart occur regularly and which ones vary. Which expenses could you omit if you wanted to?</td>
</tr>
<tr>
<td>4.</td>
<td></td>
<td>Observe which expenses are fixed and which are flexible.</td>
</tr>
</tbody>
</table>
Objective | Grade Level | Learning Experiences
--- | --- | ---
5. Use case studies to show how students in this age group can spend their money wisely.

6. Suggest articles and services for which a family spends money. Classify these as needs and wants. Identify some unexpected expenses a family might face.

7. Divide class into groups by those wishing to work on reports of "What Does It Cost to Own a Pet (different types)," and "What Does It Cost to Have a Hobby (different hobbies)." Each group will prepare a report and present ideas to class in the form of scrapbooks, dioramas, illustrated talk, or play on the cost of a pet or hobby.

8. Name an item you would like to buy with your own money. Decide whether it is a need or a want. How long will it take to save enough from your allowance to buy this item?

9. Discuss the advantages of having a plan for spending money.

10. Show an illustration of a bank statement and discuss how a bank helps maintain a record of expenses.
Grade Level Learning Experiences

7-9

1. Prepare a chart on which to record hypothetical expenditures for a month. Divide these expenditures into wants and needs. Notice which expenses occur regularly and which ones vary.

2. Keep a record of real or hypothetical expenses for a week (or month) and from this, estimate expenses for one year.

3. Plan, record, play and discuss a tape on "Where Does My Money Go?"

4. Discuss case studies of families at various income levels with differing spending patterns. Show examples of both wise and unwise spending.

5. Role play spending situations that are the result of poor financial planning. Suggest ways to avoid these financial problems.

6. List goods and services that can either be produced within the family or purchased.

7. Discuss advantages of having a plan for spending. Talk about unexpected expenditures families might face.

<td></td>
<td></td>
</tr>
<tr>
<td>5. List some things you want to do because &quot;everyone does it.&quot; Why do you follow the crowd or why don't you follow the crowd?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1. Define standard of living, level of living, life styles, goals, and values.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>2. Illustrate how goals and values are related by listing values and possible goals. For example, a chart could be:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Values of Family</td>
<td>Goals of Family</td>
<td></td>
</tr>
<tr>
<td>Education</td>
<td>Save for college</td>
<td></td>
</tr>
<tr>
<td>Cars</td>
<td>Save for special things</td>
<td></td>
</tr>
<tr>
<td>3. List two things you value most in life. Discuss the source of these values.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>4. List boys values and girls values. Compare the lists and discuss the differences.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>5. Combine the values of both boys and girls and see what items are most valued by this age group.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
6. List and discuss differences in short and long-range goals.

7. From the composite lists of class goals try to list values that would lead to these goals. Develop a chart with headings "Value of Individual" and "Goal of Individual."

8. Compare personal values and goals with those in books on televisions or in a movie.

9. Conduct a poll of parents. Ask parents to list in order of importance to them items such as (a) new car, (b) savings, (c) new house, (d) college for children, (e) new baby, (f) vacation every year, etc.

10. Analyze case studies showing the relationship between personal values and goals.

11. Plan and interview persons of the local hospital, business firm, police department or others. Write a report on their values and goals.

12. Interview persons of two generations. Discuss and summarize how their values and goals differ.

13. Discuss possible goals and values of families of three different socio-economic levels.

14. Role play how a family spends a given amount. Emphasize values put on spending for certain items as an indicator of life styles.

D. Making Decisions

K-3

The student will be able to apply the decision making process to financial decisions in real and hypothetical cases.

1. Examine some items in the classroom store and decide whether or not the child would want to buy them and why.

2. Tell stories which involve choices to be made by main characters. Let the children make the decisions, thus letting the story be spontaneous and imaginative.

3. Discuss the terms: decision, goals, desires, choice, wants, and needs.

4. Act out situations having to do with making decisions.

5. Role play the endings to open ended stories about decision making.

6. Explain the importance of accepting responsibility. Have each child relate how he acted responsibly in a certain situation and the consequences, and the potential outcome had he acted differently.
<table>
<thead>

</tbody>
</table>
Objective     Grade Level     Learning Experiences

2. Role play situations having to do with making decisions whether to spend money, save money, earn money, or play.

3. Discuss a common game such as monopoly and how games help us learn to make decisions.

4. Use the decision making process on the charts of income and expenses you have been keeping. Decide if changes are needed and where changes could be made. Be sure to give reasons for your decision.

7-9

1. Define decision making process.

2. List 3 important decisions you have made. Evaluate these in terms of steps previously discussed.

3. Use the problem-solving method to follow through with a decision common to this age group. For example, should teenagers have a charge account?

4. Discuss ways a person can apply the decision making process in many areas of personal and family living.

5. Keep a record for one day of decisions you have made. Explain how specific needs and wants influenced each decision.
<table>
<thead>
<tr>
<th>Objective</th>

</table>

5. Use the decision making process and evaluate the charts of income and expenditures you have been keeping. Decide if changes are needed and where changes should be made. Be sure to give reasons for your decisions.

6. Prepare some decision making situations such as:
   a. selecting a dress
   b. buying a shirt
   c. purchasing a radio
   d. choosing a breakfast cereal

   Analyze the factors influencing your decisions and evaluate the decisions.

7. Formulate a list of do's and don'ts in making decisions.

II. BUYING

GOAL: The students will acquire skills that are necessary to make rational decisions when buying for themselves and for their families.

<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. Understanding the importance of planned buying.</td>
<td>K-3</td>
<td>1. Tell or write a story about something you chose and bought with your own money. Why did you decide to buy that particular item? After you bought it, did you wish you had chosen something else instead?</td>
</tr>
<tr>
<td>The students will identify the skills and knowledge that are necessary to make rational decisions when buying for themselves and for their families.</td>
<td></td>
<td>2. List and discuss some purchases that students have made (as shown on their expense charts). Discuss why each purchase was made and whether some other decision might have been wiser.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>3. Make a chart of various influences on decisions such as commercials, radio, bill boards, &quot;everybody's doing it,&quot; parents, etc.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>4. Bring things they have bought with their own money to show and let handpuppets tell why they are glad or sad the item was bought.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>5. Collect and display pictures of articles, (school supplies, snacks, gift items, clothing, etc.). Talk about prices of these items. Shop for the items on the bases of needs, wants, and a compromise of needs and wants.</td>
</tr>
<tr>
<td>Objective</td>
<td>Grade Level</td>
<td>Learning Experiences</td>
</tr>
<tr>
<td>-----------</td>
<td>-------------</td>
<td>----------------------</td>
</tr>
<tr>
<td>6.</td>
<td>4-6</td>
<td>Tell an unfinished story about a family discussing their plans for buying different items. Ask students to finish the story, telling what the family decides to buy first and what items the family could buy later.</td>
</tr>
<tr>
<td>7.</td>
<td>4-6</td>
<td>Using tokens collected in class for positive behavioral and work patterns, let the children &quot;buy&quot; activities -- puzzle working coloring, cutting, pasting, etc.</td>
</tr>
<tr>
<td>8.</td>
<td>4-6</td>
<td>Decide on something that can be purchased for the classroom. Make and carry through the plans for obtaining the money and planning the purchase of this item (paper drives, rummage sale, etc.).</td>
</tr>
<tr>
<td>1.</td>
<td>4-6</td>
<td>Discuss planned buying (including buying for quality and price, buying on impulse, rational or irrational purchases, immediate and deferred purchases).</td>
</tr>
<tr>
<td>2.</td>
<td>4-6</td>
<td>Review charts on which daily expenses have been recorded. Make a list of the purchases that were planned and those that were made on impulse. Are you pleased with all of your impulse purchases?</td>
</tr>
</tbody>
</table>
Objective | Grade Level | Learning Experiences
---|---|---
3. Role play a situation in which a student spends his week's lunch money on Monday for a movie and snacks. How does he solve his problem? How can he avoid this happening again?

4. Write a paragraph and be ready to discuss how you would spend $10 for a gift for your mother. Discuss the benefits of "shopping around." What factors should be considered in evaluating the purchases for "good value?" Think about how feelings are involved in buying gifts.

5. Use a case study to show how a family as a unit can make decisions on purchases for individual members and purchases for the home (consider family values and goals, wants and needs).

7-9

1. Discuss rational and irrational purchases, immediate and deferred purchases, and buying for quality and price, or on impulse.

2. List your last five purchases and identify them as planned or impulse purchases. Could you have made better choices?
<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.</td>
<td></td>
<td>Divide into committees to study and report on the following buying incentives, how they work, the advantages and disadvantages: trading stamps, premiums, coupons, prizes, contests.</td>
</tr>
<tr>
<td>4.</td>
<td></td>
<td>Bring one item (clothes or other) that you purchased and that has proved to be unsatisfactory and one that has been satisfactory. Share with the class why the purchase was wise or unwise. Were these purchases planned or impulse purchases?</td>
</tr>
<tr>
<td>5.</td>
<td></td>
<td>Review the expense chart you have maintained for the past week (or any given time period). Write a short essay answering these questions:</td>
</tr>
<tr>
<td>a.</td>
<td></td>
<td>Is your spending balanced to satisfy as many of your needs and wants as possible?</td>
</tr>
<tr>
<td>b.</td>
<td></td>
<td>Does your spending satisfy the wants that are most important to you?</td>
</tr>
<tr>
<td>c.</td>
<td></td>
<td>Does it help you reach the goals you have set for yourself?</td>
</tr>
<tr>
<td>d.</td>
<td></td>
<td>Does your spending reflect your wants and interests? Or do you blindly follow habit, custom, fashion, and the lead of your friends?</td>
</tr>
<tr>
<td>e.</td>
<td></td>
<td>Do you get the most value for your money?</td>
</tr>
<tr>
<td>f.</td>
<td></td>
<td>Do your purchases usually give you long lasting satisfaction?</td>
</tr>
<tr>
<td>Objective</td>
<td>Grade</td>
<td>Learning Experiences</td>
</tr>
<tr>
<td>-----------</td>
<td>-------</td>
<td>----------------------</td>
</tr>
<tr>
<td>g. Do you need to change your spending habits?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>6. Select an item you wanted to purchase in the past. Review your spending habits and suggest how you could have purchased that item if you had planned your spending wisely.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>10-12</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1. Discuss the reasons people buy (impulse, wants, needs, values).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>2. Read and report on books such as Packard's <em>Hidden Persuaders</em> and <em>The Waste Makers</em>.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3. Invite a resource person to demonstrate ideas behind persuasive selling, attractive packaging, messages on labels.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>4. Brainstorm for words, phrases, and slogans used on TV to make people want to buy the products advertised. List and discuss those which...</td>
<td></td>
<td></td>
</tr>
<tr>
<td>a. overstate the case</td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. misrepresent a product</td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. use words that sound good, but are really meaningless</td>
<td></td>
<td></td>
</tr>
<tr>
<td>d. imply use by a famous person</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Objective</td>
<td>Grade Level</td>
<td>Learning Experiences</td>
</tr>
<tr>
<td>-----------</td>
<td>-------------</td>
<td>---------------------</td>
</tr>
<tr>
<td>5. List and discuss the characteristics of the compulsive buyer. List items you own that were impulse purchases. Have you been satisfied with these purchases? If you are not using these items decide how they can be used.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>6. Review the expense chart you have maintained for the past three months. Prepare a written report answering these questions:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>a. Is your spending balanced to satisfy as many of your needs and wants as possible?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. Does your spending satisfy the wants that are most important to you?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. Does it help you reach the goals you have set for yourself?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>d. Does your spending reflect your wants and interests, or do you blindly follow habit, custom, fashion, and the lead of your friends?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>e. Do you get the most value for your money?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>f. Do your purchases usually give you long lasting satisfaction?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>g. Do you need to change your spending habits?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Objective</td>
<td>Grade Level</td>
<td>Learning Experiences</td>
</tr>
<tr>
<td>-----------</td>
<td>-------------</td>
<td>----------------------</td>
</tr>
<tr>
<td>B. Developing K-3 Shopping Skills</td>
<td></td>
<td>The student will develop shopping skills which will make him a more discriminating consumer.</td>
</tr>
</tbody>
</table>

7. Use role playing and case studies of family situations showing how a family as a unit can plan their spending, using their values, goals, wants, and needs as guidelines for making major decisions about housing, furniture, clothing, recreation, etc.

8. Role play a situation dramatizing how a student benefits from planning his purchases of items such as sports equipment, tape player, stereo, or car.

1. Discuss what makes a store a good place to shop (getting correct change, fresh goods, your money's worth, helpful and friendly sales people).

2. Role play buying several different items and have the "customer" and the "clerk" show varying degrees of courteousness.

3. Have hand puppets tell about different shopping trips.

4. Make an exhibit of items students listed on their expense chart as having purchased. Inspect articles for price and quality. Discuss brand preferences and cost.

5. Plan a shopping trip and compare items for price, quality, etc.
6. Using ads in the newspapers and catalogues and magazines, compare prices for toys, bicycles, or other items of interest. Discuss differences in quality and features. Discuss information included or not included in advertisements, that is misleading.

7. Discuss the following case study. Bob received one dollar for his birthday. He bought the first model airplane he saw, which cost one dollar. In a store down the street, Bob found the same plane for 79 cents. Was Bob a thrifty shopper? Why or why not? What do you suppose Bob will do the next time he shops?

8. Collect coupons from cereal box tops and send for the offerings (teacher may secure items in advance). Students should evaluate the items and answer:
   (a) Does the item meet advertised performance level?
   (b) What else could be purchased for that amount of money?
   (c) Would another purchase have been better? Why or why not?

4-6

1. Suggest and discuss shopping skills which make shopping faster and easier and help stretch the buyer's money. (Skills such as planning, comparing, being informed).
2. Ask parents to help you keep a chart for 2 weeks showing whether or not shopping lists were used by parents. How many times did parents shop without a list? How many shopping trips were made to pick up items forgotten on previous shopping trips?

3. Take a field trip to a discount store, a department store, and a supermarket. Examine specific items and compare the quality, price, and services provided by the various stores.

4. Discuss what happens when a "customer" drops an item in a store and breaks it; opens a package of crackers in a grocery store; moves items from their place on the shelf; moves items from one department to another, etc.

5. Role play situations which illustrate the importance of reliable stores and dealers by dramatizing what happens when you buy unsatisfactory merchandise at a reliable and an unrealiable store.

6. Discuss ways to judge quality. Develop a suggested list of examples to show when it would be wise to buy top, medium, or low quality.
<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>7. Collect labels, tags, instruction booklets, and packages from various products. Include some items that are comparable to show differences in price, quantity, quality, and other features.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>8. Compile a list of presents you will need to buy with your own money during the next week, month, or year. Shop for these items in 3 different stores, comparing quality, price, service of store, etc.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>9. Discuss the considerations of time, energy, and money. Use a case study to illustrate how these resources can often be in conflict. For example, Johnny needs some rope for scout meeting. At Store A, which is near the scout meeting, the rope cost $1.10. At Store B, the rope costs 75 cents; however, if Johnny shops at Store B, he will be late for the meeting. Should he buy at Store A or Store B?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>7-9</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1. Develop for discussion a list of good shopping skills which should help the buyer get more for his money.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>a. Plan in advance; use a list.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. Deal with reliable stores.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. Read and keep labels, tags, guarantees.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>d. Know what guarantees and warranties really say.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
e. Read and understand contracts.

f. Consider time, energy, and money required to shop intelligently.

2. Discuss importance of planning purchases in advance and using a shopping list. Use a case study to illustrate the need for advanced planning.

Example: For his birthday Mike received $30 which he wanted to use for a new jacket to wear for a special occasion. In the first store he entered, he was shown a brown jacket that he liked right away. After the salesman assured Mike the jacket was just right and was what everybody else was wearing, Mike bought it. After taking the jacket home, Mike discovered that all of his clothes and accessories were in shades of gray and blue and nothing matched his new brown jacket. How could Mike have avoided this dilemma? What should he do now?

3. Use case studies to illustrate the difference in reliable and unreliable dealers. Report on personal experiences such as buying items of poor quality and not being able to return them.
4. For small group projects:

(a) Collect labels, hangtags, seals, instruction booklets. Report on information found in these labels, tags, etc., regarding quality, content, price and other features.

(b) Collect sample guarantees and warranties for various products. Report on the extent of coverage and protection these guarantees offer.

(c) Arrange classroom display of the labels, tags, guarantees, and warranties collected.

5. Discuss and show examples of sales contracts. Report on legal right and obligations of both buyer and seller. Role play a situation to dramatize the consequences of signing a contract without reading it.

6. Discuss comparison shopping. Identify different stores where specific items can be purchased. (Discount stores, department stores, variety stores, etc.). Draw up a list of items (clothing small and large appliances, sports equipment, cosmetics, etc.). Divide class into small groups for comparison shopping. Compare items on basis of...

(a) overall quality
<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>(b) price</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(c) guarantees, warranties</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(d) charges for installation, delivery, credit, and service</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(e) store policies</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(f) convenience of location of store</td>
</tr>
</tbody>
</table>

7. Debate the following statement, "It is always better to shop at the store where prices are lowest." Consider these factors:

(a) Time and energy used shopping (Time is money).

(b) Buying incentives offered by stores (are stamps and premiums worth money?).

(c) Quality of product (Do you always want the highest quality product?).

(d) Location of store (Do you save money by driving extra long distances to a store with low prices?).

8. Role play specific situations showing examples of wise shopping.

(a) Studying needs and wants, planning before you buy.
<table>

<td></td>
<td>(b) Comparison shopping.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(c) Taking advantage of sales.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(c) Comparing quality.</td>
</tr>
</tbody>
</table>

1. Suggest, list on board, and discuss shopping skills which will help the consumer stretch his dollars. Plan in advance, use shopping list, compare prices, deal only with reliable merchants, read and keep labels, seals, tags, guarantees, know what your guarantees and warranties say, read and understand contracts fully before signing, consider time, energy, and money required to shop intelligently.

2. Select 2 students (or small groups) to do a shopping experiment. Verbally tell both what items are needed. Give a shopping list to one but not to the other. A time limit for the shopping should be set and the baskets checked for completeness. Evaluate whether or not the shopper with the list shopped more effectively. Check to see what total price of each basket was.
<table>

Objective          Grade  Level         Learning Experiences

C. Obtaining   K-3   Buying
           Information

The student will
investigate sources
of information about
products and services
and will recognize
the need for obtaining
information before
making a purchase.

1. Discuss reasons for
obtaining information about
the product, dealer, or
manufacturer before making
a purchase.

2. Compile a list of suggestions
about where information is
available about things
you buy.

3. Discuss what information
should appear in advertise-
ments.

4. Collect advertisements from
newspapers and magazines.
Examine these to find what
information is given about a
product and whether the
information is complete.

5. Assign groups to listen to
TV and radio advertisements.
List the products advertised
and the information given about
them.

6. Each pupil will "invent" an
imaginary product. Then
they will design a label or
package for the product and
present a television
commercial for the product.
<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>7.</td>
<td>4-6</td>
<td>Choose items from mail order catalogues and tell what information is/or is not given about the products.</td>
</tr>
<tr>
<td>8.</td>
<td>4-6</td>
<td>Three &quot;volunteer&quot; pupils will be presented with boxes wrapped in plain paper. The pupils will then tell the class what they need to know in order to answer the question, &quot;How will you use what is in the package?&quot;</td>
</tr>
<tr>
<td>9.</td>
<td>4-6</td>
<td>Bring labels and packages to class to be inspected for brand name, quality standards, name and address of manufacturer, contents of product, directions for use, care requirements, safety cautions, and guarantees.</td>
</tr>
<tr>
<td>1.</td>
<td>4-6</td>
<td>Discuss reasons for obtaining information about products and services before making purchases.</td>
</tr>
<tr>
<td>2.</td>
<td>4-6</td>
<td>Compile a list of sources of buying information. (TV, radio, magazines, newspapers, Consumers Report, buying guides, etc.)</td>
</tr>
</tbody>
</table>
3. Divide into small groups for the purpose of reporting on product information gathered from TV and radio advertisements, newspapers, magazines, and mail order catalogues. Assign each group a type of product to report on—clothing, electrical appliances, food items, (dairy, canned, frozen, meats, etc.). Reports should include legally required labeling information such as name of product, brand name or trademark, name and address of manufacturer or distributor, geographical source, conditions under which goods are produced, quality and/or size, form and/or variety of products, construction of products, grade, performance, directions for use and care of product, safety warning, approvals and guarantees.

4. Draw representations of product seals and identify the types of products they might appear on.

5. Compile a classroom library of information pamphlets, labels, seals, advertisements, warranties, etc.

6. Role play situations dramatizing mistakes that can be made when making purchases without first obtaining essential buying information.

<td></td>
<td>Assign class members some specific questions to ask members of the panel.</td>
</tr>
<tr>
<td>7.</td>
<td></td>
<td>Role play a conversation where the consumer is/is not getting the information he needs from a salesman.</td>
</tr>
<tr>
<td>1.</td>
<td></td>
<td>Discuss the importance of obtaining buying information and review sources of consumer information.</td>
</tr>
</tbody>
</table>
2. Ask relatives or friends about large purchases they have made recently. How did they go about obtaining information needed to make a wise decision? Are they pleased with the purchase? Would they make the same purchase again?

3. Set up a file of consumer information agencies for the classroom.

4. Write the various consumer information agencies to investigate exactly what type of information they can provide for the consumer. (Consumers' Research, Consumers Union, Underwriters Laboratory, Local Retail Merchants Association, Better Business Bureau, State Consumer Services Programs, Federal Agencies).

5. Gather many different examples of warranties and guarantees for various products. Interview various merchants to find what their role is in regard to unsatisfactory merchandise. Does the dealer or the manufacturer guarantee the goods? What does the dealer do with returned goods?
6. Divide into small groups for preparing oral reports on information that is available on certain items that are popular with this age group (cars, clothes, stereos, tapes, records, etc.). The report should include several advertisements for the item, as well as information from articles, books, or other consumer publications.

7. Read and report on the motives and methods of operation of some of the consumer education crusaders, such as Ralph Nader.

8. Compare prices of merchandise from small companies to those of large companies. Discuss any differences and reasons for these differences.

9. Devise crossword puzzle using terms related to buying.

10. Collect and display a group of acceptable and unacceptable products as tested by Consumers Union or by the FDA or FTC. Compare quality, general performance, and price.

III. BORROWING

GOAL: The students will be able to state valid reasons for using credit, to identify the types of credit and compute the cost of credit.

<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. Credit and Reasons for Borrowing.</td>
<td>K-3</td>
<td>1. Define credit, lending, borrowing, etc.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>2. Complete the following sentences either orally or on paper.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(a) May I _____________ your pencil?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(b) Jeff can _____________ money for lunch.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(c) May, _____________ your red crayon to Bob.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(d) Jim will not give you a pencil. He will _____________ you one.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(e) You can _____________ notebook paper if you return it.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>3. Name things we borrow at school and give reasons why we borrow these things. (Pencil, lunch money, crayons, paper).</td>
</tr>
<tr>
<td></td>
<td></td>
<td>4. &quot;Share and Tell&quot; incidents about returning things borrowed in good condition, replacing things borrowed and lost or broken, etc. Develop the concept that a borrower must be responsible.</td>
</tr>
<tr>
<td>Objective</td>
<td>Grade Level</td>
<td>Learning Experiences</td>
</tr>
<tr>
<td>-----------</td>
<td>-------------</td>
<td>---------------------</td>
</tr>
</tbody>
</table>
| 5. | 83 | Organize a borrowing agency to keep track of the social actions in class.  
(a) Jim borrowed an eraser from Ann.  
(b) Dale borrowed *Black Beauty* from the class library.  
(c) Tom borrowed Miss Smith's ruler. |
| 6. | | Dramatize incidents giving emphasis to being courteous and responsible. |
| 7. | | Role play situations dramatizing refusal to lend some oft-lent items, lack of courtesy in requesting the use of articles belonging to others, returning borrowed items that have been damaged, etc. |
| 8. | | List the differences and similarities between credit and borrowing. |
| 9. | | Role play a situation in which a student wants to buy a 15¢ ice cream from the "Good Humor" man, but he has only a dime. The Good Humor man sells him the ice cream and tells him to bring the additional five cents next time. |
1. Define and discuss consumer credit (using future income to satisfy present needs and wants).

2. Use a tape recorder to collect opinions of students and others on "Borrowing" or "Buying on Credit." After listening to the tape, discuss the opinions giving reasons for borrowing, problems involved for the lender, responsibilities of the borrower to return borrowed items, and reasons for not borrowing.
### Learning Experiences

<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>3. Write stories about credit situations (real or imaginary). Draw pictures to illustrate these stories.</td>
<td>7-9</td>
<td></td>
</tr>
<tr>
<td>4. Role play situations involving the use of credit.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>5. Tell anecdotes about the following statements.</td>
<td></td>
<td>(a) Charge it. (b) $1 down, and $1 a month. (c) Go now, and pay later. (d) Put it in lay-away.</td>
</tr>
<tr>
<td>6. Discuss reasons why people borrow money and buy on credit.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>7. Discuss reasons for using credit. Some examples might be convenience, use of goods and services as you pay for them, establish a sound credit rating, opportunity to take advantage of low prices, a chance to save money, etc.</td>
<td>7-9</td>
<td></td>
</tr>
<tr>
<td>2. Role play situations illustrating the various reasons for using credit. (Listed above). Also include some reasons for not using credit.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3. Collect cartoons about credit that give ideas for role playing. The Dagwood and Blondie comic strip provides many ideas for credit situations. Blondie is always finding a dress sale and charging her purchases to Dagwood.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Objective | Grade Level | Learning Experiences

4. Relate and discuss incidents concerning money or other items that were borrowed.

5. Formulate suggestions about returning things that are borrowed. Two concepts to be emphasized are:

   (a) Problems of the lender
   (b) Responsibilities of the borrower

6. Write a paragraph or more detailing your point of view about buying on credit. Name some things bought by your family that otherwise could not have been bought. Paragraphs should include opinions on the following:

   (a) Should you always pay as you go?
   (b) Is buying on credit really a way of saving?
   (c) Is it always cheaper to pay cash?

7. Use a tape recorder to collect opinions of students on borrowing money. What means of credit were used? Play tapes back to class and ask students to note the opinions expressed. Have class discuss changes made in their own thinking as a result of this experience.
<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>10-12</td>
<td>1.</td>
<td>Develop a list of credit terms and define their meaning.</td>
</tr>
<tr>
<td></td>
<td>2.</td>
<td>Divide into buzz groups for a five or ten minute session compiling reasons for using credit and reasons for not using credit. Present summary to class.</td>
</tr>
<tr>
<td></td>
<td>3.</td>
<td>Prepare and present a panel discussion covering the following points.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(a) The responsibilities of the borrower to the lender.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(b) The problems of the lender.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(c) Should you always pay as you go?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(d) Is buying on credit really a way of saving?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(e) Is it always cheaper to pay cash?</td>
</tr>
<tr>
<td></td>
<td>4.</td>
<td>Have a debate on whether sellers do or do not want consumers to use cash.</td>
</tr>
</tbody>
</table>
5. Discuss student use of credit. Find out how many students have bought on credit or borrowed money. What problems did borrowing or buying on credit cause? Do the students think their use of credit was wise?

6. Develop a questionnaire on Teenage Credit. Obtain permission to use this questionnaire with students in several other classes. The findings should provide the basis for much class discussion and debate.

Sample Questions

(a) Does handling his own charge account teach the student financial responsibility?

(b) Should a greater amount of credit be extended to teenagers?

(c) How does advertising influence the teenage credit buying?

(d) Does car ownership invite the use of credit for purchase of repairs and upkeep?

(e) Is there a chance a teenager might not be able to calculate his ability to pay?

(f) Will teenagers overspend on if they have credit?
Objective | Grade Level | Learning Experiences
---|---|---

7. Read a case study or invite young married couples to discuss their use of credit giving reasons and opinions concerning problems encountered, advantages and disadvantages.

8. Ask a student who has borrowed money to discuss reasons for borrowing, obligations, and problems caused by borrowing.

9. Discuss how the use of excessive credit contributes to inflation and other ways in which the nation's economy is affected.

10. Invite a representative from the Consumer Credit Council to give case histories and discuss how credit costs are maximized by some business practices.

B. Types and K-3 Sources of Consumer Credit.

The students will be able to list and evaluate different sources and types of consumer credit.

1. Draw pictures and/or write stories about people borrowing items or buying on credit. (Pictures and stories should show the place from which items are borrowed or bought on credit -- banks, stores, friends, etc.).
<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>2. Compile a list of places where parents and other adults buy on credit or borrow money.</td>
<td>4-6</td>
<td>1. Define types of consumer credit as sales credit and cash loans.</td>
</tr>
<tr>
<td>2. Survey local stores for types of sales credit offered (lay away, charge account, installment purchases).</td>
<td></td>
<td>2. Survey local stores for types of sales credit offered (lay away, charge account, installment purchases).</td>
</tr>
<tr>
<td>3. Collect or draw pictures of places to secure credit. Arrange a bulletin board of types of credit and where to get it.</td>
<td></td>
<td>3. Collect or draw pictures of places to secure credit. Arrange a bulletin board of types of credit and where to get it.</td>
</tr>
<tr>
<td>4. Invite a credit manager from a large department store to explain the various ways people can buy on credit.</td>
<td></td>

<td>6. Formulate some generalization about &quot;places to borrow&quot; and about &quot;borrowing.&quot;</td>
</tr>
</tbody>
</table>
Objective | Grade Level | Learning Experiences
--- | --- | ---
7-9 | 1. Define and discuss the types of consumer credit such as sales credit and cash loans. Explain what is meant by each.

2. Divide into small groups for the purpose of visiting local stores and lending agencies to gather the following information:
   
   (a) application forms for credit.
   
   (b) brochures on different types of credit offered by stores and lending agencies.
   
   (c) information about cost of credit (to be used in next section).
   
   (d) any other information available.

3. Discuss advantages and disadvantages of using different lending agencies.

4. Using a list of items such as TV, kitchen cabinets, floor covering, suit, coat, gloves, cosmetics, records, mini bike, tape player, portable radio, car, stereo, friendship rings, decide which type of credit is most appropriate for each.

<tr>
<td>3. Review &quot;interest&quot; and &quot;interest rate&quot; and how they affect the actual cost of an item bought on credit.</td>
<td>4-6</td>
<td>1. Play the record &quot;A Dollar Down and a Dollar a Week&quot; and discuss the story.</td>
</tr>
<tr>
<td>2. Compare interest rates of several local banks, loan companies, and credit unions which are used by the children's parents. Make a bar graph to show the comparison.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3. Collect advertisements offering to sell on credit. Calculate the total credit cost (use simple calculation of number of payments times payment minus amount of purchase). Calculate several problems to contrast the different costs.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>4. On the advertisements mark misleading comments about credit cost.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>5. Present the following and other problems to the students:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>If you buy an article at $100 and pay for it in 12 monthly installments of $10 each, how much are you actually paying? How much of this is interest?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Objective</td>
<td>Grade Level</td>
<td>Learning Experiences</td>
</tr>
<tr>
<td>-----------</td>
<td>-------------</td>
<td>----------------------</td>
</tr>
</tbody>
</table>

6. Role play situation showing a salesman and customer comparing the cash price of a large purchase with the total price if the item is paid for or the installment plan.

7. Discuss interest and interest rate and how they affect the actual cost of an item bought on credit.

8. Decide on an item and "Shop" for credit. Report to class your findings.

7-9

1. Investigate and report on the cost of credit from several stores -- also the cost of borrowing money from various agencies. Select the cheapest sources of credit.

2. Discuss credit terms such as carrying charge, interest, and interest rate.

3. "Shop" for an item you would like to purchase on credit. (Be sure at least one source is a mail order house). Compare the total credit costs and select the cheapest. Consider whether it would be better to wait until he can pay cash.

4. Assign each student or group of students to a source of credit -- banks, small loan companies, credit unions, pawnshops, insurance companies, or individuals -- and have them research and determine what their credit terms are and make oral reports to class.
<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>5. Invite a consultant to discuss types of consumer credit. Ask him to explain why some credit rates cost more.</td>
<td>10-12</td>
</tr>
</tbody>
</table>

2. Compare the difference in the cash price and credit price for large purchases such as appliances.

3. Figure the cost of a certain dollar amount of credit from the following sources:
   - retail store
   - bank
   - finance company
   - credit union

   Discuss the advantages and disadvantages of borrowing from each of these.

4. Figure the cost of a $20,000 home mortgage for 15 years, 20 years, and 30 years. (Use current interest rate).

5. Collect samples of credit contracts. Examine and compare the features of each.

6. Demonstrate the procedure for computing the true rate of interest on installment purchases and charge accounts.

7. Study and interpret the Truth in Lending Law of 1968.
8. Discuss ways to cut credit costs by (1) shopping for credit, (2) by making as large a down-payment as you can, (3) by making the shortest contract you can make and still keep payments within your ability to pay.

9. Determine ways in which credit costs may be expressed. Define simple interest, interest on unpaid balance, add-on interest, discount interest. Work problems using each method.

10. Discuss how providing credit for customers adds to overhead for businesses.

11. Discuss how slow payers or non-payers of credit accounts raise prices for everyone (example: Doctors charge enough to people who do pay to offset treating people who do not).

12. Plan a panel discussion on "How much credit can I afford?"

Consumer Credit Counseling Service of Atlanta.
D. Wise Use of Credit

The student will be able to identify criteria necessary to establish a good credit rating and will recognize the procedures for using credit wisely.

1. Define credit rating -- if a person returns what he borrows when he said he would and in good condition he has a good credit rating.

2. Discuss what happens when people do not return borrowed items. Lead into discussion of borrowing and returning money.

3. Solve the following problems:

   (a) Jane is worried because she has been asked to give up most of her allowance for a whole year as her contribution to a color TV set the family wants to buy on the installment plan. She likes the TV set, but her Dad and brother want to see the baseball games in color. Should she be made to contribute?

   (b) Jeff has forgotten this week's lunch money. He cannot make arrangements to borrow money for the five lunch tickets.

   (c) The third graders want very much to give a Valentine party to their Mothers, but they have only the money they donated to the fund for replacing two goldfish that died. Should they borrow to give the party?
<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>4-6</td>
<td>1.</td>
<td>From a catalogue or retail store, get a credit application form. Fill it out as though you were applying for credit and explain why creditors want the information requested on the form. What information would tell him you were a poor credit risk.</td>
</tr>
<tr>
<td></td>
<td>2.</td>
<td>Define credit rating and discuss why it is important. What traits will a credit manager look for before granting credit?</td>
</tr>
<tr>
<td></td>
<td>3.</td>
<td>Discuss how the misuse of credit can cause or contribute to family financial problems.</td>
</tr>
<tr>
<td></td>
<td>4.</td>
<td>Use tape recorded stories that the students can understand showing the unwise use of credit. Let the class discuss these and decide what would have been a wiser choice.</td>
</tr>
<tr>
<td></td>
<td>5.</td>
<td>Choose an attractive advertisement for sales credit. Then check with the store on specific requirements and terms. Note what information was emphasized in the advertisement and what was omitted. Is it still as persuasive?</td>
</tr>
<tr>
<td></td>
<td>6.</td>
<td>Visit the department store and see the workings of the credit department.</td>
</tr>
<tr>
<td></td>
<td>7.</td>
<td>Make and use a tape of a lawyer telling the legalities of contracts (in terms the children know). If possible have two or three of the children go with you to the lawyer's office.</td>
</tr>
<tr>
<td>Grade</td>
<td>Objective</td>

<td>-----------</td>
<td>----------------------</td>
</tr>
<tr>
<td>7-9</td>
<td>1.</td>
<td>List steps that lenders or sellers can take to discourage families from misusing credit.</td>
</tr>
<tr>
<td></td>
<td>2.</td>
<td>Develop criteria for using credit wisely -- a list of things to look for in credit contracts and factors to consider when shopping for credit.</td>
</tr>
<tr>
<td></td>
<td>3.</td>
<td>Develop a questionnaire on teenage credit. Some of the questions might be:</td>
</tr>
</tbody>
</table>

(a) Does handling his own charge account teach the student financial responsibility?  

(b) Should a greater amount of credit be extended to teenagers?  

(c) How does advertising influence the teenage credit buying?  

(d) Is there a chance a teenager might not be able to calculate his ability to pay correctly?  

(e) Might he be tempted to overspend on impulse buying if he has credit?  

8. Discuss how overbuying on credit may lead to disaster if the worker became ill or disabled.
4. Ask the Librarian to gather reference material on credit and have it placed on a special shelf in the library for student use.

5. Role play the following:

   (a) Mary Jones must buy a dress for graduation. She has $5 in her savings account and no job.

   (b) Mrs. Smith wants to take advantage of the January white sale. However, her monthly budget does not provide for this expense.

   (c) Mother had the washing machine repaired three times last month. At this time she cannot afford a new machine, but her repair bill on the old machine is very expensive.

6. Invite a speaker to discuss the wise use of credit. (Credit manager from a department store).

7. Make conclusion about wise use of credit.
<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>8. Role play a family conference considering the following:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(a) What are the advantages of owning a new car?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(b) Would a washer/dryer free mother to participate more fully in family life?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(c) If the family decided to purchase both items on credit, how would this affect family life?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(d) If only one item was purchased, how could the family compensate for denying themselves the other?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>9. Produce a mock radio program on credit using bulletin &quot;Who gets the credit?&quot;</td>
<td></td>
<td></td>
</tr>
<tr>
<td>10. Discuss the importance of reading and understanding contracts before signing. Give specific examples of people having credit trouble because they did not read the contract.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>10-12</td>
<td>1. Identify the six C's of credit (character, capacity, capital, conditions, collateral, and common sense). List words that apply such as responsibility, property, health, skill, etc. and write the words under the appropriate heading of the six C's. Discuss the importance of each from the standpoint of the person receiving credit and the company granting the credit.</td>
<td></td>
</tr>
<tr>
<td>Objective</td>
<td>Grade Level</td>
<td>Learning Experiences</td>
</tr>
<tr>
<td>-----------</td>
<td>-------------</td>
<td>---------------------</td>
</tr>
<tr>
<td>2. Discuss case studies of families, individuals, and companies that have used credit unwisely, and have gotten &quot;out on a limb&quot; or gone bankrupt.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3. Prepare and present a panel discussion covering the following points:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(a) The responsibilities of the borrower to the lender.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(b) The problems of the lender.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(c) Should you always pay as you go?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(d) Is buying on credit really a way of saving?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(e) Is it always cheaper to pay cash?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>4. Collect information concerning the legal rights of a person who signs a contract and then changes his mind.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>5. Invite a guest speaker from a bank or retail credit company to explain the importance of how to build a good credit rating.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>6. Invite a resource person to discuss the purpose and activities of a credit bureau.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>7. Discuss stages of family life where credit is most important.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
8. Use case studies illustrating the use of credit in various family situations. Allow students to use the problem solving approach to make decisions.

9. Consider the danger of over extending the credit privilege or critique a bankruptcy case.

10. Invite a resource person from a bank to explain the advantages and disadvantages and the wise use of bank charge cards.

11. Discuss how credit can be advantageous to the consumer. Include importance of good credit rating.

12. Discuss new trends in credit use such as, "The Cashless Society" and the implications of these trends.

13. Collect example credit contracts and examine for the following information:

   (a) Date on which finance charges begin to accrue
   (b) Description of purchase
   (c) Cash price of item purchased
   (d) Down payment or trade in allowance
   (e) Balance to be paid

IV. PROTECTION

GOAL: The student will recognize the need for protecting assets, the types of protection available, and the importance of choosing the type of protection most suited to one's means and needs.

<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. Assets That Need Protection K-3</td>
<td>1. Define and discuss assets as being things that are of value to people.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>2. Compile a list of the students' assets. Students should be encouraged to list intangible things such as health, life, talents, etc., as well as tangibles.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>3. Give each pupil the opportunity to tell what his most valuable (or favorite) asset is and what they do to protect it.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>4. Collect pictures of objects or things considered by class to be assets. Students may tell stories and draw pictures illustrating the importance of taking care of these assets and ways of taking care of these assets.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>5. Prepare a bulletin board or chart, &quot;How To Take Care of Things That Are Important to Us.&quot; This should include taking care of one's health as well as personal belongings.</td>
<td></td>
</tr>
<tr>
<td>Objective</td>
<td>Grade Level</td>
<td>Learning Experiences</td>
</tr>
<tr>
<td>-----------</td>
<td>-------------</td>
<td>----------------------</td>
</tr>
</tbody>
</table>

6. Hold a class discussion on the accidents common to children, such as accidents on bicycles, roller skates, skate boards, etc. Students should list suggestions for protecting themselves while playing. Perhaps the physical education teacher could discuss safety techniques.

7. Invite the school police lady in to speak on the importance of safety.

8. Discuss bicycle safety and care of bicycles.

9. Draw safety and health posters to be displayed in the school room and the halls of the building.

10. Prepare a bulletin board arrangement showing pedestrian safety.

11. Involve students in playing a game of "What If." Encourage them to use their imaginations to solve the following questions.

   (a) What if you got home and found a big hole where your house had been?

   (b) What if it rained Coca Cola for a whole day?

   (c) What if you could not feel anything you touched?
<table>
<thead>

</tr>
</thead>
<tbody>
<tr>
<td>(d)</td>
<td></td>
<td>What if snow suddenly turned to paste?</td>
</tr>
<tr>
<td>(e)</td>
<td></td>
<td>What if you were run over by a car?</td>
</tr>
<tr>
<td>(f)</td>
<td></td>
<td>What if you bicycle were stolen during the night?</td>
</tr>
</tbody>
</table>

12. In connection with fire prevention week, encourage each child to help their parents make their home safer in at least one way. Discuss fire safety as a way to protect all our assets. Role play reporting a fire. Draw pictures of home fire hazards. Post by the home telephone the number of local fire department.

13. Role play "Making the Home Free of Hazards."

14. Encourage the children to draw pictures of "My Most Unpleasant Experience." Display the pictures for discussion. List the following kinds of small catastrophes on the chalkboard and encourage the children to consider ways in which they can protect themselves.

   (a) Broken arms
   (b) Lost gloves
   (c) Measles
   (d) Poison Ivy
   (e) Insect bites
   (f) Infected toes
   (g) Damaged bicycles
   (h) Stolen toys
Objective | Grade Level | Learning Experiences
---|---|---
15. As a part of the reading lesson, use the comic booklet, "Dennis the Menace Takes a Poke at Poison." Order from FBA, Department of Health, Ed., and Welfare (Revised, 1969).

16. Have students "make up" their own definition of protection.

4-6

1. Define and discuss assets as things that are of value to people.

2. List the three most valuable assets you own and write several paragraphs about one of them. Include information such as how long you have had the asset, how you received it, why it is valuable to you, and how you take care of it.

3. As a class project, compile a list of various forms of assets under two headings, Tangible and Intangible. Individual students should write a paragraph on one of the following: "Life Is An Asset," "Health Is An Asset," "Publick Services Are Assets," "Talent Is An Asset," "Personal Possessions Are Assets."

4. With your family's help, determine three major assets that your family owns.

5. Discuss as a class how individual assets are cared for, and give reasons for protecting them. (Assets at home and at school such as clothes, toys, books, etc.)
6. Encourage students to participate in a sharing time telling how they and their family take care of things that are valuable to them.

7. List as many things as you can which become more valuable as they get older. List some things that become less valuable as they get older. How do you protect the things that become more valuable?

8. Plan a field trip to the fire department, police department, highway patrol headquarters, or a military post to see how these organizations help protect society.

7-9

1. Discuss the concept of assets being things that are of value and the need for protecting these assets.

2. Compile a list of the students' Assets, categorizing these under health, property, income. Estimate the cost of replacing these assets.

3. Compile a list of family assets, using the same categories. Estimate cost of replacement. This activity should demonstrate the need for protecting assets.
<table>
<thead>
<tr>

<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>B. Understand- ing and Selecting Insurance</td>
<td>K-3</td>
<td>The student will be able to explain the purposes of the various types of insurance and will be able to list the criteria for selecting insurance.</td>
</tr>
</tbody>
</table>

7. Plan how each asset would be replaced or substituted if it were lost or destroyed.

8. Survey the community to find out the different kinds of insurance policies used.

1. Discuss insurance as a means of protecting assets.

2. Name five kinds of things that can be protected by insurance.

3. Using a selection of cartoons or magazine pictures, involve students in choosing situations where insurance protection would be necessary.

4. Students might ask their parents about the kinds of insurance they have and what things this insurance covers.

5. List items parents have insured and categorize under headings of health, life, property, and others.

4-6 |

1. Discuss insurance as a means of protecting assets.

2. Discuss intangible and tangible assets that may be insured.

3. Invite an insurance salesman to talk about how insurance helps to protect our assets.
4. List and discuss items parents have insured and categorize as tangible or intangible.

5. Make a list on the chalkboard of risks taken every day. Which risks are necessary and which are unnecessary?

6. Collect and report on accidents, catastrophes, disasters, etc. found in newspaper and magazine articles, which illustrate the need for insurance protection. Categorize these under headings such as health, life, accident, property, and income protection.

7. Discuss why the returns of insurance are so great in comparison to the cost. For example, school insurance costs about $2.00 per child per year. If you were to break your arm at recess, the insurance company would pay all your doctor bills if you had school insurance. How can the insurance company afford to do this?

8. Discuss school insurance (insurance for little league players or theirs) as to the advantages or disadvantages of owning insurance for safety.

9. Have students ask their parents to help them compare the cost and coverage of the school insurance to the regular hospitalization policy carried by their parents. These differences can be used to demonstrate to students that cost, coverage, and other factors should be considered before buying insurance.
<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
</table>

10. Divide into two groups. One group should dramatize a family who got into trouble because they did not have insurance. The other group should dramatize a family who saved themselves from trouble during a disaster because they did have insurance.

7-9

1. Discuss the purposes of insurance (savings and protection).

2. Develop an insurance vocabulary:
   - premium
   - insurance
   - risk
   - (other terms)

3. Invite a resource person from the insurance field to talk about how insurance helps us protect our assets and how it may also be a way of saving money.

4. Read and tell stories about famous catastrophes in history (the Chicago Fire, the San Francisco Earthquake, the Johnstown Flood, the sinking of the Titanic). Have students list ways in which insurance in our day helps people in more ways than it did in the past.

5. Under column "Risks that I face," list risks you might face in one week. Be sure to cover time spent at school, at home, at part-time work, at full-time work, and during recreational hours. Have a second column, "Ways to avoid or reduce the seriousness of each risk." List in second column ways to prevent these risks to reduce the seriousness of their effects.
6. Collect newspaper and magazine articles about accidents, catastrophes, disasters, etc., which illustrate the need for insurance protection. Categorize these under headings such as health, life, accident, property, and income protection.

7. For small group activities, class members could gather and compile information about different local insurance companies.

(a) Compile a list of local insurance companies.

(b) Gather sample policies from local agencies.

(c) Compare the different policies on the basis of cost, coverage and benefits.

(d) Compare individual and group coverage plans.

(e) Analyze the different parts of the policies.

These reports should be presented orally to give students general background information about insurance before studying the specific types of insurance.

8. Plan and take a field trip to a large insurance company. Interview personnel about criteria for selecting insurance.
<table>

</tr>
<tr>
<td></td>
<td></td>
<td>2. Write a paragraph or tell about an incident when you took care of something in order to insure that you would still have it when you next wanted it.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>3. Discuss the need to care for furniture in classroom games, etc. and to take care of property as one kind of insurance.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>4. Discuss specific measures or rules one should use while on the playgrounds as a means of caring for one's life.</td>
</tr>
</tbody>
</table>
5. Collect sample policies as a class project. Write a brief summary of each item to be insured as well as coverage to be received.

6. Discuss in general terms the different types of insurance available for taking care of one's assets.

(a) Life insurance
(b) Health and accident insurance
(c) Property insurance
(d) Social insurance

7. Review the news articles collected by class about accidents, disasters, etc. Talk about the types of insurance needed in each situation.

8. Compile a list of additional situations in which some type of insurance is needed. Students should choose one situation and write a one paragraph solution.

1. Discuss briefly the types and costs of insurance one can purchase for the protection of oneself and one's property.

(a) Life insurance
(b) Health and accident insurance
(c) Property insurance
(d) Social insurance
2. Invite resource person from an insurance company to discuss types of insurance.

3. Divide into small groups and gather pamphlets, booklets, and sample policies for one type of insurance. Each group should then present an oral report on their particular insurance type.

4. Investigate local school insurance programs available to students. Discuss protection in case of school accidents.

5. Discuss how students can protect themselves while playing (bicycles, roller skates and other sports).

6. Role play situations dramatizing disasters that can happen to individuals or families. Students should decide which type of insurance coverage would be needed in each situation.

7. Discuss reasons for buying insurance while young.

8. Determine how insurance payments are made and the penalty for not paying on time.

9. Find out what factors affect types of insurance, rates, and coverage.
1. Discuss the following types of insurance: life, health and accident, property, and social insurance.

2. Review vocabulary of insurance terms.

Life Insurance

1. Divide into small groups and research and report orally on what the following types of life insurance policies include:

   (a) Term
   (b) Straight Life
   (c) Limited Payment
   (d) Endowment
   (e) Retirement-Income
   (f) Group Life
   (g) Credit Life

2. Bring to class various sample policies. Examine and discuss the disability clause, special features, double indemnity clause, loan and cash surrender clause, cost of policy, etc.

3. Figure cost variation on insurance policies taken out at different ages. Find out the cash value of a policy. (Use actuary charts for this activity).

4. Share examples of risks encountered each day. Discuss who should be insured for the greatest amount in the family and why.
5. Assume that a person purchased a $25,000 ordinary life policy at age 25. Figure the cash value at age 65. Calculate the difference in placing the same amount of money in a savings account earning 5%.

6. Using case studies of different family situations, decide which type and amount of life insurance policy would be best suited to each family's means and needs.

7. Make a check list for selecting life insurance.

**Health and Accident Insurance**

1. Discuss what coverage is generally included in health and accident insurance.

2. Consult the hospital administrator in the community about the changes that have occurred in hospital and medical costs over the past ten years. Develop a chart showing fees for semi-private room, anesthetist, private nurse and intensive care units, etc. Find out how much the cost has increased in the last year, last five years.

3. Invite resource person from an insurance company to discuss the different types of health and medical insurance. Types discussed should include the following:

   (a) Hospitalization
   (b) Surgical
4. Bring to class a sample of accident insurance policies. Examine, discuss, and compare the benefits, coverage, and cost of these different policies. Especially note what types of illnesses or accidents are excluded and whether the policy can be cancelled.

5. Using insurance policies, identify risks covered, those excluded, total disabilities, partial disability, terms of cancellation, refusal to renew insurance, loss of time from work, terms of waiver of premium, payment of hospital, room, medical nursing, drugs, etc.

6. For small group projects, divide into teams and using the information obtained from the sample policies activity above, prepare charts showing the amount of coverage and types of policies families could afford on various incomes.

7. For a summary of study of health and accident insurance make a check list for buying health and accident insurance.
Property Insurance (Automobile, Home)

Automobile

1. Invite a guest speaker from an automobile insurance company to discuss the importance of and need for automobile insurance. Also explain different types of automobile coverage.

2. Gather clippings from local newspapers reporting automobile accidents and law suits resulting from automobile accidents. Especially note the number of persons involved and their ages. Discuss causes of the accidents and who is responsible. Draw conclusions.

3. Show film "The Crash" pointing to needed improvements in automobiles. This film can be obtained from local insurance companies.

4. Gather sample automobile insurance policies, examine and compare the types of coverage.

(a) Liability
(b) Uninsured motorist
(c) Collision
(d) Comprehensive
(e) Medical payments
### Learning Experiences

</tr>
<tr>
<td>6. Present case studies of different family situations and decide the type of automobile insurance each family should buy. Discuss each decision and the reasoning behind it.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Home

1. Invite an insurance agent or other person to discuss the importance of having one's home and its contents insured and the types of home insurance available. Both property and liability insurance should be covered.

2. Compile a list of newspaper clippings and personal experiences relating risks and losses that can be incurred by the home owner. Conclusions about the average home owner's insurance needs can be based on these findings.

3. Collect sample policies which insure various home risks separately as well as home owners policies which insure against groups of perils. These are sometimes referred to as "all-risk" policies. Compare the various aspects of these policies for cost and coverage.

</table>

**Social Security**

1. **Invite a guest speaker from the Social Security Office to discuss all phases of the Social Security program. Have students prepare questions to ask the speaker.**

2. **Find out how social security is different from other kinds of insurance and how it is similar.**
3. Write letters to the Department of Health, Education and Welfare requesting pamphlets on Social Security, Medicaid, and Medicare. Small groups or individuals might select one area of Social Security coverage and report findings to the class.

4. Have a representative from the Social Security office discuss the Medicare programs -- its advantages and disadvantages.

5. Small groups or individuals might interview elderly persons receiving Social Security benefits to find out about adjustments made for cost of living increases, Medicare benefits, other earnings if any, coverage of spouse, etc.

6. All students who do not already have Social Security cards should be given application forms and encouraged to obtain their Social Security card.

7. Students who have Social Security cards and have been working might be given the card which can be sent to the Social Security Office to obtain a statement of total money paid into Social Security.

<tr>
<td>6. Divide into committees to find out if these incidents of fraud are happening in the community and report on &quot;ways of dealing with fraud.&quot;</td>
<td></td>
</tr>
<tr>
<td>7. Divide into small groups to present oral reports of mock radio programs on the following topics.</td>
<td></td>
</tr>
<tr>
<td>(a) How does the government protect our drinking water for purity?</td>
<td></td>
</tr>
</tbody>
</table>
8. Compile a list of consumer protection agencies with a brief description of the major activity of each agency. Included should be:

(a) Health Department  
(b) Food and Drug Administration  
(c) Better Business Bureau  
(d) Consumers' Research, Inc.  
(e) Federal Trade Commission  
(f) Georgia Consumer Services Program

1. Discuss reasons for the current increased emphasis on consumer rights and responsibilities. Include in the discussion the consumer rights mentioned by President Kennedy in his 1962 consumer message.

(a) The right to safety  
(b) The right to be informed  
(c) The right to choose  
(d) The right to be heard

2. Have a panel discussion of consumer rights and responsibilities.

3. Each student should list four responsibilities of consumers to business and vice versa.
4. Collect clippings from daily newspapers reporting consumer fraud and quackery. Organize clippings on bulletin board under specific headings, such as:

(a) Short Weight  
(b) Short Changing  
(c) Repair Swindles  
(d) Charity Gyps  
(e) Deceptive Packaging  
(f) Phoney Training Schools  
(g) Health Quackery  
(h) Home Improvement Swindles  
(i) Mail Frauds

5. Review case studies of consumers who have been mistreated in business transactions. Discuss what the consumers' rights and responsibilities are in the case studies.

6. Divide into committees to research and report orally "Ways to Deal With Fraud and Quackery." Role playing might be used to dramatize these problems and solutions.

7. Report on ways you can make your consumer needs and wants known to the business community.

8. Explain how consumer decisions affect business policies, quality of goods and services, prices, laws.
9. Have students write letters of commendation or complaint for a product or service purchased. Examine the responses in class. Illustrate the value of expressing favorable comments to the business community, and of prompt reporting of any fraud and misrepresentation.

10. Compile a list and explain the functions of consumer protection agencies such as:

   (a) National Bureau of Standards
   (b) Food and Drug Administration
   (c) Better Business Bureau
   (d) Consumers' Research Bureau
   (e) Consumers Union of U.S. Inc.
   (f) Federal Trade Commission
   (g) Georgia Consumer Services Program
   (h) Underwriters Laboratories
   (i) President's Committee on Consumer Interest

11. Divide into committees for the following activities:

   (a) Find out which agencies are private and which are governmental.

   (b) Find out what each agency does to protect consumers.

   (c) Prepare for distribution to the class a fact sheet on the information reported.
<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>12. Invite resource persons to speak to the class about local Better Business Bureaus, Chamber of Commerce, Retail Merchants Association, Georgia Consumer Service Program.</td>
<td>10-12</td>
<td></td>
</tr>
<tr>
<td>1. Introduce unit with film, <em>The Owl That Gave A Hoot</em>.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>2. Identify and discuss reasons why the consumer needs protection against things such as:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(a) Fraud</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(b) Extortion</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(c) Profiteering</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(d) Unsafe health practices</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(e) Schemes</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3. Relate incidents where one of the above occurred to someone in the class or the community. Discuss what actions were taken toward solving the problem for the consumer.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>4. Collect articles from the newspapers relating examples of fraud, extortion, profiteering, unsafe health practices, or schemes. Discuss what was done or what should have been done in each case to protect the consumer.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
5. Prepare and present group reports on protection provided the consumer by state, federal, and local governments. Include some of the following:

a. Food and Drug Administration
b. Federal Trade Commission
c. Bureau of Home Economics, USDA
d. Antitrust Div., Department of Justice
e. Bureau of Labor Statistics
f. Federal Housing Administration
g. Veterans Housing Administration
h. Federal Hazardous Substances Labeling Act
i. FDA Consumer Consultant Program
j. President's Consumer Advisory Council
k. President's Committee on Consumer Interests
l. Georgia Consumer Services Program
m. American Standards Association
o. American Society for Testing Materials
p. American Gas Association
q. Underwriters Laboratories
s. Better Business Bureaus
t. Chambers of Commerce
u. American Home Econ. Assoc.
v. American Medical Assoc.
w. American Dental Assoc.
x. Consumers' Research, Inc.
y. Consumers Union of U. S. Inc.
z. Private testing and labeling by large retailers such as Sears, Macy's, J. C. Penny, A & P, General Motors
Objective | Grade Level | Learning Experiences
--- | --- | ---
6. | | Invite resource persons from several of the previous listed organizations to tell the class about the activities of their individual organizations.

7. | | Identify some consumer laws that have been passed in the last five years; tell what protection they offer and why they are needed.

8. | | Give a report on recent developments in labeling.

9. | | Write the President’s Committee on Consumer Interests for information on most recent legislation to protect the consumer.

10. | | Divide into committees and take an area such as housing, foods, transportation, drugs, etc. Find out ways consumers need protecting and laws or resources available. After doing research and interviewing experts, present reports in varied ways, such as:

(a) role playing or skit
(b) using transparencies or slides
(c) panel discussion
(d) taped interviews

11. | | Invite resource person from Legal Aid Society to discuss services available to persons in the community and ways to secure legal help.
The student will understand the importance of wills and estate planning as a means of protecting one's estate and heirs.

**Wills**

1. Define Wills, Estates, and Heirs.

2. Discuss the importance of wills and estate planning.

3. Have a group report on what happens when a person dies without disposing of his property by a will.

4. Invite an attorney to talk to the class about estate planning and how a will is prepared.
Grade Level | Learning Experiences
--- | ---

5. Invite a banker to talk to the class about how banks serve as executors and trustees of an estate.

10-12 | Learning Activities
--- | ---

1. Discuss the importance of estate planning.

2. Define the word "estate" and construct a list of items included in an estate.

3. Invite a person to talk on his or her experience of an inheritance being left to him (or her) with no will.

4. Invite an attorney to talk to class about estate planning and the various taxes on estates.

5. List reasons for writing a will and keeping it up to date.

6. Discuss the requirements of a legal will. Construct a list of legal terms most frequently used in writing a will. Discuss and define these terms.

7. Formulate a list of 10 or more property items and classify which are real and which are personal property.

8. With the help of a form will, students might construct their own wills, disposing of their possessions using the necessary terms.
9. Discuss the important records of a family and ways to keep track of them.

10. Identify the 3 forms of trusts and compare the characteristics of each.
    (a) Testamentary trusts
    (b) Life insurance trusts
    (c) Living or voluntary trusts

11. Discuss reasons why a person might establish a trust.

12. Discuss characteristics and obligations of a trustee.
    Establish criteria to use in choosing a trustee.

13. Discuss the duties of the administrator, executrix and executor of a will.

14. Discuss criteria or qualifications to be considered when appointing an executor.

V. INVESTING AND SAVING

GOAL: The student should develop positive attitudes toward investing his resources as a means to achieve future goals.

<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. Reasons</td>
<td>K-3</td>
<td>1. Draw pictures of some items for which to save. Tell why you want the item.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>2. Tell short stories with the title, &quot;Often we save small amounts of money to make a large purchase or to do something special.&quot;</td>
</tr>
<tr>
<td></td>
<td></td>
<td>3. Exchange ideas on why it is easier to save if we have a purpose or goal in mind.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>4. Share experiences where you have had to save for something.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>5. Ask parents if they have a savings plan and to explain why they do or do not have a savings plan.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>6. Illustrate why people have different reasons for saving. Ask parents to name some items that they save money to buy. These items can be listed on the chalkboard under the heading of NEEDS or the heading of WANTS.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>7. Using &quot;the ant and the grasshopper&quot; theme, create short skits depicting thrifty and spendthrift family situations.</td>
</tr>
</tbody>
</table>

The student will be able to state several valid reasons for individual and family saving and investing and will realize that saving is a desirable habit.
8. Arrange on a bulletin board the title: "Thrift and saving are important in areas other than money." Ask pupils to suggest ways to be thrifty with things other than money. Complete the bulletin board with their suggestions. Examples: putting aside some of their candy bar for later, being thrifty with food in the kitchen so as not to waste it, using only the amount of paste needed, turning the water off so as not to waste it, closing doors in winter to save heat, taking care of clothes or personal items to save them from wearing out fast, repairing broken items, etc.

9. Plan a field trip to a local bank. Ask the banker to tell the class why people put their savings in a savings account and how that money is then borrowed by others.

1. Ask "If" and "Why" students save. Have a discussion about how future needs or wants can be met by regular savings.

2. Discuss some unexpected expenses which may occur in a family. Role play a scene of what might happen when a family did not save and a family that saved money for unexpected expenses. Write a paragraph about why it is important to have savings a part of the spending plan.
3. Draw cartoons and write paragraphs to show the frustrations felt by a person who finds himself in a trouble situation because he did not plan ahead.

4. Name three things that could be saved other than money. Tell how and why these things could be saved.

5. Have a buzz session about the topic, "Thrift and Save Are Important In Areas Other Than Money." Discuss putting aside part of a candy bar for later, being thrifty with food in the kitchen so as not to waste it, closing doors in winter to save heat, taking care of clothes or other personal items to save them from wearing out fast, repairing broken items, etc.

6. Give students a list of ten scrambled words pertaining to saving and investing to unscramble in fifteen minutes. The rules should also indicate that the person who unscrambled the greatest number of words correctly in the allotted time will win first prize, and his name will be placed on the bulletin board for one week as the Thriftiest Student.

Words: (a) saving  
(b) expense  
(c) invest  
(d) account  
(e) money  
(f) bank  
(g) buying  
(h) planning  
(i) spending  
(j) loan
<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>7-9</td>
<td></td>
<td>1. Ask if there are some things for which students are currently saving. What are their plans -- long term or short term. List reasons students are either saving or are not saving.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>2. Debate whether or not children should help parents plan savings, help parents decide why money should be saved, etc.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>3. Discuss the importance of saving things other than money. (Time, energy, wearing apparel, personal possessions). Students should compile a list of things other than money they can save. Plan and arrange a bulletin board depicting these things.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>4. Keep a time and activity chart of present activities. Show how these activities could be accomplished in less time, thus a saving both time and energy.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>5. Role play situations dramatizing individuals or family groups who have savings to rely on when an emergency arises. Contrast these to situations where there are no savings to use for an emergency.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>6. Give students a list of ten scrambled words pertaining to saving and investing to unscramble in fifteen minutes.</td>
</tr>
</tbody>
</table>
The rules should also indicate that the person who unscrambled the greatest number of words correctly in the allotted time will win first prize, and his name will be placed on the bulletin board for one week as the Thriftiest Student.

Words: (a) saving  
(b) expense  
(c) invest  
(d) account  
(e) money  
(f) bank  
(g) buying  
(h) planning  
(i) spending  
(j) loan

10-12

1. Present case studies where families have saved for a purchase and where the families have not saved. Using the case studies calculate the cost of purchasing on credit and compare to the cost if paid with cash. (This points out a reason for saving).

2. List reasons for setting aside a part of present resources to be used for future needs and wants.

3. Present case studies where families have saved for emergencies and where families have not saved. Analyze the significant differences.
4. Role play various emergency situations that would require a person to make a relatively large outlay of money. Discuss the importance of savings in each of these situations.

5. Discuss how money can be saved by wise and thrifty decisions (for example, learning how to take care of and repair possessions so money won't need to be spent for new ones).

6. Use case studies of families with different values, goals, earnings, and family-size. Plan a savings program for each. This could be done by small groups.

7. Bring to class and discuss any newspaper and magazine articles you can find which tell about the present distribution of income and the cost of living.

8. Select a tentative career and find out the cost of preparations and the probable remuneration. This is done by having the student prepare a short paper using library sources. A part of the requirement for the paper will include interviewing someone actually engaged in the career.
Objective | Grade Level | Learning Experiences
--- | --- | ---

9. Collect case studies or invite a resource person to tell about successful businesses that were begun with a small savings or investment of an individual or small group.

10. Prepare a symposium on the topic: "Without Savings of Individuals Our Economy Would Have Insufficient Funds for Investments."

B. Deciding K-3 how much to save or invest.

The student will develop an awareness that the amount to be saved is an individual matter which is determined by one's values, goals, and the amount of money available.

1. Draw a picture depicting an item for which you are saving. Using a mail order catalogue or newspaper ad, determine the probably price of the item. The pupil will then state what money he can expect from different sources which he could save for this purchase. Make a proposed plan for time needed to save the required amount. After a few weeks the class can be asked to report on any efforts to carry out the plan, and what was learned from the experience. Ask the class whether or not they save any of the money they receive as gifts, allowances or for work they do.

2. Plan and save for some specific item for the classroom or a field trip.
<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Collect or draw pictures of things for which students are willing to save. Review spending records and have students prepare a revised spending plan to include savings toward some item. Prepare reports of how much per week must be saved to purchase the item. (Case studies may be used if more appropriate for the group).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>2. Work out a savings plan based on income (allowance, pay for odd jobs, gifts, etc.).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3. Case Study: James estimates that he spends $5.75 each week for between meal snacks. He has decided to reduce his spending and save $2.00 a week.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(a) How much will James save in a half year?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(b) Discuss whether or not his decision is a wise one.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>4. List and discuss &quot;What you can do to stretch your money.&quot;</td>
<td></td>
<td></td>
</tr>
<tr>
<td>5. Emphasize the benefit of saving regularly by calculating the amount deposited at regular intervals plus its interest as compared to depositing just once a year. (Use current interest rates and intervals for dividends that are most common in the community).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Objective</td>
<td>Grade Level</td>
<td>Learning Experiences</td>
</tr>
<tr>
<td>-----------</td>
<td>-------------</td>
<td>----------------------</td>
</tr>
<tr>
<td>1. Debate whether or not one should have a savings plan and what amounts should be saved.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>2. Review your spending plans and determine if changes should be made in savings. Assume you are saving for certain items and by using your spending plan, figure how long it will take to purchase a new record, stereo coat, etc. Use case studies if it is more appropriate.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3. Construct and administer a questionnaire about family saving practices. Survey several families and pool the findings in class to give an overall picture of local savings trends.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>4. Work out problems computing amounts of interest earned on various amounts at various rates of interest.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>5. Use case studies of families and plan a savings program. Decisions about where to invest money should have reasons and possible returns estimated.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>6. Choose several jobs or professions and estimate the cost of training or education compared to the probable lifetime income. A good variety of jobs should be represented (fireman, station attendant, doctor, teacher, farmer, mechanic). The discussion should be guided so that the student realizes investments in education or training are a means of saving and may be more valuable in the long run than leaving school early in terms of a lifetime income.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Grade Level | Learning Experiences
--- | ---
10-12 | 1. Students should debate the advantages and disadvantages of a savings plan for families and for individual students.

2. Choose several professions and calculate the cost of training or education versus the probably lifetime income. A good variety of jobs should be represented from station attendant to doctor. Discussion should be guided so that the student realizes investments in education or training may be more valuable in the long run than leaving school early in terms of lifetime income.

3. Invite a resource person to talk about the value of investing in education and ways of saving for education.

4. Develop one or more possible savings plans based on present income (allowance, part time work, etc.).

5. On the basis of expected earnings set tentative economic goals and make a plan for investing to attain these goals.

6. Using given interest rates and tables, calculate the amount of money necessary to be put aside regularly in a savings account in order to reach a definite goal at some future specified date.
7. Construct and administer a questionnaire about family saving practices to families in the community. Compile findings to get an overall picture of local savings trends.

8. Plan a panel discussion with representatives of families at different stages in the family life cycle. Ask the panel members to tell what they believe are the most important financial problems at the different stages.

9. Discuss the role of an investing counselor in a family's decision about saving and investing.

10. Plan a savings or investment program for a family that will produce a sufficient return over a two year period to buy a major piece of furniture or some other equally large purchase. Factors to be considered are:

(a) size of family
(b) income
(c) age of family members
(d) budget allowance for saving or investing
(e) type of saving or investing plan
(f) goals of the family
<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
</table>
| C. Deciding where to save or invest. | K-3         | 1. Ask parents where they keep the money they are saving. In class list the places where money is kept and tally to see which are the most popular.  
2. Use cartoons to depict places people hide money such as under the mattress, in a hole, etc. Have students try to guess what will happen to the money. Have cartoons showing people depositing money in the bank and discuss safety of the money and how money will grow.  
3. Role play a "saving" situation in which the child saves money in his piggy bank until it is full. Then he counts the money, his parents help him roll the change, and then take it to be deposited in a savings account.  
4. Plan and prepare a bulletin board display to show the guides to follow in selecting a bank.  

4-6 | 1. "Tell a Tale" about how Grandmother or Old Uncle Bill hid their savings under the mattress or in the teapot and what happened to the money.  
2. Ask parents where they put money they save and why they use the place. Compare answers in class. |
3. Calculate the percent of interest earned on various amounts of money in savings accounts.

4. Collect advertisements from newspapers and magazines depicting different ways people can invest money. Discuss the risks and security of each.

5. Tour the savings and loan department of a local bank. Arrange for a banker to tell the class why people put their savings in a savings account and how this money is then borrowed by others who pay interest on the borrowed money.

6. Conduct a survey to see how many students have savings (at home and in the bank) and tell why they are saving and why they are using the place indicated.

1. Divide students into groups and prepare a report on the different places a person can save or invest money. The reports should include advantages and disadvantages of each source. Suggested places are: commercial banks, savings banks, credit unions, government savings bonds, municipal bonds, foreign bonds, stocks and corporation bonds, and property, etc.
2. List the different local savings institutions and the different advantages and the disadvantages of the various kinds of institutions in which you can invest your savings. Use the chart as a guide for making future savings plans.

3. Visit the savings department of a local bank and a local savings and loan association. Before the trip, compile a list of things to look for and questions to ask about the advantages and disadvantages of saving at each.

4. Write an essay, "How I Would Save or Invest $500." The essay should include reasons for the choice and possible profit or loss.

5. Discuss the use and importance of a bank passbook. Role play a situation in which the passbook is used, such as making a deposit to a savings account or making a withdrawal.

6. Make a list of items that should be kept in a safe deposit box. Discuss the advantages and disadvantages of keeping things in a safe deposit box.

7. Develop a bulletin board display showing the different types of savings bonds. Discuss in particular the Series E and U. S. Government Savings Bonds.
8. From the financial page of a newspaper obtain the names of at least three of the following types of securities on which prices are quoted:

(a) securities listed on a national stock exchange  
(b) securities listed on a local stock exchange  
(c) mutual funds  
(d) municipal bonds  
(e) unlisted securities

9. Plan a panel of three business men representing insurance, real estate, and the stock market (a banker might be included). The topic would be: "How to Plan Your Personal Investment Program." Activities 8 and 9 would be more suitable for advanced groups.

10. Tour a stock exchange or visit a brokerage house. A representative should discuss stocks and bonds with the class.

1. Investigate all of the possible places to save and/or invest money in the local community and give reports. Using the information given in the reports to the class, each class member will write an essay, "Where I Would Save $500 and Why." In the essay the students should indicate approximate increase in money expected.
2. Invite a resource person from a bank or savings and loan association to discuss different types of savings accounts. Local banks often have attractive posters to use in such presentations.

3. Plan a panel discussion with a local banker, an investment broker, a real estate agent, or others to discuss the rewards and risks of investing money or how to plan a personal investment program.

4. Bring newspapers to class and learn to read and interpret the stock report.

5. Collect information about securities and have the class select a stock that they would like to purchase. If possible, the students should pool their money (on a voluntary basis) and purchase one or more shares. Each day the closing average should be kept on the stock. Graphs can be kept on the stock's growth or decline. At the close of the unit the stock can be sold. If no stock was purchased, the class can still check to see what the profit or loss would have been.
6. Collect annual reports of companies whose stock is being followed by the class. Report on the products, officers, and financial condition of the company.

7. Bring financial pages of newspapers to class and learn to analyze. Select a stock or several stocks to make a hypothetical $1,000 investment. These are to be followed for two weeks. Stocks may be "sold" and others may be "bought" during the period. A written record should be kept and a final report given as to the amount of money gained or lost.

8. Invite a stock broker to discuss stocks and bonds.

9. Prepare a storyboard of cartoons, advertisements, and articles which illustrate different methods of investing money. Students should attempt to evaluate the methods as being a wise or poor investment.

10. Differentiate orally between "investing" and "speculating."

11. Discuss the principal advantage of municipal bonds over corporate bonds.

12. Discuss and compare the risk involved and possible return of government bonds versus common stock.
13. Discuss the two major types of U. S. Government savings bonds purchased by individuals.

14. Invite a real estate salesman to discuss investing in land for profit.

15. Compare the advantages and disadvantages of investing $5,000 in the following:

   (a) A local savings and loan association
   (b) a savings account in a local bank
   (c) a municipal bond
   (d) annuity
   (e) life insurance
   (f) U. S. Series E and H bonds
   (g) a credit union
   (h) common or preferred stocks

16. Discuss why large investments of money command a higher rate of interest than small amounts of money.

17. Discuss the purchase of a home as an investment. Include in the discussion the additions, improvements, and upkeep as related investments.

VI. SHARING

GOAL: The student will recognize/understand why every citizen must share in the cost of public services by paying taxes.

<table>
<thead>
<tr>
<th>Object</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. Types of Public Services</td>
<td>K-3</td>
<td>1. Identify kinds of responsibilities shared by citizens of a democracy. Discuss how sharing of these responsibilities is vital to the health, defense and prosperity of our nation.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>2. Define terms such as &quot;volunteer&quot; &quot;services,&quot; &quot;public services,&quot; &quot;taxes,&quot; and &quot;sharing.&quot; List examples of each item.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>3. Make wall charts of various jobs which students and parents volunteer to do in the school (cafeteria helpers, patrols, office workers, librarians, &quot;runners,&quot; newspaper staff, annual staff, other helpers).</td>
</tr>
<tr>
<td></td>
<td></td>
<td>4. Invite the principal to talk with the class about volunteer workers -- how they help the school, why they are needed, how each child can help without being appointed or asked individually.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>5. Bring pictures of things and services that are paid for with tax money (schools, libraries, Army, Navy, patrols, highways, parks, playgrounds, others).</td>
</tr>
</tbody>
</table>
6. Make a scrapbook-type collection of pictures (or drawings) of persons and organizations which deal in public services (schools, libraries, military, police, firemen, recreation centers, various levels of government, welfare, public health, public housing, United Fund agencies).

7. Invite people who work in public services to class to explain the work of their organizations and why they chose to work with the organization. (Suggestions: hospital volunteer workers, especially those working with the youth auxiliaries; a soldier, a Red Cross representative, a policeman, and the principal of the school).

8. Discuss how our society and/or form of government are based upon the principle of sharing and helping each other.

9. Take a field trip to the Health Department. Ask a nurse or doctor to explain the need for and purpose of "those terrible shots."

10. Make individual "health booklets!" Use materials gathered at the Health Department, from magazines, and from doctors.
<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>

Learning Experiences

1. Name different types of taxes.

2. Discuss how taxes are a kind of sharing and helping ourselves as well as other people.

3. Enumerate ways that everyone pays taxes -- including children. (Sales tax, luxury tax, etc.).

4. Students should bring some sales slips from purchases either they or their parents have made. Note how much tax is charged. List things bought each day and what kinds of taxes are included in that price.

5. Practice calculating sales tax.

6. Make a chart of the different types of taxes. Then make a comparison chart of an individual's total income and the amount paid in taxes. Show how each individual contributes only a small portion of that which is paid by the company or organization.

1. Discuss services bought by tax funds. Raise questions about who pays for streets and roads, repairs, streetlights, cleaning, trash, salaries of sanitary men. Classify
### Learning Experiences

1. Each tax fund under the following headings: City-County, State, or Federal. Talk about the kind of tax that supports each category and the persons who see that the service is performed.

2. Write a character sketch of one person you know whose salary is paid by taxes. Include why his services are valuable to you, and why it is necessary that taxes be used to pay his salary.

3. Discuss reasons why various families pay more taxes than others.
   - (a) Should a family benefit from government services according to taxes he pays?
   - (b) Can you measure accurately how much in individual benefits?
   - (c) If each one were expected to pay for what he got, then what happens to those who are unable to pay?

4. Debate the following issue: Whether or not a person should be entitled to government services even if he cannot pay for them.

5. Collect various tax forms used in taxes and make a scrapbook.
6. Select articles from old and new magazines and newspapers or classroom files that will show taxes on various governmental services that have been raised over a period of two years or less.

7. Students should ask parents the types of taxes they pay and list them. (Income, sales, luxury, excise, property, inheritance, customs, social security, gift, fees, etc.).

8. Keep a record for one week on all the sales tax you pay on items purchased. At the end of the week compute the total amount of taxes.

9. Solve problems dealing with the amount of sales tax paid on a baseball costing $4.95, and other items costing 72¢, 6¢, $2.50, 15¢, 98¢, or $30.

1. Prepare a bulletin board with pictures representing several occupations. Each occupation has the probably yearly salary represented and the approximate taxes paid by each profession.

2. Initiate a discussion about which public services are paid for by the various taxes. Classify each tax fund under the following headings: City-County, State, or Federal. Talk about the kind of tax that supports each category and the persons who see that each service is performed. Are the services provided worth what the people pay in taxes?
3. Divide the class into small groups to visit a drug store, gasoline station, supermarket, tobacco shop, etc. Have them find out what merchandise is taxed and the amount of taxation. Are there hidden taxes? How is this tax money used? Are the taxes the same throughout the county? Report findings to class and discuss.

4. Bring in income tax forms, both state and federal, for the students to inspect. Invite them to dictate a list of words to be included in "Our Income Tax Vocabulary."

5. Have the class brainstorm for different ways that the community leaders could tax the public in order to raise more money. Committees should be organized to check the feasibility of each idea and to make a modified list.

10-12

1. Discuss each kind of tax and how it will affect the individual as he becomes a wage earner and possibly homeowner.

2. List all persons in your county whose salaries are paid partially or wholly with tax dollars.

3. Collect newspaper articles and statements from legislators on the subject of taxes and use of public monies. Evaluate the reasons given by politicians for voting "Yes" or "No" on various tax issues.
<table>
<thead>
<tr>
<th>Objective</th>
<th>Grade Level</th>
<th>Learning Experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>4. Invite some legislators to speak to class on these issues.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>5. Compile questions to ask parents about the kinds of taxes they pay. Discuss as a class: If a tax boost of $2,500,000 is voted down, which of the following would you reduce or eliminate? (Have a proposed or actual budget play for the city). Have the class discuss the implications of reduction of the various items on the budget such as education, law enforcement, health, recreation, transportation, or welfare.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>6. Figure the cost of a high school education and determine if families could educate their children if public education were not supported by taxes.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>7. Analyze and discuss the tax process involved in school bond issues.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>8. Debate whether or not all citizens, even those without children, should share in the responsibility of providing education for children.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>9. Discuss in class the &quot;perfect tax:&quot; The one that would tax the persons who could afford it and exempt those who could not. The one that would tax the people who derive the greatest benefit from the service financed by the tax. The one that taxes every person equally. Is there a perfect tax?</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
10. Write an essay on "Life in the U. S. With No Tax Supported Services."

11. Committees of students should prepare pie charts on the dollar amounts spent and received by the federal and local government. A city official might be asked to assist with the necessary research.

12. Invite the county clerk to speak on "How the Standard of Community Living is Improved Through the Use of Tax Money." Have him cover the county tax levy and tell how taxes are collected.

13. Make a list of necessities that are and are not provided by tax dollars.

14. Correlate with history teacher in researching the tax problems that started the revolutionary war.

15. Write a paper entitled "If I were Governor of Georgia, My Stand on Taxes would be ..." and explain why.

16. Select a country that interests you and investigate the income tax and sales tax situation, comparing it to that of the U. S. (For example: Scandinavians pay 15% sales tax on luxury items -- this supports their health program which is free to everybody). Follow up with a comparison of services offered by the local and federal government of each country (especially medical).
<table>
<thead>
<tr>
<th>Grade Objective</th>

</tr>
</thead>
<tbody>
<tr>
<td>C. Collection K-3 and Distribution of Tax Monies for Public Services.</td>
<td>1. Prepare a wall chart of chores done in the school by volunteers. Estimate how much would have to be spent each day, week, month, year by the school to hire this work done. Equate this to the amount it costs per day, week, month, year for each child to attend the school.</td>
</tr>
<tr>
<td></td>
<td>2. Invite a fireman (in uniform) to speak to the children about the cost of running the fire department and the amount paid by each citizen or family. Have him tell how much was lost the previous year in fires which were a direct result of negligence and carelessness as well as the amount lost because of natural (or unavoidable) causes.</td>
</tr>
<tr>
<td></td>
<td>3. Initiate a discussion about fire prevention and interesting stories about fire. Lead discussion to &quot;Who has to pay for services!&quot; Develop the understanding &quot;Everyone helps pay for public services.&quot;</td>
</tr>
<tr>
<td></td>
<td>4. Discover how much of the custodial time is spent in picking up paper around the school. After finding this cost the children might be interested in planning a &quot;Keep our School Clean&quot; campaign.</td>
</tr>
<tr>
<td></td>
<td>5. Tell how your family has been helped in one way by public services. These services should be mentioned: sanitation (or garbage pickup, if that is the term they use), disability pensions received by parents, or city; or county fire protection. Next, have each child research the amount it would cost his parents if these services and aids were not available.</td>

<tr>
<td></td>
<td>7. Take a field trip to the park to see and use equipment bought by tax money.</td>
</tr>
<tr>
<td></td>
<td>1. Find out the total enrollment in your school and figure out how much it costs per year to provide pupils with an education.</td>
</tr>
<tr>
<td></td>
<td>2. Gather information about the costs of the following local public services:</td>
</tr>
<tr>
<td></td>
<td>(a) Fire protection for one month (or year).</td>
</tr>
<tr>
<td></td>
<td>(b) Police protection for one month.</td>
</tr>
<tr>
<td></td>
<td>(c) Street improvement for one month.</td>
</tr>
<tr>
<td></td>
<td>(d) Health department and others.</td>
</tr>
<tr>
<td></td>
<td>3. Invite the school principal or custodian to explain to students why rules such as &quot;No Chewing Gum&quot; are needed -- and the amount of time involved and approximate cost of removing gum from floors, tables, and desks.</td>
</tr>
</tbody>
</table>

*Many of the activities suggested for levels K-3 would also be appropriate for 4-6.*
1. Invite the city manager, mayor, or other city officials to class to discuss the demands of the general public and how these demands create new demands for revenues.

2. Based on the information gained from the county clerk, or any other reliable source, group students to do percentage charts showing pictorial views of how the local tax dollar is spent. Let the students verify their figures by a follow-up field trip to the tax office.

3. Invite a local state trooper (if available) to discuss the problems of vandalism associated with automobiles. Ask him to provide facts and figures from the past three years, (to show increase or decrease) how these acts affect all automobile owners, and the effect on the general public.

Make a survey of vandalism in your school. Estimate the cost of such damage for one year (The principal can give figures for the past year. If special security guards are used, the cost for protection should be figured). How many textbooks, equipment, or furniture could this money buy if it were not used for replacement, repair, and protection?

</table>

Directions: Read each of the following statements. If the statement is true, circle the "T". If the statement is false circle the "F".

T  F  1. Fixed expenses are all payments of a fixed amount that must be made at a given time.
T  F  2. It is necessary to be able to estimate expenses in order to set up a spending plan.
T  F  3. Needs and wants are the same thing.
T  F  4. Learning to use your resources wisely can help you reach goals you have set for yourself.
T  F  5. A simple definition of good management is not getting the most of what you want from what you have.
T  F  6. Short-range goals are needed as well as long-range goals.
T  F  7. Your values and goals influence your spending habits.
T  F  8. A family's values does not affect its spending habits.
T  F  9. A family or individual with well-defined goals can make better decisions about spending than a family or individual who has not defined his goals.
T  F 10. Clearly defined goals contribute to wise spending.
T  F 11. Making a spending plan consists of balancing income and expenses.
T  F 12. Ready-made budgets are practical because they require little planning by the individual who wishes to use it.
T  F 13. Both needs and wants should be included in the financial plan.
T  F 14. Fixed expenses include money for recreation.
T  F 15. Teen-agers should know the approximate family income and the major expenses.
T  F 16. Deciding how to spend your money becomes easier as your funds increase.
T  F 17. A spending plan should be flexible so that changes can be made whenever it seems wise.
T  F 18. You can stretch your dollars by producing goods rather than buying them.
T  F 19. A budget is needed only when a family is in debt.
T  F 20. There are poor financial managers in all income levels.
T  F 21. Families with high incomes do not need to manage money.
T  F 22. Money management can be defined as a balance between meeting needs and satisfying those wants necessary to attaining goals.
T  F 23. A family cannot budget a small income.
T  F 24. Money matters should be discussed before marriage in the light of day rather than in the moonlight.
T  F 25. Making a budget is not the same as making a spending plan.

Directions: Read each of the following. Circle the letter that indicates the best answer for each question.

1. A budget is an aid to spending money wisely because it. . .
   (a) eliminates spur-of-the-moment buying
   (b) helps in obtaining goals
   (c) limits uses of money to those items included in the budget.
   (d) prevents emergencies
   (e) none of the above

2. Any consumer good or service that is to be used for immediate survival is . . .
   (a) classified as a want
   (b) classified as a need
   (c) not classified
   (d) classified as both a want and need
   (e) none of the above

3. The assumption that consumers are free to choose what they want and how much is largely economic fiction because . . .
   (a) our political freedom is restricted
   (b) individuals or family income is limited
   (c) we purchase many things on impulse
   (d) teenage children have great influence on the buying decisions of parents
   (e) individuals or family income is not limited
4. Aims which one is working to achieve . . .

(a) goals
(b) values
(c) standard of living
(d) resources
(e) none of the above

5. Those things both material and immaterial which help one achieve his wants and needs.

(a) goals
(b) values
(c) standard of living
(d) resources
(e) none of the above.

Directions: Arrange the following steps in the decision making process in correct order by placing the numbers on the blanks to the left of the process.

___ a. make a choice
___ b. identify problem
___ c. obtain facts
___ d. evaluate results
___ e. put plan into action
___ f. consider alternatives

B. DEVELOPING SHOPPING SKILLS.

True or False:

Directions: Read each of the following statements. If the statement is true circle "T". If the statement is false, circle "F".

T F 1. At the beginning of the season merchandise that is in style is usually at the highest price.
T F 2. Name brand products can usually be bought without critical examination.
T F 3. People who buy in small units generally pay less per unit than those who buy in large units.
T F 4. Basically, impulse items are the necessities that one buys on the spur of the moment.
T F 5. Goods sold at a special sale are always bargains.
T F 6. Discount houses sell larger amounts of merchandise at lower margins of profit calculated so that the total sales will be sufficient to maintain operations.
T F 7. Usually planned buying affords the buyer greater satisfaction than impulse purchases.
T F 8. Investigating different types of outlets is a good pre-buying practice.
T F 9. Labels on food products list the ingredient contained in largest quantity last.
Identification:

Directions: Identify the following as (a) Good Practice, (b) Poor or Doubtful Practice.

1. Buying at a pre-inventory sale.
2. Buying at places advertising goods at wholesale prices.
3. Buying goods being closed out at the end of a season.
4. Buying where grades and standards are on labels.
5. Buying solely on the basis of advertisement.
6. Buying only at stores that allow unlimited charging.
7. Buying from a shopping list.
8. Buying after comparative shopping.
9. Buying after consulting consumer publications such as Consumers Report.

True or False:

Directions: Read each of the following statements. If the statement is true, circle 'T'. If the statement is false, circle 'F'.

11. Advertising is an important source of buying information.
12. Tags and labels should be removed from articles purchased and discarded.
13. It is important to compare prices and quality of different items before you buy in order to find the best value.
14. A shopping list will help you to avoid impulse buying.
15. Planning the use of time and energy as well as money can improve buying skills.
16. Consumers protect their own interests by buying from reliable merchants and making decisions which meet their needs.
17. Price is a reliable guide to quality.
18. In order to save money, it is advisable for a couple to purchase large quantities of food at lower prices.
19. The wisest decision for a working wife may be to purchase higher-cost convenience foods.
20. Mail order shopping is apt to be more satisfactory and cheaper than personal shopping.
21. Upkeep should be figured in the costs before buying goods.
22. Clearance Sales may cause a person to buy things she really does not need.
23. The Cooper family has been shopping for a new living room rug and decided on one which is made of 30% reprocessed wool. The wool fibers in their rug has been woven or felted into wool products that have never been used by a consumer.
24. Buying Christmas presents in July is a poor buying practice.
Multiple Choice:

Directions: Read each of the following. Circle the letter that identifies the best answer for the questions.

25. The consumer can usually save money if he buys...
   a. the "box-top" premium brands
   b. the nationally-advertised brands
   c. the chain-store brands
   d. the attractively-packaged brands

26. Which of the following is not an advantage of buying on credit?
   a. carrying less money than otherwise when shopping
   b. using purchases while paying for them
   c. taking advantage of sales
   d. spending less money

27. Which of the following is not covered by homeowners insurance?
   a. The cost of repairing a dish washer that overflows.
   b. The cost of painting the smoked house caused by furnace explosion.
   c. The cost of TV repairs caused by lightning.
   d. Cost of motel if you have to be away while your house is being repaired.

28. A good bargain hunter...
   a. is aware of the inferior merchandise in "going out of business" sales.
   b. always visits outlet stores to buy "seconds".
   c. realizes that if something is cheap it must be a bargain.
   d. always attends sales.

29. Which of the following is not a shopping skill?
   a. Plan your purchases in advance.
   b. Read labels, seals, and tags.
   c. Shop and compare to find the best values.
   d. High price means quality goods.
**Case Study**

**Directions:** Read the following case study and then discuss the questions in class.

Jane and Fred have been married for four years. Jane has worked since their marriage as a teller in a local bank and Fred is a math teacher in the high school. Jane is preparing to leave her job in the bank and stay home so that they can have a family. She sews fairly well and would like to have a sewing machine. Fred feels that she would not use it enough to justify a large outlay since they need to save more money now in anticipation of more expenses when they are expecting a baby. Jane feels that she should go ahead and buy a more expensive name-brand machine that has many automatic features since she could use it for the rest of her life.

**Questions:**

1. What are some sources they should read and/or study before making a final decision?

2. What is the variation of prices on sewing machines --- lowest to highest for a single brand such as Singer? Lowest to highest for the least expensive brand to the most expensive brand.

3. What does *Consumer Reports* have to say about purchasing sewing machines?

4. What are the advantages of a homemaker owning her own sewing machine?

5. If you were Jane or Fred, how would you work out this problem?
Short Answer

Directions: After each numbered item, list the time of year you would find the best buys on the following:

1. Fresh Vegetables
2. Sheets, towels, etc.
3. Summer Clothes
4. Winter Clothes
5. Toys

C. Obtaining Buying Information.

Completion.

Directions: Read each statement. Fill in the word or words needed in the blanks to complete the statements.

1. The label of a can of food need not have a list of ingredients if the government has established________________________for the product.
2. The label may not make any________________________statements either directly or by implication.
3. Don't buy a can with________________________ends.
4. You can check comparative weights and prices to determine the best________________________per ounce.
5. The label should list all the ingredients used in the product in________________________order of their predominance.
6. If you were suspicious of some get "rich quick" scheme you could report it to the________________________________________________.
Matching:

Directions: On the line to the left of each function in Column A, write the letter from Column B which matches Column A.

Multiple Choice

Directions: Read each of the following. Circle the letter that identifies the best answer for each question.

1. What is the financial institution which accepts deposits and grants short-term loans to its customers? The interest rate on loans approximates 11-13 percent.
   a. consumer finance company
   b. commercial bank
   c. pawn shop
   d. credit union

2. What is the firm which specializes in extending personal loans to all income and occupation groups with true annual interest rates generally ranging from 16-42%.
   a. commercial bank
   b. pawn shop
   c. consumer finance company
   d. loan shark

3. What are the groups of people who are united by a "common bond" of interest and who save their money together and make loans to each other for good purposes, usually at rates of 7-12%? They are chartered under state or federal law and are non-profit?
   a. credit bureau
   b. loan shark
   c. credit union
   d. consumer finance company

Completion

Directions: Read each statement. Fill in the word or words needed in the blanks to complete the statements.

1. A regular charge account permits you to "buy now and pay later" up to _______ Days later without a service charge.

2. A type of installment credit where the buyer can continue to charge merchandise up to the ceiling figure, but not beyond is called a _________.

208
Short Answer

Directions: Read the question. State your answer briefly.

1. Name as many sources of credit as you can think of and check the ones which usually charge less for their money.

   a. banks
   b. credit union
   c. life insurance companies
   d. small-loan or consumer finance companies
   e. retailers

C. Cost of credit.

Short Answer

Directions: Read the question. State your answer briefly.

1. Is there a service charge for 30-day charge accounts?

2. Who pays for this type credit?

Multiple Choice

Directions: Read each of the following. Circle the letter that identifies the best answer for each question.

1. The amount paid for the use of money is called.
   a. service
   b. interest
   c. principal charges

2. The original amount of money a person borrows is called.
   a. the balance
   b. the principal
   c. discount

3. The date on which a note is due and must be paid is called the.
   a. interest date
   b. the maturity date
   c. purchase date
4. When money is borrowed from a bank, the interest is sometimes subtracted from the amount borrowed at the time the loan is made. Interest paid in advance is called...
   a. proceeds
   b. discount
   c. security

5. It cost less to borrow from...
   a. banks
   b. small loan companies
   c. pawn shops

6. 1 1/2% per month on unpaid balance really means you are paying...
   a. 18% annual rate
   b. 12% annual rate
   c. 9% annual rate

7. A discounted loan means...
   a. interest paid in advance
   b. a discount given on amount to be repaid
   c. a discount given on purchase made with money borrowed

8. If simple interest is charged on the unpaid balance of a charge account at 1% per month, the true annual interest rate is...
   a. 9%
   b. 12%
   c. 15%
   d. 18%
   e. 24%

D. Wise Use of Credit.

Short Answer

Directions: Read each question. List your answer in brief phrases.

1. Betty and Jim Smith are planning to purchase a new washer and dryer. They have a savings account, but are considering using credit rather than their savings for this purchase. List several points they should consider before buying on credit.
2. Suppose you bought a record player/stereo on credit and all the arrangements have been made except signing the contract. What should you look for in the contract?

3. How does one avoid getting-in-over-the-head debts?

Case Study

Directions: Read the question. Decide on the best solution and give reasons for your answer.

A student enrolled in a nearby college buys a car for transportation. He gets a part time job to pay for the car. He puts down $500 and promises to pay the remaining $1,500 in installments. Then he falls in love and marries the girl. Now his income is insufficient for the car and married life. Should the student sell the car himself? Should the student let the car be repossessed? Should the student refinance the car? Should the student get a full time job and leave school? Which decision would you advise to the student? Why?

E. Consumer Credit Protection.

Completion

Directions: Read the statement. Fill in the word or words needed in the blank to complete the statement.

1. The purpose of the Truth and Lending Law which went into effect July 1, 1969 is to let the consumer know ____________________________
Multiple Choice

Directions: Read each of the following. Circle the letter that identifies the best answer for each question.

1. The Truth-In-Lending Law says that if a business mentions one feature of the credit terms in its advertising, such as the amount of down payment, it must mention which of the following:
   a. the number of payments
   b. the amount of each payment
   c. the period of repayment
   d. all of the above
   e. none of the above

2. The Truth-In-Lending Law that went into effect July 1, 1969, was enacted so that the consumer would be told:

C. Types of Insurance.

1. Life Insurance

Multiple Choice

Directions: Read each of the following. Circle the letter that identifies the best answer for each question.

1. Luke Foster insured his life for $10,000. When he stopped paying his premiums, the insurance company gave him $10,000. What kind of policy did he have?
   a. straight life
   b. limited-payment
   c. endowment

2. Bob Nelson insured his life for $15,000. At the age of 70, he stopped paying premiums. He was now no longer insured. He could however, get $5,000 back in cash from the insurance company. What kind of insurance did he have?
   a. straight life
   b. limited-payment
   c. endowment
3. Rex Lewis insured his life for $20,000. He paid premiums for 25 years. Now he has stopped paying premiums, but he is still insured. His policy also has a cash value, but the cash value is only $10,000. What kind of insurance does he have?

a. straight life  
b. limited-payment  
c. endowment

4. Three healthy 25-year-old men took out $5,000 life insurance policies from the same insurance company on the same day. Which one bought term insurance?

a. Andy who paid $25  
b. Bill who paid $65  
c. Dave who paid $85

5. Angelo Amato works in a machine shop. Six weeks ago he was badly injured when the machine he was working on cut his leg, and he has been out of work since then. Benefits are paid to him through . . .

a. workman's compensation  
b. Medicare  
c. disability insurance

6. Mary Pilnick is about to leave her job. She has a group life insurance plan at work, for which she pays $2.00 a month. The insurance company agrees to let her convert to an individual plan. She will pay . . .

a. less than $2.00 a month  
b. $2.00 a month  
c. more than $2.00 a month

7. Arthur McIntosh sold an insurance policy Bob Groper. Arthus showed Bob policies from several insurance companies then he let Bob pick out the policy he wanted. Arthus is . . .

a. a representative  
b. a broker  
c. an agent

8. Ellis, Mike, and Zane all have $2,000 worth of straight life insurance. Which one probably gets his insurance cheapest?

a. Ellis, who bought an "industrial" policy from a door-to-door salesman.  
b. Mike, who pays premiums four times a year.  
c. Zane, who pays premiums once a year.
9. The methods of payment of life insurance to the beneficiary are known as...
   a. dividend payments
   b. settlement options
   c. proceeds

10. When an insured person dies, his beneficiary may choose the method of payment. It may be...
   a. paid all at once in cash
   b. paid as a monthly income
   c. both of these choices are usually available

11. The assets of life insurance companies are invested to earn money. The largest amount is invested in...
   a. securities of business
   b. government bonds
   c. mortgages

12. If premiums are no longer paid on a "permanent" life insurance policy...
   a. it is cancelled the next day
   b. it no longer has any value
   c. it will remain in full force for a time

13. Life insurance premiums cost...
   a. least if paid yearly
   b. least if paid monthly in advance
   c. most when paid quarterly

14. Some life insurance policies pay twice the basic amount purchased if the insured is killed in an accident. This feature is called...
   a. dividends
   b. double indemnity
   c. special coverage

15. A life insurance policy may contain the provision that premiums will not have to be paid if the insured is physically disabled for a period of at least six months. This provision is called...
   a. special benefit
   b. extended coverage
   c. waiver of premium
16. The premium rate to be paid on a life insurance policy is determined by...
   a. the age of the beneficiary
   b. the age of the insured
   c. the sex of the beneficiary

17. Standard premium rates for life insurance apply on...
   a. most policies issued
   b. on about half the policies issued
   c. few of the policies issued

18. Insurance companies make loans against life insurance policies and charge...
   a. no interest
   b. high interest
   c. low interest

19. More families in America...
   a. have health insurance than life insurance
   b. have life insurance than health insurance
   c. none of these

20. Families often use insurance to provide funds for college through...
   a. endowment life insurance
   b. business overhead insurance
   c. hospital insurance
Matching

Directions: There are four basic types of life insurance policies: (a) term (b) limited payment (c) endowment (d) straight life. Fill in the blanks with the letter representing the type which matches the numbered statement at the left.

1. Savings values increase most rapidly. _____
2. Is the most flexible. _____
3. Costs less than the other three types. _____
4. Has a cash value at maturity equal to the amount of insurance. _____
5. Premiums are payable as long as the insured lives. _____
6. Is considered temporary insurance. _____
7. The cheapest form of permanent insurance. _____
8. Has no cash values. _____
9. Premiums are paid for a stated number of years, then is paid up. _____
10. Amounts to an insured savings plan. _____

Completion

Directions: Read each statement. Fill in the word or words needed in the blanks to complete the statements.

1. The two basic kinds of life insurance are _______ and _______.
2. If you have a life insurance policy whereby you pay premiums for a limited number of years, but you are insured beyond that time until death, you have a __________________ policy.
3. If you have a life insurance policy that has a cash value feature and you can keep it in force from the time that you take it out until you die, you have a __________________ policy.
4. If you have a life insurance policy whereby you pay premiums for a specified period of time and at the end of that time the cash value is the same as the death benefits, you have an __________________ policy.
5. ________________life insurance policies do not accumulate cash or loan value.
6. ________________ insurance usually provides the most protection for a young married couple with the least amount of cost.
Complention

Directions: Read each statement. Fill in the word or words needed in the blanks to complete the statements.

1. The health insurance that covers the cost of hospital expenses, but probably won't cover the fees of a doctor or surgeon is __________ insurance.

2. The health insurance that pays all or part of a doctor's or surgeon's fees for operations is ________________ insurance.

3. The health insurance that pays all or part of a doctor's fees (exclusive of surgery) is ________________ insurance.

4. The special type of health insurance that protects one against the cost of a long, expensive illness and usually has a generous deductible clause is the ________________ insurance.

5. The five types of health insurance policies are:
   a. hospital expense
   b. surgical expense
   c. regular medical expense
   d. major medical expense
   e. loss of income

Multiple Choice

Directions: Read each of the following. Circle the letter that identifies the best answer for the question.

Mary goes to the hospital for an appendectomy which of the following types of health insurance will pay for her expenses.

a. hospital expense
b. loss of income
c. surgical medical expense
d. regular medical expense

Case Studies

Directions: For each of the case situations given below, indicate the kind of health insurance that would best meet the needs presented.

1. Larry Beldon, a guard on the varsity team, injured his back in scrimmage. He was hospitalized for five weeks, much of the time being spent in traction. What type of insurance would have paid for most or all of his care?

2. While in high school, Glen Hummel worked part time in a department store. Now at age 26, Glen is assistant manager of that store and he has a promising future with the company. He feels he earns enough to meet ordinary medical and hospital costs, but he desires protection against extremely high expenses of a serious injury or long illness. What type of policy should Glen have?

3. Tony's father has been very ill for seven weeks. His employer continued paying full wages for only two weeks. What type of health insurance would have provided continued financial help for the family.

4. Paulette McKenna's younger sister had her tonsils removed and at the same time a minor operation was performed to straighten out a crooked finger. Fortunately her parents had what type of insurance to cover most of the fees for these operations?
5. John Cook wants coverage to help pay for most of the costs in the event of serious need for medical treatment. John feels he would be able to pay for about 20% of such costs, but he wants a policy that will take care of the remaining costs. What provision in a policy would suit John’s needs?

3. Property Insurance

Multiple Choice

Directions: Read each of the following. Circle the letter that identifies the best answer for each question.

1. In 100/300/10 liability coverage, which number stands for coverage against injuries to more than one person?
   a. 100  
   b. 300  
   c. 10

2. In 10/20/5 liability insurance, which number stands for coverage against property damage?
   a. 10  
   b. 20  
   c. 5

3. In 10/20/5 liability insurance, which number stands for coverage against injury to one person?
   a. 10  
   b. 20  
   c. 5

4. Mark Bass had an accident that was his fault. His own car had $350 in damages. His insurance paid him $300 for these damages (that is, all but the $50 deductible). What kind of insurance covered this damage to his own car?
   a. liability  
   b. collision  
   c. comprehensive

5. Mark's insurance company also paid the other driver $400 for damages to his car. What kind of insurance covered this damage to the other car?
   a. liability  
   b. collision  
   c. comprehensive
6. George Thompson and Allan Marks both live in the same part of town. All other things being equal, who will pay more for his car insurance?

a. George, who is 22 years old
b. Allan who is 45 years old
c. neither, they will both pay the same

7. At an intersection Sam ran a stop sign and hit a car. The insurance paid the other driver. He was carrying...

a. collision insurance
b. comprehensive insurance
c. liability insurance.

8. May was driving on a slick street, she skidded off and hit a tree. Her insurance paid for the damages. She was carrying...

a. collision insurance
b. comprehensive insurance
c. liability insurance

9. Mr. Fisher has collision coverage on his car with a deductible clause of $100. He has an accident and the damage to the car is estimated at $900. How will his insurance benefit him?

a. the insurance company will pay $100 and Mr. Fisher will pay the remaining $800.
b. Mr. Fisher will pay the first $100 and the insurance company the remainder.
c. the insurance company will pay the full $900.
True or False

Directions: Read each of the following statements. If the statement is true, circle "T". If the statement is false, circle "F".

T F 1. A homeowners policy provide both property and liability insurance.
T F 2. The cost of home insurance is a relatively small item in a budget.
T F 3. While burning leaves in your back yard you accidentally set fire to your garage. The insurance company that sold you your home-owners policy will pay damage done even though you were responsible for the fire.
T F 4. While visiting your neighbor you accidentally upset a small glass-top table, breaking it into several pieces. If your family has a home-owners policy, the insurance company will pay your neighbor for the damage you did, up to the limits of the policy.
T F 5. A friend stops by to see you and through his own clumsiness falls on your property and injures his knee. Several days later you learn that his infected knee is under a doctor's care. Your insurance company will not pay your friend's $35 medical bill because he was responsible for his own injury.

Completion

Directions: Read each statement. Fill in the word or words needed in the blanks to complete the statements.

1. The two basic types of coverages of car insurance are _________ and _________ injury.
2. The two types of liability coverage included in the usual home owners or renter insurance policies are _________ and _________ injury.
3. __________ insurance gives the individual some protection if sued.

Case Studies

Directions: Read each case study. Answer the questions presented at the end of each case study.

1. John Smith, age 25, has a newborn son and wishes to make certain that this son will have funds to attend college when he reaches the age of 18. What specific life insurance plan might achieve this aim? Why?

2. Mr. and Mrs. White purchased a new home. They paid $4,000 in cash and mortgaged the home for the balance of $12,000. Would an insurance program be important to the Whites? What type of program would you suggest in this situation and why?
3. Alma Mohlan wants to invest $2.50 a week. In which of the following will she find it most convenient to invest.

a. United States savings bonds.
b. A savings account paying 4% interest.

4. Joan Lapadula is 24, and she teaches in the public school system in St. Louis, Missouri. She earns $3,800 per annum. She has only recently come to St. Louis, has no relatives there, and so far few friends. She feels she needs some type of insurance protection should she become ill. What health insurance program would you suggest for her? Specify types of policies and costs. If necessary call upon insurance companies to obtain facts and figures to complete your answer.

5. Herman Bartholomew is 35. His twin boys are 15 and in two years will go off to college. Herman is lucky because college costs for the twins will be covered by a bequest left by his grandmother. Lidy, his wife, is 34. They have no other children. He earns $8,500 a year. He has a $10,000 straight life policy with a family income rider ($75 a month) taken out when he was 22. He is about to be promoted and his salary is to be raised to $9,500. He feels that he should now have more insurance and that emphasis should be on savings rather than on protection. In terms of his income and his desire for added savings, what additional insurance program would you recommend for him? Specify policies and costs and explain the reasons for your selection?

4. Social Insurance

Completion

Directions: Read each statement. Fill in the word or words needed in the blanks to complete the statements.

1. Old-age, survivors, disability, and a small death benefit are provided by ____________ program.
2. The letters FICA identify the deductions from a paycheck for ____________.
3. The three kinds of benefits which are provided by the Social Security act are ____________, ____________, and ____________.
4. The type of insurance under the social security program which helps pay hospital charges for individuals over sixty-five is ____________.
Multiple Choice

Directions: Read each of the following. Circle the letter that identifies the best answer for each question.

1. Which of the following groups pays for the federal government's social security program?
   a. Federal income-tax payers
   b. Workers and employers
   c. Retired workers
   d. Widows and their dependents

2. John is planning for retirement. Which would be the best type of insurance to consider?
   a. term insurance
   b. straight life
   c. endowment insurance
   d. limited payment life

Short Answer

Directions: Read the question. State your answers briefly.

1. Who is eligible to receive Social Security payments?

2. Is everyone who works covered by Social Security?

3. What are some disadvantages of Group Insurance?
Multiple Choice

Directions: Read each of the following. Circle the letter that identifies the best answer. Be ready to discuss your answer in class.

1. What retirement plan would you recommend for a widow with limited resources, age 70, with two married children who need financial aid? Explain the reasons for your answer.
   a.  
   b.  
   c.  
   d.
