The present college preparatory programs are too general to prepare students for the large number of available specialized postsecondary education programs. The pre-postsecondary business education curriculum for grades 11 and 12 provides experience-centered instruction through career exploration in business administration. A statement of the problems and philosophy, a list of the occupational areas, eight program objectives, the course content, and a list of resources materials are presented in the first part of the document. The body of the guide provides unit plans for the following business administration subject areas: an introduction to business, business mathematics, business English, economics, business law, introduction to data processing, accounting, human relations, management, finance, marketing, and statistics. Developmental objectives, program objectives, behavioral objectives, learning activities, and program implementation are presented for each unit. The course is approximately 36 weeks in length and uses the block teaching approach. Visual aids, practice sets, games, role playing, and simulation are used extensively throughout. The document concludes with an outline of six recommended evaluation methods. A four-page bibliography is appended. (Author/EP)
PRE-POST-SECONDARY

Curriculum Guide

Developed for

THE STATE DEPARTMENT OF VOCATIONAL EDUCATION

by

Betty Carney

and

Thomas Fourman

Under the Direction of

William Gordon
PREFACE

This curriculum was developed for the prospective college bound student that is interested in a career in some area of Business Administration. The program is experience orientated to give the students an idea of and information on the different areas in the field of business. In summary, the program is a college preparatory program in the area of Business Administration.

The authors of the curriculum gratefully thank a very qualified and helpful advisory committee. A list of the advisors is on the following page.

I. Statement of the Problem.

In this modern age of vast technological change and advancement, a broad based vocational program, which prepares students for the multi-facets of vocational employment has been provided. Just as it was necessary to provide a broad based vocational education program to satisfactorily prepare all students for the multitude of vocations, it is becoming obvious that present college preparatory programs cannot prepare students for the large number of available postsecondary education programs. A need exists to offer eleventh and twelfth grade students a diversity of pre-postsecondary programs to prepare them for entrance into postsecondary education.

Some member schools of Joint Vocational School Districts are not able to offer a comprehensive college preparatory program for their students. If no comprehensive college preparatory programs are offered, the postsecondary bound student in some cases finds himself attending high school for a minimal number of hours each day during the eleventh and twelfth years. This student's ability and talent is not challenged or developed by experiences in a pre-postsecondary area of his choice.

The joint vocational schools of Ohio have resources in business laboratories, business instructional personnel and media centers which are not presently available to home high school students considering postsecondary education.

It is felt that the development of a variety of pre-postsecondary programs in the Joint Vocational School Districts which would include those subjects required for high school graduation and postsecondary institution entrance would enhance the career education training for these postsecondary bound students.

The problem is to develop a pre-postsecondary high school curriculum in Business Administration for students of the eleventh and twelfth grades.
II. Statement of Philosophy.

The present college preparatory programs are too general to prepare students for the large number of available specialized post-secondary education programs. A need exists to offer eleventh and twelfth grade students a diversity of secondary programs to prepare them for entrance into post-secondary education. The Business Administration Program for students of the eleventh and twelfth grades is a means to help prepare the students to gain experience in a number of these specialized Business occupational areas.

Throughout our nation there is a cry for relevance in education and loading campuses with uncommitted youth injures the development of the best professional educational efforts. By Business Administration students receiving a rather comprehensive view of what is involved in the different fields of Business Administration, they can enter their chosen area of study knowing in what direction they want to go.

Pre Post-secondary Education is not in itself a discipline but involves various disciplines developed into a program pattern built around the student's goal rather than goals on an educational discipline. The program would be so structured as to integrate the knowledge required from the disciplines as a part of the total block of time along with instruction in the technical knowledge and skills of the Business Administration areas.

Business Administration for high school students in the eleventh and twelfth grade will be an experienced centered program designed to meet a need for exploration toward a lifetime career and a program that is educationally relevant. It will extend the opportunity for post-secondary bound students to investigate post-secondary educational programs prior to the time that they must make a choice of a particular post-secondary educational program. It will also be built around technical knowledge, math, work habits, and attitudes. Thus, they will be youth who know why they are in college and know where they are going.

Through the cooperative effort of the joint vocational school district and the technical college, high school eleventh and twelfth grade students may be extended the opportunity not now available for them to have secondary educational experiences in classrooms and laboratories which are generally available only in more populated centers with a greater student base.

Most of the high schools of Ohio are identified as comprehensive high schools yet there are almost no truly comprehensive high schools since there are none that provide an opportunity for the majority of youth to reach their goals. This being the case, the Business Administration program would help the high school provide a means by which more students could reach their goals.

The Business Administration program will be offered to eleventh and twelfth graders as a two year pre-professional program. Students who are stimulated to a goal beyond their educational achievement, but within their native ability, will have the opportunity to work towards that goal without regard to the Carnegie units which have controlled our educational system.
II. Statement of Philosophy (Continued)

These students will go directly from the pre-professional program of Business Administration into the professional schools in our colleges and universities without the usual last two years of upper level high school programs imposed upon them.

By offering the exploratory Business Administration Program on the eleventh and twelfth grade level, the students will be prepared to enter college with a basic background in Business Administration knowing the direction they are going, thus being ahead of the other students entering the Business Administration area in college.
III. Occupational Areas.

Within the world of work, there exist many possibilities for career development. Having considered the Dictionary of Occupational Titles (D.O.T.) and an advisory committee, three broad occupational areas have been identified. These areas encompass most careers, so that regardless of the procedure used to implement the exploration program, there will be a maximum student and teacher involvement. The focus is on broad areas in the beginning, leading to narrowing choices, until finally, through decision making and consultation, some well defined career possibilities are determined by the students for postsecondary training.

Areas may be deleted, added, or modified, as the local situation demands, however, for our purposes three broad occupational areas have been identified, including sub-sections for more specific occupational experience.
III. Occupational Areas

A. Administrative Specialization

1. Accountants and Auditors
   a. Accountant 160.188
   b. Accountant, Budget 160.188
   c. Accountant, Cost 160.188
   d. Accountant, Systems 160.188
   e. Accountant, Tax 160.188
   f. Credit Analyst 160.288
   g. Estimator 160.288

2. Budget and Management Analysis
   a. Budget Officer 161.118
   b. Union time - Study Man 161.118
   c. Clerical Technician 161.268

3. Purchasing Management
   a. Administrator, Contract and Order 162.118
   b. Broker 162.158
   c. Buyer 162.158
   d. Commission Man 162.158
   e. Purchasing Agent 162.158
   f. Purchase - Price Analyst 162.188

4. Sales and Distribution Management
   a. Manager, Contracts 163.118
   b. Manager, Promotion 163.118
   c. Manager, Sales 163.118
   d. Spare - Parts Field Representative 163.158
   e. Manager, Utility Sales and Service 163.168

5. Advertising Management
   a. Advertising Assistant 164.068
   b. Manager, Advertising 164.118
   c. Director, Merchandising Display 164.168

6. Public Relations Management
   a. Public Relations Man 165.068
   b. Lobbyist 165.118
   c. Director, Tourist 165.168

### III. Occupational Areas (Continued)

- **4. Wholesale and Retail Trade Managers and Officials**
  - D.O.T. 185.000
    - a. Manager, Merchandise 185.168
    - b. Manager, Parts 185.168
    - c. Manager, Store 185.168
    - d. Service Manager 185.168
    - e. Wholesaler 185.168

- **5. Finance, Insurance and Real Estate Manager and Officials**
  - D.O.T. 186.000
    - a. Manager, Financial Institution 186.118
    - b. Manager, Insurance 186.118
    - c. Property Manager 186.118
    - d. Real Estate Agent 186.118
    - e. Trust Officer 186.118
    - f. Manager, Safe Deposits 186.138
    - g. Manager, Apartment House 186.168
    - h. Manager, Housing Project 186.168
    - i. Reserve Officer 186.168
    - j. Supervisor, Credit Union 186.168
    - k. Loan Officer 186.288

- **6. Service Industry Managers and Officials**
  - D.O.T. 187.000
    - a. Director, Community Organization (nonprofit) 187.118
    - b. Manager, Hotel - Motel 187.118
    - c. Superintendent, Institution 187.118
    - d. Superintendent, Recreation 187.118
    - e. Manager, Restaurant 187.168
    - f. Manager, Theater 187.168

- **7. Public Administration Managers and Officials**
  - D.O.T. 188.000
    - a. Commissioner, Conservation of Resources 188.118
    - b. Commissioner, Public Works 188.118
    - c. Manager, City 188.118
    - d. Welfare Director 188.168
    - e. Postmaster 188.168
    - f. Revenue Agent 188.168

- **8. Miscellaneous Managers and Officials, n.e.c.**
  - D.O.T. 189.000
    - a. Manager, Industrial Organization 189.118
    - b. President 189.118
    - c. Vice President 189.118
    - d. Security Officer 189.168
    - e. Manager Trainee 189.168
    - f. Field Representative 139.263

### C. Miscellaneous Professional, Technical, and Managerial Occupations

- **1. Agents and Appraisers**
  - D.O.T. 191.000
    - a. Business Agent 191.118
III. Occupational Areas (Continued)

b. Right-of-Way Agent  191.118

c. Service Representative  191.118

d. Credit Analyst  191.268

e. Appraiser, Real Estate  191.287
IV. Program Objectives.

A. To offer a two-year curriculum which will provide 22.5 hours per week of pre-postsecondary instruction in the field of Business Administration for high school students in the eleventh and twelfth year level which would be compatible with high school graduation and possess experience centered instruction related to postsecondary education achievement of a para-professional or professional goal.

B. To provide the resources in business laboratories, business instructional personnel, and media centers of the joint vocational schools of Ohio to students planning postsecondary Business Administration.

C. To provide the opportunity for postsecondary bound students to investigate postsecondary educational programs prior to the time that they must make a choice of a particular postsecondary educational program.

D. To provide a program to broaden the experiences of students interested in postsecondary education in Business Administration.

E. To provide an experienced centered program with a strong purpose and well fixed reason for learning so the student can develop goals and reach the goals through pre-postsecondary education.

F. To provide the student with a meaningful and beneficial alternative to the general college preparatory courses offered in secondary education.

G. To provide a program in Business Administration which will allow the student to learn by building on what he knows and put into practice what he has learned.

H. To give the student a beneficial goal and direction when he enters postsecondary education.
V. Content

The following contents were based on 36 weeks of instruction and 22 1/2 hours per week, including about 4 1/2 hours for experience oriented work (more experience oriented work should be provided whenever possible).

The content shows the areas to be covered and does not indicate the order of presentation. The block program approach should be used not the subject approach. Include the areas of study when it is appropriate within the program. Also, the content and time allocations are guidelines and should be adjusted to meet the needs of the students and to the availability of experience opportunities in the community.

The work experiences have been suggested in the program implementation section of the course content; but, the teacher should not be limited to these only. Additional experience areas are listed under resources and materials.

The use of visual aids should be used whenever possible, including extensive use of practice sets, games, role playing, and simulations. Some possible sources of teaching aids are also listed under the section on resources and materials.
Resources and Materials

1. Local Library
2. Publishing Companies
3. Films Extension Media Center - University of California Berkeley, California 94720
4. Chamber of Commerce
5. Local service and professional organizations
6. Film Library - Kent State University Kent, Ohio
7. The Guide to Simulations/Games for Education and Training Information Resources, Inc. P. O. Box 417 Lexington, Massachusetts
8. Manufacturers of office equipment
9. Banks - Loan Department, Trust Department, Savings and Checking Departments
10. Credit Agencies
11. Insurance - Life, Fire, Auto, Liability, etc., Adjuster
13. Manufacturing Firm - Production, Materials Management, Purchasing Departments, Sales Department, Shipping and Receiving, Accounting, Personnel, Payroll Data Processing
14. Public Utilities - Phone Company, Gas and/or Electric Company
15. Miscellaneous - Public Accounting Firm, Lawyer, Court, Better Business Bureau, Real Estate Agent, Appraiser, Stock Broker, Advertising Agency, Hospital, Transportation (dispatcher), Construction Company, Retail outlet, Wholesale and/or Distributer, Labor Union, Military Recruiters, etc.
INTRODUCTION TO BUSINESS
(72 hours)

DEVELOPMENTAL OBJECTIVES
To develop an understanding of the nature of business and how business fits into society; how business is organized.

BEHAVIORAL OBJECTIVES
The students will be able to identify the basic freedoms of capitalism.
The student will be able to see the relationship of capital and risk to profit.

PROGRAM OBJECTIVES
To provide information on the development of business, its environment, and the social aspects of business so that the student will understand his position in the business environment.

ACTIVITIES
Have the students review and discuss the basic freedoms of capitalism: private enterprise, private property, and freedom of choice.
Have the students illustrate how capital is used to generate profit including the elements of risk involved.

PROGRAM IMPLEMENTATION
Have examples and illustrations of the basic freedoms of capitalism.
INTRODUCTION TO BUSINESS  
(72 hours)

DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to understand the concept of specialization and mass production.

The student will be able to understand the industrial revolution and its affect on business and the workers.

The student will be able to compare and list advantages and disadvantages of different types of business organizations. He will be able to identify some general management activities.

ACTIVITIES

Have the students report on examples of specialization and mass production.

Have the students review and discuss the industrial revolution.

Have the students compare various types of businesses, list advantages and disadvantages, and draw organizational charts.

Have the students list these activities and discuss them.

PROGRAM OBJECTIVES

PROGRAM IMPLEMENTATION

Have some examples of organization charts and arrange for a trip to a business to observe management activities.
INTRODUCTION TO BUSINESS
(72 hours)

DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to understand how businesses market their products and services.

The student will understand how production takes place and the management of materials.

ACTIVITIES

Have the students listen to guest speakers on pricing, transportation, advertising, wholesaling and retailing. Visit a wholesale outlet and a retail store.

Have the students observe and discuss production and materials management. Have the students report, discuss, and draw a flow of merchandise from its raw material to a finished product in the hands of the consumer.

PROGRAM OBJECTIVES

PROGRAM IMPLEMENTATION

Arrange for guest speakers and arrange for field trips to a wholesale outlet and a retail store.

Arrange for field trips to a business to observe production and materials management.
INTRODUCTION TO BUSINESS
(72 hours)

DEVELOPMENTAL OBJECTIVES
To develop an understanding of
the human side of business
and to view problems of
people and how business
affects people and the
environment.

BEHAVIORAL OBJECTIVES
The student will be
able to understand
what is involved in
selecting an employee
and the training of
an employee.

ACTIVITIES
Have the students
observe the activities of a personnel
department. Have the students outline a possible
training program.

LISTEN TO A SPEAKER
ON THE ROLE OF THE
UNION IN BUSINESS.

PROGRAM OBJECTIVES
To provide information
on the personnel side
of the business organi-
zation and to show the
students how they will
fit into and/or will be
affected by the business.

PROGRAM IMPLEMENTATION
Arrange for a visit to
a personnel department. Have various samples of
employment applications
and tests available. Have some policy books
from various companies
available as well as
job descriptions.

CONTACT A UNION LEADER
AS A GUEST SPEAKER ON
THE ROLE OF THE UNION
IN BUSINESS.
INTRODUCTION TO BUSINESS
(72 hours)

DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to organize and categorize guidelines which will show human relations policy within a business organization.

The student will be able to characterize the different roles of management, unskilled labor, union leadership, etc., in human relations situations.

ACTIVITIES

Have the students design a company policy booklet which will indicate guidelines to foster better human relations within their company. Hopefully have them also design an evaluation system to see how it would work.

Have the students "brainstorm" on developing better human relations within business.

Have the students list the various jobs or departments within a company. Have them describe the duties of each and explain what important part it has in making profits for a company.

Have the students explore the differences between a successful and unsuccessful company or business.

Encourage students to join Junior Achievement.

Have students join a Junior Achievement Company and contribute in different ways to it.

Have the students role play management, skilled labor, unskilled labor, union leadership in a panel discussion of the topic of "Human Relations In Business".

PROGRAM OBJECTIVES

PROGRAM IMPLEMENTATION

Have the students design a company policy booklet which will indicate guidelines to foster better human relations within their company. Hopefully have them also design an evaluation system to see how it would work.

Have the students "brainstorm" on developing better human relations within business.

Have the students list the various jobs or departments within a company. Have them describe the duties of each and explain what important part it has in making profits for a company.

Have the students join a Junior Achievement Company and contribute in different ways to it.

Have the students role play management, skilled labor, unskilled labor, union leadership in a panel discussion of the topic of "Human Relations In Business".
INTRODUCTION TO BUSINESS
(72 hours)

DEVELOPMENTAL OBJECTIVES

To develop an understanding of the finance of business, risks involved in business, and insurance against loss.

BEHAVIORAL OBJECTIVES

The student will be able to report on how to finance a business. He will understand financial problems and policies. He will be able to discuss how security markets operate.

ACTIVITIES

Have the students simulate the financing of a small business operation and develop financial policies.

Have them listen to a financial director or a local business.

Introduce the students to the Wall Street Journal and stock indexes from newspapers.

PROGRAM OBJECTIVES

To provide financial information including stocks, bonds, bank loans, and insurance.

PROGRAM IMPLEMENTATION

Arrange for a financial director to speak to students.

Have the Wall Street Journal available.
INTRODUCTION TO BUSINESS
(72 hours)

DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to report on the benefits of insurance, its purposes, and costs.

ACTIVITIES

Have the student hear from various representatives of insurance companies so they can learn to put insurance to work for themselves.

Have the students list damages to a car after an accident, get appraisals for getting it fixed, and determine the costs of insurance. Have students indicate reasons and/or benefits of insurance.

PROGRAM OBJECTIVES

PROGRAM IMPLEMENTATION

Arrange for speakers from various insurance companies.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the fundamentals of math and mathematical applications to business problems.

BEHAVIORAL OBJECTIVES

The student will improve his accuracy and speed in addition, subtraction, multiplication, and division.

The student will be able to use decimals in math problems, including addition, subtraction, multiplication, and division.

The student will be able to convert common fractions to their decimal equivalent.

The student will know the terminology of fractions and be able to use fractions in math problems including addition, subtraction, multiplication and division. He will be able to reduce a fraction to lower terms.

ACTIVITIES

Have the students do review and drill work in addition, subtraction, multiplication and division.

Have students work problems and exercises involving decimals and have them convert common fractions to their decimal equivalent.

Have the students work problems and exercises involving decimals and have them reduce fractions to lower terms. Review and use the terminology related to fractions.

PROGRAM OBJECTIVES

To provide instruction in the fundamentals of math so that the students can improve their use and application of math.

PROGRAM IMPLEMENTATION

Have review and drill problems available and review proper methods to improve skills in the fundamentals of math, decimals, fractions and percentages.

Have the students work problems and exercises involving decimals and have them reduce fractions to lower terms. Review and use the terminology related to fractions.
DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to represent decimals and fractions as percentages.

The student will be able to use and apply the percentage formula.

The student will be able to compute cash discounts, trade discounts, and markup.

The student will be able to calculate discounts on notes, find maturity dates of notes, and find the proceeds.

The student will be able to compute interest for annual, monthly, or daily periods of time.

The student will be able to use the 60-day interest method.

The student will be able to calculate compound interest.

ACTIVITIES

Have the students work problems and exercises converting decimals and fractions to percentages and using the percentage formula.

Have the students work problems on discounts and markup.

Have the students review business forms using discounts and markups and compute the amounts.

Have students calculate problems involving discounting notes and review what notes are and why they are discounted.

Have the students work problems using interest.

Have the students review why interest is charged and the use of 360 days and 365 days on computing interest.

PROGRAM OBJECTIVES

PROGRAM IMPLEMENTATION

Have invoices, sales slips and other business forms available that show discounts and markup.

Have sample notes available for students to use.
DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to compute installment charges on an installment purchase and calculate the interest on an installment purchase.

The student will understand the use of credit card purchases and be able to calculate the finance charge on the average daily balance of overdue accounts.

ACTIVITIES

Have the students work problems on installment purchases and review installment contracts.

Have the student calculate finance charges from credit card statements.

PROGRAM OBJECTIVES

PROGRAM IMPLEMENTATION

Have some installment contracts available for students to review.

Have credit card statements available for student use.

BUSINESS MATH

(72 hours)
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the basic sentence pattern (parts of speech) and to write an effective sentence, paragraph, and complete message.

BEHAVIORAL OBJECTIVES

The student will be able to write an effective sentence utilizing correct sentence patterns and parts of speech.

ACTIVITIES

Have the students work exercises using the correct parts of speech. Review the four sentence patterns and practice writing sentences utilizing each.

PROGRAM OBJECTIVES

To provide information on effective oral and written messages and the proper structure of messages.

PROGRAM IMPLEMENTATION

Have books available describing the sentence patterns and the parts of speech. Provide exercises utilizing an either/or situation.
DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to recognize the various forms of speech and be able to use them.

The student will be able to use proper techniques for achieving sentence unity, coherence, and emphasis.

The student will be able to write an effective paragraph using proper paragraph structure and development, including unity, organization, coherence, and emphasis.

ACTIVITIES

Have the students work exercises on the forms of speech.

Have the students practice writing sentences using unity, coherence, and emphasis.

Have the students discuss a poorly written paragraph as to its precise meaning and re-write it using correct structure and development.

PROGRAM OBJECTIVES

PROGRAM IMPLEMENTATION

Provide information and illustrations on the various forms of speech and present proper techniques in sentence unity, coherence, and emphasis.

Have the students practice writing sentences using unity, coherence, and emphasis.

Provide examples of poorly written paragraphs and examples of correctly written paragraphs.
DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to plan and write a complete message employing forceful first and last sentences.

The student will be able to understand and use the five C's of a message.

ACTIVITIES

Do exercises in proofreading sentences and correcting the errors. Practice writing messages.

Have the students explain in five C's and use them in writing messages.

PROGRAM IMPLEMENTATION

Provide exercises with sentences that need to be corrected. Provide examples of forceful messages.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the proper procedures in planning and writing various kinds of business letters.

BEHAVIORAL OBJECTIVES

The student will be able to use effective styling for business letters.

The student will be able to list the seven parts of a business letter, punctuation styles, and letter styles.

PROGRAM OBJECTIVES

To provide information on proper planning and writing of business letters.

ACTIVITIES

Have oral discussions regarding information needed on a letterhead.

Have the students design letterheads for a list of firms.

Have the students give the meaning of terms pertaining to punctuation styles and letter styles.

Have the students mark on a business letter the seven parts of the letter.

PROGRAM IMPLEMENTATION

Provide examples of letterheads and a list of forms.

Have business letters available for students to use in exercises and show examples of business letters.
DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to use the proper tone in writing business letters.

The student will be able to recognize the various types of business letters.

ACTIVITIES

Have the students review and discuss the seven parts of a business letter.

Have the students write paragraphs using the proper tone under different types of circumstances.

Have the students review and discuss sales letters, adjustment letters, credit letters, collection letters, letters of applications, resumes, letters of introduction and recommendation, simple requests and special requests, orders, remittances, simple acknowledgements and order acknowledgements, inquiries, and replies.

PROGRAM OBJECTIVES

PROGRAM IMPLEMENTATION

Have samples of each type of letter available for review and discussion.

Provide different circumstances that require different tones to be included in the paragraphs.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of our economic system and evolution.

BEHAVIORAL OBJECTIVES

The student will be able to understand our economic system.

The student will be able to understand the theory of supply and demand and how they affect prices.

The student will be able to understand how money and credit are used.

The student will be able to report on the organization and operation of the Federal Reserve System.

ACTIVITIES

Have the students review and discuss our economic system, supply and demand, money and credit.

Have the students draw supply and demand curves on graph paper.

Listen to a guest speaker on money and credit.

Have the students give reports on the Federal Reserve System and listen to a guest speaker on the Federal Reserve System.

PROGRAM OBJECTIVES

To provide information on our economic system.

PROGRAM IMPLEMENTATION

Provide information on our economic system.

Arrange for a guest speaker from a bank.

Have Federal Reserve bulletins available.

Contact a representative of the Federal Reserve System or a banker to be a guest speaker.
ECONOMICS
(72 hours)

DEVELOPMENTAL OBJECTIVES
To develop an understanding of the basic processes of production, processing and distribution in the American economy and the importance of human relations in these processes.

BEHAVIORAL OBJECTIVES
The student will be able to identify concepts of the American system of free enterprise, the circular flow of goods and services, national output and growth, forms of business organizations, money management and changing occupational patterns.

The student will be able to replicate a system of free enterprise on a small scale.

ACTIVITIES
Have the students make reports (oral and written) on history, current trends, and future outlook of business. Include aspects of business, basic process of production, processing and distribution utilizing the following sources:

a. library research
b. personal interviews
c. broadcast media

The student will be able to replicate a system of free enterprise on a small scale.

PROGRAM OBJECTIVES
To provide information concerning the aspects of business, the basic processes of production, processing and distribution in American work economy and the importance of human relations in these processes.

PROGRAM IMPLEMENTATION
Have magazines, papers, and books dealing with business trends available; collect materials for business model; literature on how to develop company policy; contact Junior Achievement for possible membership; construct list of business terms; obtain filmstrips relating to business and economics and contact business representative from personnel department to speak to the class; organize or encourage joining interschool committee on human relations.

Have the students organize a business model. Buy a product to market, advertise it, sell it, distribute it, and hopefully profit by it.

Listen to a speaker from a personnel department.
DEVELOPMENTAL OBJECTIVES

To develop a clarification of the relationship between government and economic structure in general.

BEHAVIORAL OBJECTIVES

The student will be able to identify the function of economics as it related to government.

The student will be able to report on labor law and work regulations.

ECONOMICS

(PROGRAM OBJECTIVES)

To provide activities and experiences which will enable the student to understand the relationship between government and economic structure.

ACTIVITIES

Listen to a government employee who can relate to the student the relationship between the government and the economic structure.

Program Implementation.

Have the students list the various government agencies and describe the function of each as it related to our economic structure.

Have the students become familiar with the gross national product, the factors that determine it, and the relationship of the individual in society to it.

The student will be able to report on labor law and work regulations.

Have the students find out what the various labor laws and work regulations are.
DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to report the effect of taxes on the consumer.

ACTIVITIES

Have the students research the relationship of industry to the government in regard to the dependence on government for financing, government projects, research and future trends.

Have the students learn the different types of taxes.

Have the students listen to a speaker from the social security administration.

PROGRAM IMPLEMENTATION

Arrange for a speaker from the social security administration.

Have the students list the various benefits under social security and explain each benefit.

PROGRAM OBJECTIVES

Have the students examine the spending patterns of the Armed Forces as it relates to the economic structure of our society.

33
DEVELOPMENTAL OBJECTIVES

To develop a knowledge of general economic structure as related to the labor forces of our nation, state, and local areas.

BEHAVIORAL OBJECTIVES

The student will be able to report on civil service jobs and/or name their requirements.

The student will be able to identify how war and peace affect labor and economy forces in our nation.

ACTIVITIES

The students will listen to a speaker from civil service commission talk on jobs in civil service locally and nationally as well as requirements for qualifying for civil service work.

Have the students research and discuss the relationship of war and peace to the economy and labor force of our country.

PROGRAM OBJECTIVES

To provide activities and experiences which will enable the student to understand the labor forces of our nation, state, and local areas and relating his knowledge of general economic structure.

PROGRAM IMPLEMENTATION

Contact a representative from the civil service commission to talk to the students.
DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to identify various methods of obtaining credit, know its advantages and disadvantages, know how one obtains a credit rating and realize why a person must have good credit references.

PROGRAM OBJECTIVES

ACTIVITIES

Listen to representatives from business discuss credit.

Have the students survey teachers, parents, neighbors, friends, etc. to find out how many people use credit cards, why and what effect it has on them.

Listen to a labor leader.

PROGRAM IMPLEMENTATION

Contact speakers for a panel discussion: bank representative, loan associate, realtor, seller and buyer.

Have the students give reports on labor unions: local national, and federations.

Contact a labor leader to be a guest speaker.
DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to report on the functions of a bank, how it helps consumers to use money wisely and how it, in turn, uses their money in order to obtain a profit. The student will be able to understand the creation of money through the use of demand deposits.

The student will be able to list the advantages and disadvantages of buying stock, what its economic purposes are, and how it may be a method of wise spending.

PROGRAM OBJECTIVES

ACTIVITIES

Take the students on tour of a bank and be introduced to the information about its various services.

Have the students listen to a stock broker tell about his work and how people invest in the stock market.

PROGRAM IMPLEMENTATION

Contact a bank and arrange for a field trip.

Arrange for a stock broker to come as a guest speaker.
DEVELOPMENTAL OBJECTIVES

To develop an understanding and value of the complexities of the free enterprise system with other major economic systems.

BEHAVIORAL OBJECTIVES

The student will be able to identify economic systems which relate to other systems.

The student will be able to name the advantages and disadvantages of the free enterprise system.

The student will be able to identify the functions of various government agencies.

The student will be able to construct a visual flow chart which depicts the American system of free enterprise.

ACTIVITIES

Have the students make comparisons of the United States economic system with other economic systems.

Have the students name and discuss the advantages and disadvantages of the free enterprise system.

Introduce the students to the history, progress, and future functions of such government agencies as the Securities Exchange Commission, Federal Deposit Insurance Corporation, Federal Housing Authority, etc.

Have the students research and discover the basic facts and qualifications about welfare, workman's compensation, etc. See if they compare to anything similar in other countries.

PROGRAM OBJECTIVES

Provide information which will enable the student to understand and value the complexities of the free enterprise system and be able to compare other major systems to free enterprise.

PROGRAM IMPLEMENTATION

Gather information concerning various economic systems, free enterprise, government agencies, welfare, workman's compensation, and materials to construct a flow chart.

Contact your local representative and senator for available information.

Have the students research and discover the basic facts and qualifications about welfare, workman's compensation, etc. See if they compare to anything similar in other countries.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the origin and development of the law and the basic processes of law.

BEHAVIORAL OBJECTIVES

The student will be able to understand the origin and development of law.

The student will be able to list the State and Federal Courts in the U.S. and the proper jurisdiction of each.

The student will be able to distinguish between constitutional laws, statutes, and common law.

ACTIVITIES

Have the student review and discuss the history of law.

Have the students develop a chart showing the powers and jurisdiction of each court and present the chart in a discussion.

Visit a court room.

Have the students present examples of the various types of laws.

Have the students present examples of the various types of laws. Have the students discuss which laws have power over the other.

PROGRAM OBJECTIVES

To provide information about the development of law, the court system, constitution and other laws. To show how these fit into the legal process and the importance of human rights in this process.

PROGRAM IMPLEMENTATION

Provide information and material to prepare a chart of the court systems.

Contact the court to arrange a visit to the court rooms.

Have a copy of the Federal and State Constitution available and copies of some statutes and common laws available for students to use.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the legal implications of contracts and of the importance of rights and responsibilities of the parties to a contract.

BEHAVIORAL OBJECTIVES

The student will be able to understand the nature of contracts and identify various forms of contracts.

The student will be able to make or enter into a binding contract. He will be able to understand the elements of a binding contract.

The student will be able to recognize a valid offer and acceptance. He will know what is considered consideration and what makes a person a competent party of a contract.

PROGRAM OBJECTIVES

To provide information about the basic processes of the creation and discharge of contracts.

ACTIVITIES

Have the students review contracts and the elements of a contract; listen to a guest speaker on contracts.

Have the students study and analyze case studies involving contracts and present the cases in class.

Have the students, through role playing, enter into contracts with each other and discuss the legal rights of each party.

PROGRAM IMPLEMENTATION

Have examples of contracts, sales contracts, and warranties available. Compile a list of case studies for the students to analyze and study. Have guidelines set up for role playing in setting up contracts. Contact a lawyer to speak to the class on contracts.

Have the students study and analyze case studies involving contracts and present the cases in class.

Have the students, through role playing, enter into contracts with each other and discuss the legal rights of each party.
## Programme Objectives

<table>
<thead>

## Developmental Objectives

**Business Law (72 hours)**
DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will know how an agency is created and be able to list the parties involved in an agency.

The student will be able to understand insurance policies and know what an insurable interest is.

ACTIVITIES

Have the students bring in warranties on products that they have purchased and discuss the warranties.

Have the students discuss agencies and analyze case studies involved in agencies.

Have the students present various insurance contracts and discuss the coverage offered by the policy and listen to an insurance agent.

Have the students analyze case studies involving insurance policies.

PROGRAM IMPLEMENTATION

Have various kinds of insurance policies available and contact an insurance agent to discuss insurance policies and his role as an agent.

PROGRAM OBJECTIVES
DEVELOPMENTAL OBJECTIVES

The student will be able to tell the difference between real property and personal property. He will be able to define how title to property is acquired and transferred.

The student will be able to understand and define bailment and be able to list the rights and duties of the bailor and bailee.

ACTIVITIES

Have the students review property and transfer of property. Have them analyze present case studies involving property.

Have the students define and discuss bailments and analyze and present cases involving bailments.

PROGRAM IMPLEMENTATION

Have a deed and formal title available for the students to discuss.

Provide case studies on property.

Provide case studies on bailments.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the need and use of negotiable instruments in business, as well as how they are used in personal life.

BEHAVIORAL OBJECTIVES

The student will be able to identify a negotiable instrument. He will be able to list the parties to a negotiable instrument.

The student will be able to define the liabilities of the parties and he will know how the liability is discharged.

The student will be able to transfer negotiable instruments.

ACTIVITIES

Have the students review and discuss negotiable instruments, define them and identify the parties.

Have the students simulate preparing and transferring negotiable instruments.

Have the students analyze case studies involving negotiable instruments.

PROGRAM OBJECTIVES

Provide information about negotiable instruments and how they affect business and how they have or will influence the students.

PROGRAM IMPLEMENTATION

Have sample negotiable instruments available and illustrations of their use and how they are transferred.

Provide case studies involving negotiable instruments.
INTRODUCTION TO DATA PROCESSING
(72 hours; 4 hours for 18 weeks)

DEVELOPMENTAL OBJECTIVES

To develop an understanding of the growth and development of data processing and the importance of data processing today.

BEHAVIORAL OBJECTIVES

The student will be able to identify the growth and development of Data Processing. The student will be able to list the stages or levels of development of data processing.

The student will be able to list the operations in data processing.

The student will be able to identify the need for data processing.

ACTIVITIES

Have the students review and discuss the history and development of data processing and the stages of development.

Have the students discuss the operations of data processing.

Have the students discuss and present different views in regarding the advantages and disadvantages of automated data processing including the right of privacy.

PROGRAM OBJECTIVES

To provide information on the history and development of Data Processing.

PROGRAM IMPLEMENTATION

Have data processing illustrations, examples, and text materials available.

Have films, filmstrips, and magazines available for discussion items.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the use of the punched card and unit record data processing equipment.

BEHAVIORAL OBJECTIVES

The student will be able to read the Hollerith code for punched cards.

The student will be able to understand the set up and operation of unit record equipment and its historical importance.

ACTIVITIES

Have the student practice reading the punched card code.

Have the students review the use of the equipment and how it is able to process the punch card.

Have the students use and/or observe the use of the equipment.

PROGRAM OBJECTIVES

To provide information about the punched card, and the unit record equipment to process the punched card.

PROGRAM IMPLEMENTATION

Have punched cards available for the students.

Have unit record equipment available for students use and/or observation. (If the equipment is not available in house, a trip should be made to a local business that has the equipment.)
INTRODUCTION TO DATA PROCESSING
(72 hours)

DEVELOPMENTAL OBJECTIVES

To develop an understanding of the use and application of electronic data processing and the importance of electronic data processing in today's business.

BEHAVIORAL OBJECTIVES

The student will be able to understand the features of the electronic computers and be able to understand the difference between the analog and digital computer.

The student will be able to name the basic units that make up an electronic computer system.

The student will be able to understand how a computer stores information and recalls information.

The student will be able to understand the binary code and convert binary, octal, and hexadecimal numbers to decimal numbers.

PROGRAM OBJECTIVES

To provide information concerning electronic data processing and its application so that the student will understand the implications and importance of electronic data processing.

ACTIVITIES

Have the students review the features of electronic computers and have them present through illustrations or examples the differences between an analog computer and a digital computer.

Have the students present a list of input and output devices and present information on the central processing unit.

Have the students review core storage and other types of computer storage.

Have the students work problems using binary numbers and have them convert binary, octal, and hexadecimal numbers to decimal numbers.

PROGRAM IMPLEMENTATION

Have information and illustrations of analog and digital computers available for students to review.
INTRODUCTION TO DATA PROCESSING
(72 hours)

DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to list various business applications on electronic computers.

ACTIVITIES

Have the students review various applications; call on a business using EDP and bring in the results of the interview.

PROGRAM OBJECTIVES

PROGRAM IMPLEMENTATION

Contact various businesses and arrange for students to call on them to gain information on computer applications.

DEVELOPMENTAL OBJECTIVES

To develop an understanding of how accounts are increased and decreased by business transactions.

BEHAVIORAL OBJECTIVES

The student will be able to understand the accounting equation and how accounts are increased and decreased based on the equation.

The student will be able to use debits and credits to increase and decrease accounts.

ACCOUNTING
(216 hours)

ACTIVITIES

Have the students analyze business transactions and show the increase or decrease in the proper accounts.

Have the students prepare transaction worksheets showing increases and decreases in accounts.

Have the students use debits and credits to show the increase and decrease in accounts.

PROGRAM OBJECTIVES

To provide information on how accounts are increased and decreased by the accounting equation.

PROGRAM IMPLEMENTATION

Provide a list of accounting terms and business transactions.

Provide illustrations on increases and decreases in accounts and how the increases and decreases affect the accounting equation.

Provide information on debits and credits and how they are used to increase or decrease accounts.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the accounting cycle, including the use of journals, ledgers, worksheets, and financial statements.

BEHAVIORAL OBJECTIVES

The student will be able to analyze business transactions to determine what accounts are involved and the proper debit and credit entry.

The student will know what a general journal is and will be able to record business transactions in the journal properly.

The student will be able to use a general ledger and post information from the journal to the proper account in the ledger.

ACTIVITIES

Have the students analyze transactions, name the accounts involved, and tell if the accounts increase or decrease by a debit or credit entry.

Have the students practice filling out journals using proper identification of account titles and the proper method and procedure to enter transactions in the journal.

Have various accounting forms available for illustrations and use.

PROGRAM OBJECTIVES

To provide information on the accounting cycle and financial statements, how the forms are filled out, and the use of the financial information.

PROGRAM IMPLEMENTATION

Provide transactions for students to analyze or debit and credit entries.

Have various accounting forms available for illustrations and use.
ACCOUNTING
(216 hours)

DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES
The student will be able
to classify accounts on
the worksheet as balance
sheet or income state-
ment accounts. He will
then be able to fill
out the worksheet.

The student will be able
to prepare a balance
sheet from the work-

The student will be able
to prepare an income
statement from the work-

ACTIVITIES
The students will
fill out a trial
balance and trans-
fer the balances to
the balance sheet:
or income statement
and complete the
worksheet arriving
at the net income
or net loss.

Have the students
prepare a balance
sheet.

Have the students
prepare an income
statement.

PROGRAM IMPLEMENTATION
Tell the students the
proper methods in pre-
paring worksheets and
financial statements.
Inform the students on
how to calculate net
income or loss and how
the net income or loss
affects the capital
account.

Provide students with
worksheets so that they
can prepare balance
sheets and income state-
ments.
ACCOUNTING
(216 hours)

DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be
able to record and
post closing entries
and understand the
need for closing
entries.

The student will be
able to balance the
accounts.

ACTIVITIES

Have the students
record the closing
entries in the
journal, post them
to the proper
accounts in the
ledger and balance
the accounts.

Discuss the need
for closing entries.

PROGRAM OBJECTIVES

PROGRAM IMPLEMENTATION

Provide illustrations
on the proper methods
of closing the ledger
by journalizing, post-
ing, and balancing the
accounts.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the use of special journals and ledgers.

BEHAVIORAL OBJECTIVES

The student will be able to enter transactions in special journals and post from the journals.

The student will be able to understand and use special ledgers.

The student will be able to fit the special journals and ledgers into the accounting cycle.

ACTIVITIES

Have the students work problems using special journals and have them post from the special journals to the general ledger and subsidiary ledger. Have the students prepare a schedule of accounts receivable and payable.

Listen to a speaker on accounting, including special ledgers and journals.

Have the students work a practice set.

PROGRAM OBJECTIVES

To provide information about special journals and ledgers and how they aid in accounting.

PROGRAM IMPLEMENTATION

Have problems on special journals and ledgers and provide a practice set for the students to fill out.

Contact an accountant as a guest speaker.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the banking services and how they apply to business, accounting, and personal use.

BEHAVIORAL OBJECTIVES

The student will be able to understand and use banking services.

The student will be able to reconcile a bank statement and make journal entries for the various charges, bad checks, overdrafts, etc.

PROGRAM OBJECTIVES

To provide information on banking services and how banks help businesses and the individual.

ACTIVITIES

Have the students review and discuss banking services and how to use them.

Have the students practice reconciling bank statements and journalize and post the necessary entries from the bank statement.

PROGRAM IMPLEMENTATION

Have banking forms available for illustration and use.

Get sample bank statements for the students to reconcile.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the transactions involving the purchase and sale of merchandise.

BEHAVIORAL OBJECTIVES

The student will be able to record sales, sales returns and allowances, and sales discount. The student will be able to cash discounts.

The student will be able to record purchases, purchase returns and allowances, and purchase discounts.

The student will be able to calculate and record sales tax.

ACCOUNTING

(216 hours)

ACTIVITIES

Have the students discuss sales, sales returns and allowances, sales discounts, and trade discounts. The students will practice recording transactions involving sales. The students will calculate cash discounts.

Have the students discuss purchases transactions and record them in the journal.

Have the students discuss sales tax and practice recording sales tax in the journal.

Visit purchasing and sales departments of a business.

PROGRAM OBJECTIVES

To provide information on sales, purchases, and inventory control.

PROGRAM IMPLEMENTATION

Have examples of purchase orders, invoices (showing cash discounts), and sales slips available.

Contact a business and plan a field trip to the purchasing and sales departments.
DEVELOPMENTAL OBJECTIVES

To develop a knowledge of pay roll systems and how they work.

BEHAVIORAL OBJECTIVES

The student will be able to calculate gross pay.

The student will be able to calculate taxes and other types of deductions.

The student will be able to prepare a pay roll register and employee earning records.

ACCOUNTING (216 hours)

ACTIVITIES

Have the students analyze the different methods of payments and calculate gross pay.

Have the students calculate pay roll taxes and other types of deductions.

Have the students fill out payroll registers and employee earning records. Listen to a guest speaker on pay roll taxes.

PROGRAM OBJECTIVES

To provide information on pay rolls and the taxes and other deductions related to pay rolls.

PROGRAM IMPLEMENTATION

Have time cards, pay check and stubs, payroll registers, employee earning records, W-2 forms, W-4 forms, etc available for review and study.

Contact a business for a field trip to the pay roll department.

Contact government agency for guest speakers on pay roll taxes.
DEVELOPMENTAL OBJECTIVES

The student will be able to record the pay roll and the pay roll tax expense in the journal.

ACTIVITIES

Have the students practice recording the pay roll and pay roll tax expense.

Work a pay roll practice set.

PROGRAM IMPLEMENTATION

Have a pay roll practice set for the students to work.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of adjusting entries and how to use adjusting entries to get a realistic net income figure.

BEHAVIORAL OBJECTIVES

The student will be able to adjust accounts to bring them up to date at the end of the fiscal period.

The student will be able to estimate bad debts and write off uncollectable accounts.

The student will be able to calculate depreciation and record the depreciation.

ACTIVITIES

The student will discuss, analyze, and calculate adjusting entries including accrued income and expense.

Have the students estimate bad debts, adjust the account and write off uncollectable accounts.

Have the students review and discuss the various kinds of depreciation, and record the depreciation in the journal.

PROGRAM OBJECTIVES

To provide information on adjusting entries.

PROGRAM IMPLEMENTATION

Provide information on adjusting entries. Have examples of the various kinds of adjusting entries available.
DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to record the sale, discard, or trade-in of assets that have depreciated.

The student will be able to calculate interest on notes receivable and payable, record the interest and adjust the interest when necessary.

ACTIVITIES

Have the students calculate the book value and gain or loss on the asset and make the appropriate journal entries.

Have the students practice calculating and recording interest.

Have the students listen to a guest speaker.

PROGRAM IMPLEMENTATION

Contact a banker for a guest speaker on notes and interest and how notes are discounted.

ACCOUNTING
(216 hours)
ACCOUNTING
(216 hours)

DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to prepare financial statements after adjustments have been made.

ACTIVITIES

Have the students prepare an income statement and balance sheet.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the types of business organizations and the accounting procedures for each.

BEHAVIORAL OBJECTIVES

The student will be able to record transactions for a partnership and corporation.

ACTIVITIES

Have the students review and discuss the types of business organizations and the differences in accounting for each. Have the students work a practice set involving a partnership.

PROGRAM OBJECTIVES

To provide information on the types of business organizations.

PROGRAM IMPLEMENTATION

Have a practice set available for the students to work.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the fundamentals of organizational behavior.

BEHAVIORAL OBJECTIVES

The students will be able to know the definition of human relations and the fundamental concepts revolving around the nature of man and the nature of the organization.

The student will be able to know the primary and secondary needs.

The student will be able to list Maslow's priority list of needs and know how to interpret them in relating to workers.

The student will be able to recognize the difference between motivational and maintenance factors.

The student will be able to understand what we mean by culture, role and status and how these variables do or do not fit together for social equilibrium.

The student will be able to know how morale affects production.

PROGRAM OBJECTIVES

To provide an understanding of the fundamentals of organizational behavior.

ACTIVITIES

Have the students discuss difference between organizational behavior and human relations.

Have the students study and discuss the fundamental concepts revolving around the nature of man and the nature of the organization.

Have the students discuss human needs, wants and motivation and how they relate to man's performance.

Have the students study and discuss the social system in terms of culture, role, status and social equilibrium.

Have the students discuss morale.

PROGRAM IMPLEMENTATION

Provide the students with materials on the fundamentals of organizational behavior.

Have Maslow's priority list of needs available.

1. Basic physiological needs
2. Safety and security
3. Belonging and social activity
4. Esteem and status
5. Self-realization and fulfillment
DEVELOPMENTAL OBJECTIVES

The student will be able to list several ways morale information can be obtained and used.

PROGRAM OBJECTIVES

ACTIVITIES

Have the students study and discuss morale information: how it is received and how managers can use it to develop more positive morale.

PROGRAM IMPLEMENTATION

HUMAN RELATIONS

(1/2 hours)

BEHAVIORAL OBJECTIVES
### Human Relations

#### Behavioral Objectives

| The student will be able to know what makes up a behavioral climate. |
| The student will be able to explain the basic human relations factors. |
| The student will be able to summarize the autocratic, custodial and supportive theories of organizational behavior. |

#### Activities

| Have the students study and discuss behavioral climate. |
| Have the students discuss the factors of basic human relations. |
| Have the students discuss the theories of organizational behavior: autocratic, custodial and supportive. |
| Have the students visit businesses to determine what theory is basically being used in a particular department. |

#### Program Implementation

| Arrange for visits to various businesses for students to observe the organizational behavior. |
DEVELOPMENTAL OBJECTIVES

To develop an awareness of the importance of leadership and its development in business.

BEHAVIORAL OBJECTIVES

The student will be able to know what makes a leader and how he applies leadership through different managerial styles.

The student will be able to know what the supervisor's different roles may be and how he can improve them.

ACTIVITIES

Have the students study and discuss the leadership role.

Have the students study and discuss effective supervision.

Have the students attend a management meeting of a business. From the meeting, have the students discuss their feelings about the supervisor on the job.

Have the students observe the supervisor on his job and have them describe him on his job.

Have the students study and discuss human relations training including some of the methods used.

Have the students find out what human relations training is given at a said number of businesses.

Have the students react to a manager's typical incoming communications. Discuss the reactions.

Have the students develop a plan where the human relations of our department of the school would be improved.

PROGRAM OBJECTIVES

To provide an awareness of the importance of leadership and its development in business.

Provide students with material on leadership and its development.

Arrange for students to attend some management meetings of business.

Have the students observe the supervisor on his job.

Have the students study and discuss human relations training including some of the methods used.

Have the students find out what human relations training is given at a said number of businesses.

Provide managerial in-basket for students.

Discuss the reactions.

Develop a plan where the human relations of our department of the school would be improved.
HUMAN RELATIONS
(72 hours)

DEVELOPMENTAL OBJECTIVES

To develop an awareness of the importance of communication in human relations.

BEHAVIORAL OBJECTIVES

The student will be able to know the definition of communication.

The student will be able to understand communication as it relates to management activities: purposes, effects and responsibility.

The student will be able to name the steps in the communication process.

The student will be able to name the principle symbols used in employee communications.

The student will be able to explain why listening is important in employee communication.

The student will be able to write or rewrite material so it is readable by most adults.

ACTIVITIES

Have the students study and discuss communication material as it applies to human relations involving management activities.

Have the students study and discuss communications between different groups in the organizational structure.

Have the students listen to a human relations trouble-shooter discuss problems of communications within an organization.

Have the students interview management on communications in the organizational structure.

Have the students interview employees on communications in the organizational structure.

PROGRAM OBJECTIVES

To provide an awareness of the importance of communication in human relations.

PROGRAM IMPLEMENTATION

Provide the students with material on the importance of communication in human relations.

Contact a human relations trouble-shooter to speak on typical problems of communications within an organization and possible solutions.

Arrange management and employee interviews on communications in the organizational structure for students.
DEVELOPMENTAL OBJECTIVES

To acquire an understanding of the decision making processes that are involved in the area of purchasing and the procedures for implementing the purchasing activities.

BEHAVIORAL OBJECTIVES

The student will be able to make choices in given situations.

ACTIVITIES

Have the students read and discuss material on purchasing policies and procedures.

Have the students work through simulated situations. Discuss pros and cons of decisions.

Have the students visit a few small clothing stores to note how many different kinds of wearing apparel are stocked. Note, too, whether neighboring stores carry similar items.

Have the students listen to several buyers from the serve on a panel to discuss various aspects of their store. Purchasing for their particular store or department.

PROGRAM OBJECTIVES

To provide an understanding of how the businessman makes his purchasing decisions and his procedure for handling purchasing activities.

PROGRAM IMPLEMENTATION

Provide material and opportunities for decision making.

Have simulated purchasing situations.

Have several buyers serve on a panel to discuss their function within purchasing for their particular store or department.
MANAGEMENT
(144 hours)

DEVELOPMENTAL OBJECTIVES

To develop an understanding of the types of records that are needed, the importance of these records and how they are used.

BEHAVIORAL OBJECTIVES

The student will be able to determine the best type(s) and discuss record systems for particular situations.

From the bookkeeping and accounting records, the student will be able to set up an effective budgeting system.

ACTIVITIES

Have the students read and discuss record systems in small and large businesses.

Have the students determine the types of records needed in view of the size of the business and be able to state why they are needed.

Have the students review the various types of budgets.

Have the students determine what a budget can do for a business.

Have the students learn to interpret financial statements.

Have the students prepare ratios to analyze businesses financial positions.

PROGRAM OBJECTIVES

To provide an understanding of the importance of certain types of records for successful business.

PROGRAM IMPLEMENTATION

Provide various financial records.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the problems of obtaining employees and of training and promoting them so that a business can operate most efficiently.

BEHAVIORAL OBJECTIVES

The student will be able to demonstrate procedures which should be followed in selecting, training and promoting personnel.

The student will be able to know how to fill out an application blank.

The student will be able to know typical procedures followed with job applicants.

The student will be able to know why promotion policies must be carefully prepared.

The student will be able to compute labor turnover.

PROGRAM OBJECTIVES

To provide an understanding of the importance of selecting, training and keeping well-qualified personnel and the affect it has on the business.

ACTIVITIES

Have the students study and discuss the selection, training and promotion of employees.

Have the students discuss the forms the businesses have to make it easier to fill a position.

Have the students study and discuss the various sources available to draw upon for the selection of employees.

Have the students fill out an application blank to be filled out.

Have the students work on procedures of the interview through job follow up including various means of training.

Have the students discuss how good policies and procedures on promotions and transfers can affect personnel.

Have the students discuss termination and labor turnover.

Have the students work problems involving labor turnover.

PROGRAM IMPLEMENTATION

Provide the students with material on the selection, training and promotion of personnel.

Supply application blanks to be filled out.

Provide labor turnover problems.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the various compensation plans and benefits available. To be aware of some of the factors that may determine the compensation plan.

BEHAVIORAL OBJECTIVES

The student will be able to discuss various compensation plans and be aware of the many benefits that may be available.

The student will be knowledgeable on the rules of OASDI, unemployment insurance and workmen's compensation.

ACTIVITIES

Have the students study and discuss the various compensation and benefit plans available.

Have the students develop different compensation and benefit plans for two different types of businesses and give reasons supporting their decisions.

PROGRAM OBJECTIVES

To provide an understanding of the different compensation plans and benefits that may be available in the area and the factors that may influence the plans.

PROGRAM IMPLEMENTATION

List some of the businesses in the area that use the various compensation plans and have a variety of benefits available.

Material available on various compensation plans and benefits including workmen's compensation, OASDI and unemployment insurance.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the relationships which exist between unions and management and the legislation which influences these relationships.

BEHAVIORAL OBJECTIVES

The student will be able to determine whether an objective is a union, management or union-management objective.

The student will be able to know the rights and responsibilities given unions and management through federal legislation.

The student will be able to know some of the active unions in your town.

ACTIVITIES

Have the students review brief history of unionism and the current strong unions of today.

Have the students discuss the points unions and management usually bring up during bargaining.

Have the students review cases involving labor legislation and state which Act or Acts are involved.

Have the students find out in a designated part of town the businesses that have unions and what the unions are.

Have the students keep a file of current happenings if a union is negotiating a contract with newspaper coverage.

(OR)

Have the students review the materials given them by the instructor if no union is negotiating a contract with newspaper coverage.

PROGRAM OBJECTIVES

To provide an understanding of the relationship between union and management and the legislation which influences it.

PROGRAM IMPLEMENTATION

Provide material concerning unions and management and labor legislation. (Wagner Act, Taft-Hartley Act and Landrum-Griffin Act).

Have a list of original union demands of a business that has negotiated a contract and a copy of the contract as agreed by both sides.

Designate a section of town to find out what businesses have unions and what the unions are.

Have newspaper or magazine articles concerning labor legislation available for students unless it is currently being covered in local publication.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the importance of the location, a suitable building, the equipment and the layout of a business.

OBJECTIVES

The student will be able to know what factors should be checked before the physical facilities are located (location, building).

ACTIVITIES

Have the students study and discuss the factors that should be considered and evaluated before locating a business.

Have the students discuss poor factors that can be remedied.

Have the students do a pedestrian count during a particular time. Have them do another on the same day of the week, same time period in a different location and then draw conclusions about each site.

Have the students locate a given business in one of the vacant buildings given by the instructor, stating the reasons they have chosen the particular site for their business. (Location alone)

Have the students, with the list of external and internal physical particulars on certain buildings, decide from the businesses given which would be more suitable to the particular building, stating why.

Have the students discuss the various aspects and kinds of leasing vs. buying.

MANAGEMENT

(144 hours)

PROGRAM OBJECTIVES

To provide an understanding of the importance of the physical facilities of a business.

PROGRAM IMPLEMENTATION

Provide material on physical facilities.

Locate vacant buildings and have a list of possible businesses so students can locate a business and support their decision. (Or just state certain buildings are vacant).

Obtain external and internal physical particulars on certain buildings; list certain businesses that may or may not be housed in them.

MANAGEMENT
(144 hours)
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the management problems involved in the production operations of a manufacturing business.

BEHAVIORAL OBJECTIVES

The student will be aware of the different functions of production and of the constant study needed to keep and stay efficient.

ACTIVITIES

Have the students study and discuss production operations.

Have the students do a time and motion study on stuffing envelopes, discussing value, if any, of automated equipment such as a folding machine and a postage meter machine (seal, stamp and stack) in regard to cost of equipment versus time saved.

Have the students visit a manufacturing business to observe the various functions performed in a production department.

PROGRAM OBJECTIVES

To provide an understanding of the management problems in the operations of a manufacturing business.

PROGRAM IMPLEMENTATION

Provide the students with material on the management problems of the production operations of a manufacturing business.

Provide envelopes, letter facsimiles and enclosures to be assembled.

Arrange visits with a manufacturing business to observe production department functions.
DEVELOPMENTAL OBJECTIVES

To develop an awareness of some of the limitations which Government has placed on business.

BEHAVIORAL OBJECTIVES

The student will be able to know some of the areas in which there are state and/or federal controls.

ACTIVITIES

Have the students study and discuss current areas covered by their state and/or federal government including legislation.

PROGRAM OBJECTIVES

To provide an awareness of some of the limitations which Government has placed on business.

PROGRAM IMPLEMENTATION

Provide the students with some of the Government limitations placed on business.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of how the financial system works and what its moves mean to the businessman.

The student will be able to define finance and name its branches.

The student will be able to name the 4 functions of money.

The student will be able to know how money functions in the economy.

The student will be able to understand the theory of interest.

The student will be able to know the 5 C's of credit and to discuss their relevance.

The student will be able to understand the monetary policy and its application.

The student will be able to understand the role of commercial banks and specialized financial intermediaries.

FINANCE
(144 hours)

ACTIVITIES

Have the students discuss finance and money.

Have the students listen to a speaker on money, finance, and velocity.

Have the students listen to a speaker on inflation.

Have the students visit a finance company and discuss interest.

Have the students discuss credit.

Have the students listen to a speaker on monetary policy.

Give or write a report on commercial banks, types of assets and liabilities.

PROGRAM IMPLEMENTATION

Provide material on the financial system.

Arrange for a speaker from a finance company or bank on money, credit, and velocity.

Arrange an economist to speak on inflation and recession.

Arrange for a visit to a finance company. Discuss interest.

Arrange for a speaker on monetary policy from a Federal Reserve Bank (if possible) or a bank.

Visit a bank.

Have the students discuss specialized financial intermediaries.

PROGRAM OBJECTIVES

To provide an understanding of how the financial system works and what its moves mean to the businessman.

Visit a bank.

Provide material on the financial system.

Arrange for a speaker from a finance company or bank on money, credit, and velocity.

Arrange an economist to speak on inflation and recession.

Arrange for a visit to a finance company. Discuss interest.

Arrange for a speaker on monetary policy from a Federal Reserve Bank (if possible) or a bank.

Visit a bank.

Have the students discuss specialized financial intermediaries.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the basic functions of financial management.

OBJECTIVES

The student will be able to know the 3 A's of financial management and their corresponding rules.

The student will be able to state the 4 most important documents in a financial report and what each tells you about a business.

The student will be able to work problems of profitability and turnover and analyze a business' financial performance.

The student will be able to understand the difference between fixed and circulating capital and depreciation's affect on them.

PROGRAM OBJECTIVES

To provide an understanding of the basic functions of financial management.

ACTIVITIES

Have the students discuss the financial manager's duties.

Have the students listen to a speaker on the changing role of financial management.

Have the students review balance sheets and income statements as to what they tell about a business.

Have the students examine the state of retained earnings and the sources and applications of funds statements to determine what they tell about a business.

Have the students discuss profitability and turnover and work problems.

Have the students listen to a speaker on liquidity and leverage.

Have the students write a short report on the superiority of accelerated depreciation.

Have the students listen to a speaker on depreciation. (or field trip)

Have the students write a short report on the various methods of calculating depreciation and the advantages/disadvantages of each.

FINANCE

(144 hours)

PROGRAM IMPLEMENTATION

Provide material on the basic functions of financial management.

Arrange for a speaker: A financial manager - the changing role of financial management.

Have or make up following records of some business: balance sheet, income statement, statement of retained earnings and sources and applications of funds statement.

Provide material and problems on leverage and liquidity.

Arrange for speaker: Liquidity and leverage.

Have the students write a short report on the field trip on depreciation.

Involve a local industrial firm's accounting department.

-77-
DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to understand how financial planning and control work together.

The student will be able to know the possible composites of capital and how to compute the cost of the different kinds of funds.

The student will be able to know the sources and costs of short-term financing.

The student will be able to understand the part term loans, conditional sales contracts and leasing plays in financing.

The student will be able to understand the part stock plays in long-term financing.

The student will be able to understand the various dividend policies.

ACTIVITIES

Have the students discuss financial planning and control.

Have the students spend several days observing a financial manager.

Have the students listen to a speaker on functions performed by controllers and treasurers and their importance.

Have the students work problems figuring the cost of different kinds of funds.

Have the students listen to a speaker on short-term financing.

Have the students do a short report on leasing vs. buying.

Have the students listen to a speaker on stocks and dividends.

Have the students visit a stockbroker's office.

FINANCE
(144 hours)

PROGRAM OBJECTIVES

PROGRAM IMPLEMENTATION

Have the students discuss financial planning and control.

Have the students spend several days observing a financial manager.

Have the students listen to a speaker on functions performed by controllers and treasurers and their importance.

Have the students work problems figuring the cost of different kinds of funds.

Have the students listen to a speaker on short-term financing.

Have the students discuss and work problems involving interest.

Have the students do a short report on leasing vs. buying.

Have the students listen to a speaker on stocks and dividends.

Have the students visit a stockbroker's office.

Provide material on financial planning and control.

Arrange for observations with financial managers.

Arrange speakers: Controller and treasurer - functions performed and their importance.

Provide problems figuring the cost of different kinds of funds.

Arrange for a speaker: Short-term financing.

Provide problems involving interest.

Arrange for stockbroker to speak on different stocks and dividend policies.

Arrange visits to a stockbroker's office.
DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

The student will be able to understand the part bonds and notes play in long-term financing.

The student will be able to understand how a business uses its financial resources.

ACTIVITIES

Have the students discuss bonds and reasons for using bonds.

Have the students discuss and study capital allocation and budgeting.

Have the students listen to a speaker on ranking and selecting investment proposals.

Have the students discuss administering circulating capital.

FINANCE (144 hours)

PROGRAM OBJECTIVES

PROGRAM IMPLEMENTATION

Arrange for speaker: from a manager of a mutual fund to speak on ranking and selecting investment proposals.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the marketing function.

BEHAVIORAL OBJECTIVES

The student will be able to know what is meant by marketing and understand the various activities of marketing.

ACTIVITIES

Have the students discuss marketing definition and its range of activities.

Have the students bring in advertisements (magazine; newspaper; report of TV, radio or billboard lines and background situation; or circular) they think are good.

Have the students discuss questions: Where do you like to shop and why?

Have the students write a short report on the 4 utilities they recently purchased.

Have the students prepare and present a debate on: Would marketing benefit from a shorter work week?

Have the students discuss the marketing concept, comparing two discount stores' application of the marketing concept (customer service, attitude of service personnel, suitability of merchandise to your needs, pricing policies and convenience of their location). Have them summarize their findings in 500 words or less and explain which store applies the marketing concept more effectively.

Have the students, through library research, find 3 examples of historical developments traceable to the desire to either expand markets or discover new sources of supply.
MARKETING
(216 hours)

DEVELOPMENTAL OBJECTIVES

To develop an understanding of the marketing environment.

BEHAVIORAL OBJECTIVES

A student will be aware of the many factors of the environment that affect the marketing process.

PROGRAM OBJECTIVES

To provide an understanding of the marketing environment

ACTIVITIES

Have the students discuss the major characteristics of the environment that affect the marketing process, explain its vitality and give it direction.

PROGRAM IMPLEMENTATION

Provide materials on marketing environment.

Have the students discuss the socioeconomic environment factors that marketing management has little or no control of.

Have numerous examples of the major characteristics of the environment affecting the marketing process.

Have the students listen to a speaker on what marketing management can do to adapt to a constantly changing economic climate.

Have the students prepare and present a debate on: Does marketing cost too much?

Have the students review recent magazine articles dealing with the future, developing their own thoughts as to how the socioeconomic environment factors will have changed the marketing environment 10 years from now. Have them explain how management will cope with these changes.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the marketing process.

BEHAVIORAL OBJECTIVES

The student will be able to know the basic elements of marketing process.

The student will be able to list the eight functions of marketing.

ACTIVITIES

Have the students get acquainted with the basic elements of marketing: consumers, products, middlemen, channels of distribution, and marketing functions.

Have the students prepare and present a debate on: Is a marketing education worthwhile?

Have the students select a local food store, describing the basic marketing functions involved in its marketing process.

Have the students discuss the eight marketing functions and how each one affects the marketing process.

Provide information and experience on the eight marketing functions: Buying, selling, transportation, storage, standardization and grading, financing, risk taking, and market information.

Have the students visit a small independent retail store, noticing as many marketing factors as possible. Have them summarize their findings as related to or unrelated to big business.

PROGRAM OBJECTIVES

To provide an understanding of the marketing process.

PROGRAM IMPLEMENTATION

Provide materials on the marketing process.
MARKETING
(216 hours)

DEVELOPMENTAL OBJECTIVES

To develop an understanding of the ultimate-consumer market.

PROGRAM OBJECTIVES

To provide an understanding of the ultimate-consumer market.

BEHAVIORAL OBJECTIVES

The student will be able to define market and its related terms.

ACTIVITIES

Have the students define market, market segmentation, target market, submarkets, and heterogeneous and homogeneous market factors.

The student will be aware of the importance of defining a given market and tailoring efforts toward that market.

ACTIVITIES

Have the students discuss the need for precisely defining a given market in order to develop an effective marketing program.

The student will be able to know the major criteria for classifying consumers.

ACTIVITIES

Have the students discuss major criteria for classifying consumers; i.e., sex, age, etc.

PROGRAM IMPLEMENTATION

Provide materials on the ultimate-consumer market.

Have the students listen to a speaker on the importance of tailoring the marketing effort to the interests and needs of different groups.

Program Implementation

Arrange for a speaker: Tailoring marketing effort to the interests and needs of different groups. Perhaps he could give a report on his target population as he sees it.

Have the students give or write a report on technological, social, and economic forces that contribute to a growing homogeneity in our society.

PROGRAM IMPLEMENTATION

Have the students prepare and present a debate on: Does marketing promise variety but deliver uniformity?

Have the students analyze 5 TV commercials:

a. What segments are they trying to reach? Describe these segments in terms of income, age, sex, education and occupation.

-83-
MARKETING
(216 hours)

DEVELOPMENTAL OBJECTIVES

BEHAVIORAL OBJECTIVES

PROGRAM OBJECTIVES

ACTIVITIES

b. Are all appeals made on network commercials national in scope, or do some cater to regional preferences?

c. How do "local commercial messages differ from those shown on network TV?"

Prepare a list of products. Students will do library research to determine in which magazine to advertise product.

PROGRAM IMPLEMENTATION

Have the students do library research to determine which magazines would be best to advertise the products given by instructor.
**MARKETING**  
(216 hours)

### DEVELOPMENTAL OBJECTIVES

To develop an understanding of the demographic characteristics of ultimate consumers.

### PROGRAM OBJECTIVES

To provide an understanding of the demographic characteristics of ultimate consumers.

### BEHAVIORAL OBJECTIVES

The student will be able to understand the term demographic characteristics.

The student will be able to understand some of the ways it is useful to marketing management.

### ACTIVITIES

- Have the students define demographics.
- Have the students listen to a speaker on demographics.
- Have the students examine factors that determine population change and trends in population population (geographic mobility, demographics and age distribution, demographics and employment, life-cycle analysis and climate factors).
- Have the students prepare and present a debate on: Would marketing suffer from zero population growth?
- Have the students list 10 questions related to population they would ask in developing a marketing program for candy, ladies apparel, riding mowers or campers.
- Using the U.S. government's 1970 Census of Population, have the students prepare a brief report summarizing the major population changes in their state between 1960 and 1970, considering such factors as size; distribution by age, sex, race; and urban versus rural concentration.

### PROGRAM IMPLEMENTATION

- Arrange for a speaker: Ways in which demographics is useful to marketing management.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the purchasing power of the ultimate consumer.

ACTIVITIES

The student will be able to know the key factors related to consumer purchasing power and understand its role in marketing.

Using the Survey of Buying Power or some other source of income data have the students find the two counties in their state with the highest and lowest average income, respectively. Have them prepare a report in which they discuss the factors that account for this difference and explain the probable influence of the income difference on consumption patterns.

PROGRAM OBJECTIVES

To provide an understanding of the purchasing power of the ultimate consumer.

PROGRAM IMPLEMENTATION

Have the students discuss the following factors and their roles in marketing related to consumer purchasing power: income, wealth and credit, how purchasing power is used and purchasing-power stabilizers.

Have the students prepare a debate on: Should purchasing power be more evenly distributed?

Provide either Survey of Buying Power (published by Sales Management magazine or some other source of income data or be certain it is available.)
MARKETING
(216 hours)

DEVELOPMENTAL OBJECTIVES

To develop an understanding of the ultimate-consumer motivations.

PROGRAM OBJECTIVES

To provide an understanding of the ultimate-consumer motivation.

BEHAVIORAL OBJECTIVES

The student will be aware of the many factors that affect consumer behavior in buying a product.

PROGRAM IMPLEMENTATION

Have the students discuss the following factors that affect consumer behavior: ego-related motives, status-related motives, emotional motives, rational motives, rationalizations and the desire to resolve conflicts and patronage motives.

ACTIVITIES

Have the students write a report: Is sex overused in marketing?

Have the students clip one advertisement from today's newspaper for each of the following products: air travel, furniture, an apartment house, a new automobile. Have them make a list of the rational and emotional appeals made in each ad, then answer the following questions:

a. Which type of appeal, emotional or rational, was used most?
b. Did any of the advertisements contain promises that might help the reader rationalize his purchase?

Have the students examine their own shopping behavior by listing the name of the dry cleaner, restaurant and service station they patronize most frequently. Have them put down in order of importance their patronage motives, or the reasons why they shop there for each.
**MARKETING**  
(216 hours)

</tbody>
</table>
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the industrial market.

OBJECTIVES

The student will be aware of the many types of industrial users and the products they purchase.

The student will be able to know some of the principal factors that motivate industrial users to buy.

The student will be aware of some of the important differences of purchasing behavior of industrial users over ultimate consumers.

ACTIVITIES

Have the students listen to speakers on Industrial users - the products they purchase, derived demand, motives and purchasing behavior.

Have the students discuss additional industrial users and the geographic arrangement of the industrial market.

Have the students prepare and present a debate on: Should engineering graduates sell industrial products?

Have the students select a recent issue of Fortune, Forbes, Dun's Review or Business Week. Selecting 5 advertisements for analysis, have the students determine for each which motives of industrial users covered in class were appealed to and what emotional appeals, if any, were made.

PROGRAM OBJECTIVES

To provide an understanding of the industrial market.

PROGRAM IMPLEMENTATION

Arrange speakers from the various types of economic activities.

Have the students prepare case studies and present them in class.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of retail distribution.

BEHAVIORAL OBJECTIVES

The student will be able to know why retailing is important.

The student will be able to relate the various classifications of retailing.

The student will be able to know the different places where retailers locate and understand how they function.

ACTIVITIES

Have the students listen to a speaker on Retailing.

Have the students discuss the classification of retailing: size, types of merchandise handled, legal form of organization and type of ownership.

Have the students discuss where retailers locate and how they function.

Have the students prepare and present a debate on: Should supermarkets charge higher prices in ghetto stores?

Have the students list 5 types of retailers they think will increase in numerical importance by 1980 and 5 they feel will decline, have them write down the factors that influenced their decisions.

Have the students discuss factors that determine gross margins.

PROGRAM OBJECTIVES

To provide an understanding of retail distribution.

PROGRAM IMPLEMENTATION

Arrange a speaker: What constitutes a retail operation and why retailing is important.

Have the students discuss the reasons behind higher gross margins.

The student will be aware of the high failure rate of retailing and some of the ways that have been developed to make retailing more efficient.

The student will be able to know some of the factors that affect the purchase decision of buyers for resale.

Have the students listen to a speaker on Retail failure.

Have the students discuss factors that affect purchasing decisions of buyers for resale.

Arrange for speaker on high rate of retail failure and ways to cope with problems of retailing (franchising, etc.).
### Behavioral Objectives

- The student will be aware of some of the retailing trends.
- The student will become more aware of the activity of retail marketing.

### Activities

- Have the students listen to a speaker on Retailing trends.
- Have the students visit two drugstores, one part of a chain and the other a small independent. Have them compare the prices charged by the two stores for the same brands of shaving cream, vitamins, headache preparations, and perfume. Have the students answer the question: How do you account for the price differences, if any? Does the store charging higher prices for a majority of the items add more value to the products? Why or why not?
- Have the students spend several days throughout with retail marketing management in the various classifications. Have them attend seminars after the visits to discuss ideas and experiences.

### Program Implementation

- Arrange for speaker on retailing trends.
- Arrange visits with retail marketing management. Hold seminars to discuss ideas and experiences.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of wholesale distribution.

BEHAVIORAL OBJECTIVES

The student will be able to understand what wholesaling is.

The student will be aware of the various classifications of wholesalers and understand the terminology.

ACTIVITIES

Have the students listen to a speaker on Wholesaling.

Have the students discuss the classifications of wholesalers including breakdown of functions.

Have the students prepare and present a debate on Should marketing management employ more women?

Have the students, if possible, visit trade shows and exhibitions merchandise marts and public warehouse. Have them write a report on the functions and benefits of ones visited.

PROGRAM OBJECTIVES

To provide an understanding of wholesale distribution.

PROGRAM IMPLEMENTATION

Arrange for speaker: Wholesaling - what it is and what it does.

Arrange for visits to trade shows and exhibitions merchandise marts and public warehouses.

In a recent issue of the Survey of Current Business, Current Business, have the students find the wholesale price index. Have them make a list of the 5 products whose prices increased the most over a year ago and a second list of the 5 products whose prices increased the least or declined. Have the students answer the question: What factors can you suggest to explain why some wholesale prices increased more than others? In general, how do wholesale price fluctuations compare with retail price fluctuations?

DEVELOPMENTAL OBJECTIVES

To develop an understanding of channel management.

BEHAVIORAL OBJECTIVES

The student will be able to understand the importance of channel management.

ACTIVITIES

Have the students listen to a speaker on Channel management.

Have the students discuss intensive, exclusive and selective distribution.

Have the students prepare and present a debate on Should Door-to-door selling be outlawed?

MARKETING
(216 hours)

PROGRAM OBJECTIVES

To provide an understanding of channel management.

PROGRAM IMPLEMENTATION

Arrange for speaker: Channel management - factors that affect choice and the major distribution channels.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of physical distribution and inventory management.

OBJECTIVES

The student will become more aware of the tremendous and economic effort required to make products available when and where consumers want them.

ACTIVITIES

Have the students listen to a speaker on Physical-distribution management.

Have the students discuss the advantages and disadvantages of the different modes of transportation (transportation mix - how to decide mode or modes).

Arrange speaker: Physical distribution - what it is and its importance.

PROGRAM IMPLEMENTATION

Have the students listen to a speaker on Storage.

Have the students visit a business to discuss and note inventory - how large, where located and condition it is in.

Arrange for speaker: Storage function, types of facilities and costs.

Arrange visits to discuss and note inventory.

PROGRAM OBJECTIVES

To provide an understanding of physical distribution and inventory management.

ACTIVITIES

Have the students listen to a speaker on Physical-distribution management.

Have the students discuss the advantages and disadvantages of the different modes of transportation (transportation mix - how to decide mode or modes).

Arrange speaker: Physical distribution - what it is and its importance.

PROGRAM IMPLEMENTATION

Have the students listen to a speaker on Storage.

Have the students visit a business to discuss and note inventory - how large, where located and condition it is in.

Arrange for speaker: Storage function, types of facilities and costs.

Arrange visits to discuss and note inventory.

PROGRAM OBJECTIVES

To provide an understanding of physical distribution and inventory management.

Have the students listen to a speaker on Physical-distribution management.

Have the students discuss the advantages and disadvantages of the different modes of transportation (transportation mix - how to decide mode or modes).

Arrange speaker: Physical distribution - what it is and its importance.

PROGRAM IMPLEMENTATION

Have the students listen to a speaker on Storage.

Have the students visit a business to discuss and note inventory - how large, where located and condition it is in.

Arrange for speaker: Storage function, types of facilities and costs.

Arrange visits to discuss and note inventory.

PROGRAM OBJECTIVES

To provide an understanding of physical distribution and inventory management.

ACTIVITIES

Have the students listen to a speaker on Physical-distribution management.

Have the students discuss the advantages and disadvantages of the different modes of transportation (transportation mix - how to decide mode or modes).

Arrange speaker: Physical distribution - what it is and its importance.

PROGRAM IMPLEMENTATION

Have the students listen to a speaker on Storage.

Have the students visit a business to discuss and note inventory - how large, where located and condition it is in.

Arrange for speaker: Storage function, types of facilities and costs.

Arrange visits to discuss and note inventory.

PROGRAM OBJECTIVES

To provide an understanding of physical distribution and inventory management.
DEVELOPMENTAL OBJECTIVES
To develop an awareness of the importance of marketing research.

BEHAVIORAL OBJECTIVES
The student will be more aware of how market research is used to get the information needed to make correct marketing decisions.

PROGRAM OBJECTIVES
To provide an awareness of the importance of marketing research.

ACTIVITIES
Have the students listen to a speaker on The role of experience, intuition and research in decision making.

PROGRAM IMPLEMENTATION
Arrange for speaker: The role of experience, intuition and research on decision making.

Have the students discuss primary, internal and secondary data.

Have the students discuss the characteristics of the scientific method.

Have the students report on formal market-research techniques.

Have the students prepare and present a debate on Should TV ratings dictate TV programming?

Have the students select 5 products that are purchased regularly by most consumers and that have been promoted by a familiar slogan for an extended period of time. Using the survey method, have them ask 10 students to identify the product associated with each slogan and whether they have purchased the product within the past month. Have the students prepare a report on their findings in which they interpret the influence of a well-known slogan on product sales.
DEVELOPMENTAL OBJECTIVES

To develop an awareness of product planning.

BEHAVIORAL OBJECTIVES

The student will be aware of the principal product decisions that involve marketing management.

PROGRAM OBJECTIVES

To provide an awareness or product planning.

ACTIVITIES

Have the students discuss the product decisions that involve marketing management.

PROGRAM IMPLEMENTATION

Provide material on product decisions and planning.

Have the students give or write a report on: Is planned obsolescence good for the economy?

Have the students choose one product and list several ways in which it could be changed. Have them include in their list 5 physical changes and 5 nonphysical modifications.

Have the students develop a list of 3 products marketed extensively today that they feel will almost disappear 10 years from now. Have them explain why they think these products are on their way out.

Have the students visit a product testing center.

Have the students prepare and present case studies on product planning.
DEVELOPMENTAL OBJECTIVES

To develop an awareness of the importance of packaging and branding.

BEHAVIORAL OBJECTIVES

The student will be more aware of the package and brand name's influence on a product's success.

ACTIVITIES

Have the students discuss packaging functions.

Have the students listen to a packaging specialist.

Have the students discuss labeling, grading, and legislation.

Have the students prepare and present a debate on "Is too much money spent on packaging?"

Have the students select a publication that deals with inside stories of marketing success and failure. Dealing with a story of product strategy that failed, have them summarize in 500 words or less what the company tried to do and what went wrong.

Have the students present a list of jobs in the area of marketing, including labeling and packaging.

PROGRAM OBJECTIVES

To provide an awareness of packaging and branding.

PROGRAM IMPLEMENTATION

Arrange for a packaging specialist to speak to students.

Provide the D.O.T. for students to look up jobs and job descriptions. Provide job descriptions from local companies.
## DEVELOPMENTAL OBJECTIVES

To develop a deeper understanding of the importance of personal selling.

## BEHAVIORAL OBJECTIVES

- The student will be able to understand personal selling as a marketing function.
- The student will be able to know the responsibilities of the various types of salesmen.
- The student will be aware of the major functions of sales management.

## ACTIVITIES

- Have the students discuss personal selling including some personal qualifications and job requirements.
- Have the students discuss the types of salesmen and their responsibilities.
- Have the students talk to sales managers about their different functions.
- Have the students write a report on Is selling a professional activity?
- Have the students interview at least 3 people who are knowledgeable about outside personal selling. Directions: Try to get them to talk to you objectively about personal selling. Then outline what you think are the pros and cons of selling as a career and explain briefly why you would or would not like a career in personal selling.

## PROGRAM OBJECTIVES

To provide a deeper understanding of the importance of personal selling.

## PROGRAM IMPLEMENTATION

- Provide material on personal selling.
- Arrange visits with sales managers.

---

**MARKETING (216 hours)**
DEVELOPMENTAL OBJECTIVES

To develop a deeper understanding of the importance of advertising.

BEHAVIORAL OBJECTIVES

The student will be more aware of advertising and the influence that it projects.

ACTIVITIES

Have the students discuss commercial advertising objectives.

Have the students study the types of advertising.

Have the students listen to a speaker on Advertising media and costs.

Have the students prepare and present a debate on Should the work "free" be banned from advertising and selling.

Have the students visit an advertising agency.

PROGRAM OBJECTIVES

To provide a deeper understanding of the importance of advertising.

PROGRAM IMPLEMENTATION

Provide material on advertising.

Arrange for speaker: Advertising media and costs.

Arrange for visits to an advertising agency.

Have the students select one contemporary advertising theme or slogan that illustrates an attempt to achieve each of the following objectives: to increase the number of units purchased, to introduce a new product, and to counteract competition.

Have them answer the question: Do most of these messages have more than one objective?
DEVELOPMENTAL OBJECTIVES

To develop a deeper understanding of the importance of sales promotion and public relations.

OBJECTIVES

The student will be able to discover the part sales promotion and public relations play in promotion of a product or service.

MARKETING (216 hours)

PROGRAM OBJECTIVES

To provide a deeper understanding of the importance of sales promotion and public relations.

ACTIVITIES

Have the students discuss with a sales manager or advertising manager his objectives of sales promotion.

Have them discover what types, if any, of consumer-oriented sales promotion he uses.

Activity: Have the students discuss sales-promoting devices aimed at business buyers.

Activity: Have the students listen to a speaker on Public relation strategies.

Activity: Have the students prepare and present a debate on Are the media unfair to marketing?

Activity: Have the students prepare an analysis of both sides of the question, "Are trading stamps an expensive gimmick that should be discontinued?"

Have them cite at least 3 points in favor of stamps and 3 disadvantages of using them. Then have them write a brief paragraph explaining which side they personally favor and why.
DEVELOPMENTAL OBJECTIVES

To develop a deeper understanding of the importance of pricing.

PRINCIPAL OBJECTIVES

The student will be able to understand the price-setting process and the factors that enter into it.

To provide a deeper understanding of the importance of pricing.

ACTIVITIES

Have the students discuss the economic basis for price determination.

Have the students discuss pricing under various conditions - pure competition, monopolistic.

Have the students listen to a speaker on Factors that affect the general price level.

Have the students give or write a report on are permanent price controls good for marketing?

Have the students find 3 recent magazine articles or government reports that deal with specific attempts by business to fix prices through collusion. Have them name the companies involved and describe the nature of the accusation. Have them answer the question: Why are such activities considered harmful?

Have the students interview marketing managers on their pricing policies.

Have the students discuss discounts and allowances.

Have the students give or write a report on Geographic considerations in pricing.

Have the students discuss nonprice competition.

DEVELOPMENTAL OBJECTIVES

To develop an overview of statistics.

BEHAVIORAL OBJECTIVES

The student will be acquainted with some of the terminology involved in statistics.

ACTIVITIES

Have the students discuss the meaning of: sampling; descriptive statistics and statistical inference; some of the typical problems that can be solved by statistical methods; and probability.

Have the students present a list of job opportunities in the area of business statistics.

PROGRAM OBJECTIVES

To provide an understanding of statistics.

PROGRAM IMPLEMENTATION

Present an outline of the course using illustrations where possible.

Provide the D.O.T. for students to look up jobs and job descriptions.

Provide job descriptions from some local companies.
DEVELOPMENTAL OBJECTIVES
To develop an understanding of random sampling.

BEHAVIORAL OBJECTIVES
The student will be able to know what is meant by random sampling and its importance.

ACTIVITIES
Have the students discuss sampling.
Have the students discuss random sampling.
Have the students work exercises involving random samplings.

PROGRAM OBJECTIVES
To provide an understanding of random sampling.

PROGRAM IMPLEMENTATION
Provide material and exercises on random sampling.

STATISTICS
(72 hours)
DEVELOPMENTAL OBJECTIVES
To develop an understanding of frequency distributions.

BEHAVIORAL OBJECTIVES
The student will be able to classify data into a frequency distribution.

ACTIVITIES
Have the students discuss frequency distributions.

PROGRAM IMPLEMENTATION
Provide material on frequency distributions.

PROGRAM OBJECTIVES
To provide an understanding of frequency distributions.

Have the students arrange material into frequency distributions.

Have the students discuss class intervals: how to determine upper class limits and lower class limits.

Have the students arrange material into class intervals, determining the upper class limit and the lower class limit.

Have the students discuss cumulative frequency distributions.

Have the students work problems cumulating the frequency distributions.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of the terms variables, range and quartiles.

PROGRAM OBJECTIVES

To provide an understanding of the terms variables, range and quartiles.

BEHAVIORAL OBJECTIVES

The student will be able to understand the terms variable, range and quartiles.

ACTIVITIES

Have the students discuss variable.

Have the students work with variables.

Have the students work problems determining variables.

Have the students discuss range.

Have the students find the range of a certain distribution.

Have the students discuss quartiles.

Have the students work problems involving the different quartiles.

PROGRAM IMPLEMENTATION

Provide material and problems on variable, range and quartiles.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of descriptive measures. (mean, mode and median)

BEHAVIORAL OBJECTIVES

The student will be able to understand the use of the mean, mode and median.

ACTIVITIES

Have the students discuss the mean and solve problems using the formula.

Have the students discuss the mode and solve problems using the formula.

Have the students discuss the median and solve problems using the formula.

Have the students visit a statistics department of a local business or insurance company.

PROGRAM IMPLEMENTATION

Provide material on mean, mode and median including formulas and problems.

Arrange a field trip to a statistics department of a local business or insurance company.

STATISTICS

(72 hours)

PROGRAM OBJECTIVES

To provide an understanding of the mean, mode and median.
DEVELOPMENTAL OBJECTIVES
To develop an understanding of the use of the standard deviation.

BEHAVIORAL OBJECTIVES

The student will be able to understand the use of the standard deviation and sample variance.

ACTIVITIES
Have the students discuss the square room table and work exercises using the square root table.

PROGRAM IMPLEMENTATION
Provide material and exercises on standard deviation and sample variance.

PROGRAM OBJECTIVES
To provide an understanding of the use of the standard deviation.

Have the students discuss standard deviation and work with the formula.

Have students work problems using the standard deviation.

Have the students discuss interpretation.

Have the students work with the sample variance formula and work problems involving sample variance.

Have the students work problems dealing with standard deviation and sample variance. Have them interpret their findings.
DEVELOPMENTAL OBJECTIVES

To develop an understanding of probability.

BEHAVIORAL OBJECTIVES

The student will be able to have some understanding of probability.

ACTIVITIES

- Have the students discuss sets.
- Have the students discuss probability.
- Have the students do experiments or games.
- Have the students listen to a speaker on probability.
- Have the students work problems involving the different kinds of probability.
- Have the students make a tree diagram.

STATISTICS

(72 hours)

PROGRAM OBJECTIVES

To provide an understanding of probability.

PROGRAM IMPLEMENTATION

To provide the students with material on probability (games, experiments, problems).

Arrange for a speaker on probability.
VI. Recommended Methods of Evaluation

A. Pre-testing should be administered to develop goals and to identify student needs. Post-testing will show the progress of the students.

B. Teacher made and standardized tests should be used to measure achievement during the course work.

C. Give consideration of work experience, especially when it is on an individual basis.

D. Evaluation by the people that are directing the experience areas when the experience is on an individual or small group basis.

E. A self-evaluation and an evaluation by fellow students could be useful.

F. The true test, of course, is how well the students perform in college and in work situations when they graduate from college. A follow-up study should be developed to see how the students perform in college and on the job.
