**ABSTRACT**

Funded by combined Title I Migrant and Title IV Civil Rights Act funds, this guide on six major themes dealing with Puerto Rico was developed primarily for use by teachers in elementary and secondary schools. The guide is designed to provide teachers and students with a better understanding of Puerto Rican and culture. Although the publication was originally developed for use in migrant education programs, its units can serve as a resource for use in bilingual, social studies, or cross-cultural programs at the elementary and secondary levels. The "Overview" section summarizes and highlights key items relating to the major themes. "Objectives and Activities" provide a framework within which the units can be used. The "Teachers' Aids" identify supplemental resources which are further developed in the bibliography. The bibliography also includes annotations of other books and articles pertaining to Puerto Rican history and culture. Grade levels, publishers, and publication dates (where available) are noted for each entry. In addition, a list of publishers' addresses is provided. (Author/JM)

FOREWORD

The Puerto Rican Resource Units, a guide on six major themes dealing with Puerto Rico, was developed primarily for use by teachers in elementary and secondary schools.

The Overview section summarizes and highlights key items relating to the major themes. Objectives and Activities provide a framework within which the units can be used. The Teacher Aids identify supplemental resources which are further developed in the Bibliography. The Bibliography also includes annotations of other books and articles pertaining to Puerto Rican history and culture. Grade levels, publishers and publishing dates (where available) are noted for each entry. In addition, the Publishers' Addresses are provided.

The Units are designed to provide teachers and students with a better understanding of Puerto Rican history and culture. Although the publication was originally developed for use in migrant education programs, the Units can serve as an excellent resource for use in bilingual, social studies or cross-cultural programs at the elementary and secondary levels.

This publication was funded by combined Title I Migrant and Title IV Civil Rights Act funds. Opinions expressed herein do not necessarily reflect the policy of the Office of Civil Rights or of the United States Office of Education.

ACKNOWLEDGMENTS

The Puerto Rican Resource Units, written by Josephine Estrada, Assistant in Bilingual Migrant Education, are part of the Materials Acquisition and Program Development Project. The project serves school districts in New York State that enroll Puerto Rican migrant students who are of limited-English language ability.

We wish to thank Ms. Estrada for initiating and developing this publication. Under her leadership, many people contributed to the final edition.

Grateful acknowledgment is given to the following persons who reviewed and commented on the first draft of the Puerto Rican Resource Units: Ricardo E. Alegría, Edna Acosta-Belén, Gloria Blinder, Edith Cruz, Richard E. Dibble, Nydia Flores, Martha Lahn, Blanca Machín, Sonia Nieto, Carlos V. Pérez, María Ramírez, Barbara Sjostrum.

Special thanks to artists Daniel Ramos for the illustrations in Units One, Two, Three, Four and Six and to José Rodríguez for the illustration in Unit Five, and to the typists: Nancy Carpenter, Judy Kolach, Maureen Schaefer, and Edith Cruz who also contributed to the annotation and selection of materials.

We gratefully acknowledge permission of the following publishers, authors and educators for the use of their materials:

Michael Holstein - Reproduction of the illustration included in Unit Four from Slavery and Abolition, 1510-1873, Puerto Rican Culture and History Series, Multi Media Center, School District Fourteen, New York.

Carlos V. Pérez - Reproduction of illustration included in Unit Six from Annotations on Selected Aspects of the Culture of Puerto Rico and Its People, New York State Education Department, Albany, New York, 1972.

THE ISLAND OF PUERTO RICO

OVERVIEW

Puerto Rico is a rectangular shaped Caribbean island, approximately 100 miles long (east-west) and 35 miles wide (north-south), with the smaller islands of Vieques and Culebra to the east and Mona to the west of the island. One-fourth of the island's terrain is flat land and three-fourths is either mountainous or hilly.

This tropical island, which is about the same size as Connecticut, has temperatures in the 70's to the 90's. It is generally quite warm in the daytime. Breezes from the mountains and sea make the nights cool.

Some important cities of Puerto Rico are:

San Juan: The city of San Juan was formerly known as Puerto Rico (rich port), while the island was called San Juan Bautista. However, in the early 16th century, the names were reversed so that the capital became known as San Juan and the island was called Puerto Rico. San Juan contains 40 percent of the island's commerce and factories, and most of the hotels and tourist attractions.

El Morro, an old fort on the San Juan harbor that took more than three centuries to build, was designed to protect Puerto Rico from pirates and invaders. La Fortaleza, built previous to El Morro for the same purpose, became the official residence of the governor in San Juan.

Ponce: Located in the southwest, Ponce was officially founded on September 17, 1692. It was declared a city in August 1877. The city was named after the great grandson of Juan Ponce de León. Ponce is one of the principal cultural centers and the Puerto Rican danza was developed there. It is the site of one of the island's first theaters, La Perla, as well as the famous tourist attractions El Parque de Bombas and El Museo de Ponce (Ponce's Art Museum). Ponce is also known for its sugar plantations and rum distilleries.
Mayagüez: A monument to Christopher Columbus is in the main square of this western coastal city. There are also tuna packing companies, factories and a branch of the University of Puerto Rico.

Other Cities: Río Piedras and San Juan are also cities considered as part of the San Juan metropolitan area. Other important cities of Puerto Rico are Arecibo, Bayamón, Caguas, Guayama, Aguadilla and Carolina.

Some of Puerto Rico's natural resources have yet to be developed to their full potential: fertile land for cultivation, fishing, copper and uranium mines, oil and natural ports for the ship building industry.

A map of important products by area can be found on page 278 of Puerto Rico: A Profile by Kal Wagenheim.

OBJECTIVES

Students will be able to:

1. describe the shape and area of Puerto Rico
2. describe the climate and identify important products common to this climate
3. identify at least 4 important cities
4. identify and make a Puerto Rican flag
5. identify different parts of the Puerto Rican seal
6. identify important leaders born in the cities of Puerto Rico
7. draw and describe different fruits and vegetables of Puerto Rico
8. describe Puerto Rican foods and special holiday dishes

ACTIVITIES

- Have students construct a clay model of Puerto Rico and/or Caribbean area on a cardboard tray or draw a poster or map. Depending on the age of students, have them locate important cities or products on the map.

- Show pictures and/or slides of Puerto Rico and Puerto Ricans.

- Use records depicting the music of Puerto Rico. (e.g. songs, in "Canciones Infantiles," "The Musical Heritage of Puerto Rico."
- Make collages or posters of different products in Puerto Rico. (e.g., Poem of Quenepa is found in ABC de Puerto Rico by Rubén del Rosario.)

- Make a flag of cloth, needlepoint or paint.

- Make a flag on cardboard using rice and beans for the stripes and a cutout star.

- Make a comparison of city children living in the United States and in Puerto Rico in regard to clothes, environment, school, language, etc.

- Have a committee of students develop a report on an important town or city, reasons for its importance, or discuss important people or products from that town.

- Have a committee plan a trip to Puerto Rico including visits to points of interest. Use a poster display or a panel presentation to make the information available to the class. (Contact the Puerto Rico Tourist Development Company or Quién Pasa Tours for brochures and information on the island.)

- Have students memorize the poem Flamboyán (ABC de Puerto Rico by Rubén del Rosario, et al). A picture of the Flamboyán is included in Puerto Rico - The Complete Island - tourist booklet.

**TEACHER AIDS**

1. "Puerto Rico es así". A 22 minute color film that shows different parts of the island through the activities of one family. (English or Spanish)

2. Puerto Rico: A Profile by Kal Wagenheim. A map of Puerto Rican towns is provided with sections on the climate, national resources and popular foods. Other maps with population distribution, rainfall, and topography are also included.

3. The History of Puerto Rico by Gaetano Massa and José Luis Vivas. Chapter 1 deals with the geography, the population, and products of Puerto Rico.

4. Quién Pasa Tours, Puerto Rico - The Complete Island. These brochures have pictures of important cities in Puerto Rico. A tourist approach is used.

5. Annotations on Selected Aspects of the Culture of Puerto Rico and Its People. Lists typical pastimes, cultural centers, and important architectural structures in Puerto Rico.
6. *La Plena.* A film that shows the mountains and countryside of Puerto Rico as well as the people playing musical instruments and dancing. (Spanish)

8. *Puerto Rican Studies - Kindergarten - Grades 1-2.* This New York City curriculum guide has teacher background with pictures of San Juan, Ponce and Mayagüez (pages 79-93). It includes a description of where and how coffee is grown, with a map and pictures (pages 94-98). Pictures and brief descriptions of men and machines cutting sugarcane are on pages 50-52. A list of legal holidays in Puerto Rico and description of Christmas in Puerto Rico are included on pages 65-68.

9. *El mundo y mi comunidad* by Aurelio Pérez Martínez. This text, written for third grade social studies classes in Puerto Rico, contains maps of Puerto Rico indicating important sources of information:

   p. 75  -  Forests
   p. 80  -  Areas producing sugar, tobacco and coffee
   p. 83  -  Fruit and coconut cultivation with an accompanying table that gives the specific fruits and the quantity produced
   p. 85  -  Sugar mills and their names
   p. 89  -  Location of industrial plants. The different industries (such as cement, rum, petroleum, etc.) are listed.
   p. 91  -  Airport locations and harbors (Spanish)

10. *Conociendo a Borinquen* by Aurelio Pérez Martínez. Unit 10 deals with important products and the economic situation of Puerto Rico. Illustrations show Puerto Ricans cutting cane, working in tobacco fields and in industrial plants. Important building in various towns are also illustrated in this unit. (Spanish)

11. *Puerto Rican History, Civilization and Culture - A Mini-Documentary.* Very similar to the *Annotations on Selected Aspects of the Culture of Puerto Rico and Its People.* The population and Puerto Rican foods are discussed on pages 48-49. The seal and flag of Puerto Rico are discussed on pages 43-44. Pages 41 and 46 contain listings of important cultural centers.

13. *Enciclopedia puertorriqueña ilustrada - The Puerto Rican Heritage Encyclopedia.* Volume 2, section 5, "Political Geography of Puerto Rico," has background information on 76 different towns or cities of Puerto Rico. (Spanish and English)
   - Puerto Rico ilustrado - La isla del encanto. Beautiful multi-colored map indicating products and locations of towns.
   - Puerto Rican Flag - Desk size flag (4" x 6") with girt tipped spears. A single Puerto Rican flag or a double flag set of Puerto Rico-United States flags are available.

15. Prehistoria de Puerto Rico by Dr. Cayetano Coll y Toste. The beginning chapters give an in-depth study of the geological formation of Puerto Rico. (Spanish)

16. Rain Forest-Bosque nacional del Caribe - Puerto Rico. A short brochure that gives basic information on the rain forest in Puerto Rico. (Spanish and English)

17. Conozcamos a Puerto Rico. Book 3, Level 1, Laidlaw Reading Series - "Por el mundo del cuento y la aventura." This book has reading sections and poems on Puerto Rico and its formation, geography, the rain forest, shores, forests, valleys, trees and neighboring islands of Vieques, Culebra and Mona. A map of Puerto Rico is found on page 6. (Spanish)

18. Geograffa de Puerto Rico - Programa de Estudios Sociales. This geography text for upper level elementary students includes background information on Puerto Rico's location and importance in the Western Hemisphere, its cities and towns, resources, climate, flora and fauna. There are 54 illustrations including different maps of Puerto Rico and aerial views of various towns. (Spanish)

19. Historia del pueblo de Puerto Rico: desde sus orígenes hasta el siglo XVIII by Arturo Morales Carrión. A short but interesting account is given in Chapter 1 on the island and its formation. (Spanish)

TAÍNO INDIANS

OVERVIEW

The first inhabitants of Borikén were the Archaic Indians known as the pre-farmers or pre-ceramists. It is believed that this first culture originated from what is today southern Florida. The Archaics were fishermen and hunters, and they did not practice agriculture or make boats and arrows. The Archaics were conquered by the Igneris, a subculture of the Arawaks. It is believed that the Igneris came from what is today Venezuela. The Igneris were pottery makers, and examples of their multicolor ceramics exist today. Centuries later, the two groups became a new group – the Taínos.

The Taíno Indians, 30,000 of whom lived in Puerto Rico before the Spanish came in 1493, called Puerto Rico "Borikén" which meant "Land of the Brave Men." (The Spaniards adapted the word into Spanish and changed it to Borinquen.) The Taínos are generally described as being of medium height with dark eyes and thick straight black hair. They had high cheekbones and a copper-toned complexion. A flattened forehead was considered a form of beauty. It was customary to press both sides of the head at birth, leaving the head to take a conical shape. The Taínos wore no clothes, except for the married women who wore naguas (half-slips which were like skirts).

The Taínos were believed to be very organized and they had a class structure:

- The cacique was the chief.
- The nitaínos were the warriors.
- The bohíques were priests and wise men.
- The naborias were the common people.

While the cacique lived in a rectangular shaped home called caney, the others lived in a bohío, a round shaped hut. The bohío and caney were centered around a patio called el batey. The bohío, caney and batey comprised the yucayeques (villages) which were located near the sea or a river.

Hunting, fishing and planting manioc (yuca), corn and tobacco were important Taíno activities.

Yuquíyú was the good god who lived in the mountains, and Jurakán was the evil spirit. The Taínos also worshipped lesser deities known as cemíes. Each village and each family had its own protecting cemí, and the Taínos made carvings of these in wood, stone, clay or gold.
Since the Taínos also believed in an afterlife, the dead were buried with water, food, arms and adornments. The cacique’s funeral involved elaborate rites and he was buried with his favorite wife. The Taíno chief and the dominant classes were polygamous.

Music and games were part of the Taíno’s culture. In the bateyes, areytos (religious celebrations) were held in which the Taínos danced and sang, and told tales about the history of the gods, the caciques and the people. Musical instruments used were the maracas and the güiro. A game was played similar to a combination of soccer and volleyball. "The two teams hit the heavy ball back and forth with the head, shoulders, elbows, hips or with a heavy stone ceremonial belt. The team that let the ball fall to the ground and remain immobile lost the point." (Wagenheim, Puerto Rico: A Profile, page 40).

The Taínos’ weapons were bows, arrows, a type of hardwood club known as the macana and wood-handled stone axes.

OBJECTIVES

Students will be able to:

1. identify the Taíno as the inhabitant of Puerto Rico when Columbus arrived in Puerto Rico in 1493
2. describe certain characteristics of the Taínos:
   - their physical appearance
   - their musical instruments
   - their games
3. identify and make maracas
4. describe the organization of the Taínos:
   - the different classes
     caciques
     nitainos
     bohíos
     naborias
   and the structure of their villages (yucayegues)
5. name and/or construct the different types of homes (caney, bohío) and some of the furniture and utensils used by the Taínos (hammocks, dujo, bowls, burén, ditas)
6. report why the Indians lived near the rivers and what their livelihood was
7. identify the gods of the Taínos
8. relate why the Indians were conquered by the Spaniards

ACTIVITIES

- Have students make a model of a Taíno village with different types of homes, the batey and figures of Taíno Indians. The village should be located near a river.
- After making maracas, have students sing a popular Puerto Rican song that uses maracas.

- Have students make a guanín, symbol of authority used by the cacique.

- Have students write a short play or role-play the different classes: cacique, nitaíno, bohíque and naboria.

- Have students make a picture-word dictionary of Indian words.

**TEACHER AIDS**

1. **Puerto Rico: A Profile by Kal Wagenheim.** The beginning of Chapter 1 gives details of the Indian culture and way of life.

2. **Isla y pueblo (Noticias de Boriken) - Libros para el pueblo - Número 28.** A seventy-four page booklet on the Taino Indians details background on their physical appearance, language, political organization, religion, family, economy, agriculture, art, medicine and sports. (Spanish)

3. "Supplementary Reference Material for Teachers - Puerto Rican History and Culture," November-December 1973. The following units, pertinent to the Tainos, are included: Jessie Walter Fewkes, "The Aborigines of Puerto Rico and Neighboring Islands" and Isla y pueblo. Fewkes' article is in English, the latter is in Spanish.

4. **The History of Puerto Rico by Gaetano Massa and José Luis Vivas.** Chapter 3 describes the Taino Indian's history and way of life. A detailed map of the Indian villages is also provided.

5. **Tu casa y la mía - Libros para el pueblo - Número 20.** A description and picture of the Taino homes are provided. (Spanish)

6. **Puerto Rican History and Culture - A Study Guide and Curriculum Outline, Kenneth Aran, et. al.,** outlines are given on the Tainos when the Spaniards arrived in Puerto Rico (pages 87-88). Indian words and names still maintained in Puerto Rico are given on page 12.

7. **Mi música - un libro para mis niños** edited by Luis Nieves Falcón. Colorful illustrative pictures of the musical instruments of the Tainos are shown (el güiro, el tambor y las maracas). A description of how they are made is given. The areyto feast as celebrated by the Tainos is also described.

9. **Borinquen and Then Columbus (Slide Set).** Set of ten slides, with explanations for each in Spanish and English which depict the Tainos'
physical appearance, their homes, furniture and villages as well as
the influence of Spanish colonization on them.

Coloring booklet that covers Columbus' second voyage, his arrival in
Puerto Rico, and appointment of Ponce de León as governor of Puerto
Rico.

11. Borinquen Before Columbus. This alphabet booklet uses pictures to
illustrate the Taíno Indians' way of life. Explanations of the
Taíno's physical features, their government and their religion are
also given. Different drawings of the guanín, the symbol of authority,
are shown. (Spanish and English)

12. Borinqueñ and Then Columbus. A resource booklet that has pictures of
the Taínos. Detailed information is provided about the Taíno culture,
their villages and living structures, furniture, kitchen utensils,
agriculture, hunting, recreational activities, social and political
organization. Changes in their lives caused by colonization are
explained. An extensive list of Indian vocabulary is provided at the
end of the booklet. (Spanish and English)

13. Carteles - Herencia cultural indígena - illustrations by Idalia Rosario
and Ernesto Ramos. Large posters provide: map of Puerto Rico with
Taíno villages, musical instruments of the Taínos, social organization
of the Taínos, different symbols of the Taínos, different utensils
and furniture used by the Taínos.

14. 100 biografías de puertorriqueños ilustres by Federico Ribes Tovar.
Short bibliographies of Indian leaders are given: Agüeybana I,
Agüeybana II, Cacimar, Yahureibo. (Spanish)

15. The Musical Heritage of Puerto Rico by Moses Pagen. Musical
instruments used by the Indians are described and illustrated -
las maracas, el güiro, el tambor (el maguey). There is a two-record
set that accompanies this booklet.

the first chapter important events and periods describing the birth
of Puerto Rico and the Indians are provided.

17. El mundo y mi comunidad by Aurelio Pérez Martínez. Unit three
(pages 117-129) covers Taíno Indians' communities. A colorful map of
Puerto Rico illustrates the towns where they lived. Characteristics
of the Indians, their physical appearance, their social structure of
governing, and their community are outlined. There are colorful
illustrations of their villages, their instruments and religious cemi.
(Spanish)

18. Conociendo a Borinquen by Aurelio Pérez Martínez. Although Unit 1
begins with the arrival of Columbus, pages 18-35 give a detailed
history of the Taínos. A large colorful map indicates their villages
in different parts of Puerto Rico and there are illustrations and
information on their physical characteristics, furniture used by the Taínos, principal means of livelihood, recreational and religious activities and governing organization. Reasons for the Taínos disappearance from Puerto Rico and their contributions to Puerto Rico are given on pages 34-35. (Spanish)

19. Descubrimiento, conquista y colonización de Puerto Rico - 1493-1599
Discovery, Conquest and Colonization of Puerto Rico - 1493-1599 by Ricardo E. Alegría. A student's text for upper elementary or high school students. Chapters 2, 6, 8 dealing with the Taíno Indians cover background, historical data, rebellion and defense of the Taínos. (Spanish or English)

20. Guías para los carteles puertorriqueños. A specific lesson based on the Mi Raza poster (Carteles Puertorriqueños) is given on the Taíno Indians.

21. Conozcamos a Puerto Rico - Book 3, Level 1, Laidlaw Brothers - "Por el mundo del cuento y la aventura." Intermediate student's reading text with sections on the Indians and their contributions on pages 68-72 and pages 79-83. Indian legends and towns are described on pages 85-86 and pages 95-100. (Spanish)

22. Las manos y el ingenio del hombre - Libros para el pueblo - Número 23.

El Morro
UNIT 3

THE SPANIARDS

OVERVIEW

Christopher Columbus came to Puerto Rico on November 19, 1493, during his second voyage to the New World. Later came Ponce de León who was to become the first governor of Puerto Rico in 1509. He founded the first settlement named Caparra. De León assigned land and Indians to the Spanish colonizers.

Spaniards established a system of encomiendas - where 30 to 300 Indians were assigned to a colonizer, whom they would serve in the mines and in other work. The Spaniards' religion (Catholicism) and customs were imposed on the Indians. At first the Indians believed the Spaniards to be immortal. They eventually rebelled against various abuses such as forced labor. Many Indians fled or died fighting. Others died from a smallpox epidemic in 1519. Great defenders of the Indians against the harsh and abusive treatment by the Spanish were Fray Antonio de Montesinos, Fray Bartolomé de las Casas, and Fray Ilhigo Abbad y Lasiera.

The decreasing number of Indians and the introduction of sugar plantations by the Spaniards caused a need for new labor. Therefore, African slaves were brought to Puerto Rico in the early 1500's. By 1530, African slaves outnumbered the Indians and Spaniards.

Between the 16th century and the 18th century, Puerto Rico was besieged by foreign invasions from France, England and Holland. In the 1540's, the building of forts (e.g. El Morro) was begun to protect the islanders. Puerto Rico provided a link between Spain and her other colonies in the Western Hemisphere, and consequently the island was attacked by powers that wanted Spain's possessions.

Pirates that were interested in Puerto Rico often stopped shipments between Puerto Rico and Spain. A smuggling industry developed in the late 17th Century because Puerto Rico, as a colony, was restricted to trade only with Spain.

In the 19th Century, Puerto Rico was influenced by movements for independence in the New World Spanish colonies and in the American colonies. In the early 1800's, Spain was invaded by France under Napoleon, and Venezuela and Mexico were fighting for independence. Spain, in trying to maintain power in Europe and keep its colonies under control, neglected Puerto Rico's internal affairs. Islanders began to feel a greater sense of being Puerto Rican than of being Spanish.
A new Spanish constitution made Puerto Ricans full-fledged citizens rather than colonial subjects in 1812. However, this constitution was short-lived and the Spaniards continued to treat Puerto Ricans as colonists.

Another form of discrimination and injustice was the forced use of libretas de jornaleros (identification booklets). According to Puerto Rico's Department of Public Instruction publication Los derechos del hombre, the system of libretas began in 1849 when Governor Pezuela made it mandatory for workers over 16 years old to register with the local judge and receive an identification booklet. The worker's name, address, his moral conduct and debts were inscribed. Fines were established for not carrying the libreta or for failing to pay debts. Before the worker could be employed, his debts had to be cleared. José Pablo Morales fought this injustice, which was finally abolished in 1873.

As discontent with Spain grew, the movement for more autonomy and independence became stronger. The Grito de Lares on September 23, 1868 was the most noted attempt. Carrying their own flag, the Puerto Ricans took the village of Lares and proclaimed their own president, Francisco Ramírez Medina. However, their attempt was stifled in San Sebastián. Ramón Emeterio Betances, Segundo Ruiz Belvis, Lola Rodríguez de Tío and Mariana Bracetti were important leaders in this struggle. September 23 is celebrated as a holiday by Puerto Rican separatist groups.

The struggle for self-government continued until autonomy was granted to Puerto Rico by Spain in November 28, 1897. A new cabinet was formed by February 1898, followed by general elections for legislators in March. However, the same month that the new government began to function, (July 1898) 16,000 American troops invaded Puerto Rico. Puerto Rico's autonomy was disregarded by Spain in the settlement agreements between Spain and the United States after the Spanish-American War. (Kal Wagenheim, in Puerto Rico: A Profile, relates details of this short war in Puerto Rico). The Spanish-American War began with the mysterious destruction of the battleship "Maine," which was docked in the Cuban harbor. After the war Puerto Rico became a territory and possession of the United States after 400 years of Spanish domination.

The 400 years of Spanish rule left Spain's influence on Puerto Rico's customs, culture, religion, architecture, language, food and music.

OBJECTIVES

Students will be able to:

1. explain why and when the Spaniards first came to Puerto Rico.
2. relate the plight of the Indians under Spanish rule.
3. explain encomiendas.
4. explain why forts were built in Puerto Rico.
5. identify Grito de Lares and explain its importance in Puerto Rican history and its significance today.

The Africans
Slavery first began in Puerto Rico approximately in 1509. They were brought to Puerto Rico due to the shortage of laborers to work on the sugar cane plantations.

The type of slaves that emerged were the domestic slaves who worked in jobs around their masters' homes, and farmers who worked in agriculture in the open air and were supervised by mayores (foremen).

Slaves were used mainly to work in the sugar cane fields on farms near the coastal area. Free white laborers known as jornaleros were hired by private enterprises or the government. They generally worked on coffee farms in the center of the island. (Supplementary Reference materials for teachers: Puerto Rican History and Culture, page 89.)

Freedom was possible for some of the slaves in various ways:

1) The son of a slave was born a slave. However, if a certain amount of money was paid at baptism, the child would be freed upon reaching adulthood. This practice was carried out by many patriots and abolitionists. Dr. Ramón Emeterio Betances used to go to church every Sunday to buy freedom for the little slaves being baptized.

2) The owner could, on his own, free the slaves.

3) The owner could specify in his will that the slave would become free upon the owner's death.

4) The slave could buy his own freedom if he had enough money.

5) Foreign slaves who escaped and went to Spanish territory would receive their freedom if they adopted Catholicism and swore allegiance to the King of Spain. Many of the slaves who escaped from Haiti (French Territory) converted and won their freedom in Puerto Rico. (Supplementary Reference Materials for Teachers: Puerto Rican History and Culture, page 90.)
A demoralizing practice occurred when slaves were bribed to inform on other slaves instead of helping with escapes or revolts. Many struggled for the freedom of the slaves through the abolitionist movement, and freedom was officially granted on March 22, 1873. The Africans who came to Puerto Rico contributed greatly to the ethnic background of today's Puerto Rican. African influence is seen in the political history, economy (through their free labor), culture and religion. Today, the important feast of St. James the Apostle is celebrated in Loíza Aldea, the town in which many slaves settled after receiving their freedom. The celebrations include a parade in which various characters are depicted by people wearing special masks and costumes.

OBJECTIVES:

Students will be able to:

1. explain why the Africans came to Puerto Rico
2. distinguish the different types of slaves that emerged
3. explain means of obtaining freedom
4. compare the struggle for freedom from slavery and freedom from Spain
5. identify at least three important leaders who fought for the abolition of slavery
6. recite and explain at least two proverbs from *Refranes de Negros Viejos* (listed in Teacher Aids under Supplementary Reference Materials for Teachers: *Puerto Rican History and Culture*)
7. identify and/or make musical instruments contributed by the black culture in Puerto Rico
8. learn the words of a *plena* (several are listed in the Annotations on Selected Aspects of the Culture of Puerto Rico and Its People)
9. cite the outstanding achievements of Segundo Ruiz Belvis in the abolitionist's fight against slavery

ACTIVITIES

- Have students make a doll that might have been used by a poor slave girl. Take a detergent bottle, use a black or brown sock to cover the bottle; a kerchief and apron can be attached or sewn to the material. Buttons can be added.

- After studying about a black leader, have students write a one-page biography. A booklet or blackboard display can be made of one or different biographies.

- Have a panel discuss reasons for slavery and/or means of freeing slaves in Puerto Rico.
After learning the words, have students bring in musical instruments and sing and play a plena or la bomba.

Have students do a mock forum - pro and con slavery.

Have students explain how African music has influenced the Puerto Rican music such as the bomba, the plena and today's Latin music of la salsa.

OVERVIEW

When the Treaty of Paris was signed on December 10, 1898, Spain lost the Philippines, Puerto Rico and Cuba to the United States.

At first there was military rule after which the Foraker Act was enacted. Massa and Vivas describe the details of the Foraker Law (1900-1906) in History of Puerto Rico:

- island of Puerto Rico was declared an American Territory.
- executive power was vested in a governor appointed by the President of the United States for a period of four years.
- an eleven-man Executive Council (all of whom were selected by the President of the United States) served as a governing body. The majority of the council members were Americans.
- thirty-five elected Puerto Ricans in the house of Delegates (whose laws were subject to Congressional Veto) represented their people.
- an elected Resident Commissioner had the status of a Congressman but did not have voting rights.

According to Massa and Vivas, the first 30 years of United States domination were marked by:

- improvement of the educational system, health and public works
- control of lands for sugar production by great absentee corporations.
- decline of coffee and tobacco as the principal agricultural products.
- a great increase in population.

Discontent grew because the Puerto Ricans' lack of self-government. With such discontent, talk of independence spread. However, in 1917 the Jones Act, granting Puerto Ricans American citizenship was passed. In Puerto Rico: A Profile, Wagenheim writes that "Puerto Ricans automatically became United States citizens unless they signed a document refusing it. But this refusal deprived them of numerous civil rights, including the right to hold public office and made them aliens in their birthplace" (page 69).

Despite citizenship, other movements began to grow, such as the independence movement under José De Diego, Pedro Albizu Campos, and others. The movement toward Estado Libre Asociado (Commonwealth) was made popular.
and realized by Luis Muñoz Marín who became the first elected Puerto Rican Governor in 1948. Muñoz Marín remained governor until 1964. The first native governor, Jesús T. Piñero, was appointed in 1946 by President Truman.

Commonwealth status was officially established in 1952 and on July 25, 1952, the Puerto Rican flag was raised for the first time. Under the Commonwealth status, Puerto Ricans have their own constitution, which established a government with executive, legislative and judicial branches. The governor, who is the chief executive, and the members of the House and Senate are elected by popular vote. The Commonwealth government has control over most of the island's domestic affairs. However, nearly all legislation passed by the United States Congress, except for internal revenue regulations, also applies to Puerto Rico. The United States Congress controls the island's economic, postal and immigration policies, regulates its contact with foreign countries, and provides for the island's defense. Islanders are served by most Federal agencies, use United States currency and postal facilities and they serve in the United States armed forces. A major difference between Statehood and Commonwealth status regards the right to vote in national elections. Unlike United States citizens in the States, island citizens do not have the right to vote for President. The Commonwealth sends an appointed representative to Congress; however that representative does not have the right to vote as representatives of the states do.

The Puerto Rican political parties today represent three major positions:
- Independence
- Continuance of the Commonwealth status
- Statehood

Although efforts have been made toward providing more jobs, there is still a high rate of unemployment in Puerto Rico. The nature of the available positions has been changing. In Puerto Rico today, manufacturing has changed from the sugar mill to clothes manufacturing and investment industries such as processing of imported petroleum into chemicals. Agricultural work is important; however, the life style of el jíbaro is changing as more people move into the city or to the mainland. In agriculture the importance of the traditional crops - sugar, coffee, and tobacco - is decreasing as livestock and dairy farming are growing.

Efforts to revitalize tourism have been increased because of its contribution to the economic growth of Puerto Rico.

**OBJECTIVES**

Students will be able to:

1. describe when and how the Puerto Ricans became American citizens and identify the Jones Law

4 4
2. distinguish differences between being an American in Puerto Rico and on the mainland
3. identify the first appointed and the first elected Puerto Rican to be governor
4. give several ways the United States has influenced the Puerto Rican way of life
5. define statehood, commonwealth, and independence as applied to Puerto Rico
6. identify contributions and influence of:
   Luis Muñoz Marín
   Pedro Albizu Campos
   Luis A. Ferré
   Jesús T. Piñero
   José de Diego
   Lolita Lebrón
   Rafael Hernández
7. identify, explain and compare the slogans "Pan, Tierra y Libertad" by Luis Muñoz Marín and "La Patria el Valor y Sacrificio" by Pedro Albizu Campos.

12. compare agricultural life in the 20th Century with the agricultural life of the Taíno Indians, blacks, and the Spanish
13. cite three changes in Puerto Rico due to growth of tourism
14. explain at least three reasons why Puerto Ricans are moving from the countryside to the city
15. sing the national anthem of Puerto Rico

ACTIVITIES

- Have students make, draw or color a flag of Puerto Rico.
- Have students draw the shape of the flag and put rice for white stripes and beans for red stripes.
- Have students sew a flag.
- Have students present a panel on any of the following topics:
  - United States influence on Puerto Rico
  - The contributions of the United States in Puerto Rico
  - United States role in Puerto Rico in the early 20th Century
  - United States role in Puerto Rico in the late 20th Century
  - Puerto Rican national consciousness
- Have students role play the position of a Resident Commissioner:
  - having him leave Puerto Rico and adjust to
  the new life in the United States
  - citing what his duties will be
  - explaining his voting status

- After identifying the meaning of the Puerto Rican flag, have students role play a ceremony commemorating the first time the flag was flown in Puerto Rico.

- Have a discussion or panel present three main persons or groups, each advocating one of the following positions: statehood, commonwealth, or independence status.

- Have students make a collage or posters of different places of interest in Puerto Rico.

In Puerto Rico: A Profile, Kal Wagenheim writes that one-fourth of all native Puerto Ricans live in the United States. Although there were migrations to the United States before World War II, the greatest number of Puerto Ricans began to arrive in the 1950's due to the increased use of the passenger airplane. As Puerto Ricans are citizens of the United States, there are no legal restrictions on immigration.

Sugar, tobacco and coffee industries offered seasonal employment in certain areas of Puerto Rico. Unemployment was high, there was little industry, natural resources had not been developed, and there was a decline in agricultural work and growth in population. These factors and a demand for cheap labor in the United States made migration attractive to Puerto Rican workers. Puerto Ricans migrated to urban and rural areas as unskilled laborers.

New York City has the highest urban concentration of Puerto Ricans. (See section on Teacher Aids - Unit 6 for specific references to numbers of Puerto Ricans in N.Y.C. - Peter Kihss, New York Times and Puerto Rico and the Puerto Ricans). Many Puerto Ricans worked in the garment industries, in factories, in service jobs, in restaurants and hotels. Employment of Puerto Ricans is decreasing because non-skilled employment has gradually diminished in the post-industrial age. In recent times it is no longer enough to have good health and a willingness to work: English fluency, a high school diploma and specific skills are generally required for employment. Wagenheim writes that "only 2.7% of the Puerto Ricans are employed in technical work, compared with the United States average of 10.3%." (Puerto Rico: A Profile). In A Survey of Puerto Ricans on the U.S. Mainland in the 1970's, Kal Wagenheim writes: "...the New York State Labor Department projects that between 1968 and 1980, there will be a 12 percent decline in factory jobs and 16 percent for laborers, two areas that have heavy concentrations of Puerto Rican workers" (page 69). In addition, because Puerto Ricans are an ethnic mixture of the Indian, the Spanish and the African, there is the added dimension of racial discrimination which makes their entrance into certain areas of employment difficult.

The situation for the Puerto Rican seasonal agricultural worker differs from the Puerto Rican urban worker in that unskilled laborers are more accepted, though the work is available for only a few months each year. Over 200,000 Puerto Rican workers a year come to the United States to work on farms and then return home for the sugar harvest. (Puerto Rico in Pictures, page 44). Puerto Rican men work from four to seven months in apple orchards, potato and mushroom farms, canning and food processing, packaging plants, vineyards or fruit and vegetable farms in Connecticut, Delaware, Massachusetts, New Jersey, New York, Ohio and Pennsylvania.
Most of the Puerto Rican seasonal migrants leave their wives and children in Puerto Rico while they work in the United States. Puerto Rican migrants frequently sign contracts that are arranged by the Commonwealth of Puerto Rico and the United States companies hiring the workers. Many Puerto Ricans who came as agricultural workers settled permanently in the United States.

Difficulties encountered by Puerto Ricans are:

- different language background
- different climate
- different culture - values and customs of Puerto Ricans are affected
- lack of non-skilled employment opportunities compared to the late 19th century and beginning 20th century
- racial discrimination especially in housing, employment and educational opportunities
- identity crisis - for many who have remained in the United States there is confusion in being a Puerto Rican and an American at the same time

The latest movement is a reverse trend in that Puerto Ricans are returning to the island. According to a news release from the Department of Labor, Commonwealth of Puerto Rico, UMM-401-2-20-75, "In 1972, more than 34,000 Puerto Ricans returned to the island and another 21,000 persons returned in 1973. In 1974, only 9,535 persons migrated from the island to the mainland" (page 3).

OBJECTIVES

Students will be able to:

1. state at least three reasons why Puerto Ricans have come to the United States
2. identify five problems faced by Puerto Ricans who come to the United States
3. compare the Puerto Rican migration to that of previous migrating groups
4. list five areas of employment available to Puerto Ricans they know
5. compare types of employment of Puerto Ricans in Puerto Rico and in the United States
6. identify where the Puerto Rican migrant workers go and what crops or food products they work with
7. explain at least three reasons why Puerto Ricans are going back to the island
8. identify at least two reasons why most Puerto Ricans initially migrated to New York City
9. describe occupations where Puerto Ricans are most often employed

52
ACTIVITIES

- Have the student draw a map of either New York State or the United States and place pictures or drawings of crops picked or canned in appropriate locations.

- Have the student write or give an oral report on the processing of vegetables or fruits from the time they are picked to the time they are served at the table. A listing can be made of how many different persons would be involved in the process. If it is possible, someone from a local food processing plant could be invited to discuss or show the class the different procedures that are followed from picking to packaging.

- Make a collage of Puerto Ricans in different types of employment.

- Have a panel discussion of Puerto Rican students where any of following topics are discussed:
  1. what town they came from in Puerto Rico
  2. how long they have been in the United States
  3. how they found the United States when they first arrived
  4. how they would compare the United States and Puerto Rico
  5. how their parents, adults and Puerto Rican friends are employed
  6. how their anticipated thoughts of the United States were the same or different from actuality
  7. whether or not they would like to return to Puerto Rico

TEACHER AIDS

1. **Puerto Rico: A Profile** by Kal Wagenheim. Has chapters on migration and on the Puerto Rican people, economy, education and society on the island and in the United States.

2. **Puerto Rico in Pictures** by Robert V. Masters. Has a short section on migration and types of employment opportunities available to the Puerto Ricans (pages 43-44).

3. **The Puerto Ricans - A Documentary History** by Kal Wagenheim with Olga Jiménez de Wagenheim. The chapter "Exodus" contains accounts of the experience of Puerto Ricans in the United States from those who first came to this country in the early 20th century to the children of Puerto Ricans who have lived here many years. A bibliography of books and articles on the "exodus" theme is provided.

4. **Puerto Rico and Puerto Ricans: Studies in History and Society** edited by Adalberto López and James Petras. This book has a chapter on:
   - the Puerto Rican migration to continental United States from 1946-1971
- Puerto Rico's population growth from 1930-1965
- The ten United States cities with the largest numbers of Puerto Ricans according to the 1970 census
- On page 323, specific percentages on Puerto Ricans living in New York City are listed. Reasons for migration, life and conditions of Puerto Ricans on the mainland are also presented.

5. **Puerto Rican Americans - The Meaning of Migration to the Mainland** by Joseph P. Fitzpatrick. In chapter two special emphasis is given to factors contributing to migration of Puerto Ricans to the United States. It also includes seasonal farm workers. Special tables list:

- Migratory flow from and to Puerto Rico (from 1951-1967), page 13
- Puerto Rican population by states and selected cities, page 16

Some detail is given to the contract farm worker program established by the Office of the Commonwealth of Puerto Rico and the positive and negative aspects associated with the contract.

6. Peter Kihss, "Job Study Issued on Puerto Ricans," The New York Times, June 1, 1975. A short article on a study by Kal Wagenheim on the low income levels of Puerto Ricans. Interesting paragraphs are:

Between 1969 and 1971, Wagenheim said Puerto Ricans living in poverty increased from 29 percent to 32.2 percent of their population - 489,000 persons, an increase of 73,000. In 1970, he said 24 percent of mainland Puerto Rican families relied on some form of public assistance.

Even so the proportion of Puerto Rican families below the poverty level was far less on the mainland in 1970 than on the island - 29.2 percent compared with 59.6 percent.

There has been increasing dispersion of mainland Puerto Ricans. The study mentioned that New York City had 56.8 percent of the total in 1970, down from 87.8 percent in 1940, 81.6 percent in 1950 and 69 percent in 1960. Nine states had more than 20,000 each in 1970 and 29 cities and urban places had 5,000 or more.

7. **An Album of Puerto Ricans in the United States** by Stuart J. Brahs. Two chapters, "Mainland Migration" and "Life on the Mainland," show when and how Puerto Ricans came to the United States, where they settled in New York and in other states, their employment, education and housing problems. A brief description is given on how customs and values are affected by the Puerto Ricans' new environment.
8. **The Puerto Ricans: A Resource Unit for Teachers** by Ana Battle, et. al. Two chapters deal with the Puerto Rican migration to the United States and problems that Puerto Ricans face as members of a minority. An annotated bibliography of books, films, filmstrips and records is included.

9. **Emigración - Libros para el pueblo - Número 8.** An orientation booklet designed to give an understanding to Puerto Ricans on general meaning of migration and migration to the United States. Poems and short stories on this topic are presented throughout the booklet. (Spanish)

10. **The Coming of the Puerto Ricans** by Luis Antonio Cardona, hijo. Brief description of the arrival of Puerto Ricans to the United States and conditions they found from the early 1900's to the present.

12. **Puerto Rico and the Puerto Ricans - A Teaching and Resource Unit for Upper Level Spanish Students or Social Studies Classes.** In "Background Information for the Teacher - Present Conditions," a brief overview is given of the Puerto Rican's arrival and life in the United States.

13. **Enciclopedia puertorriqueña ilustrada - The Puerto Rican Heritage Encyclopedia.** Volume II has the following articles in Section VIII: "Assimilation of the Puerto Ricans on the Mainland," "Puerto Rican Migration: The Impact on Future Relations Between the United States and Puerto Rico" and "The Integration of Puerto Ricans." Volume II has the same content as is in El libro puertorriqueño de Nuevo York - Handbook of the Puerto Rican Community. (Spanish and English)

14. **Puerto Rican History and Culture - A Study Guide and Curriculum Outline** by Kenneth Aran, et. al. Unit two outlines and discusses causes of Puerto Rican migration.

15. **The History and Culture of Puerto Rico** by Kal Wagenheim. Booklet with one-page readings and accompanying comprehension exercises that include information on "Migration", "Racial Prejudice" and "Spanish and English." Posters and a teacher's guide accompany the booklet.

16. **A Survey of Puerto Ricans on the U.S. Mainland in the 1970's** by Kal Wagenheim. The most current data in regard to Puerto Ricans in the mainland and in Puerto Rico is provided in this book. Background information is given in chapters entitled:

- Rapid Growth of the Mainland Community
- Education, Language, and Literacy
- Jobs and Income (includes types of occupations)
- A Struggle for Survival (includes predictions of largest number of job openings in New York City and lists the fastest-growing occupations and how this will affect Puerto Ricans.)

17. Santiago by Pura Belpré. A story for young students about Santiago, a young boy born in Puerto Rico, who now lives in New York City.

18. Puerto Rico - Island of Contrasts by Geraldo Rivera. Student's book that has a short chapter on "Puerto Ricans on the Mainland."

20. Puerto Rico: A Socio-Historic Interpretation by Manuel Maldonado-Denis. There is a twenty-two page addendum entitled: "A Socio-Economic Interpretation of the Puerto Rican Migration."

21. El migrante puertorriqueño by Luis Nieves Falcón. This is an in-depth study of migrant agricultural workers, in which a comparison of Puerto Rican and North American workers is made. Falcón discusses reasons why some Puerto Ricans leave, and others remain in the United States. (Spanish)

22. My Puertorrican Poppa by Isabel Cuchi Coll. The life and culture of a Puerto Rican family in the Bronx is dramatized in this play.

23. Up From Puerto Rico by Elena Padilla. An anthropological study of Puerto Ricans who live in a New York City slum. Their attitudes, life style and environment are included.

24. A Socio-Economic Profile of Puerto Rican New Yorkers - Regional Report 46. This statistical report reviews the changing socio-economic situation of New York City's Puerto Rican population. Over 90 tables and charts clearly outline status, income and occupations and other areas in regard to Puerto Ricans.
