The chairman of the College Senate along with representatives from the administrative staff, the local council, and the student body developed this evaluation instrument to sample the attitudes, opinions and beliefs of the faculty, staff, and student body regarding the performance of the college's president. The evaluation criteria included: (1) academic and administrative leadership and management; (2) internal and external relationships; (3) the institutional tone set by the president; and (4) sensitivity to the needs of the campus and to the concerns of the faculty, staff, and students, and the college's image in the community. From these criteria, a 90-item questionnaire was developed. The questionnaire is divided into four sections: (1) items pertaining to the president's "Statement of Stewardship"; (2) items referring to a variety of characteristics identified as variables related to successful college presidents; (3) items attempting to assess the performance of Office for Academic Affairs, Student Affairs, and Finance and Management and their deans; and (4) items pertaining to general factors of importance to the college.
REVIEW OF A COLLEGE PRESIDENT

The task of representing the faculty and professional staff in the evaluation of the President of the College was a responsibility assumed by the Chairman of the College Senate. The President had prepared a "Statement of Stewardship" and it was reviewed by the Evaluation Committee. The Chairman of the Senate was one of four members of that committee. The other members on the committee represented administrative staff, the local council, and the student body. The President was to be evaluated based upon the following criteria:

1. academic and administrative leadership and management
2. internal and external relationships
3. the institutional tone set by the President
4. sensitivity to the needs of the campus and to the concerns of the faculty, staff, and students, and the College's image in the community

The purpose of this paper is to share with the academic community the evaluation instrument developed to sample the attitudes, opinions, and beliefs of the Faculty, Staff, and Student Body.

A sub-committee was formed to develop items related to each of the criteria listed above. From these items a questionnaire consisting of ninety items was developed. The questionnaire was divided into four sections and the respondents were asked to indicate whether they mostly agree, mostly disagree, or have no response, with each item. Section one consisted of eighteen items pertaining to the President's "Statement of Stewardship". Specific reference was made to factors the President
identified as positive characteristics of his administration. An open-end section at the conclusion of each part of the questionnaire permitted the respondent to make additional comments.

Part II consisted of 24 items and referred to a variety of characteristics identified as variables related to successful college presidents. These variables were obtained from a variety of sources and were selected by the sub-committee as being appropriate.

Part III attempted to assess the performance of the Office for Academic Affairs, Student Affairs, and Finance and Management. The performance of the Deans was also evaluated. Thus there were four sub-sections to Part III. Eight items for the Office of V. P. A. A. and V. P. S. A. and nine items for each of the remaining two offices were included. Part III included a total of 34 items. It was our belief that the President's administration and individuals within the administrative offices are crucial to the success of the President's term in office. The administrators serve at his pleasure and, therefore, are ultimately responsible to him. For that reason, this section was developed.

The last part, Part IV, had fourteen items pertaining to general factors of importance to the College. The last two items on this section and the first item included in the preliminary section referred to the renewal of the President and the general feeling of the institution as a place to work. These three items were:
1. Overall I believe the President has served this institution effectively and I would like to see him continued.

2. Overall I believe the President has served this institution effectively but I would recommend we make a change anyway.

3. In general, how do you feel about this institution?
   a. It is a very good place for me.
   b. It is a fairly good place for me.
   c. It is not the place for me.
   d. I have no feeling about this institution.

The Preliminary Section, which included Item 3 mentioned above, asked the respondent to supply general identifying data. That included faculty status, non-teaching professional, student, and student class, rank, membership in one of five faculties and years of employment at the College.

The questionnaire developed is as follows:
PRESIDENTIAL EVALUATION QUESTIONNAIRE

This questionnaire has been developed to assist in the evaluation of the performance of the President during his term of office. These items have been constructed from a variety of sources including material from other questionnaires related to presidential evaluation, other evaluation statements appearing in print, a statement submitted by the President, and other sources. The questionnaire has been divided into four parts with each part attempting to measure a variety of characteristics and performance criteria. Please take a few moments to complete the questionnaire and return it to your department or unit chairperson, or Alumni Director, who will in turn return it to the College Senate Office. Your prompt response is sincerely requested. Your response will be treated confidentially and with anonymity.
