This catalog is composed of brief descriptions of, and extensive indexes to, federal programs that provide educational benefits to the American public. It includes programs administered by the U.S. Office of Education as well as those administered by other federal agencies. The federal education assistance programs are aimed at all educational levels (preschool through postsecondary). Each program description in this catalog tells the specific type of assistance provided, the purpose for which it is available, who can apply for it, and where to apply. The programs described deal with financial assistance, with the use of federal property, goods, and services, and with technical assistance, counseling, and professional training. The catalog incorporates various indexes, including a public law index, a U.S. Code index, and a beneficiary index listing who is eligible for assistance program support. (Author/DS)

The U.S. Commissioner of Education, in accordance with the congressional directive set forth in title IV: General Provisions Concerning Education, of Public Law 90-247 as amended by Public Law 91-230, Section 413, has compiled this catalog based on the Catalog of Federal Domestic Assistance, which is issued annually by the Office of Management and Budget (U.S. Government Printing Office, Washington, D.C. 20402). The indexes have been designed to help the potential beneficiary find and take advantage of all available Federal education assistance programs.

The information contained in the catalog is subject to change, especially in the structure of programs and level of funding. Users of the catalog should therefore check with administering units for current information on specific programs.

INTRODUCTION

The Catalog of Federal Education Assistance Programs is composed of brief descriptions of, and extensive indexes to, Federal Programs which provide educational benefits to the American public. It includes all programs administered by the U.S. Office of Education as well as programs administered by other Federal agencies in support of educational services, professional training, or library services available to the general public.

Each program is described in terms of the specific type of assistance provided, the purpose for which it is available, who can apply for it, and where to apply. The Federal offices to contact for additional information on each program are identified.

The catalog includes various programs, activities, and services which can be requested or applied for by a State or States; territorial possession; county; city; other political subdivision, grouping, or instrumentality thereof; any domestic profit or nonprofit corporation, institution, or individual, other than an agency of the Federal Government. It includes:

- Grants, loans, loan guarantees, scholarships, mortgage loans, insurance, and other types of financial assistance.
- Provision of Federal property, facilities, equipment, goods or services, including the donation of surplus real and personal property.
- Technical assistance, counseling, and professional training.

The catalog does not include:

- Benefits or assistance available only to current employees of the Federal Government, either civilian or military.
- Federal procurement or contracting which is normally conducted through solicited competitive bidding.
HOW THE CATALOG IS ORGANIZED

The catalog provides seven different indexes to help the user identify Federal programs that provide the type of assistance he or she is seeking. Each program shown on a program description page is identified by a unique number, e.g., 13.430.

Several indexing techniques are utilized. Some are based on assigned descriptors. Others apply the idea that the actual word appearing in the program description is the word a user expects to find in the index. In addition to the indexed word, some of the context surrounding the word is shown so that the user may glean some insight as to how the word is used for each given citation of a program. Program citations are given in terms of the program identification number.

The key-word indexes used for the Program Name index and the General Index deserve a few words of explanation.

In the General Index, the indexed words or phrases are shown alphabetically in the center of each page; to the left and right of each indexed word or phrase is the context in which it appears in the program description. This combination of indexed word and context makes it easier for the user to decide which of the many references to a given word is of particular interest to him.
The following example of a key-word-in-context index illustrates its general features:

- Study at institutions of higher education .................................................. 13.463
- To those institutions of higher education able to demonstrate an .................................. 16.511
- Under Title IX-B of the Higher Education Act (doctoral level) .................................. 13.462
- Assist institutions of higher education and library .................................................. 13.468
- Institutions of higher education and other eligible .................................................. 13.406
- Institutions of higher education, at least a six-month .................................................. 13.418
- In institutions of higher education by providing financial .......................................... 13.518
- Personnel through higher education (including police) .............................................. 16.504
- Science, mathematics, history, civics, geography, economics ..................................... 13.483
- Series of food away from home of the consumer price index. For .................................. 10.555

- Needs of americans in homes and schools ................................................................. 13.413
- And teachers in hospitals and related institutions, in ..................................................... 13.358

In the Program Name Index, the key-word is set forth first, after which the programs in which it appears are listed in alphabetical sequence.

The Beneficiary Index is based upon codes assigned by the Office of Management and Budget (OMB); these are suggestive rather than comprehensive.

- PROGRAM DESCRIPTIONS—This portion of the catalog contains descriptions of the Federal domestic assistance programs related to education. It is arranged in program number sequence, assigned in blocks by agency.

- INDEXES—

  Program Name Index (key-word-out-of-context) list alphabetically each program by name. Each program appears in this index under each significant word in its name.

  Authorization Index cites assistance programs according to the name of the act that authorizes each program.
Public Law Index lists assistance programs according to the Public Law that authorizes each program.

U.S. Code Index lists assistance programs according to the U.S. Code citation of the act that authorizes each program.

Administering Agency Index lists alphabetically each administering agency by name, citing the range of assistance programs over which each has jurisdiction.

Beneficiary Index lists under special descriptors those beneficiaries eligible for assistance programs.

General Index (key-word-in-context) lists key words and phrases from selected portions of each assistance program description to provide a comprehensive general index to complement the more specific indexes.

NOTE: Appendixes or programs referred to but not included in this catalog may be found in the Catalog of Federal Domestic Assistance, from which the program information and numbers were drawn.

10.552 SPECIAL FOOD SERVICE PROGRAM FOR CHILDREN
(Nonschool Food Program)

FEDERAL AGENCY: FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

OBJECTIVES: To assist States through cash grants and food donations, to initiate, maintain, or expand nonprofit food service programs for children in service institutions and to provide nutritious meals to needy children of both preschool and school age.

TYPES OF ASSISTANCE: Formula Grants; Sale, Exchange, or Donation of Property and Goods.

USES AND USE RESTRICTIONS: Federal funds are made available for disbursement to eligible institutions (day-care centers, settlement houses, recreation centers, and day camps) for food purchased for up to 3 complete meals and 2 supplemental meals daily. Additional funds, if justified, are available to assist service institutions to buy or rent necessary equipment to enable them to establish, maintain, and expand food service. Institutions approved for participation must operate a nonprofit food service for all children regardless of race, color, or national origin; serve meals which meet minimum requirements as prescribed by the U.S. Department of Agriculture; and supply free or reduced price meals to children unable to pay the full charge. Such recipients will be designated on a uniform, equitable basis by the service institution, without being identified or discriminated against in any way; except that supplemental food shall not be approved for reimbursement if the service institution also participates in the special milk program for children.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Public and nonprofit private institutions such as day-care centers, settlement houses, or recreation centers that provide day care for handicapped children, children from low income areas, or from areas with many working mothers.

Beneficiary Eligibility: Handicapped children and children from low-income families who are receiving day care in participating institutions.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: Formula grant. Federal funds are apportioned to States to provide assistance to participating service institutions. Any funds made available by the State agency or the Food and Nutrition Service regional office, where applicable, to service institutions for the purchase or
PROGRAMS

rental of equipment shall be upon the condition that the service institution shall bear at least one-fourth of the purchase or rental cost of equipment financed. Each State shall be apportioned not more than $50,000, as a basic grant. In addition, from the funds remaining after the basic grants have been made, each such State shall be apportioned an amount which bears the same ratio to such remaining funds as the number of children in that State aged 3 to 17, inclusive, in families with incomes of less than $3,000 per annum bears to the total number of such children in all such States.

Length and Time Phasing of Assistance: For the period covered by the agreement, the act authorized the program on a 3-year pilot basis beginning with fiscal year 1969. The program has been extended through FY 1975.

FINANCIAL INFORMATION:

Account Identification: 05-84-3539-0-1-604; 05-81-5209-0-2-604.

10.553 SCHOOL BREAKFAST PROGRAM

FEDERAL AGENCY: FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

OBJECTIVES: To assist States in providing nutritious breakfasts for school children, through cash grants and food donations.

TYPES OF ASSISTANCE: Formula Grants; Sale, Exchange, or Donation of Property and Goods.

USES AND USE RESTRICTIONS: Federally appropriated school breakfast program funds are available to reimburse participating public and nonprofit private schools, of high school grade or under, for breakfasts, meeting the nutritional requirements prescribed by the Secretary of Agriculture, served to eligible children. Participating schools are reimbursed at rates not less than those shown in the Formula and Matching Requirements Section. The rates of reimbursement are adjusted on a semiannual basis to reflect changes in the series of food away from home of the Consumer Price Index. For the period July 1 - December 31, 1974, the rates of reimbursement are 8.75 cents for all breakfasts, an additional 16.50 cents for each reduced price breakfast and an additional 22.00 cents for each free breakfast. In cases of severe need, a payment of up to 40 cents and 45 cents may be made for each breakfast served to children qualifying respectively for a reduced price and a free breakfast. All participating schools must agree to supply free and reduced price meals to eligible children, and to operate the program on a nonprofit basis for all children without regard to race, color, national origin, or the ability to pay.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Public or private schools which are exempt from income tax under the Internal Revenue Code, as amended. Primary consideration is given to schools drawing attendance from areas in which poor economic conditions exist, schools to which attending children must travel long distances daily, and schools in which there is a special need for improving nutrition and diet of children of working mothers or from low income families. Other schools may participate if sufficient funds are available. Public Law 92-433 opened the program to all schools regardless of economic conditions, beginning in fiscal year 1973.

Beneficiary Eligibility: All children attending schools in which the breakfast program is operating may participate. Breakfast is served free or at a reduced price to children who are determined by local school authorities to be unable to pay.
PROGRAMS

to pay the full price. Children who are able to pay the full price are expected
to do so.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: Federal funds are made available for
breakfast assistance in accordance with Section 4 of the Child Nutrition Act
on a performance basis by (1) multiplying the number of all breakfasts served
during the fiscal year by a national average payment, (2) multiplying the
number of breakfasts served free to eligible children by a national average
payment for free breakfasts and (3) multiplying the number of reduced price
breakfasts served to eligible children by a national average reduced price
breakfast payment. The national average payment for breakfasts served to
eligible children shall be not less than 8 cents for all breakfasts, an additional
15 cents for each reduced price breakfast, and an additional 20 cents for each
free breakfast.

TYPES OF ASSISTANCE: Formula Grants.

USES AND USE RESTRICTIONS: Cash assistance to schools for purchase of equipment for storing, preparing, transporting, and serving food to children, up to 100 percent of the cost of such equipment for schools without food service that are especially needy. Federal funds are available to assist schools drawing attendance from areas in which poor economic conditions exist to purchase equipment needed to establish, maintain, and expand food services. Formula and Matching Requirements: Fifty percent of the total funds available are apportioned based on the number of lunches served which met meal requirements for the preceding fiscal year as a percentage of the national total for such meals under Section 4 of the National School Lunch Act. The remaining 50 percent are apportioned based on the number of children in schools without food service in each State as a percent of children in schools without a food service in all States. During any fiscal year, payments made by FNS to each State agency, and the payment made by FNS to the nonprofit private schools in any State, shall be upon the condition that at least one-fourth of the cost of all equipment financed under this part shall be borne from sources within the State. Funds from sources within the State shall include any source of State or local funds other than Federal grants and children’s payments obtained by the school through any of its nonprofit food services.
LENGTH AND TIME PHASING OF ASSISTANCE: Assistance is granted on a fiscal year basis. If, however, in any fiscal year the amount of available funds is insufficient to pay the entire requested and justified amount of assistance, the administering agency may approve the entire amount on the condition that the funds will be paid to the school food authority over a period not to exceed three consecutive fiscal years.

by statutory formula for the purpose of capitalizing a student
loan fund. Funds on deposit can only be used for loans to
eligible students pursuing a full-time course of study; for
costs arising from litigation in connection with the collection
of any obligation to the fund and interest; and for making
transfers to the Health Professions Scholarship Fund. Loans
are made to students to cover tuition, fees, books, equip-

school. Loans made to any student may not exceed $3,500
for any one academic year.

in the United States, Puerto Rico, the Virgin Islands, or Guam for other than
temporary purposes and intends to become a permanent resident there-

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: Allotment of funds based on statutory
formula which takes into account the ratio each school's enrollment bears to
the enrollments of all schools making application for funds. Two methods of
capitalizing loan funds are authorized: Federal Capital Contribution and
Federal Capital Loan. Currently, funds are available only under the Federal

PROGRAMS

Capital Contribution plan. Under the Federal Capital Contribution method, a school must match Federal Capital Contribution with an amount equal to one-ninth the allotment so that at all times the school's deposit in the fund represents at least one-tenth the total amount of funds on deposit. Under the Federal Capital Loan method a school must execute a promissory note for the repayment of principal and interest on the Federal Capital Loan.
