One of a series of 12 in the secretarial/clerical area, this booklet for the vocational instructor contains a job description for the receptionist, a task list of areas of competency, an occupational tasks competency record (suggested as replacement for the traditional report card), a list of industry representatives and educators involved in developing the project, and statements of competencies and a separate competency record for the area of human relations and personal development. Job duties listed for the receptionist principally concern dealing with people, receiving callers and making appointments, placing and receiving telephone calls, handling mail, and maintaining internal communications. Areas of competency in human relations and personal development are included (communication, self-development, personal appearance, office attitude, social and business etiquette, and job-seeking skills). Statements of competencies may be graded at either the secondary or postsecondary level, and the competency records are intended to follow the student through vocational training at both levels. Tasks in the task list are cross referenced with those in the booklets for other secretarial/clerical jobs. (MF)

CROSS REFERENCE SYSTEM

Task lists in the secretarial/clerical area include: office services aid, typist, general office/typist, receptionist, secretary/non-shorthand, secretary/shorthand, educational office personnel, medical secretary, legal secretary, administrative assistant, correspondence specialist, correspondence supervisor, and data entry operator. All Task Lists contain an add-on list of human relations/personal development qualities desirable for graduates seeking secretarial/clerical positions.

The task lists for office services aid, typist, general office/typist, receptionist, secretary/non-shorthand, and secretary/shorthand are referred to as "GENERAL" secretarial/clerical lists and all additional lists are referred to as "SPECIALIZED" lists.

The * and the numbering system is the key to cross-referencing for the specialized lists. The specialized lists are compared to the lists for typist, general office/typist, receptionist, secretary/non-shorthand, and secretary/shorthand. When there is something on the specialized list that is not on the general lists a * appears. The position of the * indicates the level of change made in the AREA OF COMPETENCY, the Statement of Competency, or the Task. For example, if the * appears before the AREA OF COMPETENCY the entire AREA OF COMPETENCY is new. If the * appears before a Statement of Competency or Task then only that Statement or Task is new. If the * appears before a word then only that word is new or different. It may be necessary to refer to more than one general task list when comparing statements of competency.

The Task List for Data Entry Operator is not referenced to the general lists because the tasks are unique in that area and need specialized training. The Task Lists for Correspondence Specialist and Correspondence Supervisor are not referenced to the general lists because tasks in these areas are applied to a word processing/correspondence center and the procedure for completing the tasks is different from the tasks in the general lists. The Task List for Correspondence Supervisor is cross-referenced as an add-on to the Correspondence Specialist Task List.
RECEPTIONIST

Industry representatives have made several suggestions to students who will seek employment upon completion of this occupational program. These suggestions are general in nature and describe the kind of individual whom they wish to hire. A competent worker is one who satisfactorily performs the tasks listed in this document and one who is mature and responsible. It is important that an employee have a positive attitude toward work and that he/she continues to learn on the job.

One way an employee continues to learn is through reading articles in professional journals and publications. It is very important for a person in this position to intelligently communicate with employers, associates, the general public, and transfer a positive image of the company to everyone.

The employee who is an asset to the business assumes responsibility for communications (both written and oral) that leave the office. This includes using correct grammar and punctuation, spelling words correctly, and proofreading carefully so that neat and accurate corrections are made. Accuracy and confidentiality are extremely important in all secretarial/clerical occupations.
Receptionist

The basic duties of the receptionist fall into three main categories of dealing with people: person-to-person contact, telephone duties, and internal communications.

The receptionist must have the ability to deal with people and present a positive company image.
The following Task List gives you, the vocational instructor, recommendations about what your students should be able to do when they take a job as a RECESSIONIST. It was developed by a working committee of secretarial/clerical instructors and industry representatives throughout the state of Minnesota.

The Task List on the following pages includes the Tasks and the AREAS OF COMPETENCY recommended for a graduate of the general secretarial/clerical occupational program.

As you utilize this task list, you will need to continue working with your local advisory committee and with other instructors in your geographic area. Judgments must be made, by you, concerning the amount of time to spend in teaching various tasks, the conditions surrounding the performance of each task and the performance level for each task that will be acceptable.

The COMPETENCY RECORD should follow the student through his or her vocational training in the secondary and/or the post-secondary school. The recommended grading scale is shown on the COMPETENCY RECORD. The COMPETENCY RECORD on the following pages includes ALL the AREAS OF COMPETENCY recommended for a graduate of the Receptionist Occupational Program.
