This document is the fifth in the series, BIBLIOGRAPHIES ON EDUCATIONAL TOPICS (BETS), providing topical searches of ERIC literature in the scope areas of teacher education and health education, physical education, and recreation education. Here, the subject of consumer health is treated bibliographically. Included are topics dealing with the wise selection of health products and services, agencies concerned with the control of these products and services, evaluation of quackery and health misconceptions, health careers, and health insurance. Citations were selected from the two files contained in the ERIC data base: RESOURCES IN EDUCATION (RIE) and CURRENT INDEX TO JOURNALS IN EDUCATION (CIJE). RIE abstracts documents generally unavailable commercially; citations provide, in addition to bibliographic data and the abstract, the document's accession (ED) number and its availability in either microfiche (MF) or "hard-copy" (HC) from the ERIC Document Reproduction Service (EDRS). An EDRS order form with current price schedule is included at the end of this bibliography. When a document is not available from EDRS, an alternate source is given. CIJE indexes articles from educational journals. Annotations are supplied where article titles are not self-explanatory. CIJE articles are not reproduced by ERIC. The reader is referred to the original journals, available in many libraries. (JD)

This document is the fifth in the series, Bibliographies on Educational Topics (BETS), begun by the ERIC Clearinghouse on Teacher Education in 1976 to provide topical searches of the ERIC literature in the Clearinghouse scope areas of teacher education and health education, physical education, and recreation education.

In the three years since the ERIC Clearinghouse on Teacher Education assumed responsibility for acquiring documents in Health, Physical Education, and Recreation, the ERIC data base in these areas has grown to the extent that certain topics now need to be selected and treated bibliographically.

During discussions regarding which of the content areas of health education should be treated bibliographically, it became apparent that consumer health—topics dealing with the wise selection of health products and services, agencies concerned with the control of these products and services, evaluation of quackery and health misconceptions, health careers, and health insurance—is a very timely area. Undoubtedly contributing to the interest in the consumer health area is Public Law 94-317, commonly referred to as "the National Consumer Health Information and Health Promotion Act of 1976," which was passed in June 1976.

Citations were selected from the two files contained in the ERIC data base: Resources in Education (RIE) and Current Index to Journals in Education (CIJE). RIE abstracts documents generally unavailable commercially; citations provide, in addition to bibliographic data and the abstract, the document's accession (ED) number and its availability in either microfiche (MF) or "hard-copy" (HC) from the ERIC Document Reproduction Service (EDRS). An EDRS order form with current price schedule is included at the end of the bibliography. When a document is not available from EDRS, an alternate source of material is given. CIJE indexes articles from over 700 educational journals, and annotations are supplied where article titles are not self-explanatory. Unlike RIE documents, CIJE articles are not reproduced by ERIC in any form; the reader is referred to the original journals, which are available in many libraries.

Actual computer printout pages are used in the reproduction of this publication. Entries are arranged chronologically, with most recent publications listed first, and with Educational Journal (EJ) articles preceding Educational Document (ED) abstracts. The Clearinghouse is interested in reader reactions to this experimental format.

The ERIC computer search on consumer health represents only a portion of the literature available to health educators. Yet, though not comprehensive, the bibliography nevertheless should acquaint health educators with many of the prominent persons in the area of consumer health and serve as a point of departure for further inquiry. The Clearinghouse welcomes and solicits assistance in making the data base in consumer health more comprehensive. Health educators are asked and encouraged to submit documents for evaluation and possible input into the ERIC data base. The reader response page at the end of this bibliography provides information for those interested in contributing their knowledge to the ERIC system.

Examined are the tenets underlying the technical attitudes and perceptions of food technologists and scientists. Usually advances in technology, usually advances in a linear fashion without identifying, secondary effects in social and political realms. Consumerism becomes the public voice in identifying these sociotechnologic effects. (MR)
Determination of Vital Areas of Knowledge Needed for Wise Consumer Use of Health Care Services
Vacalis, T. Demetri Journal of School Health; 44; 7; 390-4 Sep 74
Descriptors: *Questionnaires/ *Health Services/ *Teachers/ *Physicians/ *Consumer Education

The Good Food Books
Christensen, J. A. Media and Methods; 11; 1; 39-40 Sep 74
Descriptors: *Foods Instruction/ *Eating Habits/ *Booklists/ Health Guides/ Consumer Education

Consumer Acceptance of Yale Health Plan
Davie, James S.; And Others Journal of the American College Health Association; 22; 4; 325-31 Apr 74
Descriptors: *Health Services/ *Consumer Economics/ *Community Services/ *Community Attitudes/ Attitudes/ Community Programs
Identifiers: Yale University
This paper deals with consumer acceptance of a health maintenance organization created and operated by a university for the benefit of its community members. (JA)

A Health Survey of Students: II. Satisfaction, Attitudes, and Knowledge
Comstock, Lloyd J.; Slome, Cecil Journal of the American College Health Association; 22; 2; 156-9 Dec 73
Descriptors: *Health/ *Student Problems/ *Surveys/ School Surveys/ College Students/ Consumer Economics
Identifiers: Health Surveys

Consumer Evaluation of a University Dental Health Program for Students
Gaverick, Charles M.; And Others Journal of the American College Health Association; 22; 2; 146-8 Dec 73
Descriptors: *Consumer Economics/ *Dental Health/ *Health Programs/ *Program Evaluation/ Universities
Identifiers: Student Programs/ Consumer Evaluation

The Patient's Bill of Rights: A Significant Aspect of the Consumer Revolution
Quinn, Nancy; Somers, Anne R. Nursing Outlook; 22; 4; 240-4 Apr 74
Descriptors: *Consumer Education/ *Patients (Persons)/ *Medical Services/ *Health Personnel/ State Legislation/ Medical Associations/ National Organizations
Articulate consumer concern for the quality and price of health care is predicted to be a permanent feature of the working environment of health professionals. The American Hospital Association Patient's Bill of Rights is identified and analyzed as an important factor in the consumer revolution. (Author/EA)

Who Should Set Health Priorities?
Bailey, Ann R. Johnston Journal of Extension; 11; 4; 20-27 W 73
Descriptors: *Extension Education/ *Consumer Education/ *Health Education/ *University Extension/ Educational Needs/ Health Needs
Identifiers: *Nominal Group Process
In an attempt to learn whether University Extension can be of use in consumer health education, the author explains how nominal group process is an effective method for determining the perceived health education needs of a small, defined population. (AG)

The Health Maintenance Organization
Lum, Doman Social Work; 18; 5; 16-24 Sep 73
Descriptors: *Health Services/ *Human Services/ *Community Health Services/ *Health Personnel/ *Consumer Education/ Role Theory/ Helping Relationship/ Hospitals/ Community Services
Identifiers: *Health Maintenance Organization
Controversial proposals to establish health organizations could drastically change the delivery of health services. Understanding the issues in this controversy can help professionals in the human services see what is needed in health reform and legislation. (Author)

Wilson, Christine S. Journal of Nutrition Education; 5; 2 Suppl; 161-179 Apr-Jun 73
Descriptor: *Annotated Bibliographies/ *Instructional Materials/ *Nutrition/ *Spanish Speaking/ Consumer Education/ Health/ Reference Materials/ Spanish American Literature

An annotated listing of nutrition education materials and background information for or about Spanish-speaking ethnic groups. Includes printed materials, games, and audiovisual materials on foods, nutrition, consumer problems, and health. (BL)

Health Education in Perspective

Keyes, Lynford L. School Health Review; 3; 4; 19-21 Sep-Oct 72

Identifiers: Consumer Participation

Professional Commitment to Reducing Health Problems

School Health Review; 3; 4; 15-18 Sep-Oct 72
Descriptor: *Health Education/ *Health Services/ *Consumer Education/ Community Involvement/ Training
Identifiers: New York University Health Educators
This is a position paper prepared by a group of New York University health educators containing recommendations for improving health education and services. (JA)

Review of Food Grouping Systems in Nutrition Education

Ahistrom, Antti; Rasanen, Leena Journal of Nutrition Education; 5; 1; 13-17 Jan-Mar 73
Descriptor: Consumer Education/ *Food/ Foods Instruction/ *Foreign Countries/ *Grouping Procedures/ Health Education/ Instruction/ *Nutrition Instruction/ *Systems Approach

Although there are many different approaches to teaching nutrition, food grouping systems have become an almost universal tool. This article is a detailed comparison of food grouping systems in use in 47 countries. (BL)

Consumerism Belongs in the Classroom Too

Radis, Michael W. Teacher; 90; 9; 54-6 May-Jun 73
Descriptor: *Consumer Education/ *Curriculum/ *Health Education/ Purchasing/ *Social Studies
A closer look at television commercials helps children to analyze and discriminate. (Editor)

Report on Government Programs of Health Aid to the Poor and Black

Fabio, Cyril L. Black World; 22; 3; 12-22 Jan 73
Descriptor: Black Community/ *Community Involvement/ Federal Aid/ *Federal Legislation/ *Federal Programs/ Health Facilities/ *Health Programs/ Health Services/ *Policy Formation/ Poverty Programs
Emphasizes the low priorities that the Administration's planners of Health Maintenance Organizations have assigned toward connecting the maldistribution of health delivery and community/consumer participation, and reviews some of the health bills already submitted to Congress. (JM)

Community or Consumer Health Action, An Integral Part of the Comprehensive Health Center

Parrish, Theodore Journal of Environmental Health; 34; 3; 271-277 Nov/Dec 71
Descriptor: Administration/ *Community Health Services/ *Consumer Education/ Health Facilities/ Health Programs/ Integrated Activities/ Program Descriptions

Social Service Enterprises: A New Health Care Model

Teague, Doran Social Work; 16; 3; 66-74 Jul 71
Descriptor: Health Personnel/ *Health Services/ Hospital Personnel/ *Hospitals/ Social Work/ *Social Workers
A consumer relevant and cost effective model is proposed to provide social services within a health care system, though it threatens the status of hospital social workers. The new agency would be separate from the hospital and other health care facilities in a defined service area.

The Black Health Worker and the Black Health Consumer—New Roles for Both

Sellers, Rudolph V. American Journal of Public Health; 60; 11; 2154-2170 Nov '70
Descriptor: *Administrative Organization/ Community Leaders/ *Health Personnel/ *Health Programs/ Models/ *Negro Attitudes/ Professional Recognition/ Program Evaluation/ *Race Relations

Identifiers: Elementary Secondary Education Act Title III/ ESEA Title III

This curriculum guide for nutrition education grade 1, was designed to incorporate knowledge of thirteen concepts into the child's decision-making processes as a food consumer. These concepts, as covered by the guide, are: affecting bodily well-being through nutrition; affecting dental health through nutrition; models for diet selection; controlling bacterial growth in foods; how to keep foods safe temporarily; treating foods to prolong safe usage; ethnic food traditions; family food customs; effects of peer influence on food habits; effects of advertising on food choices; supply of money affects food choices; accessibility of food affects food choices; preparing foods in different ways. Each concept is taught in one lesson, which can usually be accomplished in about a half hour. Several duplication masters are included. (RE)
The student manual for high school level special needs students was prepared to acquaint deaf students with the various types of insurance protection that will be available to them in their future life. Seven units covering the topics of what insurance is, automobile insurance, life insurance, health insurance, social security, homeowner’s insurance, and other kinds of insurance are presented. Each lesson was carefully written for easy reading and comprehension and provides information, vocabulary, and assignment questions for the specific topic covered. (LU)

ED116835 RC008904
Serving Migrant Families, 1975.
Oliver, Barbara, Ed.
North Carolina State Advisory Committee on Services to Migrants, Raleigh.
Publ. Date: 75 Note: 85p.; For related document, see ED 080 268

Descriptors: *Agency Role/ Directories/ Educational Programs / Employment Services/ Health Services/ Human Services/ Migrant Workers/ Outreach Programs/ Social Services/ State Programs

Identifiers: *North Carolina

The directory describes services provided to migratory agricultural workers and their families, through the governmental and nongovernmental agencies interested in and responsible for their well-being. Agencies are grouped into: (1) United States government agencies, (2) North Carolina State government agencies, and (3) private organizations. Among the services provided by the various agencies are: adult basic education; camp inspection; consumer education; counseling; crew leader connection and training; day care; family planning; health services; home care instruction; job development, training, and placement; legal services; self-help housing loans; and emergency transportation. Although the services appear to be all-encompassing, most have limitations based on such factors as the definition of migrant, jurisdiction of serving agency, funding requirements and limitations, availability of staff, and limitations to indigenous population. Lists of members of the State Advisory Committee on Services to Migrants and contact persons for the various agencies are provided. An index of services available to migrants is included. (NQ)
Guidelines for Health Care Volunteers.
Fales, Ann W.; Leppert, Alice M.
Church Women United, New York, N.Y.
Publ. Date: 74
Note: 46p.
Available from: Church Women United, Service Center, Box 3785, Cincinnati, Ohio 45237 ($2.00)

Descriptors: *Community Health Services/ Delivery Systems/ Health Personnel/ *Health Services/ Program Administration/ Program Guides/ *Program Planning/ *Volunteers/ *Volunteer Training

The complex issue of health care delivery is of continuing concern among health care volunteers. Trends in health services that affect the volunteer include those resulting from government funding policy; changes in the structure of the health professions; increasing consumer interest in health care; and the growing demand for health care information.

Volunteer roles include direct service, administration, and policy setting. The planning and implementing of community health volunteer programs can follow one of two models. The first includes six steps: exposure-reflection; problem identification, analysis, and data gathering; goal setting; strategy and planning; implementation; and evaluation. The second focuses on the broad situation but can use the same steps as the first. The attitude to volunteer work should be that of professional commitment to the particular job and should be accompanied by a commitment to interpersonal skills in working with others and also advocacy for community health. Administering a community health care program involves: recruitment; using the available skills of the volunteers; orientation of volunteers; task design, assignment, and scheduling; and supervision. A form for community survey for a comprehensive approach to health concerns is included. (EC)

As the third volume in a five volume series of position papers on American Indian education, this publication presents eleven position papers on special programs. Papers are titled as follows: (1) "A Vision: The Warrior-Scholar-Community Activist, The End Product of Indian Studies"; (2) "The Relation of Indian Studies to the University Structure"; (3) "The Importance of Indian Studies to Interracial Understanding"; (4) "Vocational and Technical Education Training Model for Indian Groups"; (5) "An Indian View of Vocational-Technical Education"; (6) "The Need for Consumer Education Among Indians"; (7) and (8) "Training Needs of Indian Parent Advisory Committees" (two different articles on the same topic); (9) "Health Education"; (10) and (11) "A Variation Plan for Indian Communities". A major theme running throughout these papers is that of Indian control of Indian destiny as relative to all aspects of Indian education. Major consideration is also given to the importance of the relationship between economic development and educational development in the various Indian communities (urban, rural, reservation, etc.) (JC)
A Study of the Relationship Between the Level of Nutritional Consumption and the Education, Income, and Family Size of Selected Poor Families in Atlanta, Georgia.

Davis, Flora Powell

Publ. Date: Jul 75 Note: 125p.; Ph.D. Dissertation, Walden University

EDRS Price MF-$0.76 HC-$5.70 Plus Postage

Descriptors: Consumer Education/ *Doctoral Theses/ Eating Habits/ Economic Disadvantaged/ *Education Background/ *Family Income/ Family Life/ Family Life Education/ Family Resources/ Food/ Food Standards/ Health Education/ *Nutrition/ Nutrition Instruction/ Socioeconomic Status

Identifiers: *Family Size/ Georgia (Atlanta)

The stated objectives of this study were to determine: (1) the differences in knowledge of nutrition, of income, and of family size in the upper and lower strata families; (2) the shopping practices of families; (3) average weekly food expenditures; (4) mean educational level; and (5) differences in mean weekly food expenditures -- a comparison of the national norm mean and the standard set for this study.

Findings reveal that 33 percent of the families with adequate money expenditure on food had inadequate diets, while 77 percent of the families require larger expenditures to provide adequate diets. Families with the lowest per capita incomes were found to have the most inadequate diets. Most diets were below recommended allowances of fruits, vegetables, milk, bread, and cereals. Inadequate nutrition was stated to be related more to lack of use of knowledge than to lack of knowledge itself, and to family size rather than to amount of money income. Recommendations included that further research be conducted with these families regarding dietary behavior and the application of nutrition education. (Author/AM)

ED111812# SP009505

Disease Control and Health Education and Promotion, 1975. Hearings Before the Subcommittee on Health of the Committee on Labor and Public Welfare United States Senate Ninety-Fourth Congress.

Publ. Date: May 75 Note: 1,306p.

Available from: Publications, Committee on Labor and Public Welfare, Room 4230 Dirksen Senate Office Building, Washington, D.C. 20510 (no price quoted)

Document Not Available from EDRS

The hearings cover four bills, three of which deal with revision or amendment of the Public Health Service Act. The fourth concerns (1) the establishment of a National Health Center for Health Education; (2) health education to reduce illness and death, and to moderate self-imposed risks; and (3) consumer health education and preventive medicine. The text of each of the four bills is presented in this report. In addition to the presentation of testimony and supportive documents such as articles, publications, and communications, the document also contains appendices on disease control, and on health education and promotion. Habits/ Economic Disadvantaged/ *Educational Background/ *Employment/ *Family Life/ Family Life Education/ Family Resources/ Food/ Food Standards/ Health Education/ *Nutrition/ Nutrition Instruction/ Socioeconomic Status

Identifiers: *Quackery

This guide to consumer health contains two parts, the first of which covers consumerism, cosmetics (aids for skin problems, dandruff, deodorants, denticifcates), food shopping, and clothes shopping. Part 2 discusses health quackery, including arthritis quackery, and mail-order "doctoring", food quackery, weight-reducing products, and how to recognize health quackery. It also deals with over-the-counter drugs, choosing a doctor, and food fallacies. Both parts 1 and 2 include lists of things to discuss and do, suggestions for special research, and a test on the material covered. Resource materials, behavioral objectives, and page notes are included for teachers using this guide. (MK)

Beder, Harold W.; Dankenwald, Gordon G.

Columbia Univ., New York, N.Y. Center for Adult Education.

Publ. Date: Nov 74 Note: 42p.; Not available in hard copy due to marginal legibility of original document

Descriptors: *Adult Education/ Community Development/ *Community Health/ Community Health Services/ *Community Involvement/ Community Programs/ Community Surveys/ *Consumer Education/ Health Education/ *Program Evaluation/ Questionnaires/ Success Factors

Identifiers: *Health Consumer Education Program, CEP

The Health Consumer Education Program (CEP) was designed to foster 'maximum feasible participation' of the people in planning, administering, and implementing community health care programs through adult education. This report, an analysis and evaluation of CEP, describes the program, presents data on intended and current practice, analyzes discrepancies and discusses recommendations using data obtained from interviews with key CEP staff, community participants who served as course coordinators, evaluation sheets completed by all course participants, questionnaires (Appendices A and B) mailed to course participants, observation of a few classes, and analysis of documents (proposals, progress reports, course outlines). The community participation on the steering committees in all four low-income areas created a broad range of learning experiences and articulated the needs of the communities. Comparing the summary of program intent with the survey results from the questionnaires (115 responses, reflecting a 34.5 percent response rate) and interviews, it was found that there were no discrepancies between the goals and actual practice. Recommendations pointed out several weaknesses: the need to recruit more community leaders, more emphasis on application of skills and knowledge, more technical assistance for projects, and the institution of continuous program evaluation from the inception of the progr.s. (JB)
An Inventory of Health Manpower Models: Volume II.

Doyle, Timothy C.; Enberg, Janice R.

Health Resources Administration (DHEW/PHS), Bethesda, Md.

Report No.: DHEW-(HRA)-75-19

Publ. Date: May 74
Note: 313p.; For Volume One, see CE 003 235

Descriptors: *Delivery Systems/ Evaluation/ *Health Personnel/ *Health Services/ Human Resources/ *Manpower Needs/ Medical Services/ *Models/ Nurses/ Physicians

Volume Two of the report presents an inventory of 56 models directly or peripherally related to health manpower supply and requirements problems. The report is organized into four main sections: (1) a description of the contents of the inventory, methods used in its development, model inventory descriptors, and model selection rationale; (2) a discussion of the health manpower model classification scheme used to categorize the models; (3) the inventory itself; (4) four indexes to assist in locating individual models: name of developer, data source, health manpower model bibliography, and input and output variables for each model category. Each description includes purpose and sponsor, scope and subject, model assumptions, model structure, inputs and outputs, computer characteristics, and modeling techniques employed. The majority of the models were found to have been developed using some form of regression analysis. The remaining models are a mixture of organization models or descriptive models. Classification by subject area indicates over one-half concerned with health care delivery organizations, less than one-half with health manpower resources and consumer service behavior. Of the manpower models the majority are concerned with physicians or nurses. (Author/SA)
A Research and Development Project to Design a System and Supporting Materials to Provide an Adult Performance Level (APL) in Four Major Sub-Areas for Adult Basic Education.

In accordanCe with the national aims for adult literacy programs, an Adult Performance Level (APL) project was devised whose primary goal was to produce sequential tests of APL objectives derived from the requirements of adult living in four major areas: reading, writing, computation, and general knowledge. To document these abilities and skills that minimally performing adults must have and to identify characteristics distinguishing the successful from the unsuccessful functioning adult, field interviews were conducted with 49 individuals in 25 State and Federal agencies and foundations whose work related to minimally performing adults. A nationwide field test was conducted which, together with the earlier interviews and a literature search, enabled project personnel to identify nine general areas in which minimally performing adults must be able to function. Objectives and tasks were assigned to each of the nine areas. The general knowledge areas are: occupational knowledge, consumer economics, health, community resources, government and law, and transportation. Basic skill areas are: communication skills, problem solving techniques, and interpersonal dynamics. (A 10-page bibliography is included.)

This book contains methods and suggested activities for teaching health to elementary school pupils through many new kinds of enriched educational experiences. It is directed mainly at four groups: (a) college students who are preparing to be elementary school teachers, (b) those studying to become health education specialists, (c) the teacher who is looking for more productive ways to teach health to children, and (d) administrators and school health personnel. Part 1 contains materials which show the need for improved health programs in elementary schools. Part 2 discusses the total school health program and points out ways for teaching health more effectively. In part 3 new and creative teaching methods are discussed. Part 4 contains specific suggestions and course outlines for teaching nutrition, dental health, body growth, structure and function, safety; mental health, communicable diseases, drugs, tobacco and alcohol, family life and sex education, and consumer education to students in grades K-6. The appendix contains a list of sources of free and inexpensive teaching aids, recommended health textbooks for children, and a list of helpful teaching materials and guides to special media. This report focuses on the Study of Allied Health Education (SAHE) project that was established for the purpose of designing an action plan on a national scale for allied health and nursing education. The specific task of the project was the determination of the role that community and junior colleges might fulfill in increasing ambulatory care in the United States. The study involved regional workshops, national conferences, special interviews, questionnaires, and a literature search. This report presents the major findings and recommendations resulting from those activities. The chapters of the book are: 1. SAHE Objectives: Definition of Primary and Ambulatory Care; 2. Objectives—Student—Related Issues; Curriculum Development and Quality of Instruction; Articulation, Teacher Preparation, and Continuing Education; Administration and Administrative Costs; Manpower Information; Emerging Health Care Programs; 2. SAHE Procedures: National Advisory Committee; National Professional Associations Conferences; Regional Workshops; Questionnaire: Clinical Instruction; Continuing Education and Consumer Health Education; 3. SAHE Findings: Priorities for SAHE Objectives; Literature Search; Conference and Workshops; SAHE Questionnaire; Status of Clinical Instruction; and Continuing Education and Consumer Health Education; 4. SAHE Recommendations; Targets of Opportunity; and 5. SAHE Projections. Nine appendixes, three figures, and 16 tables are included. (DB)

Descriptors: Audiovisual Aids/ *Curriculum Guides/ *Grade 8/ *Grade 11/ *Health Education
The guide covers the following subjects: Mental health, drug and substance abuse, alcohol, smoking, disease prevention and control, nutrition, consumer health, environmental and community health, and safety and first aid. The contents are divided into 10 areas according to the subject matter listed above. The contents are further divided according to grade. The guide has a spiral-bound paper cover. The objective is to present effective health education programs to help students make sound choices of health behavior. Suggested activities are included for each topic. Audiovisual aids and selected references for teacher and student are listed according to subject areas. There is no instrument for assessing student progress. (PD)

Through a series of sequential statements, the booklet reconstructs the development of the Individualized Instruction in Family Living Project. Intended for elementary and secondary level students, the project's main objectives are: (1) to improve student self-image and understanding; (2) to acquaint students with value clarification; and (3) to teach goal setting techniques. The program, designed by a group of professionals and interested citizens, consists of the development of classroom curriculum materials, analyzed and developed by educators, and the establishment of a teacher training program. A survey of teachers, parents, and students determines questions to which students need answers. Information which answers these questions is arranged into individualized programs and packages called unipacs, which are made available to school and community. In an effort to share with others what they have learned, the project developers will visit and consult with individual school districts. Several available publications which treat the project are listed. The titles of the 29 unipacs with designated grade level are also listed. (Author/RM)

The family health guide, part of a consumer and homemaking education unit, was developed in a 3-week curriculum workshop at Winthrop College in June 1972. The identified objectives and learning experiences have been developed with basic reference to developmental tasks, needs, interests, capacities, and prior learning experiences of students. The concepts examined in the advanced unit for grade 10 include: family health factors, major health problems, home care of the sick, health services and costs for the family, safety measures in the home, and career opportunities in health. Under each concept, three columns list behavioral objectives, learning and evaluation experiences, and teaching resources. (AG)

Workshop on Patient Education Programming: Proceedings
(Mariottsville, Maryland, April 30-May 3, 1973).

Health Resources Administration (DHFW/H5), Bethesda, Md.;
Maryland State Dept. of Health and Mental Hygiene, Baltimore.
Report No.: DHFW-HRA-74-4002
Pub. Date: 73 Note: 56p.

Identifiers: Patient Education

The workshop was attended by 72 participants representing a variety of health agencies. The disciplines they represented included medicine, nursing, hospital, and public health; psychology; nutrition and dietetics; social work; rehabilitation; occupational, physical, and speech therapy; volunteer and juvenile service work; counseling; training; health education; and health advocacy. The goal of the workshop was to provide guidelines and assistance for the development and refinement of specific patient education plans in a variety of health settings in the State. Eight speeches were presented concerning the concept of patient education, program planning, communication, educational methods and materials, cost effectiveness and evaluation. Group sessions were conducted in between plenary sessions. Each of the 23 multidisciplinary teams developed plans for selected target populations. Summaries of their reports indicate: the desirability of using a variety of educational methods and materials, the need for staff training, and the techniques for evaluating the success of the educational efforts. Health Curriculum Guide, Sixth Grade.
Syosset Central School District 2, N.Y.
Publ. Date: 72 Note: 35p.

GRADES OR AGES: Grade six. SUBJECT MATTER: Health education. ORGANIZATION AND PHYSICAL APPEARANCE: This guide is bound in a spiral binder and illustrated with drawings. It is divided into five "strands" or topics: Physical Health; Sociological Health Problems; Mental Health; Environmental and Community Health; and Education for Survival. There is also a bibliography. Each strand contains a listing of important concepts and suggested discussion highlights, activities, and resources. OBJECTIVES AND ACTIVITIES: Activities are listed for each strand. Topics that are highlighted in this last guide in the series are nutrition, hearing and vision testing, the history of man's effort to combat disease, noise and air pollution, and ways in which society protects the consumer. INSTRUCTIONAL MATERIALS: Materials are listed in each strand and in the bibliography under the heading "Resources." STUDENT ASSESSMENT: No provision made. OPTIONS: None given. (JA)

of Health, Education, and Welfare that hospital costs would not be covered by the Migrant Health Program and inadequate funding has made it difficult to provide services that are essential to a comprehensive care facility. It was found that 4 areas need legislative attention: the inadequacy of the funding level, the need for earmarked hospital funds, the need to reaffirm Congressional commitment to consumer participation, and the need to develop a strategy for integrating migrant workers into a larger health care delivery system if such should develop. This publication contains 24 objectives and related evaluation items for grades K-6. The collection is organized into the following categories: daily food choices, food processing, consumer education, nutrients from food, and disease, storage preparation methods, food in man's environment, and table manners. Three elements--the objective, six measurement items, and means of judging the adequacy of student responses--are included for each objective in the collection. Each objective is stated in operational terms and is identified by a category and a sub-category which serve to identify it. The behavioral aspect as well as the content of each objective have been carefully selected as a means of requiring the student to master basic concepts of nutrition. The complete collection requires acquisition of a wide range of behaviors; some objectives require only knowledge recall, while others require the student to apply his knowledge and/or analyze given problems. (Author)

This document summarizes the proceedings of the National Student Conference on Health Manpower, Chicago, March 1972. Following a staff report on the conference proceedings, student research papers on workshop topics are presented. These papers concern health profession recruitment and retention with consideration of general minority and sex-biased problems, the consumer-community relationship and provider responsibility, regulations and restrictions as health manpower barriers, health team alternative practice models, a summary of interdisciplinary student health projects, health manpower 1967-1972, health professions mobility, technologic change and medicine, health professions education, and maintaining quality of care in the health professions. Student workshop recommendations and conference caucuses statements are included. (MWM)

The Consumer and His Health Dollar: One of a Series in Expanded Programs of Consumer Education.
Publ. Date: 72  Note: 80p.

Descriptors: *Consumer Education/ Economic Education/ *Health Education/ *Health Guides/ Secondary Grades/ Teaching Guides/ Units of Study (Subject Fields)

Designed as one of a series of modules in consumer education, this booklet focuses on health problems from the consumer angle. It is designed to complement the comprehensive health strands published by the New York State Education Department, and to be used as materials for an elective course. The module is constructed so that the student can achieve the following objectives: be aware of major achievements and unsolved problems in the health field; know how to seek qualified medical care services; learn to eat wisely, and avoid the use of unnecessary food supplements; develop a healthy skepticism about advertising claims for over-the-counter drugs; cut costs in shopping for drugs; become familiar with government programs for medical care services; state how Federal agencies operate to provide consumer protection; use sources of consumer information in the health field; and give thoughtful consideration to proposals now being offered for change. Spanish-Language Health Communication Teaching Aids. A List of Printed Materials and Their Sources.
Isquith, Robert N., Comp.; Webb, Charles T., Comp.
Health Services and Mental Health Administration (DHHEW), Bethesda, Md. Office of Communications and Public Affairs.
Report no.: DHHEW-H-72-19
Publ. Date: Jul 72  Note: 61p.

Over 450 Spanish printed materials about the various aspects of health and their sources are listed in this publication. Italics are used to indicate either the translation of Spanish titles or the titles of English-language editions. Publications with bilingual texts are shown by hyphenated titles. Information about the distribution of materials and their prices, if any, is given for most of the materials. Some of the health areas discussed in these materials are alcoholism, allergies, cancer, dental health, drugs, prenatal care and infant care, tuberculosis, nutrition, diabetes, health education, children's health, consumer education, environmental health, family planning, and venereal disease. The materials are indexed by subject area. (NQ)

Prospects for Simulation Gaming in Health Planning & Consumer Health Education.
Doob, P. A.
Publ. Date: 72  Note: 78p.

Descriptors: Comprehensive Programs/ *Health/ Health Education/ Human Services/ Instructional Media/ *Management Games/ *Models/ *Planning/ *Simulation/ Teaching Techniques

This paper explores a technique, simulation gaming, used by management and by planning educators in several fields for approaching some of the elements of human relations matters and concepts. It seeks to survey the development of this method by tracing the development of the simulation gaming technique in symbolic simulation. Some of its utilities and liabilities are then identified. Simulation game topology is discussed, after which the educational and research potential of this gaming method is examined together with simulation game artifacts, cautions, and remedies for educational and research applications. Applications of the technique to health planning and consumer health education objectives generally are suggested, and a health maintenance game structure is outlined. The game model focuses on problem areas most specifically relevant for those in the comprehensive health planning sphere, rather than limited to health planning education applications per se. References conclude the work. (BL)
Prevalence of Harmful Health Misconceptions in Colorado High School Seniors.
Stephens, Gale Elouise
Publ. Date: 70 Note: 127p.
Available from: University Microfilms, 300 North Zeeb Road, Ann Arbor, Michigan 48106 (Order No. 71-5935, MF $4.00, Xerography $10.00)
Document Not Available from EDRS.
Identifiers: Colorado
This research study was undertaken to determine prevalence of health misconceptions of twelfth grade students in each of three sizes of public high schools in the state of Colorado. Also, whether prevalence of misconceptions was related to factors of: sex, grade-point average, level of father’s education, level of mother’s education, father’s occupation, and public high school form, health instruction. Procedure involved compilation of harmful health misconceptions in nine areas of health (personal health, nutrition, rest and exercise, care and prevention of disease, habit-forming substances, first aid, consumer health, family living, and mental health) and administration of a Health Opinionnaire to 349 high school seniors. Findings led to the following major conclusions: (1) students subscribed to many health misconceptions, suggesting that secondary education needs to do much in the area of health education, (2) health misconception scores tended to decrease as size of school increased, and (3) percentage of incorrect responses was greatest in areas of consumer health and nutrition and lowest in areas of habit-forming substances and rest and exercise. This suggests a need for health education to sell the public the truth in consumer health knowledge as effectively as they have been sold by advertisers and media sources. (Author/BL)

Descriptors: Consumer Education/ Dietetics/ Eating Habits/ Educationally Disadvantaged/ Expenditures/ Family Income/ Federal Programs/ Health Education/ Low Income/ Nonprofessional Personnel/ Nutrition/ Poverty Programs/ Program Evaluation/ Socioeconomic Status/ Urban Population
This report evaluates the Expanded Food and Nutrition Education Program (EFNEP) of the Extension Service of the Department of Agriculture. About 164,000 low-income families participated in the program prior to October 1969. A national sample of 10,500 showed that family incomes were very low—less than $2,700 dollars, of which more than a third was spent for food. Most families were urban, members of minority groups, and had homemakers with relatively low educational levels. Food consumption practices of homemakers upon entering the program indicated that many families paid poor diets. After six months of EFNEP participation, substantial improvements in food knowledge and consumption practices were evident, particularly in the consumption of foods in the milk and fruit-vegetable groups. Homemakers with the poorest diets showed more improvements than those who had better initial diets. Homemakers receiving more visits from program personnel, a measure of intensity of program instruction, increased their consumption of foods in the milk and fruit-vegetable groups more than homemakers receiving fewer visits. (Author/UM)
The papers in this document represent statements prepared by scholars involved in various stages of 4 multi-state regional research projects on rural community services and presented at a 1971 national workshop on research problems in delivery of community services. The 2 major foci of these papers are (1) problems of measurement and assessment of adequacy of community services and (2) organization of service delivery systems. The 8 papers included are Problems of Measurement and Assessment of the Adequacy of Community Services: A Naive Viewpoint; Adequacy of Community Services: A Measurement Problem; Theoretical Concerns in the Measurement of Adequacy of Community Services; and How to Assess Them in the Rural Areas; Rural Development and the Quality of Life in the Rural South: Concepts and Indicators in the S-79 Regional Project; Some Methodological Considerations for Rural Community Services Research; Organization of Public Service Delivery Systems for Rural Areas; Some Relevant Concerns and Issues in Research on Personal Health Delivery Systems with Special Emphasis on Nonmetropolitan Areas; and, Housing Quality: Measurement and Assessment. (PS)
Continuity in the development of a comprehensive health education program for kindergarten through sixth grade is the goal of this curriculum guide for teachers. It is designed to encourage discussion and build concepts rather than to give specific information. Ten basic instructional areas and accompanying central concepts are identified: (1) community health; (2) environmental health and safety; (3) prevention of communicable diseases; (4) chronic and degenerative diseases; (5) consumer health; (6) health and fitness for daily living; (7) growth and development; (8) sex education for family living; (9) the use and abuse of tobacco, alcohol, and other drugs; and (10) nutrition. Each content area is divided into two levels, primary and intermediate, and outlines the major concept, subconcepts, behavioral objectives, content, motivating questions, and suggested learning experiences. Sources of print and non-print materials are appended. (BL)

This is the third hearing in a series of four conducted to exercise congressional oversight of the Food Distribution Program of the Department of Agriculture. The following witnesses presented testimony, statements, and exhibits pertinent to this purpose: Honorable Efrain Santiago, Secretary of Social Services, Commonwealth of Puerto Rico; Senator Eagleton of Missouri; Proctor N. Carter, Director, State Division of Welfare, Missouri; David McCullough, Director, Food Distribution Program, San Diego County, California; Warren H. Breland, Executive Director, Freeport, Long Island Economic Opportunity Council, Inc.; and, Richard Lyng, Assistant Secretary, Consumer and Marketing Service, Department of Agriculture. Appendix One, items pertinent to the hearing of September 22, 1971, includes such items as selected data on the Food Distribution Program, a study as of July 1971, Long Island Peoples Association (LIPA) Food Centers--store locations, and an organizational chart of the LIPA. Appendix Two, items pertinent to the hearing of September 23, 1971, includes such items as field review process, operating expense funds, post office issuance, and a letter of September 16, 1971 from Department of Social Welfare, County of Ventura, California. Appendix Three (letters and articles of interest) includes, as information previous to the hearings, letters submitted by Senator Percy, the Office of Emergency Preparedness, the Department of Agriculture, and the Agriculture Research Service. This book is primarily concerned with the quality of professional human services. To this topic are addressed two basic questions. First, what does the paraprofessional do? And second, to what effect does this quality relate to the consumer of these services? The book includes seven chapters, in which the following fields are considered: education, mental health, social work, health, and police and corrections. The multiplicity of evidence derived from the studies conducted leads to the conclusion that paraprofessionals play an important role as service agents and contribute positively to the well being of consumers in highly significant and often unique ways. This study aims to help teachers work effectively with low-income families by: (1) developing an understanding of the circumstances and life styles of Negroes, Mexican Americans, Puerto Ricans, and other minority groups, and (2) utilizing reality-oriented resource units in family health and safety, homemaking skills, consumer education, and money management. The report is divided into two parts. Part I includes: (1) a discussion of family income distribution in the United States in 1960, using charts and graphs to illustrate percentages; (2) an analysis of changes in low family income in the United States during the period 1959-69, with special attention paid to race and sex; (3) a depiction of the life-styles of low-income families, with a discussion of the values common to this group, and (4) a bibliography of reading materials and films relating to the overall subject. Part II contains five selected curriculum units, all dedicated to improving the educational level of these families. These units are entitled as follows: (1) Family Health and Safety, (2) Consumer Education and Money Management, (3) Homemaking Skills: Food and Clothing, (4) Family Planning and Family Relationships, and (5) The Family and the Community. (CK)

It is sequentially oriented with materials related to students' health needs and interests. Thirteen units of instruction are outlined: alcohol, anatomy and physiology, community health, consumer health, dental health, disease control, drug education, family health, health careers, heredity and environment, mental health, nutrition, and safety education. Individual units present an overview of the topic and a list of desired competencies. Each competency is then described in detail, appropriate concepts listed, and sample learning experiences and resources to develop the concept indicated. This information is presented for both junior high and senior high levels. A list of resources (books, pamphlets, magazine articles, and films) supplements the unit. In addition, the guide defines health instruction, indicates the place and need for health education in the school, and suggests possible use by school districts and individual teachers. A general bibliography for teachers is also included. (BL)

This guide is a complete directory of nearly 5,000 films available free of cost (except, in most cases for return postage) in the United States. The major portion of the guide lists films alphabetically within each of these categories: accident prevention and safety, aerospace education, agriculture, arts and handwork, business education, clubs and scouting, communications and transportation, conservation, consumer education, driver education, entertainment, geography, guidance, health and social hygiene, history, home economics, industrial arts, music, religion, schools and educational opportunities, science, social problems, and sports. Each listing includes a two- or three-sentence synopsis of the film, its release date, running time, and print size, as well as the source where it may be obtained. Other indexes list the films by title and subject. A source and availability index gives addresses of sources and guidelines for ordering. Sources having films available in Canada are separately listed. (UK)

Publ. Date: 70 Note: 343p.

Descriptors: *Curriculum/ *Health/ *Health Education/ *Secondary Education/ Secondary School Teachers/ *State Curriculum Guides

This guide for instruction in grades 7 through 12, developed with the help of 27 specialists in all the school health disciplines, views health as the embodiment of total man, his physical, psychological and social dimensions. A conceptual approach to teaching health is utilized, wherein a concept, once understood, can be retained even as new facts are constantly uncovered. Ten content areas, each having a major concept, are identified: (1) consumer health; (2) prevention of communicable disease; (3) chronic and degenerative diseases; (4) environmental health and safety; (5) community health; (6) growth and development; (7) health and fitness for daily living; (8) nutrition; (9) use and abuse of tobacco, alcohol and drugs; and (10) sex education for family living. This short section describes how to utilize the curriculum. For each content area, motivating questions, selected relevant learning activities and a bibliography are included. (TL)

ED050945 SE010970
Health Education Guide K-12.
Parsippany - Troy Hills Board of Education, Parsippany, N.J.
Publ. Date: 70 Note: 180p.

Descriptors: *Curriculum/ Educational Programs/ Elementary Grades/ *Health Education/ Instruction/ Secondary Grades/ *Sequential Approach/ *Teaching Guides/ *Unit Plan

Written to help teachers improve health practices of their students, this guide provides a sequential unit approach to health education in grades K through 12. Primary grades 1-6 have suggested units in personal health, nutrition, community health, first aid and safety, consumer health, and mental health. Secondary grades 7-12 consider in addition: drug abuse and education, human sexuality, family life, exercise and the human body, formation of habits, social and emotional maturity, communicable diseases, social services, and health careers. Each grade level lists major concepts of subject areas accompanied by activities and audio visual materials suitable for use in reinforcing the concept. Space is furnished for note taking next to each suggestion. Supplementary reference materials and sources of free or low cost health and safety items for teachers use are supplied in the appendix. ED049945 SE011236
Washington Office of the State Superintendent of Public Instruction, Olympia.
Publ. Date: 66 Note: 363p.

Descriptors: *Bibliographies/ *Curriculum Guides/ *Elementary Schools *Health Education/ Lesson Plans/ *Resource Materials/ Teaching Guides

This curriculum guide for the elementary school portion of a K-12 health education program contains notes on eleven areas: Alcohol, Anatomy and Physiology, Community Health, Consumer Health, Dental Health, Disease Control, Family Health, Heredity and Environment, Mental Health, Nutrition, and Safety Education. The notes on each area contain a statement of the related competencies that students are expected to have when they graduate from high school, a list of concepts within the area each accompanied by sample learning experiences, and a list of resources (books, films, journal articles, and public and private agency publications) provided at the end of each section. Includes a bibliography for teachers and notes on using the guide. (AL)
To develop a national policy aimed at eliminating hunger and malnutrition due to poverty and improving the nutritional health of all Americans, 26 panels composed of concerned citizens and academic, medical, industrial, and agricultural experts and eight task forces representing social action groups, religious denominations, women's and professional organizations, and industrial and consumer interests attended a 3-day White House Conference on Food, Nutrition, and Health. Panel and task force recommendations are included in these sections: (1) Surveillance and Evaluation of the State of Nutrition of the American People, (2) Establishing Guidelines for the Nutrition of Vulnerable Groups with Special Reference to the Poor, (3) The Provision of Food as It Affects the Consumer: Guidelines for Federal Action, (4) Nutrition Teaching and Nutrition Education, (5) Food Delivery and Distribution as a System, and (6) Voluntary Action to Help the Poor. A subject index is included. (SB)

Mealtime Manual for the Aged and Handicapped.
Klinger, Judith Lannefeld; And Others
Publ. Date: 70 Note: 242p.
Available from: Lessaness Special Editions, 630 Fifth Avenue, New York, New York, 10020 ($2.00 PB, $5.95 HC)
Document Not Available from EDRS.
Descriptors: Amputees/ Consumer Education/ *Cooking Instruction/ *Guidelines/ Handicapped/ Homemaking Education/ *Homemaking Skills/ Home Management/ *Older Adults/ Prostheses/ Rehabilitation/ Special Health Problems
Specific techniques to alleviate difficulties encountered in routine kitchen tasks are described for the elderly and the handicapped, particularly those persons with upper extremity weakness or amputees, arthritis, incoordination, wheelchair confinement, loss of sensation, and limited vision. Helpful information is provided in areas of kitchen planning and storage; the selection of small appliances and kitchen tools; hints on serving, cleaning up, shopping, nutrition, and meal planning; and simplified measures with eating aids. Recipes and cooking instructions are provided for numerous main dishes, vegetables, salads, soups, sandwiches, beverages, and desserts. Lists of related references, service agencies, and sources for kitchen equipment and tools provide additional information. Photographs accompany the collection of helpful hints for the handicapped homemaker. (RD)

Framework for Health Instruction in California Public Schools Kindergarten Through Grade Twelve.
Fodor, John T.; And Others
California State Dept. of Education, Sacramento.
Sponsoring Agency: Bureau of Elementary and Secondary Education (DHEW/GE), Washington, D.C.
Publ. Date: 70 Note: 53p.
Descriptors: Behavioral Objectives/ *Concept Formation/ *Curriculum Development/ Elementary Grades/ *Health Education/ *Health Guides/ Secondary Grades/ *Sequential Approach/ State Curriculum Guides
Identifiers: ESEA Title V
This guide has been designed to assist school districts in developing a comprehensive program of health instruction from kindergarten through grade twelve. It is a framework that provides structure for the development of a sequential, but flexible health education curriculum to meet local needs and provide for the changing health problems facing children and youth. Since it is a guide for local curriculum development and not a course of study, learning opportunities, methods of instruction, and suggested resources are not included. Health information is presented in such a manner that it builds around health concepts and thus allows new research to be integrated into the program as it becomes available. Each major concept has a set of correlating grade-level concepts with accompanying sample objectives and content. Content areas cover consumer health, mental-emotional health, drug use and misuse, family health, oral health-vision-hearing, nutrition, exercise-rest-posture, diseases and disorders, environmental health hazards, and community health resources. For evaluating instruction in terms of specific goals, behavioral objectives are included for each grade-level concept and provide specific illustrations of ways in which the learner may demonstrate his competencies. This work was prepared under an ESEA Title V contract. (EL)

A subject index is included. (SB)
This publication contains curriculum suggestions for teaching Environmental and Community Health-Consumer Health, for grades seven, eight, and nine. Outcomes desired at this level include: 1) being aware of the practice of health quackery and being able to recognize those traits that characterize the health fraud, his techniques, and his products; 2) to fully understand the hazards of health quackery and the reasons why quackery continues to flourish in our society; 3) having an awareness of the basic factors involved in consumer motivation and the significance of the teen-age consumer of health services and products; and 4) developing those insights and abilities that characterize intelligent and discriminating consumer health practice. The publication format of four columns is intended to provide teachers with a basic content outline in the first column; a listing of the major understandings and fundamental concepts which pupils may achieve in the second column; and information specifically designed for classroom teachers which should provide them with resource materials, teaching aids, and supplementary information, in the third and fourth columns.

Selected Listing of Federal and Non-Federal Programs Relating to Allied Health.

Public Health Service (DHEW), Washington, D.C. Health Services and Mental Health Administration.

Publ. Date: 1 Apr 69 Note: 71p.

Descriptors: *Directories/ *Federal Programs/ *Financial Support/ *Health Occupations Education/ *Voluntary Agencies

In its February 1969 meeting, the National Advisory Council for Regional Medical Programs reaffirmed its position on recruitment and basic education—that Regional Medical Program funding is not to be used to replace existing sources of support and that other sources should be explored first. Therefore the Continuing Education and Training Branch of the Allied Health Section prepared this listing of resources for allied health education programs. Federal programs described include those of: (1) The Department of Health, Education, and Welfare, covering the National Institutes of Health, the Health Services and Mental Health Administration, Consumer Protection and Environmental Control, Social and Rehabilitation Service, and the Office of Education; (2) the Department of Labor; (3) the Department of Commerce; and (4) the Office of Economic Opportunity. The programs of 13 non-federal organizations are described, including information facilitating contact. Programs are indexed according to level of training and profession. Appended are listings of practitioner associations; regional offices of the Department of Health, Education, and Welfare, the Department of Labor, and the Office of Economic Opportunity; State agencies for vocational rehabilitation and State officials responsible for supervision of health occupations education. (JK)

ED033041 SE007542

Agricultural Research Service (DOA), Washington, D.C.

Publ. Date: Jun 68 Note: 62p.

Descriptors: Community Health Services/ *Conference Reports/ Consumer Education/ Educational Programs/ Health Education/ Information Dissemination/ *Mass Media/ *Nutrition/ *Nutrition Instruction

Included are reports of present nutritional habits and problems in different communities, a discussion of psychological factors influencing consumer decisions about foods, and suggestions for the use of media such as magazines, newspapers, radio, and television to communicate basic nutritional concepts. Several new programs are reported concerned with in-service education of nurses, community education by radio and mail, and community education by counseling aides. New opportunities for communication are discussed as relate: to maternity and infant care projects; medicare, Federal food programs, projects financed through the Elementary and Secondary Education Act of 1965 and the Vocational Education Act of 1963, and the Head Start Project. The findings of discussion groups are summarized under the headings (1) Problems, (2) Means of improving nutrition practices, and (3) Suggestions for improved coordination of efforts in implementing nutrition education. K-12 Health Instruction Guide for Colorado Schools.
Publ. Date: 69 Note: 57p.

Descriptors: Course Content/ *Course Objectives/ Curriculum Guides/ *Health Education/ *Health Guides/ *Health Programs/ *Instructional Materials/ Manuals/ Program Content

This instruction guide was prepared in order to assist schools in upgrading their health education programs. It is organized in a K-12 sequence of appropriate concepts indicating articulation between the primary, intermediate, junior, and senior high levels, but it provides flexibility for local school district scheduling. The format within each unit includes: (1) specific aims and objectives, (2) an outline of content, activities and experiences, and (3) resource materials. The guide may be used as a lesson plan for those teachers beginning new programs, or as a supplement to already-existing health programs. It is recommended as enrichment material for use at appropriate placement in the overall program of all schools because it embodies concepts selected from the best guides available from the states and cities, as well as from all of the references obtainable from publishers in the field. Areas covered are safety, mental and family health, personal health, alcohol, first-aid, sex education, consumer health education, and health careers. (Author/CU)

ED029999 VT007895

Report of the National Advisory Commission on Health Manpower. Volume II.
National Advisory Commission on Health Manpower, Washington, D.C.
Publ. Date: Nov 67 Note: 583p.

Descriptors: *Certification/ Costs/ Educational Needs/ Educational Supply/ Federal Aid/ Health Facilities/ *Health Occupations Education/ *Health Personnel/ *Health Services/ Manpower Needs/ *Manpower Utilization/ Medical Services/ Program Descriptions/ Technological Advancement

Related to VT 007 894, "Report of the National Advisory Commission on Health Manpower, Volume I," this volume presents seven appendixes to that report. Appendix II concerns variation in per diem direct hospital expenses. Appendix III includes the reports of the panels on: (1) consumer role in the health care system, (2) education and supply, (3) federal use of health manpower, (4) foreign medical graduates, (5) hospital care, (6) impact of new technologies, and (7) organization of health services. Appendix IV describes the Kaiser Foundation Medical Care Program. Appendix V presents projections regarding the demand, supply, and price of health services in 1975. Appendix VI reviews major studies of health manpower requirements between 1930 and 1965. Appendix VII discusses legal regulation of health personnel. Appendix VIII presents extensive statistical tabulations of data on physicians. (JK)
ED028569 EC003845 NF & HC
Wells, Leona Wood
National Inst. of Child Health and Human Development, Bethesda, Md.
Publ. Date: 67 Note: 97p.

Descriptors: Community Involvement/ *Consumer Education/ Cooperative Programs/ *Exceptional Child Services/ Family Life Education/ *Health/ Interdisciplinary Approach/ Itinerant Clinics/ *Manpower Development/ Medical Treatment/ Nonprofessional Personnel/ Nurses/ *Personnel Needs/ Physicians/ Pregnancy/ Professional Education/ Professional Personnel/ Professional Training/ Program Planning/ Social Workers/ Training

Components of and creative planning for optimal health care for mothers and children are considered as well as changing patterns of health care. Applying what is known about the consumer and educating the consumer are discussed; also discussed are the role of the consumer in planning health care services, communication between doctor and patient, and the consumer as a partner in the health care team. Aspects of the health manpower described are the dimensions of the problem, possible redistribution of manpower and services, and functions of members of the health care team, including medical and non-medical professionals, other personnel, and interdisciplinary collaboration. Problems of designing effective training are treated; medical and behavioral science training for physicians and nurses, training in health care for social workers, and training and licensing other members of the team are considered; and making training relevant is discussed in terms of relating it to current medical and behavioral research findings, the health care system, and the realities of practice. Guidelines for future action and a list of conference participants are provided. (JD)

Catalogue of Training Materials.
Passett, Barry A.; Kennedy, Henry P.
Publ. Date: Dec 67 Note: 21p.

Descriptors: *Action Programs (Community)/ Case Studies (Education)/ *Catalogs/ Consumer Education/ Curriculum Guides/ Discussion Programs/ Health/ Housing/ Human Resources/ *Instructional Materials/ Labor Unions/ *Leadership Training/ Migrant Education/ Neighborhood Improvement/ Older Adults/ Preschool Education/ Rural Areas/ Spanish Speaking/ Urban Areas

All training materials prepared by the New Jersey Community Action Training Institute are briefly described in five sections of this catalogue. Sections are--training packages (syllabuses, curriculums, and schedules of each Institute training program, some with evaluations), training handbook, booklets, and brochures, case studies, discussion stimulators (problems designed to stimulate discussion during training programs), and miscellaneous training materials. Topics covered include preschool programs, housing, urban and rural manpower development, senior citizens, religious leadership, migrant education, welfare, consumer education, management information systems, health, and programs for the Spanish-speaking. Document includes a price list and order form. (aj)
HEALTH AND NUTRITION LESSON PLANS AND STUDENT WORKSHEETS, ADULT BASIC EDUCATION.

New York State Education Dept., Albany.
Publ. Date: May 1977, Note: 125P.

Descriptors: *Adult Basic Education/ Diseases/ Hygiene/ *Instructional Materials/ *Lesson Plans/ *Nutrition/ *Physical Health/ Workshops

Identifiers: FOOD DISCUSSION (TEACHING TECHNIQUE)

THIS MANUAL PROVIDES ADULT BASIC EDUCATION TEACHERS WITH LESSON PLANS IN HEALTH AND NUTRITION, EACH LESSON CONTAINS BACKGROUND MATERIAL OFFERING SPECIFIC INFORMATION ON THE SUBJECT OF EACH LESSON, AIMS, LESSON DEVELOPMENT, AND TWO STUDENT WORKSHEETS. DISCUSSION QUESTIONS ARE SUGGESTED TO ENCOURAGE THE GREATEST POSSIBLE STUDENT INVOLVEMENT. THE TEN LESSON PLANS ARE SHOTS AND IMMUNIZATION-TETANUS, MEASLES, TUBERCULOSIS, CANCER, VENEREAL DISEASE, KEEPING YOUR FOOD SAFE, WHY DO WE NEED FOOD, IT'S UP TO YOU (MALNUTRITION), FOOD IN THE MORNING, AND BEWARE (FOOD FADS). ADDITIONAL ELEMENTS ARE FLIPCHARTS AND FILMSTRIPS, EACH WITH ITS ACCOMPANYING TEACHER'S MANUAL. PRODUCTION OF INEXPENSIVE PHONOGRAPH DISKS RELATED TO THE LESSONS IS PLANNED. SIMILAR PACKETS ARE NOW AVAILABLE TO HELP TEACHERS OF ADULT BASIC EDUCATION IN THE AREAS OF PRACTICAL GOVERNMENT, CONSUMER EDUCATION, AND PARENT EDUCATION AND FAMILY LIFE. (AJ)
THUS, MANY COMMUNITY-BASED CONSUMER DEVELOPMENTS IN TENNESSEE HAD DIFFERENT PRIORITIES AND TENDED TO VIEW PROBLEMS AS SITUATIONS TO BE TOLERATED, INFLUENCED BY THE HISTORY OF THE AREA.

IDENTIFICATION

This report describes a project which identified community problems in Tennessee by geographic area. This research was directed toward (1) the identification of channels of communication between government officials, community leaders, and college and university staff members, (2) the development of other community resources capable of assisting with community problems, (3) the identification of resources with the problem on a statewide basis, and (4) the identification of the priorities of the problems.

RESULTS

The results of this study developed a categorized scheme of the one outlined in Title I legislation developed. The individual social problems involved are family life, education, isolationism, continuing education for women, general education problems, labor-management understanding, consumer education, and need for industrial expansion. The problems related to aging data contained in the report are based on subjective opinions of government officials, community leaders, special interest groups, and laymen. The report includes some "hard" data from publications and reports.

The factors which limited the effectiveness of this study are:

1. Many community leaders tended to view chronic problems as situations to be tolerated.
2. Related literature was often superficial.
3. Area reports were written by natives and thus, analysis and interpretation of data may have been prejudiced.
4. Because most data were collected during a primary and general election, many government officials hesitated to participate or restricted their views to uncontentious areas. Recommendations for action are made.

MIGRANT LIFE EDUCATION COMPONENT.

DOUGHERTY, WILLIAM J.; MORGAN, LEILA
New Jersey State Dept. of Health, Trenton.
Publ. Date: 05 Note: 85P.

Descriptors: Crew Leaders/ Evaluation/ Field Trips/ Health/ Migrant Education/ Migrant Problems/ Migrant Workers/ Sanitation
Identifiers: OFFICE OF ECON. OPPORTUNITY

The 20,000 agricultural migrants who converge on New Jersey each summer live in 2,000 labor camps. These people are in poor health and live in housing which is substandard. To alleviate this situation, a migrant life education program was organized in the summer of 1965 by the New Jersey State Department of Health, and had the following objectives: (1) reduction of preventable illnesses, (2) provision for a health education program on sanitation, (3) provision for consumer education for migrant homemakers, (4) provision for physical health activities and other recreation, and (5) arousal of interest in crew leaders and farmers for the health program. This document, written in both Spanish and English, contains the proceedings of a conference concerning migrant problems. Special Reports are made on the history of the conference, the current situation in California agriculture, and the plight of the California agricultural laborer. Reports and recommendations are presented from various workshop committees on such topics as migrant youth, agricultural economics, health and medical services, education of youth and adults, housing and community development, consumer economics and legal aid, and community involvement. Additional copies are available by writing to the Governor's Advisory Committee on Children and Youth, 401 State Building No. 1, Sacramento, California 95814. (JS)

A DIVIDED CURRICULUM OF LESSON PLANS FOR GRADES 7, 8, 9, THEN GRADES 10, 11, 12 WAS DESIGNED. BOTH GROUPS COVER GROWTH AND DEVELOPMENT, BODY CARE AND GROOMING, DENTAL HEALTH EDUCATION, NUTRITION, MENTAL HEALTH, FAMILY LIFE, FIRST AID AND SAFETY, CONSUMER HEALTH, COMMUNITY HEALTH, AND COMMUNICABLE AND NONCOMMUNICABLE DISEASES. SCHOOL HEALTH PROGRAMS PROVIDE THE CHILD WITH AWARENESS OF BETTER HEALTH AND IMPROVE BEHAVIOR IN SUCH A WAY AS TO BE CONDUCTIVE TO GOOD HEALTH.
A CALL FOR READERS TO ADD TO THE KNOWLEDGE BASE IN CONSUMER HEALTH

The Educational Resources Information Center (ERIC) is a nationwide information system of the National Institute of Education, whose basic objective is to provide ideas and information on significant current documents in education, and to publicize the availability of such documents. Through a network of specialized clearinghouses, ERIC gathers, evaluates, abstracts, and indexes these materials, and processes them into a central computerized data system. The scope of the ERIC Clearinghouse on Teacher Education is the preparation and continuing development of education personnel, as well as selected aspects of health education, physical education, and recreation education.

The experts who participated in the development of this bibliography on consumer health noted that, in addition to providing information on recent studies contained in the ERIC database and familiarizing readers with the names of prominent scholars in the field, this document also points up gaps in present knowledge and indicates issues needing further inquiry. We are convinced that the knowledge base in Health Education is in need of expansion, and that the profession, collectively and individually, has a responsibility to help in this endeavor. We are encouraging you, therefore, to submit to us any manuscript you have developed on this topic, and to encourage your colleagues to do the same.

We need a reproducible copy (two copies, if available) of any materials and, if possible, a brief abstract. Documents submitted are selected on the basis of their relevance to the current needs of the field. Those accepted are abstracted and indexed in the monthly journal, Resources in Education (RIE), and are made available in microfiche at over 600 locations and reproduced in xerographic form through the ERIC Document Reproduction Service. Copyrighted materials will receive only an announcement in RIE if permission to reproduce is not received.

Documents announced in RIE typically are unpublished or of limited distribution, and include research reports, program descriptions, speeches, annotated bibliographies, and curriculum guides. Dissertations available elsewhere are not announced in RIE.

We believe there are benefits in submitting documents to ERIC. Your research will be widely publicized since more than 5,300 organizations subscribe to Resources in Education. Publications that have limited distribution or are out of print can continuously be made available to readers through the microfiche collections and reproduction service. And you will be performing a professional service for your colleagues.

Revised May 1976
GENERAL INFORMATION

1. PRICE LIST
The prices set forth herein may be changed without notice; however, any price change will be subject to the approval of the National Institute of Education Contracting Officer.

2. PAYMENT
The prices set forth herein do not include any sales, use, excise, or similar taxes which may apply to the sale of microfiche or hard copy to the Customer. The cost of such taxes, if any, shall be borne by the Customer.

Payment shall be made net thirty (30) days from date of invoice. Payment shall be without expense to CMIC.

3. REPRODUCTION
Express permission to reproduce a copyrighted document provided hereunder must be obtained in writing from the copyright holder noted on the title page of such copyrighted document.

4. CONTINGENCIES
CMIC shall not be liable to Customer or any other person for any failure or delay in the performance of any obligation if such failure or delay (a) is due to events beyond the control of CMIC including, but not limited to, fire, storm, flood, earthquake, explosion, accident, acts of the public enemy, strikes, lockouts, labor disputes, labor shortage, work stoppages, transportation embargoes or delays, failure or shortage of materials, supplies or machinery, acts of God, or acts or regulations or priorities of the federal, state, or local governments; (b) is due to failures of performance of subcontractors beyond CMIC's control and without negligence on the part of CMIC; or (c) is due to erroneous or incomplete information furnished by Customer.

5. LIABILITY
CMIC's liability, if any, arising hereunder shall not exceed restitution of charges.

In no event shall CMIC be liable for special, consequential, or liquidated damages arising from the provision of services hereunder.

6. WARRANTY
CMIC MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO ANY MATTER WHATSOEVER, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.

7. QUALITY
CMIC will replace products returned because of reproduction defects or incompleteness. The quality of the input document is not the responsibility of CMIC. Best available copy will be supplied.

8. CHANGES
No waiver, alteration, or modification of any of the provisions hereof shall be binding unless in writing and signed by an officer of CMIC.

9. DEFAULT AND WAIVER
a. If Customer fails with respect to this or any other agreement with CMIC to pay any invoice when due or to accept any shipment as ordered, CMIC may without prejudice to other remedies defer any further shipments until the default is corrected, or cancel this Purchase Order.

b. No course of conduct nor any delay of CMIC in exercising any right hereunder shall waive any rights of CMIC or modify this Agreement.

10. GOVERNING LAW
This Agreement shall be construed to be between merchants. Any question concerning its validity, construction, or performance shall be governed by the laws of the State of New York.

11. DEPOSIT ACCOUNTS
Customers who have a continuing need for ERIC documents may open a Deposit account by depositing a minimum of $200.00. Once a deposit account is opened, ERIC documents will be sent upon request, and the account charged for the actual cost and postage. A monthly statement of the account will be furnished.

12. STANDING ORDER ACCOUNTS
Customers who desire to receive microfiche copies of all ERIC reports announced in each issue of Resources in Education may do so by depositing $2000.00 or submitting an executed purchase order. The cost of each issue and postage will be charged against the account. A monthly statement of the account will be furnished.

13. PAPER COPY (HC)
A paper copy (HC) is a xerographic reproduction, on paper, of the original document. Each paper copy has a Vellum Bristol cover to identify and protect the document.

14. FOREIGN POSTAGE
Postage for all countries other than the United States is based on the international postal rates in effect at the time the order is shipped. To determine postage allow 60 microfiche or 60 (HC) pages per pound. Customers must specify the exact classification of mail desired, and include the postage for that classification with their order. Payment must be in United States funds.

OTHER ERIC COLLECTIONS AVAILABLE FROM EDRS

STANDING ORDERS
Subscription orders of microfiche copies of all ERIC reports announced in each issue of Resources in Education average $160.00 per month at the rate of 8.7¢ per microfiche. Postage extra.
