ABSTRACT

Doctoral dissertations and masters theses produced in 30 Canadian universities and microfilmed by the National Library of Canada are listed. Both French and English theses are included with catalog numbers and price lists. Publication dates for most of the documents fall in the period 1970-1975. Microfilms are available and can be ordered from the National Library of Canada. They are also available from local libraries through interlibrary loan. Indexes of authors and participating universities are included. (AP)

* Documents acquired by ERIC include many informal unpublished *
* materials not available from other sources. ERIC makes every effort *
* to obtain the best copy available. Nevertheless, items of marginal *
* reproducibility are often encountered and this affects the quality *
* of the microfiche and hardcopy reproductions ERIC makes available *
* via the ERIC Document Reproduction Service (EDRS). EDRS is not *
* responsible for the quality of the original document. Reproductions *
* supplied by EDRS are the best that can be made from the original. *

How to Purchase a Canadian thesis

Only some Canadian theses are available from the National Library, as each university decides what is to be submitted for filming. Thirty universities participate in the microfilming programme.

If the thesis has been microfilmed by the National Library order it from the Canadian Theses Division. If possible, verify your order in Canadiana part II. Automated users can search the Canadian MARC data base.

Prepayment of all orders is required, with the remittance payable to the Receiver General of Canada. All theses in roll microfilm format (TC 1 - 16874) are \$10.00 each. All theses in microfiche format (TC 16875 -) are \$5.00 each. Prices are subject to change. Always quote the thesis accession number (e.g. TC-19017) if you can locate it.

The National Library cannot supply photocopies because it holds the copyright for microform only.

Comment acheter une thèse canadienne

La Bibliothèque nationale ne vend pas toutes les thèses canadiennes, seulement celles que les 30 universités participantes ont fait microfilmer depuis leur adhésion au programme. L'Université de Montréal ne participe pas au service.

Si la Bibliothèque nationale a microfilmé la thèse, il faut s'adresser à la Division des thèses canadiennes et si possible, vérifier les références dans la bibliographie nationale Canadiana, partie II. Ceux qui ont accès à un système automatisé peuvent trouver les notices ordinolingues sur les bandes MARC canadiennes.

Toutes les commandes de thèse doivent être acquittées à l'avance et les versements faits à l'ordre du Receveur général du Canada. Le prix est de \$10.00 pour une thèse sur rouleau de microfilm (TC 1 - 16874) et de \$5.00 pour une thèse sur microfiche (TC 16875-). Les prix sont sujets à changement sans avis préalable. Précisez toujours le numéro de série (par exemple TC-19017) si vous pouvez le trouver.

La Bibliothèque nationale ne peut fournir de photocopies car elle ne détient les droits d'auteurs que pour les microformes.

How to Obtain a Canadian Thesis

Only some Canadian theses are available from the National Library, as each university decides what is to be submitted for filming. Thirty universities participate in the microfilming programme.

If the thesis has been microfilmed by the National Library, order it from the Canadian Theses Division or borrow it on interlibrary loan by contacting your local library. If possible, verify your order in the national bibliography Canadiana. Automated users can search the Canadian MARC data base.

This catalogue is a numerical listing to the series. For subject access, consult Canadiana and Canadian Theses / Thèses canadiennes which are also prepared by the National Library and sold by Printing and Publishing, Supply and Services Canada, Ottawa K1A 0S9.

Prepayment of all orders is required, with the remittance payable to the Receiver General of Canada. Theses in roll microfilm format (series TC 1-16874) are \$10.00 each. Theses in microfiche format (series TC 16875 onwards) are \$5.00 each. Prices are subject to change.

Always quote the thesis series number (e.g. TC-19017) when ordering. The National Library cannot supply photocopies because it holds the copyright for microform only.

Comment se procurer une thèse canadienne

La Bibliothèque nationale ne vend pas toutes les thèses canadiennes, seulement celles que les 30 universités participantes ont fait microfilmer depuis leur adhésion au programme. L'Université de Montréal ne participe pas au service.

Si la Bibliothèque nationale a microfilmé la thèse, il faut s'adresser à la Division des thèses canadiennes et si possible, vérifier les références dans la bibliographie nationale Canadiana. Ceux qui ont accès à un système automatisé peuvent trouver les notices ordinolingues sur les bandes MARC canadiennes. Si vous préférez emprunter la thèse, communiquez avec le service de prêt entre bibliothèques de votre bibliothèque.

Ce catalogue est une liste numérique de la série. Pour accès par sujets, consultez Canadiana et Canadian Theses / Thèses canadiennes qui sont compilées par la Bibliothèque nationale et vendues par la Division de l'imprimerie et de l'édition, Approvisionnement et Services Canada, Ottawa K1A 0S9.

Toutes les commandes de thèse sont payables à l'avance. Le paiement doit accompagner la commande et être établi à l'ordre du Receveur général du Canada. Le prix est de \$10.00 pour une thèse sur rouleau de microfilm (no de série 1-16874) et de \$5.00 pour une thèse sur microfiche (à partir du no 16875). Les prix sont sujets à changement sans avis préalable.

Précisez toujours le numéro de série (par exemple TC - 19017) au moment de placer la commande. La Bibliothèque nationale ne peut fournir de photocopies car elle ne détient les droits d'auteur que pour les microformes.

How to Obtain a Canadian Thesis

Only some Canadian theses are available from the National Library, as each university decides what is to be submitted for filming. Thirty universities participate in the microfilming programme.

If the thesis has been microfilmed by the National Library, order it from the Canadian Theses Division or borrow it on interlibrary loan by contacting your local library. If possible, verify your order in the national bibliography Canadiana. Automated users can search the Canadian MARC data base.

This catalogue is a numerical listing to the series. For subject access, consult Canadiana and Canadian Theses / Thèses canadiennes which are also prepared by the National Library and sold by Printing and Publishing, Supply and Services Canada, Ottawa K1A 0S9.

Prepayment of all orders is required, with the remittance payable to the Receiver General of Canada. Theses in roll microfilm format (series TC 1-16874) are \$10.00 each. Theses in microfiche format (series TC 16875 onwards) are \$5.00 each. Prices are subject to change.

Always quote the thesis series number (e.g. TC-19017) when ordering. The National Library cannot supply photocopies because it holds the copyright for microform only.

Comment se procurer une thèse canadienne

La Bibliothèque nationale ne vend pas toutes les thèses canadiennes, seulement celles que les 30 universités participantes ont fait microfilmer depuis leur adhésion au programme. L'Université de Montréal ne participe pas au service.

Si la Bibliothèque nationale a microfilmé la thèse, il faut s'adresser à la Division des thèses canadiennes et si possible, vérifier les références dans la bibliographie nationale Canadiana. Ceux qui ont accès à un système automatisé peuvent trouver les notices ordinolingues sur les bandes MARC canadiennes. Si vous préférez emprunter la thèse, communiquez avec le service de prêt entre bibliothèques de votre bibliothèque.

Ce catalogue est une liste numérique de la série. Pour accès par sujets, consultez Canadiana et Canadian Theses / Thèses canadiennes qui sont compilées par la Bibliothèque nationale et vendues par la Division de l'imprimerie et de l'édition, Approvisionnement et Services Canada, Ottawa K1A 0S9.

Toutes les commandes de thèse sont payables à l'avance. Le paiement doit accompagner la commande et être établi à l'ordre du Receveur général du Canada. Le prix est de \$10.00 pour une thèse sur rouleau de microfilm (no de série 1-16874) et de \$5.00 pour une thèse sur microfiche (à partir du no 16875). Les prix sont sujets à changement sans avis préalable.

Précisez toujours le numéro de série (par exemple TC - 19017) au moment de placer la commande. La Bibliothèque nationale ne peut fournir de photocopies car elle ne détient les droits d'auteur que pour les microformes.
