ABSTRACT

Designed for ninth grade disadvantaged and educable mentally handicapped students for occupational orientation and exploration, this revised curriculum guide consists of eight sections, five of which incorporate simulation units to provide hands-on experience. The sections are: Orientation to the School; Orientation to Self in Relation to the World of Work; Preparing for the World of Work; Job Clusters and the Restaurant Unit; Getting a Job and Assembly Work Unit; Money and Banking Unit; Motel and Transportation Units; and Consumer and Career Grocery Unit. Each section includes rationale, objectives, recommended teaching-learning evaluation strategies, and a list of resources. The simulation units contain specific suggestions for day-to-day activities; for example, in the restaurant unit, students discuss the requirements of a number of restaurant jobs, receive a visit from a local restaurant manager, practice duties required of restaurant personnel, visit a restaurant, discuss the field trip, and evaluate the unit. Student evaluation questionnaires (reactions to a field trip, opinions of various duties connected with a particular occupation) are included. (LMS)
REVISED CURRICULUM FOR
THE VOCATIONAL EXPERIENCES
CLASSES

GRADE 9

HARDIN COUNTY BOARD OF EDUCATION
110 SOUTH MAIN STREET
ELIZABETHTOWN, KENTUCKY 42701

This curriculum was developed under a grant from Health, Education and Welfare. Catalog No. 13,498

JUNE, 1976
AUTHORS

Tony Nunn ...................................... East Hardin High School
                                      Glendale, Kentucky

James Owensby .................................. West Hardin High School
                                           Stephensburg, Kentucky

Ernest Thro ...................................... Hardin County Schools
                                           Elizabethtown, Kentucky
The occupational work orientation and exploration program for educable and disadvantaged youth of the Hardin County Schools had its beginning in the 1971-1972 school year. The secondary schools involved in the original pilot program were East Hardin High School, located at Glendale, Kentucky and West Hardin High School, located at Stephensburg, Kentucky. During the first year of the pilot program, James Owensby, the instructor provided the initial ninth grade program.

For the school year 1972-73, the preoccupational program was in the three secondary schools serving the Hardin County System. The original two pilot schools offered both the ninth and tenth grade programs, while North Hardin High School offered only the first year program. In total, all three high school centers served approximately 60 educable-mentally handicapped students.
OVERVIEW

During the 1973-74 school year, the Hardin County Board of Education continued the present ninth and tenth grade program in all three secondary schools and began to develop a pilot program for educable students at West Hardin High School in grades 11 and 12.

Students enrolled in the eleventh and twelfth grade programs have had the option of enrolling in a vocational experience curriculum leading to a high school diploma. The following table illustrates this curriculum.

During the eleventh grade of school, students were scheduled into a three hour block of time. The first nine weeks of the program consisted of all students enrolling in an exploratory course pertaining to the ten occupational stations available to them through the on-the-job training program. The instructor of the course served as the teacher-coordinator of the program.
OVERVIEW

The last three remaining quarters consisted of all students receiving on-the-job training in jobs selected from the ten occupational stations. Students received one hour of classroom instruction each day during the remaining twenty-seven weeks. In addition, each student received one hour of on-the-job training each day of the twenty-seven weeks. Students did not begin their on-the-job training program until the teacher-coordinator and the job supervisors felt that the student was ready for the experience. Thus, some students were not able to complete twenty-seven weeks of training. At the end of the eleventh grade experience, the students selected the one job that they wished to do in the twelfth grade co-op program.

During the 1974-75 school year, the Hardin County Board of Education continued the present program of studies and implemented the cooperative component in the twelfth grade at West Hardin High School.
OVERVIEW

On July 1 of 1975, the Hardin County Board of Education received a $29,902 grant from the Office of Health, Education and Welfare. The project was entitled, "A Research Project for Expanding the Present Vocational Experience Curriculum." As one of the goals of this project the staff has endeavored to revise the ninth grade vocational experiences curriculum.
OVERVIEW

The revised curriculum incorporated new teaching strategies developed by the Curriculum Development Center for Kentucky. In June of 1974, this curriculum center issued its "Orientation to the World of Work" series. These units were designed for special vocational education teachers. There were ten units in the series:

1. Introduction - Orientation to the World of Work
2. Occupational Safety
3. Learning About Jobs
4. Getting a Job
5. How to Keep a Job
6. Personal Development
7. Self-Appraisal for Employment
8. The Role of Work in Our Society
9. Taxes Affecting the Worker
10. Handling Your Paycheck
OVERVIEW

In developing the revised curriculum, the authors designed a number of additional simulation and reality testing experiences to enrich the instructional program. This concept was given the name, technical simulation unit. The goals of these new units were to provide hands-on experiences of existing work stations at the 11th and 12th grade levels. After careful examination of possible simulation units and a review of job placement situations, the professional staff developed the following six simulation units:

1. Restaurant Unit
2. Assembly Work Unit
3. Money and Banking Unit
4. Motel Unit
5. Transportation Unit
6. Consumer and Grocery Unit

The basic framework for the implementation of the technical simulation units has been twice weekly presentations covering a period of one month for each simulation experience. Every effort was made to develop appropriate material for the revised vocational experience curriculum which was compatible with the simulation units.
OVERVIEW

The final curriculum consisted of eight sections which integrated technical simulation units with the existing materials created by the Curriculum Development Center for Kentucky. The sections covered by this curriculum guide include the following:

Section I. . . . . . . . . . . . Orientation to the School
Section II. . . . . . . Orientation to Self in Relation to the World of Work
Section III. . . . . . . Preparing for the World of Work
Section IV. . . . . . . Job Clusters and The Restaurant Unit
Section V. . . . . . . Getting a Job and Assembly Work Unit
Section VI. . . . . . . Money and Banking Unit
Section VII. . . . . . . Motel and Transportation Units
Section VIII. . . . . . Consumer and Career Grocery Unit
As a supplement to this curriculum, ten video tapes were produced. These included:

Adventures in Careers Part I: Restaurant Service
Adventures in Careers Part II: Industrial Awareness
Adventures in Careers Part III: Banking I - Credit
Adventures in Careers Part IV: Banking II - Checking and Savings
Adventures in Careers Part V: Insurance
Adventures in Careers Part VI: The Interview - The First Step
Adventures in Careers Part VII: Trucking
Adventures in Careers Part VIII: Sales Clerking
Adventures in Careers Part IX: Hospitality Services
Adventures in Careers Part X: Custodial Services

In developing this revised version of the ninth grade curriculum, special emphasis was placed on developing a program design which stresses community involvement. Thus, the entries in this curriculum do not require extensive outlays of revenue for implementation. Rather, the strategies stressed in this document employ materials and human resources available in the business community.

June 9, 1976
PROCESS OBJECTIVES: (TOTAL CURRICULUM)

1. To provide an awareness, exploration and preparation program for the ninth grade student in terms of the world of work.

2. To provide a program that will help develop non-technical skills, habits, and attitudes which are necessary for successful and continued employment.

I. Orientation to the School

RATIONALE

Most educable and disadvantaged youth share the same frustration as other youth upon entering high school. However, these particular youth have even more frustration because of their difficulty with the school in terms of educational achievement. Therefore, every effort must be made to reduce this frustration through an effective orientation program.
## I. ORIENTATION TO THE SCHOOL

13 26
II. Orientation to Self in Relation to the World of Work

RATIONALE

"A student must have a worthwhile and realistic opinion of himself/herself in order to achieve career goals. Often a student does not realize his/her full potential or limitations and sets his/her occupational goals either beneath or beyond what he/she is capable of attaining. Extremely high or low vocational goals are characteristic of many disadvantaged and handicapped students."

(Self-Appraisal for Employment, p. 1, 1974)

Through the use of various instruments, the students are appraised in terms of achievement, career development, general interest and attitudes.
## II. ORIENTATION TO SELF IN RELATION TO THE WORLD OF WORK

### OBJECTIVES

- will receive feedback on their attitudes, achievement, development and general self-appraisal.

### TEACHING - LEARNING EVALUATION STRATEGIES

III. Preparing for the World of Work

RATIONALE

"Most students today know very little about the world of work. This is especially true of the disadvantaged and handicapped students in secondary schools, and it is particularly true in relation to the area of knowledge and skills which pertain to getting a job." (Getting a Job, p. 1, 1974). In order to begin preparing students for the world of work, each student will visit two industrial settings where several jobs can be seen. The class will spend a period of one month learning about the jobs available in each setting, the jobs that each student could perform, and the social and environment requirements of the industrial plant.
III. PREPARING FOR THE WORLD OF WORK

OBJECTIVES

1. Developing Interests. Present sample products from local industrial plants. These samples should reflect the local industrial setting. In the case of Hardin County, these would include:

   A. Coca-Cola Cans and Bottles
   B. Automobile Fan Belts
   C. Automobile Fuses
   D. Communication Cable
   E. Pair of Dress Pants

   Students begin to identify the various industrial plants by matching sample products with the plant.

   A. Coca-Cola cans and bottles - Coca-Cola Bottling Company
   B. Automobile Fan Belts - Gates Rubber Co.
   C. Automobile Fuses - Bussman Manufacturing Division
   D. Communication Cable - Phelps Dodge Co.
   E. Pair of Dress Pants - E'town Sportswear

2. Developing Interest. Invite factory workers from a local industrial plant to make a presentation on safety factors and dress. In the case of Hardin County, contact such local plants as Gates Rubber Company and E'town Sportswear Company.

TEACHING - LEARNING STRATEGIES

1. Sample products from local industrial plants. (These samples may be borrowed from local industry.)

RESOURCES

1. Sample products from local industrial plants. (These samples may be borrowed from local industry.)

2. Invite factory workers from local plants.

<tbody>
<tr>
<td></td>
<td>2. Contact a local hair stylist to provide lessons on grooming.</td>
<td>2. Invite local hair stylist for grooming lessons.</td>
</tr>
<tr>
<td></td>
<td>3. The student will evaluate the hazards connected with the jobs in the various settings.</td>
<td>3. The classroom teacher contacts local industry for possible field trip sites.</td>
</tr>
<tr>
<td></td>
<td><strong>2. Developing Interest.</strong> The students begin to develop a possible list of industrial plants for field trip visitation. In the case of Hardin County, this list could include:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>A. Coca-Cola Bottling Company, Elizabethtown, Kentucky (1) This firm bottles and cans all the products of the Coca-Cola Company for the local region.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>B. Gates Rubber Company, Elizabethtown, Kentucky (1) This firm manufactures automobile fan belts and hoses.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>C. Bussmon Manufacturing Division, Elizabethtown, Kentucky (1) This firm makes home and automobile fuses.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>D. Phelps Dodge, Elizabethtown, Kentucky (1) This firm manufactures communication cable.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>E. Elizabethtown Ice Cream Company, Elizabethtown, Kentucky (1) This firm manufactures ice cream</td>
<td></td>

<tr>
<td>F. General Telephone, Elizabethtown, KY</td>
<td>(1) This organization provides telephone service for the area.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>G. Elizabethtown Laundry and Dry Cleaning</td>
<td>(1) This organization is one of the largest laundry and dry cleaning firms in the area.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

1. Students begin preparation for the first field trip to the Coca-Cola Bottling Co. In order to set the stage for the field trip, the students develop questions and pool their information on the Coca-Cola Bottling Company.

2. Students then are asked to complete the Field Trip Questionnaire during the field trip.

3. Students take a field trip to the Coca-Cola Bottling Co.

4. Students begin their follow-up work by discussing the field trip questionnaire.

5. Additional activities for evaluation and follow-up:
   a. Students choose one phase of factory work that they could perform. This decision is developed in the following way:
      (1) Each student determines why he/she would like this work.
      (2) Each student determines his/her weak and strong points for performing this job.

FIELD TRIP QUESTIONNAIRE

ANSWER EACH QUESTION COMPLETELY AND TURN IN TO YOUR TEACHER AT THE END OF THE FIELD TRIP.

1. NAME OF BUSINESS OR INDUSTRY __________________________________________

2. NAME OF MANAGER OR PRESIDENT _________________________________________

3. WHAT DOES THE BUSINESS OR INDUSTRY DO OR PRODUCE? __________________________

4. HOW MANY PEOPLE WORK IN THE BUSINESS OR INDUSTRY? __________________________

5. WHAT IS THE STARTING HOURLY WAGE FOR UNSKILLED LABOR? __________________________

6. WHAT FRINGE BENEFITS DOES THE BUSINESS OR INDUSTRY OFFER? CIRCLE ONE

   A. RETIREMENT PLAN? YES NO
   B. GROUP MEDICAL INS? YES NO
   C. GROUP LIFE INS? YES NO
   D. WAGE COMPENSATION? YES NO
   E. PAID VACATION? YES NO HOW MUCH
   F. SICK LEAVE? YES NO HOW MUCH

7. DO THE WORKERS HAVE A UNION? __________________________

8. HOW DO YOU JOIN? _______________________________________________________

9. HOW MUCH DOES IT COST TO JOIN THE UNION? __________________________

10. DOES THE INDUSTRY HAVE A SAFETY PROGRAM? DESCRIBE __________________

11. WHAT IS THE BUSINESS OR INDUSTRY DOING TO CONSERVE ENERGY AND MATERIAL?
    DESCRIBE ______________________________________________________________

12. LIST FIVE JOBS THAT YOU SEE BEING DONE.

(1) ____________________________

(2) ____________________________

(3) ____________________________

(4) ____________________________

(5) ____________________________

NAME AND DESCRIBE THE ONE JOB THAT YOU LIKED THE BEST.
IV. JOB CLUSTERS AND THE RESTAURANT UNIT

RATIONALE

In beginning their study of careers, students need to become aware of the fifteen job clusters available in the United States. By using their previous learnings from the self-appraisal unit, students will select tentative job areas from the various job clusters. In addition, each student will be given an introduction to restaurant work through the implementation of the first technical simulation unit.
### IV. JOB CLUSTERS AND THE RESTAURANT UNIT

#### OBJECTIVES

The vocational experience teacher begins implementing the lesson plans from "Learning About Job Clusters".

1. Students will investigate job relationship to their own occupational goals.
2. Students will analyze the job requirements and employer expectations of the restaurant jobs on the basis of their self-appraisal.
3. Students will master the required skills necessary to complete the restaurant simulation.

#### TEACHING - LEARNING EVALUATION STRATEGIES

1. "Learning About Job Clusters" in Orientation to the World of Work Series

V. GETTING A JOB AND ASSEMBLY WORK UNIT

RATIONALE

"Most students today know very little about the world of work. This is especially true of the disadvantaged and handicapped students in secondary schools, and it is particularly true in relation to the area of knowledge and skills which pertain to getting a job. Even though these students may possess the skills necessary for a job, or even learn the job skills required, it is a well-known fact that seventy-five percent of all applicants are "screened out" by employment application forms alone. With such students not possessing the ability to properly complete such a paper, they would invariably be among the seventy-five percent screened out."

(Getting a Job, p. 1, 1974)

In addition, youth seeking jobs on the open market need to have an introduction to assembly type jobs. Thus, through simulation, the student is able to receive hands-on experiences in the work a day world.

FIELD TRIP QUESTIONNAIRE

Answer each question completely and turn in to your teacher at the end of the field trip.

1. Name of business or industry

2. Name of manager or president

3. What does the business or industry do or produce?

4. How many people work in the business or industry?

5. What is the starting hourly wage for unskilled labor?

6. What fringe benefits does the business or industry offer? Circle one
   A. Retirement plan? Yes No
   B. Group Medical Ins? Yes No
   C. Group Life Ins? Yes No
   D. Wage Compensation? Yes No
   E. Paid Vacation? Yes No How much
   F. Sick Leave? Yes No How much

7. Do the workers have a union?

8. How do you join?

9. How much does it cost to join the union?

10. Does the industry have a safety program? Describe

11. What is the business or industry doing to conserve energy and material?
    Describe

   ___________________________
12. List five jobs that you see being done.
   (1) 
   (2) 
   (3) 
   (4) 
   (5) 

Name and describe the one job that you liked the best.
VI. MONEY AND BANKING UNIT

RATIONALE

"Many disadvantaged and handicapped learners do not understand earnings and deductions and, as a result, quit their jobs because they think their employers are cheating them. Others overextend credit and suffer garnishment of wages or repossession of purchased products. Employers dislike having credit risks on their payroll and look in disfavor at hiring one who has a past record of poor money management. These kinds of embarrassment and distrust can be avoided if proper education in wage earning, budgeting, and wise use of credit is obtained." (Handling Your Paycheck, p. 1, 1974).
### VI. MONEY AND BANKING UNIT

#### OBJECTIVES

<table>
<thead>
<tr>
<th>1. Preparing for the Money and Banking Unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. In order to prepare students for this unit, the vocational experience teacher has the students play the games, &quot;Pay Day&quot; and &quot;Monopoly&quot;.</td>
</tr>
<tr>
<td>b. Students are then asked to develop questions pertaining to the problems encountered in playing the two games.</td>
</tr>
<tr>
<td>c. From these questions, the teacher develops information pertaining to such terms as:</td>
</tr>
<tr>
<td>1. Credit Cards</td>
</tr>
<tr>
<td>2. Bank Checks</td>
