INTRODUCTION

It is becoming more and more important to offer migrant families referral type services to benefit the total family. A child may not be able to function in class if he or she has a toothache, fever, cold, or maybe ill-fitting clothes and shoes. Their thoughts may dwell on the fact that there is no food in the home for the family. This may bear on the child's mind throughout the day. The total picture as the child sees it may be an important factor in his ability to concentrate and participate in the classroom. We, as educators, strive to treat the total situation as discretely and completely as our facilities, funds, common sense, and compassion enable us to do.

In preparation of this booklet for school directors, social workers, counselors, recruiters, teachers, and migrant supporters, we want to give you practical information that can be used to assist migrant children and their families.
ASSISTANCE

Look in your phone directory under "Louisiana, State of" and the type of service you need for listing and number. If it is not listed under Louisiana, then check under the parish where you are residing for listing and number.

Ask your local school principal for information about your local Migrant Program.

Dental assistance may be available in a state operated hospital or a welfare program or Title I Program in the parish schools if you are eligible. Direct assistance may be available through your Migrant Program after all other resources have been exhausted.

The state operated hospitals, parish health centers, mental health centers, Title I school programs may take care of migrant medical needs. Migrant Education may give medical assistance after other resources have been explored. Contact the local parish health unit to obtain information about child care, family planning, and inoculations (shots) for your child.

Every child has the right to be born healthy and to be wanted. Family planning services help you to give these rights to your children. It is a medical service to improve health and to give you the freedom to decide how many children you will have and the number of years between them.

LOUISIANA'S FREE HEALTH CARE SERVICES
FOR YOU
UNDER TITLE XIX SOCIAL SECURITY ACT

DID YOU KNOW?

1. Louisiana has a medical assistance program.
2. The purpose of the program is to provide free health care services for needy persons.
3. Under the program there is a choice of doctor, hospital, or other health service providers.

WHO CAN GET FREE HEALTH CARE SERVICES?

2. Families and dependent children under 21 who receive a welfare check for Aid to Families with Dependent Children (AFDC).
3. Persons in licensed nursing homes who receive SSI or AFDC.
4. Persons in licensed nursing homes who would receive SSI or AFDC if they were in their own homes.
5. Persons who are included as an essential person in a family that receives Supplemental Security Income benefits.

WHAT HEALTH SERVICES WILL THE STATE PAY FOR? MEDICALLY NECESSARY SERVICES AS FOLLOWS:

1. Fifteen days of hospital inpatient services.
2. Surgery.
3. Physician services.
4. Hospital outpatient services.
5. Nursing home care.
6. Certain prescribed drugs.
7. X-ray and laboratory services outside the hospital.
8. Wheelchairs, walkers, and other medical appliances and equipment.
9. One pair eye glasses after cataract surgery only.
10. Rehabilitation center services on a limited basis under certain conditions.
12. Payments for eligible aged persons in mental and tuberculosis hospitals.
14. Home health care services.
15. Treatment in mental health and alcoholism outpatient clinics.
16. Early and periodic screening, diagnosis and treatment of all medical conditions found in children under 21 years of age who are eligible for aid to families with dependent children assistance payments or SSI benefits.
17. Hemodialysis in a hospital or center.
18. Chemotherapy for malignant disease.
Benefits from other resources for medical care, such as Medicare and other insurance policies must be utilized in the payment for medical care.

Other services are available to persons eligible for medical assistance. Contact your welfare worker for more information about these and other services.

HOW DO I RECEIVE THESE FREE HEALTH CARE SERVICES?

For each month in which you qualify for the health care services provided by the State, you will receive a card which identifies you as a Medicaid eligible person. Always present your card to your physician, pharmacist, hospital, etc., so they will know you are eligible to have payment for your medical service made by the Division of Family Services. Presenting your medical eligibility card will also help you to find out whether your physician or hospital accepts payment from the State for services.

If you have any questions about the medical assistance program, contact your welfare worker. Be certain you give all the facts concerning your case to your worker.

YOU HAVE A RIGHT TO A FAIR HEARING.

If you disagree with any decision about your right to receive free medical assistance, you can request a fair hearing.

Your local welfare worker will help you file a request or you may contact the Division of Family Services, Louisiana Health and Human Resources Administration, P. O. Box 44065, Baton Rouge, Louisiana 70804, directly. This request for a fair hearing must be made within 30 days after the local office decides your case.

The fair hearing is an informal procedure conducted by a Hearing Officer who was not involved in the original decision. During the hearing, you are given an opportunity to explain why you think the agency action was unfair. The worker from the local office will explain why the action was taken. The Director of Family Services will make the final decision in your case based on the evidence presented at the hearing.

If you believe you have been discriminated against because of race, color, or national origin, you have the right to file a complaint either through your local welfare office or directly to the Division of Family Services or the federal government.

Complaint forms are available from your local welfare office.

WHAT IS THE DIFFERENCE BETWEEN MEDICARE AND THE STATE'S MEDICAL ASSISTANCE PROGRAM?

MEDICARE is a federal health insurance program for almost all persons 65 or older, rich or poor, and for some persons under 65 who are disabled.
MEDICARE details are available at your local Social Security Office.

Louisiana's Medical Assistance Program is for those needy persons who qualify for welfare assistance or Supplemental Security Income.

Details of the State's medical assistance program are available at your local welfare office.

MEDICARE and the State's medical assistance program work together to provide medical care for qualified persons.

Call your local parish director for more information.
CLOTHING AND FOOD
WE CARE

If you need help, take the time to read this brochure all the way through. We can help you. Fair Chance is a non-profit organization that delivers good, clean, usable clothing for needy children to stay in school.

This clothing will come to your school prepaid - no cost - no strings attached. Our aim is to help you, the school administrator, as well as the child. A child back in school helps your ADA.

We ship the clothing in bags according to the categories listed on the enclosed requisition form. A bag will hold approximately 35 dresses or 25 pair of boys' pants or maybe 8 jackets, depending on the bulk of the item. We need six bags to make a freight shipment, because the minimum freight rate is based on 100 lbs. Minimum or six of our bags.

We suggest that you order one bag each of the clothing that you need. We would rather that you order oftener than one big shipment.

If you need additional information, write me.

WHAT IS CAMP?

The College Assistance Migrant Programs have proven themselves to be outstanding educational models for the non-traditional and disadvantaged student population. They encompass all support services for qualified migrant students during their initial year of college, and guarantee, through agreement with the host university, that the student will be provided financial aid for the remaining years of his college career.

During the first year of his college career, CAMP students are provided assistance in the following areas:

1) Financial aid covering tuition and fees, room and board
2) Tutorial assistance and student-to-student advising
3) Curriculum advising and career planning
4) Summer enrichment program of study skills
5) Counseling
6) Summer employment opportunities
7) Faculty and administration liaison

These programs demonstrate their excellence in areas of student retention, academic achievement, overall impact and cost effectiveness since the migrant seasonal farmworker participants match or surpass the achievement of the traditional student.

The following statistics demonstrate CAMP program performance in the areas of retention, academic achievement, student impact and cost effectiveness.
