The guide presents information on more than 200 federally assisted programs serving the handicapped. Information on uses and restrictions, types of assistance, eligibility requirements, application procedures, appropriations, program accomplishments, enabling legislation, and contact persons are listed for programs receiving four types of assistance: formula grants to states; project grants and contracts; direct payments, direct loans, and guaranteed or insured loans; and non-financial assistance. Material is indexed according to federal departments and agencies, subjects, and applicant eligibility. A listing of resources for funding information, a bibliography of funding publications, and addresses of state agencies serving the handicapped are appended. (CL)

DESCRIPTION OF THE OFFICE FOR HANDICAPPED INDIVIDUALS AND ITS CLEARINGHOUSE

THE OFFICE FOR HANDICAPPED INDIVIDUALS

In 1974 the Office was established by Congress to lend cohesion, increase communication, and develop consistent goals to the efforts of all government programs for handicapped individuals.

OHI acts as an advisory arm to the Secretary and Assistant Secretaries of the Department of Health, Education, and Welfare. Because it has no programmatic granting or funding authority of its own, the Office is in a position to serve as an advocate for all handicapped constituencies and for all types and levels of governmental planning, evaluation of programs, and improvement of information resources among service providers and handicapped individuals.

OHI has identified more than 120 pertinent Federal programs and activities serving handicapped persons. Working to coordinate and collectively improve these resources is a complicated task. Activities in support of coordinated planning and coordination include:

- Surveys of handicapped consumers to identify perceived needs...
- Surveys of Federal programs to determine short and long range goals, planning activities, and coordination opportunities...
- Activities aimed at developing reliable statistics concerning individuals with handicapping conditions...
- Formation of advisory and cooperative relationships between OHI and other public & private organizations representing or serving handicapped persons...
- Assistance and support to the implementation of recommendations made by the White House Conference on Handicapped Individuals.

CLEARINGHOUSE ON THE HANDICAPPED

A national Clearinghouse in OHI seeks to improve the lives of handicapped individuals by enhancing the flow of information. The Clearinghouse on the Handicapped has two roles: (1) responding to inquirers from handicapped individuals, the professional community working with the handicapped, government and the public and (2) serving as a resource to organizations that supply information to, and about, handicapped individuals.
Information on the majority of programs listed in this Directory was excerpted from the 1978 Catalog of Federal Domestic Assistance. For brevity's sake, only the most critical elements of catalog information were retained, but users may wish to consult the full catalog entries. All programs excerpted from the OMB catalog retain their OMB identification number.

Information on a small number of programs was originally collected through a survey conducted by the Office for Handicapped Individuals querying all Federal departments and agencies on their activities serving the handicapped. This information was updated and programs are recognizable by their BI-17 numbers. In some instances information received through this survey was inserted in the OMB text if the latter made no specific mention to the handicapped; in other cases inserts explaining the relevance of a program for the handicapped were developed from supplementary material and contacts with the agencies.

Most of the listed programs provide assistance to the handicapped or people working with or for them. Some programs are serving a larger segment of the population, but are mandated to spend a certain percentage of funds for serving the handicapped. Medical research programs which have implication in the field of handicaps are listed by title, as are programs of the Urban Mass Transportation Administration, which is committed to facilitate mass transportation systems that can be used by handicapped individuals.

Fund developers and service providers are urged to consult the full OMB catalog. Since many handicapped individuals have a very limited income, they may qualify for programs oriented towards the disadvantaged. These programs have not been included, by and large. Aged handicapped individuals may be eligible for programs serving the aged which have not been included in this section. Many more health-oriented programs exist than are listed in this catalog.

Programs to alleviate problems of alcoholism and drug abuse have been listed because of the inclusion of these two categories in the Section 404 Regulations of the Rehabilitation Act of 1973. Programs protecting civil rights are included because of their obvious implications for handicapped individuals. Programs are no longer presented in agency order but according to four categories - formula grants to states, project grants, direct payments, and non-financial assistance. A subject index and an index on applicant eligibility are provided in the back.

Since funding through formula grants must be explored with the administering state agency, a selection of the most important state agencies serving the handicapped have been included. Finally there is a listing of resources for funding information and a small selection of bibliographic references to the numerous books in the funding field.
DEFINITION OF PROGRAM DESCRIPTION TERMS:

PROGRAM DESCRIPTION
A brief summary of program goals.

USES AND RESTRICTIONS
Uses that can be made of assistance provided and any restriction placed upon the assistance.

TYPES OF ASSISTANCE
Form(s) in which assistance is transmitted from the Federal Government.

FORMULA AND MATCHING GRANTS
FORMULA: Factors prescribed by law or administrative regulation to allocate sums of money among States, their subdivisions, or other entities.
MATCHING: Range of financing required from non-Federal sources.

APPLICANT ELIGIBILITY
Those institutions and/or individuals who can apply for assistance.

BENEFICIARY ELIGIBILITY
Those who are potential beneficiaries of the assistance.

APPLICATION PROCEDURE
General necessary steps that an applicant has to follow.

APPROPRIATIONS
For programs involving disbursement of money, amount of funding or estimates thereof, available by fiscal year. For all other programs, salaries and expenses involved in program operation, indicating magnitude of service.

PROGRAM ACCOMPLISHMENTS
Program output, results achieved, services rendered.

ENABLING LEGISLATION
Legal authority upon which the program is based.

I. SECURING FEDERAL FUNDS FROM STATE AND LOCAL GOVERNMENTS

by David Braddock, Ph.D.

State and local governments are playing a more significant fiscal role in the delivery of services to people with handicaps. It is not, however, well understood how much of the budgets of these units of government is comprised of funds actually obligated by the Federal Government to state or local units for subsequent expenditure. Since many of the programs of financial assistance outlined in this OHI Catalog involve state or local governmental jurisdictions, it is important to concentrate attention on this topic. Our purpose is to improve the catalog user's understanding of the critical financial role played by state and local governments so that future quests for federal funding will be more rewarding.

Each of the following sections of this essay address an area relevant to the public financing of programs for persons with handicaps. Firstly, a brief history of the Federal Government's changing role in state and local fiscal relations is presented. Next, two separate sections give information on securing funding in the state and local government sectors, respectively. A fourth section is devoted to federal funding via project grants and contracts. The essay is concluded with a discussion of concrete ways to better consolidate and coordinate financing of programs for handicapped persons.

Growth of Federal Aid to State and Local Governments

The most significant statistical aspect of the changing fiscal relations between state-local governments and the Federal Government is the growing dependence of state and local governments on federal funds. Especially significant is the increased reliance by localities on direct federal grants, in which state government is bypassed altogether. This is an important modification of the original notion of American Federalism, where local governments have been traditionally regarded as instrumentalities of the state, and thus on a lesser legal footing than states in their relationships with the Federal Government.

Table I indicates what a small proportion of aggregate state-local expenditures was once constituted by federal financial aid. Indeed, at the turn of the century, and also just prior to World War I, federal aid constituted only one-half percent of aggregate state and local budgets. Until 1942, the funds used by state and local units exceeded the spending of all other units of government combined.

In the 1960's, significant new trends in funding developed. The Federal Government began implementing literally hundreds of specific programs. During this period of the "Great Society," 1964-1969, the number of individually authorized project grant programs more than tripled—from 120 to 380—and these numerically constituted over 80 percent of all federal grant programs. A tremendous upswing in funding for human services and also for specific disability programs occurred (See Braddock, 1974).
New fiscal relationships between and among federal, state, and local units of government created new groups of actors and interdependencies. That is, some programs deployed funding directly to state governments; some bypassed states, and funds went directly from federal to local governments; other program funding circumvented these general-purpose governments and directly funded special-district units such as schools and hospitals.

**Notes:**
2. Data exclude trust fund transactions, such as Social Security.
3. "e" denotes estimate; state and local expenditures given for Fiscal Year 1978 are extrapolations projected from (actual) fiscal growth between 1976 and 1977.

Federal financial aid now rivals and in many cases exceeds the property tax as the most abundant source of revenue to run state and local governments. Other fiscal trends illuminating federal presence in state-local budgets were recently highlighted by the Advisory Commission on Intergovernmental Relations (1977). For example, in 1960 the Federal Government provided state and local units 17 cents in aid for every dollar they raised from their own sources; today the federal contribution is nearly 33 cents for every state and local dollar spent. As recently as 1967, direct federal aid to large cities was $0.4 billion. By 1974 it had grown six-fold to $5.4 billion, illustrating the large and changing fiscal impact of direct aid.
federal-local relations. By 1976, most of the nation's largest cities received more money from Washington than they did from their own state governments. It is estimated that in Fiscal Year 1978, the amount of money that St. Louis, Newark, Buffalo, Cleveland, Baltimore, Philadelphia and Detroit will get from the Federal Government will be greater than 50% of what they each will raise in local taxes.

Securing State Disability Funding

It is critically important for persons seeking funding for programs serving the handicapped to recognize that considerable funding prerogatives, stemming from federal formula grants deployed to state agencies, reside in those state agencies and not in Washington. While it may be useful to direct some personal energies toward causing change in federal legislation and regulations which determine how such funds may legally be spent, it is often more practical (and financially rewarding) for persons or organizations seeking funding to compete principally in the state arena for federal dollars which the state agency itself makes available to within-state interests. This is not to say that Washington should be ignored, because discretionary federal funds may also be available to do the job. Illustrations are needed to clarify these points.

Eligibility for funding under most formula grant programs requires a state agency to develop a plan approved by the appropriate federal agency. In Developmental Disabilities (DD), for example, in order for federal funds to be received, an approved state plan must delineate the operating parameters offered by the state—in 16 essential areas. Funds are received only upon state plan approval. Approval is made at state, regional and federal DD offices and ultimately by the HEW Secretary. The "state plan" in formula grant programs is a key document because it is essentially a state-federal agreement containing state assurances of administrative capabilities and stipulating state intent to operate in accord with specific policies required by the Federal Government. In return, the Federal Government agrees to provide financial assistance to the state agency submitting the approved plan.

It is now that competition for the "state dollar," be it actually derived from state or federal revenues, becomes important and intense. In budgetary matters, resources made available are always limited. Demand always exceeds supply. Tenured projects (i.e., those projects with a successful funding history from previous years) are usually funded "off the top," before new initiatives in any grant area are seriously considered. Although a state may receive several thousand dollars, or several million dollars under a formula grant program, much of these monies is already spoken for. What funds remain are available to the degree that fund-seekers are prepared to develop informal contacts and formal applications in accord with the prime elements or "priorities" in the approved state plans. Hence, the state agency and its influence network is an arena of great import for seekers of Federal Government formula grant disbursements.
In the present Third Edition of the OHI Financial Assistance Catalog, there are about two dozen formula grant entries. In addition to Developmental Disabilities, a partial listing includes programs in Maternal and Child Health, Special Education, Vocational Rehabilitation, Vocational Education, Medical Assistance, Social Services, Grants for Educational Innovation, the Crippled Children's Program and Veteran's Programs. State plans must be developed in each state (and territory) for these programs. Federal construction funds are quite limited, as is funding for long-term operational support. An exception, however, applies to "federalized" programs for veterans which are heavily financed by federal funds. This still does not, however, exempt each state from developing a state veteran plan and getting it approved. Veterans' programs are representative of certain public services that federal legislators and agencies have long deemed nationally desirable.

A listing of so-called designated state agencies (designated to develop the state plan and administer the specific disability program) appears as a part of the Appendices. Listed there are state agencies designated to administer programs in Developmental Disabilities, Special Education, Social Services (Title XX), Crippled Children's Services, and Vocational Rehabilitation. In many instances, fund-seekers will in error just contact the federal agency responsible for general supervision of these programs. Often the federal agency can only refer the inquirer to the appropriate state agency in the home-state. The state agency will then instruct the fund-seeker to prepare an application for submission to the state agency.

Securing Local Funding for Programs Serving the Handicapped

There are even greater complexities to federal-state fiscal relations than have been indicated by the foregoing generalizations about formula grant programs. The Federal Government is also increasingly bypassing state government and funding projects through more direct federal-local relationships. No disability program in education typifies this trend better than the Special Education Formula Grant Program as amended by Public Law 94-142. Built on a fiscal premise established under the Compensatory Education Program authorized by Title I of the Elementary and Secondary Education Act of 1965, the current Special Education Formula Grant Program ("Part B"), channels 75% of its several hundred million dollars in funds directly from Washington to thousands of local educational agencies around the nation. This direct federal-local relationship is tempered only by the requirement that local educational agencies develop and get state agency approval for local plans conforming to federal law and regulations applicable to educational recipients of Part B funds.

An equally good example of direct federal-local fiscal relations under another type of formula-grant program is the Community Development Block Grant (CDBG). Prior to 1974, housing and developmental aid to the nation's urban areas was disbursed through seven categorical grant programs such as
Model Cities, Rehabilitation Loans, and Urban Beautification. That year, the CDBG Program was enacted; it authorizes a single formula grant to "cities of Standard Metropolitan Statistical areas in excess of 50,000" and to so-called "urban counties." Localities file applications with and receive CDBG funds directly from the Federal Government. Laws or regulations do not even require state participation in the approval process. Priorities are also locally set and legislative language makes it clear that CDBG funds may be used for construction, rehabilitation, and site acquisition of "Centers for the Handicapped." Funds may also be used for developing barrier-free environments for Handicapped Centers. A Center is defined as any "... facility which seeks to assist persons with physical, mental, developmental and/or emotional impairments to become more functional members of the community by providing programs or services which may include recreation, education, health care, social development, independent living, physical rehabilitation, and vocational rehabilitation." Unfortunately, the Act excludes "any facility, the primary function of which is to provide residential care on a 24 hour-a-day basis, such as a group home or halfway house."

Clearly, the principal competitive arena for CDBG funds is in the locality, which is itself responsible for preparation of a three year community development plan, a one-year specific program, a budget, and also a housing assistance plan. Although this grant program is designed principally for low and moderate income families, many, perhaps most, handicapped individuals also fall into this eligibility category. It follows, then, that fund-seekers interested in tapping CDBG potential for the handicapped had best direct their funding efforts toward the most influential actors in the immediate locale. This means organizing and directing professional and consumer disability interests in the local community toward the structuring of local CDBG priorities.

It is also important to note that many individuals with handicaps qualify under provisions of the Department of Labor's Comprehensive Employment and Training Act (CETA). The CETA Program has local-federal dimensions and requirements in much the same fiscal pattern employed in the CDBG program. However, state governments are also eligible and active participants in the program as well. The federal-state dimension is not nearly so present under the CDBG program.

Federal Funding for Project Grants and Contracts

It must be clearly understood that the funding illustrations discussed heretofore apply to state-federal formula grant programs. Federally funded project grants and contracts, however, add yet another important dimension to the crazy-quilt pattern of public disability finance. Here, monies flow directly from the Federal Government to a variety of organizations. These include state, local and special district governments, colleges and universities, and public or private non-profit institutions. The fiscal relationship is direct between grantor and grantee and it is for specific project purposes. Funds are used, for example, to support disability
research and demonstrations, prepare personnel, deliver services, and to
develop informational products. Construction funding and funding for
operational support is relatively uncommon, except in a few Veterans
Programs and in Housing and Urban Development loan programs for the handi-
capped. Contracts are awarded to the same organizations as are grants, but
they must be used in all fiscal relationships between the Federal Govern-
ment and private, profit-making entities. In the past five or six years,
federal agencies have developed a distinct preference for the use of
contracts instead of grants when either funding instrument could be
employed.

The complexity that project grants and contracts introduce into a clear
understanding of how to finance programs serving the handicapped derives
from the fact that many federal agencies operating formula grant programs
also disburse grant and contract funds under separate, distinct legislative
authorities. This seems confusing, and it is. The Vocational Rehabilitation
Program, for example, operates one state-federal formula grant program
plus three programs with federally-controlled special project authorities
funding hundreds of individual projects nationally in rehabilitation
research and demonstration, evaluation, and in training. The Special
Education Program administered by the Bureau of Education for the Handi-
capped is similarly responsible for a large formula grant program and
numerous special project authorities in personnel preparation, the opera-
tion of educational assistance centers for specific handicaps, and for
research, demonstrations, and evaluations.

There are about 50 entries in the current OHI Financial Assistance Cata-
logue classified under the heading "Project Grants and Contracts." These
constitute nearly one-half of all entries in the entire Catalogue, and they
represent a multi-billion dollar part of federal disability interests.
Ninety percent of all these programs are administered by the Department of
Health, Education and Welfare (HEW). Applications for project grants and
contracts made by eligible organizations or individuals are filed with the
appropriate federal agency in an HEW regional office or in Washington.
Consult Catalogue entries to determine eligibility.

Toward Simplification of Disability Funding

A review of the more than 80 formula and project grant programs described
in this Catalogue demonstrates the tremendous diversification of programs
and of possible funding patterns in financing programs for the disabled.
It is a difficult job to keep continuing track of these programs and it is
at least as difficult to know which government agency or level of govern-
ment actually has prime responsibility for program administration. The
multiplicity of programs, funding patterns and administrative responsibil-
ities is not, however, due cause for paralyzing frustration and inaction.
Remember that less than 20 years ago, professionals and consumers com-
plained because there were not enough programs, not enough money, and, in
general, not enough concern at all levels of government for people with
disabilities. But we may have turned a corner.
Our field abounds today with opportunities for progressive program development, yet we constantly confront added "linkage" or coordination problems. One major problem is how to promote joint funding among complementary programs at local, state and federal levels in the disability field. For example, Office of Management and Budget Circular Number A-111 provides for and encourages joint funding of numerous major and minor categorical programs that cut across traditional programmatic or disciplinary lines. That is to say, it is both feasible and practical for state and local units of government to prepare applications consolidating closely related disability program thrusts. These applications may be based upon interagency agreements in state or local service systems in functional areas such as Vocational Rehabilitation, Special Education, Educational Innovation, Vocational Education, Maternal and Child Health, Crippled Childrens Services, Aid to Children in State Supported Schools, Guidance and Counseling Services, Library Services, Social Services, Employment Training, in Veteran’s Programs, and in many related project grant program areas. Consult entries in the Formula Grant Section and also in the Project Grant Section of this OHI Catalogue to determine A-111 eligibilities.

We are all inexperienced in preparing joint funding applications and in implementing the truly comprehensive programs that could be developed from joint funding efforts, but it is, nonetheless, the most important coordination task in disability finance, which localities, states, and the Federal Government each now face. Program administration can be simplified through financial disbursement avenues to militate against a possibly too-rapid proliferation of programs and funding in our field. To not simplify is to invite and ignore added confusion in our human services delivery systems and thereby to weaken the needed confidence of citizen-taxpayers for our programs.

It has, of course, become quite fashionable lately to assert that the Federal Government is incompetent and ineffectual in dealing with pressing social problems. Economist Charles Schultze is on target. He says that “this conventional wisdom is as wrong as the previous relic it replaced—that a federal program could be devised, monies appropriated, and any problem could thereby be solved.” What is needed is critical thinking to separate which things the Federal Government can do in the disability field (or any other field) from those it either cannot or should not do. There are, Schultze says, some of both. We must apply our best critical thinking efforts in financing programs serving the handicapped to the tasks ahead or we will certainly later face the real possibility of substantial cuts in the present rates of growth in funding for disability programs. An informed use of this Assistance Catalogue is a formidable ally to prevent such financial retrenchments.

SECTION I
FORMULA GRANTS TO STATES
SECTION 1

FORMULA GRANTS TO STATES

Introduction

This section presents an inventory of formula grants made available to states and localities (designated by "A"); and also, similar formula grant programs which contain a certain amount of monies for special projects of regional or national significance (designated by "A", "B").

In order to receive a formula grant, State applicants must submit an operating plan to the Federal Government specifying how they will spend the money in accordance with the appropriate guidelines. Information on the State operating plan is available from the State administering agency.

(A) Formula grants to States provide support to ongoing State programs usually for improvement, expansion or innovation. States are automatically eligible for a share of these funds. The amount of funds each State receives is determined by a formula which takes many factors into account. Factors commonly used are population, unemployment rate, income levels, and numbers of disabled persons or disabled veterans. The formula is set by law and each formula is unique. Public or private organizations wishing to explore funding of projects under formula grants at the State level must directly contact the administering State office. Matching funds may be required.

(A)(B) Some formula grant programs contain a specific amount of monies for special projects of regional or national significance. These programs operate under the same guidelines as "A" type grants, except that by law, a certain amount of money is set aside by the Federal administering agency to also fund special projects. Public or private organizations wishing to explore funding through the special projects component must directly contact the Federal or regional office of the appropriate Federal administering agency.

The more than 20 inclusions in this section run a wide gamut in terms of the Federal administering agencies involved, the relative amounts of funds available; and the breadth or narrowness of program mission. Four Cabinet-level Federal Departments and the Veteran's Administration are represented. These are Agriculture, Labor (DOL), Housing and Urban Development (HUD) and Health, Education and Welfare (HEW), and the Department of Transportation (DOT). Most of
the formula grant programs included are administered by the Department of Health, Education and Welfare, but HUD and DOL operate large and important programs in which disabled people can be and should become more involved. These are respectively the HUD Community Development Block Grant Program and the DOL Comprehensive Training and Employment Act. In each of these cases, citizens of local communities and also state government are involved in the setting of priorities which can include, for example, the development of adaptive and alternative community housing arrangements and also, job training and employment. Three Veterans Administration Programs provide relatively small formula grants to states operating VA approved but state-run domiciliary care, nursing care and state hospital care.

All other formula grant programs listed in this Section are administered by HEW and they run the range from educational grant programs in vocational and special education to health-related programs of assistance in maternal and child health, and crippled children services. Two programs administered by HEW's Office of Human Development Services are described: the Developmental Disabilities Program and the Title XX Social Services Program.
DEPARTMENT OF AGRICULTURE
COOPERATIVE EXTENSION SERVICE

PROGRAM DESCRIPTION

To provide educational programs based upon local needs in the broad fields of (1) agricultural production and marketing, (2) rural development, (3) home economics, and (4) youth development.

Home Economists of the State Cooperative Extension Services provide educational programs in local communities to help families overcome problems of living that arise when disability strikes within the family circle. They provide training for professional home economists, paraprofessionals, and volunteers to give instructions to the handicapped.

USES AND USE RESTRICTIONS

Grants are made to land-grant institutions which, through State and county extension service personnel, provide educational and technical assistance to (1) farmers, producers, and marketing firms on how to apply new technical developments emanating from agricultural research; (2) community organizations to develop natural, economic, and human resources; (3) homemakers and youth in the areas of food and nutrition, home management, family economics, child development, and parent education; and (4) 4-H youth in the areas of leadership development and career guidance through work projects, demonstration projects, camping, and achievement programs.

TYPES OF ASSISTANCE

Formula Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
By law, grants are made to the designated land grant institution in the States of Puerto Rico, Guam, the Virgin Islands and the District of Columbia and are administered by the director of the State extension service. State and local governments, other organizations, and individuals are not eligible for these grants.

BENEFICIARY ELIGIBILITY:
Programs of State and county extension services are available to the general public.

APPLICATION PROCEDURE

County extension services prepare plan of work and forward to State extension service. State extension service prepare State plans of work and budget and forwards to Extension Service, USDA. This program is subject to the provisions of OMB Circular No. A-110.
APPROPRIATIONS

(Grants)
Fiscal Year 1977 $198,946,175
Fiscal Year 1978 est. $215,050,000
Fiscal Year 1979 est. $208,556,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE:
$422,091 to $11,811,156; $3,959,264.

PROGRAM ACCOMPLISHMENTS

At the end of fiscal year 1977, Extension was working with 386,000 families enrolled in the Expanded Food and Nutrition Program (EFNEP). Over 640,000 other families were contacted in the EFNEP program during the year. Extension played an active role in each of more than 2,500 State area and local rural development committees. Approximately five million youth were served through 4-H - Youth development programs. In addition to the above contacts, over 100 million contacts were made with Extension clientele through educational programs related to Agriculture and Natural Resources, Community Resources Development, Home Economics and 4-H Youth.

PROGRAM DESCRIPTION

To provide financial support to states (1) to extend and improve (especially in rural areas and in areas suffering from severe economic distress) medical and related services to crippled children and children suffering from conditions that lead to crippling, and (2) for special projects of regional or national significance which may contribute to the advancement of services for crippled children.

USES AND USE RESTRICTIONS

Grants may be used for locating crippled children and providing medical, surgical, corrective, and other services for diagnosis, hospitalization, and aftercare for such children, and for training of professional personnel. Grants may be used for the purchase of services and care from hospitals and other providers. Funds may not be used for construction of buildings; for salaries of personnel paid from other Federal grant funds; and certain other miscellaneous items as specified in regulations. JOINT FUNDING: This program is considered particularly suitable (eligible) for joint funding with other closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111. For programs that are not identified as particularly suitable or eligible for joint funding, applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

TYPES OF ASSISTANCE

Formula Grants; Project Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY: Formula grants are available to State crippled children's agencies. Project grants are available to State crippled children's agencies and to institutions of higher learning.

BENEFICIARY ELIGIBILITY: Children under 21 years of age who are crippled or are suffering from conditions that lead to crippling (diagnostic services must be provided without any eligibility requirements), and trainees in the health professions.
APPLICATION PROCEDURE

State Crippled Children's Agencies submit certifications that meet the conditions of plan approval specified in the Social Security Act and that assure high quality service. These certifications and supporting documents are approved by the Regional Health Administrator. Applications for special project grants are reviewed by the Bureau of Community Health Services central or regional staff, as appropriate and a non-Federal panel of experts. This program is subject to the provisions of OMB Circular No. A-110.

PROGRAM DESCRIPTION

To provide financial support to States (1) to extend and improve services (especially in rural areas and in areas suffering from severe economic distress) for reducing infant mortality and improvement of the health of mothers and children; (2) to provide programs of projects which offer reasonable assurance, particularly in areas with concentrations of low income families, of satisfactorily (a) helping to reduce the incidence of mental retardation and other handicapping conditions caused by complications associated with childbearing and of satisfactorily helping to reduce infant and maternal mortality; (b) promoting the health of children and youth of school or preschool age; and (c) promoting the dental health of children and youth of school or preschool age, and (3) for special projects of regional or national significance which may contribute to the advancement of maternal and child health services.

USES AND USE RESTRICTIONS

The grants may be used for health services in maternity clinics, to find vulnerable patients early in pregnancy and make available a broad spectrum of diagnostic and specialist consultation services, to provide hospitalization during the prenatal period as well as during labor and delivery, for medical and intensive nursing care for prematurely born and other high-risk infants, visits of public health nurses, support of hospital intensive care units for high-risk newborn infants, well-child clinics, pediatric clinics, promotion of health services and for screening, diagnosis, treatment, correction of defects, and aftercare, both medical and dental, for children and youth of school and preschool age, school health programs, dental care for children and pregnant women, family planning, immunizations against preventable diseases, and training of professional personnel. States conduct special clinics for mentally retarded children where diagnostic, counseling, treatment, and followup services are provided. These grants may be used for the provision of health services and purchase of services and care from hospitals, and other providers. States may also include in their dental care programs of projects research looking toward the development of new methods of diagnosis or treatment, or demonstration of the utilization of dental personnel with various levels of training. Funds may not be used for purchase or construction of buildings; for salaries of personnel paid from other Federal grants; and certain other miscellaneous items as specified in regulations. JOINT FUNDING: This program is considered
particular suitable (eligible) for joint funding with other closely related federal financial assistance program in accordance with the provisions of the OMB Circular No. A-111. For programs that are not identified as particularly suitable or eligible for joint funding, applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

TYPES OF ASSISTANCE

Formula Grants; Project Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:

- Formula grants are available to State health agencies. Limited project grants are available to State health agencies and to institutions of higher learning for special projects.

BENEFICIARY ELIGIBILITY:

- Mothers, infants, and children in need of health care, and trainees in the health professions.

APPLICATION PROCEDURE

State Health Agencies are required to submit certifications that meet the conditions of plan approval specified in the Social Security Act and that assure high quality service. These plans are approved by the Regional Health Administrator. Applications for special project grants are reviewed by the Bureau of Community Health Service central or regional staff, as appropriate and a non-Federal panel of experts. This program is subject to the provisions of OMB Circular No. A-100.

PROGRAM ACCOMPLISHMENTS

In an effort to further reduce the Nation’s infant mortality rate, increased emphasis is being given to providing family planning services through this program. Preliminary estimates indicate that about 1,220,000 women received services in fiscal year 1977. In fiscal year 1977, an estimated 1,865,500 children attended well-clinics. In fiscal year 1977, States were assisted in the provision of prenatal and postpartum care to approximately half of the women receiving
services in clinics especially in rural areas. State Maternal and Child Health agencies are required to carry out a program of projects in each of five areas: maternity and infant care, comprehensive care of children and youth, dental care for children, infant intensive care, and family planning. The maternity and infant care projects in fiscal year 1977 provided comprehensive health care to approximately 422,000 mothers and 171,500 infants and continued to exercise influence on reductions in infant mortality. In many of the children and youth projects, the cost of care per child is decreasing because of the emphasis on comprehensive, rather than emergency or episodic care. The extent of this should be to extend preventive services to a larger number of children in succeeding fiscal years. Approximately 993,000 children receive treatment under the dental care projects in fiscal year 1977. Intensive infant care projects provide increased medical and nursing supervision care by personnel specially trained in such fields as treatment of cardiopulmonary failure and respiratory distress in newborns, and use of special equipment in an attempt to combat high infant mortality rates for infants born prematurely or with conditions detrimental to their normal growth and development. It is expected that in fiscal years 1978 and 1979 these levels will be maintained.

PROGRAM DESCRIPTION

A program to extend and improve comprehensive educational programs for handicapped children enrolled in State-operated or State-supported schools.

USES AND USE RESTRICTIONS

Funds may be used for projects providing educational and related services as needed such as instruction, physical education, mobility training, counseling, prevocation and vocational education, teacher and teacher aide training, construction and equipment in public schools. Restrictions on the use of these funds include construction and installation of equipment in nonpublic schools, nonessential construction or remodeling; use for services to children in local public schools, or projects predominantly for persons over 20 or beyond 12th grade. JOINT FUNDING: This program is considered particularly suitable (eligible) for joint funding with other closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111. For programs that are not identified as particularly suitable or eligible for joint funding, applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

TYPES OF ASSISTANCE

Formula Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
State agencies and State-supported and State-operated Schools for handicapped children are eligible for participation. Local educational agencies may participate on behalf of children who were formerly enrolled in State agencies and counted in Average Daily Attendance who left the State agency to participate in an appropriately designed special education program at the local level.

BENEFICIARY ELIGIBILITY:
Handicapped children classified by the State, through age 20 and not having completed grade 12, whose free public education is the responsibility of the State. Those classifications include children
who are mentally retarded, hard of hearing, deaf, speech impaired, visually handicapped, seriously emotionally disturbed, crippled or other health impaired, who by reason thereof require special education.

APPLICATION PROCEDURE

For State agency participation, the State agency must submit the average daily attendance of handicapped children in schools which it operates or supports including the count of those children in local educational programs who were formerly counted for the average daily attendance of the State agency. For project implementation an eligible individual school must submit a project application to its supervising State agency.

PROGRAM DESCRIPTION

To enable states to provide social services to public assistance recipients and other low income persons directed toward one of the five goals specified in the law.

The grants are administered by the State's social services agency who decides the amount of money to be spent, the types of services to be provided, where they will be provided in the state, and the eligibility criteria. The services are directed toward the goals of self-support; self-sufficiency; preventing/remedying neglect, abuse or exploitation of children and adults or reuniting families; community/home based care; and appropriate institutionalization.

USES AND USE RESTRICTIONS

Federal funds may be used for the proper and efficient operation of social services programs to enable eligible individuals to become or remain self-supporting and self-sufficient; to prevent neglect, abuse or exploitation of children and adults; to prevent inappropriate institutional care; and to arrange for institutional care, when appropriate.

Title XX funds are not earmarked for the handicapped. Many social services needed by the handicapped fall within the scope of allowable services funded under Title XX including: day care for children and adults; family planning; health-related services; homemaker services; information and referral; legal services; protective services (protective services—adults; protective services—children; protective services—various); recreational services; residential care and treatment; socialization services; transportation; and vocational training; special services—blind; special services—disabled.

Federal funds cannot be used for public education services that are generally available, land acquisition or services provided by institutions to their inmates. There are other restrictions with respect to medical care, room and board, day care services, in-kind matching, donated funds, and cash payments as a service. Fees must be charged for services provided to specified income eligible persons. JOINT FUNDING: This program is considered suitable for joint funding with closely related Federal financial assistance programs in accordance
with the provisions of OMB Circular No. A-111. For programs that are not identified as suitable for joint funding, the applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

TYPES of ASSISTANCE

- Formula Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Designated Title XX State agencies in the 50 states and the District of Columbia; for Titles I, IV, A, X, XIV, and XVI, State welfare agencies in Guam, Puerto Rico, the Northern Marianas, and the Virgin Islands.

BENEFICIARY ELIGIBILITY:
Under Title XX any recipient of Aid to Families with Dependent Children, Supplementary Security Income payment recipients or State supplementary payment recipients as well as low income individuals. Individuals whose gross monthly income exceeds 115 percent of the median income are not eligible for Title XX services. For the other titles in the island jurisdictions, any needy person who is, or may become a recipient of financial assistance, i.e., the blind, aged, permanently and totally disabled, or families with dependent children.

APPLICATION PROCEDURE

Preapplication Coordination: A proposed comprehensive annual services plan must be approved by the State's designated official and published for public comment at least 90 days prior to the start of the program year. A final plan must be published at least 45 days prior to the start of the program year. Regional office staff are available to assist with technical development of comprehensive annual services plans, State administrative plans, revisions, amendments, etc. It is important for the handicapped to participate in this review process and in the planning for the next program year.

Title XX Applications are made by submitting the required information regarding the Comprehensive Annual Services Plan and an administrative State plan. For the Island jurisdictions, application is made in the form of a State Plan, in prescribed HEW format.

EARLY AND PERIODIC SCREENING, DIAGNOSIS AND TREATMENT UNDER MEDICAID

PROGRAM DESCRIPTION

The Early and Periodic Screening, Diagnosis, and Treatment Program (EPSDT), a component of Medicaid, is a comprehensive health care program for needy children and youth from 0 to 21 years of age. The program provides for early and periodic screening, diagnosis and treatment of physical and developmental problems. Emphasis is placed on prevention through early identification of physical and developmental problems. Innovative techniques of outreach and case management are being employed to reach the eligible children and youth, and to provide the supportive services needed to follow through on diagnosis and treatment of identified problems.

USES AND RESTRICTIONS

The Federal Government provides matching funds to the States for setting up and carrying out EPSDT services, and issues regulations and guidelines about EPSDT. EPSDT is operated by the States and localities, and is available in all States except Arizona (which does not have a Medicaid program). In each State a specific agency is responsible for ensuring that the following tasks are carried out: identification of eligible families and informing them about EPSDT, what it offers, and where and how to obtain its services; provision of transportation to screening and treatment facilities, if necessary, to facilitate access to health care; provision of a complete physical and developmental examination on a periodic basis from birth to age 21; referral to necessary services if health problems are detected, and provision of needed treatment; explanation of screening procedures and their outcomes and provision of health education to promote continued participation in the program and good health habits; and maintenance of adequate records to facilitate follow-up services and continued participation in EPSDT.

TYPES OF ASSISTANCE

Formula Grants to States.

ELIGIBILITY REQUIREMENTS

Children and youth 0-21 years of age eligible for Medicaid, including children and youth in families receiving Aid to Families with Dependent Children (AFDC), and in some States, those who are medically needy (those who meet all eligibility requirements for AFDC, but where the family income is beyond the AFDC income level but not adequate to meet health care needs).
APPLICATION PROCEDURES

Applicants should contact their local social services or welfare office.

PROGRAM DESCRIPTION

To set general standards for State administration, to provide the Federal financial share to states for aid to families with dependent children, emergency assistance to families with children, assistance to repatriated U.S. Nationals, and in Guam, Puerto Rico, the Northern Marianas, and Virgin Islands aid to the aged, blind, permanently and totally disabled also, and administration of these welfare programs, and to monitor performance.

USES AND USE RESTRICTIONS

Money payments by states - made directly to eligible needy families with dependent children and to needy, aged, blind, or disabled persons in Guam, Puerto Rico, the Northern Marianas, and the Virgin Islands are to cover costs for food, shelter, clothing, and other items of daily living recognized as necessary by each State's program. Payments in the form of money or vendor payments assist needy families in emergency or crisis situations to avoid destitution or provide living arrangements. Under the AFDC program, payments are also made for care of specified children in foster homes or institutions. Federal funds up to $250 per home may be available for home repairs of a home owned by a recipient. Under the fully federally-funded repatriation program, money is provided for food, shelter, clothing, medical care (including hospitalization and treatment of mentally ill persons), and transportation to persons who have been returned to the United States because of destitution and who are not eligible for other financial assistance programs. Funds for State and local administration of programs are for costs of interviewing public assistance applicants for eligibility determination and validation of eligibility; costs of State and local personnel engaged in program direction and management; and other on-going costs and activities related to administering the programs.

COMMUNITY PLANNING AND DEVELOPMENT

COMMUNITY DEVELOPMENT BLOCK GRANTS/ENTITLEMENT GRANTS

PROGRAM DESCRIPTION

To develop viable urban communities, including decent housing and a suitable living environment, and expand economic opportunities, principally for persons of low and moderate income.

USES AND USE RESTRICTIONS

The Block Grant Program consolidates seven former community development-type categorical programs, including Urban Renewal, Model Cities, Neighborhood Facilities, Open Space Land, Historical Preservation, Urban Beautification, the Basic Water and Sewer Facilities Program, Public Facilities Loans, and Rehabilitation Loans, generally most activities previously eligible under the consolidated categorical programs are able to be performed under this program, i.e., acquisition, construction of certain public works, facilities and improvements, clearance, housing rehabilitation, code enforcement, relocation payments and assistance, administrative expenses, and completing existing urban renewal projects. In addition, block grant funds may pay for certain economic development activities and activities carried out by private nonprofit entities, neighborhood-based nonprofit organizations, local development corporations and small business investment companies. Generally, communities are restricted from constructing or rehabilitating public facilities for the general conduct of government and certain community wide facilities, i.e., stadiums, sports arenas, cultural centers, central libraries, convention centers, and from underwriting the cost of constructing new housing, or of making housing allowance or other income maintenance-type payments.

Community Development Block Grants (CDBG) Funds are distributed in lump sums to a locality to be spent according to priorities set by that locality. The priorities developed do not automatically include provisions for handicapped persons, so it is important that groups make their needs known to the appropriate officials. CDBG funds may be used for construction of, rehabilitation of and site acquisition for "centers for the handicapped." The funds may also be used for the demolition of existing structures, conversion of existing structures and barrier removal for "centers for the handicapped." A "center for the handicapped" is defined as "any single or multipurpose facility which seeks to assist persons with physical, mental, developmental and/or emotional impairments to become more functional members of the community by providing programs or services which may include, but are not limited to, recreation, education, health care, social development, independent living, physical rehabilitation and vocational rehabilitation; but excluding any facility, the primary function of
which is, to provide residential care on a 24-hour day basis (such as a group home or halfway house). For example, a sheltered workshop would be a single purpose center for the handicapped, and a facility providing several services for the handicapped would be a multipurpose center for the handicapped, both of which are eligible for assistance.

Removal of Architectural Barriers: Special projects directed to the removal of material and architectural barriers which restrict the mobility and accessibility of elderly or handicapped persons to publicly owned and privately owned buildings, facilities, and improvements including residential and non-residential structures.

Rehabilitation of publicly owned or acquired properties for use or resale in the provision of housing including:

a) Permanent housing units, both single family and multifamily, for rental or sale, and

b) Residential facilities, including group homes, halfway houses, and emergency shelters.

Acquisition by private entities (profit and non-profit) of privately owned properties for the purpose of rehabilitation or for rehabilitation for use or resale in the provision of housing including:

a) Permanent housing units, both single family and multifamily for rental or sale, and

b) Residential facilities, including group homes, halfway houses, and emergency shelters.

TYPES OF ASSISTANCE

Formula Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Cities of SMSA's with populations in excess of 50,000, "urban counties," as defined in the Act, and cities with populations of under 50,000 which are central cities in SMSA's are all entitled to receive amounts of funds determined by a statutory formula. In addition, localities which received grants under the urban renewal and model cities programs will receive "hold harmless" grants based on their level of prior participation in those programs.

BENEFICIARY ELIGIBILITY:
See application eligibility.
APPLICATION PROCEDURE

Localities file annual applications, Standard Form SF 424, for their entitlement funding containing (1) a summary of a 3 year community development plan, (2) a 1 year community development program, (3) a budget, and (4) a housing assistance plan. In addition a series of certifications regarding other Federal requirements are part of the application.

PROGRAM DESCRIPTION

To provide job training and employment opportunities for economically disadvantaged, unemployed, and underemployed persons and to assure that training and other services lead to maximum employment opportunities and enhance self-sufficiency by establishing a flexible and decentralized system of Federal, State, and local programs.

Since many handicapped individuals meet the CETA eligibility requirements of being unemployed, underemployed or disadvantaged, they are eligible for CETA services. CETA services include jobs and/or on-the-job training or in the classroom training. CETA may also provide handicapped individuals with supportive services such as transportation, health care, removal of employment barriers, such as discriminatory hiring practices, unrealistic qualification requirements, and job restructuring. CETA employees may be able to provide a resource of labor for survey of barriers and barrier removal activity.

USES AND USE RESTRICTIONS

Title I - This program is directed to providing training and employment opportunities to the unemployed, underemployed, and disadvantaged. Program activities are: Classroom Training; On-the-Job Training; Public Service Employment; Work Experience; Services to participants; and other allowable activities. Public Service Employment is subject to the restrictions under Title II. In addition to prime sponsor allocations, specific funds are allocated to governors for: (1) State Vocational Education agencies to provide their services to prime sponsor areas; (2) costs incurred in staffing and servicing State manpower services councils; and (3) provision of State-wide manpower services. Title II - This program provides transitional employment to unemployed or underemployed persons residing in areas of high unemployment in jobs which provide public services. Eighty-five percent of the funds made available must be used to pay wages and fringe benefits to participants. The remaining fifteen percent of funds may be used for administration and for supplies, equipment, and materials to be used in the program. Title II funds may be used to finance Title I program activities in which case most Title II restrictions do not apply. Title VI (a)(3) - This program provides employment, training, counseling and job preparation of economically disadvantaged youths during summer months, and is directed to providing temporary public service
employment for unemployed and underemployed persons. In addition to public service employment positions this program provides for public service projects which will employ longterm unemployed, low-income persons. JOINT FUNDING: This program is considered particularly suitable (eligible) for joint funding with closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111. For programs that are not identified as particularly suitable or eligible for joint funding, applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

TYPES OF ASSISTANCE

Formula Grants; Project Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Title I - States, units of general local government having a population of 100,000 or more, consortia of local government units, at least one of which has a total population of 100,000 or more, units of local government which are considered eligible by the Secretary because of special circumstances U.S. Territories, and a limited number of Concentrated Employment Program grantees in existence at time of enactment (December 1973). Title II - Applicants qualified under Title I and Indian tribes on Federal or State reservations, either of which contain areas of substantial (6.5 percent or more) unemployment. STIP (Section 304) Title V prime sponsors. Title VI - Applicants qualified under Title I and Indian Tribes on Federal or State reservations.

BENEFICIARY ELIGIBILITY:
Title I - Economically disadvantaged, unemployed, or underemployed persons. Title II - Persons unemployed for 30 days prior to application or underemployed, and residing in an area of substantial unemployment. STIP (Section 304) - Title VI - requirements apply. In addition, persons enrolled in Titles I-IV and VI for 15 or more weeks are eligible. Title VI - Persons unemployed for 30 prior to application (except in areas of excessively high unemployment in which case persons need only be unemployed 15 days) or be underemployed. However, to be eligible for Title VI projects, a person must either be: (1) receiving unemployment compensation for 15 or 20 weeks or unemployment for 15 or 20 weeks, (2) have a combination of weeks unemployed and weeks of receiving unemployment compensation, or (3) be a member of a family receiving AFDC; and must have a family income less than 70 percent of the BLS lower living standard budget.

APPLICATION PROCEDURE

Applicants which have been designated as prime sponsors and eligible to receive funds will be furnished a grant application package which is to be submitted to the RA with copies to the governor and appropriate State and area-wide A-95 clearinghouses. A summary of the application will be published in one issue of a general circulation
newspaper. Copies of the summary will be provided to appropriate units of general local government, Indian prime sponsors, and to labor organizations where appropriate. The grant package consists of the grant fact sheet prescribed by FMC 74-7, a narrative description of the program, and modified FMC 74-7 budget and program plans. All necessary grant package forms and explanatory material are found in the Forms Preparation Handbook, issued in September 1975. This program is subject to the provisions of OMB Circular No. A-110.

USES AND USE RESTRICTIONS

Depending on which aspect of the program funds are applied to, they may be used for planning, surveying, research, engineering, right-of-way acquisition, new construction, reconstruction, repair improvement, roadside beautification, and recreation. Examples of projects related to barrier removal that can be funded include: curb cuts, making highway rest areas accessible, and providing accessible parking spaces adjacent to public transportation terminals. Funds may be applied to highways, bridges, bikeways, walkways, fringe and corridor parking facilities, and rest areas. All capital projects in urban areas of more than 50,000 population must be based on a continuing comprehensive planning process. Some county and local roads and streets may be part of a Federal-aid system and are eligible for improvement, but only through State highway agency initiative and action. Selected Interstate and non-Interstate authorizations may be used for mass transit capital improvements at the request of State and local governments. Special programs for highway safety and railroad grade crossing protection are also available for roads both on and off Federal-aid systems. This program is eligible for Joint funding but the initiative lies with the State Highway Agency. The State Highway Agency is solely responsible for reviewing and rejecting or approving on a final basis specific State projects.

JOINT FUNDING:

This program is considered suitable for joint funding with closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111.

PROGRAM DESCRIPTION

To assist State highway agencies in constructing and rehabilitating the Interstate highway system and for building or improving primary, secondary, and urban systems roads and streets, and to provide aid for their repair following disasters, to foster safe highway design; and to replace unsafe bridges.

TYPES OF ASSISTANCE

Formula Grants; Project Grants.

ELIGIBILITY REQUIREMENTS

SECTION II

PROJECT GRANTS
Grants and contracts differ as policy instruments in fundamental ways. The grant entails ideas usually originated and defined by the applicant. Contracts contain ideas or work requirements usually originating with the Government itself. For monetary agreements between the government and profit-making or commercial organizations, the contract must be used.

Money for Project Grants (designated "B") flows directly from the Federal Government to state or local governments, institutions (e.g., colleges) and public or private organizations. Money is used for specific projects, research or demonstration, services or products. Examples of project grants are: research grants, training grants, experimental and demonstration grants, evaluation grants, planning grants, construction grants, fellowship and scholarships. Applications are made by the eligible entity to the appropriate Federal offices either in the Regions or in Washington.

Contracts (Designated "P") are awarded by the Federal Government when it wants specific research done or a particular problem addressed. Contracts may be awarded for personal or professional services or for any service rendered by a university, hospital, public agency or non-profit organization. Some contracts are awarded on a competitive basis. These contracts are announced by the publication of Requests for Proposals in Commerce Business Daily.

The inventory of grant or contract programs presented in this section enumerates about fifty individual programs administered by five Cabinet-level Departments and also the Action Agency and the Veterans Administration. A considerable number of these programs, about 90%, are administered by agencies within the Department of Health, Education and Welfare (HEW). The Office of Human Development Services administers disability related programs in Head Start, Vocational Rehabilitation, Developmental Disabilities, Public Assistance, and also in programs for the aging. The Bureau of Education for the Handicapped, within HEW's Office of Education, administers research, demonstrations, training and also certain service programs relevant to the education of handicapped children.

Family planning project grants, grants for the operation of Community Mental Health Centers, maternal and child health research and training, and home health services, are administered by the HEW Health Services Administration.

The Departments of Housing and Urban Development, Labor, and Transportation administer significant project grant or contract programs in respectively, special housing construction or remodeling.
Grants; employment research and demonstration; and capital improvement of urban mass transportation systems. Grants for construction and remodeling of state homes, nursing homes, hospitals and domiciliary facilities for veterans are also described in this section. This program is administered by the Veterans Administration. Finally, the Action Agency operated the Foster Grandparent and Senior Companion programs which provide grants for special projects serving persons with disabilities.
PROGRAM DESCRIPTION

To provide educational, comprehensive medical and social services necessary to enable individuals to freely determine the number and spacing of their children, to promote the health of mothers and children and to help reduce maternal and infant mortality.

USES AND USE RESTRICTIONS

Grants may be used for contraceptive advice and services to patients including a variety of medically approved methods of contraception, including natural family planning methods; counseling and interpretation to individuals of services provided; physical examinations, including cancer detection tests, diagnostic and treatment services for infertility, contraceptive supplies on continuous basis, and periodic follow up examinations. These services must be available without coercion and with respect for the privacy dignity, social and religious beliefs of the individuals being served. Provisions should be made for physically handicapped individuals, including accessible facilities and adequately trained personnel. Funds may not be used for purchase or construction of buildings; salaries of personnel paid from other Federal grant funds; and certain other miscellaneous items as specified in the regulations. Priority in the provision of services will be given to persons from low-income families. None of the funds awarded shall be used to provide abortions as a method of family planning. JOINT FUNDING: This program is considered particularly suitable (eligible) for joint funding with other closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111. For programs that are not identified as particularly suitable or eligible for joint funding, applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

TYPES OF ASSISTANCE

Project Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Any public or nonprofit private entity located in a State, (the District of Columbia, Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands), is eligible to apply for a grant.
BENEFICIARY ELIGIBILITY:
Persons who desire family planning services and who would not otherwise have access to them. Priority to be given to persons from low-income families.

AWARD PROCEDURE

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:

These grants are available to public and other nonprofit institutions of higher learning.

BENEFICIARY ELIGIBILITY:

Trainees in the health professions and handicapped children who receive services provided through the training programs.

APPLICATION PROCEDURE

Application, consisting of the proposed project plan, budget and supportive materials, may be submitted to the GMB, BCHS. This program is subject to the provisions of OMB Circular No. A-110.

APPROPRIATIONS

(Grants)
Fiscal Year 1977 $23,408,000
Fiscal Year 1978 $24,054,000
Fiscal Year 1979 est. $24,054,000
RANGE AND AVERAGE OF FINANCIAL ASSISTANCE:
$50,000 to $1,000,000; $450,000.

PROGRAM ACCOMPLISHMENTS

Advanced training has been provided to an estimated 502 professionals in maternal and child health fields in 1977, primarily through programs in university affiliated mental retardation centers and in programs training personnel who serve to extend the function of the physician. In addition to direct support of the trainees, the staff and facilities supported by these grants provided indirect support for the training of several thousand additional personnel. A full range of clinical services was also provided for thousands of mentally retarded and multiple handicapped children. It is expected that the same program levels will be maintained in fiscal years 1978 and 1979.

PROGRAM DESCRIPTION

to develop new knowledge and approaches to the causes, diagnosis, treatment, control, and prevention of mental diseases of man through basic, clinical, and applied research, investigations, experiments, demonstrations, and studies; to develop and test new models and systems for mental health services delivery and otherwise develop and improve knowledge relevant to the provision of mental health services through organized systems and networks of services. Areas of special interest include suicide prevention, early child care, metropolitan mental health problems, crime and delinquency. One of the research grant programs, entitled "Small Grants," provides support to develop and test techniques; to exploit an unexpected research opportunity, to analyze collected data; or to carry out exploratory studies.

USES AND USE RESTRICTIONS

Research grants provide support for: (a) clearly defined projects or a small group of related research activities, and when appropriate, support of conferences, and translation of publications; (b) large-scale, broad-based programs of research, usually interdisciplinary, consisting of several projects with a common focus; (c) small-scale exploratory and pilot studies or exploration of an unusual research opportunity; and (d) research development in areas lacking in adequate research activity and in which NIMH has a direct interest. Particular areas of research focus include drug abuse; alcoholism, psychopharmacology, suicide, crime and delinquency, other social problems, mental health services and epidemiology of mental health problems. Funds may be used only for expenses directly related to the approved research project. Small Grants are limited to $5,000 direct costs for a period of one year or less; in extraordinary circumstances, awards up to $6,000 direct costs may be made. JOINT FUNDING: This program is considered particularly suitable (eligible) for joint funding with other closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111. For programs that are not identified as particularly suitable or eligible for joint funding, applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

TYPES OF ASSISTANCE:

Project Grants.
ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Investigators affiliated with public or nonprofit private agencies, including State, local, or regional government agencies, universities, colleges, hospitals, academic or research institutions, and other organization, may apply for research grants. Small grants are primarily intended for the younger, less experienced investigator, investigators in small colleges, and others who do not have regular research support or resources available for research exploration.

BENEFICIARY ELIGIBILITY:
The same as applicant eligibility.

APPLICATION PROCEDURE

Research grant applications are unsolicited. Application kits, containing the necessary form (PHS-398) and instructions, if not available at applicant institution, may be obtained from Grants and Contracts Management Branch, National Institute of Mental Health. The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for applicants that are State and local governments. Consultation on a proposed project may be obtained from the NIMH branch or center responsible for the research area of interest. Applications are reviewed by non-Federal consultants recruited nationwide from the mental health field. The amount of the award and period of support are determined on the basis of merit of the project. This program is subject to the provisions of OMB Circular No. A-110.

To stimulate innovative approaches to children's mental health problems emphasizing prevention and coordination of community services; to expand training activities and broaden resources for children's mental health services.

Support for Continuation Grants only. Program authorizes funds on a matching basis for initial staffing of facilities offering mental health services for children. Staffing grants may be used for a portion of the costs of professional and technical personnel to operate a facility for child mental health services; a higher percentage may be paid if area has been designated a poverty area by the Secretary, HEW. Proposed program must provide consultation and coordinating services with other community agencies serving children in service area, and must include a plan with the means by which it will be evaluated. JOINT FUNDING: This program is considered suitable for joint funding with closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111. For programs that are not identified as suitable for joint funding, the applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

TYPES OF ASSISTANCE

Project Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
To be eligible for staffing grants, applicant must be part of, or affiliated with, a community mental health center, unless there is no center serving the community. Applicant may then be any public or private nonprofit agency providing, or coordinating with programs which will provide, a full range of mental health services for children and their families residing in the service area.

BENEFICIARY ELIGIBILITY:
Children and their families in the service area as well as personnel of schools and other community agencies serving children.
APPLICATION PROCEDURE:
Continuation Application Form ADM-115 should be used for staffing. Instruction and consultation may be obtained from the mental health section of the appropriate HEW Regional Office. Application is sent to the Regional Office with copy to Acting Director, Division of Mental Health Service Programs, NIMH, 5600 Fishers Lane, Rockville, MD 20857. This program is subject to the provisions of OMB Circular No. A-110.

MENTAL HEALTH RESEARCH SCIENTIST DEVELOPMENT AND RESEARCH SCIENTIST AWARDS 13.281 (B)
(Career Development "K" Awards)

PROGRAM DESCRIPTION

To provide support for research relating to the problems of mental illness and mental health and to raise the level of competence and to increase the number of individuals engaged in such research via special levels of National Institute of Mental Health support.

USES AND USE RESTRICTIONS

Research Scientist Development and Research Scientist Awards provide support for individuals with research potential who need additional development and/or experience in a productive research environment. Funds are available for salary support, and where applicable, allowances for specialized training and research costs. Salary support from the National Institute of Mental Health is limited to $25,000 per annum, which may be supplemented by the sponsoring institution from non-Federal funds. Research Scientist Development Awards and Research Scientist Awards which have a budget start date of October 1, 1977 and later will receive $30,000 per annum for salary support, which may be supplemented by the sponsoring institution. JOINT FUNDING: This program is considered suitable for joint funding with other closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111. For programs that are not identified as suitable for joint funding, applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

TYPES OF ASSISTANCE

Project Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Research Scientist Development and Research Scientist Awards are made to appropriate research centers, medical schools, departments of psychiatry, psychiatric hospitals, community mental health centers, research institutes with mental health programs and behavioral sciences institutes with mental health research programs on behalf of individuals who need the opportunity to realize research potentials. The individuals in all cases must be citizens or nationals of the United States or have been lawfully admitted for permanent residence. Individual must qualify by scholastic degree and previous training and/or experience.
BENEFICIARY ELIGIBILITY:
Same as applicant eligibility.

APPLICATION PROCEDURE

Required application forms and instructions may be obtained from the National Institute of Mental Health. Forms are completed by the applicant and sponsor. Completed applications are reviewed by non-Federal consultants and recommended for support on the basis of merit. This program is subject to the provisions of OMB Circular No. A-110.

APPROPRIATIONS

(Grants)
Fiscal Year 1977 $4,021,000
Fiscal Year 1978 est. $4,223,000

PROGRAM DESCRIPTION

An individual National Research Service Award provides support to individuals for predoctoral and postdoctoral research training in specified mental health related areas; and an Institutional National Research Service Grant provides support and enables nonprofit institutions to develop research training opportunities for individuals interested in careers in a particular specified mental health related field.

USES AND USE RESTRICTIONS

Individual Awards are made to fellows seeking predoctoral or postdoctoral support for full-time research training in biomedical/behavioral shortage areas. An institutional allowance of up to $3,000 will be provided, upon request, to the sponsoring institution for each awardee. In addition, any domestic public or non-profit institution may apply for an institutional research training award in a specified area of research from which a number of stipend awards will be made to individuals selected by the training program director at the institution. Support is available for both pre- and postdoctoral trainees. Actual tuition and fees are allowable for trainees. An additional amount of up to 25 percent of the total trainee costs may be requested for related institutional costs. Under NRS awards, individuals can be supported for up to a maximum of 3 years. Stipends are currently $3,900 (predoctoral) and $10,000 - $14,000 (postdoctoral) dependent upon the number of years of relevant experience. Research training support may not be used for intern or other clinical training.

TYPES OF ASSISTANCE

Project Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Support is provided for predoctoral and postdoctoral academic and research training only, in health and health-related priority areas which are specified by the National Institute of Mental Health and includes child mental health, depression and suicide; schizophrenia; brain and behavior; psychoactive drugs, crime and delinquency; aging; minorities; program evaluation and mental health services management.
For postdoctoral support, individuals with a professional or scientific degree are eligible (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D. Eng., or equivalent domestic or foreign degree.) Proposed study must result in research training in specified shortage areas, and may offer opportunity to research health scientists, research clinicians, etc. to broaden their scientific background, or to extend their potential for research in health-related areas. Applicants must be citizens of the United States, or be admitted to the United States for permanent residency; they also must be nominated and sponsored by a public or private nonprofit institution having staff and facilities suitable to the proposed research training. All fellows must meet a payback requirement through approved research oriented work, or by repayment of funds based on a formula which gives one-half credit for approved work completed.

BENEFICIARY ELIGIBILITY:
Same as applicant eligibility.

APPROPRIATIONS

(Grants)
Fiscal Year 1977  $12,211,000
Fiscal Year 1978 est.  $10,434,000
Fiscal Year 1979 est.  $18,691,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE:
Predoctoral stipends $3,900 average predoctoral stipend $3,900.
Postdoctoral stipends $10,000 to $14,000; average postdoctoral stipend $12,000.

PROGRAM ACCOMPLISHMENTS

In fiscal year 1977, 298 Individual Research Fellowships and 146 Institutional Grants were supported. Based on dollars available and the average award, it is anticipated that 241 Individual Awards and 123 Institutional Grants will be funded in fiscal year 1978 for NRSA research training, and 327 Individual Awards and 181 Institutional Grants are estimated for fiscal year 1979.

To provide comprehensive mental health services through a community mental health center via five grant programs: staffing; planning grants; grants for initial operations; consultation and education services; conversion grants; and financial distress grants. The comprehensive services which centers must provide are: inpatient, outpatient, day care, and other partial hospitalization services and emergency services; specialized services for the mental health of children; specialized services for the mental health of the elderly; consultation and education services; assistance to courts and other public agencies in screening catchment area residents considered for referral for inpatient treatment in a State mental health facility; follow-up care for catchment area residents discharged from a mental facility; transitional halfway house services for catchment area residents discharged from mental health facilities or who would require inpatient care without such halfway house services; unless there is insufficient need, or the need is otherwise being met, specialized programs for the prevention, treatment, and rehabilitation of alcohol and drug abusers, alcoholics, and drug addicts.

USES AND USE RESTRICTIONS

Planning grants to assess area needs for mental health services, design a CMHC program, obtain financial and professional assistance and support for the program and encourage community involvement. Maximum support is $75,000. Grants for Initial Operations provide up to 8 years of financial support (on a decreasing, deficit basis) for centers meeting all requirements. Support for centers in poverty areas is provided at a higher level of funding. Existing centers may opt to receive staffing grant support under former provisions of the CMHC Act, but must provide all required services within 2 years. Grants for Consultation and Education Services begin with the fifth year of a center's operation unless the secretary determines that C&E services could not be provided in the third and fourth year without such a grant. Grants may be made to non-federally funded centers which are providing all other required services. Conversion grants may be provided for a maximum of 2 years to centers funded under the former Act to enable them to provide additional services mandated by this legislation. Financial distress grants may be provided for up to 3 years to centers whose original staffing or operations grants have terminated because of statutory limits as to funding period and which demonstrate that without such support they would have significant reduction in quality of services or be unable to provide all required services. Facilities assistance support will be allotted to states to
pay for the Federal share of projects for acquisition and/or remodeling of center facilities, leasing; construction of new or expansion of existing facilities in poverty area; the initial equipment of a facility acquired, remodeled, leased or constructed. No funds are available in fiscal year 1977 for this program. JOINT FUNDING: This program is considered particularly suitable (eligible) for joint funding with other closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111. For programs that are not identified as particularly suitable or eligible for joint funding, applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

TYPES OF ASSISTANCE

Project Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Eligibility for each program is as follows: Planning: public and nonprofit private entities which have the responsibility for planning and program development for the catchment area and are located in an area which has not been awarded any community mental health center grants. Initial Operations: public and nonprofit private community mental health centers, and any public or nonprofit private entity which (a) is providing mental health services, (b) meets requirements in Section 201 and 206 of Public Law 94-63 with respect to the provision and coordination of health service's, governing bodies, quality assurance programs, medical records systems, professional advisory boards, etc., and (c) has an acceptable plan for the provision of all required services within 2 years after the date of the receipt of the first grant for initial operations. Consultation and Education: ongoing community mental health centers (awarded under previous authority - see program 13.240); new CMHC's awarded Initial Operations grants; and public or nonprofit private entities which fulfill requirements of Sections 201 and 206 of Public Law 94-63. Conversion Grants: current recipient of a staffing grant, a "speciality" grant (alcohol, drug abuse, or Part F children's grant), an initial operations grant or a financial distress grant which demonstrates that there is going to be an operating deficit in one or more of newly required services. Financial Distress Grants: current community mental health centers which are terminating their eighth year of staffing, or operations grants which demonstrate a need for further support in order to prevent a significant reduction in the types of quality of services provided or an inability to provide the newly required services of Public Law 94-63, Section 201(b). Staffing: To be eligible for a staffing grant, applicant must furnish 12 essential services to designated geographic areas and meet the specific requirements in sections 201 and 206 of CMHC Amendments of 1975.

BENEFICIARY ELIGIBILITY:

All persons who reside in the designated area have priority for services.
APPLICATION PROCEDURE

Applicants for all programs shall submit applications on Form PHS-5161 (except Facilities Assistance which should use Form ADM-115). Forms may be obtained from the HEW regional office. This program is subject to the provisions of OMB Circular No. A-110.

DIAGNOSTIC AND TREATMENT CENTERS
(HEMOPHILIA CENTER GRANTS)

PROGRAM DESCRIPTION

To expand the nationwide availability of comprehensive outpatient diagnostic and treatment centers for persons with hemophilia, particularly in areas where there are the greatest number with severe or moderate cases of the condition.

USES AND USE RESTRICTIONS

Grants may be used to initiate or expand comprehensive diagnostic, and treatment centers for hemophilic patients. Grantee must provide: (1) access to services for all individuals with hemophilia in the project's catchment area; (2) programs for the training of professional and paraprofessional personnel in hemophilia diagnosis and treatment for those treated on an outpatient basis; (4) programs for association with providers of health care who are treating hemophiliacs in areas close to the target area; (5) programs of social and vocational counseling including genetic counseling; (6) written comprehensive care programs for each individual; and (7) training in home care.

TYPES OF ASSISTANCE

Project Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
State and local governments, public and nonprofit entities. Profit-making organizations are not eligible.

BENEFICIARY ELIGIBILITY:
Persons of any age with suspected mild, moderate, or severe hemophilia residing in the geographic area served by the project or its area of association.

APPLICATION PROCEDURE

State and local governments must prepare Form HEW 5161-1, Application for Federal Assistance (Nonconstruction). Other eligible applicants must prepare Form PHS 5194, Grant Application for Health Services. Instructions and forms are available from the Bureau of Community Health Service.
APPROPRIATIONS

(Grants)
Fiscal Year 1977 $ 3,000,000

PROGRAM DESCRIPTION

To expand and develop home health agencies and services as defined under the Medicare program, and to provide funds for the training of professionals and paraprofessional personnel to provide home health services.

USES AND USE RESTRICTIONS

Grant funds may be used to hire professional personnel to provide home health services as defined and included within the Medicare program. Various support costs such as administration, procurement of technical assistance, and development of management and financial information systems can also be covered by the use of grant funds. Grants may also be awarded to organizational entities to assist in the training of professional and paraprofessional personnel to provide home health services as defined under Medicare. JOINT FUNDING: This program is considered suitable for joint funding with other closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111. For programs that are not identified as particularly suitable or eligible for joint funding, applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

TYPES OF ASSISTANCE

Project Grants:

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
State and local government entities and any public or private non-profit organization is eligible to receive a grant under the authorities of 602(a) and 602(b).

BENEFICIARY ELIGIBILITY:
The grantee must make the home health services available to all residents of its service area.

APPLICATION PROCEDURE

Each eligible applicant will receive a grant application kit from the Regional Office of Grants Management. Each application is reviewed within the Regional Office objective review system to determine that the applicant has met all of the requirements as described under the
regulations for the Home Health Services Grant Program. The grant application, if technically acceptable, is forwarded and reviewed by a Joint Central and Regional Office Review Committee to determine if there has been a uniform application of the home health services grant regulations. Monies are then allocated to each of the Regional Offices with preference being given to those approvable grant applications proposing to serve areas within a State which have a high percentage of elderly, medically indigent, or elderly indigent. This program is subject to the provisions of OMB Circular No. A-110.

HANDICAPPED MEDIA SERVICES AND CAPTIONED FILMS

(Captioned Films for the Deaf)

PROGRAM DESCRIPTION

To maintain a free loan service of captioned films and instructional media for the educational, cultural, and vocational enrichment of the deaf. Provide for acquisition and distribution of media materials and equipment; provide contracts and grants for research into the use of media, and train teachers, parents, and other in media utilization.

USES AND USE RESTRICTIONS

Contracts and grants may be given to conduct research in the use of educational and training films and other educational media for the handicapped. Contracts and grants also provide for the training of teachers, parents, and others who work with the handicapped in the use of educational media. The program is authorized to acquire, produce, and distribute films and other related media, and media equipment. The captioned general-interest films are limited to registered deaf users.

TYPES OF ASSISTANCE

Direct Payments for Specified Use; project grants (contracts)

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Public and private agencies, organization or groups may submit proposals and applications for projects to the Division of Media Services.

BENEFICIARY ELIGIBILITY:
Handicapped persons, their families, their actual or potential employers, those persons involved in activities for the advancement of the handicapped.

APPLICATION PROCEDURE

Current work is done almost exclusively through competitive contracts and grants. Periodically, a request for Proposals (RFP) is developed for a specific workscope and announced through publication in the "Commerce Business Daily" (CBD). Offerers submit proposals in response to the RFP. This program is subject to the provisions of OMB Circular A-110. Also, periodically, grant announcements appear in the Federal Register.
APPROPRIATIONS

(Direct payments)
Fiscal Year 1977  $19,000,000
Fiscal Year 1978 est.  $19,000,000
Fiscal Year 1979 est.  $19,000,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE:
$1,350 to $1,650,000; $250,000.

PROGRAM ACCOMPLISHMENTS

During fiscal year 1977 over 160 new general interest and educational titles were added to the captioned film library which reached over 1 million deaf, children and adults. Captioned news was broadcast five evenings weekly on 130 PBS stations and the closed captioning system was approved by the FCC. The Optacon, a device to permit blind persons with training to read ink print was initially distributed as part of a 3 year program. Development of public awareness programming to create a better understanding of the handicapped was begun. During fiscal year 1978 and 1979 it is anticipated that additional TV programming will result in expanded services and that a national information system on media and material for the handicapped will become operational. A new grant program has been initiated which included more than two dozen efforts in the areas of media research, development, demonstration and training for the handicapped.

HANDICAPPED INNOVATIVE PROGRAMS -
PROGRAMS FOR SEVERELY HANDICAPPED CHILDREN

13.568 (B)

PROGRAM DESCRIPTION

To improve and expand educational/training services for severely handicapped children and youth; and improve the general acceptance of such people by the general public, professionals, and possible employers.

USES AND USE RESTRICTIONS

Contracts must be designed to provide comprehensive diagnostic, prescriptive, education/training, and evaluative services to severely handicapped children and youth, in service training of staff, dissemination of materials and information, and construction. Research and teacher preparation are outside of program's intent, except to the extent necessary for support of the approvable program. Evidence of coordination of project with agencies serving the same population must be provided including the indication of consonance of the project with State planning for handicapped children. JOINT FUNDING: This program is considered suitable for joint funding with closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111. For programs that are not identified as suitable for joint funding, applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

TYPES OF ASSISTANCE

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Public and non-profit private agencies, organizations, or institutions, including State department of special education, intermediate or local educational agencies, institutions of higher learning professional organizations and volunteer associations.

BENEFICIARY ELIGIBILITY:
Severely handicapped children and youth who require special education/training and related services.
APPLICATION PROCEDURE

Request for proposals will be announced in the "Commerce Business Daily" with additional memos directed to those individuals and agencies known to have interest in the provisions of services to severely handicapped children. Copies of the project work statement will then be mailed to those who so request. This program is subject to the provisions of OMB Circular A-110.

APPROPRIATIONS

(Grants and Contracts)
Fiscal year 1977 $5,000,000
Fiscal year 1978 $5,000,000
Fiscal year 1979 est. $5,000,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE:
$24,000 to $190,000; $126,000.

PROGRAM ACCOMPLISHMENTS

In fiscal year 1978, direct educational services will be provided to 1,860 severely handicapped children and youth in a variety of educational settings - residential to day center. Indirect services will be provided to approximately 300 severely handicapped children and 120 professionals through outreach effort of validated programs. Additional in-service training will be provided to 100 professionals and 200 non-professionals. A national topical conference "Developing Effective Individualized Education Program for Severely Handicapped Children and Youth" was convened to assess the needs of severely handicapped children. In fiscal year 1979, it is anticipated that approximately 41 programs will be funded to direct attention to the severely handicapped population, ages 6-21. The primary focus for fiscal year 1979 will be to implement educational models designed to provide innovative approaches to educational/training practices to severely handicapped youth. The estimated total number of students to be served will be approximately 1,750 receiving direct services and 400 receiving indirect services. The new personnel-professional and paraprofessional to receive training will total approximately 100. Also, another national topical conference is planned to assess the needs of the parents of severely handicapped children.

REHABILITATION SERVICES AND FACILITIES SPECIAL PROJECTS
(REHABILITATION SERVICES PROJECTS)

PROGRAM DESCRIPTION

To provide funds to State vocational rehabilitation agencies and public or nonprofit organizations for projects and demonstrations which hold promise of expanding and otherwise improving services for the mentally and physically handicapped over and above those provided by the Basic Support Program Administered by states.

USES AND USE RESTRICTIONS

Client assistance, projects with industry, training services, facilities improvement, technical assistance severely disabled, and migrant workers: Grants must substantially contribute to solution of vocational rehabilitation problems common to the total physically and mentally handicapped population. For example: Projects to prepare handicapped individuals for gainful employment in the competitive labor market; payment to cover cost of planning, preparing, and initiating services for the handicapped; cost or recruiting and training individuals for new career opportunities for the handicapped in the fields of rehabilitation, health, welfare, safety, and law enforcement; technical assistance to states in developing programs to fit these criteria. Staffing of facilities: Grants must assure that the facility constructed will be used as a public nonprofit rehabilitation facility for at least 20 years; meets the standards of safety for rehabilitation facilities and specifications established by HEW and State; and that labor costs, etc., meet HEW and State regulations. Facility improvement: Funds may be awarded when HEW is assured that the purpose of the project is to prepare the handicapped for gainful employment. Funds may be used to analyze, improve, and increase professional services staff, and to provide technical assistance to rehabilitation facilities through the purchase of services of experts and others including per diem, travel expenses, etc. JOINT FUNDING: This program is considered particularly suitable (eligible) for joint funding with other closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111. For programs that are not identified as particularly suitable or eligible for joint funding, applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

TYPES OF ASSISTANCE

Project Grants; (Contracts).
ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Projects, with industry-employees and other organizations, and all other public or private nonprofit institutions or organizations. Grants cannot be made directly to individuals.

BENEFICIARY ELIGIBILITY:
Physically, mentally, or emotionally handicapped persons, with emphasis on those with the most severe disabilities.

APPLICATION PROCEDURE

State vocational rehabilitation agency approved applications should be submitted to the Office of Human Development Regional Office for project grants or, in certain cases to: Director Division of Grants and Contracts, Office of Human Development, Department of Health Education and Welfare, Room 1427, 330 C Street, SW, Washington, D.C. 20201. This program is subject to the provisions of OMB Circular No. A-110 and A-102.

APPROPRIATIONS

(Grants)
Fiscal year 1977 $29,291,000
Fiscal year 1978 est. $30,053,000
Fiscal year 1979 est. $29,830,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE:
Variable.

PROGRAM ACCOMPLISHMENTS

Rehabilitation services projects because they support basic State grant programs are essential to the overall program accomplishment of the rehabilitation services and facilities programs. In fiscal year 1977, 1,740,000 persons received services, and 291,202 were rehabilitated. Estimates for fiscal year 1978 indicate that 1,545,000 persons will receive services and approximately 283,000 persons will be rehabilitated. In addition, the rehabilitation services projects are being directed toward rehabilitation of the severely handicapped and the disabled public. It is estimated that 1,720,000 persons will receive services in fiscal year 1979, and it is estimated that 277,000 persons will be rehabilitated in fiscal year 1979.

PROGRAM DESCRIPTION

Research for mother and children strives to improve the health and well-being of mothers, children, and families as the key to assuring a healthy adult population. Research in this field studies the health problems of a period of life from conception through adolescence and centers on the major problems of pregnancy and infancy, developmental biology and nutrition, human learning and behavior, and mental retardation and developmental disabilities.

USES AND USE RESTRICTIONS

Contracts: Research contracts are available to educational, nonprofit institutions and commercial organizations and are subject to the provisions of the Federal Procurement Regulations as interpreted by HEW Procurement Regulations and NIH Contracting Policy. All proposals are treated as privileged communications. Research Grants: Grantee agrees to administer the grant in accordance with the regulations and policies governing the research grants program of the Public Health Service as stated in the terms and conditions of the application for the grant. National Research Service Awards: Awarded to individuals for full-time research training in specified biomedical shortage areas. Awardees may utilize some of their time in academic and clinical duties if such work is closely related to their research training. Awards may be made to institutions to enable them to make NRS awards to individuals selected by them. Each individual awardee is obligated upon termination of the award to comply with certain service and payback provisions. JOINT FUNDING: This program is considered suitable for joint funding with closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111. For programs that are not identified as suitable for joint funding, the applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

TYPES OF ASSISTANCE

Project Grants; Research Contracts.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:

Contracts: Universities, colleges, medical, dental, and nursing schools, schools of public health, laboratories, hospitals, State and local health departments, other public or private nonprofit institutions, and Commercial organizations. Grants: Universities,
colleges, medical, dental and nursing schools, schools of public health, laboratories, hospitals, state and local health departments, other public or private nonprofit institutions, and individuals. National Research Service Award: Support is provided for academic and research training only, in health and health-related areas which are periodically specified by the National Institutes of Health. (See preapplication coordination). Individuals with a professional or scientific degree are eligible (M.D., Ph.D., D.D.S., D.P., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree). Proposed study must result in biomedical research training in specified shortage areas, and may offer opportunity to research health scientists, research clinicians, etc., to broaden their scientific background, or to extend their potential for research in health-related areas. Applicants must be citizens of the United States, or be admitted to the United States for permanent residency; they also must be nominated and sponsored by a public or private nonprofit institution having staff and facilities suitable to the proposed research training. Nonprofit domestic organizations may apply for the institutional NRS grant.

BENEFICIARY ELIGIBILITY:
Same as Applicant Eligibility.

APPLICATION PROCEDURE

Contracts: Research proposals are submitted in response to request for proposals. Grants: The Research Grants Review Branch, Division of Research Grants, National Institutes of Health, Bethesda, MD. All completed NIH 398 applications are to be submitted to the Division of Research Grants. Research Service Award: Application forms and information concerning current areas of science being supported are available from the Division of Research Grants, Bethesda, MD 20014, and should be submitted to the appropriate subject training center.

Research in the field of maternal health has shed new light on how and when diabetes in a pregnant woman affects the fetus. Child health research has led to the discovery of a fetal substance that may play a role in initiation of human labor, and possible causes of SIDS have been studied. Recent studies supported by the Institute have shown that mental retardation can result from the complex interaction of many biological and behavioral factors. Research has advanced on the causes of poor reading skills in children and on how socioeconomic factors affect obesity in children. In fiscal year 1977, 739 grants and 35 contracts were awarded. In fiscal year 1978, 746 grants and 41 contracts are estimated. In fiscal year 1979, 985 grants and 45 contracts are estimated.

PROGRAM DESCRIPTION

To aid lower-income families in obtaining decent, safe and sanitary housing in private accommodations and of promoting economically mixed housing through existing, newly constructed, and substantially rehabilitated housing.

USES AND USE RESTRICTIONS

Provides housing assistance payments to participating private owners and Public Housing Agencies to provide decent, safe and sanitary housing for lower and very low-income families, at rents they can afford. Housing assistance payments are used to make up the difference between the maximum approved rent due to the owner for the dwelling unit and the occupant family's required contribution towards rent. Assisted families are required to contribute not less than 15, not more than 25 percent of their adjusted family income toward rent.

TYPES OF ASSISTANCE

Project Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:

Any private owner, (profit-motivated and non-profit, cooperative, or an authorized public housing agency (any State, county, municipality or other governmental entity or public body (or agency or instrumentality thereof) which is authorized to engage in or assist in the development of operation of housing for low income families).

BENEFICIARY ELIGIBILITY:

Very low-income families (whose income does not exceed 50 percent of the median income for the area as determined by the Secretary with adjustments for smaller and large families); lower income families (whose income does not exceed 80 percent of the median income for the area). Within income limits as defined by HUD, a single person who is elderly, disabled or handicapped, displaced, or the remaining member of an eligible tenant family is also eligible.
APPLICATION PROCEDURE

Submission of Application for Housing Assistance Payments Program (Form HUD-52515), Existing Housing; Submission for Assignment of Portion of Set-Aside to Specific Project, Housing Finance or Development Agencies (Form HUD-52516); and submission of Preliminary Proposals in response to a HUD "Notification of Fund Availability" or other invitation for newly constructed and/or substantially rehabilitated units.

APPROPRIATIONS

(Grants)
Fiscal year 1977 $1,093,104,000
Fiscal year 1978 est. $1,875,000,000
Fiscal year 1979 est. $2,231,000,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE:
Amount necessary to lease units and cover related management and maintenance operating expenses including utilities, not to exceed HUD approved reasonable rents for newly constructed or existing comparable units, offering equivalent accommodations, utilities and services, for the housing area in which the units will be located.

PROGRAM ACCOMPLISHMENTS

During fiscal year 1977, a total of 330,977 units received contract authority reservations under this program.

PROGRAM DESCRIPTION

To assist communities including decent housing and a suitable living environment, and expand economic opportunities, principally for persons of low income and moderate income.

USES AND USE RESTRICTIONS

Generally, as in the case of entitlement grants, most activity previously eligible under the categorical program consolidated under the Act, and defined by the statute and regulations may be carried out, i.e. acquisition, rehabilitation or construction of certain public works facilities and improvements, clearance, housing rehabilitation, code enforcement, relocation payments and assistance, administrative expenses, and completing existing urban renewal projects. Communities are restricted, from constructing or rehabilitating public facilities for the general conduct of government and certain community wide facilities, i.e. central libraries, stadiums, sports arenas, cultural centers, convention centers, and from underwriting the cost of constructing new housing or of making housing allowance or other income maintenance -- type payments.

JOINT FUNDING: This program is considered suitable for joint funding with closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111. For programs that are not identified as particularly suitable or eligible for joint funding, applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

CDBG Funds may be used for construction of, rehabilitation of, and site acquisition for "centers for the handicapped." The funds may also be used for the demolition of existing structures, conversion of existing structures and barrier removal for "centers for the handicapped." A "center for the handicapped" is defined as ... any single or multipurpose facility which seeks to assist persons with physical, mental, developmental and/or emotional impairments to become more functional members of the community by providing programs or services which may include, but are not limited to, recreation, education, health care, social development, independent living, physical rehabilitation and vocational rehabilitation, but excluding a facility, the primary function of which is, to provide residential care on a 24-hour day basis (such as a group home or halfway house). For example, a sheltered workshop would be a single purpose center for
the handicapped, and a facility providing several services for the handicapped would be a multi-purpose center for the handicapped, both of which are eligible for assistance.

TYPES OF ASSISTANCE

Project Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
All states, counties, and units of general local government, except metropolitan cities and urban counties, may apply for Small Cities Grants.

BENEFICIARY ELIGIBILITY:
See applicant eligibility.

APPLICATION PROCEDURE

Applicant must file a preapplication and if the preapplication rates high enough under the selection criteria, an invitation to submit a full application will be issued. The full application will be reviewed to assure that it meets all requirements including that of proposing an acceptable strategy for meeting the needs of low and moderate income families.

OUTDOOR RECREATION ACQUISITION, DEVELOPMENT. OMB 15.400 (B) AND PLANNING
(Land and Water Conservation Fund Grants)

PROGRAM DESCRIPTION

To provide financial assistance to the states and their political subdivisions for the preparation of comprehensive statewide outdoor recreation plans and acquisition and development of outdoor recreation areas and facilities for the general public, to meet current and future needs. And to assist in the rehabilitation and modification of existing facilities to provide for the removal of architectural barriers.

USES AND USE RESTRICTIONS

Acquisition and development grants may be used for a wide range of outdoor recreation projects, such as picnic areas, inner city parks, campgrounds, tennis courts, boat launching ramps, bike trails, outdoor swimming pools, and support facilities such as roads, water supply, etc. Facilities must be open to the general public and not limited to special groups. Development of basic rather than elaborate facilities is favored. Priority consideration generally is given to projects serving urban populations. Fund monies are not available for the operation and maintenance of facilities. Grants are also available to states only for revising and updating existing State outdoor recreation plans, preparation of new plans and for statewide planning purposes which are clearly related to the refinement and improvement of the State outdoor recreation plan. JOINT FUNDING: This program is considered suitable for joint funding with closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111.

TYPES OF ASSISTANCE

Project Grants.

ELIGIBILITY REQUIREMENTS

For planning grants, only the State agency formally designated by the governor or State laws as responsible for the preparation and maintenance of the Statewide Comprehensive Outdoor Recreation Plan is eligible to apply. (Treated as states in this regard are the District of Columbia, Puerto Rico, the Virgin Islands, American Samoa, and Guam.) For acquisition and development grants, the above designated agency may apply for assistance for itself, or on behalf of other State agencies or political subdivisions, such as cities, counties,
and park districts. Additionally, Indian tribes which are organized to govern themselves and perform the function of a municipal government qualify for assistance under the program. Individuals and private organizations are not eligible.

APPLICATION PROCEDURE

Project proposals are submitted to the Service through the State liaison officer designated by the Governor. The State liaison officer has the initial prerogative of determining acquisition and development project eligibility, priority need, and order of fund assistance within the State.

PROGRAM DESCRIPTION

To support employment and training studies to develop policy and programs for achieving the fullest utilization of the Nation's human resources; to improve and strengthen the functioning of the Nation's Employment and Training System. To develop new approaches to facilitate employment of the difficult to employ and to conduct R & D addressing the employment implications of long-term social and economic trends and forces.

USES AND USE RESTRICTIONS

(1) Research projects are for the purpose of development of employment and training knowledge with special emphasis on generalized policy and program applications. Studies may be limited to special areas only where they can be shown to provide a basis for generalized conclusions or to have application over a wide area. (2) Although service is not the primary function of experimental and demonstration projects, the demonstration population participating in them receives services specific to the project design. Projects focus on distinctive training or employment problems which are not being met effectively by established employment and training service programs and seek to determine how to meet such problems through new techniques. Funds can be used to finance all operating costs required by specified project designs (such as administrative costs, training, counseling, recruiting, job development, and placement). (3) Experimental and demonstration funds are concentrated on developing new techniques which might significantly guide overall policy and programming. They are not available to extend methods developed in some areas or occupation (even though such projects might have distinctive elements and be useful for the particular area) or to make up for what essentially are inadequacies in the level of resources available for manpower programs. Research and development projects facilitating the implementation of CETA State and local employment and training program operations are encouraged. Such projects should be of general applicability. JOINT FUNDING: This program is considered suitable for joint funding with closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111. For programs that are not identified as suitable for joint funding, applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

TYPES OF ASSISTANCE

Project Grants (Contracts).
ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Academic institutions, State and local government organizations and other organizations and individuals capable of fulfilling the objectives of the programs. There are no formal guidelines or conditions grantees must meet other than that they have demonstrated financial responsibility and competence to fulfill the terms of the contract or grant.

BENEFICIARY ELIGIBILITY:
In the case of research projects beneficiary eligibility is same as applicant eligibility. With respect to experimental and demonstration projects, eligibility is determined by the specific design of each project; this is a function of the objectives of the project and the characteristics of the target group.

APPLICATION PROCEDURE

(1) Research Projects -- made in the form of a proposal that complies with specific guidelines obtainable from the Employment and Training Administration Office of Research and Development. (2) Experimental and Demonstration projects -- preliminary proposals or full formal proposals may be submitted directly to headquarters office. No specific format required. For some types of projects, Research, Demonstration, and Experimentation requests for procurement may be issued; these specify application procedures for the particular project. This program is subject to the provisions of OMB Circular No. A-110.

APPROPRIATIONS

(Grants)
Fiscal Year 1977 $14,273,000
Fiscal Year 1978 est. $14,273,000
Fiscal Year 1979 est. $14,273,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE:
$1,000 to $1,000,000; $175,000. Research projects average somewhat less than experimental and demonstration projects.

PROGRAM ACCOMPLISHMENTS

In fiscal year 1977, approximately 129 new R&D or major modifications of existing projects were initiated. In fiscal year 1978, approximately 125 refunding and new R&D projects will be funded. Program activities estimated for fiscal year 1979, project 125 new and continuing undertakings.

PROGRAM DESCRIPTION

To provide, foster and promote, useful and part-time work opportunities in community service activities for low income persons who are 55 years old and older, this includes individuals with handicapping conditions, and who have poor employment prospects.

USES AND USE RESTRICTIONS

Organizations which receive project grants or contracts may use the funds to create and pay for part-time community service job positions for economically disadvantaged persons aged 55 and above. The individuals who are employed may be placed in work assignments at established local service agencies (e.g., school, hospitals, day care centers, park systems, etc.) or may be given work assignments in connection with newly formed or innovative community service projects. A portion of project funds may be used to provide participants with training, counseling, and other supportive services. Participants may not be employed in projects involving political activities, sectarian activities, or involving work which would ordinarily be performed by the private sector; nor may participants displace any employed worker or perform work which impairs existing contracts for service. JOINT FUNDING: This program is considered suitable for joint funding with closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111.

SECTION III

DIRECT PAYMENTS, DIRECT LOANS
AND
GUARANTEED OR INSURED LOANS
SECTION III
DIRECT PAYMENTS, DIRECT LOANS
AND
GUARANTEED OR INSURED LOANS

Introduction

The financial assistance programs described in this section provide either a direct cash payment to a disabled individual, his beneficiaries, or to a service provider; or, loans, either direct, guaranteed or insured, for assisting a disabled person in the purchasing or adaptation of a home, automobile or for starting a business. This section describes four types of direct financial payment and loan programs designated D, C, E, or F.

(D) Direct Payments with Unrestricted Use: Payments go to individuals who meet certain eligibility requirements such as level of income and assets for Supplemental Security Income payments, or miners afflicted with Black Lung Disease. The money can be used for any purpose the individual sees fit.

(C) Direct Payments for Specific Use: Payments by the Federal Government go directly to individuals, private firms, and institutions (such as hospitals and nursing homes) to pay for specific purposes such as medical expenses, or to purchase an automobile for certain disabled veterans.

(E) Direct Loans are made to individuals for setting up a small business or to help disabled veterans to acquire suitable housing, or to private non-profit corporations and consumer cooperatives for construction or rehabilitation of rental housing for the elderly and handicapped.

(F) Guaranteed or Insured Loans: The Federal Government guarantees or insures lenders or employers against losses through default on loans they make to Federally endorsed groups or for Federally endorsed purposes. Numerous agencies and departments of the Federal Government administer the nearly twenty programs described in this section. The Veterans Administration (VA) also provides extensive programs of compensation for service-connected permanent or partial disability. Direct loans are also available under the Veterans Housing Program for disabled veterans with other-than-dishonorable discharges from the service.
The Department of Housing and Urban Development (HUD) administers two housing programs of relevance to persons with a disability. Under Section 202, direct loans are provided to eligible applicants for promoting the provision of suitable rental housing for physically handicapped or developmentally disabled persons. Guaranteed or insured mortgage insurance loans for home construction and remodeling are also administered by the HUD with specific eligibility provided for elderly persons and for persons with handicaps.

The Health Care Financing Administration administers the Medicare program, which provides direct hospital insurance payments for this specific use to persons over 65 and for some stipulated disabilities, such as kidney disease. Under the Social Security Administration’s (SSA) Program of Disability Insurance, part of the potential earnings of a physically or mentally disabled worker may be replaced through unrestricted cash payments. The Supplemental Security Income program provides unrestricted direct cash payments specifically to blind, disabled or aged persons with limited incomes. A special program of unrestricted cash payments is also available through the SSA to coal miners disabled through Black Lung Disease. The Department of Labor’s Employment Standards Administration administers a coal miners worker’s compensation program as well.

Other programs described in this section include direct payment to foster and institutional care programs for handicapped children administered by the Department of the Interior’s Bureau of Indian Affairs; a special rehabilitation program for Social Security disability beneficiaries administered by the HEW Office of Human Development Services; and, a program of direct loans and loan guarantees for handicapped-run companies administered by the Small Business Administration.

LOW TO MODERATE INCOME HOUSING LOANS 10.410 (F)
(Rural Housing Loans—Section 502)

PROGRAM DESCRIPTION

To assist rural families, including those of handicapped individuals, obtain decent, safe, and sanitary dwellings and related facilities.

USES AND USE RESTRICTIONS

The loans may be used for: Construction, repair or purchase of housing; provide necessary and adequate sewage disposal facilities; water supply for the applicant and his family; and weatherization; purchase or install essential equipment which upon installation becomes part of the real estate; buy a site on which to place a dwelling for applicant's own use. Housing debts may under certain circumstances be refinanced. Restrictions on the use of the loans are that: a dwelling financed for a family with a low or moderate income must be modest in size, design and cost; an applicant must be without adequate housing or without sufficient resources to provide on his own account the necessary housing, or related facilities; and be unable to secure the necessary credit from other sources upon terms and conditions which he reasonably could be expected to fulfill; and the housing must be located in a place which is rural in character and does not exceed 10,000 population; or in a place whose population exceeds 10,000 but is not in excess of 20,000, provided the place is not in a Standard Metropolitan Statistical Area and has a serious lack of mortgage credit for low- and moderate-income families as determined by the Secretary of Agriculture and the Secretary of Housing and Urban Development.

ELIGIBILITY REQUIREMENTS

APPLICANT, ELIGIBILITY:
Be an owner or when the loan is closed, become the owner of a farm or nonfarm tract in a rural area. Be a citizen of the United States or reside in the United States after having been legally admitted for permanent residence or on indefinite parole. Have adequate and dependably available income to meet his operating and family living expenses, including taxes, insurance and maintenance, and repayments on debts including the proposed loan. Interest credits may under certain conditions, be granted to lower income families which will reduce the effective interest rate paid to as low as one percent, depending on the size of the loan and the size and income of the applicant family. There are no funds available at the present time for loans to families with the above moderate incomes.
Assistance is available in states, Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Marianas, and the Trust Territory of the Pacific Islands.

APPLICATION PROCEDURE

Filing an application Form FmHA 410-4 for nonfarm tracts or Form FmHA 410-1 for farms and loan applicants who derive a major portion of their income from farming and Preapplication Form AD-621 when for 10 or more units in the same subdivision, with the county office of the Farmers Home Administration serving the county where the dwelling is or will be located.

HEALTH CARE FINANCING ADMINISTRATION

MEDICARE-HOSPITAL INSURANCE 13.773 (C)

(Medicare)

PROGRAM DESCRIPTION

To provide hospital insurance protection for covered services to any person 65 or above and to certain disabled persons.

USES AND USE RESTRICTIONS

Hospital insurance benefits are paid to participating hospitals, skilled nursing facilities, and Home Health agencies to cover the reasonable cost of medically necessary services furnished to individuals entitled under this program.

TYPES OF ASSISTANCE

Direct Payments for Specified Use.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Persons 65 or over and certain disabled persons are eligible for hospital insurance protection. Nearly everyone who reached 65 before 1968 is eligible for hospital insurance, including people not eligible for cash social security benefits. A person reaching 65 in 1968 or after who is not eligible for cash benefits needs some work credit to qualify for hospital insurance benefits. The amount of work credit needed depends on age. Hospital insurance is also available to persons, age 65 or over, not otherwise eligible through payment of a monthly premium. Such coverage is voluntary. Persons under age 65 who have been entitled for at least 24 consecutive months to social security disability benefits or for 29 consecutive months to railroad retirement benefits based on disability, are eligible for hospital insurance benefits. Also, most people under age 65 who have chronic kidney disease and require kidney dialysis or transplant are eligible.

BENEFICIARY ELIGIBILITY:
Same as Applicant Eligibility.

APPLICATION PROCEDURE:
Telephone or visit the local social security office. Individuals entitled to social security or railroad retirement are enrolled without application.
OBLIGATIONS:
(Benefit Outlays)
Fiscal Year 1977  $14,905,842,000
Fiscal Year 1978 est.  $17,529,000,000
Fiscal Year 1979 est.  $20,543,000,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE:
Benefits may be paid for most of the reasonable costs of covered inpatient hospital services and post-hospital extended care services incurred in a benefit period. The beneficiary is responsible for $144 inpatient hospital deductible, a $36 per day coinsurance amount for the 61st through 90th day of inpatient hospital care, a $72 per day coinsurance amount for inpatient hospital care during the 61 lifetime reserve days, and a $18 per day coinsurance amount after 20 days of care in a skilled nursing facility. Post-hospital home health services are paid in full for 100 visits per benefit period.

PROGRAM ACCOMPLISHMENTS
In fiscal year 1978 it is estimated that 26,000,000 persons will be protected and 6,000,000 will have payments made in their behalf. In fiscal year 1979 it is estimated that the number protected will increase to 26,600,000.

PROGRAM DESCRIPTION

To provide insurance protection against most of the costs of health care to persons 65 or over and certain disabled persons who elect this coverage.

USES AND USE RESTRICTIONS

Benefits are paid on the basis of reasonable charges for covered services furnished by physicians and other suppliers of medical services to aged or disabled enrollees. Benefits are paid on the basis of reasonable costs for covered services furnished by participating providers such as hospitals, skilled nursing facilities and home health agencies.

TYPES OF ASSISTANCE

Direct Payments for Specified Use.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Persons who are eligible for hospital insurance benefits are eligible for supplementary medical insurance. This includes nearly all persons age 65 and over, and disabled persons under age 65 who have been entitled to social security disability benefits for 24 consecutive months, or railroad retirement disability benefits for 29 consecutive months. Most people under age 65 who have chronic kidney disease and require kidney dialysis or transplant also are eligible. The enrollee pays a monthly premium which is currently $7.20. On July 1, 1978, this premium will become $8.20. Some states pay the premium on behalf of qualifying individuals.

BENEFICIARY ELIGIBILITY:
Same as applicant eligibility.

APPLICATION PROCEDURE

Telephone or visit the local social security office. Persons entitled to hospital insurance are enrolled automatically for supplementary medical insurance. Since the program is voluntary, coverage may be declined.
APPROPRIATIONS

(Benefit outlays)
Fiscal Year 1977 $5,864,559,000
Fiscal Year 1978 est. $7,075,000,000
Fiscal Year 1979 est. $8,411,000,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE:
The beneficiary is responsible for meeting an annual $60 deductible before benefits may begin. Thereafter, Medicare pays 80 percent of the reasonable charges for covered services. Medicare pays 100 percent of reasonable charges for services to hospital inpatients by doctors in the field of radiology or pathology and after the $60 deductible, 100 percent of the costs for health services covered under the SMI program.

PROGRAM ACCOMPLISHMENTS

It is estimated that in fiscal year 1978, 25,700,000 persons will be enrolled for medical insurance, and 15,500,000 will have payments made in their behalf for covered services. In fiscal year 1979 the estimated number of enrollees will increase to 26,400,000.

SPECIAL BENEFITS FOR DISABLED COAL MINERS 13.806 (D)
("Black Lung" Benefits)

PROGRAM DESCRIPTION

To replace income lost to coal miners because they have become totally disabled due to pneumoconiosis (black lung disease), and replace income lost to widows of miners who were receiving black lung benefits when they died, totally disabled by this disease at the time of death, or who died because of this disease. Where no widow survives the miner, benefits are payable to a miner's children or, if none, to the miner's totally dependent parents or brothers and sisters in that order of priority. Benefits are also payable to children of a deceased widow who was entitled to black lung benefits at the time of her death.

USES AND USE RESTRICTIONS

Monthly cash benefits are paid to entitled coal miners, widows of coal miners and, under prescribed circumstances, to children, parents, brothers and sisters. There are no restrictions on the use of benefits.

TYPES OF ASSISTANCE

Direct Payments with Unrestricted Use

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
In order to become entitled, the miner must have become "totally disabled" (as defined in the Act) from black lung disease. The applicant may be able to work in areas other than coal mines and still be eligible for benefits. Widows of coal miners whose deaths or total disability at the time of death resulted from black lung disease are also eligible for benefits as are other categories of beneficiaries.

BENEFICIARY ELIGIBILITY:
Same as applicant eligibility.

APPLICATION PROCEDURE

Telephone or visit the local social security office. Applicant may also contact the Department of Labor.
APPROPRIATIONS

(Benefit outlays)
Fiscal Year 1977. $944,299,000
Fiscal Year 1978 est. $968,000,000
Fiscal Year 1979 est. $988,000,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE:
Benefits payable to miners or widows are increased when there are dependents in the family. The average family benefit in fiscal year 1977 was $291 per month, and in fiscal year 1978 the average family benefit will be $312 per month.

PROGRAM ACCOMPLISHMENTS

It is estimated that at the end of fiscal year 1978, 467,000 miners, widows and dependents will be receiving monthly cash benefits under this program, and that at the end of fiscal year 1979 the number will decrease to 445,000.

SUPPLEMENTAL SECURITY INCOME 13.807 (D)

PROGRAM DESCRIPTION

To provide supplemental income to persons aged 65 and over and to persons blind or disabled.

USES AND USE RESTRICTIONS

Supplemental security income payments are made to persons who have attained age 65 or who are blind or disabled. There are no restrictions on the use of benefits received by beneficiaries.

TYPES OF ASSISTANCE

Direct Payments with Unrestricted Use.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
The eligibility of an individual who has attained age 65 or who is blind or disabled is determined on the basis of monthly income and resources. In determining income, the first $20 of social security or other income would not be counted. An additional $65 of earned income, plus one-half of any monthly earnings above $65, would also not be counted. If, after these exclusions, an individual's countable income is less than $177.80 a month ($266.70 for a couple both of whom are categorized as above) and resources are less than $1,500 ($2,250 for a couple), the individual is eligible for payments. The value of household goods, personal effects, an automobile, and property needed for self support are, if found reasonable, excluded in determining value of resources. Life insurance policies with face value of $1,500 or less and the value of a home are excluded in resource valuation.

BENEFICIARY ELIGIBILITY:
Same as applicant eligibility.

APPLICATION PROCEDURE

Telephone or visit the local Social Security Office.

APPROPRIATIONS

(Benefit outlays)
Fiscal Year 1977 $4,615,345,000
Fiscal Year 1978 est. $5,305,000,000
Fiscal Year 1979 est. $4,820,000,000
RANGE AND AVERAGE OF FINANCIAL ASSISTANCE:
Monthly Federal cash payments range from $1 to $177.80 for a single person and $1 to $255.70 for a couple depending on other income and resources.

PROGRAM ACCOMPLISHMENTS

It is estimated that in fiscal year 1978, an average of 4,234,000 recipients will receive monthly cash benefits. During 1979, the number receiving payments is estimated to increase to 4,257,000.

PROPERTY IMPROVEMENT LOAN INSURANCE FOR IMPROVING 14.142 (J) ALL EXISTING STRUCTURES AND BUILDING OF NEW NONRESIDENTIAL STRUCTURES

PROGRAM DESCRIPTION

To facilitate the financing of improvements to homes and other existing structures and the erection of new nonresidential structures.

USES AND USE RESTRICTIONS

HUD insures lenders against losses on loans. Insured loans may be used to finance alterations, repairs, and improvements for existing structures and the erection of new nonresidential structures which substantially protect or improve the basic livability or utility of the properties. This program can be applied to barrier-removal of hazards or inconvenient features of housing for handicapped individuals. It includes alterations to the interior of a dwelling to increase its accessibility, livability and usefulness, as well as for the purchase of dishwashers, refrigerators, freezers, and ovens that are built into the house and are not free-standing. The maximum dollar amount for such loans is $10,000, for an individual home and $5,000 a unit, not to exceed $25,000, for a residence for two or more families. Improvements can be handled on a do-it-yourself basis or through a contractor. The loan can be used to pay for materials and labor as well as architectural and engineering costs and building permit fees.

TYPES OF ASSISTANCE

Guaranteed/Insured Loans.

ELIGIBILITY REQUIREMENTS

Eligible borrowers include the owner of the property to be improved or a lessee having a lease extending at least 6 months beyond maturity of the loan.

PROGRAM DESCRIPTION

To assist certain totally disabled veterans in acquiring suitable housing units, with special fixtures and facilities made necessary by the nature of the veterans' disabilities.

USES AND USE RESTRICTIONS

The program provides 50 percent of the cost to the veteran of the housing unit, land, fixtures, and allowable expenses, not to exceed $25,000. The money may be used for assistance in (a) construction of a suitable home on land to be acquired by the veteran, or (b) construction of a home on suitable land owned by the veteran, or (c) remodeling an existing home if it can be suitably adapted, or (d) for application against an outstanding mortgage on a specially adapted home owned by the veteran. In computing the amount of the grant payable to a veteran, the housing unit cost may include incidental expenses such as connections or extensions to public facilities, customary attorney's, architect's, loan closing and other service fees. Restrictions on the use of a grant are that if a loan is necessary to supplement the grant, monthly payments on and the cost of maintaining the housing unit must bear a proper relation to the veteran's present and prospective income; the housing unit must be suitable for the veteran's special dwelling needs; the veteran's acquired interest in or title to the property must meet standards generally acceptable to informed real estate market participants in the locality of property.

TYPES OF ASSISTANCE

Direct Payments for Specified Use.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Veterans with permanent, total and compensation disabilities based on service after April 20, 1898, due to (a) loss or loss of use of both lower extremities to an extent precluding locomotion without braces, canes, crutches or wheelchairs, or (b) blindness in both eyes, having only light perception, plus loss or loss of use of one lower extremity, or (c) or loss of use of one lower extremity with residuals or organic disease or injury affecting balance or propulsion so as to preclude locomotion without resort to wheelchairs. It must be medically feasible for the veteran to reside in the proposed or existing housing unit, and in the locality.
BENEFICIARY ELIGIBILITY:
Same as applicant eligibility.

APPROPRIATIONS

(Direct payments)
Fiscal Year 1977 $14,254,830
Fiscal Year 1978 est. $22,300,000
Fiscal Year 1979 est. $21,750,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE
Up to $25,000; $25,000.

PROGRAM ACCOMPLISHMENTS

In fiscal year 1977, 571 grants totaling $14,254,830 were made to disabled veterans. The fiscal year 1978 and 1979 outputs are expected to increase over fiscal year 1977 production to 892 and 870 grants respectively.

Program Description

To assist veterans, service persons, and certain unmarried widows and widowers of veterans in obtaining credit for the purchase of a mobile home on more liberal terms than are available to non-veterans.

Uses and Use Restrictions

VA may guarantee a lender against loss on a loan made to an eligible veteran to buy a new or used mobile home and to buy or improve a lot for placement of the mobile home. (Accessible mobile homes are on the market.) The mobile home lot loan may augment or be separate from the mobile home loan and may include installation of utility connections, sanitary facilities, paving and construction of a suitable pad. Restrictions on guaranteed GI mobile home loans are:

- the terms of repayment must bear a proper relationship to veteran's present and anticipated income and expenses;
- the veteran must certify that he or she intends to occupy the property as his or her home;
- the mobile home must contain living facilities for year round occupancy;
- used mobile homes must meet construction and acceptability standards. There are limitations on the term and maximum amount of a loan, depending on the purpose. For example, the range is from $12,500 for 12 years and 32 days in the case of a single-wide mobile home only to $27,500 for 20 years and 32 days for a double-wide unit and lot. The maximum for a lot only is $7,500 for 12 years and 32 days.

Types of Assistance

Guaranteed/Insured Loans.

Eligibility Requirements

Applicant Eligibility:

(a) Veterans who served on active duty on or after September 16, 1940 and were discharged or released under conditions other than dishonorable. Veterans of World War II or the Korean Conflict must have served on active duty 90 days or more. All other veterans must have served a minimum of 181 days on active duty; (b) any veteran in the above classes with less service but discharged with a service-connected disability; (c) unmarried widows and widowers of otherwise eligible veterans who dies in service of whose deaths were attributable to service connected disabilities; (d) service personnel who have served at least 181 days in active duty status; (e) the spouse of any member of the Armed Forces serving on active duty who is listed missing in action, or as a prisoner of war, and has been so listed...
for a total of more than 90 days. Applicants must have sufficient present and prospective income to meet loan repayment terms and have a satisfactory credit record. In addition, the eligible veteran must have a maximum home loan guarantee entitlement of $17,500 available for use.

**BENEFICIARY ELIGIBILITY:**
Same as Applicant Eligibility.

**APPLICATION PROCEDURE**

Eligible veterans should: (a) obtain a Certificate of Eligibility from the nearest VA regional office, (b) present it with the housing proposal to a private lender willing to make the loan. Application for guaranty is made by the lender to VA regional office having jurisdiction of the locality in which the mobile home is to be purchased.

SECTION IV
NON-FINANCIAL ASSISTANCE
SECTION IV
NON-FINANCIAL ASSISTANCE

Introduction

This section contains descriptions of about two dozen federal programs of non-financial federal assistance, such as handling of complaints, advice and technical assistance, information, and provision of specialized services. Programs may provide one or several types of such assistance, as designated below.

(K) Advisory Services and Counselling: Federal specialists make themselves available for counsel or advice/consultation with communities or individuals.

(L) Programs that publish and distribute specialized or technical information or data through clearinghouses, libraries or publication divisions.

(N) Investigation of Complaints: Claims made formally or informally charging that federal laws, policies or accepted procedures have been violated are administratively investigated by Federal agencies. Claims must come from outside of the Federal Government.

(J) Provision of Specialized Services: Federal personnel perform services for the benefit of communities or individuals such as the operation of special VA programs.

(I) Use of Property, Facility and Equipment, such as the loan of books for blind and handicapped individuals.

(H) Sale, Exchange, and Donation of Property and Goods: Programs which provide for the sale, exchange or donation of federal real property, personal property and other goods. Eligible recipients may be states, non-profit organizations, schools and institutions or individuals.

(O) Federal Employment: Direct assistance to handicapped individuals to obtain federal employment is provided.

Non-financial assistance for persons with disabilities is an important but somewhat arbitrary category of inclusion since several programs listed in this section also are authorized to enter into grants or contracts or to provide specific-use case assistance. Read the text carefully under the heading "Types of Assistance" to ascertain whether or not a program may actually provide for financial support.
Several programs promoting or insuring compliance with disability antidiscrimination legislation under various parts of the Rehabilitation Act of 1973 are presented in this section. For example, the Office for Civil Rights of the Department of Health, Education and Welfare is charged with enforcing Section 504 prohibiting discrimination in federally supported activities. Related, affirmative programs are administered by the Civil Service Commission, and, the Employment and Training Administration and Employment Standards Administration of the Department of Labor. Clearinghouse services are provided on general civil rights issues by the Commission on Civil Rights. The President's Committee on Employment of the Handicapped and the President's Committee on Mental Retardation are actively engaged in informational work in a variety of areas, including civil rights issues related to their specific areas of concern.

Contained also in this section are descriptions of a variety of inpatient and outpatient services provided to veterans. These specialized services include special rehabilitation aid for the blind veteran, domiciliary care, home care, hospitalization, nursing care, prosthetic, and rehabilitation services.

The disposition of real or personal property is described in this section. Both the General Services Administration and the Office of the Secretary of the Department of Health, Education and Welfare operate programs in which state or local governments or other specified entities are eligible for surplus property distribution programs. Emphasis is placed upon use of such donated property for health or educational purposes.

Books for persons with blindness or a physical handicap are provided by a Division within the Library of Congress and also through 56 regionally affiliated libraries and 98 subregional branches. Talking books, braille books, and talking book machines are utilized under this popular program.

PROGRAM DESCRIPTION

A program to insure that developments resulting from Government-sponsored aerospace research and development are made available to widest extent practical and appropriate for the nation's benefit. Among the goals of NASA's Technology Utilization Program are promotions in awareness of developments in medical, scientific, and educational communities. Biomedical Application teams assist medical and clinical researchers in defining technical problems and solving them using NASA developed technology.

Advances for the rehabilitation field extend aerospace innovations to application in rehabilitative services. This covers areas from bioengineering to human service delivery. Examples of assistance include: a voice-controlled wheelchair which responds to 35 one word commands such as "go", "stop", "forward"; Meals for the Homebound, food which can be easily prepared, is lightweight and designed for mailing as well as personal delivery and can be stored without refrigeration for as long as two years; Mobile Health Unit, a medical facility on wheels with communication gear for providing remote care activities (including diagnosis) to Indian Reservations.

USES AND USE RESTRICTIONS

Innovations, inventions, and improvements developed in the space program are brought to the attention of the public in several ways. NASA Tech Briefs is a free, indexed, quarterly journal containing articles which describe such innovations. Technological advances of special significance or complexity are published in the NASA SP series. NASA sponsored Industrial Application Centers offer specialized technical information services tailored to meet the needs of local industry, and NASA's Computer Software Management and Information Center (COSMIC) offers government computer programs to the public.

Dissemination of Technical Information.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:

Engineers and managers of domestic enterprises, professionals, and others involved in technology transfer are entitled to free subscriptions to NASA Tech Briefs. Technical information retrieval services and computer programs/documentation are available to domestic organization on a fee-paying basis.
BENEFICIARY ELIGIBILITY:

PROGRAM ACCOMPLISHMENTS

The NASA TU program has helped many industrial, educational, and governmental organizations develop new products, increase productivity, and reduce costs. Typically, the Technology Utilization Program provides user access to aerospace technology in support of technical problem-solving. For example, the Skylab heat pipe system, being adapted and applied to a thermal control system on the Alaskan Pipeline, will help maintain structural integrity and control the environment by preventing uncontrolled freezing and thawing of the permafrost. (In 1977, the six NASA Industrial Application Centers had approximately 80,000 clients interactions with industrial users). A new model from a major automobile manufacturer has been developed with the help of the NASTRAN computer program, one of 1,700 programs available from COSMIC, the Technology Utilization Office's software center. Domestic firms purchased 195 programs and related documentation of $289,000, contributing to the nation's industrial productivity. During the past year, more than 35,000 individuals and firms were given access to new product and process ideas and improvements resulting from NASA to new research and development by subscribing to Tech Briefs. Over 7,000 technical innovations from the space program have been published and are now available for use by American industry.

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

PROGRAM DESCRIPTION

The Board is primarily charged with assuring compliance with the standards of accessibility pursuant to the Architectural Barriers Act of 1968 (P.L. 90-480). The Act requires all buildings and facilities designed, constructed, altered, or leased wholly or in part by the Federal Government since August 12, 1968, to be accessible. Regulations were issued in December 1976 to implement Section 502 of the Rehabilitation Act of 1973 (P.L. 93-112), which established the Board. The Board is also responsible for investigating and examining alternative approaches to the architectural, transportation and attitudinal barriers confronting the handicapped individuals in public buildings and monuments, transportation, and residential and institutional housing. The Board determines what measures are being taken by other government and public and nonprofit agencies to prevent or eliminate barriers. It proposes ways to bring together groups whose cooperation is essential to effective and comprehensive action. The Board also recommends to the President and Congress such legislation and administrative action to eliminate barriers.

Member agencies of the Board include the Department of Health, Education, and Welfare, the Department of Transportation, General Services Administration, Department of the Interior, Department of Defense, Veterans Administration, U.S. Postal Service, the Department of Housing and Urban Development, and Department of Labor.

PROGRAM DESCRIPTION

To enforce Title VI of the Civil Rights Act of 1964, which prohibits Federal funds for programs that discriminate as to race, color, or national origin. Responsible for implementing Executive Order which prohibits discrimination in federally supported employment because of race, color, religion, sex or national origin. Also involves Titles VII and IX of the Education Amendments of 1972; the anti-sex discrimination provisions of the Comprehensive Health Manpower and Nurse Training Act of 1971; and the prohibition against discrimination against handicapped persons, Section 504 of the Rehabilitation Act of 1973.

USES AND USE RESTRICTIONS

The Department of Health, Education, and Welfare is responsible for assuring that HEW beneficiaries of federally-assisted programs receive benefits without discrimination. These benefits are provided through State agencies, school districts, nursing homes, skilled nursing facilities, medical laboratories, hospitals, colleges and universities, vocational centers, libraries, educational broadcasting facilities, day care centers and social service agencies, and recipients of Federal construction and non-construction contracts. Any person who believes that he or she has been discriminated against in the provision of these services as to sex, race, color, religion, national origin, or handicap may file a complaint of grievance with the Office for Civil Rights, Department of Health, Education, and Welfare. The Office will investigate and take corrective steps to assure equal opportunity. Individuals may also file complaints of discrimination in education programs or activities receiving Federal financial assistance. The office investigates patterns of discrimination and practices affecting classes of employees to ensure that Federal contractors and subcontractors do not practice discrimination in employment on the basis of race, color, religion, sex, national origin, or handicap and that they take affirmative action to ensure that employees are treated without regard to such factors. Individual complaints about employment discrimination should be made to the Equal Employment Opportunity Commission.

PROGRAM ACCOMPLISHMENTS

During fiscal year 1977, the majority of resources in the Office for Civil Rights were used to process complaints filed under the various statutory authorities. While the office had projected that 1,593 new complaints would be filed in 1977, 2,904 new complaints were actually received. End of the fiscal year information shows that 1,640 complaints were investigated. An increased 3,339 complaints were expected in fiscal year 1978. The increased number of complaints filed in recent years can be attributed to increased citizen awareness of their rights and new legislation passed by Congress prohibiting sex and handicap discrimination. The issuance of final regulations to implement Section 504 of the Rehabilitation Act, accomplished during fiscal year 1977, has greatly accelerated the complaint-filing trend as handicapped people become more aware of their full protection under the statute. To match the dramatic growth in individual complaints filed with the office, sweeping changes have been made in the complaint handling process to increase efficiency. These innovations, together with newly established productivity goals and hiring of additional staff will increase our compliance and enforcement efficiency by at least 30 percent. Court settlement: As a result of a settlement of three long-standing cases against the Department, the Office for Civil Rights will eliminate its backlog of complaints within two years, if possible. The settlement gives the office the opportunity to conduct about 270 self-initiated compliance reviews during fiscal year 1978. These compliance reviews are important since they address patterns of discrimination not related to many of the allegations received in complaints. Special funds cleared: About $5.86 million in special funds was awarded to 110 public school districts brought into compliance with civil rights laws by OCR negotiations. The funds, issued under the Emergency School Aid Act, are for projects that will eliminate or reduce minority group isolation. The Emergency School Aid Act program is actually administered by the Office of Education, but the Office for Civil Rights acts as a screening agency for new applications. In reviewing applications, OCR found 245 applications initially ineligible for the funds. One hundred ten applicants corrected the violations and were granted the money. Higher education desegregation:
The Office for Civil Rights has negotiated acceptable agreements on plans to desegregate the systems of higher education in Arkansas, Florida, Oklahoma and Georgia. As a result of these plans, equal education opportunity will be advanced for all citizens while allowing the states to maintain standards of academic excellence. Technical assistance: On August 8, 1977, the Office for Civil Rights was given responsibility to develop a technical assistance program calling upon all the skills available throughout the Department to help HEW recipients comply with regulations. This program, now well under way, has already developed a number of intradepartmental projects to help recipients comply with new regulations affecting the rights of handicapped people. These include a survey of physical accessibility of schools, a review of the literature available on architectural barriers, and the provisions of "public awareness" materials. Annual Operating Plan: For a complete analysis of Office for Civil Rights activities for fiscal year 1978, see Annual Operating Plan for fiscal year 1978, FEDERAL REGISTER, Vol. 43, No. 34, Friday, February 17, 1978, at page 7048.

**PROGRAM ACCOMPLISHMENTS**

During fiscal year 1977, high priority was accorded to the trail of cases filed in previous fiscal years and to the enforcement and implementation of decrees entered in those areas. Among these cases were three which in total involved over one million employees in steel companies, trucking companies and unions. The Division initiated 12 new suits. In addition, new "pattern and practice" investigations were continued or undertaken, including ones of Statewide scope, which will lay the foundation for future suits where noncompliance with the law is established. Continuing priority was given to serving requests for "Right to Sue Notices" which, under under the EEO Act of 1975, can only be issued by the Department of Justice. The objective, first reached in fiscal year 1975 of reducing the time in which such requests were processed (including determining the identity and status of the charge involved before the EEOC) and the Notices issued to less than 20 days continued to be accomplished. Also, substantial progress was made in (1) reducing the time in which referrals from EEOC under Section 706 are acted upon to under 20 days of receipt and (2) in developing additional new suits under that Section.

PROGRAM DESCRIPTION

To provide protection of civil rights of those involuntarily confined in non-penal institutions.

USES AND USE RESTRICTIONS

The Office of Special Litigation utilizes the non-statutory authority of the Attorney General to bring suit to correct widespread deprivation of civil rights of persons who are involuntarily confined to non-penal institutions.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY
Any person filing a written complaint alleging violation of the civil rights of any involuntarily confined person (except prisoners) in the United States.

BENEFICIARY ELIGIBILITY:
Confined mentally retarded and mentally ill persons, juvenile delinquents, elderly persons and dependent or neglected children.

APPLICATION PROCEDURE
Not applicable.

APPROPRIATIONS
Not applicable.

PROGRAM ACCOMPLISHMENTS

The Office of Special Litigation was organized on September 1, 1974. From the time of its organization through August 1977, the Office of Special Litigation participated in 22 cases concerning the rights of mentally retarded persons, mentally ill persons, juvenile delinquents, dependent and neglected children, emotionally disturbed children, persons who are subject to medical experimentation, and elderly persons. The Office's participation in the landmark "Right to Treatment" case was continued, which has established minimal constitutional standards of treatment for the involuntarily civilly committed for purposes of receiving treatment; basic principles of due process require that treatment in fact be provided. This type of right to
treatment litigation was conducted in several other cases involving retarded persons and mentally ill persons. In one State case, it was contended that non-institutionalized retarded children of school age are entitled to public education on the same basis as non-retarded children are provided a public education. The office also participated in a "Right to Rehabilitation" case. The litigation in the right to treatment area has been particularly productive in establishing basic constitutional principles which have been followed by Federal courts and by several states in recently adopted legislative and administrative processes. The office is also participating in several cases to establish that basic procedural protection must be afforded during involuntary commitment proceedings and has so established in two cases to date.

PROGRAM ACCOMPLISHMENTS

On October 1, 1977, the number of Federal agencies responsible for monitoring contractor compliance efforts under the Executive Order was reduced from 16 to 11. During fiscal year 1977, an estimated 24,514 compliance reviews were conducted. It is projected that 24,891 reviews will be conducted in fiscal year 1978. The handicapped and veterans programs received and estimated 2,260 complaints of discrimination in fiscal year 1977. Sixty-seven percent of these have been resolved or closed. The construction compliance program under the Executive Order proposed new regulation, 41 CFR 60-4, setting goals and timetables for the employment of women in the construction industry. As of January 1, 1978, there were 74 hometown plans, government imposed area plans, and plans with special bid conditions in effect. A task force established to conduct a comprehensive review of OFCCP completed its examination and submitted its report.

To place persons in employment by providing a variety of placement-related services to job seekers and to employers seeking qualified individuals to fill job openings.

USES AND USE RESTRICTIONS

The United States Employment Service and its affiliated State agencies operate over 2,500 local offices to serve persons seeking or needing employment and employers seeking workers. The employment service is currently enhancing its placement capability by using computer technology to assist in matching applicants with job openings. General services to job seekers include outreach, interviewing, testing, counseling and referral to employment opportunities. Also, employment service staff in the local offices may be able to refer job seekers in need of specialized training or supportive services to local, State or Federal offices that are able to provide such services. General services to employers include providing a source of qualified applicants for job openings within the local area or, if necessary nationwide, and providing selected technical assistance in identifying and resolving internal workforce problems such as turnover, absenteeism, and special recruitment difficulties as well as assisting in the development of personnel management tools. The Employment Service system also provides specialized services which include: 1. Emphasis of services to special applicant groups such as veterans, migrant and seasonal farmworkers, handicapped job seekers, disadvantaged job seekers, youth, minorities and older workers. This includes special emphasis on counseling and assisting such workers to overcome barriers to employment which are unrelated to job performance. 2. Job information and service and labor market information. Job seekers and employers may obtain information pertaining to job opportunities, labor supply, labor market trends, the job market situation in particular industries, and the employment potential of unemployed workers and programs aimed at resolving these problems. 3. Certification of eligibility for rural business and development loans. The Employment Service provides certification to the Farmers Home Administration that rural loans or grants for business or community development will not have an adverse effect on the labor market or economy of the area where the business of community is located. Details of the program are found in program 10.422 (Catalog of Federal Domestic Assistance). 4. Trade readjustment assistance. The International Labor Affairs Bureau is the certifying authority for workers and businesses who claim to have been adversely affected by United States foreign trade policies. That process is described in program
Workers who have been laid off by firms which have been certified as adversely affected by foreign imports may receive specialized reemployment assistance and referral to training and supportive services from local employment service staff. **JOINT FUNDING:** This program is considered suitable for joint funding with closely related Federal financial assistance programs in accordance with the provisions of OMB Circular No. A-111. For programs that are not identified as suitable for joint funding, applicant may consult the headquarters or field office of the appropriate funding agency for further information on statutory or other restrictions involved.

EMPLOYMENT STANDARDS ADMINISTRATION

MINIMUM WAGE AND HOUR STANDARDS (Federal Wage - Hour Law)

17.303 (K)(N)

PROGRAM DESCRIPTION

To provide standards protecting wages of working persons by requiring a minimum hourly wage rate, overtime pay, and equal pay for men and women performing the same or substantially equal work. Additional standards apply to child labor.

USES AND USE RESTRICTIONS

Federal wage and hour standards apply generally to employees engaged in interstate or foreign commerce or in the production of goods for such commerce, or in enterprises so engaged. For nonfarm covered employment the minimum hourly wage is $2.65, with time and one-half required for hours worked over 40 in a work week. To the extent necessary to prevent curtailment of employment opportunity, certificates authorizing special minimum wage rates are issued for learners, handicapped workers, full-time students, student workers, and apprentices. Failure to comply with the child labor provisions of the Fair Labor Standards Act may result in an assessment of a civil money penalty not to exceed $1,000 for each violation. Employees of contractors performing on most federally financed or assisted construction projects, or providing goods or services under contract to Federal agencies, are subject to standards. These special standards require that employees receive no less than the wages and fringe benefits prevailing in the locality as determined by the Secretary of Labor, and that daily and weekly overtime compensation be paid. The Standards apply to performance on direct Federal contracts and also the most construction projects financed in whole or in part by the Federal Government (e.g., projects under the Revenue Sharing Act of 1972 and National Housing Act). For Federal and federally assisted construction and Federal service contracts subject to prevailing wage requirements, contracting agencies must request a wage determination.

TYPES OF ASSISTANCE

Advisory Services and Counseling; Investigation of Complaints.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:

Any covered employee, unless specifically exempt, is entitled to be paid in accordance with applicable monetary standards in the United States, District of Columbia, Puerto Rico, Virgin Islands, American
Samoa, Guam, Wake Island, Eniwetok Atoll, Kwajelein Atoll, Johnston Island, Canal Zone, and the Outer Continental Shelf lands defined in the Outer Continental Shelf Lands Act (Geographic application varies under the respective statutes and eligibility is dependent upon specific statutory language). For U.S. supply contracts over $10,000, applicant must be eligible as a manufacturer or regular dealer (41 CFR 50-201.101).

BENEFICIARY ELIGIBILITY
Same as applicant eligibility.

APPLICATION PROCEDURE

Persons having knowledge of wage and employment practices which are not in compliance with the minimum standards of these acts, and persons requesting additional information concerning these standards, are encouraged to write, telephone, or visit the nearest Wage and Hour Division Office listed in the appendix. Information should be provided describing the type of business and the nature of the work performed. The names of persons making inquiries are treated in complete confidence. For Federal construction contracts or Federal service contracts subject to prevailing wage requirements, the contracting agency must request a wage determination from the Wage and Hour Division. The wage determination must be furnished to bidders and is made a part of the contract.

FEDERAL EMPLOYMENT FOR THE HANDICAPPED 27.005 (0)

(Selective Placement Programs)

PROGRAM DESCRIPTION

To provide assistance to handicapped persons in obtaining Federal employment.

USES AND USE RESTRICTIONS

The Federal Government provides employment opportunities to the physically handicapped, the mentally retarded, and the mentally restored in positions for which they can qualify. The Selective Placement Program is specifically directed toward the utilization of all groups of handicapped in selected positions. It is concerned with referral, placement, trial appointments, and the retention of Federal employees who become disabled for one position, but may qualify for others. Each Federal employer has a Coordinator for Selective Placement with specific responsibility for assuring that qualified handicapped applicants receive full consideration for employment. Implementation of the program includes close working relationships with State vocational rehabilitation agencies, Veterans Administration facilities, and other public and private agencies concerned with rehabilitation of the handicapped. All Federal agencies and departments are required to submit annual affirmative action program plans for the hiring, placement, and advancement of handicapped individuals, including disabled veterans.

TYPES OF ASSISTANCE

The Interagency Committee on Handicapped Employees (ICHE) was established by section 501 of the Rehabilitation Act of 1973. The purpose of the Committee is to provide a focus for Federal and other employment of handicapped individuals and to review, in cooperation with the Civil Service Commission, the adequacy of hiring, placement, and advancement practices with respect to handicapped individuals in the Federal service. In addition, the ICHE is the vehicle for providing consultation to the Commission on the employment of disabled veterans as required by section 403 of the Vietnam Era Veterans' Readjustment Assistance Act of 1974.

The Committee is co-chaired by the Secretary of Health, Education, and Welfare and the Chairman of the Civil Service Commission. Other members are the Administrator of Veterans Affairs, the Secretary of Labor, the Secretary of Defense, the Administrator of General Services Administration, and the Chairman of the Federal Communications Commission.

ICHE goals are to increase employment of handicapped individuals and to assure an equitable, suitable, and functional work environment in the Federal service. The Committee makes recommendations addressing a variety of subject areas including:

- Attitudinal, procedural, architectural, communication, and transportation barriers;
- Collection of data on Federal employment of handicapped persons;
- Standards for evaluation of agency affirmative action plans and achievements in hiring, placing, and advancing handicapped individuals;
- "Reasonable accommodation" as defined in Title V regulations;
- The selective placement coordinator system;
- Training needs of handicapped Federal employees;
- Rehabilitation and retention of Federal employees who become disabled.
o special needs of disabled veterans;
o public awareness and public education.

APPROPRIATIONS

None. Staff resources are borrowed from Federal agencies. The Civil Service Commission houses the Office of the Secretariat of ICHE and allocates 2 1/2 professional staff years and the necessary clerical support.

PROGRAM ACCOMPLISHMENTS

More than 200 people have been directly involved in ICHE activities. They represent 28 Federal agencies and a variety of consumer and professional organizations in the private sector. The ICHE has adopted eight reports submitted by its work groups and has developed over 90 recommendations. Specific action has been taken in response to more than half the recommendations. The rest are under study or in the process of being implemented.

The Office of Independent Living for the Disabled (OILD) at the Department of Housing and Urban Development headquarters in Washington, D.C., has the leadership role within the Department to ensure that all HUD programs and services provide a real and meaningful response to the housing, community development and related needs of people with handicaps of any kind.

OILD was established in June, 1977 and has, as its primary goal, the function of raising the level of awareness of all HUD employees, program participants and the public at large of the needs of people with physical and mental disabilities.

To that purpose, OILD develops and evaluates HUD policies, standards, procedures and guidelines for HUD housing and community development programs which will allow people with handicaps to have accessibility to housing of their own choosing. And, OILD initiates training and information programs within the Department to ensure that HUD officials at all levels are aware of the needs of the disabled and the formal programs established to ensure full participation by the disabled in housing and community programs.

OILD also provides staff liaison with many other Federal governmental departments and agencies including the Architectural and Transportation Barriers Compliance Board, the President's Committee on Mental Retardation, and the President's Committee on Employment of the Handicapped.

OILD is not a granting or funding unit.

PROGRAM DESCRIPTION

To donate all available Federal surplus personal properties and convey all available surplus Federal real properties, which are needed and usable by eligible organizations and institutions to carry out health and educational programs.

USES AND USE RESTRICTIONS

Personal properties are donated to eligible institutions for use in carrying out health, educational, and civil preparedness programs. Distribution is by designated State agencies established in each state and to whom donees pay a nominal service charge to cover costs of care and handling. Items which cost the Government $2,500 or more are restricted for a period of 4 years to health or educational uses, the period varies in the case of motor vehicles, aircraft and certain vessels. Real property must be used for eligible health or educational purposes including research. It may consist of land with or without buildings and other improvements or buildings only. Conveyances are made by deed with a sale price based on the fair market value. A discount of up to 100 percent based on the proposed-use program is granted and applied against the sale price. This discount is earned by approved use over a 30-year period of restrictions.

TYPES OF ASSISTANCE

Sale, Exchange, or Donation of personal and goods.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
States, their political subdivisions and instrumentalities; tax-supported public health or educational institutions or those held exempt from taxation under section 501(e) (3) of the 1954 Internal Revenue Code.

BENEFICIARY ELIGIBILITY:
Anyone attending, working with or for, or served by the eligible applicants.

DISPOSAL OF FEDERAL SURPLUS REAL PROPERTY 39.002 (H)

PROGRAM DESCRIPTION

To dispose of surplus real property.

USES AND USE RESTRICTIONS

Surplus real property may be conveyed for: public park or recreation use and public health or educational purposes at discounts up to 100 percent; public airport purposes, wildlife conservation, replacement housing and for historic monument purposes without monetary consideration; and for general public purposes without restrictions at a price equal to the estimated fair market value of the property. Surplus real property may also be transferred to the Secretary of Housing and Urban Development at her request for sale or lease by her at its fair value for use in the provision of housing for families or individuals of low or moderate income and for related public facilities and for related commercial and industrial facilities approved by the Secretary. Restrictions: Surplus real property conveyed for public park or recreation use, historic monument, public airport use, and wildlife conservation use must be used for the purposes so conveyed in perpetuity and property conveyed for public health or educational purposes must be used for those purposes for a period of 30 years. Property conveyed to other than a public body for low or moderate income housing and related facilities must be used for this purpose for a period of not less than 40 years. Surplus real property which is not deeded to public bodies is generally offered for sale to the public on a competitive bid basis.

TYPES OF ASSISTANCE

Sale, Exchange or Donation of Property and Goods.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
States and local government agencies are eligible to apply for surplus real property for park, recreation, historic monument, public airport, health, educational, replacement housing, and general public purposes. Eligibility for property for wildlife conservation use is limited to the states. Tax-supported and nonprofit medical and educational institutions which have been held exempt from taxation under 501(c)(3) of the Internal Revenue Code are also eligible to apply for property for health and educational use. Public bodies or private individuals are eligible to apply for property for use in the provision of housing for families or individuals of low or moderate income, and for related public, commercial, and industrial facilities.
BENEFICIARY ELIGIBILITY:
The general public.

APPLICATION PROCEDURE

Applications for health or educational use are submitted to HEW which requests assignment of the property from GSA; applications for park and recreation use are submitted to the Heritage Conservation and Recreation Service which requests assignment of the property from GSA. Interest in acquiring surplus property for housing and related facilities should be expressed with the Administrator, Office of New Communities Administration, Department of Housing and Urban Development. Applications for other uses are submitted to GSA which then obtains the recommendation of the Federal agency which sponsors the use program.

To transfer surplus property to the states for distribution to State and local public agencies for public purposes or to certain nonprofit education and public activities; to public airports; and to educational activities of special interest to the armed services.

Surplus items are used by State and local public agencies for carrying out or promoting for residents of a given political area one or more public purposes such as conservation, parks and recreation, education, public health, public safety, and economic development; by certain non-profit, tax exempt educational or public health institutions or organizations; or by public airports for airport development, operation or maintenance. Federal restrictions require that all surplus property be placed into use by the donee within one year of acquisition and be used for one year thereafter. Other restrictions, terms and conditions are imposed by the agencies determining eligibility (shown under Applicant Eligibility, below). The following items are representative of those donated: office machines and supplies, furniture, hardware, textiles, special purpose motor vehicles, boats, airplanes, and construction equipment. Items not donated are made available for sale to the general public.

APPLICANT ELIGIBILITY:
(a) State participation is contingent upon the acceptance by the General Services Administration (GSA) of a State plan of operation as being in conformance with Public Law 94-519. This State plan must establish a State Agency which is responsible for distribution of Federal surplus personal property to eligible recipients within the State on a fair and equitable basis. Eligible categories for the distribution of property through the State agencies for surplus property are defined as: (i) Public agencies which include (i) any State or department, agency, or instrumentality thereof; (ii) political subdivision of the State, including any unit of local government or economic development district, or any department, agency or instrumentality thereof; (iii) instrumentality created by compact or other agreement between a State and political subdivision; (iv) multijurisdictional sub-State law; and (v) Indian tribe, band, group, pueblo, or community located on a state reservation. Eligibility for public agencies is determined by the State agency for surplus property.
(2) Nonprofit, tax-exempt schools; colleges, universities, public libraries, schools for the mentally retarded or physically handicapped, educational radio or TV stations, day care centers, museums, medical institutions, hospitals, health centers, and clinics. Eligibility for non-profit institutions and organizations is determined by the State agency for surplus property. (b) Service educational activities, including the American Red Cross, Boy Scouts of America, Boys' Clubs of America, Camp Fire Girls, Girl Scouts of the United States of America, Naval Sea Cadet Corps. United Service Organizations, Young Marines of the Marine Corps League, and schools with military-connected programs. Eligibility is determined by the Assistant Secretary of Defense (Manpower and Reserve Affairs and Logistics). (c) Public airports. Eligibility is determined by the Federal Aviation Administration. (d) Non-eligible institutions and organizations include charitable and purely domiciliary institutions such as old peoples' homes or orphanages; summer camps or clubs or playgrounds not part of a school; Sunday schools; veterans' organizations.
