The career/educational awareness teaching module is one of a series of six modules prepared by Project SPICE (Special Partnership in Career Education) as a means of providing career awareness information to educable mentally handicapped students (ages 11-to-13 years). After an overview, a module profile is provided which charts the activities and resources or materials needed. The objectives of the module are to enable the student to name 10 worker titles, name the school subject most needed by each, name the level of education required for each from a list of 10 worker titles, name three jobs which need the most education/training from a list of 10 worker titles, and name three jobs which need the least education/training from the same list. Appended are student resource materials. Also included is the Project SPICE Activity Book, which was designed to reinforce students' learning. (EHR)

ACKNOWLEDGMENTS

Many individuals contributed, either directly or indirectly, to the planning, development, implementation and evaluation of Project S.P.I.C.E. In a project of such large magnitude and short duration, it is seldom possible to acknowledge the efforts of all the persons who contributed to the project's success. Nonetheless, it is only appropriate to mention those whose efforts were essential to the project.

The administration and staff of the two pilot schools were extremely cooperative and helpful. Special appreciation is extended to Ms. Elinor Danglise, Ms. Linda Shelton and Mrs. Ruth Clifton, teachers of the project students, and to Mr. Henry W. Whites, Sr., Principal of Edith I. Starke Elementary School in DeLand and Mr. Robert A. Smith, Principal of George Marks Elementary School, also in DeLand.

Westside Elementary School in Daytona Beach was the comparison school for the project. Mr. John P. Vodenicker, Principal, and Mrs. Joyce Gettel, Mrs. Amye Hawthorne, Mrs. Vivian Watson, Mrs. Patricia Pensak, and Mr. Ben Broxton, teachers of comparison students, made many valuable contributions to the project.

Throughout the project, Mr. Gerald W. Elbers of the U.S. Office of Career Education provided timely advice and assistance. He was particularly helpful to the project staff in refining the primary and subordinate objectives for the project, and in developing a strategy for reporting project results. Most importantly, perhaps, he believed in the project.

Special appreciation is also acknowledged to the State of Florida, Department of Education, Mr. Ralph D. Turlington, Commissioner, for granting permission to reprint selected pages from the Employability Skills Series. These materials were developed by the Career Education Center of Florida State University and published by the Division of Vocational Education, Joe D. Mills, Director.

And, finally, none of the foregoing could have been brought to fruition without the tireless efforts of Mrs. Susan Bradley who typed the original drafts of the Final Report, the Guide to Program Implementation and the six Teaching Modules, Mrs. Carole Keough, who typed the final drafts, and Mr. Michael Horvath, Career Education Specialist with Volusia County Schools, who spent many hours reading and editing the final copy. Also, a special thank you to Mrs. Barbara Remnder, Staff Assistant for Volusia County Schools, who always found the answers to our most difficult problems.

Title VI of the Civil Rights Act of 1964 states: "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." Title IX of the Education Amendments of 1972, Public Law 92-318, states: "No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." Therefore, career education projects supported under Sections 402 and 404 of the Education Amendments of 1974, like every program or activity receiving financial assistance from the U.S. Department of Health, Education, and Welfare, must be operated in compliance with these laws.

The material in this publication was prepared pursuant to a grant from the Office of Education, U.S. Department of Health, Education, and Welfare. However, points of view or opinions expressed do not necessarily represent policies or positions of the Office of Education.

PROJECT S.P.I.C.E. ACTIVITY BOOK
INTRODUCTION

Project S.P.I.C.E. (Special Partnership In Career Education) was conceived as a means of providing career awareness information to intermediate aged educable mentally handicapped students. Six modules have been developed for the Project S.P.I.C.E. curriculum. These six modules are designed to meet the following elements of the National Standard Career Education Model:

1. Career Awareness
2. Educational Awareness
3. Economic Awareness
4. Beginning Competency
5. Decision Making
6. Employability Skills
7. Self Awareness
8. Attitudes and Appreciations

The six modules are entitled:

1. Self Awareness (Standard 7)
2. Career/Educational Awareness (Standards 1, 2)
3. Decision Making (Standards 4, 5)
4. Economic Awareness (Standard 3)
5. Employability Skills (Standard 6)
6. Rights and Responsibilities (Standard 8)

Each module follows the same format: an overview and an activities section.
The overview includes: Module Objective; Student Performance Objectives; Module Organization; Module Utilization; Assessing Student Activities.

Following the overview are the activities for the module.

The directions in the overview inform you of any necessary additional materials needed for the completion of the module. Also, estimated time spans are included to help you decide how the materials could be used in the classroom.

The modules are not intended to be strict rules for implementing a program; rather, they are to be considered as guidelines and suggestions. You should feel free to alter, add, exclude, or ignore any of the activities included in the modules.

Materials for the Project S.P.I.C.E. Curriculum include:

1. Original materials designed by Project S.P.I.C.E. personnel and teachers.

2. Materials adapted from The Valuing Approach to Career Education, 3-5 Series, published by Education Achievement Corporation.

4. Commercially produced materials from:
   Walt Disney Productions
   Society for Visual Education
   McDonald's Corporation
The career awareness program you establish for your students must meet their needs, just as Project S.P.I.C.E. met the needs of our students. Remember, Project S.P.I.C.E. is not a curriculum you introduce in place of an existing program but, more importantly, an integration into your on-going curriculum.

Welcome to Project S.P.I.C.E. We hope you find it as exciting and successful as we have.
OVERVIEW

MODULE OBJECTIVE

The student will demonstrate increased knowledge of the educational training for different types of careers and will expand his knowledge as to the variety of occupational choices available to him.

STUDENT PERFORMANCE OBJECTIVES

The student will be able to:

1. Name ten worker titles.
2. Name the school subject most needed by each.
3. Name the level of education required for each.
4. From a list of ten worker titles, name three who need the most education/training.
5. From a list of ten worker titles, name three who need the least education/training.

MODULE ORGANIZATION

This module is designed to help students become aware of career choices and the educational requirements for various careers. The module is comprised of two major activities: community career consultants and student projects. Suggestions for other activities are included. Peer interaction, parental involvement and classroom instruction are necessary to this module.

MODULE UTILIZATION

This module requires advanced planning and preparation. Contact with community career consultants should be made, dates specified for visits, and students prepared for participation in interviewing consultants prior to beginning the module.
The time span for implementation of the module should encompass the entire program time. All other modules are interrelated to information learned during this module.

**ASSESSING STUDENT ACHIEVEMENT**

Student achievement can be assessed in two ways: (A) by evaluating the quality of each student's participation in the activities of the module and (B) by administering the test, *Educational Progress In Careers* (EPIC).

(A) Students participate in a variety of learning activities including "hands-on" activities, all of which are intended to help students achieve one or more of the objectives. Thus, you may establish performance criteria for each activity and evaluate student achievement based upon a student's participation in the learning activities.

(B) Student attainment of the objectives for this module can be measured in part by M2, M3A, M3B of the EPIC Test battery included at the end of the module. Directions for test administration and copies of the test may be obtained from Dissemination/Diffusion Section, Division of Vocational Education, Department of Education, Tallahassee, Florida, 32304, or contact your local district administrator.

LEARNING ACTIVITIES

Student Performance Objectives: The student will be able to:

1. Name ten worker titles.
2. Name the school subject most needed by each.
3. Name the level of education required for each.
4. From a list of ten worker titles, name three who need the most education/training.
5. From a list of ten worker titles, name three who need the least education/training.

Activity One - Community Career Consultants

Introduce to the student the term community career consultant. Explain to the students that they will be talking with and learning from the consultants throughout the program. Stress the value of an on-site visit or an in-class visit by the consultant. Discuss the role the student will fill during the experiences and what information you expect them to gather.

Assist students in drafting questions that should be asked of the consultant. Simulate an interview so that the student becomes familiar and comfortable with asking questions of the consultant.

After each on-site visit or consultant visit to the classroom, each student should complete an occupational profile (see Project S.P.I.C.E. Adds Color to Your Future Activity Book).

Activity Two - Student Projects

Students participating in an on-site visit will be responsible for presenting information to the total group. Introduce this activity to the students by explaining their task of teaching the other students. Tell the students it is their responsibility to plan and prepare the presentation of information learned from their on-site visit.

Present a format the students may use in preparing the presentation. Also encourage originality. Secure the help of parents with special skills to train the students in how to effectively use cassette recorders, pictures, slides, etc., for their presentations. Arrange to have the media specialist work with the students in techniques of presentation.
Activity Three - Media

There are a multitude of filmsstrips, films, books, kits, videotapes, and other commercially-produced material which could be used in this module. The following is only a sampling of the available materials.

**FILMS:**
- Good Day's Work: Shrimping
  Educational Communications, Inc.
- Growing Up On The Farm Today
  Cintron Educational Films
- Manufacturing
  Encyclopedia Britannica Educational Corporation
- People Who Work In Factories
  Coronet Instructional Films
- Personal Service
  Encyclopedia Britannica Educational Corporation
- Public Service
  Encyclopedia Britannica Educational Corporation
- What Shall I Be?
  Coronet Instructional Films

**FILMSTRIPS:**
- Community Helpers Series, Set I, II
  McGraw-Hill Films
- People At Work Series, Sets I, II
  Educational Development Corporation

**KITS:**
- Valuing Approach To Career Education 3-5 Series
  Education Achievement Corporation

**STUDY PRINTS:**
- Dairy Helpers
  Society for Visual Education, Inc.
- Hospital Helpers
  Society for Visual Education, Inc.
- Neighborhood Friends and Helpers
  Society for Visual Education, Inc.

Activity Four - Reinforcement

The Project S.P.I.C.E. Adds Color to Your Future Activity Book is included in this module. Although we feel this is an excellent set of activities to reinforce students' learning, we also believe that students would benefit by constructing their own activity books, with the help of the teacher, aide, or parent. Crossword puzzles and hidden messages are
activities students enjoy. Assignments from the newspapers encourage students to read the paper. Students should be provided with opportunities to construct occupational profiles of most interest to them. You could then set up an occupation learning center where students could read and work through each other's activity books.
Test Administration

Pre-Test

By administering the four tests before using any activities in the module, you will have information concerning the student's present knowledge of careers, educational requirements and the ability to obtain career information.

Each test has directions printed on the test. For those students unable to read the test, it may be administered orally, with students circling the answer.

Post-Test

The post-test should be given at the conclusion of the module. The post-test is identical to the pre-test. Directions for administering the post-test are the same as for the pre-test.
M-3b - Education and Training Preparation

Directions: Read the list of 36 workers listed below, then mark only 10 out of 36 workers who need the least preparation for employment. For example:

- Supermarket Bagger

1) Advertising Layout Specialist
2) Air Conditioning Contractor
3) Architect
4) Assembly Line Worker
5) Auto Rental Agent
6) Barber
7) Bookkeeper
8) Carpenter
9) Cashier
10) Certified Public Accountant
11) Cosmetologist
12) Dentist
13) Industrial Relations Engineer
14) Inventory Clerk
15) Keypunch Operator
16) Longshore Worker
17) Mechanic
18) Mechanical Engineer
19) Optometrist
20) Pharmacist
21) Physician
22) Plumber
23) Postal Worker
24) Quality Control Technician
25) Sales Clerk
26) Sheet Metal Contractor
27) Shipping/Receiving Clerk
28) Stage Lighting Technician
29) Teacher
30) Tool and Die Maker
31) Truck Driver
32) Veterinarian
33) Water Meter Reader
34) Waiter or Waitress
35) Welder
36) X-Ray Technician

STOP

END OF SECTION - DO NOT TURN TO THE NEXT SECTION UNTIL TOLD TO DO SO.
You will have 10 minutes to complete this form.

Directions: Read the list of 36 workers listed below, then mark only 10 out of the 36 workers who need the most preparation for employment. For example:

- Lawyer

1) Advertising Layout Specialist
2) Air Conditioning Contractor
3) Architect
4) Assembly Line Worker
5) Auto Rental Agent
6) Barber
7) Bookkeeper
8) Carpenter
9) Cashier
10) Certified Public Accountant
11) Cosmetologist
12) Dentist
13) Industrial Relations Engineer
14) Inventory Clerk
15) Keypunch Operator
16) Longshore Worker
17) Mechanic
18) Mechanical Engineer
19) Optometrist
20) Pharmacist
21) Physician
22) Plumber
23) Postal Worker
24) Quality Control Technician
25) Sales Clerk
26) Sheet Metal Contractor
27) Shipping/Receiving Clerk
28) Stage Lighting Technician
29) Teacher
30) Tool and Die Maker
31) Truck Driver
32) Veterinarian
33) Water Meter Reader
34) Waiter or Waitress
35) Welder
36) X-Ray Technician

Note: Please turn the page over and continue.
M-2 - Worker Titles

Note: This instrument will be given to you by the teacher.

(Students are required to write as many worker titles as possible within a ten minute period.)
### ABILITY TO OBTAIN CAREER INFORMATION

**Instructions:** Indicate whether you agree, disagree or are undecided with the statements below concerning your ability to obtain information about a career in which you are interested. Place an X in one of the boxes.

<table>
<thead>
<tr>
<th>Statement</th>
<th>YES</th>
<th>UNDECIDED</th>
<th>NO</th>
</tr>
</thead>
<tbody>
<tr>
<td>1) I feel I can talk with workers or employers about jobs.</td>
<td></td>
<td></td>

BACKGROUND OF THE PROJECT

Project S.P.I.C.E. (Special Partnership In Career Education) is Volusia County's Career Education Program for Educable Mentally Handicapped Students. Funded as a demonstration project through the U.S. Office of Education's Career Education Program, Project S.P.I.C.E. is designed to develop and demonstrate the most effective methods and techniques for providing appropriate career education experiences for intermediate age educable mentally handicapped students.

An integral component of the program is the partnership established between the educable mentally handicapped students and their non-handicapped peers. Through this partnership, the career awareness information level and the career expectations of the EMH students has significantly increased and broadened.

As EMH and non-handicapped students work and learn together, mutual understanding and acceptance develops between them. They now appreciate the unique talents and abilities of each other and have developed positive attitudes toward each other.

The career awareness experience that has the greatest effect for both the EMH and non-handicapped students is to experience on-site visits and talk with community career consultants in the classroom. By receiving information directly from the world of work concerning employment opportunities and skills required, the students have a realistic basis for preparing for their futures. By greater involvement in the education program, community members develop a better understanding of the unique learning needs and abilities of EMH students as they take a part in preparing future employees to be productive members of the work force.

In interviewing community career consultants in the classroom or on-site, students receive vital information concerning occupations including: 1) the name of the occupation, 2) the educational and training requirements, 3) the duties, 4) the skills and 5) the most important school subject(s). By obtaining this kind of information about various occupations, students are better able to select an occupation or a cluster of occupations that are compatible with their interests, abilities and needs.
SPICE ADDS COLOR TO YOUR FUTURE: AN ACTIVITY BOOK contains a sampling of occupations SPICE students have explored. Occupational profiles were completed from interviews project students held with community career consultants during the project year.

The intent of the activity book is to inform and reinforce concepts learned by students about a variety of occupations found in the world of work. It also provides a stimulus for seeking out information about other occupations that could meet the students' interests, abilities, and needs.

A WORD ON SEX STEREOTYPING

There was no attempt to eliminate sex stereotyping in the job titles and illustrations drawn in this book. They reflect what students found to be typical in this day and time. There was an attempt, however, to eliminate sex stereotyping in the writeup of the occupational profiles. Throughout the project it was stressed to students that all jobs are open to both males and females as long as applicants qualify for a particular position.

 Appreciation is extended to Debby H. Emerson, Project S.P.I.C.E. Coordinator, for her initiative in compiling and organizing the information contained in this activity book; Susan J. Horvath, Career Education Specialist, for her technical and editorial assistance throughout the Project; Susan E. Bradley, Project S.P.I.C.E. Secretary, for typing the final draft; Cheryl Ballard, Graphics Artist, for the illustrations used throughout the book; R. Bruce Brown, Graphics Artist, for the cover design; and Mr. Dal Ritchey, Executive Director of the DeLand Chamber of Commerce, for his assistance in obtaining community resources.

June, 1978
ACKNOWLEDGMENTS

Special appreciation and thanks are extended to the following students, teachers, and principals for their contributions to the project. Without their willingness to participate, the project would not have been possible.

OCCUPATIONAL PROFILE

NAME OF OCCUPATION: Activities Director

PLACES OF EMPLOYMENT: Convalescent Center, Day Care Center, Cruise Ships, Camps, Colleges, Universities, Schools, Recreation Departments

EDUCATIONAL/TRAINING REQUIREMENTS: The activities director is required to have a high school education. Many employers want a director with a degree in recreation or related subjects from college.

DUTIES OF OCCUPATION: The activities director must plan and direct individual and group activities to help people better enjoy their free time and help people learn to use the equipment and rules in sports, games and other activities. The activities director develops new programs, organizes the daily activities, manages the facilities, supervises the workers, and orders and keeps records of supplies used.

SKILLS REQUIRED: Activities directors must be aware of the needs of other people and be able to work with them in order to get involvement in activities. The activities director must be in good health, be able to show initiative, be able to accept responsibility and make decisions.

MOST IMPORTANT SCHOOL SUBJECT(S): Physical Education & Arts & Crafts
OCCUPATIONAL PROFILE

NAME OF OCCUPATION: Auto Bodyman (Repairman)

PLACES OF EMPLOYMENT: Car or Truck Dealerships, Bus Lines, Independent Body Repair Shops, Companies with fleet of cars or trucks

EDUCATIONAL/TRAINING REQUIREMENTS: Most auto bodymen learn their skills on-the-job. Many vocational and technical schools offer courses in auto body repair. These courses help auto bodymen learn more about their jobs. Although a high school education is not required, many employers want employees who have graduated from high school.

DUTIES OF OCCUPATION: The auto body repairman fixes damaged cars or trucks.

SKILLS REQUIRED: The auto bodyman must be able to straighten bent frames of a car or truck, remove dents, weld torn metal and replace damaged parts. The auto bodyman must be in good physical condition.

TOOLS NEEDED: The auto bodyman must buy hand tools needed on the job. Usually the employer will buy the larger tools such as hydraulic jack, pneumatic hammer, acetylene torch and other power tools.

MOST IMPORTANT SCHOOL SUBJECT(S): Auto Body Repair
NAME OF OCCUPATION: Painter: Cars, Trucks

PLACES OF EMPLOYMENT: Manufacturers, Car Dealerships, Automobile Repair Shops

EDUCATIONAL/TRAINING REQUIREMENTS: Vocational school or on-the-job training is necessary for learning the skills of a painter.

DUTIES OF OCCUPATION: The painter must get the car/truck ready for painting. To get the vehicle ready, it must be roughsanded to get off the old paint and rust. Painters then spray on a first coat called a primer. Next the area must be sanded again until it is smooth. The painter applies the final coat of paint to the car or truck.

SKILLS REQUIRED: The painter must know how to use the tools to get the cars and trucks ready for painting and how to apply the paint. The painter must also know the different kinds of paint, how to use them and how to match colors.

MOST IMPORTANT SCHOOL SUBJECT: Automobile Repair Courses
OCCUPATIONAL PROFILE

NAME OF OCCUPATION: Mechanic

PLACES OF EMPLOYMENT: Car Dealerships, Car Repair Shops, Gasoline Service Stations, Government, Car Leasing Companies, Large companies with fleets of cars or trucks

EDUCATIONAL/TRAINING REQUIREMENTS: Most mechanics learn their skills on-the-job. Employers sometimes send mechanics to factory training centers to repair certain car models or to specialize in one area of car maintenance such as transmission specialist, radiator mechanic, glass mechanic, brake specialist, air conditioning specialist or front end mechanic.

DUTIES OF OCCUPATION: The mechanic must check the car for adjustments, repairs or replacement of parts.

SKILLS REQUIRED: The mechanic must be able to decide what is wrong with a car after an analysis of the problem and then use the correct tools and parts to correct the problem.

TOOLS NEEDED: The mechanic is responsible for buying the hand-tools needed on the job. The employer will buy the larger equipment necessary.

NAME OF OCCUPATION: Nurse

PLACES OF EMPLOYMENT: Hospitals, Nursing Homes, Government Agencies, Schools, Industry, Private Doctors, Private Clinics, Private Homes

EDUCATIONAL/TRAINING REQUIREMENTS: In the field of nursing, there are three types of nurses, 1) Registered Nurse, 2) Licensed Practical Nurse, and 3) Nurse's Aide. The Registered Nurse must complete four years of college, or three years of nursing education. The registered nurse must pass a test and be licensed by the state. A Licensed Practical Nurse must complete the eighth or ninth grade of high school and may be required by some states to complete high school. The LPN must complete a one-year training program which includes classroom study and clinical practice. The LPN must also pass a test and be licensed by the state. Nurse's Aides should have a high school education, however, it is not required. A nurse's aide learns the work on-the-job as well as through classroom instruction.

DUTIES OF OCCUPATION: Registered Nurses follow doctors' orders in giving out medicine and treatment. They see, evaluate and write down symptoms and progress of patients. The R.N. may also supervise LPN's and Nurse's Aides. The Licensed Practical Nurse takes and records temperature and blood pressure, changes bandages, and assists the doctor or R.N. in the care of patients. The Nurse's Aide serves meals, feeds patients, makes beds, bathes and dresses patients, gives massages, takes temperatures and assists patients in and out of bed. Other duties of Nurse's Aides depend upon the institution where they work.

SKILLS REQUIRED: The skills of nurses depend on the kind of nursing to which they are assigned. The nurse must be able to work well with others and get along with them. Nurses must be honest, trustworthy and sincere, be able to follow directions, and be able to work in emergency situations.

DUTIES OF OCCUPATION: The office manager is responsible for the operation of the office which includes planning, scheduling, and supervising the work of the office employees. The office manager must meet with others and write reports about the work being done in the office.

SKILLS REQUIRED: The office manager must have experience in the use of many of the skills required in an office. The office manager must be able to work well with other people and to work productively as a team.

MOST IMPORTANT SCHOOL SUBJECT(S): Language Arts
OFFICE MANAGER
OCCUPATIONAL PROFILE

NAME OF OCCUPATION: Bookkeeper

PLACES OF EMPLOYMENT: Retail Stores, Factories, Banks, Insurance Companies, Wholesale Firms, Hospitals and Schools

EDUCATIONAL/TRAINING REQUIREMENTS: A high school education is required. Many employers require bookkeepers to take business courses at a community college or business school. Some bookkeepers are trained on-the-job.

DUTIES OF OCCUPATION: The bookkeeper keeps records of the money taken in by the business and the money paid out. In recording the money the bookkeeper must show where the money came from and where it went. The bookkeeper may also write the bills to be mailed to customers. It is the responsibility of the bookkeeper to be sure the business accounts balance.

SKILLS REQUIRED: The bookkeeper must be able to work with numbers and be able to spend many hours at a desk doing paperwork. The bookkeeper must also know how to write in the journals, ledgers and other accounting forms. The bookkeeper must also know how to use bookkeeping machines, such as adding machines and calculators.

MOST IMPORTANT SCHOOL SUBJECT(S): Math

Bookkeepers who graduate from college can become accountants. Accountants who pass a certain test can become certified public accountants or C.P.A.'s.

Accountants must be able to prepare and analyze financial reports in addition to the record keeping that bookkeepers do.
OCCUPATIONAL PROFILE

NAME OF OCCUPATION: Secretary

PLACES OF EMPLOYMENT: Banks, Insurance Companies, Real Estate Firms, Doctors, Lawyers, Professionals, Schools, Retail Stores, and many other businesses.

EDUCATIONAL/TRAINING REQUIREMENTS: Most businesses require secretaries to be high school graduates. Many secretaries are required to have more training at a college or business school. Some businesses have a training program for their secretaries. Many secretaries must be trained for specific kinds of work such as a medical secretary, legal secretary, technical secretary or social secretary.

DUTIES OF OCCUPATION: The secretary types, takes shorthand, and deals with people on the phone or in person. The secretary must be able to file papers, do routine mailing and answer the telephone. Other duties of the secretary are dependent on the particular employer.

SKILLS REQUIRED: A secretary should have good hearing and know spelling, punctuation, grammar and vocabulary. The secretary must be pleasant, work with people, make decisions, and be able to work without being told.

MOST IMPORTANT SCHOOL SUBJECT(S): Spelling & English

4. Now write the hidden sentence and follow its directions.

107
NAME OF OCCUPATION: Postman, Mail Carrier

PLACES OF EMPLOYMENT: U. S. Post Office

EDUCATIONAL/TRAINING REQUIREMENTS: There are no specific educational requirements for the mail carrier. They are trained on the job, must be at least 18 years old and must pass a written test.

DUTIES OF OCCUPATION: Mail carriers deliver and collect mail from homes and businesses. Before delivering the mail, the carrier must sort the mail, readdress letters to be forwarded and sign receipts. While delivering the mail the carrier must collect postage-due and C.O.D. fees and get people to sign receipts for registered and insured mail. The mail carrier gathers mail from homes, street boxes and businesses. Upon return to the post office, letters and packages must be separated and receipts and money collected must be turned in.

SKILLS REQUIRED: The mail carrier must be 18 years of age, must have a driver's license, be able to pass a road test, be in good physical condition and must be able to read and write.

MOST IMPORTANT SCHOOL SUBJECT(S): Reading and Writing
OCCUPATIONAL PROFILE

NAME OF OCCUPATION: Printing Pressman

EDUCATIONAL/TRAINING REQUIREMENTS: High school education is usually required. An apprenticeship, learning on the job, work experience, vocational or technical school training helps the pressman learn the trade.

In an apprenticeship program, some workers' job titles are helpers or press assistants. The time spent in an apprenticeship program is based on the kind of press used in the plant. The apprenticeship period may last from 2 to 5 years. At the same time of on-the-job training the apprentice also has classroom or school work to learn.

DUTIES OF OCCUPATION: The Printing Pressman's work may differ from one shop to another. The duty of the pressman is based upon size of the shop and the kind of presses owned. One duty of the pressman at any shop is to get the type forms and press-plates ready for the final printing and to maintain the presses.

SKILLS REQUIRED: Mechanical aptitude is important in making press adjustments and repairs. The pressman needs good color vision for work on color presses. Strength is also important because of the size and weight of some of the presses.

MOST IMPORTANT SCHOOL SUBJECT(S): Science
OCCUPATIONAL PROFILE

NAME OF OCCUPATION: Newspaper Reporter

PLACES OF EMPLOYMENT: Newspaper

EDUCATIONAL/TRAINING REQUIREMENTS: Most newspapers require reporters to have a college education with a degree in journalism. Some rural, small town or suburban papers have reporters with only a high school education.

DUTIES OF OCCUPATION: The newspaper reporter must seek knowledge of what is happening in the city, state or nation. The news must then be written in story form to be published in the newspaper. To obtain the news, the reporter must interview people, review public records, go to news events and do research. Many reporters specialize in one area such as sports, editorials, food, local news or society news.

SKILLS REQUIRED: The newspaper reporter must have typing skills and be dedicated to serve the public's needs with accurate and impartial news. The reporter must be curious, persistent, show initiative, have a good memory and be in good physical condition.

MOST IMPORTANT SCHOOL SUBJECT(S): English
OCCUPATIONAL PROFILE

NAME OF OCCUPATION: Rancher

PLACES OF EMPLOYMENT: Private Ranches, Livestock Breeding Farms, Rodeos

EDUCATIONAL/TRAINING REQUIREMENTS: Ranchers usually learn their skills through experiences on-the-job. Many receive additional training through college or agricultural school courses.

DUTIES OF OCCUPATION: The rancher breeds and raises livestock such as horses or cattle and is responsible for feeding, grooming and caring for the animals on the ranch. The rancher is responsible for the upkeep of fences, barns and other farm equipment. The rancher is also responsible for maintaining records of the buying and selling of livestock.

SKILLS REQUIRED: The rancher must enjoy working with animals and must be in good physical condition. The rancher must enjoy working outdoors. The rancher must know first aid for animals. Other skills required on a ranch are determined by the size of the ranch.

MOST IMPORTANT SCHOOL SUBJECT(S): Science
