Organization of this Index

This volume cumulates the indexes that appeared in the six bimonthly issues of Resources in Vocational Education, Volume 11, Numbers 1 through 6 during 1978. This cumulation is intended to be a companion volume to the individual issues of Resources in Vocational Education, which contain the complete resumes and availability of the documents.

Three indexes are provided in this volume:

Subject
Author
Institution

Each entry lists the title of the document and the ED number of the complete resume as it appeared in the individual issues of Resources in Vocational Education. The searcher can use the ED number to locate the complete resume in the individual issues.

Instructions for ordering individual documents appear in each issue of Resources in Vocational Education and at the back of this volume.
# Subject Index

This index lists titles of documents under the major subject terms that have been assigned to characterize their contents. The subjects, which conform to those presented in the Thesaurus of ERIC Descriptors, are in alphabetical order.

As shown in the example below, the accession number is displayed below and to the right of the title. Additional information about the report can be found under that number in the Resume Section.

The symbol // appearing after an accession number identifies a document that is not available from the ERIC Document Reproduction Service and that is not in the ERIC Microfiche Collection.
