ABSTRACT

This is the last of three volumes devoted to improving speech skills, in a series of materials for teaching English as a second language to adult nursing aide students. Three units contain five lessons each. The following subjects are covered: (1) talking about personal appearance, checking patients, and reporting to the nurse; (2) interviewing patients and further aspects of reporting to the nurse; and (3) general conversational procedures and job interviews. Pattern drills and dialogs are the principal lesson formats. Each unit is completed with review exercises. At the conclusion of the volume, a class project is proposed in which students will plan an entire city. (JB)

UNIT IX
COMMON SENSES

PREVIEW

In Unit IX you will talk about objective characteristics: things you can sense by seeing, hearing, feeling, smelling, and tasting.

You will talk about these characteristics in friends in Tamarind City and in patients in the hospital. You will learn to ask a patient to let you look at something. You will learn how to report to the nurse on what you observe in a patient and how to respond to questions such as, "How does she look?", "How does it feel?" and "Which arm?".

You will learn to understand when the nurse says, "I want you to..."

OUT OF SIGHT

PREVIEW

You will learn to ask "How long have you had it?". And you will learn to ask "What makes you feel bad?" and "Why do you feel bad?". You will practice talking about subjective characteristics with a nurse.

In Lesson 4 you will practice receiving outpatients in a clinic and asking questions about their ailments. In the review lesson you will practice interviewing and filling out forms for patients in the hospital and in the clinic.

Lesson 5  REVIEW EXERCISES

INTERVIEWING NEW PATIENTS IN THE HOSPITAL

Student A is a nurse or nursing aide. Student B is a new patient in the hospital. The patient is already in the patient's unit. Student A will come to the patient's unit to interview the patient.

1. Make one part of the classroom into the patient's unit. Decide the visiting hours, the meal times, when the linens are changed, and the smoking policy for the ward:

   Visiting hours: ________________________________
   Meal times: __________________________________
   Linens changed: ______________________________
   Smoking policy: _______________________________

2. In class, discuss the form called Nurses' Admission Record. Do you understand everything on the form?

   Student A interviews the patient and fills out the Nurses' Admission Record.

   "Informant" is the person you're talking to--the person being admitted to the hospital. Put a mark in the box for "patient" because the patient is answering your questions.

   "Orientation to Unit": Put the ID bracelet on the patient and check the box. Show the patient where everything is and tell what the policies and times are, then check the boxes.

   Fill out all the form, but not the "Transfers".

   Be sure to sign your name for "Person admitting".

3. Now look at the form called Admission Interview. Discuss the form in class. If you don't understand something, ask another student or the teacher.

   What does "observe" mean for Objective Findings? What does "verbalize" mean for Subjective Findings?

   Fill out everything under Subjective Findings. Ask the patient for the answers.

   Be sure to sign your name for the nurse.

PRACTICE SAYING

If Alice tells Susie about Wendy applying at Pilikia Nui, she makes a statement:

She's applying for a job at Pilikia Nui.

But if Susie asks Alice about Wendy applying at Pilikia Nui, Susie asks a question:

She's applying for a job at Pilikia Nui?

Notice the difference between the two sentences.

Notice how Alice's voice goes up and down (and notice the period (.) at the end of the written sentence).

Notice how Susie's voice only goes up (and notice the question mark (?) at the end of the written sentence).

**DIALOGUE**

It's Sunday. Alice and Suzie and Wendy are eating lunch.

**AC** Wendy, what time is your appointment tomorrow?

**WC** It's at 8 o'clock.

**AC** What time do you get up?

**WC** I usually get up at 5:30. Suzie usually gets up at 6:30.

**AC** Can you call me at 6? I want to be on time.

**WC** Sure.

**AC** How do you get to the hospital?

**WC** I usually walk. It's not far. Suzie usually takes the bus, but she can walk with you to the hospital.

**AC** and take the bus from there, can't you, Suzie?

**SC** Yes, I can do that.

**WC** Oh, thanks, but I remember the way! What time should I leave here?

**AC** You should leave at 7:30. Then you'll get there on time, in plenty of time.

**WC** Yes. I want to get there on time, in plenty of time, before 8.

**AC** Who's your appointment with?

**WC** It's with Mrs. Tuitele.

**AC** Oh. She's the Personnel Manager, isn't she?

**WC** Yes.
Lesson 2  INTERVIEWING FOR A NURSING AIDE JOB

NOTE

The dialogs in this section are long because interviews usually last longer than a few minutes. Notice how Wendy answers the interviewer's questions with specific examples about her training and interests. Do not try to memorize these dialogs. After practicing Dialogs 7 and 8, try to answer the questions in Dialog 8 using your own background and experience. (Tr3)

DIALOG 6

It's Monday morning. Wendy Carver's appointment at Pilikia Nui Hospital is with Tina Tuitele, the Personnel Manager. Wendy is early for her appointment. She introduces herself to Mrs. Tuitele's secretary.

WC  Excuse me. I'm Wendy Carver. I have an appointment with Mrs. Tuitele at 8:00.

S  Yes, Mrs. Carver. Please sit down. Mrs. Tuitele will be with you in a moment.

WC  Thank you.
Lesson 2 continued

Mrs. Tuitele is ready to talk to Wendy. She asks Wendy to come into her office.

TT Hello, Mrs. Carver. I'm Tina Tuitele.
P: Please have a seat. sit down.

WC Thank you, Mrs. Tuitele.

TT I see by your application form that you are interested in working for us as a nurse's aide.

WC Yes. That's right.

TT You're from Mahimahi?

WC Yes. Right now my family is in Poi City.

TT You went to Kapiolani Community College in Honolulu for your nurse's aide training, didn't you?

WC Yes, I did. I graduated last week.

(Dialog continued on next page.)
Lesson 2 continued
(Dialog 7 continued)

TT Have you had any other hospital experience besides the training at Kapiolani?

WC No, I haven't. I worked in Poi City Outpatient Clinic for 5 months before I went to Honolulu. I worked as a receptionist for 3 months, then I helped Dr. Kamalii for 2 months.

TT What sort of work did you do for Dr. Kamalii?

WC It was nursing aide work. I took temperatures and blood pressures. I helped prepare people for examination. I helped the nurse.

TT Did you enjoy your work?

WC Oh yes, very much. That's why I wanted to take nurse's aide training. There's a lot a nurse's aide can do to make the patient feel better—to assure the patient.

TT You like working with people?

WC Yes, I do.

TT You haven't had any experience in pediatrics, have you?

WC No; not specifically. A lot of children came into the clinic.

TT Do you like working with children?

WC Oh yes. I liked to help the children in the clinic. And I enjoy my own children.

TT The job we have here is in pediatrics. You would be working with accident victims and with crippled children. How would you feel about that?

WC I would enjoy that. As a nurse's aide, I think I would have more time to be with the patients than the nurses would. Children need a lot of attention, especially when they're in the hospital.

(Dialog continued on next page.)
Lesson 2 continued

(Dialog 7 continued)

TT  Do you have any questions about our hospital, Mrs. Carver?

WC  Yes. In pediatrics, do you have a rooming-in policy for parents—a place for the parent to stay while their children are in the hospital?

TT  Not at the moment. We're thinking about looking into the possibility of investigating that. What do you think of the idea?

WC  I think it's a good idea. I guess there would be problems, but I think it would be good for the children.

TT  Yes, so do I. Do you have any other questions?

WC  No, I don't think so.

TT  Well, thank you very much, Mrs. Carver. We'll let you know about the job in a week or two. We have your address in Mahimahi?

WC  No. I'll give you my address and telephone number in Pol City.

TT  Give it to the secretary, please. Thank you for coming, Mrs. Carver.

WC  Thank you very much, Mrs. Tuitele. Good-bye.

TT  Good-bye.

**DIALOG**

Young-Sik Kim is a nursing aide. He applies for the job at Pilikia Nui Hospital, too. He is interviewed by Mrs. Tuitele.

**TT** Mr. Kim? I'm Tina Tuitele. Please come in.

**YSK** Thank you.

**TT** You may on your application that you took your nurse's aide training at Kapolei Community College in Honolulu.

**YSK** Yes.

**TT** You're not from the United States originally?

**YSK** No. I'm from Korea.

**TT** How long have you been in this country?

**YSK** I came with my family about 15 months ago.

**TT** Is your family living in Mahimahi?

**YSK** Yes.

**TT** I see by your application form that, before your nurse's aide training, you studied at Honolulu Community College.

**YSK** What were you studying, Mr. Kim?

**TT** I was studying English.

**YSK** We went to school for 4 hours a day and were at Tripler Hospital for 4 hours a day.

**TT** That sounds like good experience.

**YSK** Yes, it was.

**TT** What sort of work did you do at Tripler?

**YSK** I worked in the well-baby clinic.

**TT** I admitted, the patients-interviewed the parents, measured and weighed the babies and did vital signs for them.

(Dialog continued on next page.)
Lesson 2 continued

(Dialog 8 continued)

TT  Do you enjoy working with babies and children?
YSK  Yes, I do. I love children.
    In Korea I taught first grade. I liked that very much.

TT  Um-hum. You see, the opening we have here is
    in pediatrics.
    You would work with children who are sick or had accidents.
    And some of them are crippled.

YSK  I'm sorry. I don't understand "crippled".

TT  That's when someone can't walk or can't use an arm--
    maybe can't feed themselves.

YSK  Oh! Yes, I would like to take care of the children
    when they're sick or crippled.

TT  Do you have any questions, Mr. Kim?
YSK  Yes. How old are the children I'd be working with?

TT  In pediatrics, we have children from 1 month old
    to 16 years old.
    You would be working with pre-schoolers--
    they're from 2-and-a-half to 5 years old.
    Do you have any other questions?

YSK  No.

TT  Alright. Thank you, Mr. Kim.
    You'll hear from us in a week or two.

YSK  Thank you, Mrs. Tuttele. Good-bye.

TT  Good-bye, Mr. Kim.

Practice Dialog 8, with your teacher being Mrs. Tuttele.
Practice it first as it is here. Then practice the dialog,
using your own background and experience. When you do this,
don't read the dialog--close your book. Each student should
practice.

**DIALOG 9**

WC Alice, may I stay one more night? I want to interview for a job at Tail Road Clinic.

AC Of course! you can stay. Sure. We're happy to have you here, Wendy. But why are you trying to get a job at Tail Road? I thought you wanted to work in the hospital?

WC I do, but I want to look for something else-- in case I don't get the job at PNH. maybe I won't.

AC Is there an opening at Tail Road Clinic?

WC Yes. They're interviewing now for a nurse's aide. Do you know anyone at Tail Road?

AC Sherry Inglis works there. I know her slightly. And I know Dr. Ferguson. He's my doctor.

WC Oh, I know Sherry. My interview is with Miss Clara Shimabukuro. I 'guess' she's the head nurse. think

AC Oh. I don't know her.

WC I can get the bus on Banyan Tree Street?

AC Yes. You can take the bus to the terminal, then walk from there. It's only 2 blocks. Tail Road Clinic is on the corner of East Makai and Tail Road.

WC OK.
Wendy walks into Tail Road Clinic.

WC Hi, Sherry. How are you?
SI Hi, Wendy. Didja just get back from Honolulu?
WC Yes--Saturday. I'm looking for a job now.
SI Are you interviewing for the opening here?
WC Yes.
SI I hope you get the job.
WC Thank you, Sherry. Miss Shimabukuro is going to interview me.
SI What time did she tell you to come?
WC At 9:30.
SI Oh, it's 9:30 now. She's in that room. You can go right in.
WC OK. Thanks, Sherry. See you later.

**(Dialog II)**

WC  Excuse me. Miss Shimabukuro? I'm Wendy Carver.

NB  Hello, Miss Carver. Oh, it's Mrs., isn't it?

WC  Yes.

NB  Sit down, Mrs. Carver. Let's see. you've worked at the Poi City clinic, haven't you?

WC  Yes, I have.
As a receptionist and helping Dr. Kamalii.

NB  Yes, I see that on the application you brought in yesterday.
Now, the job here will be a lot like your job
helping Dr. Kamalii.
You'll be preparing patients for examination
and helping the nurses.
You know, of course, Tail Road is a much larger clinic
than Poi City.

WC  Yes, I know.

NB  You're familiar with how the clinics work.
You know
How did you like your training in Honolulu?

WC  Oh, I liked it. I learned a lot.
And my experience in Poi City Clinic helped.

NB  Yes.
You wrote your teacher at Kapiolani Community College
to send us a letter of recommendation and your grades?

WC  Yes, I wrote already.

NB  Well, that's all. Thank you for coming in, Mrs. Carver.
We'll let you know.

WC  Thank you, Miss Shimabukuro. Good-bye.

NB  Good-bye.

Why do you think Wendy's interview with Miss Shimabukuro is much shorter than her interview with Mrs. Tuitele?
Lesson 3  ACCEPTING A JOB

TELEPHONE DIALOG I

It's Tuesday, the following week.

WC (answers the telephone.) Hello.

NS We'd like you to come to work at Tail Road. You could start next week.
WC Oh, thank you, Miss Shimabukuro. Could I think about it a day or two and call you back?

Lesson 3 continued

SYNOPSIS

It's Wednesday at 5 p.m.

SC Hi, Alice. I'm home.

AC Hi, Susie. Wendy called me this afternoon. She just got a letter from the hospital.

SC Oh, did she get the job?

AC No, she didn't. She heard from a friend that a man named Mr. Kim got the job. They offered her a job in Medical but the position won't be open until a couple of months from now.

SC Is she going to take it?

AC Yes. She's going to write them and accept it. Tall Road called her and offered her the job there, too.

SC Wow! Two jobs! She's lucky!

AC But if she starts there and quits in two months, they'll have to train someone else.

SC Maybe they'll take her for two months while they look for someone else.

AC I doubt it. I don't think so. There're so many people looking for jobs, I think they can find someone right now.

SC With Suzie's experience?

AC No, but they can train someone who won't leave after two months.

SC Well, that's right.

AC So she'll just stay at home with her family for a while.

SC That'll be nice.

**TELEPHONE DIALOG 2**

SI (answers the phone.) Tail Road Clinic. May I help you?

WC Hi, Sherry. This is Wendy Carver.

SI Oh hi, Wendy. May I help you here, didn't they?

WC Yes, but--

SI You're lucky--five other people applied for that job.

WC Five other people? Anybody I know?

SI I don't know. I can't tell you their names.

WC I'm not sure I'll take the job. Can I talk to Miss Shimabukuro?

SI Sure. I'll ring her.

What do you think about the way Sherry and Wendy talked about the job?

Should Sherry talk about the job to an applicant? Should Wendy ask about the other applicants?

**PROBLEM-SITUATION DIALOG**

A You interviewed for a job but you don't know if you are going to get the job. You have been offered another job, but you like the first job better.

You know the secretary (B) at the place where you want the job. You call B. You want to know if there are any other applicants for the job. Maybe B knows if they are going to offer you the job. You don't want B to know you have been offered another job.

B You are a secretary in a place that has a job opening. A friend of yours (A) interviewed for the job. You know who your boss interviewed and who your boss will probably choose, but you cannot tell anyone before your boss tells them.

You would like to know how A feels about the job--how much A wants the job.
Lesson 3 continued

**TELEPHONE DIALOG 3**

NS (answers the phone.) Yes. Miss Shimabukuro.

WC Miss Shimabukuro, this is Wendy Carver. I'm calling about the job you offered me.

NS Yes, Mrs. Carver.

WC I would like the job, but I've been offered one at Pilikia Nui Hospital that starts two months from now. I want to work in a general hospital, for the experience. If I take the job at Tail Road and then quit in 2 months, you'll just have to train someone else.

NS That's right. We want someone now who will stay. Thank you for seeing our side of it. We wouldn't be very happy if you worked for 2 months then quit.

WC That's what I thought.

NS Thank you, Mrs. Carver, for calling. I'm sorry you won't be working with us.

WC I'm sorry, too. Good-bye, Miss Shimabukuro.

NS Good-bye, Mrs. Carver.

Practice the two Telephone Dialogs 1 and 3, with your teacher being Miss Shimabukuro.

Why do you think Mr. Kim, not Wendy, was chosen for the PNH job?

Why do you think Tail Road Clinic chose Wendy over five other applicants?

**FREE DIALOG**

Practice accepting or rejecting jobs on the telephone.
Lesson 4  INTERVIEWING FOR A SECRETARIAL JOB

There is an opening for a secretarial position in an office downtown. Susie is a clerk-typist in her office at Tamarind City Hall. She wants to find a job where she can be a secretary. She fills out an application form for the secretarial opening and makes an appointment for an interview. On the day of her appointment, she takes time off from her job and goes to her interview. She goes first to the receptionist.

**DIALOGUE 13**

R  Good morning. Can I help you?

SC  Yes. I'm Susie Chong.
    I have an appointment with Mr. Wiggins at 9:00.

R  You're a little early.
    Just a minute. I'll see if he can see you now.

(talks on the intercom.)

Mr. Wiggins, Susie Chong is here for a job interview.
She has a 9:00 appointment with you.
Shall I send her in?  Alright.

(to Susie)  He'll see you now.  Go right in.
          Please go in.

**DIALOGUE 14**

SC  Mr. Wiggins, I'm Susie Chong.
    I'm applying for the secretarial position.

W  Yes, Miss Chong. Please have a seat.
    You're working now at Tamarind City Hall?
    What office?

SC  I'm in the licensing office.

W  What do you do there?

SC  I check license application forms and type up licenses.
    I'm responsible for keeping a file on all licenses.
    I type up the file copies and get signatures.
    And I type correspondence for Mrs. Holly, my supervisor.

(Dialog continued on next page.)
Lesson 4 continued

(Dialog 14 continued)

W How fast do you type, Miss Chong?
SC About 45 words a minute.
W And do you take shorthand?
SC No. Mrs. Holly uses a dictaphone.
W I see. We have a lot of correspondence in our office. And you would be responsible for the records. Do you have any questions, Miss Chong?
SC Would there be anyone else typing correspondence?
W Yes. You'd have one typist working under you. You would supervise her work, of course, and see that it's correct. Do you have anyone working under you now?
SC No, I don't.
W Do you think you could handle that?
SC Yes, I'm sure I could. I work with a lot of people now and I like working with people.
W Alright. We'll be getting in touch with you in a few days. Thank you, Miss Chong.
SC Thank you, Mr. Wiggins. Good-bye.
W Good-bye.

Why do you think Susie asked if there would be anyone else typing correspondence?
A few days later, Susie gets home from work.

AC Oh Susie, there's a letter for you from the place where you interviewed for the job. It's on the desk.

SC Oh! I wonder if I got the job.

AC What do they say?

SC Oh-h, nuts! I didn't get the job.

AC Oh, that's too bad. Do they say why?

SC Yes. They want someone who can type 60 words a minute and take shorthand.

AC I told you: You need to learn shorthand.

SC You know what I'm going to do?

AC No. What?

SC I'm going to Tamarind Community College at night and take typing and shorthand.

AC That's a good idea. Then you can get a better job.
Lesson 4 continued

DIALOG 18

SC Alice! Why are you crying? I'm not that unhappy about not getting the job!

AC Oh, it's not that, Suzie. One of our patients died today. And I just can't stop feeling bad.

SC Oh, Alice. I'm so sorry. Who was it?

AC A patient who was in the hospital only a few days. She had a heart attack after her operation.

SC How old was she?

AC She was 72 already. But she was so sweet, and we all hoped she would recover.

SC That's really too bad. Now, we both feel bad. We could cry on each other's shoulders.

AC I wish I could stop thinking about it.

SC I know what we should do. Let's go over to Wiki-Wiki for dinner and then go to a movie.

AC OK. But we have to go to the early movie.

Why do you think Alice wants to go to the early movie?

UNIT XII

THE NAHIMAHI REVIEW

PREVIEW

Unit XII is a review and testing unit—a unit for you to review and use all you have learned in the other eleven units.

The main part of Unit XII is a class project to plan Ahi City. In working with the other students, you will use all the English skills you have learned. You will use not only your speaking and listening skills but also your reading and writing skills. Try to use only English in all your planning sessions.

As you plan Ahi City and work out all the problems of planning, you will discover how well you can communicate in the English language.

When you and the other students finish your plans for Ahi City, perhaps your teacher will have more review exercises for you.
PLAN AHI CITY

Look at your map of Mahimahi Island. Find Ahi City on the map.

As a class project, plan Ahi City. You can do this different ways: Everyone in the class can work on each section, or the class can divide into three or four groups and one group work on Section I, another group work on Section II, etc. Note: Section IV cannot be done until after Sections I, II and III are finished.

Ahi City is much smaller than Tamarind City. It is a little bigger than Poi City. Ahi City is mainly a fishing town, but many people in Ahi City work on the sugar and pineapple plantations. Some people probably live in Ahi City and work in Tamarind City.

Do you know any small towns on Oahu? Maybe Ahi City is about the size as Waimanalo or Waimanu on Oahu in Hawaii. What are these small towns like? Do they have many streets? Are their streets big or small? What kinds of stores and offices and schools do they have? Do they have movie theaters and libraries?

There is no high school in Ahi City or in Poi City. The high school students in these two towns have to go into Tamarind City to Banyan Tree High School. And, of course, there is only one community college—Tamarind Community College in Tamarind City.

If you have the Reading text, read these sections to help you think about Ahi City:
Mahimahi Island, Reading Right, Unit I
Buses for Mahimahi, Reading Right, Unit II

Read all of one section before you begin to do the work for that section.

Section I

Decide the streets of Ahi City. Decide which way the streets go and give them names: Name the road between Mahimahi Road and Tail Road near Ahi City.

Make a map of Ahi City.
Section II

Decide what services (stores, businesses, offices, schools, etc.) are in Ahi City.

Make a list of these services.

To help you decide what services they need in Ahi City:

1. Look at your map of Tamarind City and note the services there. Remember: Your map shows only a part of Tamarind City; there are services in Tamarind City not on your map. For example, TaNaTran Bus Company is at 347 Nene Street, east of the part of Tamarind City on your map. (See map of Greater Tamarind City.)

2. Remember that the people in Ahi City will need to have some services in Ahi City. They can go to Tamarind City for some other services.

Notice in your telephone directory of Tamarind City: There are two Mahimahi Outpatient Clinics in Tamarind City, Tail Road Clinic and Makai Clinic. There are two more Mahimahi Outpatient Clinics on Mahimahi Island, one in Ahi City—Ahi Clinic, and one in Poil City—Poi City Clinic.

Ask each other: Does Ahi City need a hospital?

3. Ask each other these questions before deciding the services needed in Ahi City:

How far is Ahi City from Tamarind City?

What do people need every day, or every working day?

What do people need once (one time) a week?

What do people need only once in a while (maybe once in 2 or 3 months)?

Do the people in Ahi City need a drug store? Do they need an Immigration Department?

Do some Ahi City people work in Tamarind City and go there every work day?
Plan Ahi City, p.3

Section III
Decide who some of the people of Ahi City are and what they do. Decide where they work or go to school.

Section IV (To be done after Sections I, II and III are finished.)
1. Decide where the services of Ahi City are. What streets are the services on? Write the names of the services on the Ahi City map.
2. Decide where the homes are. What streets are the homes on? Remember that some people will live on Mahimahi Road on the way to Tamarind City, on the road between Mahimahi Road and Tail Road, and on Mahimahi Road on the way to Poi City.
3. Are there apartments in Ahi City? If there are, where are they?
4. Give street numbers to all the services and homes in Ahi City.

Remember that numbers on streets going away from the ocean usually start with 100 next to the ocean. Numbers on streets going the same way as the side of the ocean can start at one end or the other. In Ahi City, streets going away from the ocean are going north and south; streets going the same way (or almost the same way) as the side of the ocean are going east and west.

Ask each other: Should the numbers on streets going east and west start on the east side or on the west side?

Section V. (Supplementary - Do this section if you have time and the class wants to do it.)

Add the services and people of Ahi City to your telephone directory of Tamarind City, making it a telephone directory of Mahimahi.
