This resource booklet contains an operational appraisal instrument for use in evaluating the program effectiveness or secondary school guidance and counseling activities. It first presents criteria for exemplary guidance programs, which form the basis for the evaluation. Program areas appraised by this instrument include philosophy and objectives, guidance staff (professional, related professional, counselor-support, and clerical personnel), program (responsibilities, appraisal services, personal-social and educational-occupational information services, consultative and referral services, orientation and educational placement, counseling services, program development), facilities and provisions, and financial support. A scoring and weighing sheet is provided. Users obtain a quantitative measurement of a guidance and counseling program's strengths and identify areas in need of improvement. (The study that developed this document is reported in CE 024 197.) (YLB)
THE APPRAISAL OF SCHOOL GUIDANCE
AND COUNSELING SERVICES IN
THE URBAN SCHOOLS

FOREWORD

Urban school guidance and counseling services, like any program which touches the lives of children daily, are constantly in need of change and reformation. These changes and modifications should be based on explicit and observable program components and comprehensively develop school objectives.

When programs and objectives are instituted, there must be some ordered way of appraising their relative success or failure. This handbook has been prepared to assist you in evaluating the extent to which your school guidance and counseling programs are achieving these objectives.

This document was prepared by Dr. Keith D. Barnes as a part of a year-long investigation while serving as a National Fellow in the Advanced Study Center of the National Center for Research in Vocational Education at the Ohio State University. Three additional publications were prepared by Dr. Barnes during his term as a National Fellow. They are:

Each of these publications has offered new insights into the planning, programming and execution of these school services. Considerable thought and effort has been incorporated in them. We strongly recommend them to educators who are giving serious thought to the upgrading and improvement of their school programs and services.

CRITERIA FOR EXEMPLARY GUIDANCE PROGRAMS

I. PHILOSOPHY AND OBJECTIVES

The school has a written philosophy and clearly stated educational objectives which are consistent with each other. Included in the overall philosophy and objectives are a guidance philosophy and guidance objectives.

II. STAFF

A. PROFESSIONAL

1. One person is designated in charge of the guidance program for the school. This person meets state requirements for professional guidance certification and has adequate experience at the level at which he or she is functioning.

2. Only personnel who hold guidance certification are employed as school counselors.

3. All school counselors are engaged in generally accepted guidance and counseling activities on a full-time basis.

4. The school district leadership provides an opportunity for the professional growth of guidance personnel.

5. Each member of the guidance staff assumes responsibility for his or her own professional growth.

6. The size of the guidance staff is such that it provides guidance and counseling services for all students.

B. RELATED PROFESSIONAL PERSONNEL

Counselors have access to related professional personnel for referral and consultation.

C. COUNSELOR - SUPPORT PERSONNEL

Counselor-support personnel are utilized to permit counselors to perform professional roles more effectively.
D. CLERICAL PERSONNEL

There is sufficient clerical staff to insure that counselors are devoting their time to generally accepted guidance activities.

III. PROGRAM

There is an organized, coordinated, full-services guidance and counseling program which includes:

A. RESPONSIBILITIES

Responsibilities of the guidance program are delegated to appropriate individuals.

B. APPRAISAL SERVICES

The appraisal services insure that sufficient information is available to aid students in making realistic decisions about themselves, relative to their educational, vocational, and personal-social goals.

C. INFORMATION SERVICES

The information services insure the availability of adequate educational, vocational, and personal-social information that facilitates decision-making for all students.

D. CONSULTATION AND REFERRAL SERVICES

The consultation and referral services insure that open lines of communication exist between the counselor and teachers, parents, administrators, referral sources, specialists, and other community agencies.

E. PLACEMENT SERVICES

The placement services insure that students are placed in the proper setting in order that they may derive maximum benefit from existing programs and career opportunities.

F. COUNSELING SERVICES

The counseling services insure that each student is given the opportunity to develop a meaningful interpersonal relationship with a counselor when the need
exists. Such relationships help students to clarify their perceptions and enable them to make appropriate decisions about themselves.

G. PROGRAM DEVELOPMENT

Program development insures a continuous, organized effort by all staff members to identify those areas of the educational program which most effectively meet the needs of all students. Program development also indicates those areas of program ineffectiveness which need modification in terms of changing individual and social needs.

IV. FACILITIES AND PROVISIONS

Provisions for the implementation of guidance services and facilities for the guidance and counseling program provide the physical environment and supplies which permit the program to function most effectively.

V. FINANCIAL SUPPORT

Financial allocations shall be such that an effective guidance program exists for all students.

DIRECTIONS FOR SCORING

1. Counselors are to respond to all items. Principals, teachers, and students respond only to items marked P.T. and S respectively.

2. Under the "Checklists of Observable Practices" section, put a check mark in the blank provided if the practice exists in the program.

3. In the "Evaluation" section, place the appropriate number in the blank provided.

4. Credit for items.

When more than one respondent is involved:

(a) Two respondents--no credit is given on yes-no items if one person responds negatively to the item--Where an item involves a rating scale and respondents differ on the scale value assigned, the low score becomes the rating for that item.
Three or more respondents—credit is given on yes-no items only if 2 or more persons respond positively to that item. Where an item involves rating scale and respondents differ on the scale value assigned, the score that is used is either the highest scale value that 2 or more respondents assigned to the item or an average of all values when all assigned values differed.

5. To total each subsection, add the number of check marks in the "Checklist" section plus the total number tallied in the "Evaluation" section.

6. To establish a final point total for the evaluation, add each subsection. (See Page 40):
