FOREWORD

The Illinois Office of Education is pleased to make available this publication listing curriculum materials and information regarding nutrition education.

It has been developed to assist educators in planning and implementation of these important programs. This listing is not inclusive of all available nutrition education materials but it is representative of the kinds of materials and information which exist. For further information or assistance, please contact the Program Planning and Development Section in this agency.

I would like to acknowledge the assistance obtained from the Nutrition Education Project of the Northwest Educational Cooperative, Arlington Heights, Illinois in the development of this publication.

Joseph M. Cronin
State Superintendent of Education

The publication of this document was made possible by Section 19 of the Child Nutrition Act, P.L. 95-166.
# NUTRITION MATERIALS

## TABLE OF CONTENTS

I. Audio-Visual — Movies, filmstrips & videotapes
   A. Title
   B. Target audience — Grade Level
   C. Length and Type of Material
   D. Producer and address
   E. Price
   F. Description of contents

II. Published text materials on health/nutrition (listed by publisher)
   A. Title
   B. Target audience — Grade Level
   C. Publisher and address
   D. Price
   E. Description of contents

III. Curriculum guides
   A. Title — date
   B. Target audience — Grade Level
   C. State and address
   D. Price
   E. Description of contents

IV. Teacher Reference Books and Cookbooks
   A. Title
   B. Author
   C. Publisher
   D. Price

V. Major journals in nutrition education
   A. Title
   B. Publisher and address
   C. Price of subscription

VI. Sources of free and inexpensive materials — split into 1. Professional Association, 2. Food Industry & Related Firms, 3. Government Agencies
   A. Name
   B. Address
   C. Type of material available

VII. Games and teacher created materials
   A. Title
   B. Target audience — Grade Level
   C. Publisher and address
   D. Price
I. Audio-Visual — Movies, filmstrips & videotapes

A. Type A Menu Success Story
   School Food Service Personnel
   6-10 minutes (four color filmstrips with sound, 56-110 frames)

B. Nutrition Know-How
   Instructional Materials Development
   48075 Colony Farm Circle
   Plymouth, MI 48170
   $75.00

   A. The Great Food Show
      K — 3rd
      14½ minutes, 16mm color-sound film
      Kraft, Inc.
      Educational Dept. E
      P. O. Box 4611
      Chicago, IL 60677
      $100.00
      F. A presentation of basic nutrition concepts utilizing animated stories, realistic food photography and live action sequences of children at play.

   B. Doing Great Things
      4th — 8th
      14½ minutes, 16mm color-sound film
      Kraft, Inc. (address above)
      $100.00
      F. A film promoting basic nutrition awareness among youngsters through presentation of athletes and astronauts in training and action. Establishes the fact that astronauts were able to do "great things" with their lives because they had developed good food habits at an early age.

   C. Reading The Label, Set A Better Table
      K — Adult
      14 min., 16mm color film featuring Dick Van Dyke

   D. Natural Nutrition
      3rd — 9th
      4 Filmstrips with 4 cassette & Teachers Guide
      Cypress Publishing Corp. (address above)
      $72.00
      F. (1) Growing Up Terrific
      (2) What Keeps You Going?

   E. Feeling Fine #555
      Pre-K — 3rd
      5 Filmstrips with 5 cassettes & Teacher Guides
      Cypress Publishing Corp. (address above)
      $80.00
      F. (1) From Head to Toe Our Bodies Go (anatomy)
      (2) From Magic to Medicine (medical care)
      (3) Foods To Grow By (nutrition)
      (4) A Clean Sweep (cleanliness)
      (5) How Happiness Became Me (feelings)

Teaches body parts and how they function. It also introduces the principles of sound nutrition and good health practices: preventive health care and personal hygiene. Engaging stories and amusing characters maintain children's interest.

   A. Doing Great Things
      4th — 8th
      14½ minutes, 16mm color-sound film
      Kraft, Inc. (address above)
      $100.00
      F. A film promoting basic nutrition awareness among youngsters through presentation of athletes and astronauts in training and action. Establishes the fact that astronauts were able to do "great things" with their lives because they had developed good food habits at an early age.

   A. Alice in Consumerland #557
      K — 3rd
      5 Filmstrips with 5 cassettes & Teacher Guides
      Cypress Publishing Corp. (address above)
      $80.00
      F. (1) When There's a Hole in Your Pocket (budgeting)
      (2) And This Little Bottle Went To Market (distribution)
      (3) Fables and Labels (comparison shopping)
      (4) Catch a Commercial TV (advertising)
      (5) When Things Don't Work (complaints)

This timely series deals with the problems young consumers encounter: budgeting, comparison shopping, persuasive advertising, defective merchandise. "A good headstart in consumer awareness.

   A. Alice in Consumerland #557
      K — 3rd
      5 Filmstrips with 5 cassettes & Teacher Guides
      Cypress Publishing Corp. (address above)
      $80.00
      F. (1) When There's a Hole in Your Pocket (budgeting)
      (2) And This Little Bottle Went To Market (distribution)
      (3) Fables and Labels (comparison shopping)
      (4) Catch a Commercial TV (advertising)
      (5) When Things Don't Work (complaints)

This timely series deals with the problems young consumers encounter: budgeting, comparison shopping, persuasive advertising, defective merchandise. "A good headstart in consumer awareness."

   F. (1) Why: Type A Lunch. — Basic nutrition concepts related to Type A Menu requirements.
   (2) How: To Plan Type A Lunch Menus. — Step by Step directions based on U.S.D.A. Program Aid No. 719 (Includes 20 menus — ideas based on U.S.D.A. recipes.)
   (3) What: To Plan for Different Age Student Customers. — Suggestions for planning to meet developmental (physical and emotional) needs of children.
   (4) When: Complete, Are the Menus Excellent? — Systematic evaluation procedures.
I. Audio-Visual — Movies, filmstrips & videotapes (continued)

(3) What Keeps You Growing?
(4) Take Good Care of Yourself

Teaches that there is a connection between kids' eating habits and their feelings and behavior. The approach is positive. Youngsters are encouraged to assume as much responsibility as they can for their own good eating habits. They're motivated to want natural foods, to reject junk food, and to choose and prepare good food for themselves and others.

A. The Snacking Mouse
B. Early Primary Grades
C. 5 min., 41 frames, color, with video cassettes.
   (narrated by Sterling Holloway)
D. The Polished Apple
   3742 Seahorn Drive
   Malibu, CA 90265
E. $21.75
F. Laced with humor and loaded with suspense, this is the tale of a mouse who couldn't stop snacking: The purpose of this filmstrip is to discourage young children from excessive snacking, especially to the exclusion of regular meals. Encourages the teacher to introduce a wide variety of nutritious snack foods by including a well-selected bibliography of books on food activities for young children.
   A. Nutrition for Children (set of 3 color filmstrips)
   B. 1st — 4th
   C. (1) The Nutrient Express, 52 frames, 11 min.
      with audio cassette
   (2) George Gorge and Nicky Persnickly, 60 frames, 12 min.
      with audio cassette
   (3) Break the Fast, 45 frames, 7 min.
      with audio cassette
D. The Polished Apple (address above)
E. $69.75/set of 3
F. (1) Delightful ballads and colorful cartoon drawings tell the story of Nancy, "a little girl who ate the most improper foods." That all changed after a journey aboard a brightly colored train that whisked her away to the Land of Nutrients.
   (2) This is a story about a boy and girl whose eating habits were very, very BAD! It is also a story that tells how any child can be healthier and happier by eating well-balanced meals.
   (3) Six year old Tommy and his family — all breakfast skippers — learn that breakfast can include many of their favorite foods and that eating breakfast goes hand in hand with the way they look and feel.

A. Shaping Up (2 parts)
B. Junior/Senior High Students and Adult Groups
C. Part I — Diet, 75 frames, 12 min. with audio cassette
   Part II — Exercise, 74 frames 11 min. with audio cassette
D. The Polished Apple
E. $59.75/set
F. Part I — Learning how to avoid gimmicks and fad diets is one aspect of this filmstrip. Other areas covered include a discussion of basic body builds, genetic heritage, height-weight tables, and health problems associated with obesity. Concludes by describing how to design a personalized calorie control plan, with tips on how to stay motivated.
   Part II — Only recently has the public accepted exercise as a credible component of a weight control program. People used to believe that it took a lot of moving around to burn up any sizeable number of calories. They also thought that the more you exercised the more you ate. What is the truth? Part II answers these questions and many others. Also included are descriptions of the different types of exercise and the specific benefits of each.
   A. Mulligan Stew
   B. 4th — 6th
   C. 30 minutes each, 6 color-sound video cassettes
      (1) The Great Nutrition Turn On
      (2) Look Inside Yourself
      (3) The Flim Flam Man
      (4) Getting It All Together
      (5) Countdown 4 3 2
      (6) The Racer That Lost His Edge
D. U. S. D. A.
   Office of Communication
   Washington, DC 20250
E. Copies of this series were reproduced on Memorex UCA 60 min. video tapes by:
   Tele-tine Systems
   553 W. Golf Rd.
   Arlington Hts., IL 60005
   $29.00 each/$87.00 per set of 3
F. (1) The Mulligan Stew Group tackles a "Mission Impossible" task — waking up a sleeping town, moms and dads, firefighter, a mail carrier, barber, bank robber and a cop (lucky for the robber, the cop was sleeping) and, would you believe, a cow too tired to give milk?
   (2) The Mulligan Stews have discovered why teenaged sister and brother, Alice and Bobby, have become cranky, tired, and too pooped out to carry on their usual activities
because they have not been eating breakfast.

(3) A Culprit is foiled by Wilber Dooright when he tries to sell fad diets and food pills to the Mulligan Stews.

(4) The Mulligan Stews plan, shop, and prepare a dinner for a world population. Hundreds of guests in native costumes offer their kind of entertainment and fun.

(5) The Mulligans get help from our astronauts in NASA as well as famous research scientists when their mission involves their pal, Wilber Dooright, from a life or death fight with the elements of old Mother Nature.

(6) A fat race car driver (who keeps losing) and his new bride, who keeps stuffing him with "goodies" learn why a healthy body is for champions.

A. Soopergoop
B. Primary through Adult
C. 13 minutes, 16mm color-sound film
D. Churchill Films
662 N. Robertson Blvd.
Los Angeles, CA 90069
E. $220.00
F. "Don't forget kids. I can make you want things you don't need and never heard of before!" proclaims Rodney. Rodney, a raffish cat, is an actor in animated TV commercials who proudly reveals the process of promoting SOOPERGOOP, a new breakfast cereal: First to the laboratory where the food value comes out, the sugar goes in, and vitamins are dropped on. Then to Charlie, the Ad Man, where they cunningly concoct a TV commercial.

A. Look Before You Eat
B. 6th — Adult
C. 22 minutes, 16mm color-sound film
D. Churchill Films
662 N. Robertson Blvd.
Los Angeles, CA 90069
E. $330.00
F. A critical examination of our eating habits and their relationship to our health. Nutritionists comment on the relation of our diet to a number of major diseases, and how advertising and food industry promotion affect our food choices.

A. For Tomorrow We Shall Diet
B. 9th — Adult
C. 24 minutes, 16mm color-sound film
D. Churchill Films
662 N. Robertson Blvd.
Los Angeles, CA 90069
E. $350.00
F. A young woman, confused by fad diets, seeks advice from her doctor on how to lose 20 pounds. The film follows her through her experiences in learning to change her eating habits and reduce caloric intake while maintaining proper nutrition. The film also suggests ways of staying on her diet at restaurants and parties. Interwoven with this story is information on exercise and its relationship to burning up calories and ultimately weight loss. The dangers of fad diets are also discussed.

A. Eat, Drink and Be Wary
B. 6th — Adult
C. 21 minutes, 16mm color-sound film
D. Churchill Films
662 N. Robertson Blvd.
Los Angeles, CA 90069
E. $315.00
F. Shoppers, cooks, kids, and critics vent their views on our eating habits and on processed foods which now make up much of our diet. The nutritional losses from processing and the refining of grain and rice are explored. The reasons for increased use of food additives and the controversies over such additives as nitrates and food colorings are examined. A sour look is taken at the high sugar content in foods, especially breakfast cereals. The role of advertising in changing our food habits is dramatically illustrated. The film encourages a good, basic diet containing a high proportion of unprocessed, natural foods.

A. The Feel Good Movies (Series of 3)
B. Primary
C. 6 minutes each, 16mm color-sound films
D. Churchill Films
662 N. Robertson Blvd.
Los Angeles, CA 90069
E. $280.00/series of 3
F. (1) The Eating Feel Good Movie: Food becomes a visual delight and eating is fun from the opening moment when children arrive for a dress-up "tea party." Despite the affective emphasis, food groups are clearly shown.

(2) The Washing Feel Good Movie: Getting clean is a sensuous pleasure, and getting dirty is both fun and funny from the opening moment when a prim young lady gets slammed-in the face with a cream pie. No lectures.

(3) The Sleeping Feel Good Movie: Energy ripples off the screen from "feel good" children.
I. Audio-Visual — Movies, filmstrips & videotapes (continued)

A. Winnie the Pooh; Nutrition and You
B. K — 6th
C. 6 color filmstrips, 6 records OR cassettes, teacher’s guide, and 12 spirit masters
D. Walt Disney
   Educational Media Company
   500 South Buena Vista Street
   Burbank, CA 91521
E. $132.00
F. This series gives students a solid basis for choosing foods to help them stay as alert, as bright, as energetic, and as healthy as they can be. It teaches youngsters how to eat a balanced diet, suggests experimentation with unfamiliar foods, stresses the importance of exercise, of breakfast, and healthy snacks, and explains how nutrition effects growth, vitality, and body maintenance.

A. Nutrition: Food, Fads, Frauds, Facts
B. No age level given
C. Film: 3 parts (1974)
D. Illinois Office of Education
   Media and Resources Center
   100 North First Street
   Springfield, IL 62777
E. Materials may be borrowed by Illinois educators for a one-week period. Materials will be mailed United Parcel Service a week prior to the usage date and must be returned to the Media and Resources Center by the DATE DUE stamped on the material.
F. Part I reviews American eating habits; attitudes toward being overweight, slim; social aspects of food; socio-economics of food marketing. Part II explores the development of personal tastes, reasons for overeating, dieting and changing eating habits. Part III discusses basic nutrition, vitamins and minerals, major food groups, guidelines for good eating.

A. The Big Dinner Table
B. K — 6th
C. 10 minutes, film, 16mm (1968)
E. $165.00
F. Nutrition awareness film.

A. Eat Right to Your Heart’s Delight
B. No grade level given
C. 12-15 minutes each; six films available in 16mm; 8mm cassette; video tape
D. This series of films is available at your local Illinois Center for Educational Improvement Center, the Illinois Office of Education or contact:
   International Producers Services
   3518 Cahuenga Blvd., West Hollywood, CA 90068
E. Films on loan; can purchase at $220.00 each or all six at $1,100.00
F. Series of six films:
   (1) Meals in a Half Hour — this film gives many time-saving hints on the selection of foods, meal planning, and advance preparation.
   (2) Meatless Menus — emphasis on complementary proteins, with descriptive art work to show the eight essential amino acids and how they are completed by proper combinations of proteins in each meal.
   (3) New Ways With Chicken — steps for economical use of chicken.
   (4) Modifying Recipes to Control Saturated Fats and Calories — this film shows the principles of recipe modification.
   (5) Low Fat Meat Preparation — a complete guide to the use of leaner cuts of beef with emphasis on selection of meat, proper trimming and deboning, and preparation techniques.
   (6) Seafood Specialties — film encourages the use of more seafoods with beautifully presented dishes and easy, tasty recipes.

A. The Nutrition Series
B. Primarily for use in jr. high grades, but useful in upper elementary and high school
C. 6 color sound filmstrips
D. McGraw-Hill Films
   Dept. BB
   1254 Avenue of the Americas
   New York, N.Y. 10020
E. 6 color filmstrips, 6 LP records, teacher’s guide
   $115
   6 color filmstrips, 6 cassettes, teacher’s guide
   $115
F. A nutrition education awareness series

The following is a list of films that are available on a rental basis from the Learning Resources Service, Southern Illinois University, Carbondale, Illinois 62901. Telephone (618) 453-2258 Monday through Friday. (NOTICE: Written confirmation of telephone orders is required.)

A. Better Breakfasts, U.S.A. (1964)
B. Intermediate, Jr. High, Sr. High
C. 11 minutes; color; order no. 2-0186
D. Rental from SIUC
E. Rental fee $4.75
I. Audio-Visual -- Movies, filmstrips & videotapes (continued)

F. Has two basic themes: importance of an adequate breakfast for teen-agers, and breakfast cereal’s contribution to the morning meal.

A. Changing Food and Changing Times (1977)

II. Published text materials on health/nutrition

Laidlaw Brothers
Order Processing Dept.
Thatcher and Madison
River Forest, IL 60305

This series is entitled The Healthful Living Program for K-8. Tests ($66) and Answer Keys ($0.66) are available for grades 3-8. Teachers Editions (*TE) are also available for grade levels K-8.

Healthful Living for Today and Tomorrow is the high school text. A Teachers Edition (*TE) is also available.

Texts now available through Laidlaw:

A. The Healthful Living Program, Study Prints $4.59
B. K — 1st
C. Laidlaw Brothers, 1977
D. $21.36 (*TE included in price)
E. These study prints are accompanied with a teachers guide book. Each one of the 24 color prints provide a complete Health Readiness Program. Prints 18 and 19 focus on Nutrition. Food groups, meal time and reasons for eating food are all discussed. Activities, questions and games are provided.

A. Your Health 114531
B. 1st
C. Laidlaw Brothers, 1977
D. $4.41 (*TE $4.41 114541)
E. This text has four chapters that discuss nutrition. Chapter 1, “Eating a Good Breakfast,” promotes the importance of the family unit enjoying a good breakfast. Chapter 3, “Eating Good Meals,” offers an opportunity to discuss how eating a good meal will help you grow. Chapter 6, “Breakfast and Lunch,” offers enrichment once again reinforcing how you feel when you enjoy a good well balanced meal. Chapter 8, “Ask Before Eating and Drinking,” a child should understand the importance of checking with an adult before taking food on their own.

A. Being Healthy 114532
B. 2nd
C. Laidlaw Brothers, 1977
D. $4.98 (*TE $5.25 114542)
II. Published text materials on health/nutrition (listed by publisher) (continued)

E. Chapter 1, "Eating Good Meals," raises the discussion of healthy attitudes about eating foods that are good for you. Chapter 6, "Eating Many Foods," is a thorough unit devoted to helping children acquire certain information i.e., developing concepts, attitudes, and behaviors which will enable them to understand the importance of selecting foods from a variety of food groups.

A. Your Health and You 44533
B. 3rd
C. Laidlaw Brothers, 1977
D. $5.52 (TE $5.95 #4543)
E. Chapter 6, "Food and You," discusses in detail different kinds of food that children may enjoy eating. Food groups are shown and the importance of food variety is stressed. Digestion is explained and diagrammed.

A. Keeping Healthy #4534
B. 4th
C. Laidlaw Brothers, 1977
D. $5.52 (TE $5.94 #4544)
E. Chapter 6, "Food and Your Health," is a descriptive unit in which pupils are taught how eating good meals will help give them the nutrients that are necessary to stay healthy. The role of the digestive system in nutrition is explained. Good health practices are stressed. Diagrams on the circulatory system and its function in nutrition are explained. Wise food choices from different food categories aid in the understanding of maintaining good health.

A. Healthful Living for Today and Tomorrow #4970
B. 9th — 12th
C. Laidlaw Brothers, 1977
D. $8.94 (TE $9.63 #4971)
E. Chapter 18, "Malnutrition," provides some good information about nutrition which is becoming available to consumers. Preparation and consumption of foods along with their protein content are described in detail. Malnutrition throughout the world, as well as in our own country, is brought to light. The importance of exercise is stressed and probable causes of overweight are explored due to a lack of proper dieting and exercise.
II. Published text materials on health/nutrition (listed by publisher) (continued)

Scott Foresman
1900 E. Lake Avenue
Glenview, IL 60025

This series is entitled You and Your Health for K-8. An Activity Book with exercises for home and school is available for grades 1-8 ($81) and an Annotated Teacher Edition (*TE) is also available. Health: A Way of Life, is the high school text. A Teacher's Edition is available (*TE).

Texts now available through Scott Foresman:

D. $5.55 (*TE $6.63 II 11014-177)
E. Unit 5, "How Your Body Uses Food," has several chapters focusing on food intake and digestion. Nutrients are categorized and discussed. Balanced diets are stressed; Simple recipes, as well as the concept of what constitutes an adequate daily diet, are shared.

A. You and Your Health II 11007-977
B. 6th
C. Scott Foresman, 1977
D. $5.55 (*TE $6.63 II 11015-X77)
E. Unit 4, "Health Questions Answered," has several chapters on nutrition. Nutrients and their effect on the body are discussed as well as where nutrients are derived from. The importance of eating three balanced meals is explained through proper diet planning.

A. You and Your Health II 11008-777
B. 7th
C. Scott Foresman, 1977
D. $6.39 (*TE $7.47 II 11016-877)
E. Unit 3, "Consumer Skills," and Unit 5, "Exercise, Sleep and Nutrition," have several chapters on nutrition. The importance of looking for both quality and value are stressed. Tips on food shopping and what to look for on labels are explained. Nutrition and its effect on our bodies is expressed through food groupings, calorie counting and individual physical growth.

A. You and Your Health II 11009-577
B. 8th
II. Published text materials on health/nutrition (listed by publisher) (continued)

C. Scott Foresman, 1977
D. $6.39 (*TE $7.47 #11017-677)
E. Unit 2, "Personal Health Concerns," and Unit 5, "Consumer Guides," have chapters concerned with nutrition. Adequate diets and what importance they provide to a healthy, active body are stressed. Food groups and the nutrients they provide are shown. Food labels, ingredients and food substitutes are discussed. Keeping foods fresh and preparing foods are included as well.

A. Health: A Way of Life #13200-579
B. 9th — 12th
C. Scott Foresman, 1977
D. $8.97 (*TE $10.98 #13201-379)
E. This test is designed to discuss the many health variables which are relevant to our society. Chapter 5, "Nutrition and You," discusses the various kinds of foods and their effect upon our bodies. Nutrients, vitamins, and well balanced food groups are stressed. Digestion and what it means to the body is also explained and diagrammed. Calorie intake and weight watching are also an important part of the Unit.

Steck-Vaughn Co.
Box 2028
Austin, TX 78768

This series is a sequential Health Program for grades 2 through 8 consisting of workbooks. Focusing on Health is the high school text. A Teachers Edition (*TE) is available for the high school text.

Texts now available through Steck-Vaughn Co.

A. Your Growth #0479-X
B. 2nd
C. Steck-Vaughn Co., 1975
D. $1.53
E. This workbook has one unit on nutrition. Unit 3, "Foods That Help Us Grow," has limited coverage on different foods.

A. Growing and Changing #0480-3
B. 3rd
C. Steck-Vaughn Co., 1975
D. $1.53
E. This workbook has one unit on nutrition. Unit 2, "Growing and Keeping Well," has several workbook pages on food groupings.

A. Your Healthy Body #4081-1
B. 4th
C. Steck-Vaughn Co., 1975
D. $1.53
E. This workbook's Unit 5, "Keeping Fit Every Day," gives some insight into proper body functioning. The importance of keeping fit is stressed. There are written exercises on these two areas.

A. Your Growing Body #4082-X
B. 5th
C. Steck-Vaughn Co., 1975
D. $1.53
E. This workbook has 3 units dealing with nutrition. Unit 3 uses nutrition to aid in the explanation of the digestive and circulatory systems. Unit 4 uses nutrition and foods to stress their significance with body development. Unit 5 uses food as an important component for a healthy, active body.

A. Your Health #4083-8
B. 6th
C. Steck-Vaughn Co., 1975
D. $1.53
E. This workbook's Unit 4, "Food and Nutrition," discusses foods that have the essential nutrients, proteins and minerals needed to maintain a healthy body. Food groups are discussed and written exercises are used to reinforce these concepts.

A. Better Health #0484-6
B. 7th
C. Steck-Vaughn Co., 1975
D. $1.53
E. This workbook's Unit 3, "Better Foods for Better Health," has some readings on the nutrients and calories contained in the basic food groups. Malnutrition is also included within the unit. There are many written exercises for the students to use.

A. Keeping Your Health #0485-4
B. 8th
C. Steck-Vaughn Co., 1975
D. $1.53
E. This workbook's Unit 2, "Build a Healthy Body," contains some information on having a healthy body and keeping it that way through appropriate diet and activity i.e., exercise.
II. Published text materials on health/nutrition (listed by publisher) (continued)

A. *Focusing on Health* #I0624-5
B. High School
C. *Steck-Vaughn Co., 1975*
D. $9.15 ("TE $9.15 #I0625-35")

E. This text has two chapters on nutrition. Chapter 8, "Selecting Nutritious Foods" and Chapter 9, "Calories and Weight." Chapter 8 presents an overview of components that make up a nutritious diet. Food groupings, diet planning and vitamins are discussed. Chapter 9 discusses caloric intake and weight control.

Harcourt Brace Jovanovich (Midwest Region)
7555 Caldwell Avenue
Chicago, IL 60648

This series is entitled *Health Decisions for Growth* for grades K-6th. A Teacher Edition ("TE") is available for each grade level. *Your Health and Safety for Better Living* is the high school text. Teaching tests ($2.00 #369-520-X) are available for this text. Texts now available through Harcourt Brace Jovanovich

A. As You Grow #369625-7
B. 1st
C. Harcourt Brace Jovanovich, 1977
D. $4.50 ("TE $5.49 #369634-6")
E. Part Two, "Having Energy," gives a brief overview of food groupings. Different cultures and types of foods families eat are briefly discussed.

A. You Make Choices #369626-5
B. 2nd
C. Harcourt Brace Jovanovich, 1977
D. $4.50 ("TE $5.49 #369635-4")
E. Part Three, "How Food Helps," gives a lesson on how the body uses protein, fats, starches and sugar. They also get an overview of foods that are necessary for promoting good health.

A. At Your Best #362927-3
B. 3rd
C. Harcourt Brace Jovanovich, 1977
D. $5.10 ("TE $6.09 #36936-2")
E. Unit 3, "Making Careful Choices," children learn the importance of proper food choices. They are introduced to many of the elements found in foods. Nutrition and how it's derived through proper diet are also explored. The end of the text has a chart listing foods we need and what they do for us.

A. You Learn and Change #369628-1
B. 4th
C. Harcourt Brace Jovanovich, 1977
D. $5.10 ("TE $6.09 #36937-0")
E. Unit 3, "Understanding Who You Are," has one page, "The Balanced Diet" which briefly discusses how diet influences our personality. The end of the book has a chart on Nutrients we need.

A. *Balance in Your Life* #369629-X
B. 5th
C. Harcourt Brace Jovanovich, 1977
D. $5.10 ("TE $6.09 #369638-9")
E. Unit 2, "Stress and Strength," discusses how eating properly will help protect against stress. Food groups are explored, nutrients are identified and consequences of a poor diet are discussed. A nutrient chart is also included at the end of the book.

A. Toward Your Future #369630-3
B. 6th
C. Harcourt Brace Jovanovich, 1977
D. $5.55 ("TE $6.54 #369639-7")
E. Part 2, "Learning How Your Body Responds," helps children recognize the correlation between proper eating habits and good health. Physical, social and emotional components are brought into play. Diet, calories and nutrition are discussed as well as the importance of knowing your body and recognizing its inner time clock. A list of nutrients is also included at the end of the book.

A. Your Health and Safety for Better Living #369518-8
B. High School
C. Harcourt Brace Jovanovich, 1977
D. $9.60
E. Chapter 3, "The Foods You Eat," probe into nutrition and vitamins. Essential nutrients are explored through different food groups. Chapter 4, "A Balanced Diet," discusses caloric intake. Chapter 14, "Digestion," explores the many factors that influence how the digestive system functions.

Cebco Standard Publishing
9 Kublick Road
Fairfield, NJ 07006

*Turn In to Health* is a high school text. A Teachers Manual ("TM") is available. A free booklet on Sexuality is included with the text.
II. Published text materials on health/nutrition (listed by publisher) (continued)

Texts now available through Cebco Standard Publishing

A. Tuna In To Health #00906
B. High School
D. $5.95 (hard cover) $2.65 (soft cover) (*TM $3.50 #00909)
E. Chapter 3, "Feeling Fine," deals primarily with diet and weight control. The values of the four basic food groups for a balanced diet are explored. Metabolism, individual energy needs and food fads are examined. Chapter 6, "Your Body Dynamics," discusses the digestion of foods in the body and diagrams of the digestive and respiratory systems are described in detail.

Milk Foundation
150 N. Wacker Dr.
Chicago, IL 60606

Food — Your Choice — is a sequential nutrition learning system for students K-6th. The nutrition concepts in Food — Your Choice are adaptable to the developmental stages of children at various grade levels. Student share packets are available from the Milk Foundation at $4.00 per packet per grade level.

Materials now available through The Milk Foundation

A. Food — Your Choice, Level 1
B. K — 2nd
C. Milk Foundation
D. $10.00
E. Gives the student his/her first exposure to formal nutrition. Good questions are designed to help the student center on basic nutrition. Activities are also provided to help children develop skills they can apply in preparing simple foods.

A. Food — Your Choice, Level 2
B. 3rd — 4th
C. Milk Foundation
D. $10.00
E. Extends the study of the four basic food groups through food comparisons, food classifications, lifestyles and consequences of not eating correctly. The activities are motivating due to the activity centered portion of the program.

A. Food — Your Choice, Level 3
B. 5th — 6th
C. Milk Foundation

D. $10.00
E. Focuses in on the factors that influence food decisions. The material at Level 3 helps the student to understand and evaluate factors that influence eating patterns. The learning activities encourage wise food choices.

III. Curriculum guides

A. F.O.O.D. for Thought #D400
B. K — 3rd
C. American School Food Service Association (ASFSA)
4101 Iliff Avenue
Denver, CO 80222
D. $5.00
E. F.O.O.D. for Thought is a series divided into 4 areas. Nutrition is the first Unit and is specially put together with activities and nutritional experiences for teachers to use in the classroom. Each section of nutrition states a purpose and includes objectives, materials and procedures. Special activities are listed to culminate each new concept. Food groups, food preservation, nutrients, calories, eating habits, food awareness, preparation, physical and emotional attitudes are explored.

A. F.O.O.D. for Thought #D410
B. 4th — 6th
C. American School Food Service Association (ASFSA)
4101 Iliff Avenue
Denver, CO 80222
D. $5.00
E. This is a continuing series prepared for age levels 9 through 11. Again, it is divided into 4 areas. Nutrition is the first Unit with a broader study of nutrition. There are eight lessons in each group. For each activity, one objective is stated — activities, materials and time needs are specified. Major listening skills, speaking, reading, writing and computing are focused upon. The information in the first series (#D400) is expanded upon in greater detail for this grade level.

A. Nutrition Education, 1976
B. K — 6th
C. Supervisor of Public Instruction
Division of School Food Services
State Capitol
Helena, MT 59601
D. N/C
E. Nutrition Education is a curriculum guide for
III. Curriculum guides (continued)

teachers who wish to expand nutrition education into other subject areas. The basic layout of each section is: 1) a broad, general concept 2) specific behavioral objectives 3) teaching aids that answer behavior objectives, as well as supply the teachers with additional information 4) learning experiences relative to behavioral objectives 5) possible subject areas in which learning experiences can be included.

B. K — 6th
C. State Dept. of Education
   School Food Service Section
   Div. of Admin. & Finance
   410 State Office Bldg.
   Montgomery, AL 36104
D. $1.00 (K — 2nd) Discovering Vegetables
   $1.00 (3rd — 4th) Food Choices
   $1.00 (5th — 6th) Nutrition Trek
E. Each section, K-2nd, 3rd-4th and 5th-6th, contains a sequential portion for learning. Concepts are naturally expanded for the different levels to help strengthen understanding. Learning experiences are suggested for each concept. Evaluations are also included with each objective. This guide may be used in its entirety or selected portions can be chosen.

A. Teaching Nutrition: A Resource Guide for Nutrition Education In the Elementary School, 1974
B. K — 6th
C. New Hampshire Dept. of Education
   State House
   Concord, NH 03301
D. N/C
E. A resource guide for nutrition education. It is designed to help integrate nutrition information within school curriculum. Basic concepts and generalizations are stated and student performances are identified. Participation of school food service managers, the school nurse, and other school personnel are necessary for accomplishment of activities. Parental participation is also very important for reinforcement. The material is divided into two units, K-3rd and 4th-6th.

A. Food With Food Facts
B. K — 3rd
C. State of Delaware
   Dept. of Public Instruction
   Dover, DE 19901
D. N/C
E. A teachers guide for nutrition education. It is meant to supply some of the resources available for carrying out a good nutrition program. This primary school guide presents an opportunity to involve children in an understanding of nutrition through experiences and activities in the home, school and community.

A. Let's Teach Nutrition
B. K — 6th
C. Ernestine A. McLeod
   Dept. of Education
   Little Rock, AR 72201
D. N/C
E. A sequential composite of nutritional educational subject matter and methods. Basic food groups, nutritive values derived from each, as well as the effect they have on the human body, are discussed. This publication provides ideas, suggestions, methods and techniques which have been tested by classroom teachers. Level K — 3rd focuses on development of positive attitudes towards food. Level 4th — 6th focuses more upon the scientific aspects of nutrition education. Learning activities and resources are sequentially developed.

A. Nutrition Instructors Guide for School Food Service Personnel, 1975
B. Food Service Personnel & Teachers
C. Florida Dept. of Education
   Tallahassee, FL 32302
D. $3.51
E. Curriculum designed to aid teachers by giving suggestions for classroom activities, evaluation instruments and sources of additional information for both the instructor and students. This guide can also help equip the school food service worker with: a) information about nutrition to help in personal food choices b) sources of technical information for evaluation of publications and advertising c) for food choices, nutrient needs and food compositions for all ages.

A. Learning About Nutrition
B. Preschool
C. State Board of Education
   Illinois Office of Education
   100 N. First Street
   Springfield, IL 62777
D. N/C
E. A nutrition manual developed to assist day care teachers in their role in instilling positive nutritional habits in children. Each lesson states teaching objectives, activities, teachers' preparation and equipment. Coloring book activities
III. Curriculum guides (continued).

are also included which can be incorporated within any of the lessons.

A. Learning Nutrition Through Discovery
B. K — 6th
C. Duplicating Services
Cornell University
Ithaca, NY 14850
D. $1.75
E. A teacher's guide for grade levels K-6th. Most activities suggested for grade levels K-3rd deal with food experiences which are designed for a classroom setting. Two basic concepts are stressed, 1) positive attitudes toward eating many types of foods 2) developing a basic understanding about the food they eat and how it is related to their health. The activities in nutrition for levels 4th-6th deal with food experiences and attitudes as well. Concepts in biology and science, where nutrition is concerned, are also incorporated.

A. Food, Life Depends on It
B. Intermediate 4th — 6th
C. Westside Community School
909 76th Street
Omaha, NE 68114
D. $3.00
E. A teacher's guidebook with mini units on health. Major concepts are listed at the beginning of each unit. These concepts are followed by behavioral objectives. Many learning experiences are suggested for the classroom. Film listings and resources are available at the end of each unit.

A. Health Education; 1974
B. K — 12th
C. Commercial-Educational Distributing Services
P. O. Box 8723
Portland, OR 97208
D. N/C
E. A collection of possible health education goals. This collection assists the teacher in choosing some of the goals which might best fit his or her students' levels of learning. Each area of Health Education specifies grade levels as well as goals.

A. P.A.C. — Nutrition Experience, 1965
B. Preschool
C. Belleville Public Schools
District II 118
Belleville, IL
D. N/C
E. A booklet which is designed to help the classroom/teacher introduce good nutrition principles, experiences with major food groups, activities in food preparation and serving methods. Activities are designed to help achieve these goals. Emphasis upon motor skills and language skills are stressed.

A. Nutrition in a Changing World (29 Units)
B. Early Childhood
C. The Nutrition Foundation
Office of Educ. & Public Affairs
888 Seventeenth St., N.W.
Washington, DC 20006
D. $9.00
E. A curriculum designed for preschoolers. The 29 units are sequentially presented. Each unit has a title and a rationale which tells the teacher what will be taught, prerequisites (tells the teacher what materials are necessary), preassessments (quick tests to help the teacher decipher levels of knowledge for the child), objectives, activities and postassessments are also offered.

A. Nutrition in a Changing World (Unit I — 8 lessons)
B. Intermediate
C. The Nutrition Foundation
Office of Educ. & Public Affairs
888 Seventeenth St., N.W.
Washington, DC 20006
D. $6.00
E. Uses the same format as early childhood (above), however, sequentially increases learning scope with age.

A. Try Something New
B. 9th — 12th
C. New York State College of Human Ecology
C/O Duplicating Services
Ithaca, NY 14850
D. N/C
E. A series of activities and lessons which are directed towards youths between the ages of 9 and 12. Emphasis is placed upon foods that
Youths prepare and eat and the vitamins they receive everyday. There are 22 lessons available to the teacher, however, it is pointed out that all of these activities need not necessarily be used. The teacher can use his/her discretion when choosing lessons for his/her class.

B. K — 6th
C. *Minnesota Instructional Materials Center*
   2000 Century Avenue North
   White Bear Lake, MN 55110
D. $12.50
E. A curriculum which helps teachers teach a concept in one lesson. Each grade level has a different set of activities designed for that level's interest. Each activity is sequentially taught. The activities involve oral communication skills, dramatic and written skills on nutrition.

   Dept. of Nutrition and Food Sciences
   Logan, UT 84322
   D. No price listed
   E. With fewer and fewer meals eaten as a family experience, the growing popularity of quick-order restaurants, and the widespread consumption of snack foods, every member of the family must be able to identify nutritious foods and select a well-balanced diet. The present generation of children, therefore, has a special need for sound, relevant nutrition education.
