Because the New York Outdoor Education Association has made significant contributions to the establishment and expansion of outdoor education programs in the state and throughout the world, this guide is directed toward those who want to strengthen their own state or regional association or to create one. The paper provides an analysis of the strategies contributing to the success of the NYSOEA and suggests concrete procedures for establishing comparable state outdoor education associations. Sections in the paper describe the organization's purposes and philosophy, programs and services, membership, organization, regional structure and financial considerations. A section on the 24-member Executive Board describes election procedures and lists responsibilities for both officers and other board members. Another section offers guidelines and policies for planning and implementing workshops as well as a workshop planning checklist. A similar section on setting up an annual conference is also included. The final part of the paper gives ideas for starting a regional or state-wide Outdoor Education association. It discusses invitations to the initial planning meeting, a sample schedule for that meeting, the types of business to be conducted, establishment of the regional network, and incorporation as a nonprofit organization. Appended are copies of forms used by the NYSOEA, including a financial statement as well as several conference registration forms. (DS)
Establishing An Outdoor Education Association

The New York Model
ESTABLISHING A STATE OUTDOOR EDUCATION ASSOCIATION:
The New York Model

By

Thomas P. Benjamin

Introduction

This paper will provide the reader with: (1) an analysis of strategies contributing to the success and strength of the New York State Outdoor Education Association (NYSOEA) and (2) concrete procedures for establishing comparable State Outdoor Education Associations. How this organization was founded, grew, and exists will be explained in this manuscript.

As a professional organization, NYSOEA has made significant contributions to the establishment and expansion of Outdoor Education programs in New York State and throughout the world. Many professionals have received assistance from NYSOEA through workshops, conferences, newsletters, journals and consultations. Many individuals who received training in New York State now are conducting programs around the world. This has been made possible through a completely volunteer organization. No compensation is given to any of its members.

It is the hope of NYSOEA that other individuals can use this document to strengthen their own state and regional associations. For those areas in the country that do not have outdoor associations, we are providing you with a successful plan that works!
Purposes and Philosophy

The New York State Outdoor Education Association is concerned with the development and coordination of first-hand interdisciplinary educational experiences in the out-of-doors, while enhancing appreciation of the environment.

NYSOEA is dedicated to:

1. The fulfillment of education goals through the use of the outdoors as a living and learning laboratory.

2. The interaction of persons interested and involved in outdoor education.

3. The development of attitudes, values, and behavior necessary for realizing full human potential.

4. The development of an "environmental sensitivity" based upon the interdependence of man to his natural environment.

It is believed that the success of NYSOEA is grounded in the two basic philosophical principles upon which it was founded:

1. Belief in the strength of a broad based curriculum approach that encompasses the entire curricular spectrum and that interests and attracts membership from all academic disciplines.

2. Commitment to a representational membership that includes rather than excludes certain selected populations such as teachers and public school administrators, state agency personnel and college faculty members, etc. (It should be noted that sensitivity to outdoor and/or environmental education on the part of state agency personnel, as was originally and remains the case in New York, will greatly enhance the chances for development of a successful state association.)
Programs and Services

Some programs and services provided by the New York State Outdoor Education Association include:

1. Regional education workshops - for teachers, administrators, and other individuals interested in outdoor education, to provide techniques for using the outdoors as a classroom for learning and living.

2. Annual fall conference - based on an outdoor education theme with in-depth workshops relating to the selected theme. Numerous opportunities are provided for individuals to expand their knowledge of and competence in outdoor education.

3. The Communicator - a periodic outdoor education journal that brings to the membership excellent articles on current programs, developments, and materials available in outdoor education contributed by outstanding authorities in the field.

4. "Think About It" - monthly newsletter designed to inform members of association activities and to serve as a media for the exchange of ideas and information on various outdoor education aspects.

5. Current legislative information - pertinent information to keep members informed about environmental legislation.

6. Liaison with voluntary and allied professional associations - to maintain contact with current programs of outdoor education through association members and affiliated organizations.

7. Consultant services - offers guidance and advice to individuals, educational institutions, organizations, and agencies interested in using the outdoors as a learning laboratory.
Regional representatives - to coordinate activities and to provide help at local and regional levels.

Awards and recognition - the association's "Golden Award" and other honor awards are presented periodically to outdoor education professionals who have provided outstanding service and leadership in outdoor education.

Membership

Membership in the New York State Outdoor Education Association is open to anyone who has an interest in outdoor education. An active organization since 1968, the association has expanded its membership significantly. The diversified backgrounds and experiences of its members substantiate the interdisciplinary concept of outdoor education.

The effectiveness and strength of the association are based on willingness of members to actively volunteer and participate in the varied services. The association offers possibilities for demonstrating the effectiveness of outdoor education through the sponsorship of an annual conference, workshops, journals, and newsletters. It is through volunteer effort that these services are provided.

The total strength and continued success of the organization are based on an active working membership. The following membership categories are available: student, individual, family, affiliate, library, and life memberships. Fees for membership are set by the board of directors and are a major source of funding for the organization.

Services of the organization are available to the members only and are used as an attraction for prospective members. To attend the annual conference (normal attendance of over 800 people), you must be a member.
The current membership is 1500, including 300 from outside New York State. It is the goal of the association to double its membership in the next two years. As membership increases, the quantity and quality of the association services can be increased. The following two pages show an organization flow chart and the structure by regions of the New York State Outdoor Education Association.
All these officers are chairpersons of committees as they relate to the responsibilities of their office.

**Are elected from the membership they represent.***

Executive Board

The Executive Board of the New York State Outdoor Education Association is the governing and policy-making body of the organization. Executive Board members are directly responsible for using all resources effectively and judiciously to successfully carry out the duties of the organization.

The Executive Board is responsible for meeting the goals of the constitution and bylaws of the association.

Officers of Executive Board

President

Election - The President-elect becomes President following the annual meeting.

Responsibilities -

1. Presides at all meetings of the membership board.
2. Appoints the Vice-president of membership and public information as well as parliamentarian, editors, historians, and all other committee chairpersons; appointments are made with approval of the executive board.
3. Serves as an ex-officio member of all the committees.
4. As chief executive officer of the association, executes and enforces all policies.

Assignment of powers and duties -

Shall assign any and all powers to other members of the organization but is ultimately responsible for all decisions.

Committees -

Shall be established as needed to assist the association in meeting its goals.

Term of office - one year.
In addition to the broad responsibilities listed above, the President is also responsible for:

1. Integrating the various components of the association to establish the most effective means of implementing the association's constitution.
2. Producing periodic status reports to the Executive Board.
3. Overseeing all administrative, demonstrative, and implementative functions of the association.
4. Collecting and safeguarding pertinent data reflecting the association's growth and development.
5. Establishing and implementing policies to carry out the purpose of the association.
6. Encouraging and facilitating compatibility among the various components of the association.
7. Coordinating the efforts of all officers and committees.
8. Conducting and calling Executive Board meetings as required.
9. Developing public relations and serving as a resource person representing the association.
10. Maintaining relations and records with organizations with allied interests in outdoor education - state, national, and international levels.
11. Ascertaining the extent to which the association should proceed according to specific plans and/or objectives.
12. Continually evaluating and correcting the extent to which the various components of the association are contributing to overall effectiveness.
14. Developing a communication system that interacts with all other officers and committees.

15. Developing, on an as-needed basis:
   a. ways to obtain required resources.
   b. structural aspects of organization, functions, lines of authority and responsibility.
   c. procedural steps, including clearance and control.

Immediate Past-president

Election - serves for one year after leaving the office of President.

Responsibilities -
   1. Assists the President.
   2. Serves on the Awards Committee.

Term of office - one year.

President-elect

Election - elected by written ballot by the membership of the association.

Responsibilities -
   1. Conducts meetings at the request of the President or in the absence of the President.
   2. Becomes familiar with the office of the President.
   3. Chairs constitutional review and revision committee.
   4. Authorizes expenditures for all but own office.
   5. Serves as member of nomination-elections committee.
   6. Serves as member of finance committee.
   7. Supports President's policies.

Term of office - one year - will be President the forthcoming year.
Vice-president - Membership

Election - appointed by the President.

Responsibilities -
1. Attends all board meetings.
2. Chairs membership committee.
3. Conducts annual membership drive.
4. Maintains membership records.
5. Reports to the board on membership statistics.

Term of office - one year.

Vice-president - Resource Services

Election - elected by the membership by a mail ballot.

Responsibilities -
1. Attends all board meetings.
2. Provides resource materials to the membership when requested.
3. Develops resource packets and information.
4. Seeks funding sources.

Committees - can serve on any committee of the board.

Term of office - two years - can be reelected.

Vice-president - Public Information

Election - appointed by the President.

Responsibilities -
1. Attends all board meetings.
2. Supervises the journal, newsletter, and all other publications.
3. Disburses copies of publications.
4. Publicizes the association's activities.
5. Serves as chairman of the public information committee.
6. Chooses editors for publications.
Vice-president - Student Affairs

Election - elected by a mail ballot of the student membership.

Responsibilities -
1. Attends all board meetings.
2. Chairs the committee on student affairs.
3. Maintains a communications network among student members.
4. Represents student viewpoints.
5. Organizes student members.
6. Organizes student conferences and workshops.

Term of office - one year.

Secretary

Election - appointed by the President.

Responsibilities -
1. Attends all board meetings.
2. Maintains minutes.
3. Sends out mailings when requested by President or other officer.

Term of office - two years.

Treasurer

Election - appointed by the President.

Responsibilities -
1. Maintains all financial records.
2. Pays all debts of the association.
3. Files all necessary reports in a timely manner.
4. Chairs the finance committee.
5. Prepares an annual budget.

Term of office - one year.
Three Members-at-large

Election - elected by a mail ballot of the membership.

Responsibilities -

1. Attend all board meetings.
2. Represent the membership.
3. Perform such tasks as given to them by the President.

Term of office - two years.

Ten Regional Representatives

Election - elected by a mail ballot of the members from the region they represent.

Region Ten represents all members who live outside of New York State. The other nine regions represent New York State. The regional structure is the backbone of the association.

Responsibilities -

1. Attend all board meetings.
2. Set up a regional networking system.
3. Appoint county representatives.
4. Solicit new members.
5. Plan and conduct regional meetings.
6. Publish regional newsletter.
7. Plan and conduct regional workshops.
8. Represent NYSOEA in the region.

Term of office - two years.
Historian

Election - appointed by the President.

Responsibilities -

1. Maintains the archives of the association.
2. Adds important current materials to the files.

Parliamentarian

Election - appointed by the President.

Responsibilities -

1. Rules on all parliamentary issues.
2. Interprets Robert's Rules of Order to the board.

Finances

The New York State Outdoor Education Association has found it necessary to set up very strict financial controls. This has not been done due to any past problems, but is considered insurance against any potential problems. The following is a copy of our disbursement policy.

General Disbursement Policy

Part I

A person shall not make any commitment to purchase materials or services for the Association from any supplier, "contractor," or individual unless such material or service was specifically identified as a separate category and amount in the appropriate budget (including supplemental) authorization(s) approved by the Executive Board for the current year. Persons doing work for, or on behalf of, the Annual Conference Committee or a Regional Workshop Committee shall not commit Association funds for any expenditure that is not essential to the effective and successful operation of the activity involved unless specifically approved by the Executive Board prior to the commitment of funds.
Part II

Professional services, including the skills of a clerk and typist, as well as those involving technical and professional expertise, which are needed to develop and implement the various objectives of the Association's operation are normally performed voluntarily by each Executive Board member. Voluntary assistance from the general membership may be sought and utilized by the Board members whenever specific task requirements indicate the need for effort or talents beyond the capabilities of a Board member and to the extent of practicality.

If voluntary assistance from the membership is not available or is insufficient to meet the manpower needs for the Association's operations, the Finance Committee shall present alternative solutions for consideration by the full Board.

Accordingly, payment shall not be made to the Association members for professional services, as herein defined, which are to be performed on behalf of the Association without specific authorization by the Executive Board prior to the performance of such services.

Interpretation and implementation of this Disbursement Policy shall be the responsibility of the Treasurer after consultation with the Finance Committee.

Workshops

One of our prime purposes is the use of workshops in regions to promote outdoor education. To assist these workshops the association has established the following guidelines and policies. These guidelines serve two purposes: to assist those regional representatives who have not organized workshops before, and to assure the association that a workshop will be properly organized and maintain a high quality.
Guidelines and Policies for Workshops

The following guidelines and policies are necessary for planning and implementing workshops in a region:

1. Workshop planning sheets must be submitted completely filled out prior to advertisement of the workshop.

2. Copies of news articles and other publicity must be submitted for approval before release.

3. Members are asked to help NYSOEA by doing the following:
   a. encourage new members.
   b. present exhibits and materials about NYSOEA.
   c. encourage workshop to be self-supporting or, wherever possible, provide income for NYSOEA workshop fund.
   d. send information about workshop to the newsletter editor.

4. Each workshop conducted under the name of NYSOEA must have the prior approval of the NYSOEA State Workshop Chairman. No NYSOEA funds can be committed or approved for payment without this prior approval.

5. Financing for each workshop should be structured to provide income to the general treasury, or at least to make the workshop financially self-supporting.
   a. Registration fees charged to workshop participants must be at an amount which will yield a total income in excess of the total expenses for that workshop.
   b. Receipts from membership dues and sales of NYSOEA merchandise (patches, decals, etc.) must be accounted for separately, and are not to be used to offset workshop expenses in achieving the goal of financial self-sufficiency. (See lower
portion of the sample format for the Workshop Financial Statement, Appendix.)

c. The balance of funds on hand (i.e., net workshop proceeds after expenses, plus receipts from membership fees and logo sales) shall be transmitted directly by check or money order to the NYSOEA Treasurer within thirty days (30) after the workshop unless written instructions from the Treasurer indicate otherwise.

6. The Executive Board is prepared to lend financial relief where justified.
   a. A workshop cash advance is available if needed.
      1) Normally, all expenses from workshop are to be paid from registration fees collected from that workshop. There are situations, however, when certain expenses must be paid before any registration fees are received. A workshop cash advance may be requested for those situations where the cumulative amount of such "early" expenses is expected to be significant. If the request is approved, the Treasurer will issue a check as an advance or loan to the regional workshop director for paying these "early" expenses during the period when registration fees are not yet available.

      2) The purpose of a workshop cash advance is not to underwrite any portion of the workshop expenses, because each workshop is expected to be financially self-supporting. Instead, its purpose is to provide a cash working fund which will minimize the necessity for the regional work-
shop director to use personal funds for the "early" expenses prior to pre-registration.

3. If a workshop cash advance is needed, the regional workshop director should determine (a) the amounts of each type of "early" expense to be incurred, and (b) the date the total amount would be required. This information should be shown under Item 9 of the Request for Workshop Approval form, and submitted to the NYSOEA Workshop Chairperson whose approval must be forwarded to the Treasurer before a check can be issued.

b. The total amount of the cash advance must be returned to the NYSOEA Treasurer within (30) days after the workshop. (See the lower portion of the Workshop Financial Statement sample, Appendix.) The receipts for the expenses paid from the advance become part of the supporting documentation for the expenses listed on the financial statement.

7. Information regarding articles should be sent to the State Workshop Chairperson in a format which is ready for publication.

8. NYSOEA Regional Representatives shall serve as liaison with the State Workshop Chairperson in reporting workshop information for the annual conference report and for conveying financial information and newsletter articles pertaining to regional workshop activities. (See attached 10211.)

9. All checks and money orders from workshop activities should be made payable to NYSOEA; similarly, checks transmitting funds from the region to the Association Treasury should be made payable to NYSOEA.
10. Within thirty (30) days after the completion of the workshop, the following documentation should be sent to:
   a. State Workshop Chairperson (one copy of each)
      1) Workshop Financial Statement.
      2) Workshop Summary Sheet.
      3) Workshop Registration Roster.
   b. Treasurer (one copy of each)
      1) Workshop Financial Statement (with receipts for all workshop expenses attached thereto) accompanied by a check for the total amount due as shown on the bottom line of the statement.
      2) Workshop Registration Roster.
   c. Vice-president - Membership
      1) Workshop Registration Roster.

11. Contact the State Workshop Chairperson if you are in need of clarification and/or assistance.

Planning Checklist for Workshops

The following suggestions should help in planning and implementing workshops (check off when completed):

1. Identify possible participants
2. Identify a specific objective
3. Secure a place to hold workshop
4. Identify resource people
5. Utilize other agencies that may be helpful
6. List all needed materials
7. List ways to publicize
8. Draw up a budget
9. Number of participants
10. Cost per participant
11. Workshop schedule, dates, times
12. If co-sponsorship by NYSOEA is desired, send all information to the regional workshop chairperson for approval
13. Workshop flyer and news article
14. Pre-registration
15. Registration
16. Conduct workshop
17. Fill out accounting sheets
18. Fill out workshop report sheet
19. Send material to regional workshop chairperson

Annual Conference

This annual event has grown to be one of the finest outdoor education conferences in the country. This four-day conference, which started with less than 100 people 12 years ago, now attracts over 800, including workshop leaders.

The key to the success of this conference is the volunteer effort that goes into it. Two years before the actual conference the conference committee is hard at work. One year before the conference the schedule is set and the workshop leaders are solicited. The following page shows a typical schedule for our annual conference.

This will give you some idea of the work that goes into our annual conference. This list is not all inclusive but is meant only to give you a start in planning your own conference.

I would suggest for your first attempt that you may want to try just a one or two-day conference. Try to keep your first attempt small. Remember, quality not quantity is the strength of this association.

In the appendix are copies of the information we send out for our annual conference. These change with every conference, but the basic information is still usable.

 Hopefully, reading this list of workshops will encourage you
to begin reviewing the resources available in your area that could provide
similar interesting and educational subjects.

Ideas for Starting a Regional or State-Wide
Outdoor Education Association

The first step is to contact all individuals in the area you wish
to serve who have shown an interest in outdoor education. It's always
easiest to start with those you already know and expand from a small core
of dedicated individuals.

I would recommend at least five people and no more than twenty.
Once you have identified the group that will form the nucleus of the Outdoor
Education Association, arrange a meeting where this group can plan a strategy
for the future. Send out individual invitations for this planning meeting.
Include a rough idea of what the association could do when formed and an
agenda for the meeting.

If you are covering a large geographic area, you may want your
meeting to start one evening and end by noon the next day. This may seem
like a long time, but it is a way to accomplish a lot without the great
transportation cost two or more separate meetings would entail.

-24-
Sample Letter

November 18, 1980

Dear Dr. Adams:

I have been very impressed by the outdoor education programs you have conducted over the past five years. It is my belief that you would be a major asset to the steering committee of Northwest Outdoor Education Association which we are forming. We would like you to attend the first planning meeting of this new association and consider becoming a member of the steering committee.

This association will be formed to help outdoor educators throughout the state better their skills. It will also provide opportunities for novices to become acquainted with outdoor education. These and other goals will be discussed at our steering committee meeting.

The meeting will be held at Bad Man Outdoor Education Center. The first session will be at 7:00 p.m. on January 21st, and we will complete our meeting at 12:00 noon on the 22nd. Al, the director of the center, is providing room and board as his contribution to starting the association.

I will be calling you in a couple of weeks to see if you can attend.

Sincerely,

Dr. John Smith

Comments on Sample Letter: The letter should be as short as possible. Details can be appended to the letter, if necessary. It should be to the point and request the attendance of the individual for a specific purpose. Outline very generally what you hope the association will do and its potential value. State the meeting place, date, and time. Always put in a line that you will call to finalize arrangements and answer any questions.
**Sample Schedule for the Meeting**

6:00 - 7:00 Arrive and meet each other.
7:30 - 8:00 Share backgrounds and present job.
8:00 - 8:15 Appoint acting chairperson.
8:15 - 10:00 Appoint secretary to take minutes. Discuss the goals.
10:00 - 11:00 Solidify goals.
11:00 Adjourn.
8:00 Assign volunteers to chair the following committees: Publication and Publicity, Membership, Constitution, Workshop, Finances.
8:15 Decide what each chairperson's responsibilities will be, set goals, objectives, and dates.
10:00 Discuss membership, dues, and finances.
11:30 Set agenda place and time for next meeting (a meeting every three months is suitable).

**Comments on First Meeting**

1. Goals of Association - In the beginning you may want to use the New York State Outdoor Education Association goals and modify them to fit your particular needs.

2. Committees and Initial Needs - All committees will eventually evolve their own duties. However, in the beginning, it would be best to outline the minimum needs of each committee.

3. Publications and Publicity Committee - Newsletter - A simple one page sheet to attract members to the association should be published, containing association news, teaching tips, book reviews, and upcoming events. Teaching tips seem to be the most sought after commodity and have sold individuals on becoming members.

4. Logo - A simple but eye-catching logo should be designed and used on all publications, stationery, and other advertising items.

5. Public Service Announcements - This is a free service given by all radio and television stations, usually consisting of spots from 10-60 seconds in length. Some stations will produce a spot for you and others will ask you to produce a finished product. Check...
with the stations you wish to use before starting this project to find out the format they prefer.

6. Membership Committee - This committee should compile a mailing list of potential members. Develop a membership brochure that includes information on the association and membership fees. This should be prepared and then reviewed by the steering committee. The membership committee is responsible for maintaining the membership and organizing an annual membership drive. They also must maintain a membership list and provide a system for mailing information to the membership.

7. Constitution Committee - This committee is responsible for writing the constitution and bylaws for the association. This will be needed to receive non-profit status for the association. Once the initial document is completed, it can then be updated as needed. The New York State Outdoor Education Association constitution can be used as a model. Just try to keep your constitution as simple as possible.

8. Workshop Committee - This committee coordinates the various workshops sponsored by the association. It is responsible for the promotion, quality, and finances of all workshops. This committee will review the section on workshops, including guidelines and timetable, and adopt their own policies governing workshops. From this committee will probably come the first chairperson for the annual conference. This annual event can be a great positive force to the success of the association and requires a considerable amount of preparation and planning.

8. Finance Committee - This committee should work closely with the membership and workshop committees to determine potential income
sources for the coming year. It also should seek outside sources to assist in the first year's expenses. During the early history of NYSEOA, most expenses were borne by other sponsoring agencies. This assisted the association to grow but caused the association to have a false sense of security. Long-range financial goals should be toward self-sufficiency.

A budget for the coming year should be presented with input from all steering committee members. This budget is intended as a guide for growth.

Another major goal is to solicit funds from outside sources, including individuals, corporations, foundations, and government grants. These sources of funding can accelerate the growth of the association more quickly than almost anything else. Funds create more services and thus continued growth.

9. Chairperson's Responsibility - The chairperson coordinates all activities of the various members of the steering committee. The chairperson should be enthusiastic and supportive of committee activities. However, there is a real need to assign tasks and deadlines to make sure jobs are completed in a reasonable length of time. A chairperson should not hesitate to ask for work which is late and is holding up the progress. If this becomes a problem, work should be reassigned to another member of the committee. This does not mean that the chairperson should do the work! One of the easiest ways to ruin an association is for the chairperson to do work that is not being done by the other members. The main job of the chairperson is to coordinate the work of the committee—not to be the committee. If the association lives or dies on the work of one individual, you might as well give it up.
now. This does not mean that one individual cannot be the prime mover in forming the association, but that individual must be able to interest others to support the cause in order for the association to succeed.

Establishing The Network

The first step of the networking process is completed with the formation of the steering committee, which will form the hub of the networking system. This committee should divide the area to be serviced into regions that allow the individual regional representatives enough area to establish a strong network, but not so large that a regional representative cannot service it properly. Once this is done, the committee should appoint a member to contact potential regional representatives in each of the regions. These regional representatives will form the backbone of the association.

The regional representatives should form their own steering committee at the regional levels. These committees will have a similar structure as the state committee and can include county, city, institution, government, industry, or anyone who is interested and willing to work. Remember the more diversity in the association, the better are the chances for success.

The regional representative should be able to help the association by stimulating membership, soliciting funds, and providing regional newsletters and workshops for both regional and statewide membership. The regional representative will attend all statewide meetings, report to the statewide committee on ongoing programs, and receive assistance from the committee as needed.

When the association has successfully established a statewide network reaching all persons interested in outdoor education, the association
will be able to rally support for funding programs, expanding existing programs, and creating new programs. In today's political climate, any group that can become well enough organized and that knows how to use this power will find support.

State Network System
Incorporation

Once the steering committee is formed and functioning well, it is recommended that you retain an attorney's services to incorporate as a private non-profit membership organization. This should be done as soon as the constitution is accepted by the steering committee. It is advantageous to have an attorney on the steering committee, saving money and frustration in constant rewriting of the constitution and bylaws to meet legal standards.

Incorporation as a non-profit organization will allow the association to receive tax deductible donations, apply for grants, and receive government surplus property. Incorporation establishes legitimacy and assists growth and prosperity.

Conclusion

This document is meant to give the reader some understanding on how a statewide organization functions and how to establish a state organization. This document is not meant to answer all the questions or solve all the problems which can arise. It is offered as a tool, with which you can modify the procedures to best fit your own situations.

I am most interested in receiving readers' comments and will try to answer any questions. My address is:

Thomas P. Benjamin
