Center for Applied Linguistics
The Center for Applied Linguistics has responded to the urgent need created by the immigration of thousands of Indochinese refugees to this country by developing materials for use by the refugees and others working with them. It is our hope that this present work, designed specifically for Laotian refugees, will contribute to bridging the language and cultural barriers, and help the refugees to take their place as new members of American society.

INTRODUCTION

The English phrases in this book are grouped by subject and are selected for their directness, brevity, and relevance to the needs of newly arrived residents of the United States. They are, for the most part, presented in the form of short, two-line dialogues.

The phrases and supplementary vocabulary in the 19 units cover a wide range of situations and serve to introduce new Laotian residents to the daily activities of American life. The two wordlists provide terms which are most frequently needed. In many phrases, the important English words and their Lao equivalents are underlined. The cassette tapes which accompany this phrasebook are available separately, and provide spoken models of both the English and Lao phrases.

As with all phrasebooks, this one is not intended as a step-by-step textbook for learning English. It is intended as a handy reference book for immediate use when English phrases or words are needed.

This phrasebook is largely an adaptation of the Vietnamese-English Phrasebook (CAL, 1975) by Nguyen Hy Quang. It is based on needs as experienced by Indochinese families who have been arriving in the United States since 1975. This Laotian edition has been adapted and translated by Khamchong Luangpraseut. The calligraphy was also done by Mr. Luangpraseut. Most of the illustrations were generously provided by Halina Luangpraseut.
