National Assessment of Educational Progress

ABSTRACT
The document presents exercises, documentation, and summaries from the second assessment of music by the National Assessment of Educational Progress (NAEP). Objectives were to test 9-, 13-, and 17-year-old students' ability to value music as an important realm of human experience, to identify the elements and expressive controls of music, and to identify and classify music historically and culturally. The document is divided into three parts. Part I discusses the process that occurred during the various stages of development of the assessment, describes the assessment procedures, and outlines the documentation that accompanies each exercise. Part II lists the cognitive and affective objectives and subobjectives and discusses guidelines for the degree of emphasis to be placed on each. Part III presents the 86 exercises which are mainly multiple choice items. Documentation accompanies each exercise, noting the objective and subobjectives, exercise type, administration mode, stimulus used, age group, total time in seconds, and source information when relevant. For the six open-ended exercises, scoring guides are included. Correct answers are marked on the exercise sheets. Unlike the first assessment, no performance or creative music writing exercises are included. (CK)
THE SECOND ASSESSMENT
OF MUSIC, 1978-79

RELEASED EXERCISE SET

No. 10-MU-25

by the
National Assessment of Educational Progress

Denver, Colorado 80295

April 1980
The National Assessment of Educational Progress is an education research project mandated by Congress to collect and report data, over time, on the performance of young Americans in various learning areas. National Assessment makes available information on assessment procedures and materials to state and local education agencies and others.

The work upon which this publication is based was performed pursuant to Contract No. OEC-0-74-0506 of the National Center for Education Statistics and the National Institute of Education; also, Grant No. NIE-G-80-0003 of the National Institute of Education.

INTRODUCTION

The National Assessment of Educational Progress (NAEP) has completed two assessments of music -- the first conducted during 1971-72 and the second during 1978-79. NAEP reports on the nation's educational progress by replicating testing conditions, including the exercises, as nearly as possible from assessment to assessment. After each assessment, part of the exercises are kept confidential and used in subsequent assessments. The remaining exercises are released for use by interested educators.

This volume contains the released exercises from the second assessment of music. Also included are exercise documentation, scoring guides and a brief summary of the processes used to assess music. Exercises and documentation for the exercises are in a loose-leaf format to facilitate sorting and copying. The documentation has been kept to a minimum, and each part of the documentation is explained in Part 1, Section 3.

Detailed information about objectives is found in the objectives booklet (Music Objectives, Second Assessment, 1980), which is included with this loose-leaf set. Information about exercise development, administration, sampling and other procedures will be documented in the Procedural Handbook: 1978-79 Music Assessment (forthcoming).

The released exercise set includes affective exercises (Objective I), cognitive exercises (Objectives IV and V) and background questions. Exhibit 1 illustrates the number of released exercises by objective and age group or combination of age groups.

Most of the music exercises are multiple-choice, with a machine-scorable oval to the left of each response choice. Six exercises were hand scored. Three of these six require matching items from one column to items in a second column, and three require drawing the response on the exercise. The scoring guides used to categorize the responses for these six exercises are included with the respective exercise and its documentation.
The information in the remainder of this released exercise set is divided into three parts:

Part I is divided into three sections:

Section 1 is a brief summary of the processes that occurred during the various stages of development of the second assessment. The information in this section will provide the reader with a background and a better perspective on what the exercises in this set represent.

Section 2 briefly describes NAEP's assessment procedures.

Section 3 describes the documentation that accompanies each exercise.

Part II lists the released cognitive and affective items, including items used to measure change between 1971-72 and 1978-79, by objective and subobjective.

Part III presents the affective and cognitive exercises, including the released change exercises from the first assessment of music. Each exercise is accompanied by its documentation and, for the six open-ended exercises, scoring guides.

WORKS CITED

PART 1

PROCESSES, PROCEDURES AND DOCUMENTATION

Section 1: Developmental Procedures

Many of the procedures and processes used by National Assessment during the various phases of development are unique to NAEP. For the benefit of those unfamiliar with some of the terminology used throughout this report, a glossary is provided below:

- Change exercise. An exercise originally used in the 1971-72 assessment that was readministered in 1978-79 to determine any change over time in performance.
- Exercise. An assessment question or item.
- Hand scoring. A process of using trained people to score an exercise rather than using a machine.
- NAEP number. A unique identification number assigned to each exercise.
- Package. A booklet of exercises.
- Released exercise. An item available for public use.
- Scoring guides. A set of very detailed instructions on how to score an open-ended exercise.
- Tryouts. A pretest of music exercises.
- Unreleased exercise. An item held secure from public use to be administered again in the next assessment to determine changes in music performance.

Objectives Development

Development of the objectives for the second music assessment occurred during 1972-73. It began with the first assessment objectives being critically reviewed, then specifications and requirements were established for the "new" set of objectives to be developed. Over 90 music educators met many times to write, edit and revise the objectives. A lay group also met to review the drafted objectives.

General requirements for exercise development as well as measurement and content requirements were discussed by these music educators and music specialists. Objectives were assigned weights that reflected the relative importance of each objective and subobjective for each age group.

Exercise Development

The development of the second assessment of music was originally intended to take place from July 1973 through January 1975. However, because of
scheduling difficulties and budget constraints, the development of the music exercises did not begin until February 1977. At this time, a special music advisory committee met to determine the direction of the second assessment. The music exercises not released in the 1971-72 music assessment were reviewed; and the needs for the second assessment were determined.

Exercise Writing

The first phase of exercise writing was conducted in February and March of 1977. Many music educators and music specialists wrote (constructed) the music exercises for the three age groups to be assessed: 9-year-olds, 13-year-olds and 17-year-olds. This writing phase was followed by an exercise review and preparation of exercises for tryouts in April.

The second phase of exercise writing occurred in June, July and August of 1977. Following exercise reviews, these exercises were prepared for tryouts in October.

The techniques that typically were used for exercise writing are listed below:

1. First, the music educators and music specialists were oriented to National Assessment, to what was to be accomplished during the writing conference and to the music objectives. Any questions they had were answered.

2. Following the group orientation, individuals would tackle writing for a period of time -- usually about one hour. This would be followed by a small group review, more individual writing, small group review, etc.

3. The final step brought all the writers together for a large group review, editing and discussion session.

Funding difficulties during the music development prevented the assessment of the music performance (singing, playing, improvising or creating music) exercises. Therefore, not all of the music objectives were assessed.

Tryouts

Tryouts, or pretesting, is a process whereby potential music exercises are administered to small groups of students under conditions as close as possible to the actual assessment conditions. The tryouts of the music exercises were done to obtain information about difficulty levels, timing or problems with administration.

1During some years National Assessment has administered exercises to supplementary samples of 17-year-olds who were not in school. However, during the 1978-79 assessment, only 17-year-olds enrolled in school were sampled.
A sample of about 100 students was used for each tryout package. These students were drawn from four different schools in three size- and type-of-community areas. Two of the four schools were chosen from the "disadvantaged-urban" area, which usually yields low performers. One school was chosen from a "medium city" with preference to selecting accelerated students or consistently high performing students. The fourth school selected was from a "small place," an area that usually yields middle performers.

The exercises were assigned to assessment packages so that packages contained a balance of difficult and easy items, a similar number of exercises per package, a similar number of exercises with stimuli, etc.

Following tryouts, packages were scored. The data from the item analyses done for the packages, along with the comments from the students and school personnel, were used as part of the criteria in the review and selection processes.

Lay Review

A review of the music exercises was done by a group of lay persons. The purpose of this conference is to obtain opinions of persons interested in education who are not specifically music educators or subject-matter experts in music. The lay review group critically reviewed the pool of music exercises, determining where additional attention needed to be focused. Special attention was given to items that, because of wording or content, might be offensive to ethnic or cultural minorities or items to which children should not be exposed. The group individually rated each exercise; these ratings were used to help select the items for the assessment.

Exercise Review and Selection

Two reviews by subject-matter experts were held in December 1977 to review the entire pool of music exercises. These two groups narrowed the pool of exercises to those they considered to be the best.

Another group of music consultants met in January 1978 to select music exercises for the assessment from the smaller pool chosen by the review groups. The objectives weightings that had been determined previously (and readjusted since omitting the music performance exercises in the second assessment) were a major factor in determining the number of exercises selected for each objective and each age group. The new result of the selection process for the 1978-79 assessment is:

- Age 9 -- 77 minutes of exercises
- Age 13 -- 81 minutes of exercises
- Age 17 -- 86 minutes of exercises

Packaging

The music exercises selected for the assessment were then divided into packages (booklets of exercises). Each package contained about 35 minutes of exercise time.
The 1978-79 assessment was a combined assessment of music, art and writing. Packages of exercises included either music and writing exercises or art and writing exercises. Because of the length of many of the art and writing exercises and because of the many materials used during the assessment of art and writing, only two areas were packaged together to avoid administration problems.

Each package was accompanied by a paced audio tape comprising the text and response choices for each exercise and also instructions telling the respondents when to proceed to the next exercise. This tape was played to the respondents during the exercise administration to minimize the effects of any reading difficulties. The total administration time for each package, including introduction, sample exercises and background questions, was about 45 minutes.

Section 2: NAEP Assessment Procedures

The exercises were administered to 9-year-olds, 13-year-olds and 17-year-olds attending school. Some exercises were administered to only one age group, others to two or more age groups. Each package of exercises was administered to a national representative sample of about 2,500 students. No student took more than one package.

The age groups and assessment dates of each group follow:

<table>
<thead>
<tr>

Section 3: Exercise Documentation

Each exercise in this released set is reproduced essentially as it was seen by the respondent. It is accompanied by documentation containing information about the exercise administration. This information is described using Exercise R 6-502060-A1A-12 as an example.
Music Exercise Documentation

A. NAEP #: R 6-502060-A1A-12

B. Year 10 Objective: V. Identify and Classify Music Historically and Culturally.

B. Year 10 Subobjective: B. Identify and describe the music and musical style of the various stylistic periods in Western civilization (e.g., medieval, renaissance, baroque, classical, romantic). Identify representative composers of each period.

C. Exercise Type: Multiple Choice

D. Scoring Type: Machine Scored

E. Administration Mode: Group

F. Stimulus Used: Music Excerpt

A. Age Overlap: 9 13

G. Total Time in Seconds: 0039 0037

H. Source Information:

A. NAEP #

For each exercise in this released exercise set, a NAEP number has been assigned for documentation and reference purposes. The NAEP number contains information that may be helpful to the reader. Following is an explanation, using the example shown above (R 6-502060-A1A-12):

R -- released exercise.

6 -- indicates that this is a music exercise (as are all the exercises in this set).

502060 -- is a six-digit number that indicates the objective and subobjective. In our example, the first digit (5) indicates Objective V; the third digit (2) indicates Subobjective B; and the fifth and sixth (60) digits are unique numbers given to each exercise.

For all music exercises assessed for the first time in 1978-79 (Year 10), this six-digit numbering scheme indicates the objective...
and subobjective as shown in Part B, below. The 1971-72 (Year 03) music exercises were assigned to 1978-79 objectives, but the numbers were not changed. Therefore, this numbering scheme cannot be applied to the exercises from the 1971-72 assessment. Exhibit 5 can be used to cross-reference the Year 03 music exercises with Year 10 objectives, Year 03 objectives and Year 03 reporting themes.

A1A -- indicates that this exercise is a 1978-79 (Year 10) music exercise used for the first time in 1978-79. If 32A is used instead of A1A, the exercise is a 1971-72 (Year 03) music exercise used for the second time in Year 10.

12 -- indicates the ages for which the exercise was used. Numbers 1 and 2 refer to ages 9 and 13, respectively. The number 3 indicates age 17.

B. Year 10 Objective and Year 10 Subobjective

These lines show the 1978-79 objective and subobjective that an item measures. Since music performance was not assessed, there are only three objectives for which exercises were developed for the second music assessment. The 1978-79 objectives as well as a key for the six-digit number are given below:

<table>
<thead>
<tr>
<th>Six-Digit #</th>
<th>1978-79 Music Objective</th>
</tr>
</thead>
<tbody>
<tr>
<td>100000</td>
<td>I. Value Music as an Important Realm of Human Experience</td>

<tr>
<td>Not assessed</td>
<td>III. Create Music</td>
</tr>
<tr>
<td></td>
<td>A. Improvise</td>
</tr>
</tbody>
</table>
B. Represent music symbolically
   1. Arrange
   2. Compose

IV. Identify the Elements and Expressive Controls of Music

A. Identify the elements of music
   1. Rhythmic organization
   2. Pitch organization
   3. Tone quality

B. Identify the relationship of elements in a given composition

C. Demonstrate an understanding of a variety of musical terms, expression markings and conducting gestures in a musical context

V. Identify and Classify Music Historically and Culturally

A. Identify and describe the features that characterize a variety of folk, ethnic, popular and art music

B. Identify and describe the music and musical style of the various stylistic periods in Western civilization (e.g., medieval, renaissance, baroque, classical, romantic). Identify representative composers of each period

C. Cite examples of ways in which man utilizes music in his social and cultural life

More detailed information about the 1978-79 music objectives can be found in Music Objectives, Second Assessment (1980), included with this released exercise set.

C. Exercise Type

With the exception of six change exercises (from the 1971-72 assessment), all released cognitive and affective exercises are multiple-choice.

D. Scoring Type

Multiple-choice exercises were scored by machine. The six open-ended exercises were scored by a staff of specially trained scorers.

To help assure consistent scoring, National Assessment developed detailed scoring guides for these open-ended exercises. The scoring guides define acceptable and unacceptable responses for each exercise. Each open-ended exercise is accompanied by its scoring guide as part of its documentation.
Scoring quality control. As part of the quality-control procedures used during scoring, a 15-25% sample of the open-ended exercises was rescored by a second scorer. This was done to monitor scorers' consistency and to identify problems. The scores were then merged and tallied for agreement. Exhibit 2 shows the percentage of total agreement between scorers and the number of exercises rescored by a second scorer. The high percentages of agreement shown in Exhibit 2 indicate that these open-ended music exercises can be reliably scored by one scorer.

E. Administration Mode

All exercises in the 1978-79 music assessment were administered to groups of students rather than in a one-on-one interview mode.

F. Stimulus Used

The type of stimulus used for an exercise can range from aural stimuli only to visual stimuli, or a combination of both. Types of stimuli used are indicated below:

Aural only. Music excerpt -- one or more aural stimuli heard. For most exercises, this is a brief excerpt taken from a recording or a taped, brief excerpt of a live performance.
Aural and visual. Each of the following types of stimuli combine a music excerpt of a recorded piece of music or an excerpt from a taped, live performance plus the type of visual stimulus indicated:

1. Printed line or music and music excerpt
2. Artwork, pictures or graphics and music excerpt
3. Line drawings or nontraditional music notation and music excerpt
4. Printed rhythm pattern and played rhythm pattern

Visual only. The following types of visual stimuli appear without aural stimuli:

1. Artwork, pictures or graphics
2. Music notation
3. Printed line of music

A stimulus tape containing all the music excerpts used with the released exercises is available for purchase from National Assessment.

G. Total Time in Seconds

Exercise packages were administered by a paced audio tape. For each age group, the total time allowed (in seconds) for an exercise in the 1978-79 assessment is shown on the documentation page following each exercise. The total time comprises the time allotted for reading the exercise, for hearing the audio stimulus, if part of the exercise, and for responding to the exercise. Breakdowns of times for exercise reading, audio stimulus and response, if needed, are available from National Assessment. Times given for exercises measuring change are the 1978-79 assessment times.

H. Source Information

Where applicable, source information is defined on the exercise documentation with the exercises. For each stimulus, permission was secured for use by National Assessment as well as outside users. Few permissions were refused; for those exercises for which permission was not given, the documentation indicates the refusal.

Data for Released Exercise Set

At the time of printing this released exercise set, achievement data were not available for each exercise. However, performance levels for each exercise will be available in the coming months in a separate report.

WORK CITED

PART 2
COGNITIVE AND AFFECTIVE EXERCISES
BY OBJECTIVE AND SUBOBJECTIVE

Cognitive Exercises From
the 1978-79 Music Assessment

In preparing specifications for exercise writing and development, guidelines were established by music educators for the degree of emphasis to be placed on each music objective and subobjective. With the loss of music performance in the 1978-79 assessment, the original weightings were redistributed to the existing three objectives. Exhibit 3 lists released cognitive exercises by objective and subobjective.

Year 03 (1971-72) exercises were reassigned to Year 10 (1978-79) objectives and subobjectives. The Year 10 exercises will follow the NAEP number classification scheme explained in Section 3, Part 1. However, the Year 03 exercises do not follow the classification scheme. Exhibit 5 shows Year 03 exercises with a cross reference to Year 10 objectives, Year 03 objectives and Year 03 reporting themes (the theme used for the purpose of report writing in Year 03).

EXHIBIT 3. Released Cognitive Exercises by Objective and Subobjective

Objective IV: Identify the Elements and Expressive Controls of Music

Subobjective A: Identify the elements of music:
1. Rhythmic organization,
2. Pitch organization,
3. Tone quality.

Affective Exercises From the 1978-79 Music Assessment

Music educators agree that aesthetic sensitivity, not just positive attitudes toward music, is the ultimate goal of music education. Most students have some favorable attitudes toward music, but these attitudes measure only a small part of the entire affective domain.

In an effort to measure more of the affective domain than just attitudes toward music, a stronger emphasis was placed on affective measurement in the 1978-79 music assessment with specific directions intended to:

1. Determine interrelationships between the state affective values and cognitive achievement;
2. Determine what aspects in addition to formal education play a major role in developing musical attitudes and values.

The affective music exercises are organized into four subobjectives under Objective I. Exhibit 4 lists all released affective exercises by subobjective.
EXHIBIT 4. Released Affective Exercises
by Objective and Subobjective

Objective I: Value Music as an Important Realm of Human Experience

Subobjective A: Be affectively responsive to music

R 6-101050-A1A-123
R 6-101051-A1A-123
R 6-101052-A1A-123

Subobjective B: Be acquainted with a variety of music of different nations, cultures, periods, genres and ethnic groups

R 6-102050-A1A-123
R 6-102051-A1A-3
R 6-102052-A1A-12
R 6-102053-A1A-23
R 6-102054-A1A-12

Subobjective C: Value music in the life of the individual, family and community

R 6-103051-A1A-3
R 6-103052-A1A-123
R 6-103053-A1A-123
R 6-103056-A1A-1
R 6-103057-A1A-23
R 6-103058-A1A-12
R 6-103059-A1A-123
R 6-103060-A1A-3
R 6-103061-A1A-3
R 6-103062-A1A-1
R 6-103063-A1A-23
R 6-103064-A1A-123
R 6-103065-A1A-23
R 6-600013-32A-23
R 6-600018-32A-23
R 6-600019-32A-23

Subobjective D: Make and support aesthetic judgments about music

R 6-104050-A1A-3
R 6-104051-A1A-1
R 6-104052-A1A-2

Background Questions

Background questions were included in every package at an age to obtain information that will be used in analyzing the interrelationship between the affective values and cognitive achievement. Those background questions are included with the affective exercises and are the first three exercises in Part 3 of this released set:

R 6-000091-A1A-1
R 6-000131-A1A-123
R 6-000132-A1A-123

Released Change Exercises

The 1978-79 music assessment included exercises from the 1971-72 music assessment. These exercises were included to measure change in performance from the earlier assessment. These 1971-72 exercises have been reclassified by the 1978-79 objectives and are found with the 1978-79 affective and cognitive exercises in this released exercise set. More detailed information about the 1971-72 music objectives can be found in Music Objectives (1970), available from National Assessment.
For reporting purposes, exercises in the 1971-72 assessment were assigned a reporting theme number. The theme number and the 1971-72 objective indicators do not appear on the 1978-79 documentation pages included in this volume. Exhibit 5 can be used to cross reference these change exercises with 1978-79 objectives. A brief summary of the 1971-72 objectives and the 1971-72 reporting themes is given below:

Year 1971-72 Music Reporting Themes:

I. Musical Performance (not reassessed in 1978-79)

II. Symbolic Representation of Musical Concepts
   A. Vocabulary
   B. Basic notation
   C. Score reading

III. Instrumental and Vocal Media
   A. Aural recognition
   B. Visual recognition
   C. Performance practices

IV. Music History and Literature
   A. Periods of music history
   B. Musical genres and styles
   C. Music literature

V. Interests In and Attitudes Toward Music

1971-72 Music Objectives:

I. Perform a Piece of Music (not reassessed in 1978-79)

II. Read Standard Musical Notation
   A. Identify the elements of notation, such as clefs, letter names of notes, duration symbols, key signatures and dynamic markings
   B. Identify the correct notation for familiar pieces
   C. Follow notation while listening to music
   D. Sight-sing

III. Listen to Music With Understanding
   A. Perceive the various elements of music, such as timbre, rhythm, melody and harmony, and texture
   B. Perceive structure in music
   C. Distinguish some differing types and functions of music
   D. Be aware of (and recognize) some features of historical styles in music

   A. Know the meanings of common musical terms used in connection with the performance of music, and identify musical instruments and performing ensembles in illustrations
   B. Know standard pieces of music by title or composer, or brief descriptions of the music, or of literacy-pictoral materials associated with the music from its inception
C. Know prominent composers and performers by name and chief accomplishment
D. Know something of the history of music

V. Know About the Musical Resources of the Community and Seek Musical Experiences by Performing Music
A. Know whether or not there are music libraries and stories in the community, and know where concerts are given
B. Seek to perform music by playing, singing, taking lessons, joining performing groups, etc.

VI. Make Judgments About Music and Value the Personal Worth of Music
A. Distinguish parodies from their models
B. Be able to describe an important personal "musical" experience

</table>
In your school music class, do you

5. play a musical instrument in a special music group such as a band or orchestra?  
   | Yes | No | I don't know |

6. read about music or musicians?  
   | Yes | No | I don't know |

7. make up your own music?  
   | Yes | No | I don't know |

D. Which one of the following things would you rather do if you had one free period a day in school? Choose only one.

- Play a musical instrument
- Draw or paint
- Write a story
- Sing in a musical group
- Learn a foreign language
- Listen to music
- None of these
- I don't know.

Year 10 Subobjective: C. Demonstrate an understanding of a variety of musical terms, expression markings, and conducting gestures in a musical context.

Exercise Type: Multiple Choice
Scoring Type: Machine Scored
Administration Mode: Group

Stimulus Used: Printed Line of Music

Age Overlap: 13 17
Total Time in Seconds: 0048 0049
These line drawings represent melodies. One of them represents the melody of "Twinkle, twinkle, Little Star. How I wonder what you are." This melody will be played three times. Fill in the oval beside the line drawing that matches what you hear.

I don't know.
NAEP #: R 6-202004-32A-1

Year 10 Objective: IV. Identify the Elements and Expressive Controls of Music.

Year 10 Subobjective: A. Identify the elements of music. 2. Pitch organization.

Exercise Type: Multiple Choice
Scoring Type: Machine Scored
Administration Mode: Group

Stimulus Used: Line Drawings or Nontraditional Music Notation and Music Excerpt

Age Overlap: 9
Total Time in Seconds: 0067

Source Information:
Franz Joseph Haydn, "Twinkle, Twinkle Theme" (excerpt from "Surprise"), Symphony No. 94 in G Major, live trumpet recording, National Assessment of Educational Progress.
Look at this printed music as you listen to a recording of "The Star-Spangled Banner." It will be played three times. Fill in the oval beside the line of printed music that matches what you hear.

I don't know.
NAEP #: R-6-202007-32A-1

Year 10 Objective: IV. Identify the Elements and Expressive Control of Music.

Year 10 Subobjective: A. Identify the elements of music. 2. Pitch organization.

Exercise Type: Multiple Choice
Scoring Type: Machine Scored
Administration Mode: Group

Stimulus Used: Printed Line of Music and Music Excerpt

Age Overlap: 17
Total Time in Seconds: 0067

Source Information:
John Stafford Smith, music, Francis Scott Key, lyrics, "The Star-Spangled Banner" (excerpt), live trumpet recording, National Assessment of Educational Progress.
Follow the printed music below as you listen to the recording. The recording will stop before the end of the music. Draw a vertical line through the printed music after the last note you hear.

```
\begin{music}
\relative E \key C\flat
\time 3/4
\mezze
\bar 1: \ww \ww \ww \ww \ww \ww \ww \ww \ww \ww \ww \ww \ww \\
\text{vertical line}
\bar 2: \ww \ww \ww \ww \ww \ww \ww \ww \ww \ww \ww \ww \ww \\
\end{music}
```
Follow the printed music below as you listen to the recording. The recording will stop before the end of the music. Draw a vertical line through the printed music after the last note you hear.

00 = No response.
11 = Completely correct: Line drawn after second note of 5th measure; Line drawn under or over second or third note in 5th measure. (Acceptable categories shown on attached page.)
20 = All other incorrect responses.
21 = One note off: Line drawn after first note or after third note of 5th measure; Horizontal line ending at those places.
39 = I don't know.
A recording of this line of music will be played two times. Follow the printed notes as you listen to the recording. One note is played differently from the printed music. Circle that note.

SCORING GUIDE
401003 -- 1,2,3

A. Draw a line around ALL of the woodwind instruments.
B. Draw a line around ALL of the brass instruments.

A. 00 = No response
   11 = Completely correct (may underline ALL woodwind instruments).
   20 = Incorrect responses.
   22 = Part of woodwinds but no others (exclude French horns).
   23 = All woodwinds plus all French horns.
   39 = I don't know.

B. 00 = No response.
   11 = Completely correct (may underline ALL brass instruments).
   20 = Incorrect responses.
   22 = Part of brasses but no others (except category 23).
   23 = All brass except French horns.
   39 = I don't know.
Some of the instruments listed below are played by striking them. Fill in the oval beside “Yes” if the instrument is played by striking it. Fill in the oval beside “No” if the instrument is NOT played by striking it. If you do not know the answer, fill in the oval beside “I don’t know.”

A. Is the BASS DRUM played by striking it?
   - Yes
   - No
   - I don’t know.

B. Is the BASSOON played by striking it?
   - Yes
   - No
   - I don’t know.

C. Are the CYMBALS played by striking them?
   - Yes
   - No
   - I don’t know.
D. Is the SAXOPHONE played by striking it?
   - Yes
   - No
   - I don't know.

F. Is the TRIANGLE played by striking it?
   - Yes
   - No
   - I don't know.

F. Is the TUBA played by striking it?
   - Yes
   - No
   - I don't know.

G. Is the XYLOPHONE played by striking it?
   - Yes
   - No
   - I don't know.

Below is an excerpt from a program that you might receive at a concert. Use the excerpt to answer the questions on this and the following page.

FRAGMENTATION EXOTIQUE, FOR CHORUS, OBBLIGATO FRENCH HORN, AND TWO SOUND TRACKS....
Emile Battiste de Bon (1927-)

1. Oiseaux mysterieus - Animato misterioso
2. Ombres menaçants - Adagio minaccioso

A. The work is probably in the style of which period of music history?

- Renaissance
- Baroque
- Classical
- Romantic
- Modern
- I don't know.

B. The French horn will probably play

- the same part that the tenors sing.
- harmonic accompaniment for the chorus.
- an independent and rather prominent line of music.
- a single note that is repeated throughout the entire work.
- I don't know.
(Continued)

C. What is probably the tempo of the two movements of this work?

- Both movements are slow.
- The first movement is slow and the second is fast.
- The first movement is fast and the second is slow.
- Both movements are fast.
- Both movements are continually fluctuating.
- I don't know.

D. The words "TWO SOUND TRACKS" probably mean that

- the work was originally written for a motion picture.
- this particular performance of the work was recorded.
- this particular performance of the work was televised.
- the composer included taped electronic sounds in this work.
- loudspeakers were used because the hall had poor acoustics.
- I don't know.
Year 10 objective: v. Identify and Classify Music Historically and Culturally.

Year 10 Objective: IV. Identify the Elements and Expressive Controls of Music.

Year 10 Subobjective: A. Identify the elements of music. 3. Tone quality.

Exercise Type: Multiple Choice
Scoring Type: Machine Scored
Administration Mode: Group

Stimulus Used: Music Excerpt

Age Overlap: __9__

Total Time in Seconds: 0129

Source Information:
Part A:
Drum excerpt from Instruments of the Orchestra, Vienna State Opera Orchestra, David Randolph, narrator, Vanguard Records VSO 721/22.

Part B:
Flute excerpt from Instruments of the Orchestra, Vienna State Opera Orchestra, David Randolph, narrator, Vanguard Records VSO 721/22.

Part C:
Violin excerpt from Instruments of the Orchestra, Vienna State Opera Orchestra, David Randolph, narrator, Vanguard Records VSO 721/22.

Part D:
Trombone excerpt from Instruments of the Orchestra, Vienna State Opera Orchestra, David Randolph, narrator, Vanguard Records VSO 721/22.
A. You will hear a song that has four phrases. The song will be played twice. Which one phrase is different from the other three phrases?

- Phrase one
- Phrase two
- Phrase three
- Phrase four
- I don't know.

B. Listen to another song that has three phrases. The song will be played twice. Which one phrase is different from the other two phrases?

- Phrase one
- Phrase two
- Phrase three
- I don't know.
C. The next song you hear has four phrases. Each letter, A, B, and C, stands for a different phrase. The music will be played twice. Which set of letters best fits the four phrases you hear?

- A A A A
- A A B A
- A B A C
- I don't know.
Listen carefully to the entire piece of music. What is the form of the music?

- Canon
- Rondo
- Verse and chorus
- Theme and variations
- I don’t know.

Listen carefully to the music. What kind of music is this?

- Jazz
- Folk
- Gospel
- Rock

- I don't know.

Objective:

- Identify and Classify Music Historically and Culturally.

Subobjective:

- Identify and describe the features which characterize a variety of folk, ethnic, popular, and art music.

Exercise Type: Multiple Choice
Scoring Type: Machine Scored
Administration Mode: Group
Stimulus Used: Music Excerpt

Age Overlap: 9 13
Total Time in Seconds: 0050 0045

Source Information:
Listen carefully to the three music selections. Which one would most likely be played in an Oriental country?

- Selection 1
- Selection 2
- Selection 3
- I don't know.

Source Information:
Selection 1: Scott Joplin, "Maple Leaf Rag" (excerpt), Original Ragtime, Claude Bolling, pianist, Columbia Records (CBS Records) PC-33277, Used by permission of CBS Records.

Selection 3: Excerpt from "Tabuh Pisan" from Gamelan Semar Pegulingan: Gamelan of the Low God, Recorded in Bali by Robert E. Brown, (R-72046), Used by permission of Nonesuch Records.
Listen carefully to the three musical selections. Which two selections are more closely related?

- Selections 1 and 2
- Selections 2 and 3
- Selections 1 and 3
- I don't know.
