IDENTIFIERS California Business Education Program Guide

ABSTRACT This secondary unit of instruction on how to use a supply catalog is one of sixteen Common Core Units in Business Education (CCUBE). The units were designed for implementing the sixteen common core competencies identified in the California Business Education Program Guide for Office and Distributive Education. Each competency-based unit is designed to facilitate personalized instruction and may include five types of materials: (1) a teacher's guide, which provides specific strategies for the units as well as suggestions for the use of the materials; (2) a student manual, which directs the student through the unit's activities and jobs and brings the student to the competency level for the unit; (3) working papers, which are consumable materials used in completing the jobs and activities described in the student manual; (4) pre/post tests and quizzes; and (5) suggested electronic media. A strategies manual and the California Business Education Program Guide and supplements are also available--see note. (LRA)
THE SUPPLY CATALOG

Written by

COLEEN WILLIAMS
Instructor

Kennedy High School
Fremont, California
Let's buy something — through a catalog. We all spend money — everybody does; you do, I do, schools do, churches do, businesses do, and even governments do. We all need things to do things with. Everyone and every business needs supplies.

Pens, pencils, paper, staples, textbooks — all these things are used today in this class. All these things are what your teacher would call SUPPLIES. Where did they come from? How did they get to your school? How much did these supplies cost?

Why do you need to know how to use a catalog? Because, all of these supplies must be purchased, they were ordered from someone, at some time, from a catalog.
Take a pencil for example; someone made it, but before it could be made, supplies had to be purchased – paint, wood, lead, rubber, and metal.

Everyone in a business office needs supplies – pens, pencils, staples, etc. We need many supplies here at our school. The person who does the ordering of supplies often has the title of SUPPLY CLERK.

A supply clerk lists needed supplies with the catalog number on a purchase order form. He/she checks code numbers and descriptions to see that they are correct and makes sure all the arithmetic is correct. Accuracy and detail are an important part in the job of the supply clerk.

After the purchase order has been checked for accuracy, it is signed and dated by the supervisor.

At some time in your life you will order or purchase an item through a catalog, either for personal or business use. Therefore, you will need to know what you are going to learn in this manual.
What You Will Learn To Do

1. Follow instructions.
2. Locate and list items found in a catalog.
3. Correctly describe and code each item.
4. Determine the unit price, and the quantity price.
5. Total your order and figure the tax.

In this manual we are going to assume you work in the school's business office, and you are the school's Supply Clerk, the person who orders all the supplies for your school, John F. Kennedy High.

Get a Supply Catalog from your instructor and seven (7) Purchase Order forms.

Turn to page 'x' in the Supply Catalog and follow along in it as you read through this manual. This means reading both sets of instructions and a form at the same time.

You will need the following additional information about the school you are working for to successfully complete a purchase order.

A. **School's location No.**
   Your school is John F. Kennedy High School. Every school in the district is given a computer code number. Your **number is 52**.

B. **Department No.**
   Within your school there are several departments. Each school department is assigned a code number also.

   Physical Education . . . . . . . . 451
   Fine Arts and Homemaking . . 452
C. **Date**
   Use today's date. Day — Month — Year.

D. **Confirming P.O.**
   This means Purchase Order Number. **Confirming** means — The finance department has given their okay for you to buy. If some supply is needed in a hurry, this P.O. number can be obtained from the person in charge over the telephone. Normally, it is placed on the P. O. (purchase order) after the orders are sent by you, the supply clerk, to the finance office. This means that you do not need to put the order number on your purchase order.

\[**\text{(Really all of this information is of vital importance.\text{)}\right]\]
E. **Page No.____ of ____ Pages.**

If you had a five page order, your pages would be numbered as follows:

- Page No. 1_of_5_pages.
- Page No. 2_of_5_pages.
- Page No. 3_of_5_pages.
- Page No. 4_of_5_pages.
- Page No. 5_of_5_pages.

This is an example of what is meant by *sequentially* or *in sequence.* Got the idea? This way you can keep an entire order together, knowing how many pages there are in the order, or should be. It is an easy way to tell if a page is lost or misplaced.

F. **Submitted by.**

Put your name here. You are the person filling out the order form.

G. **Principal.**

The Principal is your boss or supervisor. For the activities in this manual, *have your teacher sign your orders,* since he/she is your supervisor in this class.

H. **Item No.**

Look at the sample order form. Can you see how each separate thing listed is given an "item no."? See what the district means by their definition. When you make out your order forms, *list no more than the (10) items per page.*

I. **Quantity.**

This is how many you want to order of an item. See your sample.
J. **Unit of Measure.**

For example, a unit of measure could be: A box (bx), a pound (#), each (ea.), a dozen (dz.), a quire (qr) — a quire is 24, a gross (grs) — a gross is 12 dozen or 144, a carton (ctn).

K. **Catalog No.**

This is the code number given to each item the company carries. Be very careful when writing down this number: if the number is wrong, it can change the item ordered. See item #3 on the sample order form, page 9. Its catalog code no. is W663311.

L. **Description.**

Describe the item, and give the seller's specifications. Specifications means the size or how heavy it is. For example, the size bottle of rubber cement you want to order (see item 1) is a 2½ oz. bottle. When you write out your purchase orders, **list the full description as stated in the catalog.**

M. **Unit Price.**

The price for each unit of measure.

N. **Total Price.**

To make an extension means multiply the quantity times the unit price (2 ea. x $1.95 = $3.90). When you total your purchase order forms, **total each page separately, after making the extensions.** This will give you the **sub-total,** (the total before the sales tax is added.)

**Sales tax.** The sales tax is 6% in this area. You can either multiply the sub-total (see your sample) $37.80 x .06 (6% as a decimal) and get $2.27, or you can look up the answer on the tax schedule at the back of this manual.

Do you know how to use a tax chart? If your answer is YES, jump over to the paragraph “LET’S CHECK”. If your answer is NO, then proceed with the following.

Assume you made a purchase with a sub-total of $5.82. Look at the tax schedule at the back of the book. In column one entitled ‘transaction’ — go down the column until you come to the figures of 5.75 — 5.91. $5.82 falls between these numbers, so look in column two under ‘tax’ and see that the tax in that column is .35 . . . Very Easy . . .
LET'S CHECK to make sure that you really know how to use a tax chart. What is the tax for the following amounts?

a. $ .39
d. $100.05
b. $ 5.50
e. $275.86
c. $28.50

Your answers should be:

a. $.02
b. $.33
c. $.17
d. $.60
e. $.1655

activity 1

Type or Print plainly. Make sure you have a good sharp pencil or a pen.

The Foreign Language Department wishes to order the following items from the school district's supplier, Jones, Lopez & Zung Office Supplies Company:

- 2 bottles of rubber cement, 2½ oz.
- 12 dozen bars of hand soap
- 4 bx. of thermo-fax copy paper, size 8½ x 11.
- 8 reams of white mimeograph paper, size 8½ x 14, 20 weight.
- 10 red ball point pens, fine point

Using all the above information and the information on page 'x' that you have just learned, fill in your first P. O. When you have filled in all the blanks and are satisfied that every detail is complete and correct, turn the page to check it, step-by-step.

READY
SET
GO .........................
STOP!

DON'T PROCEED ONE STEP FURTHER UNTIL...

UNTIL... you have: Filled in all the blank space on the top of your P.O.

UNTIL... you have: Written the order out in every detail.

UNTIL... you have: Calculated all of your extensions and sub-totaled your order.

UNTIL... you have: Added the necessary tax and totaled your order.

Subtotal: 80.76
Tax: 4.85
Total: $85.61
Let's check through the activity. Turn to page 9 in this manual. Compare your copy carefully with this sample. First of all, did you place the school’s number on the form? Did you remember the number? Look it up if you forgot. Did you include the Foreign Language Department’s code number, and use today’s date? You are the person filling in the form; it is being submitted by you, so use your name. It is being okayed by whom? What should your number sequence read?

Your answers at this point should be: School 52, Dept. No. 455, today’s date, your name, and your teacher’s signature. It is only a one page order, so it is “Page No. __ of ___ Pages.”

Let’s continue on . . .

Notice item No. 1 — we bought 2 bt. catalog #131805 of rubber cement — 2½ oz. — 18 each. Did you make the extension? Can you see how it was done? Your answer should be $2 \times 0.18 = 0.36$.

(If the decimal is wrong the answer is wrong!) Did you see how all the extensions were made?

(Don’t confuse the item number with the quantity number!)

The sub-total is $80.76. Does yours agree?

The Grand Total is $85.61. This answer was obtained by adding the sub-total of $80.76 and the tax of $4.85. Do you remember how to use your tax chart? Refer to page 6 if you forgot.

When you have completed this activity turn it in to your instructor.
Coach Wes Wrestler in the P.E. Department at Kennedy High School wants to order the following supplies from Al's Sporting Goods Store.

\[
\begin{align*}
\frac{1}{2} & \text{ dozen light bulbs — (lamps) for their filmstrip projector model DFW 500W} \\
2 & \text{ box of thermo-fax spirit master, 8½ x 11} \\
1 & \text{ garbage can — no lid.} \\
1 & \text{ case soap luron powder} \\
24 & \text{ red checking pencils} \\
\frac{1}{2} & \text{ dz. Laundry bag for towels} \\
3 & \text{ doz. Baseballs, high school level} \\
3 & \text{ dz. Basketballs, Official size, Sr.} \\
1 & \text{ doz. Footballs, official size} \\
1 & \text{ Stop Watch} \\
6 & \text{ pints rubbing alcohol} \\
4 & \text{ bx Band Aids} \\
2 & \text{ pkg's Sterilized Cotton Balls} \\
1 & \text{ case Mimeograph paper with 3 holes, white, 8½ x 11, 20 weight.}
\end{align*}
\]

With the above information fill in your purchase order form, leave nothing blank. Please make the extensions, sub-total, and add the tax from the chart.

You will need to use more than one form for this order; **total each page separately**. However, **keep your item numbers on both pages in order**. If you know how to use an adding machine you may use one to total your forms. If so, please attach your tapes.
answer... I hope that you remember to list no more than 10 items on the first page of your order. If you listed them in order, and all of your extensions and the added tax were correct, your answer for page one is $422.30. If your answer is correct, do the second page, and turn them both in to your instructor.

HOPE THIS ISN'T YOU

If your answer is wrong, follow the procedure listed below to help you discover your mistake:

1. Check your addition.
2. Check your multiplication.
3. Check the tax table; be sure you "picked up" the right amount.
4. Haven't found it yet? If your math calculations are not the problem, then check each item again to be sure it is the right item ordered and that you copied it down correctly. Can you read your numbers or is your printing the problem?
5. If, after doing all of the above, you still can't come up with the solution, see your supervisor (teacher).

FOUND YOUR MISTAKE . . . GREAT!!! Make your corrections neat and legible. Then turn the purchase order in to your instructor for approval and a grade.

GO ON TO ACTIVITY THREE.
Activity 3

Remember to print and be very careful in copying down the exact information. It is a lot easier to do it right the first time.

Mrs. Betty Bacon in the Homemaking Department wants the following items from the Warehouse:

- 3 Dust pans 12"
- 3 Plastic Brooms
- 1 pkg. Steel wool - medium
- 900 Straight pins - 1 1/16 inch
- 6 1/2" oxhair brushes
- ½ dz. 3/4" oxhair bruches
- 1 cs. Scouring Cleanser
- 5 gl. Hand liquid soap
- 21 Expense reimbursement requests

When you have checked and double checked your form and you are sure that it is 100% correct, turn this purchase order in to your instructor.
Activity 4

Complete this Purchase Order in the usual manner.

Let's try an order for the Business Training Department. Ms. Biz, the department head, wishes to order the following from San Jose Office Supply:

- 2 Scissors 9"
- 6 Staple removers
- 2 dz. Typewriter ribbons for the IBM Selectric, nylon
- 1000 Message forms
- 4 Teacher plan books
- 12 cans Hand Cleaner
- 1 case Ditto paper, Goldenrod
- 1000 Memo routing slips
- 2 Black Board Cleaner
- 1 bx Envelopes, white, letter size, 4 1/8 x 9 1/2
- 100 rolls Adding machine tape, 3 1/2"
- 5 bx Assorted rubber bands
- 7 pkgs Razer blades, single edge
- 10 Notebooks, stenograph
- 1 Typewriter Cleaner
- 1 dz Ditto Correction fluid
- 1 bx File labels — canary — roll
- 12 Type erasers, pencil style and brush
- 10 bx Dittos, Duplicating Masters, 8 1/2 x 11 1/2

When you are sure that this order is filled out correctly, turn it in to your instructor for a grade.

GOOD LUCK!

How did you do????? 100% correct! I knew that you could do it.

GREAT!

See what a little confidence in yourself can do.

You are just about through with this unit. All you have to do is answer a few questions, fill in one more order form, and you are done. That is take your Post-Test.

Do you need to do any reviewing? Now may be a good time. Remember to pass this unit you must get a score of 90% or better.
There are many types of Purchase Order forms and supply catalogs. Now that you have done these activities with such ease and accuracy, future work with different catalogs will be a snap for you. Remember that when you use a catalog it is accuracy and attention to details that you really need to practice.

Turn in this manual and any working papers that you have. Get a copy of the POST-TEST from your teacher and let's really see what you have learned.

WOW, I AM DONE AND I DID IT REALLY WELL.

Y.O.U.R. District Purchase Order form
Instruction For Use...

BREAKDOWN OF FORM BY ITEM

A. School or Location No.:
The two digit numbers assigned to that particular destination to which the book, supplies, or equipment are to be delivered.

B. Department No.:
The three digit number assigned to the particular department placing the order.

C. Date:
The date the form is made out. Indicate if for other than the current school year.

D. Confirming P.O.:
The Purchase Order No. will be issued by the Finance Department at a later time — you will not need to complete these activities.

E. Page No. of pages:
Number the pages sequentially for each order to the same vendor.

F. Submitted by:
The name of the person placing the order (you).

G. Principal:
Authorized Supervisor.

H. Item No.:
Assign a number to each item beginning at one (1). If more than one line is used to order one item all lines will have the same item number.

I. Quantity:
The quantity (number) desired.
Y.O.U.R. District Purchase Order Form
Instruction for use
Breakdown of Form by Item, continued

J. Unit of Measure:
The unit of measure under which the item is ordered. Please list the same way as in the catalog.

K. Catalog No.:
Y.O.U.R. Supply Catalog number.
Catalog number for outside order if applicable.

L. Description:
List the description and vendor specifications.

M. Unit Price:
How much each item costs.

N. Total Price:
Make all extensions and then total.

TYPE OR PRINT PLAINLY!

NOTE: This catalog is used to order from the following companies:

Al's Sporting Goods
California Chemical Company
San Jose Office Supply
Y.O.U.R. Warehouse

THE ZIP CODE DIRECTORY

Written by

COLLEEN WILLIAMS
Instructor

Kennedy High School
Fremont, California
ZIP Code Directory
"HELLO",

My name is Mr. Zip and I am here to help you learn how to use my directory.

I am sure that you have all heard the statement, "Zip Codes move the mail". You need to use a zip code, whether for a personal reason or for a job requirement. Everyone will find it to their advantage to know how to find a desired zip code in the Zip Code Directory.

This unit is important to you because:
(1) Everything that goes through the mail must have a zip code on it. (2) The Zip Code Directory contains other valuable information, such as addresses of important buildings, hotels, and colleges, etc. (3) The new two letter abbreviations for each state are given in this directory.
What You Will Learn To Do

1. Look up Zip Code numbers quickly.
2. Know what each number in the zip code means.
3. Find the new state abbreviations, and learn what they are for several states.
4. Locate the addresses of hotels, government offices, hospitals, colleges in larger cities.

and much more.

GET A ZIP CODE DIRECTORY and an Activity Packet from your teacher. All answers will be written in your best possible handwriting. Zip Codes, numbers, all material must be legible! But please, do not write in this manual.

In this manual, you will be given information followed by a question or questions to be answered. Write your answers on your answer sheet found in the activity packet. Self-check your answers. You will find the answers to each question at the end of this first section.

If your answer is correct PROCEED.

Should your answer be wrong, go back and reread the information again. If you do not understand a question, or cannot get the correct answer, see your teacher immediately.

Ready? LET'S READ WHAT I HAVE TO SAY ON THE SUBJECT.............
MAIL MOVES THE COUNTRY
ZIP CODE MOVES THE MAIL

THE POSTAL SERVICE DELIVERS WELL OVER 80 BILLION MESSAGES EACH YEAR

MAIL IS THE BLOOD THAT SURGES THROUGH THE ARTERIES OF COMMERCE...

...THE TIE THAT BINDS FAMILIES AND FRIENDS
Dear Folks,
I passed.
Send money soon.

AND MR. ZIP'S MODERN POST OFFICE DEPARTMENT MAKES IT POSSIBLE.

REMEMBER TO MAIL EARLY IN THE DAY BEFORE PLANES, TRAINS AND TRUCKS LEAVE.

YOUR LETTER GOES FROM HERE...

...WITH OTHER MAIL GOING TO THE SAME ZIP CODED AREA.

...RIGHT TO THE POST OFFICE WHERE IT IS CANCELLED, SORTED, AND SACKED...

IN SOME LARGE POST OFFICES, EQUIPMENT READS AND Sorts MACHINE PRINTED ZIP CODED ADDRESSES ON LETTERS

LARGE VOLUMES OF BUSINESS MAIL ALREADY PRESORTED BY THE CODES BYPASS THE POST OFFICE AND GO STRAIGHT TO THE TRANSPORTATION TERMINAL.
TODAY, NEARLY ALL LONG DISTANCE FIRST CLASS MAIL GOES BY AIR

THERE IS A FIVE NUMBER CODE FOR EVERY ADDRESS

20260
THIS IS THE ZIP CODE FOR THE POSTMASTER GENERAL'S ADDRESS IN WASHINGTON, D.C.

POST OFFICES CAN SORT MAIL WITH MORE SPEED BECAUSE OF ZIP CODE

YOUR ZIP CODE GOES IN THE RETURN ADDRESS. THE CODE OF THE PERSON GETTING YOUR MAIL GOES IN THE MAILING ADDRESS

HERE'S HOW ZIP CODE WORKS

SUPPOSE THE ZIP CODE IS 60635
THE "6" SAYS IT GOES TO THE MIDWEST.
THE "06" NARROWS IT DOWN TO CHICAGO.
"35" PINPOINTS A LOCAL POST OFFICE... THIS ELIMINATES MANY HANDlings. THE LETTER IS SORTED FASTER AND SENT MORE DIRECTLY TO ITS DESTINATION.
Then it's on its way...

Next stop, the local post office where a letter carrier picks it up for delivery.

...to the proper address.

Regular postage plus zip code... that's all it takes.

Zip coded mail goes in a straight line to the sectional center or large post office nearest its destination.
For many years, the United States Post Office Department has been trying to speed up all mail delivery by streamlining its zoning procedures. In the latter part of 1962 the real breakthrough occurred with the beginning of ZIP CODE NUMBERS. The letters Z I P stand for Zone Improvement Program.

The initials Z I P stand for Zone Improvement Program.

The Zone Improvement Program has three objectives:

1. To give better, more dependable service.
2. To hold down postal operating costs.
3. To move the mail faster.

In other words, the Zip Code is important and of value to everyone because it makes our mail go faster and it is cheaper. Zip codes are used to speed up delivery of the United States mail. Without the Zip Codes, your letter may be delayed several days because eight to ten postal employees must handle the letter.
The purpose of the ZIP Code is to provide mail service that is_______ and _________.

Remember — that ZIP Codes save time and money. The ZIP Code eliminates reading and sorting by many postal employees. Money is saved when unnecessary handling is eliminated. A person living in California sending a letter to Minnesota (MN) can save as much as two days of mailing time by using a ZIP Code. Properly ZIP Coded letters will normally arrive several days earlier than un-ZIP Coded letters.

The ZIP Code uses five numbers which are easily identified by postal employees and their optical scanning equipment. The ZIP Code ALWAYS FOLLOW the city and stated when typed or written on an envelope.

The following is an actual address:
What two numbers on the envelope at your left are the ZIP Codes?

_________________ and ___________________.

Look on the following page and notice how the United States and its territories are divided into ten (10) large geographic areas. Each area consists of three or more states or possessions and is given a number between 0 — 9. This is the first digit in any given ZIP Code.

Because of favorable transportation facilities, key post offices in each area are designated as sectional centers. Sectional center means the center of an area. Each sectional center post office receives and distributes mail moving between post offices within its section.

Together, the first three digits of any ZIP Code number stand for a particular sectional center.

The last two digits of any ZIP Code number stand for one of the post offices in the sectional center, and the last digit stands for your area post office.

Or:

9 4 5 38
Area State City Local Zone

(a) If a ZIP Code started with the number 2, it would mean that the geographical area was located in the

___________________ part of the U. S.

CHOOSE the correct answer:

Northern
Eastern
Southern
Western
The above 2-letter State abbreviations in all cases have been authorized for use in conjunction with ZIP Code. These specially authorized abbreviations will be coming into increasing usage and everyone should be familiar with them. The Canal Zone, District of Columbia, Guam, Puerto Rico, and Virgin Islands are included.

Numerals shown on map represent first number of the ZIP Code which identifies the National geographic area.
QUESTION 4 CONTINUED...

(b) The United States is divided into 10 geographic areas, what is the number of the geographic area assigned to the following areas or states?

- Rhode Island
- Texas
- Utah
- Virgin Islands
- Florida
- Virginia
- New York

As you have seen the last two digits in a ZIP Code refer to a specific delivery zone within a city. This is commonly called a Local Zone. Some cities are small and have only one local Zone number.

Other cities are large and could have as many as 99 different local zones within its limits.
(a) Which of the following cities would you guess to have more than one local zone number or only one zip code for the whole city?
   Los Angeles, CA
   Minneapolis, MN
   Toledo, OH
   All of the above.

(b) How many local zone numbers or zip codes does your city have?

To find ZIP Codes for business and personal use, most people use a NATIONAL ZIP CODE DIRECTORY which contains the ZIP codes for all cities in the United States and its possessions. It is very easy to use as you will see.

If you do not have a copy of the ZIP Code Directory, now is the time to go and get one.

All states and territories within the ZIP Code Directory are listed alphabetically. All cities within a state are listed alphabetically.

You are working with three states:
ALABAMA, ARIZONA, ALASKA.

1. Which state is listed first in the Directory? _____________
2. Which state is listed second? _____________
3. Which state is listed third? _____________
Please turn to the very first page of the California listings in your directory. You will quickly see that each city is listed alphabetically. At the beginning of each state, all of the cities located in that state are listed just as the ones in California, beginning with the letters A-B-C etc. Larger states may have many pages to list all of their cities.

State sections begin with a list of all the in the state. Cities are listed in what order?

Notice that the cities located on the first page have their ZIP Code listed directly to the right of the listing. This means there is only one local zone number for that entire city.

Notice that some cities have the words "See Appendix" in parentheses instead of the ZIP Code number. These cities have more than one local zone number and are listed alphabetically in the appendix pages. Appendix pages are those pages that follow the state list of post offices.
How many cities on the first page of California have more than one ZIP Code? 

List the first seven.

Remember don't write in this manual.

Please find the first appendix page for Anaheim, California, a city with many Zip Codes. Look at and compare Anaheim and Alhambra. You will see that Anaheim has many divisions of information (8) where Alhambra only has a couple.

The appendix for each city in the directory lists the following:

1. Post Office boxes,
2. Rural routes, (remember the T.V. show Mayberry R.F.D.?)
3. Apartments, hotels,
5. Hospitals.
7. Military Installations.
8. Universities and Colleges
9. Named Streets
(a) Assume you are looking for the ZIP Code of the City Hall located in Anaheim. Under what division would you look? _______________

(b) You want to write a letter to Disneyland to inquire about group rates. Under what division would you look for the correct ZIP Code? _______________

(c) An advertisement in the newspaper, to which you wish to apply for a job, gives only the name and a post office box number. Under what division would you look for the ZIP? _______________

Next, look at the division, "Named Streets." Notice the two numbers to the right of each listing, for example,

Acacia ... 05 In some Zip Code directories, the first three numbers of the ZIP Code 928 are found at the top of each column. The three numbers at the top of the column plus the two numbers of the division make up the ZIP CODE. The Zip Code for Acacia is 92805.

Under the division, "Hospitals," you will see Martin Luther Hospital. The two numbers to the right are 01, and the three numbers at the top of the column are 928. Therefore, the ZIP CODE IS 92801. Got it?
Looking in the first two columns of the Anaheim listing, find and complete the following addresses: street and ZIP Code.

(a) Parkview Convalescent Hospital
(c) Disneyland

Assume you want to write a letter requesting information for admission to the Brigham Young University in Provo, Utah, but you do not know the ZIP Code. The quickest way to obtain the correct ZIP Code would be to call your local post office or to call the public library.

Each branch of the public library system has a National ZIP Code directory available and any employee will be happy to look up the information for you quickly.

(a) What is the ZIP Code for the Brigham Young University in Provo, Utah?

(b) The quickest way to obtain the correct address if you don’t have a ZIP Code directory would be to: (list one of the following answers)
1. Call the telephone information operator
2. Call the Post Office
QUESTION 11 CONTINUED

3. Call the library.
4. Call a school counselor.
5. Look it up yourself in a ZIP Code Directory.

Another important advantage to using Zip Codes with addresses is that all states and territories can be abbreviated with two letters. For example, California can be written or typed CA.

What do you think the state abbreviation is for Minnesota? 

(Be careful, make sure you check your answer on this one.)

Turn to the page in your ZIP Code Directory entitled "Address Abbreviations" (on or about page vii). Notice where the information is found. This information is found in the front pages of your directory before the listing of states and cities. Never guess at a state abbreviation — your letter or package could be returned to you because of your error.

Also on this page are listed abbreviations for streets and for words that appear frequently in place names. Look them over!
(a) List the 2-letter state abbreviations for the following states and territories:

- Canal Zone _______
- Puerto Rico _______
- New York _______
- Alaska _______
- Utah _______

(b) Show the abbreviations for the following words:

- Ranch _______
- Furnace _______
- Trailer _______
- Meeting _______
- Seminary _______
- Lakes _______

Now is a good time to check how well you can recall the information presented. Do you think you could find a ZIP CODE by yourself? Check yourself to see if you can. Let's assume you are looking for a Zip Code for the following address:

1435 Lexington Avenue
St. Louis, Mo ????

(a) What does MO stand for? _______

(b) Where is the first place you would look after you found out what the abbreviation MO stood for? ____________________________
QUESTION 14 CONTINUED.

(c) Because St. Louis is a large city, no Zip Code can be found in the first pages of the listing. The notation across from St. Louis will read

(d) What is the next step you must follow to find the correct Zip Code for St. Louis, Missouri?

(e) After you have found the city, you will recall that the address is 1435 Lexington Avenue. The subdivision which you would look under would be the one that is entitled

Can you remember that the three digits appearing at the top of each column should preced the two digits listed opposite the street entries? Where there are no house numbers shown, the entire street is within the area of the Zip Code indicated.

When the word "OUT" appears after a number, that number and any higher number on that street is within the Zip Code indicated. For example,

<table>
<thead>
<tr>
<th>ZIP Code</th>
<th>945</th>
</tr>
</thead>
<tbody>
<tr>
<td>Washington Ave.</td>
<td>1100 – OUT</td>
</tr>
</tbody>
</table>

indicates all house numbers on Washington Avenue from 1100 upward have Zip Code 94503.

All listings not specifically designated as avenue, court, lane, drive, etc., are streets.
When the word "OUT" appears after a number, what does it mean?

If a name does not have a court, lane or circle written after it, what should its designation be?

Following the State Alphabetical Listings, clear at the end of your directory, you will find the following:

1. Pacific Islands — Virgin Islands
2. Numerical Listing of Post Offices and Sectional Centers
3. Names of Discontinued Postal Units.

List the Zip Codes for the following:

1. Ponape, Caroline Island
2. Yona, Station Agana
3. Eastern District Branch, Pago Pago, Samoa
List the Zip Codes for the following Army and Air Force Installations, APO's, FPO's:

1. Fort Ord
2. Travis Air Force Base
3. Long Beach Municipal Airport
4. Hill Air Force Base
5. Scranton Army Ammunition Plant

This is the end of the first section of this unit. I hope you have enjoyed it and became interested in learning about my Zip Codes.

Make sure you have answered all the questions correctly, do any reviewing if you need to, then turn in your answer sheets.

However, before you leave this unit — Let's see how well you have understood the information I have presented. As a challenge, use your copy of the Zip Code Directory and do the activities starting on Page 27.
ANSWERS

QUESTION 1: Zone Improvement Program

QUESTION 2: Did you have the words faster, cheaper, and more dependable? Very Good. The rest is just as easy.

QUESTION 3: Oh – I hope you put 84106 and 92118 as your answer. If not, you goofed. Remember, the Zip Code always follows the city and state.

QUESTION 4a: Eastern is correct.

4b: Rhode Island 0, Texas 7, Utah 8, Virgin Islands 0, Florida 3, Virginia 2, and New York 1.

QUESTION 5a: Because all of the cities listed were large, the correct answer would be ALL OF THESE. If you missed this question, don't worry. Many individuals are unfamiliar with some of these cities and their size. Actually, Los Angeles has almost 70 separate local zone numbers while the other two have 20 or more.

5b: My city has ______ zone numbers.

QUESTION 6: If you know the alphabet – this was a cinch. The states would be listed as follows: 1. ALABAMA 2. ALASKA 3. ARIZONA.

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z!
QUESTION 7: Cities are listed in alphabetical order.

QUESTION 8: The answer is 21. If you did not have this answer correct — please look at the first page again and see where you made your mistake.

The first seven cities are: Albany, Alhambra, Anaheim, Baily, Bakersfield, Berkeley, Beverly Hills.

QUESTIONS 9a: Under the division Government Offices.
9b: Under the division Buildings.
9c: Under the division Post Office Boxes.

QUESTION 10a: Parkview Convalescent Hospital
1514 E. Lincoln Street
Anaheim, CA 92805

10b: Whilsire Towers
280 North Whilsire
Anaheim, CA 92801

10c: Disneyland
1313 So. Harbor
Anaheim, CA 92802 or 92803.

QUESTION 11a: Provo Utah is a one Zip City. Its ZIP Code is 84601.

11b: The quickest way to obtain the correct address and Zip Code would be to look it up in the National Zip Code Directory. If a Zip Code Directory is not available, call the Post Office.

The telephone operator is primarily working with phone numbers and many times will not give an address to you. If she did, it certainly would not have the Zip Code. A school counselor may have the correct catalog for the school in which you are interested, but she may be difficult to reach.

DON'T WASTE TIME — PLAY IT SAFE, look it up yourself.

QUESTION 12: Most people would write the letters MI. Unfortunately, this would be incorrect. Minnesota is abbreviated MN; I tried to fool you for a reason. Never guess at the correct abbreviation for a state. Always check to be sure. In many cases, even though the Zip Code is correct, the machinery or an employee doing a mail sort will use the state abbreviation as the main guide in sorting the mail. Don't guess — when in doubt — check to be sure.
QUESTIONS 13a: The correct abbreviations are: Canal Zone CZ, Puerto Rico PR, New York NY, Alaska AK, and Utah UT.

13b: The word abbreviations are: Ranch RNCH, Furnace FURN, Trailer TRLR, Meeting MTG, Seminary SMNRY, and Lakes LKS.

Now let's try a review. Return to page 18.

QUESTION 14a: MO = Missouri.

14b: If you said under the opening (first) pages for the state of Missouri where all the cities are listed — Good, keep going.

14c: “See Appendix”

14d: Look in the Appendix where the cities are listed. All large cities with more than one zip code are listed alphabetically after the opening pages for any state.

14e: Named Streets and Avenues must be correct. I am confident you had the correct answer. If not, possibly you thought that Avenues might be a separate division. This is possible, but normally the Post Office combines streets and avenues whether they are named or numbered.

QUESTION 15: When the word "OUT" appears after a number in the Zip Code Directory, that number and any higher number on that street is within the Zip Code indicated. For example, 1154 Washington Avenue would have the same Zip Code as 1100 Washington Avenue.

QUESTION 16: Street.

QUESTION 17: The Zip Codes are: Caroline Island 96941, Station Agana 96910, Pago Pago, Samoa 96920, or 96799 depending upon the year of your Zip Code Directory.
QUESTION 18: The Zip Codes are: Fort Ord 93941, Travis Air Force Base 94535, Long Beach Municipal Airport 90806, Hill Air Force Base 84401, Scranton Army Ammunition Plant 18501.
Using your Zip Code Directory, list the two letter state abbreviations for the following:

<table>
<thead>
<tr>
<th>State</th>
<th>Abbreviation</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>
ACTIVITY

Make a list of at least 30 two letter state abbreviations. Memorize them. When you have them memorized, report to your teacher, who will quiz you on them. You must get them 100% correct.

ACTIVITY

Show the abbreviations for the following words:

Airport
Lodge
Station
Mission
Harbor

Show the words for the following abbreviations:

INST
UNIV
CWSY
BYP
HGLDS
What are the Zip Codes for the following addresses?

Dr. Kiko L. Chun  
672 32nd N.  
Philadelphia, PA

Mr. Gordon Lightfoot  
P. O. Box 24  
Iron Mountain, WY

Ms. Lelani Tofu  
1942 Papette Way  
Pago Pago, Samoa

Miss Samantha Jones  
1976 Washington Avenue  
Manzanos Air Force Base  
Albuquerque, NM

Mr. Bugs Bunny  
% Great America  
Santa Clara, CA

Mr. Frank Martins Osgood  
1169 Orange Grove Blvd., East  
Pasadena, CA

Mr. Ruben Rodriques  
United States Courthouse  
1710 Speibush Blvd.  
Toledo, OH

Miss Jane Stewart  
200 Negley Avenue North  
Pittsburgh, PA

Mr. Peter Van de Vorren  
Barret & Company  
Aiken Avenue  
Lowell, MA

Mr. C. B. Polson  
Ramada Inn  
Albuquerque, NM  
(Please forward)

Mrs. Jackson Williams  
4593 Zenity Ave.  
Cave in Rock, IL

Tracy Loan & Trust Company  
268 South Main Street  
Salt Lake City, UT

Dr. Sherman Karpen  
Mount Sinai Hospital  
Chicago, IL

Mrs. Barbara B. Rabbitt  
104 Burns Street North  
Gadsden, AL
Write out the COMPLETE ADDRESS AND ZIP CODE FOR:

1. Primary Children’s Hospital, Salt Lake City, Utah.
3. The College of San Mateo, California
5. URS (Your own name and address.)
6. IBM, Nashville, Tennessee.
7. The State Capitol Building of California

Answer the following questions.

1. ZIP stands for ____________________________
2. How are states, U.S. Territories, and cities listed in the directory? ____________________________
3. How many numbers are in a Zip Code? ____________________________
4. Why are Zip Codes used? ____________________________
5. How many letters are used in a state abbreviation? ____________________________
6. If a city is very small and has only one local zone, where do you look? ____________________________
7. If a Zip Code started with a number 7, where would it be geographically located? ____________________________
8. Assume you are looking for the Zip Code for a bank in Kansas City. Under what division would you look? ____________________________
9. What is the quickest way to find the correct address of San Jose State? ____________________________

</table>
THE END
OBJECTIVES: The student will be able to:
- Follow written instructions
- Locate and list items found in a catalog
- Correctly describe and code each item, as listed in the supply catalog
- Determine the unit price, and the quantity price, make extensions
- Total an order and figure the tax.

TIME. 5 — 7 clock hours

GRADING Your students will find this an interesting unit to do. It will require some thought on their part. Grading should include some points for legibility.

Each form requires your signature. Look the P.O. over quickly, before signing it. Can you read it, is it complete, are all the blanks filled in, are the extensions reasonable?

It is suggested that you grade Activity 3 and 4. You may grade all of them or none of them. If you grade them it is suggested that you use the rule for a passing grade of “C”, one (1) point for each blank to be filled in.

If you elect to grade none or only part of them, then set up the answer KEYS in a self-check form that the student can use.

It is suggested that the self-check forms be done 100% accurately, re-doing the ones they missed until they are all done correctly.

If a student challenges a unit, takes the pre-test, it must be passed 100%.
It is also suggested that you have the students check their P. O. forms with a red checking pencil — that way you can see at a glance where the mistakes were made.

MATERIALS

Each student will need a Supply Catalog; it comes with this unit. The same catalog is used for all the Supply Companies mentioned in the manual.

Each student will need six (6) purchase order forms. All of the forms completed by the student should be printed or typed.

Each student will need a good sharp pencil or pen, and a red checking pencil to complete their work.

You may wish to augment this unit with additional exercises you create by using a Sears or J.C. Penney catalog, or one of a similar nature.

CONTENTS

The total Supply Catalog unit consists of:

- A Teacher Guide containing:
  - General Information
  - A Pre-Test
  - Two Post Tests; Post-Test A, and an alternate Post-Test B.
  - Answers to the Pre- and Post-Tests.
  - Answers to the four Student Activities.
  - A suggested teacher check-sheet for recording grades.
  - A suggested certificate to award the student upon completion of the unit.

- A non-consumable student manual containing:
  - What is to be learned.
  - Answers to Activity one and two, page 1.
  - Activities. Projects to reinforce learning. These should be graded.
  - A tax rate schedule

- A non-consumable Supply Catalog.
  - Instructions on how to use the catalog.
  - Supplies, stating code number, price, unit measure and a description of each item.

- A consumable Purchase Order Form.
PREPARATION

Decide if your students should be given the pre-test or not. It is suggested that a student only be pre-tested if they feel that they already know how to use a Supply Catalog of a business nature. The author feels that the majority of students using these materials will benefit by completing the unit.

Duplicate or have sufficient quantities of the working papers, pre-tests, and post-tests printed for your students and your type of program.

The author suggests that you have as a minimum one supply catalog printed for every three students going to use the materials.

Preview the manual and correlated working papers so that you will be familiar with the content. You must be able to answer questions and evaluate student progress. If the procedures used in this manual differ from your experience, remember that few companies have the same procedure. This is a fact that may be emphasized to your students.

It is suggested that you do not return tests to the students. If they do not pass it the first time, let them review it under your supervision or in a testing area, and take notes to study from. Then give them the Alternate Post-Test B.

Require all students to turn in all working papers before giving them the Post-Test. Look these over and see that they have all been completed and graded.

Remember — the forms must be completed in "catalog language".

Supply Catalog

Certificate

This certificate is awarded to

has completed the course

and made a satisfactory grade.

In testimony thereof, this certificate is awarded on this day of 19

Approved by

92
OBJECTIVES

The student will be able to:
- Look up Zip Code numbers quickly.
- Know what each number in the Zip Code means.
- Find the new state abbreviations, and learn the abbreviations for at least 30 states.
- Locate the addresses of hotels, government offices, hospitals, and colleges in larger cities.

TIME

3 – 5 clock hours.

GRADING

This unit should be easy for your students to do. It is suggested that you use 90% for a passing grade on the Post-Test; to receive points, credits or a letter grade of "C".

It is suggested by the author that the self-check questions in the manual be done 100% accurately, re-doing the ones they missed until they are all done correctly.

It is suggested that each of the Activities be graded using 90% as a passing grade of "C".

It is extremely important that accuracy be stressed, along with legibility. If a Zip Code cannot be read or if it is incorrect, it has no value.
MATERIALS

A NATIONAL ZIP CODE DIRECTORY. It is suggested that you have at least one copy for each 5 - 10 students in your class. (If you contact your local post office in the first part of October, you will find that they will probably have a last year's copy that they will give you. Tell them who you are and what you are going to do with it. They may even supply you with more if you are lucky. This is the time of year that businesses trade in their old copies for the new edition. If you buy a copy, it may be traded in each year. **Note, you may find that Zip Codes differ for each edition of the directory. The post office is constantly revising the Zip Codes as an area grows.)

You may wish to augment this unit with a cassette presentation that is available from Western Tape, Palo Alto, CA.

CONTENTS

The total Zip Code Directory unit consists of:

- A Teacher Guide containing:
  ... General Information.
  ... Answers to the Pre- and Post-Tests
  ... Answers to the Student Activities
  ... A suggested teacher check-sheet for recording grades
  ... A suggested certificate to award the student upon completion of the unit.

- A non-consumable student manual containing:
  ... What is to be learned
  ... Answer to the questions in the manual. These may be left in the manual for student reinforcement, or removed as the author suggests, and if the teacher so desires, remove the answers and make them into a self-check KEY available to the students.
  ... Activities. Projects to reinforce the learning, and to review all the materials taught. These should be graded.

- A consumable set of answer sheets containing:
  ... Answer sheets for the manual questions
  ... Answer sheets for the Activities. Sheets so arranged so that the student does the work on the pages provided.
  ... A Pre-Test
  ... Two Post-Tests; Post-Test A, and an alternate, Post-Test B.
PREPARATION

You will need to fill in the answers to questions 5b, page 12/23 in the manual, and the answer to Activity 5, page 30. These questions pertain to your local area.

You and/or an aid will need to give the students an oral quiz on the Zip Code Abbreviations of their choice. This is Activity 2.

Decide if your students should be given the pre-test or not. It is suggested by the author that a student only be pre-tested if he/she feels that they already know how to use The Zip Code Directory. The author feels that the majority of students using these materials will benefit by completing the unit.

Duplicate or have sufficient quantities of the working papers, pre-tests, and post-tests printed for your students and your type of program.

Review the manual and correlated working papers so that you will be familiar with the content. You must be able to answer questions and evaluate student progress. If the alternate post-test is given, it is given orally. You must know the answers to the questions.

It is suggested that you do not return tests to the students. If they do not pass it the first time, let them review it under your supervision or in a testing area, and take notes to study from. Then give them the Alternate Post-Test B, orally.

Require students to turn in all working papers before giving them the post-test. Look these over and see that they have all been completed and graded.

CREDITS

The author wishes to give special thanks to the Business Education staff of Claremont High School, Claremont, California, for use of their ideas and help on this unit.
THE ZIP CODE DIRECTORY

PRE-TEST — POST-TEST "A"

Part I. Directions: You will need a copy of the NATIONAL ZIP CODE DIRECTORY. Find the following two-letter state abbreviations (where necessary) and the Zip Codes.

1. Mr. Joe Tosumi
   P. O. Box 135
   Agana, Guam  GU 96910

2. Mrs. Mary Beth Taylor
   University of Miami
   Miami, Florida  FL 33124

3. Mrs. Juanita Gallegos
   Box 65, Route 2
   Medicine Bow, WY  WY 82429

4. John May Company
   14 Dearborn Drive
   Los Angeles, Calif.  CA 90028
    or 90068

5. Dr. James Blake More
   15 Laurel Court
   Madison, WI  WI 53705

6. Miss Elfreda Witmer
   807 First Avenue
   Seattle, WA  WA 98109

7. Z.C.M.I.'s
   5-25 South Main Street
   Salt Lake City, UT  UT 84111

8. Honorable James Joyce
   Court House
   Reno, Nevada  NV 89501 or 89101

9. Captain Fred Williams
   Veterans Hospital
   Durham, NC  NC 27705

10. Mrs. Martin Luther Jones
    Ball-Delten Company
    Zanesville, Ohio  OH 43701

11. General Community Store
    Chouteau, MO  MO 63110

12. Mr. Allen C. Fray
    Acme, Incorporated
    1415 Southbound Street
    Winston-Salem, NC  NC 27101

13. Mr. Allan A. Ackerman
    201 Alabama Road
    Alexander, AR  AR 72002

14. Ms. Edith E. Everett
    1710 Seventh
    Elizabeth, NJ  NJ 07201 or 07203

Answers may vary from year to year as the directory changes.
Part II. Directions: Using your Zip Code Directory, answer the following:

1. Assume you are looking for the Zip Code for a bank in San Francisco, under what division would you look?
2. What is the geographic area for North Dakota?
3. How many colleges and universities are there in San Diego?
4. What is the complete address of DISNEYLAND in Anaheim?
5. What are the three main benefits to using Zip Codes?
6. How many numbers are there in a Zip Code?
7. How are the states, territories and cities listed?

Part III. Directions: Answer the following questions, True or False.

1. There is a listing of all the post offices in any given state?
2. Large cities have only one Zip Code number?
3. Efficient use of the Zip Code Directory is an important asset in an office?
4. Vermont has only a one page listing in the Directory?
5. The word abbreviation for Causeway is CWSY?
6. Zip Codes for Army and Air Force Installations are found in the Zip Code Directory?
PART I. DIRECTIONS: You will need a copy of the NATIONAL ZIP CODE DIRECTORY. Find the following two-letter state abbreviations (where necessary) and the Zip Codes. Record your answer on a separate answer sheet.

1. Dr. Donald D. Dedman
   1908 Dodds Drive
   Durbin, ND    58023

2. Master Frederick Pheiffer
   620 First Street
   Fern Park, Florida    FL 32730

3. George G. Gage, PHD
   711 3regg Gardens
   Hephzibah, Georgia    GA 30815

4. Mr. Dean Harrison H. Hale
   Notre Dam Hospital No. 1612
   Manchester, NH        03102

5. Z.C.M.!.’s
   5-25 South Main Street
   Salt Lake City, UT    84111

6. Mr. Otto Hoover
   Williams Village Motel
   State Highway 119
   Boulder, CO           * 80302 or 80303

7. Three Best Grocers
   Grand Island, NE      68801

8. Mrs. Ruth Torriap
   5828 River Road No. 11c
   Richmond, Virginia    VA 23226

9. Adams Bros. & Sons
   1425 Hampden
   Newark, NJ           07103

10. Ms. Samantha R. Cosby
    General Delivery
    Cruz Bay, Virgin Islands    VI 00830

11. Honorable Martha Mitchell
    1111 Capitol Heights Blvd., NE
    District of Columbia    DC 20027

12. Master Travis Coleman
    P. O. Box 19
    Joiner, Arkansas    AR 72350

13. Rural Hills Center
    R. F. D. No. 1
    Bismark, ND           58501

14. Mr. C. Handley Barton
    Barlow, Barton & Barnes
    14 Judge Building
    Athens, Ohio           OH 45701

* Any answers may vary as directory changes from year to year.
POSSIBLE ANSWERS - POST-TEST "B"

1. Zip Codes are used by the Post Office because: It is faster, you get more depend and it is cheaper.

2. The cities, states and territories are listed ALPHABETICALLY.

3. The major contents of the directory are:
   1. Table of contents
   2. How to use the book
   3. Two letter state abbreviations
   4. State listings and appendix
   5. Army and Air Force Installations
   7. Discontinued Post Offices
   8. How to use Zip Codes in addresses
   9. **See table of contents for others.

4. Procedure for finding a Zip Code:
   1. Turn to the very first page of the city
   2. Find the Zip or see the words "See Appendix".
   3. If referred to the Appendix, go there
   4. In the appendix look under the appropriate division
   5. Find the "street" name.
   6. To the right of the "street" find the two digit number, look to the top of that same column and find the first three digits.
   7. Memorize the following western states, state abbreviations:
      - Oregon OR
      - Washington WA
      - California CA
      - Idaho ID
      - Nevada NV
      - Arizona AZ
      - Montana MT
      - Utah UT
      - Wyoming WY
      - Colorado CO
      - New Mexico NM
      - Hawaii HI

**Remember - this part is given orally.**

   Grand Island, NE

8. Mrs. Ruth Torriap
   5828 River Road ♠ 11c
   Richmond, Virginia

9. Adams Bros. & Sons
   1425 Hampden
   Newark, NJ

10. Ms. Samantha R. Cosby
    General Delivery
    Cruz Bay, Virgin Islands

11. Honorable Martha Mitchell
    1111 Capitol Heights Blvd., NE
    District of Columbia

12. Master Travis Coleman
    P. O. Box 19
    Joiner, Arkansas

13. Rural Hills Center
    R. F. D. ♠ 1
    Bismark, ND

14. Mr. C. Handley Barton
    Barlow, Barton & Barnes
    14 Judge Building
    Athens, Ohio
Part II Directions: Once you have successfully completed Part I of the test, you will take the next part with your teacher. This test is oral. You will verbally discuss it from memory with your teacher.

Get a copy of the Zip Code Directory, and look up the answers to the following questions. You may wish to write down any personal notes to study from before taking this test.

1. Why are Zip Codes used by the Post Office?

2. Describe how the states, territories and cities are listed in the Zip Code Directory. You may wish to show the answer to your teacher.

3. List the major contents of the directory. What does the book contain. There are about 9 different items.

4. Outline in detail the specific procedure you will follow in finding a zip code for the following address.
   
   Z.C.M.I.'s  
   5-25 So. Main Street  
   Salt Lake City, Utah

5. Memorize the two-letter state abbreviations for the western part of the United States.

Directions: Now that you are ready to take the test, put your notes away, and take the Zip Code Directory to your teacher. Ask her/him to give you the above test.
**THE ZIP CODE DIRECTORY**

**POST-TEST "A"**
