This guide to recreation and leisure resources for handicapped individuals contains a list of information resources, a funding guide, and a bibliography. In the first section brief organizational profiles, descriptions of services provided by the organizations, and instructions on how to use these services are presented for seven organizations. Organizations listed are The Information and Research Utilization Center, The Office for Special Constituencies, The National Program Access Center, The National Committee for the Handicapped, The National Park Service, The Heritage Conservation and Recreation Service Information Exchange, and The Therapeutic Recreation Information Center. Also included in this section are an annotated list of twelve resources for recreation and leisure-related organizations and the addresses of twenty-two sports organizations for handicapped persons and eight related professional organizations. The funding guide covers revenue sharing: personnel: training: research and demonstration: the media, arts, and humanities: operation funds: facilities construction/remodeling/planning: and additional resources for funding information. Thirty federal funding programs are described. An annotated bibliography of sixteen publications available from federal sources is provided in the third section; ordering and price information are included for all publications listed. (MN)

INTRODUCTION

"...Arts and leisure time activities can assist individuals with mental and physical handicaps to live their lives more independently, stimulate their integration into community life, and increase their feelings of dignity and self worth.

"...Leisure and recreation is the leading industry in the Nation; participation is expected to quadruple over the next twenty-five years. Yet architectural, sensory and attitudinal barriers have long denied to persons with mental and physical handicaps the basic rights of enjoyment and participation."

These quotes are from the Implementation Plan of the White House Conference on Handicapped Individuals* which spells out recommended actions to improve the quality of life for handicapped persons.

In the section on Cultural and Leisure Activities, 27 recommendations call for full participation of the handicapped in existing opportunities, increased physical and transportational access, consumer involvement in policy-making, and creation of jobs and careers for disabled persons in the arts and leisure industry.

Interest in recreation programs for the handicapped is growing by leaps and bounds. This resource guide was created to meet the information needs as to sources for program information, funding resources, and governmental publications.

In developing the funding guide, the search was not limited to programs specifically oriented towards the handicapped or earmarking specific portions of available monies for programs serving the handicapped. Since recreation programs funded by Federal money cannot exclude handicapped individuals, all recreation funding possibilities were reviewed.

"Special Recreational Programs," Section 316 of the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978, were not included since no funding has been appropriated.

The information resources described are primarily those which are national in scope and which cover the subject of recreation for all handicapping conditions. Persons interested in recreation for handicapped individuals may also want to contact national voluntary health organizations which serve specific groups of disabled individuals and disseminate information and materials on sports and leisure activities relevant to those persons' needs. For example, the Association for Retarded Citizens provides information on physical education and recreation for mentally handicapped people.

There are other organizations which do not focus exclusively on the needs of handicapped people but offer special programs for them. The YMCA has developed a model for mainstreaming special populations in aquatic activities. Scouting groups and 4-H include handicapped children and youth in their programs and the American Red Cross has developed and documented a swimming program for handicapped individuals. The Clearinghouse on the Handicapped can provide assistance in locating organizations which offer information on specific recreation-related areas.
The Organization

In 1972 the American Alliance for Health, Physical Education and Recreation received a grant from the Bureau of Education for the Handicapped, Department of Health, Education, and Welfare, to develop the Information and Research Utilization Center (IRUC). IRUC was funded as a demonstration project to collect, review, interpret, evaluate, catalog, package and repackage, and disseminate information about a wide variety of materials dealing with physical education, recreation, and related activities involving disabled persons. Since July of 1976, IRUC has functioned as a self-supporting information center within the Alliance's Unit on Programs for the Handicapped.

IRUC services are designed for various levels of personnel, such as physical education and adapted physical education teachers, recreation and therapeutic recreation specialists, regular and special education classroom teachers, administrators, supervisors, para-professionals, volunteers, parents, and students.

Information and materials are obtained from programs and activities conducted in various settings, such as public and private schools, residential facilities, parks and recreation departments, and university and college training programs.

What It Provides

The Center collects, categorizes, repackages, and disseminates information on physical education, educational recreation, therapeutic recreation and related areas for individuals with disabling conditions. Resource files include books, program descriptions, curriculum guides, and an extensive listing of individuals working in related areas.

The following documents, materials, and services are provided by the Center:

- Publications are developed by the Unit on Programs for the Handicapped and IRUC activities. Over 40 titles deal with planning, organizing, conducting, and evaluating general and specific physical education, recreation, sports, and related activities for impaired, disabled, and handicapped persons.

- IRUC BRIEFINGS is a periodic newsletter that includes information about programs, activities, methods, audiovisual materials, books, periodicals, research, legislation, professional enrich-
ment programs, and other areas of interest and importance to personnel in the field. Individuals in designated AAHPER structures concerned with handicapped individuals receive IRUC BRIEFINGS as a part of their membership. Subscription fees to others are $4.00 per year.

- Practical Pointers emphasize functional, relevant, how-to-do-it assistance. Each Practical Pointer costs $2.00; twelve issues are published each year.

- Topical Updates and Topical Information Sheets provide information and summaries about materials dealing with topics of high interest to personnel in the field. Topical Updates are $2.00 each; Topical Information Sheets are $1.00 or $2.00 each depending upon length.

- Consultation and Customized Services are available to agencies at national, state, and local levels. Special searches can be made of Unit and IRUC files, library, and other resources to assist individuals and groups obtain information for specific problems and projects. Both consultative services and customized searches are charged on an individual basis.

- Mailing lists and labels are available from various AAHPER/IRUC files. Retrievals can be generated from international, national, regional, state and to some extent from local levels. Files contain names of individuals involved in physical education, recreation, and other activity areas involving special populations in ongoing programs, and a special resource personnel listing. Cost for listing or labels is $30.00 per 1,000 plus postage and handling. Approval of materials to be sent must be obtained before labels or listing orders can be processed.

How to Use It

Inquiries should be directed by mail or telephone to IRUC. Materials and services are available on a fee basis, although small searches in response to telephone or mail inquiries may be conducted at no charge. Turn around time ranges from one week to ten days.
The Organization

The National Endowment for the Arts, a component of the National Foundation on the Arts and the Humanities, an independent agency of the Federal Government created in 1965 to encourage the advancement of the nation's cultural resources, receives an annual appropriation from Congress and is also authorized to solicit and accept private donations.

In 1973 the National Council on the Arts, a Presidentialy appointed body which governs the Endowment, adopted a policy which follows the philosophy of the Architectural Barriers Act (P.L. 90-480) by promoting the overall accessibility of the arts to handicapped individuals.

Further, the Office for Special Constituencies is an advocacy office which works to make the arts more accessible to handicapped people, older adults, veterans, people in hospitals, nursing homes, mental institutions, and prisons.

What It Provides

This office provides information and technical assistance to artists, art organizations, and consumers concerning accessible art programs. By means of cooperative agreements with other Federal agencies, the office works to educate administrators and professionals who serve special constituencies about the benefits or arts programming for their respective constituents. Through the Endowment's programs, the Office supports model projects that demonstrate innovative ways to make the arts accessible to special constituencies. Further, grantees are given assistance with Federal regulations that concern special constituencies, including the Endowment's 504 regulations.

How to Use It

Organizations interested in arts projects dealing with handicapped people may contact this office by phone or in writing for technical assistance. For publications and other media on arts and the handicapped, one should contact the National Program Access Center (see page 6).
The Organization

The National Program Access Center is a private organization. Through a contract with the National Endowment for the Arts, the Center provides technical assistance to arts and special constituencies organizations and individuals concerning access to cultural activities. The Center is concerned with implementation of Section 504 of the Rehabilitation Act of 1973 in arts programs, and disseminates materials which can be used to make arts programs and facilities more accessible to handicapped people.

What It Provides

Technical reports and a newsletter, Access, produced by the National Program Access Center, are published periodically and mailed to subscribers. Many reports are produced in response to subscriber suggestion. See "Publications available from Federal Sources." A research library on access to the arts and "hot line" assistance are available.

The following films, slides, or videotapes are available free on loan from the National Program Access Center:

- "Free to Be Me" - a documentary style film centered on dramatic presentation by retarded actors before live audiences. Documents learning through drama and mainstreaming in the community, 16 mm film, 28 minutes, Delaware County A.R.C., Muncie, Indiana.

- "504 and the Visual Arts" - a two part program covering the involvement of the disabled person in American culture and a review of new accessible facilities and programs in the visual arts. Slide/cassette tape, produced by the Arts and Special Constituencies Project, available from your state arts agency.

- "504 and the Performing Arts" - similar to the tape above but with an emphasis on the performing arts.

The National Program Access Center answers inquiries on arts and the handicapped, and when necessary, makes referrals to other organizations.

How to Use It

Anyone interested in arts and the handicapped may ask to be placed on the mailing list for the National Program Access Center and will receive current printed materials and information about new editions as they become available without charge.
The Organization

The National Committee/Arts for the Handicapped (NCAH) is an educational affiliate of the Kennedy Center for the Performing Arts. The committee has a mandate to coordinate the national development of arts programs for handicapped children and youth.

NCAH programs serve four major objectives:

- To support the initiation and expansion of arts related programs which enhance learning and enrich the lives of disabled persons.
- To initiate and support research, development, and evaluation activities relating to programming in the arts for disabled persons.
- To provide arts related training and technical assistance to those agencies and individuals who provide services to disabled persons.
- To develop and implement systems which demonstrate effective interagency cooperation and community involvement in providing services in the arts for disabled individuals.
- To expand international awareness and to provide a system for sharing information about existing programs in the arts for disabled persons.

NCAH has several major programs. The Model Sites program supports resource and demonstration agencies that offer comprehensive programs in arts for the handicapped. Model Sites personnel work towards increasing the numbers of handicapped individuals exposed to arts programming as well as developing awareness and expertise in professionals who work with the handicapped in other capacities. Sites include but are not limited to education agencies, parks and recreation agencies, private and public institutions, universities, and educational laboratories.

Special Project programs are developed in response to needs identified by teachers, parents, artists, administrators, recreation leaders, and others interested in the expansion of arts programs which innovatively bring arts programming to all handicapped individuals.

Very Special Arts Festival programs provide for the successful integration of disabled students into the mainstream of educational/cultural activity through shared performance and other arts activities. The festival programs have a component of inservice training for personnel.
involved in developing the arts in education. The festival programs in each location provide for year around arts experiences.

Information, Training, and Research are provided by NCAH through a variety of forums including a new network of Regional Arts for the Disabled Regional Resource Centers being formed in five NACH-designated regions.

What It Provides

Products and materials from research and demonstration activities and National Committee publications are available. Specific information services include:

- Lists of national arts, recreation, education, therapeutic and other organizations involved in arts programs for the handicapped. Also available are lists of NCAH model sites and other programs that NCAH has recognized for excellence in providing arts experiences for the handicapped. In addition, NACH has compiled lists of state and local organizations dealing with the handicapped and lists of each state's representatives in several arts committees and activities. Also available from NCAH are sources of financial assistance for community arts programs and contacts for research grants. Information on the National Committee's specific program approaches may be obtained directly from the national office.

- NCAH publications include: Music and the Handicapped, by Sona D. Nocera; Dance for the Handicapped, by Anne Riordan, and Art for the Handicapped, by Judith Rubin. These three pamphlets are available from the National Committee headquarters.

How to Use It

Questions and inquiries should be made in writing or by telephone to the National Center. The awareness materials developed by the National Center are available at no charge.
The National Park Service (NPS) administers the nation's National Park System, including parks, and natural, historical, recreational, and cultural areas and facilities. The Division of Special Programs and Populations was established in 1979 at the Washington office level. The primary function of the Division is to develop a comprehensive and system-wide plan to access to insure that parks provide, as a matter of routine, full spectrum visitor services. The Division is addressing such issues as: historic site accessibility, wilderness area experiences, expansion of interpretive programs to enable deaf and blind individuals to participate, exploration of technological approaches to enable those with disabilities an opportunity to more fully enjoy outdoor recreation, and accessible transportation systems to and within park areas.

What It Provides

The Division of Special Programs and Populations formulates policies and guidelines relative to special populations, reviews employment opportunities within the Services for disabled individuals, recommends specialized training, provides technical assistance to park areas in eliminating programmatic and physical barriers, and coordinates special demonstration projects. The Division responds to lay and professional inquiries concerning National Park facilities and the handicapped.

How to Use It

Persons interested in technical assistance or information should send a letter or call the Division to explain their need for assistance.
The Organization

The Heritage Conservation and Recreation Service (HCRS) was established by the Secretary of the Interior in January 1978. HCRS assumed the responsibilities and authorities of three former Department of the Interior programs: the Bureau of Outdoor Recreation; and two programs from the National Park Service: the National Natural Landmarks Program and the Office of Archeology and Historic Preservation. As the federal focal point for planning, evaluation, and coordination related to natural, cultural, and recreation resources, the Service manages programs that emphasize responsiveness to national needs and a national commitment to preserving and maintaining the heterogenous components of the nation's heritage.

The HCRS Information Exchange is designed to assist practitioners, government agencies, nonprofit organizations, and individuals involved in recreation, cultural, and natural preservation. In order to provide up-to-date technical information, they ask their members to contribute materials which they announce in Technical Assistance NOTIFICATIONS. Materials included are: studies, handbooks, audiovisuals, surveys, case studies, publications, and training manuals.

What It Provides

The publication, Technical Assistance NOTIFICATIONS, is produced periodically by the Information Exchange. It provides abstracts and ordering information on materials from Federal, State, and local government, private organizations, and educational institutions. Abstracts and order forms on free HCRS materials are included as well as notices of importance. Each member of the Exchange is entitled to receive single copies of currently available HCRS technical assistance publications. The Information Exchange has approximately 50 publications currently available free to members, and another 400 abstracts of publications in the heritage conservation and recreation area. Two titles among the 50 now available specifically relate to the handicapped: Designing Accessible Outdoor Recreation Facilities for the Physically Handicapped and Handicapped Access and Historic Preservation. See "Publications Available from Federal Sources" for more information on these publications.

How to Use It

Any lay or professional inquirer may request information by becoming a member. Application forms are available upon request. Membership criteria is the willingness to provide information to the exchange in return for user services.
The Organization

TRIC is a computer based information center concerned with published, and unpublished materials related to recreation services to ill, disadvantaged, disabled, and aging persons. The TRIC data base is updated every five years. An update was made during 1975-76; the file is currently being updated.

What It Provides

TRIC provides annotated bibliographic references to educators, researchers, students, practitioners, and others interested in therapeutic recreation for special groups. Both custom searches and published searches are available for a charge.

How to Use It

Requestors should contact Dr. Fred Martin. If there is no answer at the above telephone number, written inquiries may be sent to Dr. Martin.

The Revenue Sharing Act as amended provided that State and local governments may spend revenue sharing funds for any purpose which is considered permissible use of the government's own revenues under applicable State and local laws. The priority expenditure categories which restricted revenue sharing expenditures of local governments were eliminated by the Amendments of 1976, effective January 1, 1977.

Regulations governing expenditures of revenue sharing funds list under permissible expenditures for local governments:

"Ordinary and necessary maintenance and operating expenses for: (a) public safety; (b) environmental protection; (c) public transportation; (d) health; (e) recreation; (f) libraries; (g) social services for the poor and aged; and (h) financial administration."

Recipients: Recipient governments may transfer shared revenues to secondary recipients (private organizations, quasi-governmental agencies or other governmental units such as schools, hospitals, or fire districts) for purposes consistent with the regulations if such transfers are permissible under State and local law.

How to obtain revenue sharing funds:

Public Participation: Recipient governments are required to hold two public hearings with public notice prior to the adoption of their budgets, at which time citizens must be given an opportunity to offer written and oral comments on revenue sharing funds and the relationship of those funds to the entire budget.

Programs of recreation for the handicapped have been funded through revenue sharing funds. The Recreation Center for the Handicapped in San Francisco and the Maine-Niles Association for Recreation for the Handicapped in Skokie, Illinois, have been funded this way.1/

EMPLOYMENT AND TRAINING ADMINISTRATION

COMPREHENSIVE EMPLOYMENT AND TRAINING PROGRAM
(Comprehensive Employment and Training Act of 1973, as Amended)

PROGRAM DESCRIPTION

To provide job training and employment opportunities for economically disadvantaged, unemployed, and underemployed persons and to assure that training and other services lead to maximum employment opportunities and enhance self-sufficiency by establishing a flexible and decentralized system of Federal, State, and local programs.

Since many handicapped individuals meet the CETA eligibility requirements of being unemployed, underemployed or disadvantaged, they are eligible for CETA services. CETA services include jobs and/or on-the-job training or in-the-classroom training. CETA may also provide handicapped individuals with supportive services such as transportation, health care, removal of employment barriers, such as discriminatory health practices, unrealistic qualification requirements, and job restructuring. Programs providing recreational activities for handicapped individuals and/or the elderly can be staffed with CETA personnel.

USES AND USE RESTRICTIONS

Title I - Administrative Provisions - Details the general provisions governing the Act including time limitations for participation by enrollees and payment allowances. The title also establishes an Office of Management Assistance to provide support to prime sponsors and contains provisions for program audits, investigation, and compliance activities. Title II - Comprehensive Employment and Training Services - combines the comprehensive manpower services previously authorized under Title I and the public service employment program previously authorized under Title II. Allowable program activities include classroom and on-the-job training, work experience, upgrading, retraining, and other services (Parts A, B, and C) and transitional public service employment (Part D) needed to enable participants to obtain subsidized employment. Participants enrolled in training programs and services (except upgrading and retraining) must be economically disadvantaged and either unemployed, underemployed, or in school. Participants in public service employment must be economically disadvantaged and have been unemployed for 15 of the 20 weeks immediately prior to application, or be a member of a family receiving public assistance. Title IV - YCCIP - Youth are employed on community projects. These projects are organized by private nonprofit community agencies sensitive to youth needs. YETP - These projects provide a variety of year round employment
and training activities intended to enhance career opportunities and unsubsidized job prospects. SYEP - Provides summer training and employment. All programs are targeted to economically disadvantaged, unemployed or underemployed youth except in YETP where 10 percent of the funds are for youth of all economic backgrounds. Title VI - Provides for countercyclical public service employment, authorizing the funding of sufficient jobs to employ 20 percent of the number of unemployed in excess of a 4 percent rate of unemployment when national unemployment is 7 percent or higher. Fifty percent of the funds may be used for employing persons in time limited projects. All other persons employed outside of projects must be employed at entry level positions.

TYPES OF ASSISTANCE

Formula Grants; Project Grants

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Title II, Parts B and C: States, units of general local government having a population of 100,000 or more, consortia of local government units, at least one of which has a total population of 100,000 or more, units of local government which are considered eligible by the Secretary because of special circumstances, U.S. Territories, and a limited number of Concentrated Employment Program grantees in existence at the time of enactment (December 1973). Title II D: Applicants qualified under Title II, Parts B and C and Indian Tribes on Federal or State Reservations, either of which contain areas of substantial (6.5 percent or more) unemployment. Title IV: Prime sponsors under Title II of the Act. Title VI: Applicants qualified under Title II, Parts B and C and Indian Tribes on Federal and State Reservations.

BENEFICIARY ELIGIBILITY:
Title II, Parts A, B, and C: Economically disadvantaged persons (70 percent of the Bureau of Labor Statistics lower living standard income level or OMB poverty criteria) and unemployed, underemployed or in school except for persons enrolled under Part C (upgrading) who are operating at less than full skill potential primarily in entry level positions which offer little advancement opportunity. For retraining, a person must have received a bona fide lay-off notice in the last six months and have little opportunity for reemployment. Title II D: Economically disadvantaged and unemployed 15 out of 20 weeks immediately prior to application, or a member of a family which is receiving public assistance. Title IV - YCCIP: Youth, 16-19 years of age, who are in school or out of school and unemployed. Preference is given to out of school young people who experience severe problems in finding employment. YETP: Youth who are 14-21 years of age, in school and are unemployed or underemployed and who have severe handicaps in obtaining employment, and whose total family income, annualized on a six month basis, does not exceed 85 percent of the Bureau of Labor Statistics lower
living standard income level or who are economically disadvantaged. (Up to ten percent of the funds may be used to serve a mixture of youth from all economic backgrounds.) SYEP: In or out of school youth, 14-21 years of age. Youth applying for participation in these programs must meet the criteria for economically disadvantaged lower living standard level. Title VI: Unemployed 10 of the 12 weeks immediately prior to application, and have a family income which does not exceed 100 percent of the lower living standard income level or be a member of a family which has been receiving public assistance 10 of the last 12 weeks. Participation in all programs under the Act is limited in duration to two and one half years in a five year period.

APPLICATION PROCEDURE

Applicants which have been designated as prime sponsors and eligible to receive funds will be furnished a grant application package which is to be submitted to the Regional Administrator with copies to the Governor and appropriate State and areawide A-95 clearinghouses. A summary of the application will be published in one issue of a general circulation newspaper. Copies of the summary will be provided to appropriate units of general local government, Indian prime sponsors, and to labor organizations where appropriate.

PROGRAM DESCRIPTION

To provide, foster and promote, useful and part-time work opportunities in community service activities for low income persons who are 55 years old and older. This includes individuals with handicapping conditions, and who have poor employment prospects.

USES AND USE RESTRICTIONS

Organizations which receive project grants or contracts may use the funds to create and pay for part-time community service job positions for economically disadvantaged persons aged 55 and above. Both the able-bodied and handicapped individuals who are employed may be placed in work assignments at established local service agencies (e.g., schools, hospitals, day care centers, park systems, etc.) or innovative community service projects. Recreation qualifies as a community service. A portion of project funds may be used to provide participants with training, counseling, and other supportive services. Participants may not be employed in projects involving political activities, or involving work which would ordinarily be performed by the private sector; nor may participants displace any employed worker or perform work which impairs existing contracts for service.

PROGRAM DESCRIPTION
To improve the quality and increase the supply of teachers, super-
visors, administrators, researchers, teacher educators, speech
correctionists, and other special personnel such as specialists in
physical education and recreation, paraprofessionals, vocational/career education volunteers including parent and parent coalitions.
Training of regular education teachers, supervisors, and administra-
tors also is an objective.

USES AND USE RESTRICTIONS
Grants may be used for undergraduate, graduate, and summer trainee-
ships, special study institutes, and special projects. Project
applications from institutions of higher education or other public
and/or private nonprofit agencies are subject to review and recom-
mandation by field readers with final approval resting with the
Secretary of Education. State educational agencies are eligible to
apply. Funds may be used for student's stipends, dependency allow-
ances, or institutional support. Grants to State educational
agencies may include programs for preparation of physical educators
and/or recreation personnel if such educators and personnel are
certified (or certifiable) under applicable State Law. Local
education agencies may apply for inservice training program support.

TYPES OF ASSISTANCE
Project Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Applications for grants may be submitted by institutions of higher
education, both public and private senior colleges and community
colleges, and State and local educational agencies. Other nonprofit
public and private agencies are eligible for participation.

BENEFICIARY ELIGIBILITY:
Program support is allowable in lieu of or in addition to student
stipends. Stipends may go to students who are preparing for, or
are engaged in work with handicapped children as a teacher, supervi-
sor, administrator or researcher, or are engaged or preparing to
engage in employment as physical educators or recreation personnel
for the handicapped. Stipends also may be paid to students enrolled in regular education inservice programs funded under this authority.

APPLICATION PROCEDURE

Applications should be sent to the Department of Education, Application Control Center, Room 5673, ROB No. 3, 7th and D Streets, SW, Washington, D.C.; mailing address: Department of Education Application Control Center, 400 Maryland Ave., SW, Washington, D.C. 20202. This program is subject to the provisions of OMB Circular No. A-110.

APPROPRIATIONS

(Grants)
Fiscal Year 1979 $57,687,000
Fiscal Year 1980 est. $55,375,000
Fiscal Year 1981 est. $58,375,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE:
College range $8,000 to $360,000; average $60,000; State educational agencies range $50,000 to $210,000; average $102,000. Special Projects range $10,000 to $170,000; average $25,000.

PROGRAM ACCOMPLISHMENTS

The majority of special education professionals are trained in OSE-supported programs. In fiscal year 1980, an estimated 91,089 individuals were trained. In fiscal year 1981, an estimated 95,255 individuals will be trained. Of these 95,255 persons, 46,429 will be regular educators who receive inservice training. Of the 95,255 to be trained, only 7,686 will be trained in preservice settings. In fiscal year 1980 some 1,265 applications were received with 1,000 being funded. For fiscal year 1981 the application number expected is 1,300.

ENABLING LEGISLATION

EXAMPLES OF FUNDED PROJECTS

Projects funded are very diverse and cannot be categorized. As of of January 1980, there were 72 operational projects, 26 that were funded June 1, 1979. Training was diverse both in scope and in methodology. For instance: projects for teachers of the handicapped focusing on Arts Education, Speech and Language, and Multicultural/Bilingual Education were all funded under this program. Training models were both preservice and inservice in nature. In general, project
goals fall into two categories: 1) developing programs to prepare personnel to educate handicapped children, that upon implementation may be more effective than programs currently operating; and 2) identifying major problems relevant to the preparation of personnel to educate handicapped children and developing procedures to solve such problems.

PROGRAM DESCRIPTION

To improve and expand innovative educational/training services for severely handicapped children and youth; and improve the acceptance of such people by the general public, professionals, and possible employers.

USES AND USE RESTRICTIONS

Contracts must be designed to provide comprehensive diagnostic, prescriptive, education/training, and evaluative services to severely handicapped children and youth, inservice training of staff, dissemination of materials and information, and construction. Research and teacher preparation are outside of program's intent, except to the extent necessary for support of an approvable program. Evidence of coordination of projects with agencies serving the same population must be provided including the indication of consonance of the project with State planning for handicapped children. Recreation services could be considered for funding within the program. The recreational service may be a component of a project where the goals are broader than recreation only. Usually when recreation is a program component it has the ultimate goal of facilitating integration and mainstreaming of handicapped children in their community.

TYPES OF ASSISTANCE

Project Grants (Contacts)

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Public and nonprofit private agencies, organizations, or institutions, including State departments of special education, intermediate or local educational agencies, institutions of higher learning, professional organizations and volunteer associations.

BENEFICIARY ELIGIBILITY:
Severely handicapped children and youth receiving basic educational services but who require special education/training and related services in order to effectuate their development in least restrictive environments.
APPLICATION PROCEDURE

Request for proposals (RFP) will be announced in the "Commerce Business Daily," with additional memos directed to those individuals and agencies known to have interest in the provision of services to severely handicapped children. Copies of the project work statement will then be mailed to those who so request. This program is subject to the provisions of OMB Circular No. A-110.

APPROPRIATIONS

(Grants and Contracts)
Fiscal Year 1979 $5,000,000
Fiscal Year 1980 est. $5,000,000
Fiscal Year 1981 est. $5,000,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE:
$54,680 to $189,900; average, $121,950

PROGRAM ACCOMPLISHMENTS

In fiscal year 1979, direct educational services were provided to 1,988 severely handicapped children and youth in a variety of educational settings--residential to day center. Indirect services were provided to approximately 1,260 severely handicapped children and 930 professionals through outreach efforts of validated programs. Additional inservice training was provided to 430 professionals and 900 nonprofessionals. In fiscal year 1980, it is anticipated that approximately 37 programs will be funded to direct attention to the severely handicapped population, ages 6-21. The primary focus for fiscal year 1980 will be to implement educational models designed to provide innovative approaches to educational/training practices to severely handicapped children/youth in de-institutionalized and/or integrated settings. Additionally, a special thrust will be in model, innovative educational services to autistic children/youth. The estimated total number of students to be served will be approximately 2,000 receiving direct services and 600 receiving indirect services. The new personnel-professional and para-professional to receive training will total approximately 150. A series of conferences are being planned to develop new approaches in curriculum and prevocational training.

ENABLING LEGISLATION

Education of the Handicapped Act, Title VI, Part C, Section 624; Public Law 91-230; 10 U.S.C. 1424.

EXAMPLES OF FUNDED PROJECTS

Projects currently funded under this program include those designed to demonstrate and verify the effectiveness of innovative practices in the educational and life adjustment skills of deaf-blind and
other severely handicapped children and youth. Program components of a recreational nature are common. Among their objectives may be mobility, language and other skills training, but the ultimate goal is always integration of these children into the life of their community. Skills training through the medium of video games and after school community recreation programs for socialization are just two examples of projects with a focus on recreation.

Beginning in 1981, the Special Needs Section will be providing support to a variety of special projects: (a) Deinstitutionalization Models; (b) Integration Models designed to facilitate the integration of severely handicapped children into attendance centers which also serve nonhandicapped students; (c) Service System Change Models designed to upgrade the quality of educational services to severely handicapped children in rural areas, densely populated metropolitan areas, or an entire State; and (d) Service Delivery Models which address the specific educational needs of children and youth described as autistic.

PROGRAM DESCRIPTION

To maintain a free loan service of captioned films and instructional media for the educational, cultural, and vocational enrichment of the deaf. Provide for acquisition and distribution of media materials and equipment; provide contracts and grants for research into the use of media, and train teachers, parents, and others in media utilization.

USES AND USE RESTRICTIONS

Contracts and grants may be given to conduct research in the use of educational and training films and other educational media for the handicapped. Contracts and grants also provide for the training of teachers, parents, and others who work with the handicapped in the use of educational media. The program is authorized to acquire, produce, and distribute films and other related media, and media equipment. The captioned general-interest films are limited to registered deaf users.

TYPES OF ASSISTANCE

Direct Payments for Specified Use; Project Grants (Contracts)

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Public and private agencies, organizations or groups may submit proposals and applications for projects to the Division of Media Services.

BENEFICIARY ELIGIBILITY:
Handicapped persons, their families, their actual or potential employers, those persons involved in activities for the advancement of the handicapped.

APPLICATION PROCEDURE

Current work is done almost exclusively through competitive contracts and grants. Periodically, a request for Proposals (RFP) is developed for a specific workscope and announced through publication in the "Commerce Business Daily." Offerers submit proposals in response to the RFP. This program is subject to the provisions of OMB Circular A-110. Also, periodically, grant announcements appear in the Federal Register.
APPROPRIATIONS

(Direct payments)
Fiscal Year 1979 $19,000,000
Fiscal Year 1980 est. $19,000,000
Fiscal Year 1981 est. $19,000,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE:
$1,350 to $1,650,000; $250,000.

PROGRAM ACCOMPLISHMENTS

During fiscal year 1979 over 180 new general interest and educational titles were added to the captioned film library which reached over 4 million deaf children and adults. Captioned news was broadcast five evenings weekly on 146 PBS stations and the closed captioning system was developed to the point of implementation. The Optacon, a device to permit blind persons with training to read ink print continued to be distributed. Development of public awareness programming to create a better understanding of the handicapped continued. During fiscal year 1979 and 1980 it is anticipated that additional TV programming will result in expanded services and that a national information system on media and material for the handicapped will be in full operation. The grant program awarded 32 efforts in the areas of media research, development, demonstration and training for the handicapped. Through the market linkage project 39 products have been licensed for national distribution.

ENABLING LEGISLATION

Education of the Handicapped Act, Title VI, Part F; Public Law 91-230; 20 U.S.C. 1451, 1452, 1453; Public Law 94-142 as amended.

EXAMPLES OF FUNDED PROJECTS

Fiscal year 1979 awards and continuations supported 27 projects covering a broad area of applications. Ten of the projects involved technological innovations supporting media utilization. There were two or more projects in the following areas: the use of media to increase "public awareness," utilization of media to train school personnel, utilization of media in parent education, communication systems development, curriculum adaptations utilizing media, and research into specific uses of media.

PROGRAM DESCRIPTION

To enable cultural organizations and institutions to increase the levels of continuing support and to increase the range of contributors to the programs of such organizations or institutions; to provide administrative and management improvements for cultural organizations and institutions, particularly in the field of long-range, financial planning; to enable cultural organizations and institutions to increase audience participation and appreciation of programs sponsored by such organizations and institutions; to stimulate greater cooperation among cultural organizations and institutions especially designed to better serve the communities in which such organizations or institutions are located; and to foster greater citizen involvement in planning the cultural development of a community.

USES AND USE RESTRICTIONS

Grants are to encourage new and increased sources of contributed income on a continuing basis for cultural institutions including dance, theatre and opera companies, symphony orchestras, museums, regional media centers, community cultural centers, and public television and radio stations. Grants may be used to initiate or add to a cash reserve or endowment, to help eliminate a deficit, to meet increased operating costs, to assist a special one-time project or to provide capital improvements for cultural facilities. Emphasis is placed on the establishment of permanent fund-raising measures that will develop a larger constituency of continuing contributions.

TYPES OF ASSISTANCE

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Grants may be made only to nonprofit organizations if donations to such organizations qualify as a charitable deduction under Section 170(c) of the Internal Revenue Code. This definition includes local governments and State arts agencies. Individuals are not eligible. Cultural organizations or groups of cultural organizations that have demonstrated a commitment to aesthetic quality and have programs of national or regional impact are eligible. It is expected that most recipients will also be grantees receiving continuing support from other programs (44.001 through 45.012) of the Arts Endowment.
BENEFICIARY ELIGIBILITY
Same as Applicant Eligibility.

APPLICATION PROCEDURE

Applicants must request guidelines for this program and appropriate standard application forms (NEA-3, Rev.) from: Challenge Grants Coordinator, National Endowment for the Arts, 2401 E Street, N.W., Washington, DC 20506.

APPROPRIATIONS

(Grants)
Fiscal Year 1979 $30,000,000
Fiscal Year 1980 est. $26,900,000
Fiscal Year 1981 est. $22,000,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE
$30,000 to $1,500,000; $300,000

PROGRAM ACCOMPLISHMENTS

For the first round of Challenge Grants, the Endowment combined its fiscal year 1977 and fiscal year 1978 appropriations in order to award 59 grants benefiting some 75 organizations. These grants are expected to generate some $180 million in new money from other sources. Second round grants totaling up to $30,000,000 were made to 102 organizations. Third round grants are expected to total $26,900,000 and were made to 135 organizations.

PROGRAM DESCRIPTION

To provide grants for projects, including research, professional education, and public awareness in architecture, landscape architecture, urban, interior, fashion, industrial, and environmental design. The program attempts to encourage creativity and to make the public aware of the benefits of good design. Programs for the handicapped can benefit from this grant program as some funded projects focus on barrier free and accessible design. A review of grants made since 1978 revealed that 13 projects were funded which involved barrier free design or design as it relates to living or the arts for handicapped people.

USES AND USE RESTRICTIONS

Grants may be used for projects fostering professional education and development, environmental education, and public awareness, research, and design projects. There are no funds for construction of facilities.

SOCIAL SERVICES FOR LOW INCOME AND PUBLIC ASSISTANCE RECIPIENTS

Program Description

To enable states to provide social services to public assistance recipients and other low income persons directed toward one of the five goals specified in the law.

The grants are administered by the State social services agency which decides the amount of money to be spent, the types of services to be provided, where they will be provided in the State, and the eligibility criteria. The services are directed toward the goals of self-support; self-sufficiency; preventing/remedying neglect, abuse or exploitation of children and adults or reuniting families; community/home based care; and appropriate institutionalization.

Uses and Use Restrictions

Federal funds may be used for the proper and efficient operation of social services programs to enable eligible individuals to become or remain self-supporting and self-sufficient; to prevent neglect, abuse or exploitation of children and adults; to prevent inappropriate institutional care; and to arrange for institutional care, when appropriate.

Title XX funds are not earmarked for the handicapped. Many social services needed by the handicapped fall within the scope of allowable services funded under Title XX including: day care for children and adults, family planning, health-related services, homemaker services, information and referral, legal services, protective services (protective services-adults, protective services-children, protective services-various), recreational services, residential care and treatment, socialization services, transportation, and vocational training, special services-blind, special services-disabled. According to a 1978 tabulation, 28 states provided recreation funded with Title XX funds. Federal funds cannot be used for public education services provided by institutions to their inmates. There are other restrictions with respect to medical care, room and board, day care services, in-kind matching, donated funds, and cash payments as a service. Fees must be charged for services provided to specified income eligible persons.
TYPES of ASSISTANCE

Formula Grants

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Designated Title XX State agencies in the 50 States and the District of Columbia; for Titles I, IV A, X, XIV, and XVI, State welfare agencies in Guam, Puerto Rico, the Northern Marianas, and the Virgin Islands.

BENEFICIARY ELIGIBILITY:
Under Title XX any recipient of Aid to Families with Dependent Children, Supplementary Security Income payment recipients or State supplementary payment recipients as well as low income individuals. Individuals whose gross monthly income exceeds 115 percent of the median income are not eligible for Title XX services. For the other titles in the island jurisdictions, any needy person who is, or may become a recipient of financial assistance, i.e., the blind, aged, permanently and totally disabled, or families with dependent children.

APPLICATION PROCEDURE

Preapplication Coordination: A proposed Comprehensive Annual Services Plan must be approved by the State's designated official and published for public comment at least 90 days prior to the start of the program year. A final plan must be published at least 45 days prior to the start of the program year. Regional office staff are available to assist with technical development of comprehensive annual services plans, State administrative plans, revisions, amendments, etc. It is important for the handicapped to participate in this review process and in the planning for the next program year.

Title XX Applications are made by submitting the required information regarding the Comprehensive Annual Services Plan and an Administrative State Plan. For the Island jurisdictions, application is made in the form of a State Plan, in prescribed HHS format.

APPROPRIATIONS

PROGRAM FOR EDUCATION
OF HANDICAPPED CHILDREN IN STATE OPERATED
OR SUPPORTED SCHOOLS (PUBLIC LAW 89-313)

PROGRAM DESCRIPTION

A program to extend and improve comprehensive educational programs
for handicapped children enrolled in State-operated or State-supported schools.

USES AND USE RESTRICTIONS

Funds may be used for projects providing educational and related
services as needed such as instruction, physical education, mobility
training, counseling, prevocation and vocational education, teacher
and teacher aide training, construction and equipment in State-oper-
ated or State-supported schools or eligible public schools. Restrictions
on the use of these funds include construction and installation
of equipment in nonpublic schools, nonessential construction or
remodeling; or projects predominantly for persons over 20 or
beyond 12th grade.

TYPES OF ASSISTANCE

Formula Grants

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
State agencies are eligible for participation. Local educational
agencies may participate on behalf of children who were formerly
enrolled in State agencies and for at least one school year and
counted in Average Daily Attendance who then left the State agency
to participate in an appropriately designed special education
program at the local level.

BENEFICIARY ELIGIBILITY:
Handicapped children classified by the State, through age 20 and not
having completed grade 12, whose free public education is the
responsibility of the State. Those classifications include children
who are mentally retarded, hard of hearing, deaf, speech impaired,
visually handicapped, seriously emotionally disturbed, orthopedical-
ly handicapped, other health impaired, deaf-blind, specific learning
disabled and multi-handicapped, who by reason thereof require
special education.
APPLICATION PROCEDURE

For agency participation, the State agency must submit the average daily attendance of handicapped children in schools which it operates or supports including the count of those children in local educational programs who were formerly counted for the average daily attendance of the State agency. For project implementation an eligible individual school must submit a project application to its supervising State agency.

APPROPRIATIONS

(Grants)
Fiscal Year 1979	$146,356,000
Fiscal Year 1980 est. $147,851,000
Fiscal Year 1981 est. $156,761,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE:
$238,742 to $17,810,136.

PROGRAM ACCOMPLISHMENTS

This program supports a great variety of educational efforts on behalf of handicapped children in State-operated and State-supported schools. In fiscal year 1979, 222,732 children were served in a total of 3,956 State and 3,049 local agencies; and in fiscal year 1980, 225,500 children will be served in 3,909 State and 3,190 local agencies. It is estimated that in fiscal year 1981, 229,000 children will be served in approximately 3,950 state and local agencies.

PROGRAM DESCRIPTION

The Community Action Agency (CAA) is the prime mechanism for implementing Community Action Programs. The objectives of the CAA are to mobilize and channel the resources of private and public organizations and institutions into antipoverty action; to increase the capabilities as well as opportunities for participation of the poor in the planning, conduct, and evaluation of programs affecting their lives; to stimulate new and more effective approaches to the solution of poverty problems; to strengthen communications, achieve mutual understanding and to strengthen the planning and coordination of antipoverty programs in the community.

USES AND USE RESTRICTIONS

Funds may be used for administrative costs of CAAs, nonprogram staff activities, and locally developed programs which further the objectives of community action. Projects may include community organization; job development, placement, follow-up, and vocational training; direct employment, day care; school age education; adult education; housing services; housing development corporations; medical care; dental care; mental health care; environmental health; consumer action and financial counseling; cooperatives; emergency financial assistance; youth development programs; recreation; energy; narcotics addiction and alcoholism. Technical assistance is also available to communities in developing, conducting and administering programs under Title II and for training specialists or other personnel who are needed with those programs.

TYPES OF ASSISTANCE

Project Grants

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
A CAA must be designated by the State, a political subdivision of the State, or a combination of such political subdivisions or Indian tribal governments. A State or local government (or a combination of subdivisions) may designate itself or another agency which may be either a separate public agency or a private nonprofit organization. The Director of CSA may extend financial assistance for a limited purpose project to a public or private nonprofit agency which he finds is capable of carrying out the project in an efficient and effective manner.
BENEFICIARY ELIGIBILITY:
Low income families and individuals of all ages (as defined by CSA poverty guidelines), in urban and rural areas.

APPLICATION PROCEDURE

Initial application: The applicant initially must have applied for recognition as a CAA under the provisions of 45 CFR 1062. CAA's submit plans and priorities and an application as required by OEO instruction 6710-1, 45 CFR 1067.30 and 45 CFR 1067.40. This program is subject to the provisions of OMB Circular No. A-110 (for applicants other than State or local governments covered by OMB Circular No. A-102).

APPROPRIATIONS

(Grants)
Fiscal Year 1979 $364,500,000
Fiscal Year 1980 est. $383,800,000
Fiscal Year 1981 est. $394,300,000

RANGE AND AVERAGE FINANCIAL ASSISTANCE
$10,000 to $35,000,000; $250,000

PROGRAM ACCOMPLISHMENTS

In fiscal year 1979, there were 895 community action agencies. These agencies serve 2212 of the 3141 counties in the country. Counties served by CAAs contain 75 percent of the nation's general population and 86 percent of its poor. These community action agencies operated a number of programs with Local Initiative funds under their General Community Programming account. The programs include: Program Development, Community Action Agency Planning and Evaluation, Neighborhood Services Systems, Community Organization, and advocacy on behalf of low-income Americans.

To assist States in the provision of comprehensive services to assure that developmentally disabled persons receive services necessary to enable them to achieve their maximum potential through a comprehensive system of services and which insures the protection of their legal and human rights. Recreation can be an integral part of one of the four priority service areas: 1) case management services; 2) child development services; 3) alternative community living arrangement services; and 4) nonvocational social-developmental services, or recreation can be funded as a separate activity with monies above and beyond the 65% of funds reserved for priority services. The State Planning Councils on Developmental Disabilities determine goals and objectives for services.

USES AND USE RESTRICTIONS

Allotments under basic formula grants may be used for State or local planning and administration relating to services and facilities for persons with developmental disabilities, and for providing assistance to public or private non-profit agencies for the delivery of services. Funds for administrative costs may not exceed 5 percent of a State's allotment or $50,000, whichever is less. Allotments for protection and advocacy of rights of persons with developmental disabilities may be used to assist States in effecting a system which will have authority to pursue legal and other remedies to assure protection of rights of the developmentally disabled receiving treatment, services or habilitation within the State.

TYPES of ASSISTANCE

Formula Grants.

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Designated State agencies of the respective States and the District of Columbia, Puerto Rico, Virgin Islands, Guam, Northern Mariana Islands, American Samoa, and Trust Territory of the Pacific Islands; except that designated agencies receiving allotments for protection and advocacy of rights of the developmentally disabled must be independent of any State agency which provides services to the developmentally disabled.
BENEFICIARY ELIGIBILITY
Persons with developmental disabilities attributable to a mental and/or physical disability manifested before age 22 which result in a substantial impairment.

APPLICATION PROCEDURE

The plan prepared jointly by the designated protection and advocacy and basic support State agencies and approved by the Government and the State Planning Council must respectively be submitted to the Administration on Developmental Disabilities of the appropriate HHS Regional Office. Requests for advocacy allotments are submitted on the standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102. Further instruction and guidelines may be obtained from the Administration on Developmental Disabilities in appropriate HHS Regional Offices.

To develop viable urban communities, including decent housing and a suitable living environment, and expand economic opportunities, principally for persons of low and moderate income.

Cities may undertake a wide range of activities directed toward neighborhood revitalization, economic development, and provision of improved community facilities and services. (The Block Grant Program consolidates seven former community development-type categorical programs, including Urban Renewal, Model Cities, Neighborhood Facilities, Open Space Land, Historical Preservation, Urban Beautification, the Basic Water and Sewer Facilities Program, Public Facilities Loans, and Rehabilitation Loans.) Some of the specific activities that can be carried out with block grant funds include acquisition of real property, relocation and demolition, rehabilitation of residential and nonresidential structures, and provisions of public facilities and improvements, such as water and sewer facilities, streets, and neighborhood centers. In addition, block grant funds are available to pay for certain public services which are necessary or appropriate to support other block grant activities. Units of local government may contract with other local agencies or nonprofit organizations to carry out part or all of their programs. Generally, communities are restricted from constructing or rehabilitating public facilities for the general conduct of government and certain community wide facilities, i.e., stadiums, sports arenas, cultural centers, central libraries, convention centers, and from underwriting the cost of constructing new housing, or of making housing allowance or other income maintenance-type payments. Neighborhood-based nonprofit organizations, local development corporations or Small Business investment companies may act as subgrantees to carry out neighborhood revitalization or community economic development projects in furtherance of block grant objectives. Cities have the discretion to design programs and establish priorities for the use of funds, so long as the programs conform to the statutory standards and program regulations. All projects or activities must either principally benefit low and moderate-income persons, and in the prevention or elimination of slums and blight or meet other community development needs having a particular urgency.

Community Development Block Grants (CDBG) Funds are distributed in lump sums to a locality to be spent according to priorities set by that locality. The priorities developed do not automatically include
provisions for handicapped persons so it is important that groups
make their needs known to the appropriate officials. CDBG funds may
be used for construction of, rehabilitation of, and site acquisition
for "centers for the handicapped." The funds may also be used for
the demolition of existing structures, conversion of existing
structures and barrier removal for "centers for the handicapped."
A "center for the handicapped" is defined as "...any single or
multipurpose facility which seeks to assist persons with physical,
mental, developmental and/or emotional impairments to become more
functional members of the community by providing programs or serv-
ces which may include, but are not limited to, recreation, educa-
tion, health care, social development, independent living, physical
rehabilitation and vocational rehabilitation, but excluding any
facility, the primary function of which is to provide residential
care on a 24-hour day basis (such as a group home or halfway house).
For example, a sheltered workshop would be a single purpose center
for the handicapped, and a facility providing several services for
the handicapped would be a multipurpose center for the handicapped,
both of which are eligible for assistance.

Removal of Architectural Barriers: Special projects directed to
the removal of material and architectural barriers which restrict
the mobility and accessibility of elderly or handicapped persons
to publicly owned and privately owned buildings, facilities, and
improvements including residential and non-residential structures.

Rehabilitation of publicly owned or acquired properties for use or
resale in the provision of housing including: a) Permanent housing
units, both single family and multifamily, for rental or sale; and b) Residential facilities, including group homes, halfway
houses, and emergency shelters.

Acquisition by private entities (profit and non-profit) of privately
owned properties for the purpose of rehabilitation or for rehabili-
tation for use or resale in the provision of housing including: a)
Permanent housing units, both single family and multifamily for
rental or sale, and b) Residential facilities, including group homes, halfway houses, and emergency shelters.

TYPES OF ASSISTANCE

ELIGIBILITY REQUIREMENTS
APPLICANT ELIGIBILITY:
Cities of SMSA's with populations in excess of 50,000, "urban coun-
ties," as defined in the Act, and cities with populations of under
50,000 which are central cities in SMSA's are all entitled to
receive amounts of funds determined by a statutory formula. In
addition, other localities which received grants under the urban
renewal and model cities programs will receive "hold harmless"
grants based on their level of prior participation in those programs,
but only through fiscal year 1979.
BENEFICIARY ELIGIBILITY:
The primary beneficiaries with grant recipient government units are low and moderate income residents, (generally defined as families with less than 80 percent of the median family income).

APPLICATION PROCEDURE

Every third year, localities submit a Community Development and Housing Plan and a Housing Assistance Plan. Each year localities submit an Annual Community Development Program, an Annual Housing Action Program, and a series of certifications regarding other Federal requirements.

(Land and Water Conservation Fund Grants)

PROGRAM DESCRIPTION
To provide financial assistance to the States and their political subdivisions for the preparation of comprehensive statewide outdoor recreation plans and acquisition and development of outdoor recreation areas and facilities for the general public, to meet current and future needs. The Land and Water Conservation Fund may also be used to assist in the rehabilitation and modification of existing outdoor recreation facilities to provide for the removal of architectural barriers.

USES AND USE RESTRICTIONS
Acquisition and development grants may be used for a wide range of outdoor recreation projects, such as picnic areas, inner city parks, campgrounds, tennis courts, boat launching ramps, bike trails, outdoor swimming pools, and support facilities such as roads, water supply, etc. Facilities must be open to the general public and not limited to special groups. Development of basic rather than elaborate facilities is favored. Priority consideration generally is given to projects serving urban populations. Fund monies are not available for the operation and maintenance of facilities. Grants are also available to States only for revising and updating existing State outdoor recreation plans, preparation of new plans and for statewide surveys, technical studies, data collection and analysis and other planning purposes which are clearly related to the refinement and improvement of the State outdoor recreation plan.

TYPES OF ASSISTANCE
Project Grants.

ELIGIBILITY REQUIREMENTS
APPLICANT ELIGIBILITY:
For planning grants, only the State agency formally designated by the Governor or State law as responsible for the preparation and maintenance of the Statewide Comprehensive Outdoor Recreation Plan is eligible to apply. (Treated as States in this regard are the District of Columbia, Puerto Rico, the Virgin Islands, American Samoa, and Guam.) For acquisition and development grants, the above designated agency may apply for assistance for itself, or on behalf of other State agencies or political subdivisions, such as cities,
counties, and park districts. Additionally, Indian tribes which are organized to govern themselves and perform the function of a municipal government qualify for assistance under the program. Individuals and private organizations are not eligible.

BENEFICIARY ELIGIBILITY:
The general public. For planning grants, same as Applicant Eligibility.

APPLICATION PROCEDURE

Project proposals are submitted to the Service through the State liaison officer designated by the Governor. The State liaison officer has the initial prerogative of determining acquisition and development project eligibility, priority need, and order of fund assistance within the State.

PROGRAM DESCRIPTION

Federal grants to economically hard pressed communities specifically for the rehabilitation of critically needed recreation areas, facilities, and the development of improved recreation programs for a period of five years.

USES AND USE RESTRICTIONS

Rehabilitation grants are matching capital grants (70 percent Federal-30 percent local) to local governments for the purpose of rebuilding, remodeling, expanding, or developing existing outdoor or indoor recreation areas and facilities. Funds may be used to improve parks, buildings, and support facilities. Funds may not be used for acquisition. Innovation grants are matching grants (70 percent Federal-30 percent local) to local governments to cover costs of personnel, facilities, equipment, supplies or services designed to demonstrate innovative and cost-effective ways to enhance park and recreation opportunities at the neighborhood level. Innovation grant funds may be used to address common problems related to facility operations and the delivery of recreation services. These funds may not be used for routine operation and maintenance activities. Innovation grant awards nationwide are limited to ten percent of the total annual authorization for the Urban Park and Recreation Recovery program. Recovery action program grants are matching grants (50 percent Federal-50 percent local) to local governments for the development of local park and recreation system recovery plans. Eligible activities include resource and needs assessment, coordination of citizen involvement and planning, and program development activities to encourage public definition of goals. Recovery action program grants are chiefly intended to assist local efforts to develop priorities and strategies for overall recreation system recovery. State, local and private funds may be used as the non-Federal share of project costs. In addition, two types of Federal funds may be used as part of a local match: General Revenue Sharing (Treasury Department) and Community Development Block Grant (CDBG) program funds (Department of Housing and Urban Development). Section 1009 of the UPARR Act prohibits use of any other type of Federal grant to match UPARR grants. All properties assisted through this program must be open to the public.

The removal of architectural barriers in existing recreation facilities is an allowable use of these monies provided that it takes place as part of the general rehabilitation process. A Congressional directive has requested that the 1980 funds for innovative
grants consider projects for the handicapped, elderly, and the conversion of vacant and unused facilities into recreation centers.

TYPES OF ASSISTANCE

Project Grants (rehabilitation of existing indoor and outdoor recreation facilities), (demonstration of innovative ways to enhance park and recreation opportunities), (development of recreation plans, recovery action programs.)

ELIGIBILITY REQUIREMENTS

APPLICANT ELIGIBILITY:
Eligible applicants are cities and counties meeting the eligibility requirements and listed in the October 9, 1979, Federal Register. Eligibility is based on need, economic and physical distress, and the relative quality and condition of urban recreation facilities and systems. Jurisdictions which are located within standard metropolitan statistical areas that are not on the eligibility listing may apply for funds provided that these grants are in accord with the intent of the program. These funds are limited to 15 percent of the funds available annually for rehabilitation, innovation and recovery action program grants.

BENEFICIARY ELIGIBILITY:
Same as Applicant Eligibility; the general public.

APPLICATION PROCEDURE

Preapplication shall be submitted to the appropriate HCRS Regional Office by the chief executive officer of the applicant jurisdiction (project applications come through the local mayor's office). Only basic information should be submitted at this time. The preapplication must include those items as set forth in the Preapplication Handbook available from any HCRS Regional Office.

APPROPRIATIONS

(Grants)
Fiscal Year 1979 $ 20,000,000
Fiscal Year 1980 est. $125,000,000
Fiscal Year 1981 est. $125,000,000

RANGE AND AVERAGE OF FINANCIAL ASSISTANCE: Rehabilitation Grants, $12,500 to $2,100,000; Innovation Grants, $7,000 to $69,800; Recovery Action Program Grants, $3,350 to $175,000.

ENABLING LEGISLATION

EXAMPLES OF FUNDED PROJECTS

The projects described here were funded as "Innovation" Grants: a) a project involving the comprehensive development of park/recreation facilities for the handicapped and senior citizens was funded. It included features such as an outdoor exercise wheel course, an herbal sensory garden, play areas, and passive facilities; b) a project developing an outdoor recreation area for the elderly and blind was funded; c) in another project raising vegetables and flower beds for the handicapped and elderly were proposed; d) a project was funded to construct a playground which would serve as a demonstration of mainstreaming. The proposal suggested a playground sufficiently challenging for nonhandicapped children yet functional for the handicapped children as well.
