This resource guide for the use of job aids ("how-to-do-it" guidance) for activities identified in the third phase of the Instructional Systems Development Model (ISD) contains an introduction to the use of job aids, as well as descriptive authoring flowcharts for Blocks III.1 through III.5. The introduction includes definitions; descriptions of classification systems and flowchart symbols; instructions for using the Job Aid Manual; a description of the Job Aids Resource Manual; an explanation of the reporting system; information on the use of field surveys and panels; and an example of a closed form questionnaire together with the procedures for its administration. A flowchart is provided for each of the five activities in Phase III--DEVELOP: (1) specification of learning events/activities, (2) specification of instructional management plan and delivery system, (3) review and selection of existing materials, (4) development of instruction, and (5) validation of instruction. (LLS)

### Key Words
- Instructional Systems Development
- Author Aids
- Job Aids
- Training Development

### Abstract
The purpose of the research was to develop job aids ("How to do it" guidance) for the activities identified in the Instructional Systems Development Model (ISD, TRADOC Pamphlet 350-30). Job aids are available for each of the five phases of the ISD model - ANALYZE, DESIGN, DEVELOP, IMPLEMENT, and CONTROL. Each job aid is composed of a Descriptive Authoring Flowchart and a Job Aid Manual. This volume, covering Phase III-DEVELOP, contains an introduction to the use of the Job Aids and the Descriptive Authoring Flowcharts for Blocks III.1 through III.5. The supplementary Job Aid Manuals for Phase III are available for each phase.
20. available in a companion document.
The Computer-Based Instructional Systems Team of the US Army Research Institute for the Behavioral and Social Sciences performs research and development in the area of educational technology that applies to military training. Of interest are methods for training individuals to develop and utilize instructional courseware in reasonable time, at acceptable cost. ARI research in this area is conducted under Army Project 2Q263743A794, FY 80 Work Program.

This Research Product is one of a series of 10 volumes designed to provide guidance on the application of the Instructional Systems Development model. The work was accomplished by Mr. Ruscel E. Schulz and Mrs. Jean R. Farrell, Human Resources Research Organization, Contract No. DAHC19-78-C-0010 and personnel of the ARI Manpower and Educational Systems Technical Area. Personnel from the Directorates of Training Development at Ft. Belvoir, VA and Ft. Gordon, GA provided assistance in the evaluation of the work.

JOSEPH ZEIDNER
Technical Director
 JOB AIDS: DESCRIPTIVE AUTHORING FLOWCHARTS FOR PHASE III-DEVELOP OF THE INSTRUCTIONAL SYSTEMS DEVELOPMENT MODEL

BRIEF

Requirement:

To develop a series of job aids for the activities identified in the Instructional Systems Development Model (ISD, TRADOC Pamphlet 350-30).

Procedure:

A series of job aids were designed and developed for each of the five phases of the ISD model: ANALYZE, DESIGN, DEVELOP, IMPLEMENT, and CONTROL. Each job aid is comprised of Descriptive Authoring Flowcharts and a Job Aid Manual which provide specific guidance, examples, and references necessary to produce the product specified by the ISD block it covers.

Utilization:

These job aids will be used by military training personnel in meeting the requirements of the ISD model.
# Job Aids: Descriptive Authoring Flowcharts for Phase III - Develop of the Instructional Systems Development Model

## Contents

| Introduction to the Use of Job Aids and Job Aid Resource Manual | vi |
| Job Aids: Descriptive Authoring Flowcharts | |
| ISD III.1 Specify Learning Events/Activities | I-1 |
| Job Aids: Descriptive Authoring Flowcharts | |
| ISD III.2 Specify Instructional Management Plan and Delivery System | J-1 |
| Job Aids: Descriptive Authoring Flowcharts | |
| ISD III.3 Review/Select Existing Material | K-1 |
| Job Aids: Descriptive Authoring Flowcharts | |
| ISD III.4 Develop Instruction | L-1 |
| Job Aids: Descriptive Authoring Flowcharts | |
| ISD III.5 Validating Instruction | M-1 |

- How are CODAP Reports Obtained? .......................................................... 21
WHAT ARE JOB AIDS?

- Job Aids are intended to be stand-alone, step-by-step procedural guides which we hope will permit you to turn out quality instructional products quickly and easily. We also hope that they will be equally useful to individuals at all experience levels of the instructional systems development process.

- Job Aids are intended to address real needs. Prior to the development of the Job Aids, instructional technology personnel (individuals like yourself) at the U.S. Army Signal Center and the U.S. Army Engineer School were surveyed to determine specific ISD needs—those areas in which they had the greatest need for assistance and information. Emphasis was placed on satisfying these needs in the development of the Job Aids.

- Job Aids use the same classification system for identifying the activities that must be performed in instructional systems development (ISD) as does TRADOC Pamphlet 350-30 (Interservice Procedures for Instructional Systems Development).

WHAT IS THE CLASSIFICATION SYSTEM USED IN TRADOC PAMPHLET 350-30 AND JOB AIDS?

- TRADOC Pamphlet 350-30 suggests that instructional systems development be conducted in five phases:
  - Analyze
  - Design
  - Develop
  - Implement
  - Control

- For those of you who are unfamiliar with TRADOC Pamphlet 350-30 we suggest you read the brief description of each phase of the ISD process as shown in Table 1. In the TRADOC Pamphlet each ISD phase is divided into specific activities called ISD blocks. Table 2 shows these ISD blocks and Table 3 shows the outcome of each block.

- Job Aids cover the activities required for the first three phases of the TRADOC Pamphlet (i.e., Analyze, Design, and Develop instructional systems). The Aids cover each ISD block within these phases except for ISD Block 1.1, Analyze Job,
Table 1

FIVE PHASES OF INSTRUCTIONAL SYSTEMS DEVELOPMENT (ISD)

THE FIVE PHASES ARE:

**PHASE I: ANALYZE**
Inputs, processes, and outputs in Phase I are all based on job information. An inventory of job tasks is compiled and divided into two groups: tasks not selected for instruction and tasks selected for instruction. Performance standards for tasks selected for instruction are determined by interview or observation at job sites and verified by subject matter experts. The analysis of existing course documentation is done to determine if all or portions of the analysis phase and other phases have already been done by someone else following the ISD guidelines. As a final analysis phase step, the list of tasks selected for instruction is analyzed for the most suitable instructional setting for each task.

**PHASE II: DESIGN**
Beginning with Phase II, the ISD model is concerned with designing instruction using the job analysis information from Phase I. The first step is the conversion of each task selected for training into a terminal learning objective. Each terminal learning objective is then analyzed to determine learning objectives and learning steps necessary for mastery of the terminal learning objective. Tests are designed to match the learning objective. A sample of students is tested to insure that their entry behaviors match the level of learning analysis. Finally, a sequence of instruction is designed for the learning objectives.

**PHASE III: DEVELOP**
The instructional development phase begins with the classification of learning objectives by learning category so as to identify learning guidelines necessary for optimum learning to take place. Determining how instruction is to be packaged and presented to the student is accomplished through a media selection process which takes into account such factors as learning category and guideline, media characteristics, training setting criteria, and costs. Instructional management plans are developed to allocate and manage all resources for conducting instruction. Instructional materials are selected or developed and tried out. When materials have been validated on the basis of empirical data obtained from groups of typical students, the course is ready for implementation.

**PHASE IV: IMPLEMENT**
Staff training is required for the implementation of the instructional management plan and the instruction. Some key personnel must be trained to be managers in the specified management plan. The instructional staff must be trained to conduct the instruction and collect evaluative data on all of the instructional components. At the completion of each instructional cycle, management staff should be able to use the collected information to improve the instructional system.

**PHASE V: CONTROL**
Evaluation and revision of instruction are carried out by personnel who preferably are neither the instructional designers nor the managers of the course under study. The first activity (internal evaluation) is the analysis of learner performance in the course to determine instances of deficient or irrelevant instruction. The evaluation team then suggests solutions for the problems. In the external evaluation, personnel assess job task performance on the job to determine the actual performance of course graduates and other job incumbents. All collected data, internal and external, can be used as quality control on instruction and as input to any phase of the system for revision.
Table 2

ISD BLOCKS IN EACH OF THE FIVE ISD PHASES

THE BLOCKS IN EACH PHASE ARE:

PHASE I
1.1 ANALYZE JOB
1.2 SELECT TASKS/FUNCTIONS
1.3 CONSTRUCT JOB PERFORMANCE MEASURES
1.4 ANALYZE EXISTING COURSES
1.5 SELECT INSTRUCTIONAL SETTING

PHASE II
1.2 DEVELOP TESTS
1.3 DESCRIBE, ENTRY BEHAVIOR
1.4 DETERMINE SEQUENCE & STRUCTURE

PHASE III
1.1 SPECIFY LEARNING EVENTS/ACTIVITIES
1.2 SPECIFY INSTRUCTION MANAGEMENT PLAN & DELIVERY SYSTEM
1.3 REVIEW/SELECT EXISTING MATERIALS
1.4 DEVELOP INSTRUCTION
1.5 VALIDATE INSTRUCTION

PHASE IV
1.1 IMPLEMENT INSTRUCTIONAL MANAGEMENT PLAN
1.2 CONDUCT INSTRUCTION

PHASE V
1.1 CONDUCT INTERNAL EVALUATION
1.2 CONDUCT EXTERNAL EVALUATION
1.3 REVISE SYSTEM
THE OUTCOMES OF THE BLOCKS ARE:

I
1. a list of tasks performed in a particular job.
2. a list of tasks selected for training.
3. a job performance measure for each task selected for instruction.
4. an analysis of the job analysis, task selection, and performance measure construction for any existing instruction to determine if these courses are usable in whole or in part.
5. selection of the instructional setting for task selected for instruction.

II
1. a learning objective for and a learning analysis of each task selected for instruction.
2. test items to measure each learning objective.
3. a test of entry behaviors to see if the original assumptions were correct.
4. the sequencing of all dependent tasks.

III
1. the classification of learning objectives by learning category and the identification of appropriate learning guidelines.
2. the media selections for instructional development and the instructional management plan for conducting the instruction.
3. the analysis of packages of any existing instruction that meets the given learning objectives.
4. the development of instruction for all learning objectives where existing materials are not available.
5. field tested and revised instructional materials.

IV
1. documents containing information on time, space, student and instructional resources, and staff trained to conduct the instruction.
2. a completed cycle of instruction with information needed to improve it for the succeeding cycle.

V
1. data on instructional effectiveness.
2. data on job performance in the field.
3. instructional system revised on basis of empirical data.
WHAT SOURCES OF INFORMATION WERE USED IN THE DEVELOPMENT OF JOB AIDS?

- Job Aids are not just a re-hash of TRADOC Pamphlet 350-30. We use the same classification system for ISD phases and the blocks within the phases as does the TRADOC Pamphlet. However, the guidance and information provided in the Job Aids come from a variety of sources, the TRADOC Pamphlet being only one such source. We have gathered information from any source that we could locate. If the information was judged to be good it was included in the Job Aids. In some instances the information in the Job Aid is based solely on the educational technology experience of the project staff.

- It is not within the scope of this Introduction to list all sources of information examined or used in the development of the Job Aids. However, in addition to TRADOC Pamphlet 350-30 examples of other sources of information would include the following types:
  - TRADOC Circulars
  - DA Pamphlets
  - Printed Guidance prepared by TRADOC Schools (e.g., U.S. Army Signal Center)
  - Army Research Institute Documents
  - HumRRO publications
  - Other military and civilian agencies
WHAT JOB AIDS ARE PRESENTLY AVAILABLE AND WHAT DO THEY CONSIST OF?

- There are thirteen Job Aids presently available. Each Job Aid is comprised of two documents. A brief description of each is provided below: (A complete description of how to use each is given on the pages that follow.)
  
  - Descriptive Authoring Flowcharts. The Descriptive Authoring Flowcharts (usually referred to as Flowchart Manuals) are the primary documents used in the Job Aids. They direct the user to specific guidance, examples and references provided in the Job Aid Manuals.
  
  - Job Aid Manuals. As stated above, the Job Aid Manuals provide the specific guidance, examples and references necessary to produce the product specified by the ISD Block they cover. In addition, each Job Aid Manual contains one or more Worksheets to use in the development of the product.
  
- Another important part of the Job Aids package is of course the document you are presently reading, Introduction to the Use of Job Aids and Job Aid Resource Manual.

- The specific Job Aids available are: (Flowchart Manual and Job Aids Manual for each).
  
  - Job Aid for Selecting Tasks for Training (ISD I.2)
  - Job Aid for Conducting Task Analysis (ISD I.3)
  - Job Aid for Analyzing Existing Courses (ISD I.4)
  - Job Aid for Selecting Instructional Settings (ISD I.5)
  - Job Aid for Developing Objectives (ISD II.1)
  - Job Aid for Developing Tests (ISD II.2)
  - Job Aid for Describing Entry Behavior (ISD II.3)
  - Job Aid for Determining Sequence and Structure (ISD II.4)
  - Job Aid for Specifying Learning Events and Activities (ISD III.1)
  - Job Aid for Specifying Instructional Management Plan and Delivery System (ISD III.2)
  - Job Aid for Review and Selection of Existing Materials (ISD III.3)
  - Job Aid for Developing Instruction (ISD III.4)
  - Job Aid for Validating Instruction (ISD III.5)
WHAT ARE THE MAIN PARTS OF THE FLOWCHART MANUAL?

- Scan through a few pages of your Flowchart Manual. Observe the following:
  - Flowchart symbols used
  - Instructions or questions within the flowchart symbols
  - Supplemental information opposite most of the flowchart symbols
  - Flowchart block and page numbering system

- For a complete description of each of the main parts of the Flowchart Manual see the pages that follow.
WHAT FLOWCHART SYMBOLS ARE USED IN THE FLOWCHART MANUAL?

- Flowchart Symbols

Only five symbols are used in the Flowchart Manual. These symbols and the instructions within them act as a road map to lead you step-by-step through the process of developing your particular product. We believe that after you have gotten used to using the Flowchart Manual you will find it a very useful control document. The five symbols used are as follows:

Start-Stop Symbol — Indicates either the start or stop of the activities called for in the Flowchart Manual.

Decision Symbol — Indicates that you must make a decision at this point which will determine the path that you take thru the Flowchart Manual.

Manual Symbol — Indicates that you are to refer to the Job Aid Manual for specific additional guidance or instruction shown in the symbol.

Rectangle Symbol — Indicates an activity that must be performed but does not require specific additional guidance or instruction in the Job Aid Manual. (In some cases the user is given the option of going to the Job Aid Manual to see a completed example of the activity called for in the rectangle symbol).

Go To Symbol — Indicates a branch to some other flowchart block. The branch will either be to a previously encountered block or will jump you over blocks that can be omitted.
WHAT INSTRUCTION IS PROVIDED WITHIN THE FLOWCHART SYMBOLS?

- Each flowchart symbol except the Decision Symbol contains a brief statement of the activity that you are to perform. If this activity requires the completion of part of a Worksheet the specific part of the Worksheet will be identified (remember, each Job Aid includes one or more Worksheets). Decision blocks always contain a question that can be answered with a yes or no answer. The branch you take after the decision block will depend upon your answer.
WHAT IS THE PURPOSE OF THE SUPPLEMENTAL INFORMATION PROVIDED IN THE FLOWCHART MANUAL?

The supplemental information that is located beside most of the flowchart symbols serves the following purposes:

- Provides a more complete description of the steps or activities that must be performed in the ISD Block you are working in than does the flowchart itself.

- Refers you to specific pages within the Job Aid Manual for specific guidance, examples and references needed for completing the activity called for in the flowchart block. (This is associated with the Manual symbol.)

- For some flowchart blocks (rectangle symbol) examples of the completed activity are shown in the Job Aid Manual. The supplemental information indicates the specific page in the Job Aid Manual containing the example. However, the user has the option of going to the Job Aid Manual to see the example. (The Manual symbol, on the other hand, requires the user to go to the Job Aid Manual.)

- Acts as an executive summary which will allow commanders and supervisors to obtain a picture of the activities required by the Job Aid without reading the entire Job Aid Manual.

WHAT IS THE FLOWCHART BLOCK AND PAGE NUMBERING SYSTEM?

The flowchart block and page numbering system is as follows:

- Flowchart blocks are numbered so that they can be easily referred to.

- The page numbers in each of the 13 Flowchart Manuals are preceded by an identifying letter unique to a specific ISD Block. (E.g., The Flowchart Manual pages for ISD Block L2 go from A-1 to A-15 whereas for ISD Block 1.3 the Flowchart Manual pages go from B-1 to B-15.) This same page numbering system is also used in the Job Aid Manuals.
How do I use the Job Aid Manual and what are the main parts of it?

- It is unlikely that you will need to refer to every page in the Job Aid Manual. As previously stated, the Job Aid Manuals are used as supplements to the Flowchart Manuals that direct you to specific pages within the Job Aid Manuals. Therefore, do not attempt to use the Job Aid Manuals independently of the Flowchart Manuals.

- Scan through a few pages of your Job Aid Manual. Observe the following:
  - Partial flowcharts shown at the top of pages
  - Questions written in script that appear on most pages
  - Completed, or partially completed examples of Worksheets

What is the purpose of the partial flowcharts at the top of some pages of the Job Aid Manual?

- When you are referred to the Job Aid Manual you will find a partial flowchart at the top of the Job Aid Manual page. You are to remain working with the Job Aid Manual until you come to another partial flowchart. Then return to the Flowchart Manual.

- The partial flowcharts are identical to those shown in the Flowchart Manual. They serve as an additional reminder of the activity being dealt with at the moment.
WHAT IS THE PURPOSE OF THE QUESTIONS WRITTEN IN SCRIPT THAT APPEAR ON SOME PAGES OF THE JOB AID MANUAL?

- The questions written in script are our way of telling you what follows. They highlight such things as:
  - The purpose of performing a certain activity
  - How the activity is performed
  - What sources are available for performing the activity and how good they are
  - What the Worksheet looks like after the activity is performed

WHAT IS THE PURPOSE OF THE COMPLETED OR PARTIALLY COMPLETED EXAMPLES OF WORKSHEETS?

- As previously stated, every Job Aid Manual uses one or more Worksheets (located in a pocket at the back of the Manual). The Worksheets permit you to produce (and document) the product called for in the ISD Block.

- Whenever you are required to make an entry on a Worksheet an example of that type of entry will be shown in the Job Aid Manual and will usually be circled so as to make it stand out. It is hoped that these examples will give you a clear idea of what is required on the Worksheet.
WHAT DOES THIS ALL MEAN AND WHAT DO I DO NOW?

- In this Introduction we have attempted to explain the following:
  - What Job Aids are
  - The classification system (ISD Phases and Blocks) used in the Job Aids
  - Sources of information used in the development of Job Aids
  - Job Aids presently available
  - A description of Flowchart Manuals
  - A description of Job Aid Manuals

- If you feel that you have an adequate understanding of the above, return to the Flowchart Manual now. You will be referred to specific pages in the Resource Manual (the remainder of this document) as you need the information contained in them. Do not attempt to read the Resource Manual now.

RETURN TO THE FLOWCHART MANUAL NOW
HOW CAN THE RESOURCE MANUAL HELP ME?

The purpose of this resource manual is to assist you in the formation of a data-based system for decision making in the Analysis Phase of the Instructional Systems Development (ISD). In order to make logical and objective decisions based on conditions and needs in the field, you must collect, organize, analyze, and document job significant data (information). Such data includes many specifics under the broad categories of job background data, target population data, and critical task data. The specifications of specific data requirements and sources of this data should be part of the overall Job Analysis Plan.
There are many sources of data to support a job analysis. These sources include such things as:

- Technical Manuals
- Field Manuals
- Army Regulations
- Circulars and Phamplets
- Programs of Instruction
- Soldier's Manuals
- Previous Task Lists
- Documentation from the Systems Engineering Era
- Reports from outside agencies, i.e., Army Research Institute, HumRRO, and other military and civilian research organizations.
- Internal Research Reports
- Tables of Organization and Equipment and Tables of Distribution and Allowances
- Civilian Publications (technical journals and professional publications)
- Equipment Modification Work Orders
- CODAP (Comprehensive Occupational Data Analysis Programs)
- Field Surveys
- Panels of Experts

**WHICH SOURCES OF DATA ARE INCLUDED IN THE RESOURCE MANUAL?**

Each of the sources listed is useful for fulfilling specific needs in the Analysis Phase of ISD. The Job Analysis Plan should specify exactly which items of data will be needed and the recommended source(s) for each item. In this way all the data can be accessed and ready for use as soon as it is needed. The last three sources on the list, CODAP, Field Surveys, and Consensus Groups or Panels, are frequently cited in the Job Aids for specific items of information. How to use these sources is the subject of this manual.
To provide personnel managers and training managers with the reliable job data needed for job and task analysis, the Deputy Chief of Staff for Personnel has selected the occupational survey questionnaire for data collection and CODAP (Comprehensive Occupational Data Analysis Programs) as the system for processing, reporting, and analyzing this data. The combination of questionnaire and CODAP is currently being used by all the U.S. Armed Forces to support their occupational survey and job analysis efforts. This automated data system provides information in such areas as: duties and tasks performed by job and duty incumbents; types of equipment, tools, and vehicles used and maintained; special skills and knowledge which must be met by job incumbents; quality and quantity of training received or required; physical and mental demands; and special items pertaining to personal and job background information, work environment, and job satisfaction.
Whenever data has already been prepared by CODAP it should be used in preference to school conducted surveys in order to prevent duplication of effort. CODAP has the capability of supplying all your data needs. It is the responsibility of each Army service school to initially provide the Army Occupational Survey Program with the input it must have to supply your job analysis needs, and also to develop a job analysis plan which allows sufficient time to access the necessary data.

Of particular use in job analysis are Group Summary Reports. The Job Aids suggest that you obtain these reports for documenting such information as: tasks performed in each duty position (ask for GPSUM6 report for your MOS), and percentage of soldiers in the skill level performing each task (ask for GPSUM 2).* Given sufficient lead time CODAP can also make up special reports to provide ratings on task selection factors such as, time to train OJE, consequences of inadequate performance, and probability of emergency performance (ask for FACSUM report).

**HOW ARE CODAP REPORTS OBTAINED?**

In order to obtain CODAP data you should first check with your supervisor to see if the information you need has already been accessed. If it has not, write to:

Commander  
US Army Military Personnel Center  
ATTN: DAPC-MSP-D  
2641 Eisenhower Avenue  
Alexandria, VA 22311

or call:

325-9272/9493 (AUTOVON 221-9272/9493).

Allow at least three weeks for the reports to arrive at your school. The necessary lead time could be much longer if you are requesting special information which CODAP has not yet collected. It is recommended that you obtain the two official guides from MILPERCEN: the US Army Military Occupational Data Bank, and the US Army Occupational Survey Program.

*Keep in mind that these percentages are based on the peacetime conditions in which soldiers are presently being surveyed. Adjustments should be made for combat tasks.
FIELD SURVEYS
WHAT IS A FORMAL FIELD SURVEY?

A formal field survey is similar to the type of questionnaire survey conducted by the Army Occupational Survey Program, only it is conducted by instructional development personnel within an Army service school.

The use of questionnaires permits the job analysis team to make limited contact with large numbers of personnel; thus large amounts of information can be collected at a relatively low cost. Questionnaires can be mailed to personnel who are asked to complete and return them, or they can be administered to groups of job incumbents and/or supervisors by local personnel who have the responsibility and authority to make sure all questionnaires are completed and returned.

WHEN SHOULD FORMAL FIELD SURVEYS BE USED?

Whenever time does not allow you to access information from the Army Occupational Survey Program, an alternate data collection method may be used. Formal field surveys are suggested as an alternate data source in the ISD Job Aids. Should you decide to conduct a formal field survey be sure to obtain permission from MILPERCEN in accordance with the guidelines in AR 600-46.
Types of Questionnaires

There are two types of questionnaires, the closed form and the open form. We suggest using the closed form, which contains a list of possible items to be selected or blanks to be filled in with words or numbers. (For an example of a closed form questionnaire, see Appendix A.) This form has several advantages over the other alternative, the open form. It is likely to take a minimum amount of time to fill out, thus increasing the chances that it will be completed and returned. The process of tabulating and summarizing responses is simpler and less time consuming than with an open form questionnaire. Machine tabulation and computer analysis of the completed forms are practical when a large number of questionnaires is used.

A properly designed closed form questionnaire is difficult to prepare. The designer must be sure to include all possible responses expected from any of the soldiers who will complete the questionnaire. The items must be constructed on the form so that they clearly communicate to the user exactly what the designer is trying to ask. The greatest single problem with research methods is improperly worded questionnaires, as they produce faulty data. If you intend to design your own questionnaires we suggest consulting the following guides:

Jacobs, T.O. Developing questionnaire items: how to do it well. Human Resources Research Organization (HumRRO), 300 North Washington Street, Alexandria, Virginia 22314.
The details of the forms you use will be determined by:

1. how you will tabulate and summarize the results, and
2. what information you wish to collect.

How you will tabulate and summarize results will be determined by whether you have available a computer and other automated data handling equipment and by the number of people surveyed. To determine what information you wish to collect, you should consider the total data requirement for the training development process. These data requirements should be predetermined in the job analysis plan so that as much information as possible can be obtained in a single questionnaire survey effort.

One note of caution about the design of your questionnaire is that you should keep the questionnaire as short as practical. In general, the forms should be designed so they can be completed in two hours or less. One way you can save time on a complex task inventory is to list all tasks under their appropriate duty position title. This will permit the soldier to rapidly scan groups of tasks not performed and then proceed to the next duty position.

**WHAT TYPE OF INSTRUCTIONS FOR COMPLETING AND ADMINISTERING THE QUESTIONNAIRES SHOULD BE PREPARED?**

After the formal field survey questionnaires have been written, the instructions for completing and administering the questionnaires should be prepared. These instructions should include:

- For the user
  - an introduction explaining the purpose and importance of participating in the field survey.
  - general instructions explaining how the questionnaire is to be completed.

- For the project officer
  - general instructions regarding responsibilities.

(When questionnaire is not self-administered)
  - specific instructions for administering the questionnaire in a controlled environment.

For examples of these types of instructions, see Appendix B.
You are now ready to select organizations and individuals to provide you with the
needed job data. The complexity of the MOS, the availability and quality of published
sources of job information, and the number of people in the particular job will determine
how much and what kinds of information you need to collect. This will strongly
influence the make-up and size of your sample. If the complexity and amount of required
data are great, the number of organizations and individuals interviewed will increase. As
a general rule, your survey sample should be as large as possible. This is particularly true
if you do not have personnel available with the responsibility and authority to assure that
most of your questionnaires will be completed. You should make an attempt to obtain a
sample that represents the distribution of individuals in the MOS according to command
and skill level. Review of personnel records, either by personnel employees, members of
your job analysis team, or your field representatives who will conduct the survey will be
required to obtain data upon which to base choices for your survey.

- In selecting UNITS for sampling, you should select units that:
  1. have at least a small number of job holders and supervisors who do the
     particular job to be analyzed. Preferably, you should choose some units
     that have a relatively small number of job holders, and some that have
     large numbers.
  2. are geographically and environmentally representative.

- In selecting INDIVIDUALS within the units, you should select a group made up
  of individuals who:
  1. perform and supervise the job being analyzed
  2. perform with average satisfactory proficiency
  3. are representative in terms of length of time on the job
  4. are representative in terms of training.

For certain types of information you will also want to choose at least a few job holders or
supervisors who are acknowledged experts at the job.
HOW IS A QUESTIONNAIRE SURVEY CONDUCTED?

- **Trial Run (Validation of Instruments)**

Before sending out the total number of questionnaires you intend using, you may wish to send out a small number. This will permit you to check the initial results and possibly make some changes in your questionnaires or instructions. Then you will send out what you hope will be the total number of questionnaires required.

- **Group Administration**

The ideal way to administer questionnaires is group administration. Where the local responsible official and his assistants schedule the administration he should do the following:

- Make certain that only eligible individuals are seated in the administration area
- Read the administrative instructions
- Provide any necessary assistance in completing the questionnaires
- Return the completed questionnaires to the school

- **Individual Administration**

Often, particularly with individuals at remote stations, group administration is impractical. In these cases, it is sometimes effective to send the questionnaires to a responsible officer and request that they be returned by a reasonable suspense date. Careful attention should be paid to the instructions for administration or self-administration. If your command has no authority to require that a suspense date be met, then you must either obtain the concurrence of a command with that authority, or be willing to accept a reduced percentage return.

- **Return of Questionnaires**

How much confidence can you have in the validity of your questionnaire if you get less than a 100 percent return? Less and less confidence can be expected with each reduction in the percentage returned. What can you do if you are not satisfied with the percentage of returns of the questionnaires? We suggest you try the following:

1) Send out more forms to different people and hope for better results.
2) Recontact some of the first sample and try to encourage them to return the questionnaires.
3) Visit a random sample of those who did not respond and compare their forced responses with the voluntary responses. Then you and your supervisors will have to decide how much chance you are willing to take that the data you have received presents a sufficiently accurate picture of the job as it really exists.
PANELS
WHAT IS A PANEL OF EXPERTS?

With this method, a group of personnel, selected for their experience and knowledge of the job, is brought together to confer about the required job analysis data. Panels may be made up of one or more of the following types of members:

1) Subject Matter Experts (SMEs)
   These are personnel found at your school who are acknowledged experts in the tasks, duty positions or MOS you are analyzing. They may be found among instructors or ISD personnel who hold the MOS. SMEs may or may not have had recent field experience.

2) Job Incumbents
   This group includes those who are presently holding the jobs/performing the tasks/you are interested in, or who have recently held the jobs. The more recent the better. More than three years away from the field would disqualify a potential panel member.

3) Job Supervisors
   This group includes those who are presently or have recently (within the past three years) supervised soldiers in the jobs/tasks you are interested in.

Job incumbents and job supervisors may be found on the post where your school is located or at other locations. Check the TOEs and TOAs to find out where personnel may be assigned. While personnel assigned to your post are most conveniently assembled, they may not be completely representative of job incumbents/supervisors serving in other locations. Also, they probably have been heavily burdened by school surveys, panels, etc., already due to their proximity to the school. Therefore, personnel from other locations may have to be used.
WHEN IS A PANEL USED?

Panels of experts are a good alternate data source when:

- CODAP is not available
- time and funds are inadequate for conducting a field survey
- the type of information required can be reliably provided by a small group

WHEN ARE SUBJECT MATTER EXPERTS USED?

With this method, a group of highly experienced personnel is brought together to record and organize the required job analysis data. This method is particularly useful in collecting job data on new jobs or on managerial and supervisory jobs where many of the most critical behaviors are not directly observable. Since the members of a panel of SMEs are experts in the MOS being analyzed, their collective effort should be decisions about the requirements of the job. In general, their greatest effectiveness is in evaluating and making decisions about job data that have been collected from other sources by other means.

WHEN ARE RECENT JOB INCUMBENTS AND/OR SUPERVISORS USED?

With this method, a group of job incumbents, job supervisors, or a combination of these, is brought together to provide information about their jobs. The primary function of this type of panel is to provide information about their jobs, not to make decisions. Another name for this type of panel is Consensus Group.

HOW IS A PANEL ASSEMBLED?

The panel is a relatively inexpensive and easy approach to collecting data. Three to seven persons is the number recommended to make up the panel. Whenever possible, you want panel members to be representative of different locations and types of units in the field. While many experts may be available within your school it is critical that their views be balanced by those of persons serving presently or recently in the field. If all of the panel members come from schools, there may be a tendency for the outcome to reflect what exists in training rather than what actually exists on the job.
Appendix A

EXAMPLE OF A CLOSED FORM QUESTIONNAIRE
### JOB INVENTORY

**DUTY-TASK LIST**

1. Check tasks you perform now (✓).
2. Add any tasks you do now which are not listed.
3. In the “Time Spent” column, rate checked (✓) tasks on time spent in your present job.

#### Time Spent Scale:

IF A TASK THAT YOU PERFORM IS NOT LISTED ANYWHERE IN THE ENTIRE LIST, WRITE IT IN THE BLANK SPACES BELOW.
Appendix B

ADMINISTRATIVE PROCEDURES
FOR
CLOSED FORM QUESTIONNAIRE

1. Introduction (for user of questionnaire)
2. General Instructions (for user of questionnaire)
3. General Instructions (for project officer)
4. Specific Instructions for Administering Questionnaire (for project officer when questionnaire is administered in a controlled environment.)
TO: USER OF QUESTIONNAIRE

INTRODUCTION

TO THE NONCOMMISSIONED OFFICER:

This questionnaire is part of a field survey designed to identify tasks for military police training. Its specific purpose is to obtain from you, the Noncommissioned Officer, information on task criticality and frequency of performance. Feedback gained from this questionnaire will play a major part in redesigning the Noncommissioned Officer Advanced Education System. The ultimate goal is to design training so that it reflects what we have learned from you in the field. This goal is possible only with your full cooperation. Consider each task listed in this questionnaire carefully and give your best response. Your contribution is essential to a successful survey.
TO: USER OF QUESTIONNAIRE

GENERAL INSTRUCTIONS

1. Complete this survey questionnaire within the time specified by your unit project officer and return it to him upon completion.

2. Because instructions for completing each part of this survey questionnaire are different, read all instructions carefully.

3. Part II requires that you supply biographical information. This information will be used to correlate feedback received from the field. Print all answers in the spaces provided on the appropriate survey questionnaire page.

4. In the upper right corner of each page of Part III, Task Inventory, of this survey questionnaire is a BOOKLET NUMBER block. Immediately to the left of this block is the individual booklet number. Print the individual booklet number in the BOOKLET NUMBER block on each page of the Task Inventory as demonstrated in the example.

EXAMPLE:

<table>
<thead>
<tr>
<th>BOOKLET NUMBER</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 1 2 3 4 5 6 7 8 9</td>
</tr>
<tr>
<td>0 1 2 3 4 5 6 7 8 9</td>
</tr>
<tr>
<td>0 1 2 3 4 5 6 7 8 9</td>
</tr>
</tbody>
</table>

(000345)

5. Part III, Task Inventory, is divided into nine (9) separate sections (Sections I-IX). The content of these sections concerns tasks you may perform in your present duty assignment. You are asked to rate each task in accordance with three criteria—frequency of task performance, immediacy of task performance, and importance of task to mission success.

Base all selections on your experience in your present duty assignment.

a. Column A requires that you rate how often you perform each task on a scale from one to four. The criterion for this rating is the frequency of task performance. Those tasks performed most frequently will normally be rated four while those tasks not performed at all will be rated one.
b. Column B requires that you determine how soon you must be capable of performing each task after reporting to your present duty assignment. The criterion for this rating is the immediacy of task performance. Of the four possible responses, select the one most nearly describing your requirements. Select response number four for those tasks which you must be capable of performing immediately upon reporting for duty. Select response number one for those tasks which you never perform.

c. Column C requires that you describe, in your opinion, how important each task is to mission success. The criterion for this rating is the importance of the task to the accomplishment of the unit mission. Those tasks that, in your opinion, are most important to mission success will be rated four while those tasks that you consider least important will be rated one.

6. After selecting, enter your responses for each task, using either a pen or pencil, in the answer portion adjacent to the appropriate task statement as demonstrated in the example.

   EXAMPLE: The task PREPARE CORRESPONDENCE, if rated as performed FREQUENTLY in Column A, identified as must be capable of performing IMMEDIATELY in Column B, and determined by you to be MOST IMPORTANT in Column C, would be entered in the answer portion, as shown below.

   ![PREPARE CORRESPONDENCE](image)

7. After each section of Part III, Task Inventory, is a Write-In Section. These write-in sections are provided in order that you may comment on each task inventory section, or list any task(s) you think should be included in the Task Inventory. These sections also allow you to comment on those tasks that you find are the most difficult for you to perform.
TO: PROJECT OFFICER

GENERAL INSTRUCTIONS FOR PROJECT OFFICER

1. General. The Military Police School is currently involved in redesigning basic military police training to produce military policemen better equipped to perform when they reach the unit. The emphasis is toward training replacements in tasks actually being performed in the field. The questionnaires in this packet are designed to identify those tasks.

The care with which you, the project officer, administer the questionnaires will determine the accuracy of field feedback and, consequently, the success or failure of this project.

2. Survey Packet Contents.
   a. Questionnaire
   b. Supervisor Questionnaire
   c. Project Officer Instructions
   d. Answer Sheets for Questionnaire
   e. Pencils for use on answer sheets.

3. Responsibilities.
   a. Unit Commander. The unit commander is requested to appoint a project officer and to monitor administration of the survey.
   b. Project Officer. The project officer is responsible for the control and handling of questionnaires, for the administration of the questionnaires, and for returning completed and unused questionnaires to the Military Police School.
   c. Questionnaire Administrator. The project officer may appoint someone to administer the questionnaire, if necessary. Normally, however, it is recommended that the project officer administer the questionnaire himself.

4. About the Questionnaires.
   a. Questionnaire. This questionnaire is designed to identify tasks being performed by military policemen in the field and the frequency with which each task is performed.
   b. Supervisor Questionnaire. The supervisor questionnaire is programmed to provide feedback on task criticality, probability of deficient performance, and the frequency with which each task is performed.
5. **Who Takes The Questionnaire.** The project officer is responsible for selecting individuals to take the questionnaires (respondents) within their units. Those selected must meet the requirements listed below:

   a. The questionnaire respondent must:
      
      (1) Be in an M.P. duty assignment (actually performing M.P. duties)
      (2) Have been on the job at least 90 days

   b. The respondent to the Supervisor Questionnaire must:
      
      (1) Command or supervise M.P. personnel
      (2) Have been in a command or supervisory position in the unit for 90 days.

   (Assign questionnaires proportionately among officers and NCO's.)

6. **Questionnaire Administration.**

   a. **Questionnaire.** The questionnaire will be administered in a controlled environment. Persons participating in the survey will be allowed two hours to complete the questionnaire and will turn the questionnaire and answer sheets in to the questionnaire administrator prior to leaving the survey area. Individual questionnaires and their accompanying answer sheets will be kept together.

   See attached item for the procedure to be followed in administering the questionnaire.

   b. **Supervisor Questionnaire.** Supervisors selected as respondents for this questionnaire will be allowed to sign for the questionnaire and take it with them. They will complete the questionnaire and return it to the project officer within a time frame he specifies. This time frame must be compatible with the suspense date to the Military Police School.

7. **Questionnaire Handling.** Questionnaires and answer sheets become **FOR OFFICIAL USE ONLY** when completed. For ease of accounting, each questionnaire and its accompanying answer sheets are numbered. All questionnaires must be returned to the Military Police School whether they are used or not. Instructions for returning the questionnaires to the Military Police School are contained in the basic letter. If you have any problems or questions, contact (NOTE: Give name or names, address, and telephone number).
ADMINISTERING THE QUESTIONNAIRE

A-1. Preparation. A classroom or training room equipped with desks will provide the most ideal site for administering the questionnaire. Questionnaires, answer sheets, and two electrographic pencils should be issued to participants after everyone who is to take the questionnaire has arrived. This ensures that everyone starts together.

A-2. Instructions. The questionnaire administrator will present the following instructions.

a. "Is there anyone here who is not working in an M.P. duty position? Is there anyone here who has not been assigned to their present duties at least 90 days? If so, please leave at this time."

b. "Will everyone at this time please read the first page in the questionnaire which has been issued to you."

(Note to the administrator: It must be emphasized that your enthusiasm for this project or lack of it will be contagious. It is important that you demonstrate a positive attitude to the participants. Allow time for the first page to be read and underline the importance of the questionnaire with the following statement.)

"I would like to stress the importance of this questionnaire. The Military Police School wants to design training to fit the job in the field. You are the only people who can tell them what they need to know. Please think through each question and give your best answers."

c. "Turn to Part I, Biographical Information, and answer questions 1-13. When you have finished, lay your pencil on the desk so I will know when to proceed to the next step."

d. "Now read the instructions found in Part II."

(Note to the administrator: Allow reasonable time for everyone to finish before moving to the next step.)

"Are there any questions?"

e. "As you read in the instructions, there are nine answer sheets accompanying your questionnaire. Take the answer sheets and number them one through nine to correspond to the first nine sections in Part III of the questionnaire. If you do not have nine answer sheets, raise your hand—I have extra ones. Use a separate answer sheet for each section. Answer only the number of questions listed in each and move to the next section and answer sheet. It is not necessary to write your name, rank, the date, or course at the top of the answer sheet. Also, disregard the blocks marked score, grade, extra points, and social security number."
f. "Because of the size of this survey, these answer sheets will be read by machine. You must use the special pencils provided so that the machine can read the answers. When marking your answer, take care to fill the vertical rectangle outlining the letter as shown by the example on page 4 of the instructions. Also, please be sure not to make any stray marks on the answer sheets. Finally, do not fold the answer sheets."

g. "All answers must be based on your experience in this your present unit. Do not call on experience in previous units. This means that if you do not perform a particular task in your present unit, you must mark 'do not perform this task' on your answer sheet."

h. "You may begin answering Part III. Remember Section ten; the written section. When you finish answering all questions, insert your answer sheets into the questionnaire and turn them in to me. You may leave when you are finished. Are there any questions?"

A-3. Conclusion. After everyone has taken the questionnaire, ensure that all questionnaires and answer sheets are accounted for. Collect the pencils provided so that they may be returned to the Military Police School along with the questionnaires and answer sheets.
This is the 9th in a series of ISD Job Aids for use in instructional design and development. This volume will direct you to specific guidance, examples, and references provided in the supplementary manual "Job Aid for Specifying Learning Events/Activities ISD III.1." If you do not have the supplementary manual, request it from your supervisor.
Have You Read the Introduction to the Use of Job Aids?

1. If Yes, refer to the Introduction to the Use of Job Aids.
2. If No, continue with the following.

Have You Used This Job Aid Before?

3. If Yes, continue with the next decision point.
   - If No, continue with the next decision point.

Want To See An Overview of This Job Aid?

4. If Yes, refer to the Overview of Learning Activities Job Aid.
   - If No, continue with the next decision point.

- This introduction provides the user with instruction on the basic structure of the Job Aids and Guidance for their use.
- Refer to Introduction.

- Overview includes:
  - Objectives
  - Purpose
  - Product
  - Major steps in process
  - Worksheets used
- For detailed overview, see Manual, page 1-4.
List of Critical Tasks and Associated TLOs and LOs Available

Yes

7

Guidance for Obtaining/Preparing Critical Task List and Associated TLOs and LOs

No

8

Select First/Next Critical Task With Associated TLOs and LOs

9

Obtain First/Next Learning Activities Recording Sheet (LAR Sheet)

10

Complete Section I of LAR Sheet

- List of critical tasks and associated Terminal Learning Objectives and Learning Objectives should be available as output from ISO 11.1 Develop Objectives.

- If Learning Objectives are not available for all critical tasks, go to Job Aids: Descriptive Authoring Flowcharts ISO 11.1 Develop Objectives.

- When Learning Objectives have been obtained return to Block 6.

- Learning Objectives for each critical task are classified by learning category and sub-category. Appropriate learning activities are then specified for each Learning Objective. The Learning Activities Recording Sheets (LAR) are used to record these data.

- For guidance in obtaining LAR Sheets, see Manual, page 1-8.

- Information required in Section I of the LAR Sheet is:
  - Name/Office Symbol
  - Date
  - Course under development
  - MOS/Skill Level

Complete Section II of LAR Sheet

Identify Record First/Next Learning Objective (Col. A, Section III, LAR Sheet)

Do You Know the Characteristics of the Three Learning Categories?

Yes

No

Characteristics of Learning Categories

Determine/Record Learning Category (Col. B, Section III, LAR Sheet)

- Information required in Section II of the LAR Sheet is:
  - Task ID No.
  - Terminal Learning Objective (Action Statement Only)

- The action statement for each learning objective associated with the critical task is recorded on the LAR Sheet.
- For further guidance, see Manual, page 1-10.

- The three learning categories are:
  - Mental
  - Physical
  - Attitudinal

- To determine the characteristics of each of the three learning categories refer to the Manual, page 1-11.

- One of the following three learning categories is recorded in Col. B of the LAR Sheet:
  - MENTAL
  - PHYSICAL
  - ATTITUDINAL

- For further guidance in determining and recording appropriate learning category, see Manual, page 1-12.
The MENTAL learning category is subdivided into six subcategories. They are:
- identifying objects and symbols
- recalling information
- discriminating
- classifying
- rule-learning and using
- decision-making

For examples of each subcategory, see Manual, page 1-14.

Learning Activities necessary for teaching the learning objectives associated with each of the six subcategories of the MENTAL Learning Category are prepared and recorded on the LAR.

For further guidance in preparing and recording appropriate learning activities, see Manual, page 1-17.
The PHYSICAL learning category is subdivided into two subcategories. They are:
- gross motor skill
- responsive motor skill
For examples of each subcategory, see Manual, page 1-26.

Learning activities necessary for teaching the learning objectives associated with each of the two subcategories of the PHYSICAL Learning Category are prepared and recorded on the LAR Sheet.

For further guidance in preparing and recording appropriate learning activities, see Manual, page 1-28.

Go to Block 12

Go to Block 9
26

Is Learning Category "Attitudinal"?

Yes

No

27

Learning Category Must Be "Mental", "Physical" or "Attitudinal". See Supervisor for Assistance.

Go to Block 14

28

Record Sub-Category [Col. B, Section III, LAR Sheet]

29

Determine/Record Appropriate Learning [Col. C, Section III, LAR Sheet]

30

Have All LOs For This Task Been Examined?

Yes

No

Go to Block 12

- There is one subcategory under the ATTITUINAL Category. It is: attitude-learning
- For examples of this subcategory, see Manual, page 1-34.

- Learning Activities necessary for teaching the learning objectives associated with attitude-learning are prepared and recorded on the LAR Sheet.
- For further guidance in preparing and recording appropriate learning activities, see Manual, page 1-36.
1.9 Specify Learning Events/Activities

- During the instruction activities selection process, information may have been obtained that would be useful to persons who performed activities that fed into this step. Similarly, information may have been obtained that would be useful to persons who will be engaged in Instructional Systems Development steps that follow this one.

- Comments are recorded and submitted to appropriate persons.

- For further guidance, see Manual, page 1.41.
This is the 10th in a series of ISD Job Aids for use in instructional design and development. This volume will direct you to specific guidance, examples, and references provided in the supplementary manual “Job Aid for Specifying Instructional Management Plan and Delivery System ISD III.2.” If you do not have the supplementary manual, request it from your supervisor.
This introduction provides the user with instruction on the basic structure of the Job Aids and gives guidance for their use.

2. Refer to Introduction.

Overview includes:
- Goal
- Objectives
- Products
- Major steps in process
- Worksheet used
- Descriptive flowchart

For detailed overview, see Manual, pages J.4 thru 6.
Do you have completed learning activities recording sheets?

6

Yes

7

Guidance for obtaining/ preparing learning activities recording sheets

- These sheets describe the learning activities suggested for every learning objective within a single task.

- Learning activities for each task should be available as output from ISD 111.1 Specify Learning Events/Activities.

- If procedures for specifying learning activities were not complete, go to Job Aid: Descriptive Authoring Flowcharts, 1-3.

- When lists of learning objectives and their corresponding learning activities have been obtained, return to Block 6.

- Learning Category Matrices are available for all nine learning subcategories. They are used to select the most appropriate delivery system for training each task.

- For further information and guidance on obtaining Learning Category Matrices, see Manual, pages J-8 and 9.

8

Obtain Learning Category Matrices

- Delivery System Planning (DSP) Sheets are used to document candidate delivery systems which meet the criteria specified by the learning activities for each objective. From this group of candidate delivery systems the final selection of delivery system(s) for the whole task is made.

- For guidance in obtaining DSP Sheets, see Manual, page J-11.

9

Select First/Next Learning Activities Recording Sheet

10

Obtain Delivery System Planning Sheet (DSP Sheet)
ISD III.2 Specify Instructional Management Plan and Delivery System

11. Complete Section I of DSP Sheet

12. Record ALL Learning Objective Action Statements [Section III (A), DSP Sheet]

13. Select First/Next Learning Objective Action Statement [Section III (A), DSP Sheet]

14. Record Learning Category and Subcategory [Section III (B), DSP Sheet]

15. Locate Appropriate Matrix for This Learning Category and Subcategory [Learning Category Matrix]

- Identifying information includes:
  - MOS
  - Task I.D. number
  - Course title
  - Instructional setting
  - MOS Date
  - Skill level
  - Task I.D. number located on Learning Activities Recording Sheet

- For example, see Manual, page J-12.

- For further information and guidance, see Manual, page J-13.

- For further information and guidance, see Manual, page J-15.

- The matrix is located for the learning subcategory which has an X in Section III B for this objective. For example, if there is an X in the column for Gross Motor Skills, then that is the matrix to be used.
16
Record Appropriate "Training Setting Criteria" [Learning Category Matrix]

- A light check mark (✓) is made on the matrix to indicate the criteria specified by the instructional setting and learning activities for this objective.
- For further guidance, see Manual, pages J-17 and 18.

17
Record Appropriate "Administrative Criteria" [Learning Category Matrix]

- A light check mark (✓) is made on the matrix to indicate the criteria specified by the instructional management plan for this objective.
- For further guidance, see Manual, pages J-19 and 20.

18
Does Matrix Contain "Stimulus Criteria"?

Yes

19
Record Appropriate "Stimulus Criteria" [Learning Category Matrix]

- All matrices include Stimulus Criteria except:
  - Subcategory Identify Objects and Symbols (Mental Skills)
  - Subcategory Gross Motor Skills (Physical Skills)
  - Subcategory Attitude Learning (Attitude Skills)

- A light check mark (✓) is made on the matrix to indicate the criteria specified by the learning activities for this objective.
- For further guidance, see Manual, page J-21.

20
Does Matrix Contain "Complexity Criteria"?

Yes

- Complexity Criteria apply only to responsive motor skills.
ISD 11.2 Specify Instructional Management Plan and Delivery System

21
- Record Appropriate "Complexity Criteria" [Learning Category Matrix]
  - A light check mark (✓) is made on the matrix to indicate the criteria specified by learning activities for this objective.
  - For further guidance, see Manual, page J-22.

22
- Examine "Alternative Instructional Delivery Systems" [Learning Category Matrix]
- There are two groups of alternative instructional delivery systems: the first group consists of those which meet all the criteria completely; the second group consists of delivery systems which are adequate but do not meet the criteria completely.
- For further explanation of the delivery systems, see Manual, pages J-23 thru 25.

23
- Draw Line Through Any Delivery System(s) Clearly Not Available for Training This Learning Objective [Learning Category Matrix]
- For further guidance, see Manual, pages J-26 thru 28.

24
- Examine First/Next Potential Instructional Delivery System [Learning Category Matrix]
- For further guidance on examining delivery systems for suitability, see Manual, page J-29.

25
- "X" Pre-recorded Opposite Each "Training Setting Criteria" You Checked?
  - For example, see Manual, page J-30.
$X$
Pre-recorded Opposite Each "Administrative Criteria" You Checked?

- Yes
- No

$X$
Pre-recorded Opposite Each "Stimulus Criteria" You Checked?

- Yes
- No

Reject as a Candidate Delivery System

Go to Block 36

For example, see Manual, page J-31.

For example, see Manual, page J-33.
ISD III.2 Specify Instructional Management Plan and Delivery System

31
Reject as a Candidate Delivery System

32
Does Matrix Contain "Complexity Criteria"?

No
Go to Block 35

33
Pre-recorded Opposite Each "Complexity Criteria" You Checked?

Yes

34
Reject as a Candidate Delivery System

Go to Block 36

35
Record the Delivery System on DSP Sheet [Section III (C), DSP Sheet]

- For example, see Manual, page J-35.

- For guidance in recording the delivery system on DSP Sheet, see Manual, page J-36.
Are there delivery systems shown under the Alternative Instructional Delivery Systems that have not been examined?

Did you record at least one available delivery system for this objective?

Repeat Blocks 24 thru 36 and select the delivery system which has the most "Xs" opposite your checks.

Is this the last action statement on this DSF sheet?

Erase all checks on matrices or get new sheets.

Go to Block 13.

Matrices are used more than once in order to reduce the amount of paper used with this job aid.
Examine All Action Statements and Candidate Delivery Systems (Section III (A) and (C), DSP Sheet)

Does more than one delivery system meet the media selection criteria for this group of objectives?

Select the Best Delivery System(s) for This Group of Objectives

Record the Selected Delivery System(s) and the Basis for Your Decision (Section II, DSP Sheet)

Is This the Last Learning Activities Worksheet?

For further guidance on the purpose of this examination, see Manual, page J-40.

For guidance on how to select the best delivery system, see Manual, pages J-41 thru 43.

For further guidance and example, see Manual, page J-44.
Obtain Supervisor Review of DSP Sheets and Select Whole Course Delivery System

Complete Systems Management Plan

Any Information For Individuals Working in Other ISD Blocks?

Yes

No

Record Comments on ISO COORDINATION SHEET

STOP

- For guidance in determining the whole course delivery system, see Manual, page J-45.

- This job aid does not include guidance for completing the Systems Management Plan (SMP).

- For information about what is included in the SMP and where to obtain guidance, see Manual, page J-46.

- During the delivery system selection process information may have been obtained that would be useful to persons who performed activities that led into this step. Similarly, information may have been obtained that would be useful to persons who will be engaged in Instructional Systems Development steps that follow this one.

- Comments are recorded and submitted to appropriate persons.

- For further guidance, see Manual, page J-47.
This is the 11th in a series of ISD Job Aids for use in instructional design and development. This volume will direct you to specific guidance, examples, and references provided in the supplementary manual "Job Aid for Review and Selection of Existing Material ISD III.3." If you do not have the supplementary manual, request it from your supervisor.
This introduction provides the user with instructions on the basic structure of the Job Aids and guidance for their use.

- Overview includes:
  - Goal
  - Objectives
  - Product
  - Major Steps
  - Worksheets Used

- For detailed overview, see Manual, page K-4.
Identify the Type of Instruction You Have Been Assigned to Develop

Obtain Reference Review Sheets (RR) A & B

Record on Top of RR Sheet A:
- MOS Code
- Name
- Skill Level
- Date
- Instruction Under Develop

Identify and Record Name of Existing Army Course(s) for the Tasks You Wish to Train [Section 1, RR Sheet A]

Identify/Record Other Army Reference Materials [Section 1, RR Sheet A]

Types of instruction may include:
- a complete resident course
- a correspondence course
- one or more modules
- a TEC lesson
- one or more lessons
- etc.

For further guidance, see Manual, page K-11.

Reference Review Sheets are contained in pocket at the back of Manual.

For example of what completed RR Sheet A looks like, see Manual, page K-7 and K-8.

At the present time these tasks may be trained in one or more courses. If so, name(s) of Course(s) is recorded.

For example, see Manual, page K-13.

RR Sheet A includes standard Army references that should be examined.

Any additional sources of appropriate Army material are added to Section 1 of RR Sheet A.

For help in identifying and recording additional sources of Army material, see Manual, page K-14.
ISD III.3 Review/Select Existing Material

Obtain DA Pam 611-11
DOD Occupational
Conversion Table

Do You
Know How to Use
DA Pam 611-11?

Examine DA Pam 611-11
to Identify Any Service(s)
With Occupational
Specialty Similar to
Army MOS

Did
1 or More Service
Have Similar Occupa-
tional Specialty?

- DA Pam 611-11 provides necessary information for converting Army MOS's into Air Force, Navy, and Marine equivalents.
- DA Pam 611-11 replaces DA Pam 611-12. If 611-11 is not available, DA Pam 611-12 can be used.
- For further explanation, see Manual, page K-16.

Guidance in Using DA Pam 611-11 — December, 1977 Version

- For guidance in using DA Pam 611-11, see technical notes at beginning of pamphlet.
16. Record Occupational Specialty Codes for Other Services. If None, Record "None" [Section 1, RR Sheet A]

- This code designation will aid in the later search for appropriate materials from other services.

17. Identify and Record Appropriate References for Other Service(s) [Section 2, RR Sheet A]

- For a list of standard references from other services and guidance in recording same, see Manual, page K-20.

18. Identify/Record Appropriate References From Other Sources [Section 3, RR Sheet A]

- For a list of potential references and guidance in recording same, see Manual, page K-22.

19. Have RR Sheet A Reviewed for Completeness and Accuracy

- When all the possible references have been added to RR Sheet A, it is reviewed to see if all potential sources have been tapped.
- Sources for review would include supervisor, peers and/or instructors.

20. Did You Record the Name of a Present Army Course in Section I RR Sheet A?

Yes

No
ISD III.3 Review/Select Existing Material

21. Obtain Pertinent Material From Course(s)
- Material(s) may consist of films, tapes, textbooks, graphs, pictures, over-head projections, etc.
- For guidance in obtaining materials, see Manual, page K-25.

22. Obtain All References Recorded on RR Sheet A

23. Were All References Available?

24. Record Reason for Unavailability
(Record Under "Comments", RR Sheet A)
- The reason for unavailability is recorded so that someone else working on this block in the future will not waste time looking for references that are no longer in print, etc.

25. Record ON RR SHEET B First/Next Available Reference
(Col. 1, RR Sheet B)
- This block begins the process of identifying materials for appropriateness to the instruction being developed.
- Work is now being done on RR Sheet B. The following is also recorded:
  - MOS Code
  - Date
  - Skill Level
  - Your name
26. Is this reference a catalog/index, etc.?

   Yes
   No
   Go to Block 33

27. Identify "Entries" in catalog/index, etc. that appear to be appropriate

28. Record all appropriate entries (name, nu., etc.)

29. Have all references been recorded?

   Yes
   No
   Go to Block 25

30. Obtain materials recorded in col. 2 of RR Sheet B

   • References are of two types:
     1) Catalogs/indexes, etc.: these contain only descriptions of material which will be obtained later.
     2) Items of actual material: which will be examined later.

• For guidance on how to find material in reference source, see Manual, page K-29.

• Name, number, etc., of potential material is recorded so that material may be obtained for further evaluation.

• For guidance in obtaining materials, see Manual, page K-32.
ISD III.3 Review/Select Existing Material

31

Were All Materials Available?

Yes

No

32

Record Reason for Unavailability
(Record Under "Comments", RR Sheet B)

33

Scan First/Next Available Materials
(Col. 1 or 2, RR Sheet B)

- This block begins the process of scanning material to determine if it should be held and examined in depth at a later time.
- For guidance, see Manual, page K-34.

34

Should the Material be Examined in Depth?

Yes

No

35

Enter a "N" in Col. 3.
Record Any Appropriate Comments
(Col. 3, RR Sheet B)

- An "N" meaning "No" is recorded to designate an item of material which appears to be of no further value for the instruction being developed.
Enter "Y" in Col. 3. Record Any Appropriate Comments. [Col. 3, RR Sheet B]

36

37

Have All Materials Been Scanned? (Yes/No)

No

Go to Block 33

Yes

38

Examine First/Next Item of Material

39

Determine/Record Acceptability of Item of Material [Col. 4, RR Sheet B]

40

Does Item of Material Require Revision? (Yes/No)

No

Yes

- A "Y" meaning "Yes" is recorded to designate an item of material that initially seems appropriate for inclusion in instruction and therefore should be held for further evaluation.

- This block outlines the process of an in-depth review of selected materials.
- Usefulness of materials is judged according to how consistent an item of material is with pre-determined:
  - Learner characteristics
  - Delivery system
  - Learning guidelines
  - Management plan
- For further explanation, see Manual, page K-36.

- An item of material may be:
  - Accepted as is
  - Rejected
  - Revised
- For further information and example, see Manual, page K-41.
ISD III.3 Review/Select Existing Material

- The reviewer of existing materials records the revisions he thinks are required if material is to be used. Personnel responsible for cost decisions will later review these suggested revisions.
- For example, see Manual, page K-43.

- During the review and selection of existing materials information may have been obtained that would be useful to persons who performed activities that fed into this process. Similarly, information may have been obtained that would be useful to persons who will be engaged in Instructional Systems Development steps that follow this one.
- Comments are recorded and submitted to appropriate persons.
- For further guidance, see Manual, page K-44.
This is the 12th in a series of ISD Job Aids for use in instructional design and development. This volume will direct you to specific guidance, examples, and references provided in the supplementary manual “Job Aid for Developing Instruction ISD III.4.” If you do not have the supplementary manual, request it from your supervisor.
ISD 111.4 Develop Instruction

1. Have You Read the Introduction to the Use of Job Aids?
   - Yes
   - No

2. Introduction to the Use of Job Aids
   - Refer to Introduction.

3. Have You Used This Job Aid Before?
   - Yes
   - No

4. Want to See an Overview of This Job Aid?
   - Yes
   - No

5. Overview of Developing Instruction Job Aid
   - Overview includes:
     - Goal
     - Objectives
     - Products
     - Major steps in process
     - Worksheets used
     - Descriptive flowchart
   - For detailed overview, see Manual, page L-6.

START

This introduction provides the user with instruction on the basic structure of the Job Aids and guidance for their use.

This introduction provides the user with instruction on the basic structure of the Job Aids and guidance for their use.
In order to develop instruction it is necessary to have the following inputs:
- from ISD Phase II
  - 3 parts learning objectives
  - corresponding test items
  - group letter and sequence number for each objective
- from ISD Phase III
  - learning category and subcategory for each objective
  - corresponding learning activities
  - management plan and delivery system
  - selected existing instructional materials

The outputs of the 4 blocks at ISD Phase II and III, I, III, and III should be available from persons responsible for those activities.

If procedures for any of these activities were not complete Job Aids; Descriptive Authoring Flowcharts may be referred to as follows:
- Develop Objectives, pages E-3 thru E-13.
- Develop Tests, pages F-3 thru F-00.
- Sequence and Structure Objectives, pages H-3 thru H-00.
- Learning Categories/Activities, pages I-3 thru I-00.
- Select Existing Materials, pages K-3 thru K-11.

This block begins the process of identifying:
- instructional needs
- resources
- constraints

Process is accomplished in blocks 9 thru 13.

Instructional needs are determined on the basis of previous analyses and planning which took place in ISD Phase II and III.

For further information, see Manual, page L-11.

For types of instructional resources and cost factors, see Manual, page L-12.
Identify Resources Available for Instruction Presently under Development

For guidance in identifying available resources, see Manual, page L-15.

Do You Know the Functions of the Production Personnel at Your School?

No

Review Functions of Production Personnel

- For description of functions of the:
  - media specialist
  - graphic artist
  - print specialist
  - photographer
  - audio producer (engineer)
  - technician

- For further guidance, see Manual, page L-16.

Yes

Decide Terminal Learning Objectives (TLO's) into Two Groups, A and B

- TLO's are initially sorted into two groups:
  A) Those for which instructional materials are available
  B) Those for which instructional materials must now be developed

- For further information, see Manual, page L-18.

Evaluate Group B

- TLO's for which new instruction must be developed are now sorted according to media.

- For further information, see Manual, page L-19.
Select First/Next Group of LOs for Specified Delivery System

Begin Process of Developing First Draft

Obtain Instruction Development (ID) Checklist

Record Identifying Information (ID Checklist)

Is Delivery System for This Group of LOs Audio Unit?

Yes

No

- A group of learning objectives for a particular delivery system is selected.

- This block begins the actual development of instruction.

- Instruction Development Checklist is used to document steps in preparation of first draft materials.

- For guidance in obtaining ID checklist, see Manual, page L-23.

- Identifying information includes:
  - Your name/Office symbol
  - Date
  - Course/Module under development
  - MOS/Skill Level
21. Determine/Check Techniques to Stimulate Audio Sense [ID Checklist]
   - For further information, see Manual, page L-25.

22. Prepare/Check Lean Script in Correct Format [ID Checklist]
   - For further information, see Manual, page L-26.

23. Review/Check Script for Continuity [ID Checklist]
   - For further information, see Manual, page L-27.

24. Determine/Check Pacing of Presentation and Indicate on Script [ID Checklist]
   - For further information, see Manual, page L-28.

25. Is Delivery System for This Group of LOs Audio Visual (Slide-Tape)?
   - If Yes, go to Block 43.
   - If No, continue with the next block.
Prepare/Check Storyboards (1D Checklist)

- Rough sketches or stick figures are called storyboards.
- For further information and guidance, see Manual, page L-32.

Review/Check Sequence of Storyboards (1D Checklist)

- For further information and guidance, see Manual, page L-34.
ISD III.4 Develop Instruction

31. Plan Indicate Check Composition of Volumes [ID Checklist]
   - For further information and guidance, see Manual, page 1.35.

32. Complete Check Volumes Components
    - For further information and guidance, see Manual, page 1.35.
    - Consultation with Photographer/Artist

33. Complete Check Gordon
    - For further information and guidance, see Manual, page 1.37.
    - Function of Group [ID Checklist]

34. Indicate/Check
    - For further information and guidance, see Manual, page 1.38.
    - Slide Changes

35. Delivery System for This Group of IDs Written Text
   - Go to Block 43
   - Yes

   No
36 Use/Check Simple Words and Short Sentences [ID Checklist]

37 Use/Check Performance-Oriented Writing Style [ID Checklist]

38 Emphasize/Check Main Points in Text [ID Checklist]

39 Develop/Check Ideas Clearly [ID Checklist]

40 Develop/Use Clear Format [ID Checklist]

- For further information and guidance, see Manual, page L-39.

- For further information and guidance, see Manual, page L-43.

- For further information and guidance, see Manual, page L-47.

- For further information and guidance, see Manual, page L-49.

- For further information and guidance, see Manual, page L-51.
ISO III.4 Develop Instruction

41 Use/Check Formula to Determine Reading Grade Level and Record [ID Checklist]

- The Reading Grade Level Formula is used to keep the writing at a level appropriate for the target population.
- For further information and guidance, see Manual, page L-52.

42 Adjust Reading Difficulty Level if Necessary

- Supervisor check is useful for obtaining another person's opinion of the lesson, and for double checking the items on the ID Checklist.
- Individual Validation Trials are also known as developmental testing.

43 Attach ID Checklist to First Draft Lesson Materials and Submit to Supervisor for Initials/Comments

44 Do You Know How to Conduct Individual Validation Trials?

- Yes
- No

45 Read Job Aid for ISO III.5, Validate Instruction

- This job aid does not cover individual validation trials. This topic is covered in another job aid.
Conduct Individual Validation Trials

The individual validation trials will reveal any weaknesses or deficiencies in the instructional materials.

Revisions Required?

Yes

No

Revised Accordingly

- Instructional materials are revised according to information collected in the validation trials.

Develop Instructor's Guide

- This job aid does not cover the development of an instructor's guide.
- TRADOC Pam 350-30, Block III.4, Develop Instruction, covers this topic.

Develop Student Guide

- This job aid does not cover the development of a student guide.
- TRADOC Pam 350-30, Block III.4, Develop Instruction, covers this topic.
ISD III.4 Develop Instruction

- Supervisor check is needed at this point, before materials go into final production.

- During the instructional development process, information may have been obtained that would be useful to persons who performed activities that fed into this one. Similarly, information may have been obtained that would be useful to persons who will be engaged in Instructional Systems Development steps that follow this one.

- Comments are recorded and submitted to appropriate persons.

- For further guidance, see Manual, page L-62.
This is the 13th in a series of ISD Job Aids for use in instructional design and development. This volume will direct you to specific guidance, examples, and references provided in the supplementary manual "Job Aid for Validating Instruction ISD III.5." If you do not have the supplementary manual, request it from your supervisor.
This introduction provides the user with instruction on the basic structure of the Job Aids and guidance for their use.

Refer to Introduction.

Overview includes:
- Goal
- Objectives
- Products
- Major steps in process
- Worksheets used
- Descriptive flowcharts

For detailed overview, see Manual, page M-4.
In order to complete the validation process, please follow these steps:

8. Obtain Instruction Validation Recording Sheet - Individual (IVR Sheet - Indiv.) for each validation trial. This sheet is used to document the Individual Trial(s) Validation process.

For further information, see Manual, page M-9 through M-10.

9. Complete Section I of IVR Sheet - Indiv. for each validation trial.

For guidance in completing Section I of IVR Sheet - Indiv., see Manual, page M-12.

10. Study Guidelines for Validation Using Individual Trial Evaluation(s)

Guidelines explain the process of and procedures used in a validation trial using a single frame as a subject.

For further information, see Manual page M-14.
I-15 \[\text{Select/Record Validation Method} \]

- Methods used in validation:
  - Tests
  - Interviews
  - Questionnaires
  - Observation
  - Attitude Scales
  - Other methods specific to the training situation

- For further explanation, see Manual, page M-18.

---

Select/Record Trained to be Used in Evaluation

- Trained who are representative of the target population are selected as subjects.
- For further guidance, see Manual, page M-20.

---

Prepare Validation Recording Form(s) (VR Forms)

- Validation Recording... includes:
  - Questionnaires
  - Attitude Scales
  - Interview Forms
  - Observation Forms

- For guidance in preparing Validation Recording Forms, see Manual, page M-21.
16 Present Instructional Material to Trainee

17 Administer/Record Responses on VR Form(s)

18 Analyze VR Form(s)

19 Record Results of Evaluation [Section II, Block D, IVR Sheet-Indiv.]

20 Determine if Additional Trainee is Needed Prior to Revision of Instruction

- Methods are discussed for presentation of instructional material. They include:
  - Who should present the material
  - Location (site) for presentation
  - Amount of material to be presented

- For further information, see Manual, page M 25.

- Forms may either be filled out by the trainee (e.g., an attitude scale) or by the person(s) conducting the validation (e.g., responses to an interview).

- Forms are analyzed for patterns of responses or other information indicative of whether or not revision of material is necessary.

- Following are examples of types of information that should be recorded:
  - Patterns of correct and incorrect responses.
  - Indications of problems areas within the instructional material.
  - Trainee comments, where applicable.
  - etc.

- For further guidance, see Manual, page M 27.

- For guidance in determining if an additional trainee should be used to evaluate the instructional material, see Manual, page M 28.
21. Is Additional Trainee Needed?
   Yes → Go to Block 11
   No

22. Is Revision of Instructional Material Required?
   Yes → Record "No Revision Needed" (Section III, IVR Sheet–Indiv.)
               → Go to Block 31
   No

23. Record Summary of Required Revisions (Section III, IVR Sheet–Indiv.)

24. Revise Instructional Material as Necessary

- For example, see Manual, page M.29.

- For example, see Manual, page M.30.

- Revisions will normally be made by the individual(s) who developed the instruction being evaluated.
Obtain Supervisor Approval of Revisions

Record Date Revisions Completed
(Section III, IVR Sheet Indiv.)

Determine if Additional INDIVIDUAL Validation Trial is Needed

Is Additional Evaluation of Revisions Needed?

- For example, see Manual, page M.31.

- When revisions resulting from the previous Individual Validation Trial were extensive, an additional Individual Validation Trial may be desirable.

- For information and guidance, see Manual, page M.32.

Obtain New IVR Sheet--Indiv. and Complete Section I.

Go to Block 11

M-8
ISD III.5 Validating Instruction

- Guidelines explain the process and procedures used in a validation trial in which a group of trainees is used to evaluate the instruction material.
- For guidelines, see Manual, page M 34.

- Instruction Validation Recording Sheet - Group is on reverse side of IVR Sheet - Indv.
- For example, see Manual, page M 35.

- This block begins the Group Validation Trial(s) process.

- The name and organization of the individual(s) conducting the evaluation is recorded.
- For example, see Manual, page M 37.

- The validation method(s) used in Group Validation Trials are the same as for Individual Validation Trials. They are:
  - Tests
  - Questionnaires
  - Attitude Scales
  - Interviews
  - Observation
  - Other methods specific to the training situations.
- For example of how to record validation methods, see Manual, page M 38.
Select/Record Group to be Used in Evaluation [Section II, Block C, IVR Sheet - Grp]

- Groups of trainees who are representative of the target population are selected as subjects.
- For further guidance, see Manual, page M-39.

Prepare Validation Recording Form(s) (VR Form)

- Validation Recording Forms for Group Validation Trials are essentially the same as for Individual Validation Trials. They include:
  - Questionnaires
  - Attitude Scales
  - Interview Forms
  - Observation
- For guidance in preparing Validation Recording Forms, see Manual, page M-40.

Present Instructional Material to Group

- Methods are discussed for presentation of the instructional material to a group of trainees.
- For further information, see Manual, page M-42.

Administer/Record Responses on VR Form(s)

- Forms may be filled out by trainees (attitude scale), instructor (comments), validation team (interviews).

Analyze VR Form(s)

- Forms are analyzed for patterns within the group or other information indicative of whether or not revision of material is necessary.
41 Record Results of Evaluation
  [Section II, Block 0, IVR Sheet - Grp]

42 Determine if Additional GROUP is Needed Prior to Revision of Instruction

43 Is Additional Group Needed?

44 Is Revision of Instructional Material Required?

45 Record "No Revision Needed"
  [Section III, IVR Sheet - Grp]

- For example, see Manual, page M 45.
- For guidance, see Manual, page M 46.
- For example, see Manual, page M 47.
Revisions will initially be made by the individual who developed the instruction being evaluated.

- For example, see Manual, page M-51.

- When revisions resulting from the previous Group Validation Trial were extensive, an additional Group Validation Trial may be desirable.
- For further information and guidance, see Manual, page M-52.
Submit IVR Sheets to Supervisor

Obtain New IVR Sheet, Copy and Complete Section I

Submit Completed IVR Sheets to Supervisor

Any Information for Individuals Working in Other ISD Blocks?

Yes

Record Comments on ISD Coordinating Sheet

No

Go to Block 33

STOP

- During the instruction validation process, information may have been obtained that would be useful to persons who performed activities that fed into the Instruction Validation process. Similarly, information may have been obtained that would be useful to persons who will be engaged in Instructional Systems Development steps that follow this one.

- Comments are recorded and submitted to appropriate persons.

- For further guidance, see Manual, page M.55.
