This packet contains both teacher's guides and learners' materials for a course on English as a Second Language (ESL) for parents of schoolaged children. Developed for use in the DuPage High School District (Villa Park, Illinois), the materials can be used with adaptations by other continuing education programs. The packet contains 14 lessons. For each lesson, a teacher's guide provides performance objectives, grammatical structures to be taught, and lesson notes with information on things the teacher should know before teaching the lesson and activities to be used in teaching the lesson. Student materials for each lesson consist of model conversations, vocabulary, fill-in-the-blanks class exercises, questions to be answered in sentences, yes/no exercises, drills, worksheets, and information sheets. Topics covered in the lessons are as follows: attendance and illness; lunch programs; calling the school; report cards; transportation, schedules, and clubs; who works in the schools; using the library; community activities for parents and children; school holidays; keeping in touch with the schools; your child's health; the DuPage County Health Department; telephone tapes; and things to do with children in DuPage County. The lessons are aimed at helping parents with limited English speaking skills to deal with their children's school and the community. (KC)

    Part II
OBJECTIVES

1. The student will learn vocabulary for illnesses.
2. The student will be able to call the attendance office to report an absence.
3. The student will be able to write an absence note.
4. The student will be able to use selected idiomatic expressions.

GRAMMATICAL STRUCTURES

1. Pronouns (7 personal pronouns: I, he, she, it, we, you, they)
2. Present tense: be, statements, and questions
3. Present tense: have statements, negatives
4. Article and noun

LESSON NOTES

1. The teacher should model the first conversation before distributing the lessons to the students. After the conversation has been modeled, give students the lesson and instruct them to turn to page 2. Students should complete the cloze exercise before they hear the conversation a second time. Then present the conversation a second time. Students should be listening, not reading along with the teacher. Do the comprehension section next, orally or in written form. Finally, students should be instructed to turn to page 1 and repeat the lines of the conversation after the teacher. Time should then be given for pair practice. This same procedure should be followed for each conversation in every lesson. Move slowly and stress the rhythm and intonation of the language as well as the content of each lesson.

2. Introduce personal pronouns and present tense forms of be, both positive and negative. Show students how the verb shifts position when asking questions: I am a teacher = Am I a teacher? Before assigning the written exercise do some oral practice. For example, use pictures from magazines to prompt statements, questions, and answers, or say the following:
   You are a parent. Are you a parent? Yes, I am (a parent).
   She is a mother. Is she a mother? Yes, she is (a mother).
   He is a father. Is he a mother? No, he isn't.
   Be sure to use all the pronouns and to give all the students opportunities to respond using both negative and positive answers. Assign Worksheet I (this may be done as a homework assignment).

3. Fever Information Sheet: Introduce the following vocabulary words before assigning the page for reading:
   respiratory tract
   rectal temperature/oral temperature
   elevated
   twitching
   shaking
   convulsions
   Give examples or demonstrate:
   flushed
   excess
   fluid
   tepid
   when possible
Fever Information Sheet (continued).

Read the Fact Sheet orally while the students follow along silently. Then read it again, orally, but omitting every fifth word. Students should be able to supply the missing words. Instruct students to put papers aside because they are going to answer some true/false questions about what they have just read.

1. 98.6 is a normal temperature.
2. If you have a temperature of 101°, you are sick.
3. Take your child's temperature only if she says she doesn't feel good.
4. Oral temperatures are 1° higher than rectal temperatures.
5. Call your doctor if a fever lasts more than three days.
6. If a child has a fever, remove extra clothes.
7. Drink a lot of milk if you have a fever.
8. Give a child with a fever a sponge bath every 10 minutes.

4. Do substitution drills. Add any additional pertinent structures or vocabulary. Assign worksheet #2 (this could also be a homework assignment).

5. Practice making telephone calls to the school nurse to report an absence. Order teleprompter from the telephone company. Then have students copy the sample absence excuse.

6. Discussion. To prompt participation in a class discussion, ask some of the following questions:
   1. What do you do when your kids are sick?
   2. Do you have any "rules" for sick kids?
   3. Are your kids sick very often?
   4. How do you treat colds? the flu? upset stomach?

Perhaps the teacher might want to bring in samples of remedies for illnesses, such as tylenol, aspirin, Pepto Bismol, Donogel, etc.

7. Conversation #2 can be given as an additional homework assignment for more advanced students.
ATTENDANCE AND ILLNESS

Conversation:

Mrs. Chang: It's 7:30. Get up.
Chan: I'm sick.
Mrs. Chang: What's wrong?
Chan: I'm hot. I can't go to school.

Care of Small Child with Fever

FACT SHEET

1. A fever is any body temperature which is above normal. Normal temperatures vary from person to person, but generally range from 97.7°F to 99.5°F. Slight changes in body temperatures occur naturally, depending on time of the day and activity of the child, and should not be of concern. Temperatures of 101°F and above, however, are generally due to illness.

2. The most common cause of fever in children is infection, usually of the respiratory tract.

3. You should check your child's temperature if you notice the following signs:
   - Skin is hot to the touch.
   - Skin is pale or unusually flushed.
   - Breathing is unusually fast or slow.
   - Signs of a cold such as coughing, sneezing or a running nose.
   - Your child says he or she isn't feeling well.

4. When you take your child's temperature remember that rectal temperatures are 1°F higher than oral temperatures. The average normal oral temperature is 98.6°F and the average normal rectal temperature is 99.6°F.

5. Discuss with your doctor what temperature he or she considers dangerously elevated and when you should call about an elevated temperature. In general, call your doctor if you notice any of the following:
   - A temperature above 101°F for more than 24 hours.
   - A temperature of 103°F or higher.
   - Any fever that lasts more than 3 days.
   - Any twitching, shaking or convulsions in conjunction with a fever.

6. Things you can do to lower elevated temperatures at home:
   - Keep your child cool. Remove excess clothing. A shirt and diaper are enough.
   - Increase fluid intake if child can tolerate juices, soft drinks or water. Avoid milk products.
   - Give sponge baths, using tepid water. Do not use alcohol or cold water. For best results give a sponge bath for about 10 minutes.

7. A child's temperature should be checked regularly (every 4-6 hours) while it is elevated and the child has signs of illness.

Comprehension - True/False: If the sentence is true, write T. If the sentence is false, write F.

1. Mrs. Hernandez is calling the Placement Office.
2. Her son is ill.
3. Her son cannot go to school.
4. Her son cannot do his school work.
5. The Guidance Office will send the son's work home.
6. Mrs. Hernandez wants a homebound tutor for her son.
Fill in the blanks:

1. Mrs. Hernandez calls ____________________
2. She asks for ____________________
3. Her son has ____________________
4. The school will send home his ____________________
5. ____________ can pick up the homework at 3:30.
6. ____________ is a teacher who goes to a student's home.

Idiomatic Expressions

1. Pick up (Go to a place to get something or someone. Example: Pick up groceries, pick up friends)
   a. Pick up the assignments at the Guidance Office.
   b. Pick me up in front of the school.
2. How about? (Used to question. Would you like to do something?)
   a. How about a cup of coffee?
   b. How about calling the school?
3. By the way (Incidentally, an afterthought. Oh, I forgot).
   a. By the way, I like your car.
   b. By the way, call the Guidance Office.

Substitute the idiomatic expression for the words in parenthesis:

1. (Would you like) to talk to a counselor? ____________________
2. (I'll be waiting for you) in front of the school. ________________
3. (Can you) tell me what assignments he missed? ____________________
4. (Incidentally), you must write an excuse for the Attendance Office. ____________________
5. (Would you like) to meet with your son's teachers? ____________________
Objectives:

a. The student will know how to apply for free or reduced lunches.
b. The student will practice asking and answering questions.
c. The student will learn the vocabulary associated with lunch application forms.
d. The student will be able to complete a lunch application form.

Grammatical Focus:

a. "How much" and "How many" followed by appropriate nouns.
b. Questions using what, how, and how much with the auxiliaries do, can, is, and does.
c. Syllabication.
d. Speech reduction: What do you mean (Whaddyamean); I don't know (I donno); How do I (Howdoi) etc.

1. Present conversation #1 following the procedures detailed in Lesson 1. (Teacher models the conversation, students listen. Students do cloze exercise. Teacher models again. Students answer comprehension questions. Students practice conversations as groups and then with partners.)

2. Focus on vocabulary words listed after the conversations. Try to get the students to explain the meanings of the words and to give examples of each when appropriate. Review syllabication rules. Ask students to mark the syllable divisions for each word.

3. Class discussion: Ask students the questions listed below to get them talking to each other. Control the discussions by following the procedures below.

Questions

(1) What are some other expensive things today?
Make a list of expensively, moderately, and inexpensively priced things.

(2) What do you send with your children to school for lunch? What do you prepare for lunch at home?

(3) What is a nutritious meal?

(4) What are some other things that can be purchased at reduced prices?

(5) Where can you buy things at reduced prices?

Procedures:

a. Divide class into pairs.
b. Pairs take turns asking and answering questions. Allow 3-5 minutes for each question. Announce times, tell students when to go on to the next question.
c. Meet as a whole class again and ask the "pairs" about their answers.
d. Put student answers on the blackboard.
4. Lunch application form: Before the students complete the form, review number pronunciation by giving a number dictation:

(a) $392.43  
(b) $49.25  
(c) $4,554.39  
(d) 7,692.11  
(e) 38,941.23  
(f) 8,247.00  
(g) 15,394.00  
(h) 26,950  
(i) $598.99  
(j) 17,844.22. Some oral practice of the numbers which appear on the forms would also be appropriate.

5. Conversation #2: Follow same procedures as for Conversation #1. The vocabulary assignment should be done in class and then discussed. Additional work in the form of sentences to write may be assigned. Derivations of the vocabulary words may be of interest to advanced students.

6. Dialogues: Each student should complete the dialogues individually. Then pairs of students can practice their dialogues while the teacher walks around the room listening to the students.

7. Dictation: The following sentences contain vocabulary from the two conversations and the lunch application form.

(a) Children should eat nutritious lunches.
(b) Are you eligible for a free lunch?
(c) The guardian should fill out an application.
(d) Nobody gets a break these days.
(e) At least we aren't discriminated against.

8. Asking questions: Introduce this section by first reviewing the position of auxiliaries in asking questions. Present some problem statements which can be responded to by using the questions listed.

9. How much/How many: Additional practice. Remind students that how much is used with mass or non-count nouns, and that how many is used with count nouns.

10. Two word verbs: The following two word verbs are used in the two conversations:

<table>
<thead>
<tr>
<th>Verb</th>
<th>Sentence</th>
</tr>
</thead>
<tbody>
<tr>
<td>hate to</td>
<td>I hate to diet or I hate to cook.</td>
</tr>
<tr>
<td>apply for</td>
<td>Ask students what they hate to do.</td>
</tr>
<tr>
<td>depends on</td>
<td>What kinds of things do people apply for? (credit cards, loans, mortgages, library cards, jobs)</td>
</tr>
<tr>
<td>turn down</td>
<td>What are you doing on Saturday? That depends on: the weather my husband</td>
</tr>
<tr>
<td>find out</td>
<td>I turned down a job. I turned down a dinner invitation.</td>
</tr>
<tr>
<td>look at</td>
<td></td>
</tr>
<tr>
<td>fell out</td>
<td></td>
</tr>
</tbody>
</table>

Additional oral practice may be necessary before students complete the written assignments. For example:

Say, (a) I hate to diet or I hate to cook. Ask students what they hate to do.
(b) What kinds of things do people apply for? (credit cards, loans, mortgages, library cards, jobs)
(c) What are you doing on Saturday? That depends on: the weather my husband
(d) What are some things you've turned down lately? I turned down a job. I turned down a dinner invitation.

Mrs. Wong: Everything is so expensive these days.
Mrs. Perez: Yeah, I hate to even go grocery shopping anymore.
Mrs. Wong: Well, at least the kids get a break on their lunches.
Mrs. Perez: What do you mean?
Mrs. Wong: A nutritious lunch only costs about 20 cents at the high school.
Mrs. Perez: No, it doesn't. It costs 85 cents.
Mrs. Wong: Not if you're eligible for the reduced price.
Mrs. Perez: Oh, that's only for poor people.
Mrs. Wong: No, it isn't. The price depends on your family size and income.
Mrs. Perez: How can I find out if I am eligible?
Mrs. Wong: Just fill out an application form.

Dear Parent or Guardian:

The Glenbrook and Addison Trail High Schools serve nutritious meals every school day. Students may buy lunch for eighty-five cents ($0.85) and extra milk for seven cents ($0.07). Children whose parents or guardians are eligible, or who do not agree with the school's decision, have a right to a fair hearing. Under the provisions of the policy, Superintendent, Assistant Principal, Addison Trail High School, and Mr. Donald Ayers, Assistant Principal, Addison Trail High School, will review applications and determine eligibility. If a parent is dissatisfied with the ruling of the official, he may appeal either orally or in writing to Ms. V.A. Jones, Assistant Superintendent of Educational Services, 1250 South Arcade Avenue, Villa Park, Illinois, telephone number 550-1400, extension 315, for a hearing to appeal the decision. The policy continues an existing federal program. Each school and the District Business Office has a copy of the complete policy which may be reviewed by any interested party.

If there is a change in your family's income due to reasons such as unemployment or if there is a change in your family's size, please contact us. This change may make your children eligible for reduced price meals, or for additional benefits such as free meals and milk.

If we are of any further assistance, please contact us.

Yours very truly,

Assistant Superintendent
for Business

CONVERSATION #2

Mrs. Perez: Some help you are.

Mrs. Wong: What do you mean?

Mrs. Perez: Well, I applied for free lunches for my kids and I was turned down.

Mrs. Wong: Why?

Mrs. Perez: I don't know.

Mrs. Wong: So what are you doing to do about it?

POSSESSIVES AND CONTRACTIONS WORKSHEET

POSSESSIVES:  (1) An apostrophe s ('s) shows ownership or belonging.
               (2) Add apostrophe s ('s) if a noun does not end in s.
                   Add s apostrophe (s') if a noun ends in s.
               (3) Only nouns can be made possessives with apostrophe s ('s).
                   Example: Takemi Shigata's mother = the mother of Takemi Shigata.

Complete the following sentences using possessives.

1. Mrs. Shigata calls __________ Math Department.
2. __________ teacher is Mrs. Jones.
3. Mrs. Shigata is __________ wife.
4. Teaching is __________ job.

CONTRACTIONS: Contractions are shortened noun + verb or verb + not combinations. The apostrophe (') shows that letters have been eliminated. The apostrophe (') does not show ownership or possession.

Important Note: If a word is contracted, pronounce it as a contraction. Say I'm, not I am.

These are the contractions used in Conversations #1 and #2. Write out the complete words for each. Example: I'm = I am.

1. We're ________
2. He's ________
3. I'd ________
4. haven't ________

List some other examples of contractions in English:

1. ________ = ________
2. ________ = ________
3. ________ = ________
4. ________ = ________
5. ________ = ________

37
INFINITIVES: Read the following lines from Conversation #2.

1. I'd like to be connected to the Math Department.
2. I'd like to speak to Mrs. Jones.
3. Remind him to do his homework.
4. It was nice to talk to you.

Note: An infinitive is really two words, to + the plain form of the verb. The two words work as a unit. This unit is used in noun positions in sentences.

Complete the following statements using infinitives.

1. I'd like __________ for dinner tonight.
2. They'd prefer __________ shopping tomorrow.
3. She'd like __________ after school today.
4. It was nice __________ them.
5. Remind me __________ today.
6. I want __________.
8. You'd prefer __________.

OBJECTIVES

1. The student will practice contacting teachers by telephone.
2. The student will be able to read and understand the abbreviations used on report cards.
3. The student will be able to understand the vocabulary used on the interim grade notice.

GRAMMATICAL FOCUS

1. Idiomatic expressions such as "what about", "what else", "how long has this been going on".
2. Wh-fronting
3. Possessives/Contractions
4. Infinitives
5. Negative answers
6. Tag questions
7. Minimal responses/Complete responses

1. Present conversations #1 and #2 following the procedures detailed in Lesson 1. More advanced students might be asked to rewrite Conversation #1 so that the meaning is the same but different words are used. For example: "Is there any mail for me today?" "Yes, there is a letter from the school." etc.

2. Possessives and contractions worksheet: Some oral practice using possessives should be done before assigning this page. Give each student something - a pen, checkbook, comb, keys, etc. Ask to whom each item belongs. Then write the names of the students with the items on the board. For example: Loi's book, Heli's pen, Nanaki's checkbook, etc.

When practicing contractions, stress that if a word is contracted the student should pronounce it contracted. Say, "I'm", not "I am".

3. Infinitives: Again some oral practice is advisable before assigning this page as independent work.

4. Reading high school report cards: Many words are abbreviated. Make certain students understand the abbreviations. For additional practice reading and understanding abbreviations, give each student a want ad from the newspaper. Ask them to write the ads in complete words and sentences. Write the abbreviations on the board. Show students how some words are abbreviated by eliminating vowels (bed set) and others by eliminating the end of the word (C B radio).
5. The vocabulary on the interim report is quite difficult and may need a lot of explanation. Instead of students looking up the meanings of the words in their dictionaries, give examples that students can understand, such as: Eva is 5-10 minutes late to class every night. Yoko has been 10 minutes late only twice. See how many of the vocabulary words can be substituted by synonyms which are easier to understand.

6. Idiomatic expressions: After the oral and written practice using these expressions, students should complete the following listening exercise:

1. May I help you?  A. Do you want some help?
2. What else?  A. Anything more?
3. What about?  B. Why?
4. How long has this been going on?  B. What have you been doing?
5. What about?  A. What's the subject?
6. May I help you?  B. Can you help me?
7. How long has this been going on?  A. How long has this been happening?
8. What else?  A. Is there something else?

7. Page 12. The final worksheet is optional. Use this only if students need practice with these structures.

Using realia, ask questions orally after the vocabulary and structures have been drilled.

Listening - Ask questions while showing realia. Student writes answers on worksheet. Use any order you want.

What is this?  It's a ________.
What's this?  This is a ________.
What are these?  These are ________.
What are they?  They are (They're) ________.

Use these items: This is / It's ... (a letter, a schedule, a textbook, a bus pass, a report card, a student I.D.)

It's an ... (envelope, announcement, emergency card, overdue notice)
8. Role plays: Students should take turns calling teachers to ask about their children's progress. Make up some problem cards to get people started. For example:

   a) The P.E. teacher called because your daughter refuses to take showers after gym class.

   b) The librarian says your son has five books that have been overdue for a month.

Others:
OBJECTIVES

1. The student will become aware of school regulations concerning parking and bus transportation.
2. The student will become familiar with extra curricular activities for her children.

GRAMMATICAL FOCUS

1. have, want, would like, followed by infinitives
2. idiomatic expressions - pick up, drop off
3. prepositions - in front of, nearby, close to, about, at, in
4. either/or
5. subjunctive

1. Present conversations following procedures already established.
2. Using infinitives: Do this page orally. Point out that there is no infinitive after must.
3. Pages 5 and 6 provide additional practice with vocabulary and structures used in the conversations. Page 5 should be completed orally as a class and Page 6 individually in writing.
4. Conversation #3 should be presented in the same fashion as #1 and #2.
5. Preposition practice using about, in, at. Stress that about as used on Page 9 means approximately. If it is not too confusing for the students, you might discuss other uses of about after the exercises have been completed. (How about a cup of coffee? and The t.v. show is about a famous athlete.)

Page 10 provides practice using at for specific times and in for a particular location. For example: At 9:00 a.m. Mary is in math class.

6. Page 11, which lists some of the clubs students can join at Addison Trail High School probably contains many new vocabulary words. Review syllabication rules and help students pronounce the unfamiliar words. The subjunctive (if I were) can be used without going into lengthy explanations of its use unless students request some.

OBJECTIVES

1. The student will learn who works in the schools.
2. The student will learn who to contact for particular school-related problems.
3. The student will practice making telephone calls to school personnel.

GRAMMATICAL FOCUS

1. Wh-fronting
2. Suffixes -ion, -ist, -er, -ance, -or, -ies
3. Prepositions - of, in, at, to, for

LESSON NOTES

1. Present dialogues as in previous lessons. This unit has a lot of difficult vocabulary in the form of job titles. Spend some extra time on pronunciation. After the cloze and comprehension exercises and oral practice, give a short dictation of some of the sentences in the conversation. Also, you might consider providing some mixed up sentences to unscramble.

2. Prepositional Phrases: Extensive oral drill should be part of this unit. The work sheet can be a homework assignment. As a supplement, consider using the "Jazz Chant" by Carolyn Graham titled, "Meet Me in the Morning." The preposition cloze should be done with a partner. Students can also take turns reading it aloud.

3. Conversation #2: This may be presented one of two ways. You might want to write each line on a separate piece of paper and give one line to each student. Students should be able to pronounce all words in the sentences. Have them memorize their lines. Then the students can work together as a group to arrange the lines in the correct order. You should collect the papers so this is an oral, not written, assignment. Or, just follow the directions on the student work sheet. Complete this portion of the assignment with a dictation.

4. Suffixes: Bring in pictures of jobs people do. Try to find -er, -ist, -ian endings. Drill with pictures before assigning the written material in the learning packet.

5. Plural Nouns: The focus is on changing -y to -ies when adding -es. Review noun plurals, focusing on irregulars. Perhaps some flash cards might be useful. This assignment could also be added to, possibly for homework.
6. The two worksheets listing phone extension numbers have difficult vocabulary. Practice pronunciation. Practice number reading. Play the number game with two and three digit numbers. Divide the class into two teams. Start out each team with a two or three digit number, say - 492. The first person must say a three digit number that begins with the last digit of the first number. For example: 291. If a person makes a mistake, he is out of the game. Do this until one person is left on each team, or do it as an entire class until only one person is left.

7. The dialogues on the final page of the unit should be done in class with a partner and practiced and performed for the whole group. Also, prepare a list of problems. Give groups of two a problem and have them role play a short dialogue.

8. Engage class in discussion of problems they've had, how they were handled, how American schools are different from schools in their countries, etc.

OBJECTIVES

1. The student will give and take directions
   a. vocabulary - practice in groups
   b. field trips or home visits

2. The student will become aware of the resources and activities available at the local library.

GRAMMATICAL FOCUS

1. continuous verb forms (ing)

LESSON NOTES

1. Before presenting the conversation in the usual fashion, review the following vocabulary words with the class:

   - turn right
   - turn left
   - go north
   - go south
   - go east
   - go west
   - go up (1, 2, 3 blocks)
   - go down (1, 2 blocks)
   - on the corner
   - stop sign
   - stop light
   - intersection
   - near
   - toward
   - across
   - across from

2. Present the conversation in the usual fashion or do the following:
   Write out each line of the story on a separate piece of paper. Give each student a line. Go around the room and make sure each student can read the words. Let students practice their lines. Then give some time for memorization. The students are to give you their lines (you will be the coach in case anybody forgets). Next, as a group, the students should put the lines of the conversation into the correct order. Then have the students present the dialogue to you. Make corrections.

3. Pass out student lessons. Have students take parts and read through the dialogue again. You might want to give a dictation using sentences from the dialogue at the next class session. Do a listening comprehension exercise next. Tell the students that you are going to ask them some questions. They should circle the letter of the sentence that answers the question on their answer sheets.

   (1) Who is talking?
   (2) What is Grace asking Maria?
   (3) Does Maria know where Grace lives?
   (4) Is it hard to find Maria's house?
   (5) Does Maria know where the church is?
   (6) What does Maria mean when she says, "Wait, wait!"
   (7) What does Maria forget?

(Over)
4. Draw a map of school on the blackboard, indicating where the school is in relation to various main streets. For example:

![Map of School](image)

Ask the students where they live in relation to the school (east, west, north, or south). Ask the students how they go to school. Use the vocabulary listed at the beginning of the lesson.

Distribute maps to students. Have them plot where they live on the map. Then draw arrows to the library. Practice giving directions from students' houses to the library. Sample questions to ask students are as follows:

1. What is your address?
2. Do you live north, south, east, or west of the high school?
3. Which main streets do you live close to?
4. What direction is the library from your house?
5. How do you go to the library from your house, from the school?

As an additional activity you might ask students to give directions to each other's houses. Maybe they would even like to ask each other over to visit or for coffee, etc.

5. Problems to solve: Read and discuss each problem. Discuss each one before going on to the next. Use this for listening first. Read aloud. Then ask questions making sure that the ing words are used in the answers. Stress correct pronunciation of ing. (Remind students that they should "smile" when the ng sound is pronounced.)

6. Find out who has and who doesn't have a library card. Enclosed are some library application forms. Let every student complete a form for practice. Make an assignment that requires each student to go to the library to check out something to bring to class next week -- book, magazine, record, picture, etc.

7. Pass out Library Brochures. The students are going to use the brochures to find out about services at the library. See Worksheet. The students can do this assignment individually, in pairs, or in small groups, depending on the size of the class and the ability of the students. (Both classes will have to use Villa Park library material because it is very comprehensive, and I could only get one brochure from the Addison library.)

8. Practice calling the library to register for programs.
Mrs. Ramos and Mrs. Pacione are talking on the telephone. Mrs. Ramos is inviting Mrs. Pacione to her house for lunch.

Grace: Hello, Maria? This is Grace.

Maria: Oh, hi Grace.

Grace: Maria, I'd like you to come for lunch on Friday.

Maria: I'd love to, but I don't know where you live.

Grace: Oh, it's easy to find my house. I'll give you directions on the phone. Do you have a pencil and paper?

Maria: No, wait a minute, I'll be right back. (Pause) Okay, I'm ready.

Grace: Do you know where the church is near the high school?

Maria: Yes.

Grace: Okay. Go south on Locust toward the high school. Turn left at the stoplight before the church and go up three blocks.

Maria: Wait, wait! You're going too fast.

Grace: All right. I'll slow down. Turn right at the intersection of Highland and View. My house is on the corner across from the library. Got that?

Maria: I think so. Let me read it back to you (Maria reads the directions to Grace).

Grace: Yes, that's find. Don't forget. By the way, don't you want my street address?

Maria: Yes, of course. What a dummy!

PROBLEMS TO SOLVE

1. The Quach family is having company. Some friends from California are going to visit soon. They are coming with their children who are the same age as the Quach children. The Soos will be visiting for one week. The Soos are bringing some movies with them that they took the last time they visited the Quaches, five years ago. Mr. and Mrs. Quach do not have a movie projector. What should they do?

2. The Nemri family is ordering a video recorder for their television set. The children are wondering what they will record. Their parents are thinking about how much money video cassettes cost. What should Mr. and Mrs. Nemri do?

3. The Bohnor family is moving to a new house. They are buying new furniture and appliances. They are thinking about decorating the house. They are running out of money for paintings and sculptures. What should they do?

All three families should go to the nearest library. Movie projectors, video cassettes, paintings, and many other things can be borrowed from the library.

USING PRESENT CONTINUOUS

Note: Notice that each ing word underlined above is accompanied by a be auxiliary, is or are. Ing words are not verbs unless they have another auxiliary.

Answer the following questions using complete sentences:

1. Who is having company?
2. What are the Soos bringing?
3. What is the Nemri family ordering?
Do this assignment by yourself, with a partner, or in a group. Read the "flyer" about fall programs at the library. Answer the following questions. Write your answer in the space provided. Use complete sentences.

1. What date can you see a ballet film?

2. What time is the chess tournament?

3. What day of the week are the parenting classes scheduled?

4. Who presented Christmas crafts on October 14?

5. How many times a month does the Friday afternoon craft club meet?

6. How old must children be to go to preschool story hour?

7. How much does it cost to see the Cole Marionettes?

8. When is the Christmas tree decorating party?

9. What film is being shown on Friday, October 31, at 7:00 p.m.?

10. What book is being discussed on December 11?

11. What hours is the library open?

12. What four special services does the library offer? List them.

COMMUNITY ACTIVITIES FOR PARENTS AND CHILDREN

OBJECTIVES

1. Students will become aware of the activities for parents and children offered by the Y'MCA.
2. Students will become aware of the activities for parents and children made available by local park districts.
3. Students will practice completing registration forms.

GRAMMATICAL FOCUS

1. Use of prepositions - at, to, on, about, etc.
2. Would + like
3. Present perfect
4. How much + do (does)
   How much + are
5. Time expressions

LESSON NOTES

1. Model Conversation #1. Let students practice repeating the lines after "you" before you let them see it. Pass out dialogue. Let students do it with a partner. Walk around and listen. Ask for some volunteers to present the dialogue to the class.

2. The cloze for this conversation focuses on prepositions. After students have completed it, provide additional drill on the prepositions at, to, on, about, etc.

3. Comprehension - Practice questions and answers orally before this is given as a written assignment. Take turns asking students what they do on particular days of the week. Have students ask each other as well.

4. I'm sorry, not really, no + present perfect. "Already" can be moved to the final position in each sentence; point this out to students. This page can also be extended by further oral practice on the structures.

5. Conversation #2 is to be used as a reading exercise. Give students time to read silently. Then let them answer the seven questions. Go back and discuss or practice for pronunciation (rhythm and intonation).

6. Conversation #3 - Before presenting this dialogue, have a class discussion about the kinds of things parents in your class do with their children. Find out how many parents have children in Cub Scouts or Girl Scouts or Camp Fire Girls, etc. Find out if anybody has heard of the YMCA programs for fathers and kids. Some background information about Indians in the United States might be in order, depending on the level of sophistication of
the students. Show an organizational diagram of YMCA program. Thoroughly present the vocabulary before beginning the oral practice of the dialogue. Role play some fathers calling for information about the Indian Guide program. The reading comprehension section can be done individually and then checked as an entire class.

7. The section on joining clubs should be done with a partner. Results can be discussed with the class. Put organization titles on the board to discuss "new" ones.

8. Time expressions - Do this section with a partner. Supplement with further oral drills.

9. Identifying Activities Sheet - Do as homework. Perhaps a dictation using the vocabulary would be a good followup.

10. Forms to fill out - Indian Guides and Park district registration are to be done as homework. Check and discuss in class. Ask students to bring brochures if they have them at home.

LESSON 7

CONVERSATION 2

Mrs. Lee: You must spend a lot of money on activities for your children.

Mrs. Wong: Oh, no. Story hour at the library is free.

Mrs. Lee: What about swimming lessons? Aren't they expensive?

Mrs. Wong: Good grief, no. We go to the Lombard YMCA. Lessons are only $18.00 for 7 weeks.

Mrs. Lee: Well, what about the ballet lessons?

Mrs. Wong: They're cheap too, only $15.00 for 10 weeks. Lian takes ballet at the Park District.

Mrs. Lee: And your exercise class?

Mrs. Wong: That's through the YWCA.

Mrs. Lee: How did you find out about all those activities?

Mrs. Wong: I read the local newspaper.

Mrs. Lee: I guess I should too. No wonder I can't find someone to have coffee with in the afternoon. Everybody's busy but me.

CONVERSATION #3

Mr. Ikata: I'd like to spend more time with my children.

Mr. Morales: How old are they?

Mr. Ikata: My son is five and my daughter is seven.

Mr. Morales: Why don't you join the Indian Guides and Indian Princess program at the YMCA?

Mr. Ikata: What's that?

Mr. Morales: Fathers and their children are formed into tribes that meet twice a month.

Mr. Ikata: What do they do at the meetings?

Mr. Morales: They do a craft and have a snack. Once a month there is an activity for the whole Nation such as camping or bowling.

Mr. Ikata: It sounds interesting. How do I join?

Mr. Morales: Call the Nation Chief, John Moltby at 627-7180 to join Indian Guides, and call Ron Foresman about the Indian Princess program at 627-1491.

Mr. Ikata: Thanks. I will.

102
OBJECTIVES

1. Students will become aware of the school holidays, commemorative days, and special occasions which are celebrated in the spring.
2. Students will discuss special occasions and holidays which are celebrated in their native countries.

GRAMMATICAL FOCUS

1. Use of can/could
2. Use of may to request permission
3. Affirmative/negative responses to questions

LESSON NOTES

1. Do not pass out the dialogue to the students until it has been modeled. Then give students the comprehension questions and ask them to listen carefully to the dialogue as it is modeled again. Ask students to fill out the cloze section. Pass out the dialogues. Students should be able to correct their cloze answers. Circulate around the room to see how students did. The class can then repeat each line of the dialogue after the teacher. Divide students into pairs and have the pairs practice the dialogues. Ask for volunteers to do dialogues for the rest of the class.

Depending on the ability of the students, discuss the differences in meaning between may I (permission, likelihood, probably) and can I (ability).

Practice making requests using may and asking for ability using can. See worksheet.

NOTE: Auxiliaries shift position when one is asking questions.

I can write English. [Present]

Can I write English? [Present]

Stress that auxiliary shows tense, not the main verb (no endings on verb are needed).

In drills, have students practice both short, as well as complete, answers. Circulate and listen for pronunciation.

Suggestion: Lower level students might be assigned present tense drills only. For simplicity's sake, might has not been included in this lesson, but it can be added by the teacher.
Optional - Ask a student what time his children go to bed on school nights. Do a chain drill with the rest of the class. One student asks the question and another answers.

2. Calendars - Distribute to students. Explain what (no school) and (special day, but not a holiday) mean. Ask students how many days there is no school each month to check number recognition.

Write the following words on the blackboard:

Valentine's Day  Casimir Pulaski  Records Day
St. Patrick's Day  Good Friday  Memorial Day
Lincoln's Birthday  Institute  April Fool's Day

See if students can explain what each day is. If possible, show students' symbols associated with as many of the days as possible.

4. Matching - Assign this for homework.

5. Word Find - This can be done as homework also.

6. Free conversation - Discuss the various holidays students celebrate in their own countries. Are businesses closed? Are banks and offices open? Is mail delivered?
LESSON 8

SCHOOL HOLIDAYS (SPRING)

Frank: "Mom, may I stay up late tonight?
Mrs. Su: No, of course not. Tomorrow is a school day.
Frank: No it isn't!
Mrs. Su: Why isn't there school tomorrow?
Frank: It's Lincoln's birthday.
Mrs. Su: Oh, I forgot. You may stay up half an hour later than usual.
COMPREHENSION

1. When does Frank want to stay up late?

2. What does Mrs. Su say?

3. Is there school tomorrow?

4. Whose birthday is it?

5. How late may Frank stay up?

CLOZE - Complete the dialogue by putting a word in each blank space.

1. Mom, I stay late?

2. of course.

3. Tomorrow a day.

4. isn't there ?

5. It is .

6. You may half extra.
LESSON 8

Can/Could

*Note*

Can is used to question or indicate present ability to do something. Could is used to indicate past ability.

For example:

Can you read?  
Yes, I can.

Can she drive?  
Yes, she can.

To show inability, add not or n't

Can they play baseball?  
No, they can't.

Ask a partner if she/he can...

1. speak English?  
2. write English?  
3. go to Dominicks?  
4. drive to school?  
5. stay late tonight?  
6. go out for coffee?  
7. talk on the phone?  
8. visit her child's school?

Ask a partner about the past. Use could in the answers.

For example:

Could your husband drive a car last year?  
Yes, he could.

1. speak French last year?  
2. write English last month?  
3. talk to the children's teachers on the phone last October?  
4. vote in the last election?  
5. go to a basketball game last Saturday?  
6. attend the last parent teacher meeting?  
7. ride the bus to work yesterday?

- 6/11 Teachers' records day
LESSON 8

*Note

May is used to ask permission.

May I leave early?
May I see a picture of your daughter?

May is used to show probability or likelihood.

I may be late for class tonight.

Ask for permission to do the following:

1. use the telephone
2. leave the room
3. get a ride home
4. practice speaking English with someone
5. visit someone's home
6. discuss tonight's lesson
7. see a driver's license
8. borrow a pen
Use the calendar to answer these questions. Then practice the questions and answers with a partner.

**SAMPLE**

February 12th is Lincoln's Birthday, isn't it?

1. May 22nd is Good Friday, isn't it?

2. June 11th is Teachers' Records Day, isn't it?

3. April 20th to April 24th is Spring Recess, isn't it?

4. February 13th is a Teachers' Institute, isn't it?

5. May 25th is Memorial Day, isn't it?

6. April 7th is a state commemorative holiday, isn't it?

**SAMPLE**

SAINT PATRICK'S DAY, APRIL FOOL'S DAY.
OBJECTIVES

1. The student will be able to telephone and write to her child's teacher asking to visit the class.
2. The students will visit their child's class.
3. The students will complete a parent-conference schedule.
4. The students will learn vocabulary associated with pupil report cards.

GRAMMATICAL FOCUS

1. Contrast - What are you doing?/How are you doing?
2. Selected idiomatic expressions
3. Present continuous
4. Can/Does -> Affirmative and negative responses

LESSON NOTES

1. Prior to beginning the dialogue, discuss the following terms:
   - Room mother: Ask each student who the room mother is in their child's class. Talk about what room mothers do.
   - Parent conferences: Find out how many parents have attended conferences this year. If possible, talk about problems people had at the conferences.

2. Present dialogue orally. First students should listen and then attempt to repeat each line after the teacher. Stress rhythm and intonation. Do not give packet to students until this has been done. Next, pass out the cloze exercises. The teacher should present the dialogue again, orally, while the students attempt to fill in the blanks. The comprehension questions can be done orally as a pair practice or as a written assignment.

3. What are you doing?/How are you doing? Teacher should model. Students practice as an entire group and then with a partner. If possible, find pictures to show with part 2.

4. Tasks 1-3 in the next section involve practice phone calls and writing letters asking to visit school. Students will probably need considerable time to complete the written parts and practice oral parts. Find out if anybody has visited school this year. Discuss their feelings. Talk about what expectations parents.
have about what happens in American classrooms. Stress that students should really call or send their letters in to make appointments to visit school immediately. Follow up in a week or two.

5. Parent conferences: Most parents have probably been to at least one this year. Talk about what happened. Discuss any special problems people had in talking to the teacher.

Pass out the sample report card. Stress that it is for kindergarten only. Explain the grading system. Use the report cards for a listening assignment. The questions for you to ask the students about the report card (page 7) are:

1. Does Eric take turns?
2. Does he finish his work on time?
3. Can Eric say his telephone number?
4. Can Eric write his first name from memory?
5. Does Eric understand rhyming?
6. Can he recognize and name colors?
7. Does Eric associate consonant sounds with their letters?
8. Can he tie his shoes?

Optional - To see if parents understand the items they were questioned about on the listening test, have students demonstrate taking turns, finishing work on time, etc. Show various colors and have students name them. Review consonant sounds by producing sound and having students write the appropriate letters on their papers. Play a game with rhyming words. Add any other appropriate items from the report card.

CONVERSATION AT A ROOM MOTHERS' MEETING:

MRS. VELLES: Hello, Mrs. Tran. It's nice to see you again.

MRS. TRAN: Hello. It's nice to see you, too.

MRS. VELLES: How is your son doing in school this year?

MRS. TRAN: Okay, I guess. He had a good report card, but I don't really understand what he does all day. He never has homework.

MRS. VELLES: Why don't you visit his class?

MRS. TRAN: What do you mean? I've talked to his teacher already at the parent conference.

MRS. VELLES: The school handbook says parents are encouraged to visit their child's classroom during the school year.

MRS. TRAN: Really? I didn't know that. My son never said anything about visitors.

MRS. VELLES: Why don't you call the school and make an appointment to visit his class?

MRS. TRAN: Thanks. That's a good idea. I'll call tomorrow.
LESSON 9 - KEEPING IN TOUCH WITH THE SCHOOLS

CLOZE: Complete the following sentences from the conversation on page 1.

1. It's _______ to see you _______.
2. How is your son _______ in school this year?
3. He _______ has homework.
4. _______ do you mean?
5. _______ school handbook says _______ are encouraged _______ visit their child's classroom _______ the school year.
6. _______ didn't know _______.
7. Why _______ you call and _______ an appointment _______ his class?
8. Thanks. _______ a good _______.

Answer the following questions in complete sentences.

1. Where are Mrs. Veles and Mrs. Tran?
2. Do the two women know each other?
3. Have the parents met their children's teachers?
4. Where does it say parents can visit classrooms?
5. Does Mrs. Tran think it is a good idea to visit her son's class?
How are you doing? What are you doing?

Practice the following questions and responses with a partner.

**Part I**

1. Q.: How are you doing?
   A.: Fine, thank you.

2. Q.: How are you doing?
   A.: Not so bad.

3. Q.: How are you doing?
   A.: Great! How about you?

4. Q.: How are you doing?
   A.: Things could be better.

5. Q.: How are you doing?
   A.: Okay. What about you?

6. Q.: How are you doing?
   A.: Oh, I'm getting along okay.

**Part II**

1. Q.: What are you doing?
   A.: I'm reading a book.

2. Q.: What is she doing?
   A.: She's writing a letter.

3. Q.: What is he doing?
   A.: He's doing his homework.

4. Q.: What are you doing?
   A.: I'm folding laundry.

5. Q.: What are you doing?
   A.: We're thinking.

6. Q.: What are you doing?
   A.: I'm watching t.v.

7. Q.: What are they doing?
   A.: They're listening to the radio.
You are going to call your child's school and write a letter to your child's teacher asking if you can visit your child's classroom.

Task #1: Complete the conversation below in your own words.

School Secretary: Hello. Ardmore School.
Parent: Hello. My name is __________. My son goes to your school. I'd like to make an appointment to visit my ________ class.
Secretary: What grade is ________ in and who is ________ teacher?
Parent: ________ is in ________ grade. ________ teacher is ________.
Secretary: When would you like to visit?
Parent: On (day of week) (month) (date), if that's possible.
Secretary: I'll have to check with ________ and let you know.
Parent: That would be fine. Could you call me back?
Secretary: Yes, of course.

Now practice the conversation with a partner, exchanging parts. Do this until both of you feel you could say this on the telephone. Remember to speak loudly.
Task #2. Now write a letter to your child's teacher asking if you may visit the classroom. Copy the letter that follows or write one of your own.

(Month, Day, Year)

Dear (Mr./Mrs.)_________

I am interested in visiting my (son/daughter)__________'s classroom to see what (he/she)_________ does during the day.

Please let me know when it would be convenient for me to visit.

Sincerely,

(Parent signature)

Copy once for practice in the space below. Let your teacher check your letter. Then write it again on your own paper.

Task #3. Either call or send the letter you wrote to school tomorrow. Let your teacher know when you are going to visit.

Make your visit. Report back to the class about what you saw and learned. Did you find what you expected? Talk about how different school in the United States is from school in your country. What is good and what is bad about education in the United States?
Read the letter below. It is from your child's teacher who wants you to attend a parent/teacher conference.

February 26, 1981

Dear Parents:

In two weeks I will be talking with parents about how their children are doing in school. Please tell me when it would be convenient for you to come to school to meet with me. Put an X in front of the day of the week and the time that you'd like to see me. Return this to school immediately so I can complete the schedule.

UNDERSTANDING A REPORT CARD/LISTENING

Look at the kindergarten report card. Your teacher will ask you some questions about it. This report card belongs to a five year old boy named Eric. Circle the response that correctly answers your teacher's questions.

1. (Teacher asks question) (You respond) Yes, he does. No, he doesn't.
2. (Teacher asks question) (You respond) Yes, he does. No, he doesn't.
3. (Teacher asks question) (You respond) Yes, he can. No, he can't.
4. (Teacher asks question) (You respond) Yes, he can. No, he can't.
5. (Teacher asks question) (You respond) Yes, he does. No, he doesn't.
6. (Teacher asks question) (You respond) Yes, he can. No, he can't.
7. (Teacher asks question) (You respond) Yes, he does. No, he doesn't.
8. (Teacher asks question) (You respond) Yes, he does. No, he doesn't.
Dear Students and Parents:

Report cards have two major purposes. One is to help students understand their strengths and direct their energies toward areas where study is needed. A second purpose is to communicate with parents what children are learning and how well they are progressing.

This card provides information in both areas: there is the identification of the subject areas within which a student is working and a check-mark system to identify the degree to which a student understands the specific skills within the subject. The report goes further to identify the degree to which a student is exerting reasonable effort toward subject/skill mastery. Your understanding of these parts of the report can guide home and school efforts toward improved achievement.

District 45 is dedicated to the highest level of communication possible among school personnel, students, and parents. This report is part of that communication. We also strongly encourage continual communication between home and school through conferences, both personal and by telephone. The involvement of all of us is needed to encourage good habits of study and citizenship as well as academic achievement.

Best wishes for a successful school year.

Assigned to Grade for the next school year.
EXPLANATION OF MARKING SYSTEMS

Two marks are used to report your child’s progress in school. The one is a letter to grade your child’s success in gaining good study habits and good behavior. Letters are also used to report the effort your child is making in school. The second system uses check marks to indicate the particular skills or topics of the subject areas your child is studying.

LETTER MARKS

This symbol Means
C. = SPECIAL COMMENDATION Your child is making exceptional growth or effort — excellent for him or her.
P. = ACCEPTABLE PROGRESS Your child is making the kind of progress or effort that would be expected of him or her — average for him or her.
I. = IMPROVEMENT IS NEEDED Your child is not making the kind of progress or effort he or she should be expected to make — capable of doing better.

CHECK MARKS

The check (√) list system uses the squares and headings shown at the right. They report your child’s understanding of the more important topics or skills in a subject area.

A check (√) under the heading Indicates
GOOD UNDERSTANDING Your child has been working on this topic or skill and has achieved the degree that would be expected of a child at his or her level of performance.
WORKING TOWARD UNDERSTANDING Your child is presently studying this topic or skill and is making good progress on it but has not yet fully learned it.
IMPROVEMENT NEEDED Your child is presently working on this topic or skill but is not making the kind of progress of which he or she is capable. Such a mark will usually be amplified in teacher comments and often indicates something can be done between home and school to help your child.

IF NO CHECK APPEARS OPPOSITE THE LISTING FOR A SKILL OR TOPIC, THIS AREA IS NOT BEING TAUGHT AT THIS TIME.
OBJECTIVES.
1. The students will become aware of the location of the County Health Department satellites.
2. The students will become aware of the services offered by the immunization clinics.
3. The students will learn health related vocabulary.
4. The students will learn and use selected idioms.

GRAMMATICAL FOCUS
1. Syllabication and pronunciation of health related vocabulary
2. if/should clauses
3. have/has + had (past perfect with have auxiliary)
4. answering questions using appropriate auxiliaries in responses

LESSON NOTES
1. Dialogue #1: Discuss the following vocabulary words before you introduce the first dialogue.
   (1) money tree
   (2) physical examination
   (3) immunization
   (4) County Health Department
   (5) pediatrician
   (6) satellite office
   (7) medical care

   Ask each student if he/she has heard of the County Health Dept. or has used its facilities. Find out who has a pediatrician. Ask the names of the students’ doctors and where they practice.

   Draw a map on the board showing where the County Health Dept. offices are located.

2. Model dialogue several times. There are many difficult structures and the vocabulary may be troublesome. Distribute the cloze exercise and have students fill in the blanks while you read the dialogue again. Then students should practice the dialogue with a partner. Finally, several students can "perform" the dialogue for the rest of the class.
3. Listening Exercise: Read each statement or question twice. Students will circle the response that best fits each statement.

1. Call the doctor for me, please.  (c)
2. I want to see you after class.  (b)
3. You must be joking.  (a)
4. I saw a zebra walking down the street.  (b)
5. Do you have a family doctor?  (a)
6. I wish I had a million dollars.  (b)

Dialogues: Do make certain students understand and can use the expressions from the conversation between Mr. Su and Mr. Ferrerra. Have them complete the semi-structured dialogues with a partner. Stress that these should be original dialogues.

4. Distribute the blue pamphlet called "Immunization Clinics". Depending on ability level of the students, have them practice saying the names of the diseases. Find out if the students' native countries also require immunization against these diseases. For next week, students might even bring in their children's immunization cards to discuss in class.

Complete work sheet. (Before doing so, demonstrate where diseases cause discomfort or trauma. For example, show students where their glands in the neck are. Draw a picture of a person with swollen glands, etc.)

5. Worksheet II. Common childhood diseases. Have the students read the information silently. Then ask some comprehension questions to see what they recall. Part II can be done orally first and then in writing.

For additional practice ask students what diseases they have had. Focus on the structures: Have you had _______? Yes, I have (or) No, I haven't. Then ask students to question each other. Finally practice Has she had/Has he had?

Optional: Idioms

Focus on: money trees (If money grew on trees, what would you buy? I'd buy a _______.)

So do we all!

You’re kidding! (You’re joking)

Students may need extra practice on this.
LESSON 10
YOUR CHILD'S HEALTH

Mr. Su: Have you seen any money trees lately?

Mr. Ferrerra: What are you talking about?

Mr. Su: Money! I need some.

Mr. Ferrerra: So do we all!

Mr. Su: Well, three of my kids need physicals and immunizations for school. Medical care is so expensive these days.

Mr. Ferrerra: You're right. Why don't you call the County Health Department?

Mr. Su: What for? We have a pediatrician.

Mr. Ferrerra: I know that, but the county immunizes children from two months to 18 years old for free.

Mr. Su: You're kidding!

Mr. Ferrerra: No, I'm not. Call the satellite office near your house.

Mr. Su: What's the number?

Mr. Ferrerra: You live in Addison, don't you?

Mr. Su: Yes, I do.

Mr. Ferrerra: Well, the number is 620-3325.
CLOZE: Fill in the blanks while your teacher reads the dialogue.

Mr. Su: ______ you seen any ______ trees lately?

Mr. Ferrerra: What ______ you ______ about?

Mr. Su: Money! I ______ some.

Mr. Ferrerra: So ______ we all!

Mr. Su: ______, three of my ______ need physicals ______ immunizations for ______. Medical care is ______ expensive ______ days.

Mr. Ferrerra: You're ______. Why ______ you call the County ______ Department?

Mr. Su: What ______? We ______ a pediatrician.

Mr. Ferrerra: I know ______, but the county immunizes ______ from ______ months to ______ years old for ______.

Mr. Su: You're kidding.

Mr. Ferrerra: No, I'm ______. Call the satellite office ______ your house.

Mr. Su: What's the ______?

Mr. Ferrerra: You ______ in Addison, ______ you?

Mr. Su: Yes, ______ do.

Mr. Ferrerra: ______, the number is ______. 
LISTENING EXERCISE

Circle the letter that best responds to each question or statement you hear.

1. a. You're kidding.  
   b. What are you talking about?  
   c. What's the number?

2. a. Yes, I do.  
    b. What for?  
    c. So do we all.

3. a. No, I'm not.

WORKSHEET I

Part I - Matching

1. Mumps a. Whooping cough
2. Polio b. most serious childhood disease
3. Tetanus c. three-day measles
4. Measles d. swelling of glands
5. Diphtheria e. high fever, sore throat, difficulty breathing
6. Rubella f. paralysis
7. Pertussis g. severe muscular contractions in jaw and neck

Part II - Alphabetize the seven diseases listed above. Then divide each word into syllables.

1. 
2. 
3. 
4. 
5. 
6. 
7. 
Common Childhood Diseases - Read the following information and answer the questions.

CHICKENPOX - Isolation not less than six days following eruption. Scabs, if present, must be dry.

GERMAN MEASLES - Isolation not less than four days after appearance of rash.

MEASLES - Isolation until well, usually seven to ten days.

MUMPS - Isolation until all swelling has disappeared.

SCARLET FEVER - If under antibiotic therapy, isolation for a minimum of three days from onset and thereafter until nose, ears, and glands are normal on inspection.

All cases of suspected contagion are to be reported promptly to the school by the parent.

Parents are urged to keep their child at home when the child has a cold, a cough, or a fever. No child is to be readmitted to school whose temperature has not been normal (98.6) for at least 24 hours. An elevation of temperature is accentuated as evidence that complete recovery has not taken place.

Pupils with a temperature of 99.6 or over will normally be sent home from school as a precautionary measure.

1. If your child has the mumps, when can your child return to school?

2. If your child gets chickenpox, how many days should the child be isolated?

3. If your child has the German measles, how long should the child stay home?
LESSON 10

WORKSHEET II (con't).

4. If your child gets measles, how long should your child be isolated?

5. If your child has scarlet fever, how many days should your child be isolated?

6. If your child has a fever, how long should your child stay home?

7. What is a normal temperature?

8. Can your child be immunized against chicken pox?

9. Can your child be immunized against mumps?

10. Can your child be immunized against scarlet fever?
In Case of Illness or Inability to Keep Appointment
Please call and let us know. We will give you another appointment.

Immunization Clinics
A Service to Prevent Childhood Diseases

DuPage County Health Department
What is the Immunization Clinic?
A place where children of families who are unable to provide those services through their own physicians may receive free immunizations against dangerous infectious diseases.

Who Can Attend?
Any child age 2 months to 18 years may attend. A parent or legal guardian must accompany the child. If this presents a problem to you, please call your Satellite office.

Where is it Located?
The Satellite office nearest you. Telephone number and addresses are on the back of this brochure.

How to Use the Service?
Bring all records of immunizations from your doctor or clinic (including records of tetanus received in a hospital emergency room). If you have no records, inform the appointment clerk at the health department office before attending the clinic.

What Happens at the Clinic?
A Public Health Nurse will determine which immunizations your child needs. You will be asked to read and sign a consent form for each immunization.

PREVENTABLE DISEASES
We may immunize against the following diseases. All except Polio are given by injection.

DIPHTHERIA causes high fever, weakness, severe sore throat, and difficulty in breathing. The vaccine is given in combination with tetanus and pertussis (whooping cough). It is known as DTP. The child over 6 years is given tetanus with diphtheria as Td.

TETANUS (Lockjaw) affects the nervous system causing severe muscular contractions, especially in the jaw and neck. It may occur following an injury in which the wound has become infected with tetanus toxin.

PERTUSSIS (Whooping Cough) is a disease of early childhood. Infants may become seriously ill. Immunization is not necessary to children over age six.

POLIOMYELITIS (Polio) attacks the central nervous system and can result in paralysis or death. This immunization is a liquid taken by mouth.

MEASLES is the most serious of the common childhood diseases. In one out of 12 cases, some complication such as ear or sinus infection occurs. In approximately one out of 1,000 cases, a child develops encephalitis (inflammation of the brain). This can cause death or leave the child with a permanent disability.

RUBELLA is generally thought of as a mild, harmless childhood disease, but it is one of the leading causes of birth defects in the United States. When mothers contract rubella in early pregnancy, their babies often have birth defects such as blindness, deafness and heart deformities.

MUMPS is generally considered a mild childhood disease marked by swelling of the glands in the head and neck region and a mild to moderate fever. The effect may be more severe when illness occurs at an older age. Rarely it may result in permanent damage to the central nervous system.

THE TB TEST is not an immunization and DOES NOT protect your child from a disease. The TB test is a simple skin test which shows whether or not an individual has been exposed to tuberculosis germs.
OBJECTIVES

1. The student will become familiar with the variety of services rendered by the county health department.
2. The student will practice making telephone calls requesting information from the county health department.
3. The student will learn the function of the professional and occupational staff who are employed by the county health department.

GRAMMATICAL FOCUS

1. use of selected idiomatic expressions
2. do/does auxiliary with do verb (Example: What does a microbiologist do?)
3. is, er endings
4. who clauses

LESSON NOTES

1. Model the three conversations at least twice. Ask some comprehension questions. Students should then attempt to practice each dialogue orally without seeing the printed words. Stress proper rhythm and intonation for questions and exclamatory statements. After sufficient practice, pass out cloze sheets. Students should finish these by themselves. Then let pairs of students practice the dialogues.

2. For further practice, introduce the semi-structured dialogues. Students can complete these extemporaneously or by writing down their answers on paper first and then practicing orally.

3. Distribute the blue Health Department brochures to each student. Stress that most services listed are free to all residents of the county. Have students look at each of the colored sheets and point out at least one or two services that are described on each sheet. Students might be directed to roll play phone calls inquiring about some of the services. Suggestions: fluoride mouth rinsing, diet counseling, blood pressure screening, vision and hearing screening, etc.

4. Pronounce each professional or occupational listing under the "Who Are The Staff?" section. Have students try to determine the number of syllables in selected words. Review vowel and consonant sounds if necessary.

5. Play an "occupational" game with the students. Give each student a job title (see cards). Give each student a problem (not related to their job title). Students should try to locate the person who can solve their problem. Review the function of each job. Assign worksheets. Do both orally and in writing. Do the oral practice first.

OFFICE OF THE EXECUTIVE DIRECTOR — 682-7400

— responsible for the overall management of the Health Department (5 divisions)
— gives medical direction in matters of health alerting the community when indicated, consultation to physicians in areas of their public health concerns and acts as liaison for concerns of the State Department of Public Health with DuPage County
— works with other health, social and governmental agencies
— cooperates with Health Systems Agency's plans to help meet the needs of DuPage County.

ADMINISTRATION

— provides for budget accountability, computer programming, statistical compilation, personnel, and building maintenance along with the following direct services.

General Information — 682-7400
Directs inquiries to appropriate personnel.

Epidemiology — 682-7558
— Coordinates all communicable disease information, reports and follow-up.
— Provides information regarding immunizations required for foreign travel.

Laboratory — 682-7584
— Performs water quality analysis.
— Performs serological testing, bacteriological cultures.
— Microscopic examination for selected disease control.

ENVIRONMENTAL HEALTH — Engineering — 682-7046
Sanitation — 682-7109

Directed toward control of the major factors in man's physical environment which may have a deleterious effect on health.

Food Sanitation — all establishments which serve or sell food operate under annual permits and are inspected regularly. Follow-up inspections are made when conditions are discovered which require corrective action. Fees charged for permits.

Potable Water Supplies — public water systems are inspected annually and water samples are collected and tested; private wells inspected and sampled on request. Permits are issued by the health department for wells in incorporated communities. The DuPage County Building Department issues permits for wells in unincorporated areas.

Private Sewage Disposal — the design and installation of all private sewage disposal systems within the county are jointly regulated by the county Building Department and the Health Department. Reports of malfunctioning systems are investigated and corrections required whenever system failure is verified.

Mortgage Surveys — when any property served by a private water supply and/or sewage disposal facility is offered for sale, an inspection is made to evaluate those systems. A fee is charged.

Solid Wastes — sanitary landfills are inspected and regulated.

Nuisance Control — complaints such as inadequate garbage disposal, insects, rodents, odors, etc., are investigated and attempts are made to resolve the problem.

Public Swimming Pools — all public swimming pools are inspected every 7-10 days and water samples are collected for laboratory analyses.

EDUCATION AND INFORMATION

Dental Health — 682-7776
— administers weekly fluoride mouth-rinsing to schools to reduce dental decay.
— plans and conducts educational programs, stressing methods for controlling dental disease.
— assesses the oral health of children and adults attending Well Child, School Age/Adolescent and Adult Health Conferences.
— when possible, assists county residents unable to obtain their own dental services.

Health Education — 682-7310
— provides staff and the community with health teaching and resource materials.
— aids in community programming.
— responsible for public relation activities.

John P. Case Library — 682-7272
— maintains a collection of non-fiction titles, medical literature in each library.

Public Swimming Pools

Public health day and night inspections are made of all public swimming pools. Inspections are also made of any pool which appears to be unsafe or should be sanctioned. Water samples are collected and tests are made of each pool every 7-10 days. A fee is charged for this service.

Potable Water Supplies

Public water systems are inspected and tested annually. Water samples are collected and tests are made of each system every 7-10 days. Private wells are sampled on request.

As part of our surveillance program, the Health Department services medical laboratories in the county. Test results are collected from each laboratory and analyzed for trends. Reports are issued to physicians and hospitals.

OBJECTIVES

1. The student will listen to telephone tapes which provide medical information.
2. The student will become aware of additional telephone services (hot lines/dial-a-______).
3. The student will become familiar with selected synonymous expressions.

GRAMMATICAL FOCUS

1. Use of selected idiomatic expressions
2. Answering questions

LESSON NOTES

1. Introduction: This unit will require students to use their home telephones to listen to tape(s). Before beginning the lesson, distribute Tel-Med handouts to students the week before the lesson will be studied so students can listen to Tape #226. Stress that students can call and listen to the tapes as many times as they wish before they answer the listening questions. Go over the worksheet questions orally with students.

The Tel-Med section might be too difficult for students so use discretion in assigning it. Focus on the sections which would be of interest to parents. Tapes are listed under more than one category.

2. Find out how many students have used the following telephone services by asking the questions below. This can be both an information seeking and a listening exercise:

(1) Do you ever call for the correct time?
(2) Have you ever called for the weather report?
(3) Have you ever called 'Dial-a-Joke'?
(4) Do you ever call 'Dial-a-Prayer'?
(5) Have you ever called 'Dial-a-Story'?
(6) Do you call the 'Grammar Hotline' in Bloomington?

Ask students to go home and consult their telephone books to find other 'Dial-a-_____’ agencies.

Talk about hotlines. Ask students if such things exist in their native countries. What do they think about such telephone services?

(OVER)
3. Present Conversation #1 in the usual fashion. (Students listen, then practice as a group and finally in pairs. This conversation will be presented again, conveying the same information but using different words and expressions). Ask some comprehension questions to check students’ listening abilities.

For example: 1. How many people are talking? 2. Who is sick? 3. What's the problem? 4. What is the mother going to do? 5. What is the friend's suggestion? 6. What is the phone number that is given?

4. Present Conversation #2 in the same manner as #1. Give the following dictation to the students. Tell the students how many words will be in each sentence. Say each statement or question only once. Put the correct answers on the board and let the students correct their own papers.

(4) 1. How are you doing? (6) 2. I'm so sorry to hear that. (4) 3. I really don't know. (3) 4. It's my pleasure. (4) 5. What would you do? (3) 6. That sounds okay. (4) 7. Think nothing of it.

5. Listening Comprehension: Distribute worksheets to the students, Instruct them to circle the letter of the answer that would be the best response to the questions you read or the letter of the answer that would mean the same as the statement you read.

1. How are things? 2. What's wrong with her? 3. Do you have the number? 4. Why don't you call the DuPage County Health Dept.? 5. How are you doing? 6. Thanks a lot. 7. My son has been very ill. 8. I had a car accident today. 9. Thank you for your help. 10. What's new with you?

6. Controlled Conversation: Students should complete the following dialogues. It is up to the teacher whether the students can write out the answers ahead of time or just answer extemporaneously.

7. Pass out the yellow health department brochures entitled, "When You Have A Problem". To check students' abilities to read and repeat numbers, ask each student what his/her phone number at work or home is. Give one student a list of about five phone numbers to dictate to the other students. Ask students to read the brochure over. Tell them you will ask them some questions:

1. How much does the service cost? 2. Who will you speak to if you call? 3. How old should you be to use this service? 4. Name three kinds of problems you can get help for.
Write these words on the blackboard, and ask the students how to pronounce them.

Do not concern yourself with comprehension. Just work on the sounds. Most often ch is ch as in chin. Ch is pronounced k in words with Greek origins. Pass out dictionaries and ask various students to look up the origin of the words on the board.

Sentences:
1. This cheap cheese gives me a stomach ache.
2. That chap goes to a Christian school.
3. The cheetah chases chiropractors.
4. Change the chives to cheese.
Conversation #1

Mrs. Ghazal: Hello, Corrine. I didn't expect to see you here. How are you doing?

Mrs. Barbeau: No so good. My daughter has been so sick this year. She has missed school every week.

Mrs. Ghazal: What's wrong with her?

Mrs. Barbeau: Everything! She's had colds, fevers, sore throats, ear aches, the flu, and anything else you can think of.

Mrs. Ghazal: I'm so sorry to hear that. What are you going to do with her?

Mrs. Barbeau: I really don't know. Do you have any suggestions?

Mrs. Ghazal: How about calling the County Health Department's information and referral service?

Mrs. Barbeau: Okay. What's the number?

Mrs. Ghazal: 682-7542

Mrs. Barbeau: Thanks a lot.

Mrs. Ghazal: Anytime. It's my pleasure.
Conversation #2

Mrs. Ghazal: Hi Corrine. I didn't know I'd be seeing you. How are things?

Mrs. Barbeau: Not very good. My daughter has been very ill this year, and she has missed a lot of school.

Mrs. Ghazal: What's the problem?

Mrs. Barbeau: You name it! She's had colds, fevers, sore throats, ear aches, the flu, and what not.

Mrs. Ghazal: What a shame! So what are you going to do about her?

Mrs. Barbeau: I don't know anymore. I'm all out of ideas. What would you do?

Mrs. Ghazal: Why don't you call the County Health Department to see what they suggest?

Mrs. Barbeau: That sounds okay. Do you have the number?

Mrs. Barbeau: I really appreciate your suggestion.

Mrs. Ghazal: Think nothing of it. I'm happy to help.

What is TEL-MED?
Tel-Med is a collection of 3-5 minute pre-recorded health messages which have been carefully selected to help you:

- remain healthy
- recognize early signs of illness
- adjust to serious illness

The tapes are designed to provide health-care information to persons in the privacy of their own home without charge. The tapes have been screened by physicians on the staff of Lutheran General Hospital to insure accuracy and appropriateness.

TEL-MED Does Not:
- replace your family doctor
- diagnose your illness
- serve as an emergency treatment

Time and days
Monday through Friday 10:00 a.m.-9 p.m.

CALL 696-5525
How does TEL-MED work?

It's easy! Call 696-5525. Give the volunteer operator the number of the tape you wish to hear. The tape will discuss the illness or problem in which you are interested and will give you helpful information on the subject. If you wish to hear the same tape again, or any other tape, call back and the operator will be happy to play it for you.

20 Energy Saving Tips for the Driver

HERE'S OUR ADVICE.

1. Start slowly. Accelerate gently except when entering high-speed traffic lanes or when passing. Hot rod driving and jerky acceleration can increase fuel consumption by 2 miles per gallon in city traffic.

2. Avoid unnecessary braking. And try to anticipate the traffic ahead. When the traffic light far ahead turns red, take your foot off the accelerator immediately. The light may turn green again by the time you reach the intersection. It's not a safe way to drive even with a fuel saving in coasting, the car's kinetic energy maintains propulsion rather than the burning of additional fuel. There is less energy to be dissipated in braking. Don't inflate this necessity. Additional braking only.

3. Drive at moderate speeds. As your 'speed increases' so does your car's wind resistance, a very significant factor in gasoline consumption. Most automobiles get about 25 percent more miles per gallon on the highway at 50 miles per hour than at 70 mph and about 21 percent more at 55 than at 70 mph.

4. Drive at steady speeds. Hold a steady foot on the accelerator as long as traffic conditions permit. On the highway, see-sawing or reacceleration after breaking results in instant gas usage and causes friction and wear that, in the northern states, can reduce fuel mileage by as much as 1 mile per gallon.

5. Avoid unnecessary use of air conditioning equipment. When in use, it reduces fuel consumption by almost 25 percent per gallon.

6. Avoid excessive idling. The average American car consumes a cup of gasoline every 6 minutes when idling. When you stop the car, don't idle the engine for more than a minute. If you are waiting for someone, turn off the engine. It takes less gasoline to restart the car than it does to idle it.

7. Break gas-wasting habits. For instance, don't pump the accelerator or race the engine when your car isn't in motion. It wastes gasoline. And use the brake pedal rather than the accelerator to hold the vehicle on a hill.

8. Improve your trip planning. Join a car pool for commuting to and from work.

9. Plan short trips carefully. Short trips are costly in terms of gas mileage. A vehicle started cold and driven four miles may average about 8 miles per gallon. The same vehicle warmed up and driven 12 miles may average nearly 13 miles per gallon. However, don't idle the engine to warm it (a wasteful practice). Drive slowly the first few blocks.

10. Consolidate your driving. Combine short shopping and commuting trips to reduce the miles traveled for each action. Patronize immediate area merchants as much as possible to reduce mileage.

11. Pre-plan your trips. Figure out which route will require the least fuel. Allow for the fact that freeway driving is nearly twice as economical as driving in city traffic. Travel during off-peak traffic times whenever possible. Use route with minimum number of traffic lights and stop signs.

12. Think economically. If you have more than one car in your family, make the greatest use of vehicles consuming the least amount of gasoline.

13. Get a tune-up. Keep your car engine tuned. One authority declares that a careful driver, under normal driving conditions, gets 28 percent more gasoline than an average driver, and 50% better mileage when idling. When you stop, turn the engine off. Also, turn the engine off when you are waiting for someone. Turn off the engine when you are not using it.

14. Check your oil. The oil in your engine should be changed every 3,000 miles or 3 months. They initial high cost is usually paid for in fuel savings and longer tread life. Warning: multi-grade oil can reduce gas mileage by as much as 1 3 miles per gallon.

15. Consider buying radial tires. Radial tires will give you 50% more miles per gallon than the conventional tires. Their initial high cost is usually paid for in fuel savings and longer tread life. Warning: multi-grade oil can reduce gas mileage by as much as 1 3 miles per gallon.

16. Make sure your wheels are properly aligned. A car with improperly aligned tires will require the least dual. Allow for the fact that freeway driving is nearly twice as economical as driving in city traffic.

17. Buy gas only when the gauge shows a quarter tank or less. The practice of keeping tanks nearly full at all times is wasteful. Each fill-up introduces the possibility of spillage. The higher gas tank weight also adversely affects mileage.

18. Change oil every 3,000 miles. Every 300 miles, check oil level, and change if necessary. When you change oil, permit on the highway. See-sawing or reacceleration after breaking results in instant gas usage and causes friction and wear that, in the northern states, can reduce fuel mileage by as much as 1 mile per gallon.

19. Use a good quality multi-grade (multi-viscosity) oil. Oil is an important component of your car's engine. It reduces internal engine friction and gives better gasoline mileage than single grade SAE 30 oils. Do not use oil of higher viscosity than recommended in your owner's manual. This will lower fuel consumption and increase miles-per-gallon efficiency. A lower viscosity oil such as 5W-30 is recommended for winter months in the northern states.

20. Become aware of gas usage. Keep a check on miles per gallon. That's the number of miles you get from one gallon of gas. Remember, the amount of gasoline added to your tank at each fill-up and the odor of gasoline added to your tank at each fill-up.

ESTIMATED COST PER GALLON

The fuel cost is based upon what you would pay for fuel in 1 year if you drive 15,000 miles at $1.25 per gallon.

EXAMPLE: If you pay an average of $1.25 per gallon for gasoline and your car averages 16 miles per gallon, you would pay for 15,000 miles $1,172. On the other hand, if you purchase a new car at $20 per gallon, you would spend $1,400 for the same amount of gas. The average cost of a new car is $4,000. That is, if you pay an average of $1.25 per gallon for gasoline and your car averages 16 miles per gallon, you would pay for 15,000 miles $1,172. On the other hand, if you purchase a new car at $20 per gallon, you would spend $1,400 for the same amount of gas. The average cost of a new car is $4,000.

OBJECTIVES

1. The student will locate places of interest on a map of the county.
2. The student will identify free or cheap places to go with children in DuPage County.
3. The student will visit a place mentioned in the unit.

GRAMMATICAL FOCUS

1. Answering questions
2. Future tense using will/going to
3. Selected idiomatic expressions
4. Use of appropriate prepositions in identifying locations
   Example: on Gary Avenue in Hinsdale

LESSON NOTES

1. Dialogue: Do not distribute units until after the dialogue has been modeled and pronounced by the students and the cloze and reading exercises have been done. Then let students practice the dialogues with a partner. Circulate and help students who are having difficulty. Then ask for some volunteers to perform for the rest of the class.

2. Let students write out the answers to the questions on page 3. Check to make sure answers are correct. Then circulate and listen while students practice the expressions with a partner.
   For extended practice, put a list on the board of other places in the Chicago area where students could go. Go around the room with a substitution drill. In addition, use with places to go, the expressions at the top of the page could be used for other statements. For example:

   I'm hungry
   It's really hot today.
   "cold"
   "windy"
   "rainy"
   Let's go out for dinner.
   "shopping"
   "water skiing"
   "hiking"
   etc.

   Practice some of these expressions with students. The teacher says, "I'm hungry" and students choose an appropriate response from the top of page 3.

3. On page 4 are five short dialogues describing places to go in DuPage County with directions on how to find each one. After students have listened to each dialogue and answered the
questions on page 5, distribute maps of the DuPage County Forest Preserve system to each student. Have students locate each of the places mentioned in the short dialogues. Then ask students the following questions:

Have you ever been to ________________________ (this spring) or (this year)?

Yes, I have/No, I haven't.

When are you planning to go to ________________________?

I'm planning to go ________________________. (or) I'm going ________________________.

4. Encourage each student to choose to visit one of the places mentioned in the lesson before the next class meeting. Explain that you want students to be able to talk about what they saw at the next class. Ask each student to complete the information form on page 6.
UNIT 13
THINGS TO DO IN DUPAGE COUNTY WITH YOUR CHILDREN

Mrs. Peter: I'm so glad the weather is getting warmer.
Mrs. Szlamer: Me too! Finally, the kids can play outside again.
Mrs. Peter: I know, but in about a month they'll start complaining that they're bored.
Mr. Szlamer: So true. We should plan things to do with them in the months ahead.
Mrs. Peter: That's a good idea. Let's plan cheap things to do, though.
Mrs. Szlamer: Cheap? Free is what I had in mind.
Mrs. Peter: Free? That's even better.
CLOZE: Listen to the dialogue. Write in the words that are missing.

Mrs. Peter: I'm so glad the ________ is getting better.

Mrs. Szlamet: Me ______! Finally, the kids can ________ outside again.

Mrs. Peter: I know. ________ in about a month ________ start complaining that they're ________

Mrs. Szlamet: So true. We should ________ things to do with ________ in the months ahead.

Mrs. Peter: ________ a good idea. Let's plan cheap things ________ do, though.

Mrs. Szlamet: Cheap? Free ________ what I had in ________

Mrs. Peter: Free? That's even ________

COMPREHENSION: Read the statements below. Mark + for true statements and 0 for false statements.

1. ________ Mrs. Peter and Mrs. Szlamet are talking in the month of January.

2. ________ The children are playing outside.

3. ________ The children are bored.

4. ________ The mothers want to plan things to do with their children.

5. ________ The mothers don't care about how much money they spend on things to do with their kids.
UNIT 13

Expressions to practice with a partner:

Me too!
So true.
That's a good idea.
Free is what I had in mind.
Substitute cheap, a picnic, a walk, Dispensa's for free.
That's even better.

Respond to each statement below using one of the expressions.

1. A. Let's go to Graue Mill.
   B. 

2. A. I want to go swimming at Blackwell Forest Preserve.
   B. 

3. A. Cosley Park is really crowded today.
   B. 

4. A. What do you want to do tomorrow?
   B. 

5. A. Let's go to Morton's Arboretum instead of Cantigny.
   B. 

6. A. How about a bicycle ride on the Prairie Path?
   B. 

173
UNIT 13

1. A. What is Cosley Park?
   B. It's a children's petting zoo in Wheaton.
   A. How much does it cost?
   B. It's free.
   A. Where is it located?
   B. On Gary Avenue, just south of Jewel Road.

2. A. Let's go bike riding on the Prairie Path.
   B. What's that?
   A. It's a bike trail that runs from Elmhurst to Wheaton and then north to Elgin and south to Aurora.
   B. Where is it?
   A. Along the old Aurora and Elgin railroad tracks.

3. A. What's Graue Mill?
   B. It's an old mill and museum from the 19th century.
   A. What's so special about it?
   B. You can see how corn used to be ground and you can tour a museum.
   A. Where is it?
   B. In Hinsdale just north of Ogden Avenue off of York Road.

4. A. I've heard so much about Blackwell Forest Preserve.
   B. Where is it?
   A. When is it open?
   B. All year round.
UNIT 13

A. What can you do there?
B. Everything; swim, ski, toboggan, camp, sail, hike, picnic. You name it.

S. A. Have you seen the flowering trees at Morton's Arboretum in Lisle?
B. No. But I've seen the bushes at Lilacia Park.
A. Where's that?
B. In Lombard.
A. What's so special about Lilacia Park?
B. There are over 300 kinds of lilacs and 75,000 tulips.

Answer these questions. Use short answers.

1. Where's Cosley Park? _______________________
2. Where's Lilacia Park? _______________________
3. Where's Blackwell Forest Preserve? ____________
5. Where's Morton's Arboretum? _________________

How much does it cost?

Ask a partner how much it costs to go to the places listed below.

How much does it cost to go to:

- Cosley Park: It's free.
- Morton Arboretum: It's $1.00 a car.
- Cantigny Park: It's free.
- Lilacia Park: It's free except during Lilac Week.
- Blackwell Forest: It's $2.00 a car.
- Graue Mill: It's $1.50 a person.
Answer the following sentences and bring this paper to class with you next week.

1. What did you visit? I visited _____________________________.

2. When did you go? I went on ______ day at ______ time.

3. Who went with you? ____________________________ went with me.

4. What did you see? I saw _____________________________.

5. What did you do? I _____________________________.

6. What did you like best? I liked _____________________________.

7. Did you take any pictures? ______ I ______ (n't).

8. Would you go ______ again? ______ I ______ (n't).

9. Would you tell your friends to go to _____________? ______ I ______ (n't).
OBJECTIVES

1. The student will locate places of interest on a map of the county.
2. The student will plan a visit to a place of interest in the county.
3. The student will be able to give directions to places of interest in the county.

GRAMMATICAL FOCUS

1. future tense using will going to
2. answering questions
3. use of appropriate prepositions in locations (on, at, at the intersection, of, in)

LESSON NOTES

1. Before you begin this unit, remind students to bring their maps of DuPage County to school with them.

   Model Conversation #1 before distributing the units. Write Stacey's Tavern, Naper Village, and Lizzadro Museum of Lapidary Art on the blackboard if anybody in class has been to any of the three places. Give some background information about each one:

   Stacey's Tavern, 557 Geneva Road, Glen Ellyn, was once a stop-over point for stagecoaches that ran from Chicago to the Fox Valley, Rockford and Galena.

   Naper Village in Naperville consists of old buildings that have been restored and preserved and are adjacent to the Martin Mitchell Museum.

   Lizzadro Museum of Lapidary Art, 200 Cottage Hill, Elmhurst, has a fine collection of precious and semiprecious gems.

   Ask students to see if they can locate each of the above mentioned places on their maps of DuPage County or draw a map of the county on the blackboard.

2. Model the conversation again and then distribute the units. Instruct students to fill in the missing words in the cloze exercise and to answer the comprehension questions. When everyone has completed both exercises, review the answers orally. Model the conversation a third time and then have students repeat each line in unison. Ask for some volunteers to "perform" for the rest of the class. Then let students go through the conversation again with partners while you walk around listening to pronunciation.
3. Discuss the two different ways of indicating future: will/going to. If it is necessary to review function of auxiliaries when asking questions, do so at this time.

Model each question and answer. Repeat. The second time have the students say each line in unison. Then ask for some volunteers to go through each group of questions. Finally, students should practice the questions and responses with a partner.

4. As an additional map reading exercise and orientation to the major thoroughfares in the county, students should be directed to find forest preserves and other places of interest on the map. For example, ask, "How do I get to Morton Arboretum from Villa Park?" "You should go west on Roosevelt Road until Route 53, then go south on Route 53." It might be necessary to review directions before this exercise begins. Continue asking directions until students are comfortable answering; then have them take turns asking each other for directions.

5. Students should complete the outing planning regardless of whether or not they intend to go on an outing. However, try to encourage as many people as possible to visit some of the places mentioned in the last two lessons.

PART II

Mrs. Kay: What are you going to do this weekend?

Mrs. Maki: Oh, we are going to visit some museums in DuPage County.

Mrs. Kay: Oh really? Which ones?

Mrs. Kay: Are you going to do all that in one day?

Mrs. Maki: No, of course not. On Saturday we're going to Elmhurst and on Sunday to Glen Ellyn and Naperville.

Mrs. Kay: It still sounds to me like too many places to go in one weekend.

Mrs. Maki: Maybe, but my family keeps telling me they're bored on weekends, so I've decided to give them something to do.

Mrs. Kay: Well, let me know how it all turns out.

Mrs. Maki: I sure will!
CLOZE: Fill in the missing words of the conversation you just listened to.

Mrs. Kay: What are you ______________ to do this weekend?

Mrs. Maki: Oh, we are going to ______________ some museums in DuPage County.

Mrs. Kay: ______________ really? Which ones?

Mrs. Maki: Stacy’s ______________ in Glen Ellyn; Naner Village in ______________, and the Lazzadro Museum of Lapidary ______________ in Elmhurst.

Mrs. Kay: ______________ you going to do ______________ that in one day?

Mrs. Maki: ______________, of course not. On ______________ we’re going to ______________, and on Sunday to Glen Ellyn ______________ Nanerville.

Mrs. Kay: It still sounds ______________ too many places to ______________ in one ______________.

Mrs. Maki: Maybe, ______________ my family keeps on ______________ me they’re bored on ______________ so I decided to ______________ them something to do.

Mrs. Kay: ______________ let me know how ______________ all turns out.

Mrs. Maki: I ______________!
Comprehension: Answer in complete sentences the following questions about the conversation you listened to.

1. What is the Maki family going to do this weekend?

2. Where is Stacy's Tavern?

3. How many museums will the Maki family visit on Sunday?

4. Does Mrs. Kay think Mrs. Maki's plans sound like a good idea?

5. Why is the Maki family going to be so busy this weekend?

6. Is Mrs. Kay interested in finding out how the weekend went?
UNIT 14

*Future can be shown in two ways: use going to or will.
Example #1. I'm going to go shopping tonight.
Example #2. We will go shopping tonight.

Practice the following questions and responses with a partner.

PART I

1. What are you going to do this weekend?
   Where are you going riding?
   I'm going to go bicycle riding.
   On the Prairie Path.

2. What are we going to do tomorrow?
   Where are we going sailing?
   We're going to go sailing.
   At Blackwell Forest Preserve.

3. What is he going to do on Saturday?
   Where is he going fishing?
   He's going to go fishing.
   At Herrick Lake.

4. What is she going to do on Sunday?
   Where is she going hiking?
   She's going to go hiking.
   At Fullersburg.

5. What are we going to do on Memorial Day?
   Where are we going camping?
   We're going to go camping.
   At Blackwell Forest Preserve.

PART II

6. What will we do tomorrow?
   Where is it?
   We'll visit Stacy's Tavern.
   At the intersection of Geneva Rd., St. Charles Rd., and Main Street Glen Ellyn.
7. What will you do on Sunday?
   I'll tour the Lizzadro Museum of Lapidary Art.

   Where is it?
   On Cottage Hill just north of St. Charles Road in Elmhurst.

8. What will he do next weekend?
   He'll explore the Naper Settlement.

   Where is it?
   At the corner of Aurora Avenue and Webster, just north of Nanerville Central High School.

9. What will they do on May 17th?
   They'll attend the Lilac Parade.

   Where is it?
   On Main Street in Lombard.

Plan a family outing for this coming weekend. Complete the planning guide below before you leave.

1. Where are you going to go? 

2. What day are you going to go? 

3. What time are you going to leave? 

4. What time do you expect to return home?
5. Who will be going on the outing?

6. Do you know how to get there?
