What is AECT?

The Association for Educational Communications and Technology (AECT) is the professional association of thousands of educators and others whose activities are directed toward improving instruction through technology. Technology is interpreted as process, not merely in terms of hardware (such as computers or television or projectors), but in terms of learners and their relationship to the people, events, places, and things through which they learn.

AECT's 20,000 members and subscribers may be found in schools and colleges; in the Armed Forces and industry; in museums, libraries, hospitals; in the many places where educational change is under way. AECT members carry out a wide range of responsibilities in the study, planning, application, and production of communications media for instruction.

The Association was founded in 1923 and has become a major organization for those actively involved in the designing of instruction and a systematic approach to learning. It provides a national forum for the exchange and dissemination of ideas for its members and for larger audiences; it is the national and international spokesperson for the improvement of instruction; and, it is the world's largest publisher of information concerning a wide range of instructional technology.
Foreword

In keeping with AECT's function as an information clearinghouse, our Association is publishing this Human Resources Directory, an updated and expanded version of the AECT Directory and Data Book.

On the following pages you'll find: 1) the Constitution and By-laws, 2) the Code of Ethics, 3) the Board of Directors, 4) staff members of the national office, 5) Regional Coordinators, 6) Divisions, 7) National Affiliates, 8) committees and task forces of the Association. In addition, there's a complete membership list including names, addresses, phone numbers, job titles and settings, and division affiliations of current AECT members.

Also included is a directory of the state affiliates and, new this year, a list of the advertisers, exhibitors, and corporate members whose support means so much to our Association.

The transmission of ideas is the key to our future, and so it is my hope that you will make good use of this book. Refer to the committees to see where you can offer your help; get in touch with other members to share and solve problems.

Through the AECT Human Resources Directory, you can use the best talent in our profession to meet the needs we face every day in trying to bring about excellence in education.

The Sky's the Limit.

Dr. Wayne Dyer's exciting program for achieving personal success.

His best-selling books, *Your Erroneous Zones*, *Pulling Your Own Strings*, and *The Sky's the Limit*, have helped revitalize life and career goals for millions.

Now this stimulating two-part videocassette program synthesizes Dr. Dyer's often radical approach to achieving the highest possible goals.

In actual on-the-scene sessions at one of his many corporate seminars, he clearly and succinctly tells executives how they can become "No Limit" people who do what they set out to do.

His warmth, wit, energy and optimism are infectious - and you will understand why he is in constant demand as a speaker and counselor by organizations of every kind.

Very simply, in a pessimistic time, he generates *enthusiasm*.

*The Sky's the Limit* comes with complete leader's guide and is part of a nine-program LCA series for use in human resources development training for executives, managers, creative people, athletes, students and sales staffs.

AECT State Affiliate Organizations

AECT has 54 state affiliates in 50 states, the District of Columbia, Canada and Puerto Rico. Our national association numbers approximately 33,000 members and subscribers who serve as media specialists, librarians, curriculum specialists, administrators, and educators with military, industrial, religious and governmental agencies.

Each of the state affiliate organizations has an active professional program and offers every interested educator an opportunity to attend the affiliate meetings and to participate with a dynamic fast-growing organization that is applying new technology, new techniques, and new media in order to improve learning. We suggest that all AECT members who are not members of a state affiliate consider the advantages of state affiliate membership. Please write to the state affiliate membership chairperson in your state and inquire as to the state affiliate's program for 1981-82.

Remember, this association is your association! The national office staff is available to assist you so that together we can build a stronger career field.

If you have any questions with regard to your national, state or local association, please contact Cynthia Nevels, Coordinator - Affiliate Relations, Association for Educational Communications and Technology, 1126 16th Street, N.W., Washington, DC 20036. Phone: 202/833-4180
