Developed during a project designed to provide a continuous, competency-based line of vocational training in business and office education programs at the secondary and postsecondary levels, this package consists of an instructor's guide and learning modules for use in Shorthand I and Shorthand II. Various aspects of implementing and articulating secondary and postsecondary shorthand courses are covered, including course content, performance standards, student-teacher agreements, suggested instructional times, tasks addressed in the courses, outcome-referenced measures, equipment needed, and references. Addressed in the seven task sheets of the first module are reading and writing shorthand symbols, brief forms, and phrases; inserting punctuation; taking and transcribing familiar material; and dictation/transcription of new material. Among those topics examined in the 10 task sheets of the second module are shorthand principles, transcription techniques, dictation/transcription of new and familiar materials, office style, dictation/transcription, recorded media transcription, preparing minutes of a meeting, and written communication composition. The task sheets contain some or all of the following: performance objectives, performance actions, suggested instruction times, performance standards, and related technical information. (MN)

ACKNOWLEDGEMENTS

While this performance-based articulated instruction guide is the product of the work of all the Business and Office Education Task Force Committee participants, acknowledgement is given to the following teachers who were responsible for developing the initial drafts of Shorthand I and II: Gwen Reid and Willisteen Talbert.

The cooperation of the Business and Office Education Office, Office of Vocational Education, South Carolina State Department of Education, is appreciated. The Office allowed the Task Force Committee for Business and Office Education to review a 1981 draft of proposed objectives for a secondary level shorthand curriculum guide that the State Office is developing.

The professional interest of Miss Joanne Montague of The School District of Greenville County in editing this guide is appreciated.

STANDARDS FOR DICTATING FOR TEACHERS

When giving dictation, the teacher must:

1. Preview not more than 5 percent on previewed, new-matter material.
2. Omit punctuation.
3. Dictate paragraphs.
4. Follow the conversion charts on the following pages of this manual.
   a. Rate desired for dictation
   b. Speed of dictation
5. Consider 28 syllables as 20 standard words.
CONVERSION CHART

The following chart shows the number of seconds that should elapse during the dictation of each quarter-minute segment of copy that is counted at a designated speed when faster or slower dictation rates are desired.

For example: If a copy selection is counted for dictation at 70 wpm and you want to dictate it at 80 wpm, the figure beneath the rate desired (80) and opposite the rate at which copy is counted (70) is 13, indicating that each quarter-minute segment should be dictated in 13 seconds, the first four intervals being 13, 26, 39 and 52.

When double figures are given, alternate the two time intervals. For example, to dictate at 80 wpm from copy counted at 40 wpm, dictate the first quarter-minute segment in 7 seconds, the second segment in 8 seconds, the third in 7 seconds, and so on. An easy way to do this is to return the hand of the stop watch to zero after each segment of dictation.

The following chart is designed to help you dictate shorthand material at a variety of speeds. Most dictation material found in shorthand textbooks is counted in groups of 20 "standard" words. A "standard" word consists of 1.4 syllables. Twenty-eight syllables comprise 20 "standard" words. To dictate evenly at a specific rate of speed, you must dictate each group of 20 standard words within a specified number of seconds.

To use the chart, identify from the column heading the rate at which you wish to dictate. The figures under each column heading indicate the number of seconds which should elapse as each 20-word group is dictated. For example, to dictate at 65 wpm, the first 20-word group should be dictated by the time 37 seconds have elapsed, and so on.

The time indications have been rounded and carried through the first minutes, but they may be used when dictating for longer periods of two minutes, three minutes, etc. If the last figure in a column is 60, simply repeat the cycle for each additional minute of dictation. If the last figure in a column is other than 60, return the sweep hand of the stop watch to zero when the last figure is reached and repeat the cycle.

SELL YOUR MANUSCRIPT.
By Susan Mae Willins

THE WAY IN WHICH a magazine story is typed can help or hurt its chance for acceptance. Why is this so? Well, the editor gets far more stories than he can publish. Therefore, he is prejudiced in favor of the infrequent article that comes to his desk looking as though it were the polished handiwork of some expert on the staff who had got it ready for printing. If an editor is pushed for time, he will use what is easy to use, other things being equal.

So, if you want to sell a magazine article, story, or feature, look at it the way the editor will. Just imagine, if you can, what he had to know about your contribution and what he may have to do to do it before it can appear in print.

For example, he has to know how many lines of space your article will fill, what heading it may require, what captions must be arranged, and so one. When you type the manuscript, try to solve as many of these problems as you can for him.

Dear Miss Jones: Thank you for your letter of May 10 telling us how much you enjoyed your flight with us from New York City to San Francisco. Your comments are very much appreciated. (P) During the past ten years, we have added many new flights to enable people to go from one part of the country to another quickly and on time. Because of our constant concern for improved service, we have made travel by jet available on most of our flights. As you may know, we have also eliminated the weight requirement for your bags and have adopted the policy of allowing two pieces of checked baggage for each passenger. In addition, a small case may be carried with you. (P) In the future when you have occasion to travel, we hope that you will fly with us again. Comments from our customers are always welcomed. Sincerely yours,

Gentlemen: I would like to make a reservation at your American Hotel for Monday, Tuesday, and Wednesday, March 8, 9, and 10. I would like to have a double room for my wife and me. We shall arrive during the morning of March 8 and would appreciate it if we could check into our room when we arrive. (P) While we are in Dallas on this trip, my wife and I want to visit several places of interest. Could you perhaps suggest some of the more important places of interest and also some good places to eat. Since we are interested in seeing a play, we would like to receive information you may have concerning any play that may be appearing in Dallas during our stay in your city. (P) We shall be arriving and leaving by air. I assume that transportation will be available from the airport to your hotel. Will there be transportation from your hotel to the airport at the time we leave, or will we have to make other arrangements? Cordially yours,

Miss Jane Tully
Business Education Department
Washington High School
302 Moulton Street
Cambridge, Massachusetts 02138

Dear Miss Tully:

We are pleased that you have agreed to consult with our staff on the preparation of the new Dictaphone Secretarial Practice Course (DSPC).

The DSPC will teach the student secretary how to use the Dictaphone transcribing equipment. However, it will not teach this skill unless the student reads and understands all the instructions in the workbook.

The student secretary must be made to realize what an important advantage she will have in getting and keeping a secretarial position if she has a thorough knowledge of the Dictaphone machine.

The Student Workbook will provide vocabulary-building exercises for all records.

Our staff is looking forward with pleasure to working with you on this project.

Cordially yours,

DICTAPHONE CORPORATION
