(Date)
LOCAL SCHOOL COMPONENT QUESTIONNAIRE:
CURRICULAR ARRANGEMENTS

Your Name: ____________________________ Date: ___________ Month ___________ Day Year

Title and Brief Description of Your Position; e.g., Science Teacher, Counselor.

Directions: This questionnaire is designed to measure the usability, effectiveness, value, and quality of the WRISE materials that you have used in your knowledge-gaining and/or educational improvement activities. It is in five parts:

Filmstrip: "Curricular Patterns in Secondary Schools"

Audiocassette: "Experiences of a Middle School, a Junior High School, and Two Senior High Schools with Curricular Patterns"

Textbook, Chapter 4: "Curricular Arrangements"

Learning Guide, Chapter 4: "Curricular Arrangements"

Complete Set: "Curricular Arrangements"

The questionnaire is to be completed by staff members who used any of the above materials to gain an understanding of concepts and practices or to adapt and use them in an improvement activity. Please respond to each part of the questionnaire that deals with material you have used and to Part V. Do not respond to material you have not used.

Questionnaire constructed by Professor Herbert J. Klausmeier, Director, Wisconsin Program for the Renewal and Improvement of Secondary Education, with review by John Daresh of the Wisconsin Project and local school staff participating in the field test.

Center Contract No. 08-NIE-G-78-0117
Wisconsin Research and Development Center for Individualized Schooling
Local Staff Component Questionnaire Regarding: Curricular Arrangements

Directions: Enter a ✓ in the appropriate column to indicate your reactions from very high to very low.

I. Enter your responses regarding the FILMSTRIP, "Curricular Patterns in Secondary Schools"

F1. Usability in terms of a reasonable amount of preparation required of you prior to using it.

F2. Effectiveness for contributing to your understanding of the concepts and practices presented.

F3. Value or importance of the concepts and practices portrayed.

F4. Quality in terms of the visuals, sound, and rate of presenting concepts and practices.

F5. Quality in terms of gaining and holding attention.

F6. Appropriateness in terms of length.

F7. Your general reaction to the filmstrip.

F8. Should this filmstrip be used next year to acquaint new teachers, students, parents, or other persons with the concepts and practices presented.

   ✓Yes   ✓Undecided   ✓No

F9. Comments: ____________________________________________

II. Enter your responses regarding the AUDIOCASSETTE, "Experiences of a Middle School, a Junior High School, and Two Senior High Schools with Curricular Patterns"

A1. Usability in terms of a reasonable amount of preparation required of you prior to using it.

A2. Effectiveness for contributing to your understanding of the concepts and practices presented.

A3. Value or importance of the concepts and practices presented.

A4. Quality in terms of its sound and rate of presentation.

A5. Quality in terms of gaining and holding attention.

A6. Appropriateness in terms of length of each segment.

A7. Your general reaction to the audiocassette.

A8. Should this audiocassette be used next year to acquaint new teachers or other persons with the concepts and practices presented.

   ✓Yes   ✓Undecided   ✓No

A9. Comments: ____________________________________________
Local Staff Component Questionnaire Regarding: Curricular Arrangements

III. Enter your responses regarding TEXTBOOK, CHAPTER 4, "Curricular Arrangements"

T1. Usability in terms of a reasonable amount of preparation required by you prior to using it.

T2. Effectiveness for contributing to your understanding of the concepts and practices presented.

T3. Value in terms of presenting current and important information.

T4. Quality in terms of the number and kind of concepts and practices presented.

T5. Effectiveness of the questions at the end of each section in terms of aiding you to analyze and evaluate the concepts and practices presented.

T6. Appropriateness in terms of length.

T7. Your general reaction to the chapter.

T8. Should this textbook chapter be used next year to acquaint new teachers or other persons with the concepts and practices presented.

   Yes   Undecided   No

T9. Comments: __________________________________________

   __________________________________________

IV. Enter your responses regarding Learning Guide, Chapter 4, "Curricular Arrangements"

The Learning Guide chapter is intended for use by individuals, pairs, and/or small groups to aid them in increasing their understanding of the concepts, principles, and practices included in the textbook chapter, the filmstrip, and the audiocassette through use and study of the materials with a maximum amount of independence and flexibility.

L1. Usability in terms of a reasonable amount of preparation required by you prior to using it.

L2. Usability in terms of the amount of time required for interaction between the improvement leader and the staff.

L3. Clarity of the suggestions and directions.

L4. Usability in terms of being able to complete the selected or assigned questions and activities in a reasonable amount of time.

L5. Effectiveness in terms of facilitating understanding and application of the concepts and practices.
Local Staff Component Questionnaire Regarding: Curricular Arrangements

L6. Availability of the filmstrip, audiocassette, and projection equipment.

L7. Your general reaction to the Guide chapter.

L8. For each chapter section, check the percentage of the questions and activities that were completed:

I. Filmstrip. ___75% or more, ___50-74%, ___25-49%, ___1-24%, ___0%
II. Audiocassette. ___75% or more, ___50-74%, ___25-49%, ___1-24%, ___0%
III. Book Chapter. ___75% or more, ___50-74%, ___25-49%, ___1-24%, ___0%
IV. Application Activities. ___75% or more, ___50-74%, ___25-49%, ___1-24%, ___0%

L9. Should this Guide chapter be used by new faculty members and other interested persons?

___Yes ___Undecided ___No

L10. Comments: ________________________________

SECOND SEMESTER 1980-81 LOCAL SCHOOL LEADER'S REPORT OF THE FIELD TEST OF
THE WISCONSIN PROGRAM FOR THE RENEWAL AND IMPROVEMENT
OF SECONDARY EDUCATION

Name: ___________________________ School: ___________________________

Date: ___________________________

This report is in two parts. Part I calls for information regarding the nature of your improvement activities. Part II deals with the applicability and effectiveness of the 6-step improvement process and the strategies described in each chapter of the Educational Improvement Leader's Manual. (The same improvement process and strategies appear in each chapter of the Manual.)

Please complete each part and return it not later than May 15, 1981. You may wish to duplicate this form and have one or more staff members complete it if they took initiative for a particular activity. Or you may wish to have a committee or individual staff members provide information, particularly for Part I.
Part I

Directions: Check ✓ each component toward which your knowledge-gaining, planning, and/or improvement activities were directed and enter the percentage of your total school staff participating.

___ % 1.1. Educational Programming (Part I): Arranging a total program of courses and other activities for each student for the year or semester

___ % 1.2. Educational Programming (Part II): Arranging an instructional program for each student within each course

___ % 1.3. Curricular Arrangements

___ % 1.4. Experiential Learning and Career Education

___ % 1.5. Student Decision Making

___ % 1.6. Evaluation of Student Learning and Educational Programs

___ % 1.7. Administrative Arrangements for Shared Decision Making

___ % 1.8. Organization for Instruction

___ % 1.9. Teacher-Advising

Directions: Check ✓ each chapter of the textbook, The Renewal and Improvement of Secondary Education: Concepts and Practices, that was used and enter the percentage of your total school faculty that used it.

___ % 2.2. Chapter 2: "Educational Programming for the Individual Student (I)"

___ % 2.3. Chapter 3: "Educational Programming for the Individual Student (II)"

___ % 2.4. Chapter 4: "Curricular Arrangements"
Check ✓ each chapter of the Learning Guide for the Wisconsin Program for the Renewal and Improvement of Secondary Education: School Staff Members that was used and enter the percentage of your total school faculty that used it.

___% 3.2. Chapter 2: "Educational Programming for the Individual Student (I)"

___% 3.3. Chapter 3: "Educational Programming for the Individual Student (II)"

___% 3.4. Chapter 4: "Curricular Arrangements"

___% 3.5. Chapter 5: "Experiential Learning and Career Education"

___% 3.6. Chapter 6: "Student Decision Making Arrangements"

___% 3.7. Chapter 7: "Evaluation of Student Learning and Educational Programs"

___% 3.8. Chapter 8: "Administrative Arrangements"

___% 3.9. Chapter 9: "Organization for Instruction and Advising"

___% 3.10. Chapter 10: "Teacher-Advisor Programs"
Check √ each chapter of the Educational Improvement Leader's Manual that you used.

____ 4.1. Chapter 1: "Introduction to the Wisconsin Program"
____ 4.2. Chapters 2-3: "Educational Programming for the Individual Student"
____ 4.3. Chapter 4: "Curricular Arrangements"
____ 4.4. Chapter 5: "Experiential Learning and Career Education"
____ 4.5. Chapter 6: "Student Decision Making Arrangements"
____ 4.6. Chapter 7: "Evaluation of Student Learning and Educational Programs"
____ 4.7. Chapter 8: "Administrative Arrangements"
____ 4.8. Chapter 9: "Organization for Instruction and Advising"
____ 4.9. Chapter 10: "Teacher-Advisor Programs"

Check √ each filmstrip that was used and enter the percentage of your total school faculty that used it.

____ __% 5.1. "Introduction to the Wisconsin Program for the Renewal and Improvement of Secondary Education"
____ __% 5.2. "Educational Programming for the Individual Student in Secondary Schools: Part I"
____ __% 5.3. "Educational Programming for the Individual Student in Secondary Schools: Part II"
____ __% 5.4. "Curricular Patterns in Secondary Schools"
____ __% 5.5. "Work and Other Career Education Activities in Secondary Schools"
____ __% 5.6. "Student Decision Making in Secondary Schools"
____ __% 5.7. "Evaluating Student Learning and Educational Programs in Secondary Schools"
5.8. "Administrative Arrangements for Shared Decision Making in Secondary Schools"

5.9. "Instruction and Advisory Arrangements in Secondary Schools"

5.10. "Teacher-Advisory Programs in Secondary Schools"

Check ✓ each audiocassette that was used and enter the percentage of your total school faculty that used it.

6.1. "Experiences of Two Middle Schools and Two Senior High Schools with Educational Programming for the Individual Student: Part I"

6.2. "Experiences of Two Middle Schools and Two Senior High Schools with Educational Programming for the Individual Student: Part II"

6.3. "Experiences of a Middle School, a Junior High School, and Two Senior High Schools with Curricular Patterns"

6.4. "Experiences of a Middle School, a Junior High School, and Two Senior High Schools with Work and Other Career Education Activities"

6.5. "Experiences of a Middle School, a Junior-Senior High School, and Two Senior High Schools with Student Decision Making"

6.6. "Experiences of a Middle School and a Senior High School with Evaluating Student Learning and Educational Programs"

6.7. "Experiences of Two Middle Schools and Two Senior High Schools with Instruction and Advisory Arrangements"

6.8. "Experiences of a Middle School and Two Senior High Schools with Administrative Arrangements for Shared Decision Making"

6.9. "Experiences of a Middle School, a Junior High School, and Two Senior High Schools with Teacher-Advisor Programs"
Check ✓ which of the following were used in addition to the WRISE materials (do not include materials for students):

7.1. Other printed material similar substantively to the WRISE print materials. Give the title(s) of the printed materials:

7.2. Other filmstrips or films similar substantively to the WRISE filmstrips. Give the title(s) of the visuals:

7.3. Other audiocassettes similar substantively to the WRISE audiocassettes. Give the title(s) of the audiocassettes:

7.4. Resource persons or consultants. Give the name(s) and the number of days served:

7.5. Visits to schools or other places. Give the number and places:

7.6. Telephone calls to schools or other places. List the schools or other places called:

7.7. Meetings or workshops attended outside your school and school district. Describe briefly.

7.8. Meetings or workshops in your school or district other than during regular school hours; e.g., on Saturday, in evenings, at other times when school is not in session. Describe briefly.
Description of your administrative, financial, and other arrangements

8.1 Enter the name(s) and position of the improvement leader(s).

3.2 Give the name of your school's improvement committee or other committee or council responsible for planning and coordinating the improvement activities and list the number of persons and categories of positions.

Name of committee ________________________________

<table>
<thead>
<tr>
<th>Number:</th>
<th>Administrators</th>
<th>Number:</th>
<th>Students</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Counselors</td>
<td></td>
<td>Parents</td>
</tr>
<tr>
<td></td>
<td>Teachers</td>
<td></td>
<td>Other</td>
</tr>
</tbody>
</table>

Comments:

8.3 Check ✓ how often the improvement committee meets regularly.

- Weekly
- Bimonthly
- Monthly
- Less than monthly

Comments:

8.4 Check ✓ when the participating staff meets for its planning, preparation, and evaluation activities.

- only during the regular school day during the school year.
- only outside the regular school day during the school year.
- only during the summer or vacation periods when the school is not in session.
- some combination of the above.

Describe the time(s) briefly:
8.5  Yes  No

Check whether any of the participating staff receives additional pay for any part of their participation. If yes, describe briefly who receives the pay, how much, and the timing of their activities.

8.6  Yes  No

Has planning and starting the improvement activities resulted in increased costs to your school? If yes, indicate the amount and for what purposes. If no, indicate how it is done without increasing costs.

8.7  Will the planned improvements when implemented the first year  
increase, decrease, have no effect on per-pupil cost? Explain briefly.
### Part II

(Questions in Part II are based on the Educational Improvement Leader's Manual)

**Directions:** Enter a ✓ in the appropriate column to indicate your reactions from very high to very low.

18. Provide organizational and administrative mechanisms to involve the staff in planning, monitoring, and evaluating the improvement activities.

19. Assure that time, space, and other physical arrangements are provided for the staff to plan and evaluate their improvement activities.

20. Identify district and state support for the improvement activities.

*Useability of the six-step improvement process in terms of the time and effort required for using it.*

22. Develop your school's improvement plan.

23. Carry out the staff's information-gaining activities.

24. Carry out the staff's preparatory activities.

25. Carry out the implementation activities.

26. Carry out the evaluation activities.

27. The preceding 6 steps as a total process.

*Effectiveness of the six-step improvement process in terms of aiding your staff achieve its educational improvement goals.*

28. Assess your school's situation.

29. Develop your school's improvement plan.

30. Carry out the staff's information-gaining activities.

31. Carry out the staff's preparatory activities.

32. Carry out the start-up activities.

33. Carry out the evaluation activities.

34. The preceding 6 steps as a total process.
Appendix D
Forms and Instruments Used
in University Summative Evaluation

Professor's Questionnaire for Assessing the Desirability and Usability of the WRISE Conceptual Design

Desirability of the Comprehensive and Enabling Objectives: Wisconsin Program for the Renewal and Improvement of Secondary Education
(This scale is given as Appendix A.)

Professor's Questionnaire Regarding All WRISE Materials Used

Second Semester 1980-81 University Professor's Report of Field Test of the Wisconsin Program for the Renewal and Improvement of Secondary Education (WRISE)

Component Evaluation Form (Illustrative questionnaire included in this appendix for only one of the 10 components--Curricular Arrangements.)

Student Questionnaire: Instructional Materials of the Wisconsin Program for the Renewal and Improvement of Secondary Education

Posttest: Wisconsin Program for the Renewal and Improvement of Secondary Education (Illustrative posttest for one component--Curricular Arrangements; pretest not included since it is identical to the posttest.)
PROFESSOR’S QUESTIONNAIRE FOR ASSESSING THE DESIRABILITY AND USABILITY OF THE WRSE CONCEPTUAL DESIGN

Directions: The conceptual design for the renewal and improvement of secondary education includes ten comprehensive objectives and enabling objectives, each set of objectives indicating a possible direction for starting or extending a systematic educational improvement effort in a middle school, junior high school, or senior high school. This questionnaire assumes that the respondent has a good understanding of the comprehensive objectives and the enabling objectives. Only the 10 comprehensive objectives are given in the items of this questionnaire.
Respond to the following questions to indicate (a) the desirability of each objective in terms of its indicating a desirable direction for a school's educational improvement effort and (b) the usability of each objective by a local school staff when considering possible directions for its educational improvement activities. Please respond to every question by circling the appropriate letter.

D = Low (Desirability/Usability)
E = Very Low (Desirability/Usability)

COMPREHENSIVE OBJECTIVE

6. The school's administrative arrangements provide for cooperative planning and shared decision making by the persons responsible for implementing the plans and decisions that are made, mainly administrators, counselors, teachers, and students.

7. The faculty and students are organized into groups so that an effective educational program is arranged for the individual student each semester and advising is personalized.

8. Effective communication and cooperative educational efforts between the school and the community are carried out as part of a program of home-school-community relations.

9. The environment for learning and instruction in the school and for work and other educational experiences in the community is enriched through the intellectual, technical, and material support provided by school and school district groups, and by external agencies, such as regional educational laboratories, the state education agency, intermediate agencies, teacher education institutions, and professional associations.

10. Student learning and personality development, instruction, advising, administrative arrangements, and other educational processes become better understood and are improved through continuous research and development conducted by school personnel and cooperating individuals and agencies.

11. The desirability and usability of 10 sets of comprehensive and enabling objectives in totality in providing desirable and useful directions for starting an educational improvement activity.

| T5. Effectiveness of the questions at the end of each section in terms of aiding students to analyze and evaluate the concepts and practices presented. |
| T6. Appropriateness in terms of length. |
| T7. Your general reaction to the chapters. |
| T8. Will you use the textbook the next time that you teach this course? |

- Yes
- Undecided
- No

T9. Comments:

IV. Enter your responses regarding the **LEARNING GUIDE CHAPTERS** that you assigned to the students.

The Learning Guide is intended for use by individuals, pairs, and/or small groups to aid them in increasing their understanding of the concepts, principles, and practices included in the textbook chapters, the filmstrips, and the audiocassettes through use and study of the materials outside the regularly-scheduled class period.

| L1. Usability in terms of a reasonable amount of preparation required of you prior to using the chapters. |
| L2. Usability in terms of a reasonable amount of time required of you to aid your students use the chapters. |
| L3. Clarity of the directions and suggestions to the student. |
| L4. Usability in terms of the students being able to complete the assigned or selected questions and activities with a minimal amount of assistance and direction from you. |
| L5. Effectiveness in terms of aiding the students to understand and to apply the concepts and practices. |
| L6. Ready availability of the filmstrips, audiocassettes, and projection equipment to the students. |
| L7. Your general reaction to the **Guide** chapters. |
L8. For each chapter section, check the percentage of the questions and activities that you either assigned or invited your students to complete.

(a) Filmstrip.  ______ 75% or more, ______ 50%-74%, ______ 25%-49%, ______ 1%-24%, ______ 0%.

(b) Audiocassette. ______ 75% or more, ______ 50%-74%, ______ 25%-49%, ______ 1%-24%, ______ 0%.

(c) Book Chapter. ______ 75% or more, ______ 50%-74%, ______ 25%-49%, ______ 1%-24%, ______ 0%.

(d) Application Activities. ______ 75% or more, ______ 50%-74%, ______ 25%-49%, ______ 1%-24%, ______ 0%.

L9. Will you use the Guide the next time that you teach this course?

______ Yes  ______ Undecided  ______ No

L10. Comments:__________________________________________________________

V. Enter your responses regarding the COLLEGE INSTRUCTOR'S GUIDE CHAPTERS

The College Instructor's Guide is intended for use by professors who offer a credit course or a non-credit activity dealing with some aspect of secondary education. Included in the chapter are synopses of correlated materials, suggestions regarding the use of correlated materials, and objective questions for use with the textbook chapter and which may be used in preparing pretests or posttests.

I1. Usability in terms of a reasonable amount of preparation required of you prior to using the chapters.

I2. Effectiveness in terms of providing test items to evaluate students' knowledge and understanding of the WRISE concepts and practices.

I3. Quality of the test items to evaluate students' knowledge and understanding of related concepts and practices.

I4. Quality in terms of the appropriateness of the suggested activities for use with the correlated materials.

I5. Your general reaction to the Instructor's Guide chapters.

I6. Will you use the Instructor's Guide or the test items the next time you teach this course?

______ Yes  ______ Undecided  ______ No

118
SECOND SEMESTER 1980-81 UNIVERSITY PROFESSOR'S REPORT OF FIELD TEST
OF THE WISCONSIN PROGRAM FOR THE RENEWAL AND IMPROVEMENT
OF SECONDARY EDUCATION (WRISE)

1. Name ___________________________ University _______________________

2. Briefly describe your university, school or college, and department or area. Include number of f.t.e. students in university, school, and department and composition of student body in terms of undergraduate and graduate.

3. Catalog description of the course in which materials were used (include department, course No., and No. of credits):

4. Check one: _____ Graduate course; _____ Undergraduate course; _____ Combined

5. Check one: _____ Course required in a certification program, _____ not required but often taken, _____ not required and not often taken.

6. Enter the chapter Nos. of the book that were used:

7. Enter the chapter Nos. of the Learning Guide that were used:

8. Enter the titles of the filmstrips that were used:

9. Enter the titles of the school experiences audiocassette that were used:

10. Check whether the WRISE materials were used as _____ primary, _____ supplementary, or _____ one of equally important sets of materials in this course.
11. List the other books which were required of all students in this course:

12. List other materials used in this course*:

13. Check one: I will use the ___ same, ___ more, ___ fewer WRISE textbook chapters when I offer the same course the next time.

Comments:

14. Check one: I will use the ___ same, ___ more, ___ fewer WRISE filmstrips when I offer the same course the next time.

Comments:

15. Check one: I will use the ___ same, ___ more, ___ fewer WRISE school experiences audiocassettes when I offer the course next time.

Comments:

16. Check one: I will use the ___ same, ___ more, ___ fewer WRISE Learning Guide chapters when I offer the course the next time.

Comments:

17. Enter the number of tests and questionnaires that were administered to students:

___ pretest, ___ posttest, ___ student questionnaire, ___ sets of component evaluation forms.

Comments:

*Do not include titles of all hand-outs, such as reprints of articles, readings on library reserve, etc.
18. Check the conditions under which the tests and questionnaires were administered: ___ individually, ___ small group, ___ total group.

Comments: ____________________________________________

19. Check your estimate of the reliability of the results of the administration: ___ highly reliable, ___ reliable, ___ uncertain, ___ unreliable, ___ highly unreliable.

Comments: ____________________________________________

20. Check how well you think you were able to use the WRISE materials in terms of how well equipment functioned, available space, etc.: ___ very effectively, ___ effectively, ___ not effectively, ___ very ineffectively.

Comments: ____________________________________________

21. Briefly describe your instructional strategy or method and comment on the ease of use and value of the materials in teaching your course.

I am working with the Wisconsin Project on the Renewal and Improvement of Secondary Education in a national field test of the Project's instructional materials. This questionnaire secures your opinions about the Project's printed and audiovisual materials dealing with curricular arrangements. Your responses are very important. They will not be used in grading and will be treated confidentially. Completing this questionnaire is not a course requirement; if you object to completing it, please return it to me now. Your responses will help me in planning my future courses and will also help the Wisconsin Project complete their national field test.

Questionnaire constructed by Professor Herbert J. Klausmeier, Director, Wisconsin Program for the Renewal and Improvement of Secondary Education, with review by John Daresh of the Wisconsin Project and professors participating in the field test.

STUDENT QUESTIONNAIRE: INSTRUCTIONAL MATERIALS OF THE WISCONSIN PROGRAM FOR THE RENEWAL AND IMPROVEMENT OF SECONDARY EDUCATION

Directions to Student: Complete the Identifying Information

Your Name: ____________________________ Date: ____________________________

Last First

Month Day Year

Class Standing (check one): ______ Undergraduate ______ Graduate

Course: ____________________________ Department ____________________________

Course No. ____________________________ No. of Credits ____________________________

Course Title: ____________________________

I am working with the Wisconsin Project on the Renewal and Improvement of Secondary Education in a national field test of the Project's instructional materials. This questionnaire secures your opinions about the Project's printed and audiovisual materials that we have used. Your responses are very important. Your responses will not be used in grading and will be treated confidentially. Completing this questionnaire is not a course requirement; if you object to completing it, please return it to me now. Your responses will help me in planning my future courses and will also help the Wisconsin Project complete their national field test.

Please respond to every item. Remember, react only to the following material of the Wisconsin Program, not to other course material:
Student Questionnaire regarding WRISE materials.

Directions: Enter a √ in the appropriate column to indicate your responses.

I. Enter your responses regarding the Wisconsin Program FILMSTRIPS:

F1. Effectiveness for helping you become aware of a variety of concepts and practices.

F2. Value or importance of the concepts and practices portrayed.

F3. Quality in terms of visuals, sound, and rate of presenting ideas.

F4. Quality in terms of presenting ideas in an interesting manner.

F5. Appropriateness in terms of length.

F6. Your general reaction to the filmstrips.

II. Enter your responses regarding the SCHOOL EXPERIENCES AUDIOCASSETTES:

A1. Effectiveness for helping you understand ideas presented in the filmstrip and/or the text.

A2. Value or importance of the concepts and practices presented.

A3. Quality in terms of sound and rate of presenting ideas.

A4. Quality in terms of presenting ideas in an interesting manner.

A5. Appropriateness in terms of the length of each segment of the audiocassettes.

A6. Your general reaction to the school experiences audiocassettes.

III. Enter your responses regarding the TEXTBOOK CHAPTERS:

T1. Effectiveness for helping you become aware of a variety of concepts and practices.

T2. Value in terms of dealing with current and important ideas and practices.

T3. Quality in terms of the number and kind of ideas and practices presented.

T4. Quality of each chapter, including the questions at the end of each section of each chapter, in aiding you to analyze and evaluate the ideas and practices presented.

T5. Your general reaction to the textbook chapters.
Student Questionnaire regarding WRISE materials.

IV. Enter your responses regarding the **LEARNING GUIDE CHAPTERS**:

The Learning Guide chapter is intended for use by individuals, pairs, and/or small groups to aid you in increasing your understanding of the concepts, principles, and practices included in the textbook chapter, the filmstrip, and the audiocassette through use and study of the materials outside the regularly-scheduled class period.

L1. Each Learning Guide chapter has four sections. Check the percentage of the questions and activities that you discussed or completed for the Chapter sections:

<table>
<thead>
<tr>
<th>Section</th>
<th>Percentage of Questions and Activities discussed/completed</th>
</tr>
</thead>
<tbody>
<tr>
<td>(a) Filmstrips.</td>
<td>75% or more, 50%-74%, 25%-49%, 1%-24%, 0%</td>
</tr>
<tr>
<td>(b) Audiocassettes</td>
<td>75% or more, 50%-74%, 25%-49%, 1%-24%, 0%</td>
</tr>
<tr>
<td>(c) Textbook Chapters</td>
<td>75% or more, 50%-74%, 25%-49%, 1%-24%, 0%</td>
</tr>
<tr>
<td>(d) Application Activities</td>
<td>75% or more, 50%-74%, 25%-49%</td>
</tr>
</tbody>
</table>

L2. Usefulness of the synopsis and questions and activities in helping you use and understand the content of the filmstrips.

L3. Usefulness of the synopsis and questions and activities in helping you use and understand the content of the school-experiences audiocassettes.

L4. Usefulness of the synopsis and questions and activities in helping you use and understand the content of the textbook chapters.

L5. Usefulness of the application activities in helping you relate the content to your personal or professional experiences.

L6. Adequacy of the assistance and guidance provided by your instructor.

L7. Availability of the materials for your individual or small group use.

L8. Availability of projection equipment and space needed for using the filmstrips and audiocassettes.

Student Questionnaire regarding WRISE materials.

V. General Reactions to the Wisconsin Program Materials.

Indicate what you regard as the main merits and possible weaknesses of the Wisconsin Program materials.
POSTTEST: WISCONSIN PROGRAM FOR THE RENEWAL AND IMPROVEMENT OF SECONDARY EDUCATION

Directions to Student: Complete the Identifying Information

Your Name: ___________________________ Date: ________________

Last First

Mo. Day Year

Class Standing (check one): ______ Undergraduate ______ Graduate

Course: ________________________________

Department Course No. Credits

Course: ________________________________

Directions to Student: I am working with the Wisconsin Project on the Renewal and Improvement of Secondary Education in a national field test of the Project's instructional materials. This test measures what you have learned about the concepts, principles, and practices included in the Wisconsin Program. Your responses to the test are very important and your score will count toward completing the requirements of this course. Answer every item; there is no penalty for guessing incorrectly. Every question has one best answer.
CHAPTER 4: CURRICULAR ARRANGEMENTS

Directions: Enter your answer in the space provided at the left of the item number. There is one best answer for each item.

4.1 There is most disagreement among educators regarding

a. the major curricular areas to be included in secondary education.
b. the role of the state in curriculum policy-making.
c. the use of schools for religious instruction.
d. the specific content students should learn.

4.2 Curriculum policy-making refers to

a. decisions regarding materials to be used by students and teachers.
b. decisions regarding materials to be used by teachers and administrators.
c. the passage of laws regarding the curriculum by the federal government.
d. the establishment of limits, criteria, and guidelines.

4.3 Curriculum development should be carried out at the district level mainly to

a. assure that federal legislation is complied with in all schools.
b. guarantee that appropriate learning activities are available to all students.
c. assure continuity in student learning from one school level to the next.
d. determine acceptable levels of student performance.
4.4 The main use of a subject-matter taxonomy for a broad field such as the natural sciences or social studies is to

a. eliminate the need for course objectives.

b. guide local school personnel in preparing course objectives.

c. determine the scope and sequence of instruction in various courses.

d. determine the focus of teaching and learning in various courses.

4.5 The best local school curricular arrangements provide for

a. formal and informal learning activities within the school building.

b. learning activities and guidance practices within the school building.

c. formal and informal learning activities within the school building and in the community.

d. formal learning activities in which the students participate.

4.6 The foremost purpose of district curriculum development, such as that carried out by the Tri-County Goal Development Project, is to

a. develop instructional objectives for use by individual teachers.

b. develop behavioral and performance objectives for use in evaluating student achievement.

c. identify instructional objectives and to specify instructional methods which facilitate achievement of these objectives.

d. develop program and course objectives which facilitate educational planning in local schools.
Curriculum policies and curricula are developed at four levels. Match the activities given in items 4.7-4.10 with the level indicated in a-d.

a. federal

b. state

c. school district

d. local school

4.7 Development or identification of unit objectives.

4.8 Development or identification of objectives for a biology course.

4.9 Development or identification of mathematics objectives, Kindergarten through Grade 12.

4.10 Veto of a school district's practice of not recording student absenteeism.

4.11 In the Tri-County Goal Development Project, as in educational practice generally, the board of education of a school district is responsible for approving the statements of purpose that are indicated in the

a. system goals or objectives.

b. program goals or objectives.

c. course objectives.

d. instructional objectives.

4.12 "The student knows and is able to apply basic mathematical processes" is an example of a(n)

a. system goal or objective.

b. course objective.

c. instructional objective.

d. unit objective.
A state with a fully decentralized approach to curricular policy is one in which

a. there are statewide textbook adoption policies.

b. state officials have authority to veto a course.

c. there are statewide minimal competency objectives.

d. state authorities advise and assist local school districts.

5. the extent to which the WRISE comprehensive objectives are regarded by university professors as indicating desirable directions for secondary education and as usable by local schools in identifying areas of improvement.

Selection of the Universities

Nine universities participated in the summative evaluation. They were selected on the basis of their expressed interest in the program, their willingness to participate in a workshop, and their willingness to enter into an agreement with the Wisconsin Center for Education Research to carry out the provisions of the agreement. The main provisions of the agreement follow.

The WRISE Project will carry out the following activities:

- Provide to each participant the complete college set of WRISE materials at a total cost of $80.00.

- Authorize the participant to use the materials during the field test year with the added provision that the authorization will be extended after the field test year if the results of the field test are favorable and the participant and the Director of WRISE desire to extend the authorization.

- Provide consultative assistance in the use of the materials via telephone and/or letter.

- Sponsor a workshop for participants to plan the field test of the WRISE design and materials.

- Grant permission to each participant to reproduce copies of any written materials, including books and data gathering instruments, that are used in the field test.

- Provide at least one copy of each data gathering instrument and authorize the participant to duplicate it.

- Score pretests and posttests administered by each participant and indicate the technical characteristics of each test in a field test report.

- Summarize the field test results and make them available to each participant by mail.
Each university field test participant has the following responsibilities:

- Participate in planning the field test at the workshop for participants.
- Provide the WRISE Project essential information concerning the characteristics of the course(s) in which the WRISE materials are used during 1980-81, including a catalog description of the course, number of students enrolled, list of WRISE and other materials used, and a brief description of the instructional strategy employed.
- Prepare and administer one or more pretests and posttests in each course, using some or all of the objective questions in the chapters of the College Instructor's Guide and other questions that the participant will construct.
- Use the answer sheets provided by the project and transmit them to the Center within 24 hours of the day of administration.
- Complete self-report inventories designed to measure the usability, effectiveness, value, and quality of the WRISE design and materials, and transmit them to the project within 24 hours of the last class meeting.
- Provide additional descriptive information which may be needed by the project staff in interpreting the results and preparing the report of the field test.

Data Gathering Instruments

The report forms and data gathering instruments were prepared by the author of the present report and are given in Appendix D. The titles of the instruments to which the professors responded are as follows:

Professor's Questionnaire for Assessing the Desirability and Usability of the WRISE Conceptual Design. This questionnaire was completed by each professor except that two who offered short courses in the summer of 1981 were not asked to complete it.

Professor Questionnaire (Separate Components): A total of 10, one for each set of correlated material—a chapter of the textbook, a filmstrip, an audiocassette (except for Chapter 1), a learning guide chapter, and a chapter of the College Instructor's Guide.
Professor Questionnaire (Regarding WRISE Materials Used). The professor could complete this questionnaire for all sets of materials used or a separate questionnaire for each separate component.

University Professor's Report of Field Test. This form was used by the professor to report the materials used, how the course was conducted, and other information.

The instruments completed by the university students were as follows:

Component Evaluation Form: A total of 10, one for each set of correlated material; or

Student Questionnaire: Instructional Materials of the Wisconsin Program for the Renewal and Improvement of Secondary Education. This questionnaire was designed to secure the responses of the students to all of the materials used in the course rather than to each set of materials. The professor who wished to have students use a minimum amount of time to respond to questionnaires used this form.

Pretest and Posttest: Wisconsin Program for the Renewal and Improvement of Secondary Education: A total of 10 tests, one for each set of correlated material. The pretest was identical to the posttest. The items were drawn from the College Instructor's Guide; however, some items were rewritten to improve readability and comprehensibility.

The number of items per chapter and the reliability estimates of each test are given in Table 3.1.

1. The University of Toledo is not included in this analysis because the test scores of the students were not available at the time the reliability coefficients were computed.
The reliability coefficients for all chapters except 6 range from .49 to .85. The coefficient for Chapter 6 was .03. This was considered too low to include the results of this chapter test in this report.

Descriptive Information Regarding the University Courses and Procedures

The name of each university, the time during which the materials were used, and information regarding the course are now presented.

Southwest Texas State University (ST), Second Semester, 1980-81

Professor Lowell Bynum used the materials in an education course titled "The Secondary Curriculum," a 3-credit graduate course. It is an elective course. He used all chapters of the textbook, the 10 correlated filmstrips, and the segments of the nine correlated school-experiences audiocassettes that dealt with high school practices. These WRISE materials were used as the primary materials in the course. The students did not use any chapters of the learning guide.

Generally the filmstrip was viewed and discussed in one class meeting. The students were asked to read the text chapter before the next class meeting. The next class meeting began with listening to the high school segment of the audiocassette. Discussion followed.

In his final report, Professor Bynum indicated that the next time he offered the course he would use the WRISE materials as part of the primary material rather than as the sole primary material. He would not use certain chapters that were not closely related to curriculum concepts. Moreover, he would use the audiocassettes on an elective basis rather than requiring all students to listen to them.

University of Cincinnati (UC), Spring Quarter, 1980-81

Professor John Daresh used the WRISE materials in a graduate course titled "Supervision of Instruction." This course carries three quarter-hours of credit and is required in the certification program for educational leaders. Textbook Chapters 1, 4, and 8 and the related filmstrips were used; the correlated audiocassettes and the learning guide chapters were not used. A required textbook in supervision and other materials were used. In his final report, Mr. Daresh indicated that he had difficulty in incorporating the materials into this class because of offering the class for the first time. Mr. Daresh later used the WRISE materials effectively in the same course during a 10-week quarter.
University of Toledo (UT), Second Semester, 1980-81

The professor used the WRSE materials in a course titled "Secondary Teaching and Learning, II." This course carried 4-12 hours credit. It is the second course in a sequence on secondary teaching and learning. Students are assigned to a public school classroom as part of the course requirement. The course is undergraduate and is required in the teacher certification program. The professor used textbook Chapters 2 and 3 and the related learning guide chapters, filmstrips, and audiocassettes.

The filmstrips and audiocassettes were presented to the class in a large group setting. Discussion followed. The students used the textbook and learning guide chapters on an individual voluntary basis. The professor indicated that the materials were generally useful in achieving the objectives of the unit.

University of Wisconsin-LaCrosse (La), First Semester, 1980-81

Professor Donald Davis used the WRSE materials in a course titled "Curriculum of the Secondary School," a 3-credit course. This is a graduate course and is not required in a certification program. Chapters 1, 2, 3, and 4 of the textbook and the correlated filmstrips were used. These materials were used to supplement a basic textbook on secondary education. The school-experiences audiocassettes and the learning guide chapters were not used.

This class met for 2 1/2 hours one night per week. The WRSE materials were the main materials used in four class meetings. The filmstrips were viewed and discussed in class and the chapters were assigned for outside reading. Professor Davis regarded this supplemental use of the WRSE materials as desirable and thought that he might use more of the material in this manner the next time he offered the course.

University of Wisconsin-Platteville (Pl), First semester, 1980-81

Professor Ken Kamps used the WRSE materials in a 2-credit course titled "Secondary Education." This is an undergraduate course and is not required for teacher certification.

The students were assigned Chapters 1, 2, 3, 4, 8, and 10 of the textbook and Chapters 1, 2, and 3 of the learning guide. Four filmstrips were used and one school-experiences audiocassette. These materials were used to supplement a basic textbook and other material.

The course procedure was to show a filmstrip and assign the textbook chapter and specific questions in it. At the next class meeting the assigned readings were discussed.
Professor Kamps indicated that the materials were easy to use but that the students had difficulty applying some of the concepts since they had not yet had student teaching. He felt that the materials would be excellent for graduate students, much better than for undergraduates who had not yet had a student teaching experience.

University of Wisconsin--Stevens Point (St), First Semester, 1980-81

Professor Warren Lensmire used the WRISE material in a 3-credit graduate course titled "Instructional Programming." This course is not required for certification. The students were expected to master the course objectives and to reflect their mastery in the posttest scores.

Chapters 1, 2, 3, 7, 9, and 10 of the textbook were assigned to all students. The correlated filmstrips were used during the class period. Some of the school experiences audiocassettes were used during the class period. Some of the students used some chapters of the learning guide on an individual basis. Some non-WRISE materials were used by the students who were more interested in elementary education than in secondary education.

The class met late in the afternoon, since it enrolled primarily practicing teachers. Professor Lensmire closely correlated the filmstrip with the discussion of the textbook chapter. He regarded this use of the materials for his students as excellent.

University of Wisconsin--Eau Claire (Ea), First and Second Semester, 1980-81

Professor Charles Larson and other professors used the WRISE materials during the first and second semester of the 1980-81 school year on an individual basis with students enrolled in various courses. At some time during the two semesters all the textbook chapters, the learning guide chapters, the filmstrips, and the school-experiences audiocassettes were used by one or more students.

The chapters of the textbook and the learning guide were re-packaged so that there was a correlated set of materials for each chapter rather than a complete textbook and a complete learning guide. This enabled individual students to use a set of materials in a variety of ways outside of the regular class period. Professor Larson felt that this procedure worked particularly well, since the students were enrolled in late evening courses for practicing teachers and other school personnel.

The teachers responded to the pretest and posttest as well as to the relevant questionnaires on an individual basis and were not monitored. Accordingly, the results of the tests are not included in this report; however, the other information from the students is.
University of Wisconsin--Eau Claire (Ea), Summer, 1981

Professor Donald Birr used the WRISE materials in a 3-credit, elective, graduate course in the summer of 1981. He used six correlated sets of textbook chapters, chapters of the learning guide, and filmstrips and two school-experiences audiocassettes as the primary materials of the course. The graduate students met for two weeks before secondary school students of Grades 7-12 came to the university for summer school instruction. This combination of a course and subsequent teaching was a clinical experience for the graduate students, designed to enable them to carry out practices in accordance with the recommended procedures of the WRISE program when they returned to their schools.

The WRISE materials were used in the two weeks prior to the secondary school students arriving on campus. They were also used on an individual basis after the students arrived. Time did not permit pretesting or posttesting the graduate students. However, they did respond to the questionnaire. Professor Birr regarded the WRISE materials as helpful and easy to use.

University of Wisconsin--Madison (Ma), Summer, 1981

The professors used five filmstrips in the summer session of 1981 in an elective 3-credit graduate course titled "The School Principalship." This course met for four weeks. A basic text and other materials were used in addition to the WRISE filmstrips.

The instructional procedure began with an introduction to a topic and a short lecture. This was followed with an introduction to the concepts of the filmstrip and then the filmstrip. He divided his class into small groups to discuss and analyze the filmstrip. Each group reported back to the total group, and there was further discussion of the concepts and practices depicted in the filmstrip. Inasmuch as only the filmstrips were used, the pretest and posttest were not administered. The questionnaire dealing with all the materials was administered after the last filmstrip was used. The professor indicated that he was able to use the filmstrips very effectively.

Before proceeding to the results of the pretests-posttests, we should recognize that three universities initially identified to participate in the summative evaluation are not included in this report for the following reasons. In two universities the students were told that their scores on the posttests would not be used in assigning their grades for the course. Some of these students apparently did not make a serious attempt to learn the material, to do well on the posttest, or both. In the third university the enrollment for the course was so low that the course was cancelled.
Students' Pretest → Posttest Results

A summary is given in Table 3.2 of the pretest-posttest results for each of the six universities in which the tests were administered. In three of the nine participating universities the pretests and posttests were not administered. A brief indication is given of the course in which the materials were used and also the sets of correlated materials that were used. The number of students who took the pretests and posttests, the total number of items that the students took, and the mean and standard deviation for the pretest and the posttest based on the total number of items are given.

Students made a statistically significant gain from the pretest to the posttest at Southwest Texas State University, University of Toledo, University of Wisconsin--LaCrosse, University of Wisconsin--Platteville, and University of Wisconsin--Stevens Point. The students at the University of Cincinnati did not gain.

Of the three courses on which the percent correct on the posttest were the lowest, two were undergraduate courses, one of which carried only two credits. The other was the graduate course at the University of Cincinnati, a 10-week course which Professor Daresh was teaching for the first time.

The students achieved considerably higher in the three graduate courses where more of the WRISE materials were used and where the material was either the primary material or a large part of the supplementary material. To what extent the students studied the assigned textbook chapters was not ascertained; however, the test items were based on the textbook content.

Students' Evaluations of the Quality and Other Properties of the WRISE Materials

Professors were given the option of having their students complete one composite evaluation form that dealt with all of the sets of the materials they had used, or a separate form for each set. Five professors used the composite evaluation form for all materials, three used the individual component forms, and another could not work in this student evaluation because of the time constraint in his course.

* P ≤ .05
A summary follows of the students' responses to the materials using the composite evaluation form (Table 3.3). The items of the questionnaire to which the students responded are indicated. The five universities that used this form are indicated as well as the number of students responding and the mean rating assigned to each item. To compute the mean ratings, a 5 was given to a response of very high, 4 high, 3 average, 2 low, and 1 very low.

For the textbook the mean ratings generally fell between average and high. The graduate students at LaCrosse and the undergraduates at Platteville rated the textbook somewhat higher than did the graduate students at the other two universities. Students rated the textbook chapters relatively high on effectiveness in helping them become aware of a variety of concepts and practices, value in terms of dealing with current and important ideas and practices, and quality in terms of the number and kind of ideas and practices presented. Only the students at Eau Claire rated the last item relatively lower.

The filmstrips were rated somewhat higher than the textbook chapters. The three items rated higher than the others were effectiveness for helping the student become aware of a variety of concepts and practices; value or importance of the concepts and practices portrayed; and quality in terms of the visuals, sound, and rate of presenting ideas. The graduate students in administration at the University of Wisconsin--Madison rated the filmstrips particularly high, except for length.

The school-experiences audiocassettes were rated somewhat lower than the filmstrips. They were also used less often. The mean ratings assigned by the students at Eau Claire to the audiocassettes was consistently higher than the mean ratings by the Southwest Texas students. It will be recalled that the students at the University of Wisconsin--Eau Claire used the cassettes on an individual basis, while the students at Southwest Texas listened to them during class period. Moreover, the students at Eau Claire were involved in a clinical experience and had the opportunity to apply the information they gained in teaching the secondary school students.

The learning guide chapters were rated only by the students at the University of Wisconsin--Eau Claire. The mean rating pertaining to the adequacy of the assistance provided by the instructor was 2.60; the mean rating pertaining to the availability of projection equipment and space was 2.67; and the mean for availability of the needed materials was 4.00. Accordingly, we infer that the professor treated the learning guide chapters as relatively self-instructional while the students did not. Despite this, the usefulness of the activities included in the learning guide chapters were rated relatively high by the students.

Students' responses to the individual component evaluation forms are summarized in Table 3.4. The items on these forms are not the same as those just discussed. Moreover, the number of students indicated

*Note. Student N is the combined number of students responding. For example at the University of Toledo, 31 students responded to Chapter 2 and 28 to Chapter 3 for a total N of 59.*

DU = Didn't use
is the total who responded to each item. For example, 31 students at the University of Toledo responded to Chapter 2 of the textbook, while 28 responded to Chapter 3. The mean ratings take into account the total number of students (59) who responded to each individual chapter and to other individual kinds of correlated material.

The ratings that the students checked were Excellent (5), Good (4), Average (3), Fair (2), and Poor (1). Most of the mean ratings fell between average and good, although some were between good and excellent.

Overall, the graduate students at Eau Claire rated the textbook chapters somewhat higher than did the graduate students at Stevens Point and the undergraduate students at the University of Toledo. The graduate students at Eau Claire also rated the filmstrips higher than the students of either of the other universities, and the graduate students at Stevens Point rated the filmstrips higher than did the undergraduate students at Toledo. The graduate students at Eau Claire rated the learning guide chapters higher than did the graduate students at the University of Wisconsin--Stevens Point.

Two points should be made regarding the higher ratings of the students at Eau Claire in comparison with Stevens Point. First, the students at Eau Claire used all the materials, including the cassettes and learning guides, on an individual basis. This resulted in a lower proportion of the students using all the materials. Second, a much higher proportion of the students at Stevens Point used the learning guide and to a lesser extent the audiocassettes. The same chapters and related materials were not used by students at the three different universities discussed in this section of the chapter.

Professors' Evaluations of the Usability and Other Properties of the WRISE Materials

The nine professors from the cooperating universities completed an evaluation of the usability, effectiveness, and other properties of the sets of WRISE materials that they used. Professors at Southwest Texas University, University of Wisconsin--Madison, and University of Wisconsin--Eau Claire (summer) used the composite form, while the professors at the other universities used the individual component forms. The ratings in Table 3.5 are based on a 5 for very high, 4 high, 3 average, 2 low, and 1 very low.

The first four items pertaining to the textbook chapters, filmstrips, audiocassettes, and the complete set of materials were alike in that they dealt with (1) the usability of the material, (2) its effectiveness in aiding the professor achieve course objectives, (3) the importance of the concepts and ideas presented in the material, and (4) the technical quality of the material. The items pertaining to the

a All correlated sets of materials were responded to on one questionnaire.
b Responses for Ch. 1 only, not for all eight sets of materials used.
c Average of composite ratings and mean ratings.
chapters of the learning guide and instructor's guide were unique to these materials; however, at least one item dealt with usability and effectiveness. Our primary concern is with usability, effectiveness, importance, and technical quality of the materials, particularly the average ratings by all the professors.

The mean ratings of the usability of all the separate items—textbook chapters, filmstrips, audiocassettes, and learning guide—as well as of the complete set ranged between high and very high, except for the College Instructor's Guide which was 3.96. The effectiveness of the separate items and the complete set in aiding the professor achieve course objectives was also between high and very high except for the College Instructor's Guide and audiocassettes. Both the technical quality and the importance or value of the ideas and practices presented in the textbook chapters, filmstrips, audiocassettes, and the complete set were rated between high and very high.

All the items pertaining to the complete set of materials and the filmstrips were rated between high and very high, six of the seven items were for the learning guide chapters, five of seven were for the textbook, and four of seven were for the audiocassettes. Most of the items pertaining to the College Instructor's Guide are related to the test items, the main content of the Instructor's Guide. Here the five mean ratings were below high but were well above average. Because the project supplied the pretest and posttest items to the professors, they had little need for the Instructor's Guide.

Professors' Evaluations of the Desirability and Implementation of the WRISE Comprehensive Objectives

Professors responded to a questionnaire that included the 10 comprehensive objectives of the WRISE program. They responded to each objective in terms of (a) its indicating a desirable direction for a local school's educational improvement effort and (b) its usability by local school staff when considering possible directions for educational improvement activities. A rating of 5 indicated very high desirability or usability, 4 high, 3 average, 2 low, and 1 very low.

Seven professors responded; the two who were involved only in the summer session of 1981 were not asked to respond. The university designations and the response of each professor to each item are shown in Table 3.6.

With few exceptions the professors rated each comprehensive objective very high in terms of its indicating a desirable direction for a school's educational improvement effort. The mean ratings of the seven professors ranged from 4.57 to 5.00.

<td>5 5 5 5 5 5</td>
<td>5.00</td>
</tr>
</tbody>
</table>
The usability of each comprehensive objective by a local staff when considering possible directions for educational improvement efforts was usually rated as high or very high. The mean usability ratings ranged from 3.86 to 4.57 and were about a half point below the mean desirability ratings. The mean desirability rating for all 10 sets as shown in Item 11 was 5.00, while the mean usability rating was 4.40.

Conclusions and Discussion

Five specific objectives of the summative evaluation of the WRISE materials in university settings were indicated at the beginning of this chapter. A conclusion regarding each objective and a brief discussion follow.

- The students at five of the six universities made a statistically significant gain in achievement from the pretest to the posttest. Accordingly, we conclude that University students learned well from their study of the material.

- Whether the course is graduate or undergraduate, the amount of WRISE material used in the course, the time given to use of the WRISE material, and the instructional approach appear to be related to the amount of gain made by the students. At the university where no gain occurred, the professor indicated difficulty in finding time for using the WRISE materials. It is possible that these students may not have had time to study the WRISE textbook chapters. The amount of gain, though statistically significant, was quite modest in the two undergraduate courses where not much of the material was used. In graduate courses in which a considerable amount of the material was used, there were substantial gains. The greatest gain occurred in a graduate course where most of the materials were used and mastery of the objectives was a course goal.

- The students at five universities rated all the materials on one composite questionnaire. At three universities they used a separate questionnaire to rate each set of correlated materials. Although very important information was gained about the technical quality of each kind of material through the separate questionnaires, the conclusions that follow are based on the results of the composite questionnaire.

The effectiveness of the textbook and the filmstrips in helping the student become aware of a variety of concepts and practices was perceived to be high as was also the value or importance of the ideas and practices presented in the material. The technical quality of these materials was also regarded as high. Other properties of these materials were rated well above average but not high.
The properties of the school-experiences audiocassettes and the learning guide chapters were regarded as above average but not as high as the textbook and filmstrips. Based on the mean ratings we may conclude that university students regard the WRISE materials from above average to high.

There was considerable variation among the mean ratings of the students at the different universities who responded to the composite questionnaire and also among those who responded to the separate questionnaires. Apparently how the students respond depends considerably upon how the students perceive their use of the concepts and practices, on whether the material is used in class or is available and used outside class, and on the nature of the material itself, whether filmstrip, textbook chapter, or audiocassette. The filmstrips were used in class without other WRISE materials very effectively. On the other hand, the learning guide chapter and the correlated audiocassette were used very effectively by individual graduate students or by a small group outside the regularly scheduled class period when the students selected the particular content area to be studied.

- The professors regard the usability, effectiveness, and technical quality of the filmstrips, audiocassettes, learning guide, and complete set of materials as high to very high. The College Instructor's Guide is regarded above average but lower than the other materials.

- The professors perceive the WRISE comprehensive objectives as indicating highly desirable directions for improving secondary education and highly usable by local schools in identifying areas of educational improvement.

A final word is in order regarding the filmstrips and audiocassettes. The introductory filmstrip, titled "Introduction to the Wisconsin Program for the Renewal and Improvement of Secondary Education," was produced to present an overview of WRISE, including the materials, in an awareness workshop or conference as well as in a university class or local school staff meeting. When using it in a university class or in a local school staff meeting, only the early part of the filmstrip that presents the overview of the WRISE concepts and practices should be used. The later part describing the materials should not be used since the description of the materials does not increase understanding of the WRISE concepts or practices.

Another point regarding the filmstrips. Our film producer photographed individuals and small groups of students and school persons rather than classroom groups for three reasons—greater human interest, lower cost of lighting and filming, and less interruption of the school's schedule of classes and activities. Accordingly, very little whole-class
instruction is depicted in the filmstrips. The university students and the local school staff members should be made aware of these facts so that they do not assume that teacher-directed group instruction has no place in implementing educational programming for the individual student.

The main purpose of the school-experiences audiocassettes is for a teacher or another school person to explain how a school carries out a practice, such as teacher advising, and to describe how the school started the particular practice. Accordingly, a correlated audiocassette should be used after the textbook chapter is studied or after the filmstrip is viewed and the student already understands the concept or practice. The student should select the segments of the audiocassette—middle school or high school—of interest and should probably not listen to more than two segments at one sitting. Inservice teachers, graduate students who are teachers, and undergraduate students who are student teaching listen to selected segments of selected audiocassettes with high profit. Very different from the filmstrips, the audiocassettes cannot be used profitably unless other WRISE material is also used.

Comprehensive and Enabling Objectives of the Wisconsin Program for the Renewal and Improvement of Secondary Education

(The complete set of objectives follows as part of the Desirability Scale.)
DESIRABILITY OF THE COMPREHENSIVE AND ENABLING OBJECTIVES:
WISCONSIN PROGRAM FOR THE RENEWAL AND IMPROVEMENT OF SECONDARY EDUCATION

Complete the identifying information by checking your position:

Teacher ___ Principal ___ Professor ___
Counselor ___ District Official ___ Other ___

Directions: Many recommendations have been made to improve secondary education. The recommendations of the Wisconsin Program for the Renewal and Improvement of Secondary Education are in the form of ten comprehensive objectives and a related set of enabling objectives for each comprehensive objective. The objectives are not prescriptive. Rather, each set of comprehensive and illustrative enabling objectives indicates possible directions for a school staff to consider when starting or refining their school's educational improvement efforts. Please rate the comprehensive and enabling objectives in terms of their indicating a desirable direction for a school's educational improvement efforts.

Please respond to every question. Use the following descriptive information in arriving at your ratings:

<table>

COMPONENT I: EDUCATIONAL PROGRAMMING FOR THE INDIVIDUAL STUDENT

COMPREHENSIVE OBJECTIVE: (PART I)

1.0 An individual educational program of course work and other activities is arranged for each student each semester that satisfies the student's developmental needs and characteristics and that also meets district and state requirements.

ILLUSTRATIVE ENABLING OBJECTIVES:

Each student's individual educational program which includes all courses and other activities:

1.1 Is planned each semester or year by the student and the student's advisor.

1.2 Takes into account the student's aptitudes for learning different subject matter, interests, motivation, learning styles, career goals, and other personal and social characteristics.

1.3 Provides for experiential learning, including work experience in the community, for students who will benefit from it.

1.4 Is monitored cooperatively by the student and the student's advisor throughout the semester.

1.5 Is changed as necessary during the semester to assure high quality education for the student.

COMPREHENSIVE OBJECTIVE: (PART II)

1.00 An individual instructional program is arranged for the student in each course and other activity that is part of the student's total educational program that takes into account the student's aptitudes, interests, motivation, learning styles, career goals, and other personal and social characteristics.

ILLUSTRATIVE ENABLING OBJECTIVES:

The instructional program of the student:

1.6 Is planned by the student and the teacher of the course at the beginning of the course.

1.7 Includes course and unit objectives that are appropriate for the student in terms of the student's aptitude, entering achievement level, and career goals.

1.8 Provides an appropriate amount of time--in class, during school hours or outside school hours, as necessary--to suit the student's rate of achieving his/her objectives in the course.

1.9 Provides for appropriate individual attention by the teacher to take into account the student's motivation and other personality characteristics.

1.10 Provides for an appropriate amount of teacher-directed individual, pair, small-group, and large-group activity to take into account the student's need for structure and preferences for mode of instruction.

1.11 Provides for an appropriate amount of student-initiated individual, pair, small-group, and large-group activity to take into account the student's need for independence and preferences for mode of instruction.

1.12 Provides for appropriate use of printed materials, audiovisual materials, and direct experiencing to take into account the student's preferred modes of learning--visual, auditory, tactual, or kinesthetic.

A. Highly Desirable        D. Somewhat Undesirable
B. Desirable               E. Undesirable
C. Somewhat Desirable      F. Highly Undesirable

COMPONENT 2: CURRICULAR ARRANGEMENTS

COMPREHENSIVE OBJECTIVE:

2.0 A comprehensive and flexible curriculum is developed that meets state and district requirements and that facilitates educational programming for the individual student.

ILLUSTRATIVE ENABLING OBJECTIVES:

A comprehensive and flexible curriculum and instructional arrangements facilitate individual educational programming in the following areas:

2.1 Communication skills, including composition, literature, and speech.
2.2 Mathematical concepts and skills.
2.3 Scientific and technological concepts and skills, including computer technology.
2.4 Social science concepts and skills.
2.5 The expressive and performing arts, including aesthetics, art, dance, drama, and music.
2.6 Career education, including awareness, exploration, and preparation.
2.7 Health education, including physical and mental.
2.8 Family and home membership.
2.9 Leisure education, including crafts, clubs, and extracurricular activities.

For each separate course related to the preceding areas, local school curriculum committees, teams of teachers, and/or individual staff members, with appropriate participation by school district personnel:

2.10 Identify or prepare content outlines, organized in the form of taxonomies, other hierarchies, or topical outlines.
2.11 Identify or formulate course and unit objectives.
2.12 Identify or prepare instructional materials, including printed and audiovisual materials, that enable individual students to attain their objectives.
2.13 Formulate instructional strategies, including the use of time, methods, and materials, that enable individual students to attain their objectives.
2.14 Formulate procedures for identifying course and unit objectives that are appropriate for each individual student.
2.15 Prepare learning guides that the students and the teacher use at the beginning of each course to plan each student's instructional program.

COMPONENT 3: EXPERIENTIAL LEARNING AND CAREER EDUCATION

COMPREHENSIVE OBJECTIVE:

Career education is arranged for all students; experiential activities and/or work experiences in the community are arranged for each student who can profit from them.

ILLUSTRATIVE ENABLING OBJECTIVES:

District and local school policies and practices facilitate effective:

3.1 Career education, e.g., awareness, exploration, and preparation, including work experience.
3.2 Student participation in cultural, recreational, service, or other nonwork, experiential-learning activities in the community.
3.3 Participation of community personnel in within-school programs and activities and of school personnel and students in community activities.

A. Highly Desirable   D. Somewhat Undesirable
B. Desirable          E. Undesirable
C. Somewhat Desirable  F. Highly Undesirable

3.4 Use of material resources and facilities within the school and within the community.

3.5 Preparation of community personnel who participate in the educative process.

3.6 Identifies course and unit objectives to guide its career education and other experiential learning activities in the community.

3.7 Uses effective counseling and advising procedures to be used in planning each student's individual educational program regarding career education and experiential learning in the community.

3.8 Uses instructional strategies, including methods, materials, and community resources that facilitate the individual student's attainment of his/her career and experiential-learning objectives.

3.9 Prepares learning guides for use by the students, the teacher, and/or community persons to plan each student's instructional program at the beginning of the course or activity.

COMPONENT 4: STUDENT DECISION-MAKING ARRANGEMENTS

COMPREHENSIVE OBJECTIVE:

Students progressively assume more initiative for planning, implementing, and evaluating their programs and activities with a lesser amount of adult direction and control.

ILLUSTRATIVE ENABLING OBJECTIVES:

Students in their classes and/or in meetings with their advisors are taught:

4.1 Decision-making strategies and skills that help them to make educational decisions as individuals.

4.2 Concepts and skills that enable them to participate in shared decision making with other students, the school staff, and parents.

The individual student exercises increasing initiative for making decisions, accepting the related consequences of the decisions, and evaluating decisions regarding:

4.3 The student's instructional program in each course.

4.4 The student's individual educational program for the semester.

4.5 The student's individual educational program for the school year.

Students as members of groups take increasing initiative for making decisions, accepting responsibility for the decisions, and for evaluating the decisions regarding:

4.6 The objectives and activities in the course in which the group is enrolled.

4.7 The extra-curricular activity in which the group participates.

4.8 The governance of the group.

Students are encouraged to serve:

4.9 As officers and to participate as members of student-governing groups.

4.10 As student representatives on the school's standing and ad hoc committees, councils, and task forces.
DESIRABILITY OF COMPREHENSIVE AND ENABLING OBJECTIVES

A. Highly Desirable    D. Somewhat Undesirable
B. Desirable            E. Undesirable
C. Somewhat Desirable   F. Highly Undesirable

COMPONENT 5: EVALUATING STUDENT LEARNING AND EDUCATIONAL PROGRAMS

COMPREHENSIVE OBJECTIVE:

5. The individual student's progress toward attaining his/her course objectives, the student's instructional program in each course, the student's total educational program, and the school's total educational program are evaluated systematically.

ILLUSTRATIVE ENABLING OBJECTIVES:

Appropriate measurement and evaluation techniques are used:

5.1 To evaluate each student's progress toward achieving his/her unit and course objectives.
5.2 To evaluate each student's instructional program in each course.
5.3 To evaluate each student's educational program each semester in terms of the student's achievement of his/her goals, and in terms of how well the program has taken into account the student's aptitudes, interests, motivation, learning styles, career goals, and other characteristics.
5.4 To evaluate each student's total educational program for the school level, i.e., middle school, high school.
5.5 To evaluate the school's total educational program.

The results of the evaluation of each student's educational program each semester are used, primarily by teachers and students:

5.6 To set goals for each student to achieve the next semester.
5.7 To set goals annually for composite groups of students, such as those of a particular grade in school or those taught by a teaching team, to achieve in curricular areas, overt behavioral areas, and affective areas.
5.8 To evaluate each group's achievement of the goals.

The results of all evaluation activities are used by teachers and other school staff:

5.9 To evaluate the effectiveness of curricular or other programs in terms of criteria they formulate.
5.10 To improve the curriculum, instruction, and other elements of the school's total program.
5.11 To make long-range plans for improving the school's curricular, instructional, advising, organizational, and administrative arrangements.

COMPONENT 6: ADMINISTRATIVE ARRANGEMENTS

COMPREHENSIVE OBJECTIVE:

5. The school's administrative arrangements provide for cooperative planning and shared decision making by the persons responsible for implementing the plans and decisions that are made, mainly administrators, counselors, teachers, and students.

ILLUSTRATIVE ENABLING OBJECTIVES:

The school:

6.1 Is organized into administrative units, each of which has no more than 500 students.
6.2 Has one or more committees, composed of representatives of the administrative team, counselors, teachers, students, and parents that make decisions and formulate plans regarding the school's curriculum, instruction, advising, evaluation, organization, and staffing.
DESIRABILITY OF COMPREHENSIVE AND ENABLING OBJECTIVES

Directions: Enter the letter A-F in the ___

A. **Highly Desirable**  
B. **Desirable**  
C. **Somewhat Desirable**  
D. **Somewhat Undesirable**  
E. **Undesirable**  
F. **Highly Undesirable**

An **Educational Improvement Committee**, or other committee or council that has representatives of the administrative team, curriculum coordinators, counselors, and teachers:

6.3 Plans the school’s educational improvement activities.

6.4 Participate in meetings of the **Educational Improvement Committee** when matters of concern to them are on the agenda.

6.5 Serve as regular members of the **Educational Improvement Committee**.

One or more district committees, composed of the district administrator, representative principals, curriculum coordinators, counselors, teachers, students, parents, and citizens:

6.6 Coordinate the improvement activities of the district, taking into account district policies and state requirements.

6.7 Seek the participation of subject-matter coordinators, other specialists, and external consultants when matters related to their specialty are on the agenda.

The secondary school principal provides leadership and, with appropriate involvement of members of the Educational Improvement Committee, or other group, and the school staff:

6.8 Establishes policies and procedures which facilitate the school’s educational improvement efforts.

6.9 Supervises and evaluates members of the school staff on a continual basis.

6.10 Coordinates the use of facilities, materials, equipment, supplies, and other resources.

6.11 Provides time, space, and other physical arrangements that are needed for teaching teams, school committees, and other groups to meet and conduct their business during the school day.

6.12 Establishes effective two-way communication among administrators, other staff, teachers, and students; and between the school and parents and citizens of the community.

6.13 Participates as a member of district committees.

6.14 Transmits information to and from district committees.

6.15 Attempts to have implemented the decisions made by district committees.

**COMPONENT 7: ORGANIZATION FOR INSTRUCTION AND STUDENT ADVISING**

**COMPREHENSIVE OBJECTIVE:**

The faculty and students are organized into groups so that an effective educational program is arranged for the individual student each semester and advising is personalized.

**ILLUSTRATIVE ENABLING OBJECTIVES:**

Groups of students and teams of academic teachers are organized into academic instruction and advisory units, or into similar arrangements, that serve to coordinate instruction and advising. Related to the team's instructional functions and taking into account school and district policies each team cooperatively:

7.1 Plans the procedures that team members use in developing, monitoring, and evaluating each individual student's educational program.

7.2 Identifies the kind of information about each student that the team members use in developing and evaluating each individual student’s instructional program in each course.

7.3 Evaluates the instructional strategies for which the team is responsible.

Directions: Enter the letter A-F in the ______

A. Highly Desirable  D. Somewhat Undesirable
B. Desirable         E. Undesirable
C. Somewhat Desirable F. Highly Undesirable

Related to the team's instructional functions, and taking into account district, school, and team guidelines, each team member:

7.4 Outlines the curriculum for the courses taught.
7.5 Develops the outline for preparing the student learning guides that will be used in each course taught.
7.6 Plans the instructional strategies that are employed in each course taught, including time allocations, modes of instruction, and use of materials.
7.7 Participates in all aspects of the team's cooperative planning and evaluation activities.
7.8 Carries out his or her instructional activities in accordance with the team's plans.

Related to advising functions, each team of teachers, taking into account schoolwide policies and with the assistance of a counselor, participates in planning the team's advising activities related to:

7.9 Providing educational advisement.
7.10 Increasing schoolwide communication.
7.11 Improving home-school-community relations.
7.12 Enhancing the personal and social development of students.

Related to advising functions, each team member:

7.13 Serves as an advisor to a group of students.
7.14 Assumes responsibility for planning, monitoring, and evaluating each of his/her advisee's individual educational programs.

A representative of each academic Instruction and Advisory Unit, or other group:

7.15 Chairs the meetings of the teaching team or other group.
7.16 Serves on the school's Educational Improvement Committee and participates in the committee's decision-making process and planning.
7.17 Transmits information, decisions, and plans from the teaching staff to the Educational Improvement Committee.
7.18 Transmits information, decisions, and plans to the teaching staff.

COMPONENT B: HOME-SCHOOL-COMMUNITY RELATIONS

COMPREHENSIVE OBJECTIVE:

8.0 Effective communication and cooperative educational efforts between the school and the community are carried out as part of a program of home-school-community relations.

ILLUSTRATIVE ENABLING OBJECTIVES:

A comprehensive program of home-school-community relations:

8.1 Is formulated and monitored by a school committee composed of representative school staff, parents, and students.
8.2 Provides for frequent and effective communication between the school and community.
8.3 Encourages the school staff to participate in the analysis of the home and neighborhood conditions of their students.
8.4 Encourages parents and other community persons to participate in in-school educational activities and to provide suggestions to aid in decision-making.
8.5 Involves parents in planning the individual educational program of their child.
8.6 Provides for student progress to be reported to parents regularly and effectively.

F. Highly Undesirable

COMPONENT 9: INTERNAL AND EXTERNAL SUPPORT ARRANGEMENTS

COMPREHENSIVE OBJECTIVE:

The environment for learning and instruction in the school and for work and other educational experiences in the community is enriched through the intellectual, technical, and material support provided by school and school district groups, and by external agencies, such as regional educational laboratories, the state education agency, intermediate agencies, teacher education institutions, and professional associations.

ILLUSTRATIVE ENABLING OBJECTIVES:

The school district and local school make provisions for:

9.1 The Educational Improvement Committee, or other group, to meet weekly during school hours to plan and carry out its activities.
9.2 Each teaching team, or other group, to have a common time for carrying out their preparation, planning, evaluation and other activities.
9.3 Each advisor to meet regularly with his/her advisee group and/or individual advisees.
9.4 Teachers to receive expert assistance in carrying out their educational improvement activities.

The state education agency takes initiative with local school districts for activities such as:

9.5 Developing strategies for stimulating the educational improvement activities of local schools.
9.6 Providing financial and technical support to local schools in carrying out their educational improvement activities.
9.7 Encouraging job descriptions to be changed, if necessary, to enable teachers to participate in student advisement and in educational improvement activities.
9.8 Reviewing and changing the licensing requirements of currently-licensed educational personnel and developing new licensing programs to meet changing societal conditions and related demands on education.

The regional educational laboratory carried out activities, such as:

9.9 Providing technical support to state education agencies in formulating and carrying out their educational improvement activities.
9.10 Providing technical support, in cooperation with the state education agency, to schools in formulating and carrying out their educational improvement activities.
9.11 Encouraging a climate in state education agencies and local schools conducive to educational improvement in the local schools.

Teacher education institutions, working cooperatively with local schools and the state education agency, take initiative for activities, such as:

9.12 Evaluating their programs to prepare administrators, counselors, teachers, and other educational personnel, revising existing programs, and developing new programs to meet changing societal conditions and related demands on education.
9.13 Developing and offering credit and noncredit courses designed to meet the needs of prospective educational personnel and inservice personnel to participate effectively in educational improvement activities.
9.14 Arranging for cooperative preparation of student teachers and interns with local schools.

Professional associations at the local, state, and national level take initiative for activities such as:

9.15 Providing leadership to their members in carrying out educational improvement efforts.
9.16 Identifying and publicizing local schools that demonstrate continual educational improvement.
9.17 Influencing local, state, and federal legislation to support continual educational improvement.
9.18 Encouraging the adoption of contract provisions which facilitate educational improvement.
DESIRABILITY OF COMPREHENSIVE AND ENABLING OBJECTIVES

Directions: Enter the Letter A-F in the __ to indicate:
A. Highly Desirable
B. Desirable
C. Somewhat Desirable

E. Undesirable
F. Highly Undesirable

COMPONENT I: CONTINUING RESEARCH AND DEVELOPMENT

COMPREHENSIVE OBJECTIVE:

Student learning and personality development, instruction, advising, administrative arrangements, and other educational processes become better understood and are improved through continuous research and development conducted by school personnel and cooperating individuals and agencies.

ILLUSTRATIVE ENABLING OBJECTIVES:

The school staff:

10.1 Develops the capability and climate for carrying out its own systematic evaluative research.

10.2 Participates in cooperative problem-solving research with external agencies that are interested in identifying and refining strategies for educational improvement.

In cooperation with local schools:

10.3 Regional educational laboratories carry out research and development directed toward formulating, testing, demonstrating, and refining education-improvement strategies that local schools in the states of their region may employ.

10.4 R & D Centers and other research organizations carry out research designed to extend knowledge concerning educational processes and to improve related educational practices.

10.5 Institutions of higher learning carry out practical, problem-solving research directed toward extending knowledge concerning educational processes and to improve related practices.
Appendix B
Annotated List of Materials of the Wisconsin Program for the Renewal and Improvement of Secondary Education
ANNOTATED LIST OF MATERIALS OF THE WISCONSIN PROGRAM
FOR THE RENEWAL AND IMPROVEMENT OF SECONDARY EDUCATION

This book, which is intended for use both in local school improvement efforts and also as a text for university courses, presents the conceptual design of the Wisconsin Program for the Renewal and Improvement of Secondary Education. Explanations of each element of the design and illustrative practices in middle schools, junior high schools, and senior high schools are presented. Objectives are indicated at the beginning of each chapter, and questions directed toward analysis and evaluation of the concepts and practices are presented at the end of each main part of each chapter.

This Manual is intended for use by an administrator, counselor, teacher, or other staff member of a middle, junior, or senior high school who leads the school's educational improvement effort. It may be used by persons from regional educational laboratories, state educational agencies, intermediate agencies, school districts, and by college instructors who either lead improvement activities in local schools or who prepare persons to serve as local school educational improvement leaders.

This Guide is for use by local school staffs working and studying individually, in pairs, or in small groups. The questions and activities in each chapter are related to the correlated filmstrip, school experiences audio-cassette, and textbook chapter and are directed toward enabling staff members to increase their understanding of concepts, principles, and practices, and to plan for local improvement efforts.

This Guide is intended for use by professors who offer a credit or non-credit course dealing with some aspect of secondary education. It is organized into ten chapters corresponding to the textbook chapters. Each Guide chapter is divided into three sections which include synopses of the correlated filmstrip, school experiences audio-cassette, and textbook chapter, suggestions regarding the use of the correlated materials, and objective questions based on the textbook that may be used in preparing pretests or posttests.

This Guide is for use by individuals, pairs, and/or small groups of college students to guide their study outside the regularly scheduled class period. The questions and activities in each chapter are related to the correlated filmstrip, school experiences audio-cassette, and textbook chapter and are directed toward enabling students to increase their understanding of concepts, principles, and practices and to identify applications to their areas of professional preparation.
SCHOOL EXPERIENCES AUDIOCASSETTES AND ACCOMPANYING PRINTED AUDIOCASSETTE GUIDES

EXPERIENCES OF TWO MIDDLE SCHOOLS AND TWO SENIOR HIGH SCHOOLS WITH EDUCATIONAL PROGRAMMING FOR THE INDIVIDUAL STUDENT: PART I

Representatives from Webster Transitional School in Cedarburg, Wisconsin and Steuben Middle School in Milwaukee, Wisconsin on Side A, and from Hood River Valley High School in Hood River, Oregon and Cedarburg High School in Cedarburg, Wisconsin on Side B, discuss how total educational programs are arranged for their students.

EXPERIENCES OF TWO MIDDLE SCHOOLS AND TWO SENIOR HIGH SCHOOLS WITH EDUCATIONAL PROGRAMMING FOR THE INDIVIDUAL STUDENT: PART II

Representatives from Webster Transitional School in Cedarburg, Wisconsin and Steuben Middle School in Milwaukee, Wisconsin on Side A, and from Hood River Valley High School in Hood River, Oregon and Cedarburg High School in Cedarburg, Wisconsin, describe how they arrange an instructional program in each course that meets the educational needs of each student enrolled in the course.

EXPERIENCES OF A MIDDLE SCHOOL, A JUNIOR HIGH SCHOOL, AND TWO SENIOR HIGH SCHOOLS WITH CURRICULAR PATTERNS

Representatives from Sennett Middle School in Madison, Wisconsin and Madison Junior High School in Trotwood, Ohio on Side A, and from Cedarburg High School in Cedarburg, Wisconsin and Washington High School in Milwaukee, Wisconsin on Side B, present highlights of their curricular and instructional arrangements that clarify and go beyond the filmstrip information.

EXPERIENCES OF A MIDDLE SCHOOL, A JUNIOR HIGH SCHOOL, AND TWO SENIOR HIGH SCHOOLS WITH WORK AND OTHER CAREER EDUCATION ACTIVITIES

Representatives from Webster Transitional School in Cedarburg, Wisconsin and Byers Junior High School in Denver, Colorado on Side A, and from Hood River Valley High School in Hood River, Oregon and Washington High School in Milwaukee, Wisconsin on Side B, discuss aspects of their schools' work and other career education activities.

EXPERIENCES OF A MIDDLE SCHOOL, A JUNIOR-SENIOR HIGH SCHOOL, AND TWO SENIOR HIGH SCHOOLS WITH STUDENT DECISION MAKING

Representatives from Steuben Middle School, Milwaukee Wisconsin and Wy' East Junior High School and Hood River Valley High School, Hood River, Oregon on Side A, and from Irvine High School, Irvine, California and Cedarburg High School, Cedarburg, Wisconsin on Side B, discuss student decision making in their schools.

EXPERIENCES OF A MIDDLE SCHOOL AND A SENIOR HIGH SCHOOL WITH EVALUATING STUDENT LEARNING AND EDUCATIONAL PROGRAMS

Representatives from Steuben Middle School, Milwaukee, Wisconsin on Side A, and from Cedarburg High School, Cedarburg, Wisconsin on Side B, discuss their evaluation strategies and practices.

EXPERIENCES OF TWO MIDDLE SCHOOLS AND TWO SENIOR HIGH SCHOOLS WITH INSTRUCTION AND ADVISORY ARRANGEMENTS

Representatives from Webster Transitional School in Cedarburg, Wisconsin and Steuben Middle School in Milwaukee, Wisconsin on Side A, and from Cedarburg High School in Cedarburg, Wisconsin and Hood River Valley High School in Hood River, Oregon on Side B, describe how their schools have been organized so that teachers are able to plan together to provide for cooperative teaching, evaluating student progress, advising students, and reporting to parents.

EXPERIENCES OF A MIDDLE SCHOOL AND TWO SENIOR HIGH SCHOOLS WITH ADMINISTRATIVE ARRANGEMENTS FOR SHARED DECISION MAKING

Representatives from Steuben Middle School in Milwaukee, Wisconsin on Side A, and from Irvine High School in Irvine, California and Hood River Valley High School in Hood River, Oregon on Side B, explain the arrangements that their schools have adopted to facilitate shared decision making by teachers, counselors, administrators, and others.

EXPERIENCES OF A MIDDLE SCHOOL, A JUNIOR HIGH SCHOOL, AND TWO SENIOR HIGH SCHOOLS WITH TEACHER-ADVISOR PROGRAMS

Representatives from Webster Transitional School in Cedarburg, Wisconsin and Coolidge Junior High School in Phoenix, Illinois on Side A, and from Wilde Lake High School in Columbia, Maryland and Irvine High School in Irvine, California on Side B, discuss the functioning of teacher-advisor programs in their schools. Emphasis is placed on the current operation of the programs and also on the steps taken during the initial implementation of the programs.
FILMSTRIPS AND ACCOMPANYING PRINTED FILMSTRIP GUIDES

INTRODUCTION: THE WISCONSIN PROGRAM FOR THE RENEWAL AND IMPROVEMENT OF SECONDARY EDUCATION

This filmstrip introduces the conceptual design of the Wisconsin Program for the Renewal and Improvement of Secondary Education and the multimedia materials that present the concepts and practices. The design includes ten comprehensive objectives to guide the educational improvement efforts of local schools. Excerpts from the full-length filmstrip that deals with each objective are presented.

EDUCATIONAL PROGRAMMING FOR THE INDIVIDUAL STUDENT IN SECONDARY SCHOOLS: PART I

This filmstrip presents examples of how the first aspect of educational programming for the individual student, namely arranging a total program of courses and other educational experiences that meets each student's needs, is carried out in a middle school and two senior high schools.

EDUCATIONAL PROGRAMMING FOR THE INDIVIDUAL STUDENT IN SECONDARY SCHOOLS: PART II

In this filmstrip, arranging the individual student's instructional program in each course included in the student's educational program is illustrated at one middle school and two senior high schools.

CURRICULAR PATTERNS IN SECONDARY SCHOOLS

Curricular patterns of two middle schools and two senior high schools are shown and the relationship of the patterns to arranging an individual educational program for each student is indicated.

STUDENT DECISION MAKING IN SECONDARY SCHOOLS

This filmstrip portrays students making progressively more important decisions that affect them as individuals and as members of groups in a middle school, a junior high school, and three senior high schools.

WORK AND OTHER CAREER EDUCATION ACTIVITIES IN SECONDARY SCHOOLS

This filmstrip presents experiential learning activities, including work experience, and also other career education activities that are part of the individual educational programs of students of a middle school, a junior high school, and two senior high schools.

EVALUATING STUDENT LEARNING AND EDUCATIONAL PROGRAMS IN SECONDARY SCHOOLS

This filmstrip shows staff members of a middle school and a senior high school evaluating the progress of their students in different courses, the individual educational programs of their students, and elements of their school's total educational program.

ADMINISTRATIVE ARRANGEMENTS FOR SHARED DECISION MAKING IN SECONDARY SCHOOLS

Examples of alternative administrative arrangements which enable shared decision making to take place in three senior high schools and one middle school are presented.

INSTRUCTION AND ADVISORY ARRANGEMENTS IN SECONDARY SCHOOLS

Alternative arrangements for teaching teams are explained and illustrated in two middle schools and two senior high schools. Examples are used to show the functions of organizations for instruction and student advisement.

TEACHER-ADVISOR PROGRAMS IN SECONDARY SCHOOLS

The filmstrip shows the teacher-advisor programs of two senior high schools, a middle school, and a junior high school. Important functions of teacher-advisor programs are emphasized.
Appendix C
Forms and Instruments Used in Local School Summative Evaluation

Agreement Between the Local School Field-Test Leader and the WRISE Project Director

Local School Component Questionnaire (Illustrative questionnaire included in this appendix for only one of the 10 components—Curricular Arrangements.)

Staff Questionnaire: Instructional Materials of the Wisconsin Program for the Renewal and Improvement of Secondary Education

Desirability of the Comprehensive and Enabling Objectives: Wisconsin Program for the Renewal and Improvement of Secondary Education (This scale is given as Appendix A.)

Second Semester 1980-81 Local School Leader's Report of the Field Test of the Wisconsin Program for the Renewal and Improvement of Secondary Education
AGREEMENT BETWEEN THE LOCAL SCHOOL FIELD-TEST LEADER
AND THE WRISE PROJECT DIRECTOR

I. The objectives of the 1980-81 field test of the WRISE design and materials in local schools are:

1.1 To ascertain the desirability and usability of the comprehensive and enabling objectives of WRISE.

1.2 To evaluate the usability, effectiveness, quality, and value of the WRISE materials in information-gaining, planning, or carrying out an improvement or refinement effort related to one or more WRISE components.

II. The WRISE Project will:

2.1 Provide to each school district the complete school set of WRISE materials.

2.2 Authorize the leader to use the WRISE improvement processes and materials.

2.3 Provide consultation in the use of the materials via telephone and/or letter.

2.4 Permit you to reproduce any book or book chapter or to purchase it from us at cost. We can provide a district 2 copies of text and learning guide at no cost.

2.5 Summarize the national field test results and make them available to each participant by mail. (No school will be identified by name.)

III. Each local school field test leader will:

3.1 Use the WRISE processes and materials related to one or more WRISE components for the purpose of gaining information, planning, or carrying out an improvement effort related to one or more WRISE components.

3.2 Complete the following forms and mail them to the Project not later than June 15, 1981:

   a. 1980-81 Local School Leader's Report of the Field Test of the Wisconsin Program for the Renewal and Improvement of Secondary Education.

   b. Local School Component Questionnaire (one for each component field tested).

   c. Desirability of the WRISE Component Objectives (one for each component field tested).
