STUDENT TRAVEL

THE BOARD recognizes the value of first hand experiences provided through travel. These are a most effective and worthwhile means of learning. Purposeful, well-organized, and properly supervised travel experiences enable students to discover new worlds, stimulate interest in further learning, increase cultural awareness, bring historical events to life, provide first-hand experiences with scientific and environmental topics, develop self-assurance, enhance language skills, and solidify an appreciation of the American way of life.

It is the desire of the Board to encourage student travel as part of the total school program. Specific guidelines and administrative procedures are developed in order to screen, approve, and evaluate student travel. Also, they serve to ensure that all reasonable steps are taken for the safety of the participants, as well as to establish the highest educational value possible.

Only trip sponsors and students are acceptable participants on district sponsored/authorized travel programs. It is the intent of Jefferson County Public Schools to sponsor/authorize trips that are primarily for its students. The sole intent of this policy is to enable individuals to establish educationally sound student travel experiences that are directly associated with specific instructional programs.

Regulations for the implementation of this policy will be published and issued to each principal of the elementary and secondary schools of the district.
DEFINITIONS

Student Activity Travel: Student activity travel is defined as one which coincides directly with the curricular and extracurricular programs. The experience desired clearly demonstrates support for the specific objectives of the curriculum. Student activity trips do not include overnight stays.

Extended Student Travel: Extended student travel is defined as any school-related travel which requires the participants to be away from home for a period of time longer than 18 hours and includes overnight stays.

District Sponsored Student Travel: District sponsored student travel is defined as a District developed and sponsored study-residence for students which relate directly to instructional programs and may last as long as nine weeks during the school year.

District Authorized Travel: District authorized travel is defined as a travel experience which has educational value but is generated by an outside agency which assumes full responsibility for the trip. Such trips must have District approval in order to use District facilities and involve District teachers and students.

Student Exchange: Student exchange is defined as any program in which District students travel to and reside in other cities and countries. It is expected that students from reciprocal cities and countries will reside in and attend Jefferson County Schools. Student exchange programs must receive approval to operate in Jefferson County Schools from Superintendent (see page 25).

Bonus Learning Trips: Bonus Learning Trips are to be governed by this document. These trips are approved by the local school principal in fulfillment of teacher contract provisions. These regulations govern all such activities.

REGULATIONS - INTRODUCTION

The regulations are comprised of three parts: Part I contains regulations related to student activity travel. Part II contains general regulations applicable to all extended student travel. Part III contains extended student travel by discipline specific categories, including Art, Athletics, Music, Science, Second Language Education (Extended Foreign Travel Study/Foreign Language Camps), and Social Studies.
PART I

STUDENT ACTIVITY TRAVEL

Types

There are four (4) types of student activity travel:

Type A - Curriculum-Required Student Activity Travel. No Charge.
Type B - Curriculum-Related Student Activity Travel. Charge.
Type C - Optional Student Activity Travel. Charge.
Type D - Athletic Student Activity Travel. Charge.

Type A - Curriculum-Required Student Activity Travel transportation, approved by the Board of Education, will be provided by the Transportation Department at no cost to a department, school or student.

Type B - Curriculum-Related Student Activity Travel will be self-supporting. Costs are to be paid by students.

Type C - Optional Student Activity Travel will be self-supporting. Costs are to be paid by students.

Type D - Athletic Student Activity Travel will be paid from budgeted funds from the Athletic Department.

Authorization

All Student Activity Travel must be approved by the principal or designee. Requests for field trips should be made in writing using the Form IICA-E-12. For Student Activity Travel which is not in the required category or described in District guides or other issued materials, principals must consult with the appropriate program manager to determine the educational value of such travel.

Jefferson County School District R-1
Lakewood, Colorado
Transportation

Refer to pages 16-17 for details of the policy concerning the use of District transportation. Bus requisition forms should indicate the curriculum area and the name of the field to ensure proper billing for curriculum-required travel, both Type A and Type R. If commercial transportation is required, bidding procedures must be followed which are outlined in Part II of this policy.

Liability

Signed parental permission must be obtained in advance for all participating students using Form 0046-002200. All teachers and sponsors of student activity travel should be familiar with the terms of liability outlined in Part II of this policy. If privately-owned vehicles are used, the sponsors should be aware of the liability outlined in Part II of this document. In such cases, the PARENT/STUDENT DRIVER AUTHORIZATION form must be completed prior to departure. (See File: IICA-E-1.)

PART II
EXTENDED TRAVEL
SPONSORSHIP/AUTHORIZATION
APPROVAL PROCESSES

District Sponsored Extended Student Travel

Step I: All extended travel requests must be proposed for approval on the Jefferson County Public Schools Request for Sponsorship of Extended Student Travel Forms (File: IICA-E-2).

Step II: Once signatures from the supervisory principal and Area Superintendent are received, the proposal must go to Purchasing for bidding, travel arrangements, agreements and pricing. (Refer to File: IICA-R, page 18).

Step III: When two or more schools participate in the same trip, copies of the completed (authorized and bid) documents must be filed with the Travel Accounts Technician to coordinate the collection of fees and disbursement of payments.

District Authorized Extended Student Travel

The District believes in allowing students to have access to alternative foreign and extended domestic travel programs other than those sponsored by the District. Such programs sell services directly to students of the District.

The Checklists for Approving District Authorized Extended Student Travel (Files: IICA-E-2 and IICA-E-3) are designed to evaluate proposed extended student travel. Once authorizations from the supervisory principal and Area Superintendent are received, the proposal must go to Purchasing for bidding, travel arrangements, agreements and pricing. (Refer to File: IICA-R, page 18).
Multi-school Trip Request Authorization

Travel activities that involve students from more than one school should be coordinated among schools within the administrative area and be approved by the Area Superintendent. Travel experiences approved by the Board of Education for District-wide implementation will be coordinated through the subject area coordinator for the appropriate curriculum area.

LIABILITY

Liability - General Considerations

The District maintains basic comprehensive liability insurance. Teachers and administrators are expected to demonstrate reasonable and prudent care in organizing and supervising any student travel.

1. The sponsoring teacher should make student travel as safe as possible. This includes predicting obvious hazards and designing precautionary measures.

2. If the sponsoring teacher foresees a risk or hazard relative to student travel, the teacher will:
   a. Inform both students and parents in writing of the implication of the hazard.
   b. Formulate a written plan which includes safety rules.
   c. Enforce the rules and administer penalties for all known infractions.

3. The sponsoring teacher will be knowledgeable of Board policies and school rules relative to student travel.

4. Participating students and their parents will be informed in writing of all student travel rules to be enforced by the sponsoring teacher.

5. Written permission should be obtained from parents for students to participate in the student travel activity. This ensures that the parent has been informed of the student travel activity and has granted consent.

   (For Student Activity Travel use Activity Permission Slip, SEMS No. 0046-002200; for Extended Student Travel use File: IICA-E-5, Parent/Guardian Release Agreement.)

Jefferson County School District R-1
Lakewood, Colorado
6. In the case of an accident, the teacher has the duty to administer first aid until professional help can be obtained, but should not do anything beyond emergency first aid. Please use Emergency Form File: IICA-E-13.

   a. Sponsoring teachers should never administer medication, unless authorized in writing with specific details from the parent.

   b. A prepared listing of the locations of nearest hospitals and clinics should be available prior to trip departure. An accident report form must be submitted at conclusion of travel activity. (Accident Report Form SEMS No. 0046-0922.)

7. Teachers are liable for conduct of students in their custody which is illegal, e.g., consumption of alcohol, drugs. District policies as set forth in disciplinary action procedures shall be enforced.

8. Sponsoring teachers may not violate the constitutional rights or legal privileges of students even for the sake of protecting students from themselves, e.g., the sponsoring teacher may recommend safe clothing, but cannot require it. (See the Student Responsibilities and Rights Manual.)

9. When provided, sponsoring teachers must participate in related, District-sponsored, inservice activities.

Liability - Privately Owned Vehicles

Privately owned vehicles may be used when other forms of District and commercial transportation are not available. Any teacher, employee, or student, eighteen (18) years and older, who is requested and authorized to transport students to and from approved District activities in his or her privately owned vehicle must have personal insurance coverage on the vehicle. In the event of a claim, the car owner's insurance company will provide primary insurance coverage for damage or injury. The District's insurance
will provide secondary coverage for claims in excess of the limits of the employee's insurance.

The parent and student driver must sign a statement indicating that the individual is a licensed driver, that the vehicle to be used is in good operating condition, and that the vehicle has liability insurance coverage which meets the requirements of the Colorado Financial Responsibility Law. (File: IICA-E-1.)

Responsibility Law

The company which provides coverage for the vehicle must be specified. The numbers of persons transported shall not exceed the vehicle's intended capacity.

On all trips where a parent or student is the driver, the Parent/Student Driver Authorization Form must be completed prior to departure. (File: IICA-E-1.)
CONFLICT OF INTEREST

Student travel experiences may create situations for possible conflict of interest. District employees must not use their position for private advantage or individual gain. District employees must ensure they do not unduly influence students or other employees to participate in any activity in a manner to affect evaluation, promotion, or grades.

Staff members participating in District approved student travel must:

1. Ensure that costs to be incurred by the sponsors, e.g. transportation, lodging, meals, substitute teacher costs, administrative costs, etc., be figured realistically and economically and that participating students and their parents are informed of these costs in writing.

2. Ensure that those sponsors who are accompanying the group, and whose expenses are being paid, have identified responsibilities written into the trip plan. The sponsoring teacher must list sponsors and receive written agreement of the responsibilities the sponsor accepts.

Staff members participating in District approved commercial travel programs must:

1. Follow existing procedures prior to direct solicitation of students in schools for participation in the travel program.

2. The sponsoring agency must provide all supplies.

3. Conduct student activities and meetings outside of school hours.

4. Not accept gratuities for services performed while acting as an agent of the District.

For additional information related to Conflicts of Interest, refer to Policy GBCA-R.
PUBLICITY OF EXTENDED STUDENT TRAVEL OPTIONS

Notice of properly approved District sponsored and/or authorized travel options may be issued through District publications. Prior to publication of a notice of the availability of a student travel option, verification of the District sponsorship and/or approval must be obtained from the Division of Instruction where all final documents of approval for travel are maintained.

With regard to District sponsored or authorized trips, appropriate notice from the teacher must be forwarded to the parents in a letter form. The information to be included in the letter is listed as follows:

4. The adult in charge of the student passengers, or the principal, will verify the number of student passengers by signing the trip report carried by the drivers.

Additional Insurance Coverage

All approved extended student travel will require inclusion in the bid package of the following travel insurances: accident, medical, principal sum (death), and flight accident.

Billing for Transportation Services

Each school will be billed for transportation services each month. The billing period will be from the first day of the month through the last day of the month.

Bus vandalism invoices will be sent to schools and paid on the next Monthly Remittance Advice.
BID REQUIREMENTS

All school district authorized or sponsored student travel involving commercial transportation, lodging, and other services require a formal written bid. The only exception to this requirement is the extended travel done by athletic teams for state playoffs or as stated in Part II discipline specific criteria. Extended student travel using District transportation will not need to be bid.

Extended student travel proposals, after Principal and Area Superintendent approval will be submitted by the Principal to the Director of Purchasing for bid preparation and subsequent submission to agents and travel organizations meeting the established criteria as approved by the Board of Education.

Acceptable bid proposals from travel organizations and agencies are to be selected upon criteria, as follows:

1) Cost factor evaluation
2) Fiscal responsibility
3) Experience
4) Reputation
5) Personnel competence
6) Flexibility
7) Accessibility
8) Ability to meet the needs of the travel request

Jefferson County School District R-1
Lakewood, Colorado
TIMELINES

All actions (notification of trip availability, screening processes, acceptance or non-acceptance, monetary considerations, other criteria) must be handled in a reasonable and timely manner. Each sponsor must submit a detailed timeline with the trip proposal for each action, as follows:

Date #1 - Submit proposal for trip
Date #2 - Notification to students of trip availability and deadline for submission of forms to students and parents
Date #3 - Dissemination of selection criteria
Date(s)#4 - Orientation meetings of parents and students
Date #5 - Notification of students of acceptance or rejection status
Date #6 - Trip departure date
Date #7 - Trip report to school files

The selection of the dates for the timeline is to be left at the discretion of the sponsor, with final approval by the principal.
CRITERIA FOR EXTENDED TRAVEL STUDENT SELECTION

District students who desire to participate in any travel activity should be selected with care in order to ensure that all participants benefit from the experience.

Individuals who are not enrolled in District schools, or who are not acting as appointed sponsors, are not eligible to participate in District travel programs unless special permission is granted through written authorization by the Area Superintendent.

Student travel participants fall into two categories:

1. Programs which travel with a pre-selected group of students functioning as a unit, e.g., pep club or instrumental band.
2. Programs for which individual students enroll.

In the instance of pre-selected student group travel, it is assumed that the students enrolled have met suitable standards established by the sponsor and are capable of traveling as productive members of the group.

The following criteria should be considered in determining student selection:

1. Student has satisfactorily completed all pre-travel activities required by the sponsoring teacher and principal, e.g., orientation meetings, homework, fees.
2. Student has met prescribed academic requirements as determined by the sponsoring teacher and principal.
3. The following forms have been submitted: Activity Permission Slip or Parent Release Agreement (File: IICA-E-5, BEMS No. 0046-002200), Teacher Permission Form (File: IICA-C-7) and Acknowledgment of Student Responsibilities (File: IICA-E-6).

CONDITIONS FOR CANCELLATION OF A STUDENT'S PARTICIPATION

In a situation of a student's injury, illness, or unacceptable behavior, the teacher and principal reserve the right to cancel the student's trip up to the date of departure, upon notification in writing, including the rationale, and a conference with the student and parents.

CANCELLATION OF A TRIP

Any trip may be cancelled due to circumstances, such as:
- illness of the sponsor(s)
- lack of sufficient participants
- administrative decision

Trip cancellation, with the exception of student activity trips, requires a written notice to the participants explaining the rationale and a return of recoverable deposit money.

Jefferson County School District R-1
Lakewood, Colorado
SPONSOR

Selection

All sponsors of student travel are to be specifically qualified to supervise these activities through participation in a District sponsored inservice or equivalent experience.

Sponsoring teachers receive compensation for their efforts in the form of expense free travel, accommodations, food, lodging, and substitute teacher provision. The understanding for according these benefits to teachers and sponsors is the acceptance of responsibility to supervise assigned school-based students and to provide those students with an appropriate educational experience during their absence.

In no way is this regulation to be interpreted as an opportunity for teachers to supervise and/or direct tour groups of students or adults on travel while the teacher is obligated to fulfill assigned district-specific educational classroom responsibilities.

Evaluation Criteria

Employee sponsors of student travel will be evaluated according to criteria established under Article 16 of the Negotiated Agreement between Jefferson County Education Association and the Jefferson County School Board of Education.

COLLECTION OF FUNDS

Collection of funds for extended travel involving students of one school should be conducted through the financial secretary of the school.

Collection of funds for travel involving students from two or more schools should be conducted through the Division of Instruction.
SCHOLARSHIP PROVISION

The Board of Education approves the development of scholarship funds so that ability to pay does not become the sole criterion of student participation in District sponsored or authorized student travel experiences. Funds for scholarships may come from individuals, community or organization efforts.

CREDIT OPTIONS

Credit for student travel is limited to approved courses, study abroad, and "Close-Up."

EVALUATION OF EXTENDED STUDENT TRAVEL EXPERIENCES

Written evaluation of each Extended Student Travel Experience must be submitted in two parts. The first is an informal report to the principal on how well the trip met its stated educational objectives. The second part is the completed Vendor Performance Evaluation Request which is submitted to the principal and the Director of Purchasing (file: IICA-E-4).
STUDENT EXCHANGE PROGRAM

Student Exchange: Student exchange is defined as any program in which District students travel to and reside in other cities and countries. It is expected that students from reciprocal cities and countries will reside in and attend Jefferson County Schools. Student exchange programs must receive approval to operate in Jefferson County Schools from the Superintendent prior to requesting authorization to operate in a school. Such authorization must be acquired by the building level principal and Area Superintendent (File: IICA-E-11).

A student exchange program must meet the following criteria:

1. Foreign or out-of-state American students of secondary school age are recruited and brought to Jefferson County to live with families and to attend school.

2. Jefferson County students of secondary school age are recruited and sent to the same foreign or out-of-state location to live with families and attend school in a reciprocal arrangement.

3. Experiences for foreign or out-of-state and Jefferson County students should be comparable.

4. Effort should be exhibited of an attempt to place students one-for-one.

5. Orientation activities should be in place in order to familiarize host families with the needs and requirements of housing a foreign or out-of-state student for a long period of time.

6. Orientation activities should take place in order to help the student adjust to a new culture.
Application to conduct a Student Exchange Program must be submitted on IICA-E-11.

Students associated with an approved student exchange program may attend Jefferson County schools in accordance with Jefferson County Board Policy JECBA.

Student Exchange Travel Committee

The district will maintain a standing Student Exchange Travel Committee comprised of the following:

- Director of Secondary Education, Committee Chair
- Program Coordinators from:
  - Art
  - Athletics
  - Music
  - Second Languages
  - Science
  - Social Studies
  - Junior High Principal (1)
  - Senior High Principal (1)

The Committee will be responsible to recommend student exchange programs to the Superintendent.

Dear Parent:

The Jefferson County Public Schools Board of Education recognizes the value of firsthand experiences provided through student travel experiences. These are a most effective and worthwhile means of learning. Purposeful, well-organized and properly supervised travel experiences enable students to discover new worlds, stimulate interest in further learning, increase cultural awareness, bring historical events to life, provide first hand experiences with scientific and environmental topics, develop self-assurance, enhance language skills, and solidify an appreciation of the American way of life.

It is the desire of the Board to encourage student travel as part of the total school program. Specific guidelines and appropriate administrative procedures are developed in order to screen, approve, and evaluate student travel. Also, they serve to ensure that all reasonable steps are taken for the safety of the participants, as well as to establish the highest educational value possible.

The Parent/Guardian Release Agreement is a key document in the acceptance process for a student. Please read carefully and sign the following statement of conditions that constitute a formal parental release. After signing this form, please return it to the sponsoring teacher at your school.
