This module, one in a series of competency-based guidance program training packages, focuses on specific professional and paraprofessional competencies of guidance personnel. Modules in Category C suggest how to conduct, accomplish, or carry out selected career guidance program activities. The purpose of this module is to help career guidance personnel increase the knowledge and skills needed to conduct a followup study of program leavers and ensure that follow-through assistance for clients is provided. It begins with a section that presents the module goal and a listing of the eight competency statements. An introduction gives an overview of the purpose and content of the module. The next section presents a reading (cognitive information) on each one of the competencies. Learning experiences related to the needed competencies follow. One learning experience exists for each competency (or cluster of competencies), and each may stand on its own. Each learning experience consists of an individual activity, individual feedback, and group activity. An evaluation section contains a Pre- and Post-Participant Assessment Questionnaire and a Trainer's Assessment Questionnaire. A final section lists all references and provides annotations of related major resources. Appendixes include a copy of the Family Educational Rights and Privacy Act and sample followup questionnaires. (YLB)

FOREWORD

This counseling and guidance program series is patterned after the Performance-Based Teacher Education modules designed and developed at the National Center for Research in Vocational Education under Federal Number NE-CO0-3-77. Because this model has been successfully and enthusiastically received nationally and internationally, this series of modules follows the same basic format.

This module is one of a series of competency-based guidance program training packages focusing upon specific professional and paraprofessional competencies of guidance personnel. The competencies upon which these modules are based were identified and verified through a project study as being of critical importance for the planning, supporting, implementing, operating, and evaluating of guidance programs. These modules are addressed to professional and paraprofessional guidance program staff in a wide variety of educational and community settings and agencies.

Each module provides learning experiences that integrate theory and application each culminates with competency referenced evaluation suggestions. The materials are designed for use by individuals or groups of guidance personnel who are involved in training. Resource persons should be skilled in the guidance program competency being developed and should be thoroughly oriented to the concepts and procedures used in the total training package.

The design of the materials provides considerable flexibility for planning and conducting competency-based preservice and inservice programs to meet a wide variety of individual needs and interests. The materials are intended for use by universities, state departments of education, postsecondary institutions, intermediate educational service agencies, JTPA agencies, employment security agencies, and other community agencies that are responsible for the employment and professional development of guidance personnel.

The competency-based guidance program training packages are products of a research effort by the National Center’s Career Development Program Area. Many individuals, institutions, and agencies participated with the National Center and have made contributions to the systematic development, testing, and refinement of the materials.

National consultants provided substantial writing and review assistance in development of the initial module versions. Over 1300 guidance personnel used the materials in early stages of their development and provided feedback to the National Center for revision and refinement. The modules have or are being used by 57 pilot implementation sites across the country.

Special recognition for major roles in the direction development, coordination of development, testing, and revision of these materials and the coordination of pilot implementation sites is extended to the following project staff: Harry N. Drier, Consortium Director; Robert E. Campbell, Linda Plister, Directors; Robert Scharman, Research Specialists; Karen Kimmel, Boyle, Fred Williams, Program Associates, and Jane B. Connell, Graduate Research Associate.

Appreciation also is extended to the subcontractors who assisted the National Center in this effort: Drs. Brian Jones and Linda Phillips-Jones of the American Institutes for Research developed the competency base for the total package managed project evaluation, and developed the modules addressing special needs. Gratitude is expressed to Dr. Norman Gysbers of the University of Missouri-Columbia for his work on the module on individual career development. Both of these agencies provided coordination and monitoring assistance for the pilot implementation sites.

Appreciation is extended to the American Vocational Association and the American Association for Counseling and Development for their leadership in directing extremely important subcontractors associated with the first phase of this effort.

The National Center is grateful to the U.S. Department of Education, Office of Vocational and Adult Education (OVAE) for sponsorship of three contracts related to this competency-based guidance program training package. In particular we appreciate the leadership and support offered project staff by David H. Pritchard who served as the project officer. We feel the investment of the OVAE in this training package is sound and will have lasting effects in the field of guidance in the years to come.

Robert E. Taylor

Publication Systems Division
Publication Products

Bell & Howell, Publication Products, is one of two operating units that comprise Publication Systems Division. Based in Wooster, Ohio, Publication Products specializes in the production and reproduction of newspapers, periodicals, indexes, career information materials and other widely used information sources in microform, hard copy and electronic media.
ABOUT THIS MODULE

**Goal**
After completing this module, career guidance program personnel will have increased the knowledge and skills needed to conduct a follow-up study of program severities and ensure that follow through assistance for clients is provided.

**INTRODUCTION**

**READING**

Competency 1. Describe how follow-up activities relate to a total program evaluation effort and to client assistance follow-through activities, and develop a rationale for and express a commitment to including follow-up activities as part of the program .............................. 9

Competency 2. Describe several methods of collecting follow-up information including mail and telephone surveys of program clients, employers, parents, and others, and on-site visits; determine advantages and disadvantages of each method; and select the most appropriate follow-up methods for the career guidance program ........................................ 10

Competency 3. Develop a plan for conducting follow-up activities that includes goals and objectives, major tasks, roles and responsibilities of staff, cost, resources needed, and timeline ............................................................... 14

Competency 4. Develop instruments for collecting follow-up data, pilot test them on a sample of program participants, and revise the instruments for future follow-up efforts .......... 21

Competency 5. Interpret and report data collected from follow-up studies, and present information to various audiences such as program administrators, counselors, employers, planners, clients' family members, and others ............................................. 22

Competency 6. Describe several strategies for following through on clients' progress such as periodic counseling interviews with clients after they have left the program, and written or oral communications with clients and the employer, family members, teachers of clients, or with placement agency representatives ........................................... 25

Competency 7. Discuss follow-through services with clients prior to their leaving the program, select option(s) that will best meet the clients' and program's needs and obtain a commitment from the clients to cooperate in follow-through efforts ........................................... 28

Competency 8. Record information collected during follow-through efforts and evaluate those efforts in terms of their effect on client's progress and benefits to the organization. .......... 28

**LEARNING EXPERIENCES**

1. Relating Follow-up to Program Evaluation ..................................................... 31
2. Collecting Follow-up Information ................................................................. 35
3. Developing a Plan for Conducting Follow-up Studies .................................... 41
4. Developing Instruments for Collecting Follow-up Data .................................. 45
5. Interpreting, Reporting, and Disseminating Follow-up Data ............................ 51
ABOUT USING THE CBCG MODULES

CBCG Module Organization

The training modules cover the knowledge, skills, and attitudes needed to plan, support, implement, operate, and evaluate a comprehensive career guidance program. They are designed to provide career guidance program implementers with a systematic means to improve their career guidance programs. They are competency-based and contain specific information that is intended to assist users to develop at least part of the critical competencies necessary for overall program improvement.

These modules provide information and learning activities that are useful for both school-based and non-school-based career guidance programs.

The modules are divided into five categories. The GUIDANCE PROGRAM PLANNING category assists guidance personnel in outlining in advance what is to be done. The SUPPORTING category assists personnel in knowing how to provide resources or means that make it possible for planned program activities to occur. The IMPLEMENTING category suggests how to conduct, accomplish, or carry out selected career guidance program activities. The OPERATING category provides information on how to continue the program on a day-to-day basis once it has been initiated. The EVALUATING category assists guidance personnel in judging the quality and impact of the program and either making appropriate modifications based on findings or making decisions to terminate it.

Module Format

A standard format is used in all of the program's competency-based modules. Each module contains (1) an introduction, (2) a module focus, (3) a reading, (4) learning experiences, (5) evaluation techniques, and (6) resources.

Introduction. The introduction gives you, the module user, an overview of the purpose and content of the module. It provides enough information for you to determine if the module addresses an area in which you need more competence.

About This Module. This section presents the following information:

Module Goal: A statement of what one can accomplish by completing the module.

Competencies: A listing of the competency statements that relate to the module’s area of concern. These statements represent the competencies thought to be most critical in terms of difficulty for inexperienced implementers, and they are not an exhaustive list.

This section also serves as the table of contents for the reading and learning experiences.

Reading. Each module contains a section in which cognitive information on each one of the competencies is presented.

1. Use it as a textbook by starting at the first page and reading through until the end. You could then complete the learning experiences that relate to specific competencies. This approach is good if you would like to give an overview of some competencies and a more in-depth study of others.

2. Turn directly to the learning experiences(s) that relate to the needed competency (competencies). Within each learning experience a reading is listed. This approach allows for a more experiential approach prior to the reading activity.

Learning Experiences. The learning experiences are designed to help users in the achievement of specific learning objectives. One learning experience exists for each competency (or a cluster of like competencies), and each learning experience is designed to stand on its own. Each learning experience is preceded by an overview sheet which describes what is to be covered in the learning experience.

Within the body of the learning experience, the following components appear.

Individual Activity: This is an activity which a person can complete without any outside assistance. All of the information needed for its completion is contained in the module.

Individual Feedback: After each individual activity there is a feedback section. This is to provide users with immediate feedback or evaluation regarding their progress before continuing. The concept of feedback is also intended with the group activities, but it is built right into the activity and does not appear as a separate section.

Group Activity: This activity is designed to be facilitated by a trainer, within a group training session. The group activity is formatted along the lines of a facilitator’s outline. The outline details suggested activities and information for you to use. A blend of presentation and “hands-on” participant activities such as games and role playing is included. A Notes column appears on each page of the facilitator’s outline. This space is provided so trainers can add their own comments and suggestions to the cues that are provided. Following the outline is a list of materials that will be needed by workshop facilitator. This section can serve as a duplication master for mimeographed handouts or transparencies you may want to prepare.

Evaluation Techniques. This section of each module contains information and instruments that can be used to measure what workshop participants need prior to training and what they have accomplished as a result of training. Included in this section are a Pre- and Post-Participant Assessment Questionnaire and a Trainer’s Assessment Questionnaire. The latter contains a set of performance indicators which are designed to determine the degree of success the participants had with the activity.

References. All major sources that were used to develop the module are listed in this section. Also, major materials resources that relate to the competencies presented in the module are described and characterized.
As more and more money is being invested in career and vocational education and training, demands are being made for "cost effectiveness" data. Training programs are being held accountable for their actions and for the success of their students or clients who leave the program supposedly prepared for the work world. As this accountability call becomes stronger, the need for documentation of program effectiveness becomes imperative.

Follow-up, the systematic collection of data from former clients and employers, can provide "outcome" data for measuring the effectiveness of your program. National legislation such as the 1976 Education Amendments have drawn attention to the role of follow-up in program evaluation. It is apparent that follow-up studies, already mandated by federal vocational education legislation will become increasingly popular as a measure of program effectiveness.

Follow-through is the process of (1) identifying the needs of former clients and their employers and (2) providing services to meet those needs. Follow-through needs are frequently identified through follow-up studies, but can be identified through other formal or informal processes.

Follow-up and follow-through activities or efforts should not be viewed as separate events but rather as complementary ones. Each plays an important part in obtaining feedback from former clients and employers, and each provides important data to be used for measuring program effectiveness and for program improvement.
Relating Follow-up to Program Evaluation

Competency 1

Describe how follow-up activities relate to a total program evaluation effort and to client assistance follow-through activities, and develop a rationale for and express a commitment to including follow-up activities as part of the program.

The concept of follow-up can be more accurately understood when placed in the broader context of evaluation. Follow-up is a subsystem of a comprehensive evaluation system whose goal is to assess the outcomes of a career or vocational education program. As a subsystem and like all other evaluation techniques, follow-up studies are designed to gather useful information for improving the decision-making processes with regard to program development, planning, service delivery, and evaluation.

The primary purpose of a program evaluation is to determine the effectiveness of the "help" given and to identify improvements needed in your agency's program. When evaluating your agency's program, there is really no substitute for information about what happens to the clients after they leave the program. The outcome data provided by a follow-up study, while considered the most significant data to collect, is also the most difficult to obtain and to interpret. Knowing the difficulty of the task should motivate you to plan carefully before beginning.

A follow-up study is the systematic collection of data from both former clients and their employers. Clients are asked to review how the program assisted or failed to assist them in preparing for work. Employers are asked to evaluate the current work behaviors of their employees.

The specific purposes you might want to achieve through follow-up studies are the following:

1. To determine the occupational difficulties and successes encountered by former clients

2. To identify the number and kinds of employment which former clients have entered locally on a parttime or fulltime basis

3. To obtain information from the clients about how well they believe the career guidance program achieved its objectives

4. To discover the degree of occupational mobility among the former clients

5. To obtain a realistic picture of what lies ahead for present clients

6. To gather ideas for program improvement

7. To determine why some former clients dropped out or stopped using the services of the career guidance program

8. To identify ways in which the career guidance program could be of further assistance to both clients and employers

9. To evaluate the degree of employer satisfaction with placement services and the performance of former clients

The results of follow-up studies can be used for a variety of purposes--a few are described below.

1. Follow-up information can be used to support quality programs, not just to point out areas that need improvement. During inflationary periods, budget cuts are sometimes made indiscriminately. The availability of data supporting the quality of a particular program for service may well be the information you need to protect it from being cut or eliminated.
2. Follow-up studies may be the impetus for change. For example, in your agency’s semi-annual survey of local employers, finds that employers frequently commented that your clients (now their employees) did not know how to complete job applications or conduct themselves appropriately in a job interview. As a result of this information, your agency staff meet to design a program to prepare your students or clients for entering the job market.

3. Follow-up studies can be used for program planning and improvement. You should exercise care when using follow-up data in planning or improving your program. You must always remember that follow-up data tells you only what happened not why it happened. It is difficult to determine the cause of something if only the effect is known. You should not fall into the habit of reaching conclusions hastily. Consider this example. A community technical school has a child care program. However, due to inflationary pressures and budget deficits, federal and state funding for child care facilities has been reduced forty percent during the last two years. Many of the program’s graduates have not found jobs. This inability to find work might lead someone to the conclusion that the training program was of low quality, when in reality, jobs were not available.

4. Follow-up data can also be used for improving services or offering new ones. Consider this example. A high school sends out a follow-up questionnaire which includes the question, “How did you get your first full-time job after graduation?” The graduates’ responses indicate that it took them three to four months to secure jobs. This information might suggest to the educational agency that it should consider implementing a job placement service.

Collecting Follow-up Information

Competency 2

Describe several methods of collecting follow-up information including mail and telephone surveys of program clients, employers, parents, and others, and on-site visits; determine advantages and disadvantages of each method; and select the most appropriate follow-up methods for the career guidance program.

Effective follow-up of clients should begin before the client leaves the agency’s setting. While clients are still in the program, the agency staff should develop a system to collect, file, and maintain a current listing of names and addresses of all clients to be followed up. Although this task is time consuming, the listing must be current and accurate if a significant percentage of former clients are to be successfully contacted. A standard biographical data card suggested by Johnson et al. (1980) for this purpose appears in figure 1.

Before leaving the program, clients should participate in an orientation to the procedures that will be followed in collecting information. At this time, the importance of and the rationale for the follow-up study can be shared with the clients.

The coordinator of the follow-up study will need to determine the frequency with which follow-up studies will be conducted. Many follow-up studies are designed to collect information from clients and employers over a five-year period. The most commonly used time schedule during that five-year period is base line, four to six months, three years, and five years.

Base line data are collected before the client leaves the program. A sample base line data collection form used in a vocational education program appears in figure 2. The data (Johnson,
1. Name ____________________________ Date ____________________________
2. Social Security Number ____________________________ Parent # __________
3. Parents' Names ____________________________ Parent # __________
4. Parents' Address ____________________________ Parent # __________
5. City ____________________________ State ____________________________
6. Can you be reached at the above Social Security #? Yes ________ No ________
7. If no, please provide address and phone number here: ____________________________
8. Address ____________________________ Phone ____________________________
9. City ____________________________ State ____________________________
10. Please provide the name, address, and phone number of someone who may know of your whereabouts:
11. Name ____________________________ Phone ____________________________
12. Address ____________________________
13. City ____________________________ State ____________________________
14. Date of birth ____________________________

1980) collected in the formal follow-up surveys at specified intervals (e.g., four to six months, one year, three years, and five years) should also relate to the stated purposes of the follow-up and the goals and objectives of your agency's program.

Before deciding what method is going to be used to collect data, it is wise to give considerable thought to how the data will be tabulated. Hand tabulation and electronic data processing are the two common methods available. If the population to be surveyed is large, it would be wise to use electronic processing methods.

A questionnaire sent by mail is the most frequently used method to collect follow-up data. The major disadvantage of this method is the problem of nonrespondents—persons who simply do not return the questionnaire. A 60 to 75 percent rate of return should be your goal and this rate of return is difficult to achieve through a mailed questionnaire. You may be able to motivate your former clients to return the questionnaire by using the following practices:

1. Use short and uncomplicated instruments.
2. Time the mailing to arrive in midweek.
SAMPLE QUESTIONNAIRE

Since you are leaving a vocational education program, you can help evaluate the job the school has done in preparing you for the world of work. This questionnaire is very important. In future years, we will want to maintain contact with you through follow-up studies, so please be accurate and honest in writing the information requested. This is a chance for you to help improve your school's vocational education program.

1. In which vocational education program were you enrolled while in school? (check one)
   - Agriculture
   - Health
   - Distributive Education
   - Business & Office Education
   - Home Economics
   - Trade & Industrial
   - Other; please specify:

2. How long were you enrolled in the above-mentioned program? Write the number: ___ year(s) ___ month(s)

3. How well do you think your vocational education program has prepared you for a job in that field?
   - Excellent
   - Above Average
   - Average
   - Below Average
   - Failure

4. Do you plan to continue your formal education?
   - Yes
   - No
   - Full-time
   - Part-time

5. Have you found employment?
   - Yes
   - Full-time
   - Part-time
   - Name of Firm _____________________________
   - Address of Firm ___________________________
   - Position ________________________________
   - No
   - If no, are you currently seeking employment?
   - Yes
   - No
   - Full-time
   - Part-time
   - If yes, type of position desired ___________________________

6. Do you need assistance from us in helping you locate employment?  ___ Yes ___ No

7. Which vocational course has been most helpful to you? ___________________________

8. Which vocational course has been least helpful to you? ___________________________

9. What suggestions do you have for improving the school's vocational education program?  ___________________________

By keeping the questionnaire short and by providing a simple checklist procedure, students will probably complete the instrument. The most important aspect of this follow-up is keeping standard biographical data on file.
3. Provide a prepaid envelope.

4. Place difficult questions last.

5. Avoid personal information as much as possible.

6. Use colored or unique instruments to attract interest.

7. Use a personalized cover letter.

8. Send a newspaper clipping or some piece of publicity about the study.

Clients failing to return the questionnaire within two weeks should be reminded again either by mail or phone. Two or more contacts of nonrespondents increases the response rate.

The structured interview is conducted by a trained interviewer using a carefully designed interview guide. The interview guide can be relatively simple if only one person is doing the interviewing. The more people involved in interviewing, the more carefully the interview guide must be structured. In a "structured interview," you are interested in trying to direct both what the interviewer says and how the interviewer records the information received. This direction is given through an interview guide somewhat similar to a movie or theater script. This direction is necessary to ensure that common data is collected in a standard manner. Obviously, consistency in interviewing is important to obtain valid and reliable data.

An interview guide actually tells the interviewer what to say. For each item there is a statement or question which the interviewer is to use. When you train your interviewers to use the guide, it is important they learn the intent of the question because the client being interviewed may not understand the question and it may take some discussion before the issue is resolved.

The interview guide contains a set of response categories into which the respondent's answer can be placed. The interviewer asks the question, listens to the answer, and then decides the category into which the response fits. Occasionally, a response will be placed in the "other" category, but it is possible to develop response categories that will cover 90 to 95 percent of all responses.

The telephone interview can be used for sampling purposes. Although you may be limited in the amount of information you can gather, this approach may be the only one feasible with some populations. Occasionally, a combination of a mailed questionnaire and personal interviews conducted with a sample of the nonrespondents is successful.

When trying to determine the best follow-up method to use in your situation, use the following questions to assist you in making a decision--

1. What type of data is needed?

2. How much data is to be collected?

3. What are the sources of the data?

4. How much time is available?

5. How much money is allocated in the budget?

6. What is the competency of the staff?

7. How much staff time is available?
Developing a Plan for Conducting Follow-up Studies

Competency 3

In order to efficiently manage your follow-up effort, you should develop a plan for conducting the study. A plan assists you in thinking through the activities that must be accomplished in order to have a successful study. The plan, alterable when desired, serves as a guide for you and others. The specificity of the plan should reflect your agencies’ needs.

According to Franchak and Spirer (1979), four major issues should be addressed in designing and planning a follow-up study. They are described below:

1. Systematic development of follow-up study objectives. Inadequate objectives can be one of the major obstacles to a successful study.

2. Techniques for the development of survey instruments used to collect information from former clients. Instrument development involves several steps which include the following:
   - Determining the questions to be asked
   - Developing sex and ethnic equitable language for the instrument
   - Increasing the readability of the instrument
   - Increasing the reliability and validity of the instrument
   - Determining the most appropriate format
   - Determining how to process the instrument

3. Techniques for ensuring that the concerns stemming from the Family Education Rights and Privacy Act (Public Law 93-380 and amended by Section 2 of Public Law 93-568) are addressed. (See appendix A for a copy of the act.)

4. Drawing the representative sample or defining the population.

Developing Follow-up Study Objectives

The development of objectives is the first major step in the design of your study. Franchak and Spirer (1978) suggest that in order to arrive at specific objectives, it is sometimes helpful to begin with the goals of the program. Consider this example. A major goal of your program might well be to provide follow-up information that can assist you in making decisions concerning the development and improvement of the agency’s efforts. Four rather broadly defined objectives are implied by this goal:

   1. Improvement, expansion, alteration, or elimination of some of your agency programs
   2. Assistance in decision making
   3. Assistance in planning
   4. Assistance in evaluation

From these broad objectives, specific or “question-oriented” objectives can be developed. Examples of specific objectives that some follow-up studies might include are these:

   1. Identify reasons for former clients leaving before completing the program
   2. Identify on-the-job difficulties which former clients have experienced
3. Identify the types of work experiences former clients have had in the labor market.

4. Determine the perceptions of former clients regarding the adequacy of the training or preparation.

With objectives reflecting the needs of your agency firmly established, you should be able to proceed efficiently with the remainder of your planning.

Outlining Specific Activities

By outlining the specific activities and the personnel responsibilities for the study in the beginning, the chances for a successful effort are increased. As part of your plan, you may wish to develop a chart depicting the tasks to be accomplished. McKinney and Oglesby (1971), while dividing follow-up procedures into four phases (Preparation, Data Collection, Data Analysis and Report Preparation, and Dissemination of Follow-up Study Results) have delineated follow-up activities in sequence. This comprehensive listing of activities is reproduced here (figure 3) to assist you in designing your plan. Figure 4 also provides a tested follow-up survey instrument that may be helpful.

1. Identification of the project
2. Determination of the funding
3. Development of the objectives
4. Determination of the limitations
5. Obtain assistance in signing agreements
6. Obtain assistance in hiring staff
7. Obtain approval from the Family Development Administration 2 of Public Law 89-2
8. Establish mailing dates and prepare follow-up materials for mailing.
Follow-up Study Phase 2: Data Collection

1. First mailing--alert cards or letters.
2. Second mailing--cover letters and questionnaires sent end of first week.
3. First response analysis.
   a. Begin running count of returned and completed questionnaires.
   b. Attempt to find correct addresses for instruments returned because of incorrect address.
   c. Compile address list for third mailing of nonrespondents and corrected addresses.
4. End of second week--third mailing.
   a. Reminder cards for nonrespondents.
   b. Questionnaires to corrected addresses--instruments returned with “address unknown.”
   c. Prepare list for fourth mailing.
5. End of third week--fourth mailing.
   a. Reminder letter and second copy of questionnaire to nonrespondents.
   b. Continue response analysis.
6. End of fourth week--fifth and final mailing.
   a. Send reminder card with cut-off date to nonrespondents.
   b. Prepare telephone survey list of nonrespondents.
7. Conduct telephone survey of nonrespondents.

Follow-up Study Phase 3:
Data Analysis and Preparation

1. Identify data analysis processing procedures--manual and/or electronic data processing.
2. Define statistical techniques for data analysis.
3. Prepare follow-up report.
   a. Identify audiences for which report(s) are to be developed.
   b. Analyze findings.
   c. Develop nonrespondent report.
4. Publish report.
Follow-up Study Phase 4: Dissemination of Results

1. Identify groups to receive report:
   a. Administrators
   b. Teachers
   c. Advisory committees
   d. Board(s) of education
   e. Government agencies

2. Develop evaluation form to be included with distribution of report to assess usefulness, timelines, readability, etc.

3. Develop conference or workshop package to present findings at key meetings to achieve optimum impact:
   a. Local inservice workshops
   b. Annual statewide conference on vocational education
   c. Public hearings or meetings

4. Develop news articles for media.

**Developing a Plan**

After reviewing the phases and activities suggested by McKinney and Oglesby, you should be ready to begin to develop your initial plan for follow-up. As you may recall from earlier modules, a plan should contain--

1. goals and objectives of the study,
2. major tasks and activities to be completed,
3. staff roles and responsibilities,
4. timeline, and
5. budget.

A portion of such a plan appears in figure 5. Examine it closely before you begin to develop your plan.
If you are:

Did you have:

☑ yes

How do you:

☑ like it

☑ dislike it

What part of you with 1 being the most engaging:

☑ operational

☑ acquisition

☑ counseling you received that assisted you in making career decisions.
## FOLLOW-UP SURVEY INSTRUMENT

How could the school be changed to improve its program?  
(Please indicate your thoughts and suggestions by placing a check in the yes or no box.)

Which teaching method do you prefer?  
Please rate using:  
A = very helpful  
B = somewhat helpful  
C = not helpful  
D = not at all helpful

---

Please list any suggestions you may have:  

THANK YOU!

By using a consistent and systematic approach to collecting program information, the survey can be improved. This will enable you to receive more information from other sources, thereby providing a more accurate representation of the available sources of information.

Developing Instruments for Collecting Follow-up Data

Competency 4

Develop instruments for collecting follow-up data, pilot test them on a sample of program participants, and revise the instruments for future follow-up efforts.

Since the data collected via the follow-up instrument might be used for total program evaluation, it stands to reason that careful consideration be given to the items to be included on the instrument. Be ready to take the necessary time to design an adequate questionnaire. The time and effort invested now will result in reliable and valid data later.

If your program objectives are stated in behavioral terms, as was suggested in the module CG A-5 Build a Guidance Program Planning Model your task will be easier. The program objectives become the basis for stating the criterion questions and, subsequently, the items for your questionnaire. A criterion question states the program objective in a way that the response requested will help measure the achievement of the objective. More complicated program objectives will require more than one criterion question while the simple ones will not.

After developing the criterion questions, the next step is to develop or select as many items as you need to gather the information to answer the criterion question. Figure 6 is an example of the process.

Figure 6
Developing Questionnaire Items for Follow-up

Program Objective
To provide clients with the job seeking skills that are necessary to secure employment.

Criterion Question
How well do former clients feel their career guidance program prepared them to seek a job?

Questionnaire Items
1. How well did the career guidance program prepare you to complete job applications?
   - Very well
   - Satisfactorily
   - Inadequately

2. How would you describe your preparation for the job interview?
   - Excellent
   - Good
   - Fair
   - Poor
Examining the following checklist of do's and don'ts for instrument construction may help you avoid mistakes as you design your instrument.

Do:

- Express each item clearly.
- Organize related questions by section.
- Make the questionnaire just long enough to meet your objectives.
- Use colored paper rather than white.
- Use high quality printing.
- Design a unique and attractive questionnaire if possible.

Don'ts:

- Avoid open-ended items because they are difficult to categorize.
- Avoid asking clients for information that is already in the files.
- Avoid asking questions that could be considered too personal.
- Avoid "nice-to-know" or "interesting" questions.

Pretesting the questionnaire to see if the directions and items are clearly stated is wise. Although frequently omitted, this step in the process may assist you in avoiding unnecessary mistakes and in avoiding excessive time in analyzing data once it is returned. Current clients are good individuals with whom to pretest your instrument. Their comments and suggestions can help you revise the questionnaire. An example of a follow-up survey is included in appendix B.

Interpreting, Reporting, and Disseminating Follow-up Data

Careful consideration should be given to the interpretation of the data collected in the study. If the questions you asked were factual (rather than opinion), the responses can be interpreted carefully. Interpretation of opinion, attitude, or subjective responses is quite difficult because you have no way of knowing the mood of the respondents when they answered the question. Such data can be reported but you should be cautious in your interpretation.

Economic, environment, and labor force trends should be considered. For example, the closing of a local plant shortly before the mailing of your questionnaire would obviously affect your results. Sometimes it is helpful to make comparisons with previous follow-up data to detect trends or changes that may have important implications.

The general purpose of a follow-up study report is to inform readers about the objectives of the study, the objectives of the agency's program, the population studied, the methods used in conducting the study, and the conclusions and recommendations that can be made from the study. The organization of the report is dictated by the type of report which is to be prepared. According to Franchak and Spirer (1978), the detailed report should contain the following:

1. Summary (one-two pages)
   - a. Purpose
   - b. Procedure
   - c. Results, conclusions, and recommendations
2. Economic, environment, and labor force trends

3. Results

4. Conclusions

5. Implications for: policy making and decision making for program improvement and development

6. Appendices
   a. Procedure--data collection, data analysis
   b. Returns--return rates by programs, type of school, geographic region
   c. Limitations
   d. Data tables
   e. Copy of survey instruments

A few clarifying comments about various aspects of the "detailed" report follow.

The summary states what the report is about, and its major results, conclusions, and implications.

The economic, environment, and labor force trends section is very important. Some of the most crucial information obtained in a follow-up study is that which describes the number of clients who have been able to find jobs related to their field of study or their training. Consider this situation. If an area is experiencing a high rate of unemployment or is experiencing a loss of local industry, graduates will be directly affected. If you are aware of the economic and labor force trends, you will be able to more accurately interpret your data.

When reaching conclusions and making recommendations, if you have used a mailed questionnaire, you must take your rate of return into consideration. A low rate of return from a nonrepresentative population will not lead to valid conclusions.

Conclusions can be summarized with phrases similar to these:

"The two most successful programs in terms of graduates finding work related to their training were . . ."

and

"The majority of former clients from the . . . program continued their education in post-secondary institutions."

A recommendation is really a suggested answer to the question, what should be done based on the findings of the study? In essence, recommendations offer alternative actions that are designed to change the present or future direction of your agency’s program. Consider this example. The follow-up study of Community Technical School’s manufacturing tech graduates found that 57 percent of the graduates felt they had been poorly prepared for their work. Based on that information, one recommendation that might be made is this one:

"The Manufacturing Tech Program should form an advisory committee of employers to evaluate the relevancy of the manufacturing tech curriculum."

Because different audiences have different needs, you may have to prepare different reports. The detailed report described above would be useful for educational planners, classroom instructors, agency counselors and placement personnel, and agency administrators. A summary report may be all you need for your advisory committee while a federal report (using specified forms) may be necessary for the federal or state government agencies.

Regardless of the format of your report, you should present the facts in an easily understood manner. Jargon should be avoided. Whenever possible, graphics should be used in presenting data. Bar graphs or pie graphs, for example, assist the reader in understanding the findings of the study by illustrating similarities, differences, and trends quickly. Consider the example below.

Compare the information in table 1 on enrollment trends with the same information depicted in the graph—figure 7. While it takes some time to notice shifts in table 1, the graph in figure 7 points shifts in a glance.

Upon completion, the report is ready for dissemination. Program decision-makers and/or persons responsible for program evaluation and improvement should receive copies of the report. A list of possible decision-makers appears below:

- Program Personnel (e.g., Director, Placement Coordinators, Evaluator)
- Advisory Committee
- Government Agencies (e.g., State Department of Education)
- Community Groups (e.g., local employer's association)

Figure 7.
10th – 12th GRADE ENROLLMENTS BY PROGRAM 1970-1979

From: Franchak and Spiker, 1978

Providing Follow-through Services

Competency 6

Describe several strategies for following through on clients' progress such as telephone and written follow-up, informal meetings with clients and employers, and personal interviews and written or oral communication with clients and the employer. Career guidance personnel, in cooperation with clients and employers, need to monitor the successes and the problems that surface on the job. By initiating personal contacts (face-to-face, telephone, or mail) with both clients and employers, minor problems may be prevented from becoming major ones.

While the follow-up process deals largely with groups or group data, the follow-through process is concerned with individuals. As you recall from the "Introduction," follow-through in the process of (1) identifying the needs of former clients and their employers and (2) providing services to meet those needs. Follow-through needs are frequently identified through follow-up studies, but can also be identified through other formal and informal processes.

Historically, the concept of client follow-through has been more theoretical than practical. In the future, just knowing that clients have been placed will not be sufficient. Career guidance personnel, in cooperation with clients and employers, need to monitor the successes and the problems that surface on the job. By initiating personal contacts (face-to-face, telephone, or mail) with both clients and employers, minor problems may be prevented from becoming major ones.
The scope of follow-through services should be made clear to both clients and employers. The scope of such services varies according to programs but effective follow-through services include the following:

**Counseling Services**
- To assist clients in making initial work adjustments.
- To assist clients in dealing with personal problems that might interfere with their job.

**Referral Services**
- To direct clients to additional sources of career information.
- To direct clients to additional sources of career preparation or training.
- To direct clients to additional job placement services for either advancement or relocation.

**Consultation Services for Employers**
- To assist employers in arranging for educational opportunities to improve employee skills.
- To help employers to identify existing jobs which might be redesigned to utilize the entry level skills of some clients.
- To assist employers in dealing with work adjustment problems of the employees.

**Strategies** that can be used to deliver these services can be formal or informal and include the following:
- Contacting the clients by phone or in person to determine if they are experiencing any problems.
- Asking the clients either in person or via a questionnaire if they are interested in obtaining additional guidance services, e.g., job counseling.
- Contacting the employers by phone or in person to inquire about the performance of clients.
- Asking the employers either in person or by questionnaire if there are any problems being encountered which you may assist in resolving.

Individual placement plans can be designed to increase the chances of desirable follow-through with your students or clients. Each activity in the individual placement plan should be monitored. For example, if a student is referred to the Employment Service for a job, then this referral should be followed through to see what happened. In placement programs, this monitoring is one aspect of follow-through. An additional aspect of follow-through centers around the actual placement of clients. Once a client is placed, follow-through on each student placement is recommended. You will be interested in discovering the relationship between actual placement and the original placement plans. This information can be recorded on forms like the one in figure 8.

When your agency establishes follow-through services it is committing to continued involvement with clients after they leave the agency's program. The implications of this commitment should be considered carefully. Continuing to serve former clients at the same time you are serving current clients results in greater personnel costs to your program. Your agency administrators must support the services if they are to be a success.
Discussing Follow-through Services

Competency 7

Discuss follow-through services with clients prior to their leaving the program, select option(s) that will best meet the clients’ and program’s needs and obtain a commitment from the client to cooperate in follow-through efforts.

Effective follow-through activities begin while the client is still in the program. Obviously, the clients should understand the services that will be available to them after leaving the program. In addition to knowing that they will be able to contact the program personnel again if they desire, clients should also recognize the importance of follow-through activities to the improvement of the career guidance program. If clients understand that such services (1) assist both client and employers and (2) provide information that can help meet needs that improve job performance, they may be more willing to participate.

Information about future follow-through activities can be verbally communicated to clients during counseling sessions. A pamphlet describing the services which could be given to both clients and employers would be highly desirable and would be one additional strategy to ensure an understanding of the rationale for and scope of the services.

It is not unusual for school or agency counselors to be so busy with current clients that they may have little time for follow-through activities. Promise only the services you intend to deliver. Clients who return to find you too busy to help will be “turned-off” quickly.

Recording and Evaluating Follow-through Data

Competency 8

Record information collected during follow-through efforts and evaluate those efforts in terms of their effect on client’s progress and benefits to the organization.

Since the data gathered in your follow-through efforts can be used as a part of the total program evaluation, it should be carefully recorded and analyzed. The information obtained provides important feedback about the effectiveness not only of the follow-through services but also about other services offered by your career guidance program.

It is not unusual for some follow-through data to be collected informally. An informal contact is one in which a former client or employer calls with questions or comments or you meet a former client or employer in an unplanned manner. Many times these informal contacts provide a great deal of information that should be recorded. Three by five index cards are ideal for recording these contacts. Of course, a periodic tallying and analysis of this data is needed also.

If your program offers extensive follow-through services, it would be wise to develop evaluation forms that could be completed by clients or employers after they have utilized your services. In this manner, you could continually monitor the quality and desirability of the services being offered.
It is important to remember that follow-up studies being conducted by your program collect information about the follow-through services also. Follow-up studies should be carefully scrutinized for this information.

The total program evaluation should include an evaluation of follow-through services. The cost of such services, in terms of personnel, can be quite expensive. Evaluating their impact can determine if they are cost-efficient.

Using the case study approach for recording data in follow-through situations is appropriate. The case study method consists of making careful, detailed descriptions of phenomena in individual cases. This approach is important for the investigator who wants to put emphasis on one person rather than large numbers. Hartz and Kosmo (1977, pp. 203-204) use the following modified case study of Jim to illustrate an example of follow-through.

JIM

Jim was a young man who while in high school had done well academically. His parents were very strict and Jim was not allowed to do many of the things his peers were doing. He was not allowed out after 8:00 on school nights and 10:00 p.m. on weekends. He was taking part in many of the normal after school activities—dances, sporting events, activities that most high school students were doing. Despite his counselor's efforts to get his parents to "loosen-up," there was no way he could do this during Jim's senior year. Jim's parents were very concerned about his grades and behavior.

Consequently in Jim's terms "they blew a gasket" when he received a B in the six week period in chemistry. It was the only "B" Jim received during the year. Jim's parents had completed high school and they were determined that Jim was going to college but to the best college. They were convinced, as apparently everyone was, that the only way to study to be an engineer. Consequently Jim applied for and was accepted to one of the best engineering schools in the country.

On the first year follow-up Jim reported that he had done very poorly in the beginning. His studies he wrote, 'If I go back I'll be on final probation. I probably could make it, but I just don't feel like studying anymore. There's more to life than just books." Jim also said that although the atmosphere was pretty strained around home this summer, he was working and going out a lot. He also said they still wanted him to stay cooped up at home. But I've had enough of that. I had a great year last year doing all the things I'd missed out on before and I guess I just want to have some fun for awhile. Oh sure, I'll go back to school someday but not right away. I'm studying engineering. I guess I'm going to have to find a good enough job to support myself besides Mom and Dad will surely not help pick up the tab if I don't go back to school."

Since it was summer Jim's counselor did have time to "follow-through" with Jim by providing assistance in his plans. The counselor called Jim and asked him if he'd ever in when he got the chance. At first Jim was somewhat reluctant because he thought he was going to get more pressure to return to school. However, once assured that all the counselor wanted to do was to listen to his plans and help in any way he could, Jim welcomed the opportunity.

Jim came in and talked things over with the counselor. Once convinced that Jim really wanted and in Jim's terms "needed to get away from school for awhile," the counselor helped Jim line up a good paying job in a paper mill nearby. He also encouraged Jim to stop in later to talk again about his plans when he was ready to return to school. With Jim's blessing the counselor also called Jim's parents who readily consented to come in to talk over their concerns about Jim. Once resigned to the fact that Jim would not return to school that year, they agreed not to press the issue. They also agreed, contrary to what they had told Jim, to provide him with whatever financial help he needed if and when he was ready to return to school.
Six months later Jim called and told the counselor that he wanted to come in and talk over plans to return to school. He came in and after reviewing a number of factors Jim decided on trying a major in industrial arts at a state university nearby with a goal of becoming an industrial arts teacher. The counselor encouraged Jim to discuss these plans with his parents. Jim did.

On another follow-up, five years after his high school graduation, Jim reported that he had just signed his first contract to teach at a small school in the northern part of the state. He reported satisfaction with his college experiences. He said he really had a good time, "Sometimes I think I put my social life ahead of my studies, but I still did all right in any course work. My last two years my average was about a three point . . . but now I'm ready to settle down and go to work."
Learning Experience 1
Relating Follow-up to Program Evaluation

OVERVIEW
Develop a memorandum that provides a rationale for a follow-up study as part of the total evaluation effort.

Review the reading for Competency 1 on page 9 and then complete the following activity:

As program evaluator, it is your job to design the evaluation for the career guidance program. Your design includes conducting a follow-up study. Since the program is short of funds, the director decided to eliminate the follow-up study in your evaluation. You believe he has done so because he does not understand how the follow-up study relates to the total program evaluation effort. You should prepare a brief memo in an attempt to convince him of the study's importance.
Now that you have completed your memorandum, review it to see if you made some of the following points:

- There is no substitute for information about what happens to clients after they leave the program.
- Both clients and employers are involved in evaluating the program.
- Follow-up studies can be used to support quality programs.
- Follow-up studies can be used in program planning and improvement.

Note: The following outline is to be used by the workshop facilitator.

<table>

<td></td>
</tr>
<tr>
<td>2. Inform participants that this activity requires them to role play in small groups.</td>
<td></td>
</tr>
<tr>
<td>3. Have participants review the reading for Competency 1 on page 9.</td>
<td></td>
</tr>
<tr>
<td>B. Process</td>
<td></td>
</tr>
<tr>
<td>1. Ask participants to break into groups of three members each.</td>
<td></td>
</tr>
</tbody>
</table>
2. Assign each group member one of the following roles: (a) Program Director, (b) Program Evaluator, and (c) Advisory Committee Member. Ask the member to assume the role they have been assigned.

3. Ask participants to role play the situation. The program director should be as persuasive as possible. The program director explains to the advisory committee member why it is necessary to include a follow-up study in the program evaluation. The advisory committee member is skeptical. The evaluator supports the views of the program director.

4. Reassemble as a total group and ask the advisory committee members to evaluate the rationales or arguments for follow-up studies given by the program directors.

As you read Competency 3 on page 14, you will note that the kinds of information that need to be included in a plan are listed. A sample plan is also provided. In order to achieve all of your objectives in the study, parts of your plans may need to be developed in some detail. After reviewing the sample in the reading, develop a plan for the following goal and objective:

**Goal:** To provide effective career counseling services for all clients.

**Objective:** To determine the effectiveness of career counseling services for handicapped clients.
Compare your plan with the model. Does your plan contain the following elements?

- Goal(s) and Objective(s)
- Activities and Staffing Responsibilities
- Timeline
- Budget

### PLANNING SHEET

## Developing Instruments for Collecting Follow-up Data

### OVERVIEW

<table>
<thead>
<tr>
<th>COMPETENCY</th>
<th>Develop instruments for collecting follow-up data, pilot test them on a sample of program participants, and revise the instruments for future follow-up efforts.</th>
</tr>
</thead>
<tbody>
<tr>
<td>READING</td>
<td>Read Competency 4 on page 21.</td>
</tr>
<tr>
<td>INDIVIDUAL LEARNING OBJECTIVE</td>
<td>Assess the effectiveness of questionnaire items used in the follow-up study.</td>
</tr>
<tr>
<td>INDIVIDUAL ACTIVITY</td>
<td>Identify weaknesses in questionnaire items.</td>
</tr>
<tr>
<td>INDIVIDUAL FEEDBACK</td>
<td>Correct the weaknesses in the sample with the help of the sample provided.</td>
</tr>
<tr>
<td>GROUP LEARNING OBJECTIVE</td>
<td>Discuss the weaknesses in questionnaire items and remove those items eliminating the weaknesses.</td>
</tr>
<tr>
<td>GROUP ACTIVITY</td>
<td>Discuss weaknesses in questionnaire items and rewrite those items eliminating the weaknesses in small groups.</td>
</tr>
</tbody>
</table>
Review the reading for Competency 4 on page 20. You will note that a checklist of do's and don'ts for instrument construction is included. Review that checklist and then identify the weaknesses or "don'ts" in the following questionnaire items:

1. How did you get your first job?
   Weakness

2. What is your current salary?
   Weakness

3. What are your hobbies?
   Weakness
Did you see these weaknesses?

1. Open-ended question (All of the questions have this flaw.)
2. Too personal
3. "Interesting to know" but not necessary for follow-up

1. What are your current work duties?
   Revision

2. What is your age?
   Revision
Learning Experience 5
Interpreting, Reporting, and Disseminating Follow-up Data

OVERVIEW

COMPETENCY
Interpret and report data collected from follow-up studies, and present information to various audiences such as program administrators, educators, employers, or other talent management and other interested parties.

READING
Read Competency 5 in pages...

INDIVIDUAL LEARNING OBJECTIVE
Identify these audiences to whom the following knowledge should be disseminated.

INDIVIDUAL ACTIVITY
Develop a checklist of actions to ensure the knowledge will be disseminated.

INDIVIDUAL FEEDBACK
Compare your checklist with the learning activity.

GROUP LEARNING OBJECTIVE
Analyze a partial summary of follow-up data and suggest tentative conclusions from the data.

GROUP ACTIVITY
Analyze a summary of follow-up data and suggest some tentative conclusions from the data in small groups.
INDIVIDUAL ACTIVITY

Develop a checklist of persons to whom the follow-up report will be disseminated.

In the reading for Competency 5 on page 21, several groups and individuals were suggested as possible recipients of the report of the follow-up study. Review those suggestions and develop a dissemination checklist of the follow-up study that will list the individuals and groups who should receive information about the follow-up.
Did you include most of these individuals/groups?

Dissemination Checklist

Program Personnel

- Program Director
- Program Evaluator
- Placement Coordinator
- Equal Opportunity Officer

Advisory Committee

- Chairperson
- All Members

Government Agencies

- State Department of Education
- U.S. Department of Education
- U.S. Department of Labor

Community Groups

- Local Employers' Association
- Local Labor Unions
- Parent/Teachers' Organization
GROUP ACTIVITY

Analyze a summary of follow-up data and suggest some tentative conclusions from the data in small groups.

Note: The following outline is to be used by the workshop facilitator.

<table>
<thead>
<tr>
<th>Facilitator's Outline</th>

### Providing Follow-through Services

### OVERVIEW

<table>
<thead>
<tr>
<th>COMPETENCY</th>
<th>Describe several strategies for follow-through with clients’ progress such as telephone communication with clients after they have not been provided with services, communication with clients about the real-world implications of clients’ service delivery strategies, and the consequences of service delivery strategies.</th>
</tr>
</thead>
<tbody>
<tr>
<td>READING</td>
<td>Read Competency 6 on page 53.</td>
</tr>
<tr>
<td>INDIVIDUAL LEARNING OBJECTIVE</td>
<td>Demonstrate your knowledge of follow-through services and strategies.</td>
</tr>
<tr>
<td>INDIVIDUAL ACTIVITY</td>
<td>Demonstrate your knowledge of follow-through services and strategies by applying appropriate strategies to service delivery.</td>
</tr>
<tr>
<td>INDIVIDUAL FEEDBACK</td>
<td>Compare your answers with those of the sample provided.</td>
</tr>
<tr>
<td>GROUP LEARNING OBJECTIVE</td>
<td>Apply your knowledge of follow-through services and strategies.</td>
</tr>
<tr>
<td>GROUP ACTIVITY</td>
<td>Apply your knowledge of follow-through by role playing the situations presented.</td>
</tr>
</tbody>
</table>
Review the reading for Competency 6 on page 25 and then complete the following activity. For the situations below, indicate which of the three follow-through services would be most appropriately applied and give a rationale for your selection.

Situation 1: You are interviewing a former client at her work site. She expresses that she would now like more training. Which one of the follow-through services would be appropriate? _____________

Rationale ____________________________________________________________________

Situation 2: A former client calls you on the telephone to discuss the adjustment problems she is having on her new job. Which one of the follow-through services would be most appropriate? ___________

Rationale ____________________________________________________________________

Situation 3: You are interviewing a former client at his work site. He reports that his job is much more difficult than he thought when he took it. He feels he lacks the skills necessary to adequately perform the job and is afraid he will be eventually fired. Which one of the follow-through services would be the most appropriate? ___________

Rationale ____________________________________________________________________
Did you choose the following services as the appropriate ones?

1. Referral services because the client is seeking training information.
2. Counseling services because the client is having problems adjusting.
3. Referral services because the client is seeking sources of additional training.

Note: The following outline is to be used by the workshop facilitator.

</tr>
<tr>
<td>2. Have each individual in the small group choose one of the two roles described for the chosen situation.</td>
<td></td>
</tr>
<tr>
<td>3. Reassemble the total group and discuss the strategies that each group used to resolve the problem situations.</td>
<td></td>
</tr>
<tr>
<td>Allow 10 minutes for the role plays.</td>
<td></td>
</tr>
</tbody>
</table>

60

65
Role Play Situations

Situation 1: A former client drops in to talk to the follow-up coordinator about the difficulty he/she is having with the other workers on his/her new job. The follow-through coordinator wants to help him/her.

Situation 2: An employer calls to inform the follow-up coordinator that his/her new employee (the coordinator’s former client) is having attendance problems. The employer does not want to fire the employee but his/her patience is wearing thin.
Learning Experience 7
Discussing Follow-through Services

OVERVIEW

COMPETENCY

RELEVANCE

INDIVIDUAL LEARNING OBJECTIVE

INDIVIDUAL ACTIVITY

INDIVIDUAL FEEDBACK

GROUP LEARNING OBJECTIVE

GROUP ACTIVITY

Role play a situation in which you are discussing the availability of follow-through services to a client who is about to leave the program.
INDIVIDUAL ACTIVITY

Develop a one page pamphlet describing follow-through services.

Read the information for Competency 7 on page 28. After reviewing the services offered in an effective follow-through program, develop a one-page pamphlet describing the services available in your program (or a hypothetical one).
Does your pamphlet contain this type of information?

The Heynoldsburg Career Guidance Program wants you to be aware of the services that will be available after you leave the program. Please use them. They are for you!

**Counseling Services for Clients**
- To assist clients in making initial work adjustments.
- To assist clients in dealing with personal problems that might interfere with their jobs.

**Referral Services for Clients**
- To direct clients to additional sources of career information.
- To direct clients to additional sources of career preparation or training.
- To direct clients to additional job placement services for either advancement or relocation.

**Consultation Services for Employers**
- To assist employers in arranging for educational opportunities to improve employee skills.
- To help employers to identify existing jobs which might be redesigned to utilize the entry-level skills of some clients.

---

**GROUP ACTIVITY**

Role play a situation in which you are discussing the availability of follow-through services.

---

**Facilitator's Outline**

<table>
<thead>
<tr>
<th>Notes</th>
</tr>
</thead>

<tr>
<td>1. Explain that this activity is designed to assist participants in informing clients about follow-through services prior to their leaving the program.</td>
</tr>
<tr>
<td>Facilitator's Outline</td>
</tr>
<tr>
<td>-----------------------</td>
</tr>
<tr>
<td>2. Indicate that this activity requires participants to role play in groups of two.</td>
</tr>
<tr>
<td>3. Have participants review the reading for Competency 7 on page 23.</td>
</tr>
<tr>
<td><strong>B. Process</strong></td>
</tr>
<tr>
<td>1. Ask participants to divide into groups of two members each.</td>
</tr>
<tr>
<td>2. Have each participant take the role of the follow-through coordinator and alternately role play the above situation presented in the handout &quot;Role Play Situation.&quot;</td>
</tr>
<tr>
<td>3. Move through the groups and choose one of the groups to role play the situation for the entire group.</td>
</tr>
</tbody>
</table>
Role Play Situation

As a follow-through coordinator, it is your responsibility to inform clients about the services you offer once they leave or complete the program. You are just completing your last session with a client. You want him to cooperate in your follow-through efforts so you say ...
## Learning Experience 8
### Recording and Evaluating Follow-through Data

**OVERVIEW**

<table>
<thead>
<tr>
<th>COMPETENCY</th>
<th>Record information collected during follow-through visits and evaluate those efforts in terms of client's progress and benefits to the organization.</th>
</tr>
</thead>
<tbody>
<tr>
<td>READING</td>
<td>Read Competency 8 on page 28.</td>
</tr>
<tr>
<td>INDIVIDUAL LEARNING OBJECTIVE</td>
<td>Record follow-through data collected during initial contact with an employer or former client.</td>
</tr>
<tr>
<td>INDIVIDUAL ACTIVITY</td>
<td>Develop a list of critical information to discuss with a client during a meeting.</td>
</tr>
<tr>
<td>INDIVIDUAL FEEDBACK</td>
<td>Compare your list with items suggested by the employer.</td>
</tr>
<tr>
<td>GROUP LEARNING OBJECTIVE</td>
<td>Evaluate follow-through efforts in terms of client's progress and benefits to the organization.</td>
</tr>
<tr>
<td>GROUP ACTIVITY</td>
<td>Develop questionnaire items designed to measure the effectiveness of follow-through services.</td>
</tr>
</tbody>
</table>
Review the reading for Competency 8 on page 28. You will note that follow-through information is sometimes collected during informal contacts with former clients or employers. Make a list of the kind of information you would like to solicit if you meet a former client in an informal situation.
There is not a right or wrong answer for this activity; however, there is some basic information which might be important for you to secure from a former client during a chance meeting. You should get the following minimum information.

Client's Name __________________________
Client's Phone __________________________
Client's Address _________________________
Employer's Name _________________________
Employer's Address _______________________
Reason for Contact ______________________
Action Taken or Recommended ___________

Note: The following outline is to be used by the workshop facilitator.

ADDITIONAL RESOURCES

Materials listed in this section are ones that can provide you with additional knowledge and skills in the area of follow-through and follow-up.

Part of a resource package designed to assist local education agency personnel in improving quality of instruction and supportive services to special needs students enrolled in vocational education programs, the eighth of nine instructor guides presents procedures for conducting a follow-up of students who have completed the vocational program and who are engaged in work and/or continued training. It is explained that information collected from learner follow-up should provide the instructor with a reading on the student's level of work adjustment and point out areas within the instructional program which may need to be strengthened. Example documents included:

This module is designed to acquaint vocational education teachers with follow-up procedures and to provide them with the skills required to plan and conduct a student follow-up study. Four learning experiences direct the module user to (1) demonstrate knowledge of the steps and procedures involved in planning and conducting a follow-up study; (2) develop or adapt a questionnaire which could be used to obtain information from former students; (3) summarize, interpret, and report given data; and (4) conduct a student follow-up study in an actual school situation. User's performance should be assessed by the resource person.

This handbook is addressed primarily to state and local education agencies to assist them in designing, adapting, and conducting more efficient and effective follow-up studies. It outlines specific procedures and mechanics for conducting the studies, procedures for data analysis and reporting, and use of the data and studies in planning and improving programs and services. Useful appendices contain samples of forms needed in follow-up study.

This operational guide for job placement specialists and others charged with establishing and operating placement and follow-up programs in state and area vocational-technical schools and joint college programs is presented in eleven sections. A centralized, specialized program is proposed to meet state board of education requirements to assess student's interests, needs, and skills, to place students, and to follow-up student progress, salary, job/training relationship, weaknesses, and suggestions. Twelve placement and follow-up objectives are suggested; it is advised that the specialist send only qualified applicants to interview; responsibilities are suggested for each staff position; operational guidelines for student services, location, hours, and clerical staff are provided; job interview skills, involving application, resume, and interviewing techniques are outlined; the job bank system and agencies helpful in locating jobs are discussed; the advisory committee make-up and duties are detailed; and the TECHDAYS program (a coordinated state department of education and area school staff effort to bring in employers to interview) and a TECHDAYS component called Operation RIPE (recruiting and interviewing prospective employees) are described. The appendix contains ten sample documents related to TECHDAYS' communications with prospective employers, agenda and schedule, and evaluation procedures.

Johnson, Marion T.; Ho, Clair; Shellberg, Ken; and Gomez, Jose M. Perez. Bridges to Employment, Book Two. Columbus, OH: The National Center for Research in Vocational Education, The Ohio State University, 1980.

This manual describes practices for job development, placement, and follow-through of unemployed youth for vocational education and manpower training. It is addressed to community service representatives such as CETA prime sponsors and the personnel of manpower agencies and state employment service offices as well as to educational administrators, teachers, and counselors. It lists current legislation relative to the activities described and offers social, political, legal, and economic recommendations. An annotated bibliography is provided.

This report outlines the operation of a state funded follow-through project. The objectives of this project were (1) to develop participant feedback materials that can be used by local adult vocational education (AVE) administrators for program planning, implementation, and evaluation and (2) to determine why participants enroll in AVE programs. A follow-up survey which contained key items from the follow-through system surveys was developed. This instrument was field tested on former AVE participants in four Indiana school systems to determine its feasibility for conducting a state-wide base line survey of adult vocational education. The pilot study indicated that most adults do not enroll in AVE programs to learn basic skills and knowledge in order to secure a job, to change jobs either in relation to immediate or future employment, to prepare for entry into advanced training programs, to explore careers, or to pursue a leisure interest.
Appendices
§ 1232g. Family educational and privacy rights

(a) Conditions for availability of funds to educational agencies or institutions; inspection and review of education records; specific information to be made available; procedure for access to education records; reasonableness of time for such access; hearings; written explanations by parents; definitions

(1)(A) No funds shall be made available under any applicable program to any educational agency or institution which has a policy of denying, or which effectively prevents, the parents of students who are or have been in attendance at a school of such agency or at such institution, as the case may be, the right to inspect and review the education records of their children. If any material or document in the education record of a student includes information on more than one student, the parents of one of such students shall have the right to inspect and review only such part of such material or document as relates to such student or to be informed of the specific information contained in such part of such material. Each educational agency or institution shall establish appropriate procedures for the granting of a request by parents for access to the education records of their children within a reasonable period of time, but in no case more than forty-five days after the request has been made.

(B) The first sentence of subparagraph (A) shall not operate to make available to students in institutions of postsecondary education the following materials:

(i) financial records of the parents of the student or any information contained therein;

(ii) confidential letters and statements of recommendation, which were placed in the education records prior to January 1, 1975, if such letters or statements are not used for purposes other than those for which they were specifically intended;

(iii) if the student has signed a waiver of the student's right of access under this subsection in accordance with subparagraph (C), confidential recommendations—

(I) respecting admission to any educational agency or institution;

(II) respecting an application for employment, and

(III) respecting the receipt of an honor or honorary recognition.

(C) A student or a person applying for admission may waive his right of access to confidential statements described in clause (iii) of subparagraph (B), except that such waiver shall apply to recommendations only if (i) the student is, upon request, notified of the names of all persons making confidential recommendations and such recommendations are used solely for purpose for which they were specifically intended. Such waivers may not be required as a condition for admission to, receipt of financial aid from, or receipt of any other benefits from such agency or institution.

(2) No funds shall be made available under any applicable program to any educational agency or institution unless the parents of students who are or have been in attendance at a school of such agency or at such institution are provided an opportunity for a hearing by such agency or institution, in accordance with regulations of the Secretary, to challenge the content of such student's education records in order to insure that the records are not inaccurate, misleading, or otherwise in violation of the privacy or other rights of students, and to provide an opportunity for the correction or deletion of any such inaccurate, misleading or otherwise inappropriate data contained therein and to insert into such records a written explanation of the parents respecting the content of such records.

(3) For the purposes of this section the term "educational agency or institution" means any public or private agency or institution which is the recipient of funds under any applicable program.

(4)(A) For the purposes of this section, the term "education records" means, except as may be provided otherwise in subparagraph (B), the records, files, documents, and other materials which—

(i) contain information directly related to a student; and

(ii) are maintained by an educational agency or institution or by a person acting for such agency or institution.

(B) The term "education records" does not include—

(i) records of instructional, supervisory, and administrative personnel and educational personnel ancillary thereto which are in the sole possession of the maker thereof and which are not accessible or revealed to any other person except a substitute;

(ii) if the personnel of a law enforcement unit do not have access to education records under subsection (b)(1) of this section, the records and documents of such law enforcement unit which (I) are kept apart from records described in subparagraph (A), (II) are maintained solely for law enforcement purposes, and (III) are not made available to persons other than law enforcement officials of the same jurisdiction;

(iii) in the case of persons who are employed by an educational agency or institution but who are not in attendance at such agency or institution, records made and maintained in the normal course of business which relate exclusively to such person in that person's capacity as an employee and are not available for use for any other purpose; or

(iv) records on a student who is eighteen years of age or older, or is attending an institution of postsecondary education, which are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in his professional or paraprofessional capacity, or assisting in that capacity, and which are made, maintained, or used only in connection with the provision of treatment to the student, and are not available to anyone other than persons providing such treatment, except that such records can be personally reviewed by a physician or other appropriate professional of the student's choice.

(5)(A) For the purposes of this section the term "directory information" relating to a stu-
dent includes the following: the student's name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student.

(B) Any educational agency or institution making public directory information shall give public notice of the categories of information which it has designated as such information with respect to each student attending the institution or agency and shall allow a reasonable period of time after such notice has been given for a parent to inform the institution or agency that any or all of the information designated should not be released without the parent's prior consent.

(6) For the purposes of this section, the term "student" includes any person with respect to whom an educational agency or institution maintains education records or personally identifiable information, but does not include a person who has not been in attendance at such agency or institution.

(b) Release of education records; parental consent requirements; exceptions; compliance with judicial orders and subpoenas; audit and evaluation of Federally-supported education programs; record-keeping

(1) No funds shall be made available under any applicable program to any educational agency or institution which has a policy or practice of permitting the release of education records or personally identifiable information contained therein other than directory information, as defined in paragraph (b) of subsection (a) of this section of students without the written consent of their parents to any individual, agency, or organization, other than to the following:

(A) other school officials, including teachers within the educational institution or local educational agency, who have been determined by such agency or institution to have legitimate educational interest;

(B) officials of other schools or school systems in which the student seeks or intends to enroll, upon condition that the student's parents be notified of the transfer, receive a copy of the record if desired, and have an opportunity for a hearing to challenge the content of the record;

(C) authorized representatives of (1) the Comptroller General of the United States, (2) the Secretary, (3) an administrative head of an education agency (as defined in section 1221e-3(c) of this title), or (iv) State educational authorities under the conditions set forth in paragraph (3) of this subsection;

(D) in connection with a student's application for, or receipt of, financial aid;

(E) State and local officials or authorities to whom such information is specifically required to be reported or disclosed pursuant to State statute adopted prior to November 19, 1974;

(F) organizations conducting studies for, or on behalf of, educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, adminis-
except for the conduct of hearings, none of the functions of the Secretary under this section shall be carried out in any of the regional offices of such Department.

AMENDMENTS

Subsec. (a)(4), (5). Pub. L. 93-568, § 2(a)(2XK) added subsec. (a)(4) and (5).

Subsec. (b)(1). Pub. L. 93-568, § 2(a)(1Xd), (2Xd), (8) to (C), (10Xa), in provisions preceding subpar. (A), substituted "educational agency or institution which has a policy of permitting the release of education records (or personally identifiable information contained therein other than directory information, as defined in paragraph (6) of subsection (a) of this section) for "state or local educational agency, any institution of higher education, any community college, any school, agency offering a preschool program, or any other educational institution which has a policy or practice of permitting the release of personally identifiable records or files (or personal information contained therein)" for "any data collected by such agency or institution which has a policy or practice of furnishing, in any form, any personally identifiable information contained within the records a written explanation of the parents respecting the content of such records."

Subsec. (b)(2). Pub. L. 93-568, § 2(a)(1Xf), (2Xf) added subsec. (b)(2) and (3).

Subsec. (b)(4), (5). Pub. L. 93-568, § 2(a)(3Xf) added subsec. (b)(4) and (5).

Subsec. (c)(1). Pub. L. 93-568, § 2(a)(1Xe), (2Xe), substituted "educations, agency or institution which has a policy or practice of releasing, or providing access to, any personally identifiable information in education records other than directory information, or as is permitted under paragraph (1) of this subsection" for "state or local educational agency, any institution of higher education, any community college, any school, agency offering a preschool program, or any other educational institution which has a policy or practice of furnishing, in any form, any personally identifiable information contained within the records, to any persons other than those listed in subsection (b)(1X) of this section.

Subsec. (c)(2). Pub. L. 93-568, § 2(a)(2Xe), substituted "information is specifically authorized by Federal law, any data collected by such officials shall be recorded in a manner which will not permit the personal
identification of students and their parents by other
than those officials, and such personally identifiable
data shall be destroyed when no longer needed for
such audit, evaluation, and enforcement of Federal
law requirements" for "data is specifically authorized
by Federal law, any data collected by such officials
with respect to individual students shall not include
information (including social security numbers) which
would permit the personal identification of such stu-
dents or their parents after the data so obtained has
been collected".

Subsec. (b)(4). Pub. L. 93-388, Sec. 2(a)(9), substituted
provisions that such educational agency or institution
maintain a record, kept with the education records of
each student, indicating individuals, agencies, or or-
ganizations who obtained access to the student's record
and the legitimate interest in obtaining such informa-
tion, such that record of access shall be available only

shall be effective, and retroactive

874.)

EFFECTIVE DATE

Pub. L. 93-380, § 514(b), provided that: "The amend-
ment made by subsection (a) (amending this section)
shall be effective upon enactment of this Act (Aug. 21,
1974)."

§ 1233i. Limitations on withholding of Federal asis-
tance

(a) Refusal to supply personal data on students or
families

Except as provided in section 1232g(b)(1)XD of
this title, the refusal of a State or local educa-
tional agency or institution of higher educa-
tion, community college, school, agency offer-
ing a preschool program, or other educational
institutions to provide personally identifiable

shall be effective upon enactment of this

514(b), provided that: "The amend-
made by subsection (a) (amending this section)
shall be effective, and retroactive to, November 19,
1974."

EFFECTIVE DATE

Pub. L. 93-380, § 513(b)(1), provided that: "The pro-
visions of this section (classified to this section)
shall become effective ninety days after the date of enact-
ment (Aug. 21, 1974) of section 438 of the General
Education Provisions Act (this section)."

SHORT TITLE

Pub. L. 93-380, § 513(b)(2), provided that: "This sec-
tion (classified to this section and provisions set out as
a note under this section) may be cited as the 'Family
Educational Rights and Privacy Act of 1974'."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1232i, 1417 of
this title.

§ 1232h. Pupil rights, protection; inspection by par-
ents or guardians of instructional material; "re-
search or experimentation program or project" defined

All instructional material, including teacher's manuals,
films, tapes, or other supplementary instructional mate-
rial which will be used in connection with any research or experimenta-
tion program or project shall be available for
inspection by the parents or guardians of the
children engaged in such program or project.
For the purpose of this section "research or exper-
imentation program or project" means any

...
§ 1681. Sex.

(a) Prohibition against discrimination; exceptions.

(1) Classes of educational institutions subject to prohibition.

(2) Educational institutions commencing or completing change in admissions.

(3) Educational institutions of religious organizations with contrary religious tenets.

(4) Educational institutions training individuals for military services or merchant marine.

(5) Public educational institutions with traditional and continuing admissions policy.

(6) Social fraternities or sororities; voluntary youth service organizations.

(7) Boy or Girl conferences.

(8) Father-son or mother-daughter activities at educational institutions.

(9) Institution of higher education scholastic or athletic awards in “beauty” pageants.

(b) Preferential or disparate treatment because of sex, race, or national origin.

(c) Educational institution defined.

§ 1682. Federal administrative enforcement; report to congressional committees.

§ 1683. Judicial review.

§ 1684. Blindness or visual impairment; prohibition against discrimination.

§ 1685. Authority under other laws unaffected.

§ 1686. Interpretation with respect to living facilities.

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in section 1232 of this title; title 29 section 208; title 43 section 186.

§ 1681. Sex.

(a) Prohibition against discrimination; exceptions.

No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance, except that:

(1) Classes of educational institutions subject to prohibition.

In regard to admissions to educational institutions, this section shall apply only to institutions of vocational education, professional education, and graduate higher education, and to public institutions of graduate higher education;

(2) Educational institutions commencing planned change in admissions.

In regard to admissions to educational institutions, this section shall not apply (A) for one year from the date an educational institution begins the process of changing from being an institution which admits only students of one sex to being an institution which admits students of both sexes, but only if it is carrying out a plan for such a change which is approved by the Commissioner of Education; or (B) for seven years from the date an educational institution begins the process of changing from being an institution which admits only students of one sex to being an institution which admits students of both sexes, but only if it is carrying out a plan for such a change which is approved by the Commissioner of Education, whichever is the later.

(3) Educational institutions of religious organizations with contrary religious tenets.

This section shall not apply to an educational institution which is controlled by a religious organization if the application of this subsection would not be consistent with the religious tenets of such organization.

(4) Educational institutions training individuals for military services or merchant marine.

This section shall not apply to an educational institution whose primary purpose is the training of individuals for the military services of the United States, or the merchant marine.

(5) Public educational institutions with traditional and continuing admissions policy.

In regard to admissions this section shall not apply to any public institution of undergraduate higher education which is an institution that traditionally and continually from its establishment has had a policy of admitting only students of one sex.

(6) Social fraternities or sororities; voluntary youth service organizations.

This section shall not apply to membership practices.

(A) of a social fraternity or social sorority which is exempt from taxation under section 501(a) of title 26, the active membership of which consists primarily of students in attendance at an institution of higher education, or

(B) of the Young Men's Christian Association, Young Women's Christian Association, Girl Scouts, Boy Scouts, Camp Fire Girls, and voluntary youth service organizations which are so exempt, the membership of which has traditionally been limited to persons of one sex and principally to persons of less than nineteen years of age.

(7) Boy or Girl conferences.

This section shall not apply to—

(A) any program or activity of the American Legion undertaken in connection with the organization or operation of any Boys State conference, Boys Nation conference, Girls State conference, or Girls Nation conference; or
(B) any program or activity of any secondary school or educational institution specifically for—

(i) the promotion of any Boys State conference, Boys Nation conference, Girls State conference, or Girls Nation conference; or

(ii) the selection of students to attend any such conference;

(8) Father-son or mother-daughter activities at educational institutions

This section shall not preclude father-son or mother-daughter activities at an educational institution, but if such activities are provided for students of one sex, opportunities for reasonably comparable activities shall be provided for students of the other sex; and

(9) Institution of higher education scholarship awards in "beauty" pageants

This section shall not apply with respect to any scholarship or other financial assistance awarded by an institution of higher education to any individual because such individual has received such award in any pageant in which the determination of such award is based upon a combination of factors related to the personal appearance, poise, and talent of such individual and in which participation is limited to individuals of one sex only, so long as such pageant is in compliance with other nondiscrimination provisions of Federal law.

(b) Preferential or disparate treatment because of imbalance in participation or receipt of Federal benefits; statistical evidence of imbalance

Nothing contained in subsection (a) of this section shall be interpreted to require any educational institution to grant preferential or disparate treatment to the members of one sex on account of an imbalance which may exist with respect to the total number or percentage of persons of that sex participating in or receiving the benefits of any federally supported program or activity, in comparison with the total number or percentage of persons of that sex in any community, State, section, or other area. Provided. That this subsection shall not be construed to prevent the consideration in any hearing or proceeding under this chapter of statistical evidence tending to show that such an imbalance exists with respect to the participation in, or receipt of the benefits of, any such program or activity by the members of one sex.

(c) Educational institution defined

For purposes of this chapter an educational institution means any public or private preschool, elementary, or secondary school, or any institution of vocational, professional, or higher education, except that in the case of an educational institution composed of more than one school, college, or department which are administratively separate units, such term means each such school, college, or department.

References in Text

This chapter, referred to in subsec. (b) and (c), was in the original "this title", meaning title IX of Pub. L. 92-318 which enacted this chapter and amended sections 203 and 213 of Title 20, Labor, and sections 2000c, 2000c-3, 2000c-9, and 2000h-3 of Title 42. The Public Health and Welfare. For complete classification of title IX to the Code, see Tables volume.

Amendments

1978—Subsec. (a). Pub. L. 94-482 in part (6) substituted "this" for "This", and added pars. (7) to (9).

Effective Date of 1976 Amendment

Pub. L. 94-482, § 412(b), provided that: "The amendment made by subsection (a) [amending this section] shall take effect upon the date of enactment of this Act [Oct. 12, 1976]."

Effective Date of 1976 Amendment

Pub. L. 93-568, § 3(b), provided that: "The provisions of the amendment made by subsection (a) [amending this section] shall be effective on, and retroactive to, July 1, 1972."

Regulations; Nature of Particular Sports: Intercollegiate Athletic Activities

Pub. L. 93-380, title VIII, § 844, Aug. 21, 1974, 88 Stat. 613, provided that the Secretary prepare and publish, not more than 30 days after Aug. 21, 1974, proposed regulations implementing the provisions of this chapter regarding prohibition of sex discrimination in federally assisted programs, including reasonable regulations for intercollegiate athletic activities considering the nature of the particular sports.

Section Referred to in Other Sections

This section is referred to in section 1882 of this title.

§ 1882. Federal administrative enforcement; report to congressional committees

Each Federal department and agency which is empowered to extend Federal financial assistance to any education program or activity, by way of grant, loan, or contract other than a contract of insurance or guaranty, is authorized and directed to effectuate the provisions of section 1881 of this title with respect to such program or activity by issuing rules, regulations, or orders of general applicability which are consistent with achievement of the objectives of the statute authorizing the financial assistance in connection with which the action is taken. No such rule, regulation, or order shall become effective unless and until approved by the President. Compliance with any requirement adopted pursuant to this section may be effected (1) by the termination of or refusal to grant or to continue assistance under such program or activity to any recipient as to whom there has been an express finding on the record, after opportunity for hearing, of a failure to comply with such requirement, but such termination or refusal shall be limited to the particular political entity, or part thereof, in which such noncompliance has been found, or (2) by any other means authorized by law: Provided, however, That no such action shall be taken until the department or agency concerned has advised the appropriate person or persons of the failure to comply with the requirement and has determined that compliance cannot be secured by voluntary means. In the case of any action terminating, or refusing to

1. Since you left this vocational program, did you seek full-time employment? (30 or more hours per week)
   □ Yes □ No

2. If you did not seek full-time employment when you left this vocational program, indicate the reason.
   Check only one box
   □ Expected to enter another school
   □ Housewife or about to be married
   □ Physical or other handicap
   □ Not interested in a job
   □ Expected to enter the military service
   □ Only wanted to work part-time (less than 30 hours per week)
   □ Other (specify)

3. Did you seek part-time employment (less than 30 hours per week) when you left this vocational program?
   □ Yes □ No

4. If you sought part-time employment, instead of full-time employment, when you left this vocational program, indicate the reason.
   Check only one box
   □ Expected to enter another school
   □ Housewife or about to be married
   □ Physical or other handicap
   □ Not interested in a full-time job
   □ Expected to enter the military service
   □ Unable to find a full-time job
   □ Other (specify)

5. How many full-time jobs (30 or more hours per week) have you held since you left this vocational program?
   □ None
   □ 1 full-time job
   □ 2 full-time jobs
   □ 3 to 5 full-time jobs
   □ 6 or more full-time jobs

NOTE: If your answer to question 5 was NONE, skip to question 16

6. If you got a full-time job when you left this vocational program:
   What was your job? ______________________

7. How closely did your first full-time job (30 or more hours per week) after leaving this vocational program relate to the training you received?
   Check only one box
   ☐ I was employed in the occupation for which I was trained by this vocational program
   ☐ I was employed in a related occupation
   ☐ I was employed in a completely different occupation

8. Did this vocational training program adequately prepare you for your first full-time job after leaving this training?
   ☐ Yes ☐ No

9. What was your beginning hourly wage on your first full-time job since leaving this vocational program?
   Check only one box
   ☐ $1.59 or less per hour
   ☐ $1.60 to $1.99 per hour
   ☐ $2.00 to $2.49 per hour
   ☐ $2.50 to $2.99 per hour
   ☐ $3.00 to $3.99 per hour
   ☐ $4.00 or more per hour

10. How did you get your first full-time job after leaving this vocational training?
    Check appropriate box or boxes below
    ☐ I got the job myself
    ☐ My family or friends helped me get the job
    ☐ The job placement services provided by the school helped me get the job
    ☐ The state employment service helped me get the job
    ☐ A private employment agency helped me get the job
    ☐ Other (specify) ______________________

11. What is the most you have earned on a full-time job since leaving this program?
    Check only one box
    ☐ $1.59 or less per hour
    ☐ $1.60 to $1.99 per hour
    ☐ $2.00 to $2.49 per hour
    ☐ $2.50 to $2.99 per hour
    ☐ $3.00 to $3.99 per hour
    ☐ $4.00 or more per hour

12. If you have held two or more full-time jobs (30 or more hours per week) since you ended this vocational training, check one box below.
    ☐ I was trained in school for my last job
    ☐ My last job was related to this vocational training
    ☐ My last job was not at all related to this vocational training

13. Indicate below the location of your present or most recent full-time employment.
    ______________________ ______________________
    Village, Town, City
    County
    State

14. If you are presently working, what is your job?

15. What wages are you presently earning?
    Check only one box
    ☐ $1.59 or less per hour
    ☐ $1.60 to $1.99 per hour
    ☐ $2.00 to $2.49 per hour
    ☐ $2.50 to $2.99 per hour
    ☐ $3.00 to $3.99 per hour
    ☐ $4.00 or more per hour
    ☐ I am unemployed

16. What is your current employment status?
    Check the appropriate box or boxes below
    ☐ I am employed
    ☐ full-time (30 or more hours per week)
    ☐ part-time (less than 30 hours per week)
    ☐ I am unemployed
    ☐ but looking for work
    ☐ not looking for work
    ☐ I am in the military service
17. As best you know, what type(s) of job placement services were provided by the school and the vocational program in which you were enrolled?

☐ A school placement service coordinated with the State Employment Service
☐ Vocational Teachers helped place students in jobs by making referrals
☐ Guidance Counselors helped students find jobs
☐ Other (specify)
☐ School had no placement services

18. After you got your first job (full-time or part-time) following this vocational training, have you ever again used any of the job placement services provided by the school or this vocational program?

☐ Yes ☐ No

If yes, check the service(s) you have used since getting your first job:

☐ Coordinated service provided by school and state employment service
☐ Vocational teacher assistance
☐ Guidance counselor assistance
☐ Other (specify)

19. How many separate vocational courses did you take while enrolled in this vocational program?

☐ Courses

20. Did you enroll in this vocational program with the specific purpose in mind of getting skill training in order to get a job in this field?

☐ Yes ☐ No

21. Were you satisfied with the vocational training you received in this program?

☐ Yes ☐ No

22. Would you recommend this vocational program to others?

☐ Yes ☐ No

23. Since you left this vocational program, have you enrolled in any additional education program(s)?

☐ Yes ☐ No

24. If you did enroll for additional education after leaving this vocational program, have you received (or do you expect to receive) one or more of the following:

☐ Yes ☐ No

If yes, check type(s) and purpose(s) below:

☐ General education program(s)
☐ To raise my general education level
☐ Informal, noncredit course(s)

☐ Vocational program(s)
☐ To upgrade the vocational skills previously learned in this program
☐ To learn a new occupation

What type(s) of vocational training program(s) did you attend?

☐ Private school(s)
☐ Public school(s)
☐ Business or Industry

25. Are you now enrolled in a vocational program?

☐ Yes ☐ No

26. Are you now enrolled in any educational program(s) other than vocational?

☐ Yes ☐ No

27. Are you interested in getting more vocational training?

☐ Yes ☐ No

28. Are you interested in getting more general education?

☐ Yes ☐ No

29. If you are interested in getting more training of any kind, indicate the type you are interested in:

VI. JOB SATISFACTION SURVEY: (IF YOU ARE NOT PRESENTLY EMPLOYED, SKIP TO SECTION VII.)

DIRECTIONS: The purpose of this survey is to enable you to express your feelings of satisfaction or dissatisfaction with your present job. Please answer all questions by placing an "X" in the appropriate square.

A. How do you feel about your present job?
1) Like it very much
2) Like it somewhat
3) Neither like nor dislike it
4) Dislike it somewhat
5) Dislike it very much

B. Considering the characteristics of your present job, rate the degree to which you are satisfied with each of the following:

1. Salary
2. Fringe benefits
3. Potential for advancement
4. Supervision and management
5. Coworkers
6. Company policies and practices
7. Pace (speed) of work
8. Facilities and equipment with which to do the job
9. Working conditions
10. Variety of work tasks
11. Job security
12. Safety conditions

TRAINING PROGRAM QUESTIONNAIRE: (IF YOU ARE PRESENTLY EMPLOYED OR HAVE BEEN EMPLOYED AT ANY TIME DURING THE YEAR SINCE GRADUATION FROM THE AREA VOCATIONAL-TECHNICAL INSTITUTE, COMPLETE THIS SECTION OF THE QUESTIONNAIRE.)

DIRECTIONS: Please answer all of the following questions concerning the quality of the curriculum and the quality of the facilities and equipment associated with the program from which you graduated. Place an "X" in the appropriate square.

VII. CURRICULUM

A. In light of your experience on the job, how do you feel about the training you received in basic job-related (performance) skills at the area vocational-technical institute?
1) Excellent
2) Very good
3) Adequate
4) Inadequate

B. In light of your experiences on the job, how do you feel about the training you received in job-related general technical knowledge at the area vocational-technical institute?
1) Excellent
2) Very good
3) Adequate
4) Inadequate

VIII. FACILITIES AND EQUIPMENT

A. The equipment at the area vocational technical institute in my training area was such that:
1) I found it very easy to adapt to the equipment on the job.
2) I had some problems adapting to the equipment on the job.
3) I found it very difficult to adapt to the equipment on the job.

B. In comparison to the facilities and equipment used on your present job, how would you rate your area vocational technical institute facilities and equipment?
1) Area vocational technical institute facilities and equipment were superior to those on the job.
2) Area vocational technical institute facilities and equipment were similar to those on the job.
3) Area vocational technical institute facilities and equipment were inferior to those on the job.
THIS SECTION IS TO BE COMPLETED BY ALL

DIRECTIONS: Please answer all of the following questions concerning the quality of instruction and the quality of the school and community services associated with the school from which you graduated. Place an "X" in the appropriate square.

IX. INSTRUCTION

A. How would you rate the teaching quality of instructors in your training program at the area vocational-technical institute?
   (26) Most of the instructors taught very well.
   (26) About the same number taught well as did not.
   (26) Most of the instructors did not teach well.

B. How would you rate the knowledge your instructors at the area vocational-technical institute possessed about their field?
   (27) Most were very knowledgeable.
   (27) About the same number were knowledgeable as were not.
   (27) Most were not knowledgeable.

C. How would you rate the interest shown by your instructors in your work progress at the area vocational-technical institute?
   (28) Most instructors were very interested in my progress.
   (28) Most instructors were somewhat interested in my progress.
   (28) Most instructors did not seem interested in my progress.

D. How would you rate the extent to which your instructors at the area vocational-technical institute were up-to-date in their fields?
   (29) Most instructors were up-to-date.
   (29) About the same number were up-to-date as were not.
   (29) Most instructors were not up-to-date.

X. If you could start all over again, would you choose the same training program you received training in at the area vocational-technical institute?
   (30) YES 1 NO 2

XI. SCHOOL AND COMMUNITY SERVICES

A. Who was the greatest help to you in securing your first job? (Check one.)
   (31) Instructor, or other area vocational-technical institute personnel
   (31) Private employment agency
   (31) Relatives or friends
   (31) State employment agency
   (31) Other ____________________________ (specify)
   (31) Does not apply (I have not been employed during the year)

B. How would you rate the quality of the following services as provided by the area vocational-technical institute? If you did not take advantage of the service, or if the service was not available, check "does not apply." (Please check only one square for each item.)

<table>
<thead>
<tr>
<th>Service</th>

DEPARTMENT OF VOCATIONAL & TECHNICAL EDUCATION

University of Minnesota

ALL RESPONSES YOU GIVE WILL BE KEPT STRICTLY CONFIDENTIAL

EMPLOYER QUESTIONNAIRE

DIRECTIONS: Please complete ALL sections of this form even if the employee no longer works for your firm. When you have completed the form return it in the enclosed return-addressed, stamped envelope. Your responses will in no way affect the employee.

I. PERSONAL INFORMATION

A. Employee name ________________________________
   (Last) ___________________ (First) ___________________ (Middle) ___________________

B. Indicated Employer __________________________________________ City ________________

II. EMPLOYMENT INFORMATION

If the employee has worked or works for your firm, please have a supervisor familiar with the work of the employee fill out this questionnaire.

Employee’s Job Description __________________________________________

Supervisor’s Name ________________________________ Date ________________
   (Last) ___________________ (First) ___________________ (Middle) ___________________

Supervisor’s Position __________________________________________

PLEASE COMPLETE REMAINING PORTIONS OF THIS QUESTIONNAIRE

Not to be reproduced or used without written permission from the Vocational Follow-Up System.
EMPLOYEE PERFORMANCE SURVEY

DIRECTIONS: Please indicate your satisfaction with the employee as compared with other workers in the same work group. If the worker is the only person employed with your firm, compare him with others who have worked in the same position. This information will be kept strictly confidential. Please respond to all questions.

I. Total number of months employee has been employed by your firm ... 13-14

PLEASE RESPOND TO THE FOLLOWING QUESTIONS BY PLACING AN "X" IN THE APPROPRIATE SQUARE

II. In comparison with other workers in the same work group, how would you rate the employee on each of the following characteristics?

1. The quality of employee's work ................................................................. 1 2 3 (15)
2. The quantity of employee's work ................................................................. 1 2 3 (16)
3. The degree to which the employee possesses specific job-related knowledge important to success on this job ................................................................. 1 2 3 (17)
4. The degree to which the employee is able to operate the equipment and apparatus used on the job . 1 2 3 (18)
5. The degree to which the employee possesses basic reading, verbal and computational skills ....... 1 2 3 (19)

III. In comparison to others in the employee's work group, how would you rate the employee on each of the following characteristics?

1. Willingness to accept responsibility ................................................................. 1 2 3 (20)
2. Punctuality ................................................................. 1 2 3 (21)
3. Ability to work without supervision ................................................................. 1 2 3 (22)
4. Willingness to learn and improve ................................................................. 1 2 3 (23)
5. Cooperation with co-workers ................................................................. 1 2 3 (24)
6. Cooperation with management ................................................................. 1 2 3 (25)
7. Compliance with company policies, rules, and practices ................................................................. 1 2 3 (26)
8. Work attendance ................................................................. 1 2 3 (27)

IV. In comparison with other workers in the same work group, how would you rate the employee's over-all competency, effectiveness, proficiency, general over-all work attitudes, and other elements of successful job performance?

(28)
1 In the top 1/4
2 In the top 1/2 but not among the top 1/4
3 In the bottom 1/2 but not among the lowest 1/4
4 In the lowest 1/4
EM Employee Performance Survey

KEY PROJECT STAFF

The Competency-Based Career Guidance Module Series was developed by a consortium of agencies. The following list represents key staff in each agency that worked on the project over a five-year period.

The National Center for Research in Vocational Education

Harry N. Drier ................. Consortium Director
Robert E. Campbell ........... Project Director
Linda A. Pfister ............... Former Project Director
Robert Bhaerman .............. Research Specialist
Karen Kimmel Boyle ........... Program Associate
Fred Williams ................. Program Associate

American Institutes for Research

G. Brian Jones ................. Project Director
Linda Phillips-Jones .......... Associate Project Director
Jack Hamilton ................. Associate Project Director

University of Missouri-Columbia

Norman C. Gysbers .......... Project Director

American Association for Counseling and Development

Jane Howard Jasper .......... Former Project Director

American Vocational Association

Wayne LeRoy .......... Former Project Director
Roni Posner ........ Former Project Director

U.S. Department of Education, Office of Adult and Vocational Education

David Pritchard .......... Project Officer
Holli Condon .......... Project Officer

A number of national leaders representing a variety of agencies and organizations added their expertise to the project as members of national panels of experts. These leaders were--

Ms. Grace Basinger
Past President
National Parent-Teacher Association

Dr. Frank Bowe
Former Executive Director

Education Coordinator
American Coalition of Citizens with Disabilities

Mr. Robert L. Craig
Vice President
Government and Public Affairs
American Society for Training and Development

Dr. Walter Davis
Director of Education
AFL-CIO

Dr. Richard DeEugenio
Senior Legislative Associate
(representing Congressman Bill Goodling)
House Education and Labor Committee

Mr. Oscar Gjernes
Administrator (Retired)
U.S. Department of Labor
Division of Employment and Training

Dr. Robert W. Glover
Director and Chairperson
Federal Committee on Apprenticeship
The University of Texas at Austin

Dr. Jo Hayslip
Director of Planning and Development in Vocational Rehabilitation
New Hampshire State Department of Education

Mrs. Madeleine Hemmings
National Alliance for Business

Dr. Edwin Herr
Counselor Educator
Pennsylvania State University

Dr. Elaine House
Professor Emeritus
Rutgers University

Dr. David Lacey
Vice President
Personnel Planning and Business Integration
CIGNA Corporation

Dr. Howard Matthews
Assistant Staff Director
Education (representing Senator Orin G. Hatch)
Committee on Labor and Human Resources

Dr. Lee McMurrin
Superintendent
Milwaukee Public Schools

Ms. Nanine Meiklejohn
Assistant Director of Legislation
American Federation of State, County, and Municipal Employees

Dr. Robert W. Matthews
State Director of Vocational Education
Florida Department of Education

Dr. Joseph D. Mills
Director of Health Policy Study and Private Sector Initiative Study
American Enterprise Institute

Mr. Reid Rundell
Director of Personnel Development
General Motors Corporation

Mrs. Dorothy Shields
Education
American Federation of Labor/Congress of Industrial Organizations

Dr. Barbara Thompson
Former State Superintendent
Wisconsin Department of Public Instruction

Ms. Joan Wills
Director
Employment and Training Division
National Governors Association

Honorable Chalmers P. Wylie
Congressman/Ohio
U.S. Congress
