World-wide in scope, this directory lists organizations producing braille or Talking Books, maintaining braille libraries, and exchanging resources with organizations serving blind or handicapped people. The directory is arranged in seven geographical sections: Africa, Asia, Australia (including Oceania), Europe (including U.S.S.R.), Middle East (northern Africa and the eastern Mediterranean countries), North America, and South America (including Central America and the Caribbean). Countries are arranged alphabetically within these seven sections and individual organizations alphabetically within their countries. Information about each organization includes five parts: braille production, braille distribution, Talking Books production, Talking Books distribution, and general information. Seven indexes provide access by language (28 languages are represented) and by organizational function. (CL)

Indexes                                                                 108
The need for information regarding the availability of reading materials useful to blind and physically handicapped individuals has long been recognized. Therefore, when D. S. Zharkov, Director of the Republican Central Library for the Blind in Moscow, suggested that a project be undertaken to produce a guidebook of such resources the response was both positive and immediate.

The recommendation for the effort, which has resulted in this volume, was made to Donald Roskilly, Royal National Institute for the Blind, London, and to Frank Kurt Cylke, Director, National Library Service for the Blind and Physically Handicapped, Library of Congress, Washington, D.C., during a discussion held in Srbské Pleso, Czechoslovakia, in August 1978 during a meeting of the International Federation of Library Associations.

On his return to the United States Mr. Cylke arranged for Peter Hanke, Director, Talking Books, American Foundation for the Blind, New York, to assume responsibility for development of an appropriate questionnaire and for the collection of data. This effort was funded by UNESCO (Contract 340029) and implemented by Leslie L. Clark and Dina N. Bedi, Baruch College, New York, New York.

Editing of the responses and compilation of the final text was coordinated by Krandall Kraus, National Library Service for the Blind and Physically Handicapped.

It is obvious that this directory is the product of no single mind, no one organization, and was not a solitary endeavor. Rather, it is the synergistic result of the community of librarians and producers who recognized that if resources are to be used they must be shared. In order to be shared, locations, holdings, and services must be widely known; therefore, this International Directory of Libraries and Production Facilities for the Blind.
How to Use the Directory

The directory is arranged in seven geographical sections—Africa, Asia, Australia (including Oceania), Europe (including the U.S.S.R.), Middle East (northern Africa and the eastern Mediterranean countries), North America, and South America (including Central America and the Caribbean). Countries are arranged alphabetically within these seven sections, and individual organizations alphabetically within their countries.

Information about each organization is divided into five parts—braille production, braille distribution, Talking Book production, Talking Book distribution, and general information. Data were taken directly from the questionnaire responses. "None" indicates that the organization does not engage in that particular activity. "No response" indicates that that part of the questionnaire was left blank.

Following the directory listings are indexes to help the reader locate organizations producing braille or Talking Books, maintaining braille libraries, and providing materials in twenty-eight different languages, as well as those organizations willing to exchange braille or Talking Books with other organizations serving blind or handicapped people. An alphabetical list of organizations appearing in the directory follows these indexes.

Each organization appearing in the directory has been assigned a three-digit code number—100s for Africa, 200s for Asia, 300s for Australia, 400s for Europe, 500s for the Middle East, 600s for North America, and 700s for South America.

To locate a particular organization or service, first find the organization's name or the service in the proper index and note the code number next to it; then turn to the section containing that number.

Example 1: To locate information on the American Printing House for the Blind, find it in the index titled "Organizations Listed in the Directory." The code number assigned to this organization is 609. Turn to the 600 section of the directory, which contains listings for North America. American Printing House for the Blind is the ninth listing in this section—number 609.

Example 2: To find out which organizations provide materials in Arabic, turn to the index titled "Organizations Providing Materials in the Following Languages," where world languages are listed alphabetically. "Arabic" is the second language listed in this index. According to the index there are eight organizations world-wide which provide materials in Arabic. One is in Asia (213), one is in Europe (413), and six are in the Middle East (502, 503, 504, 506, 507, and 508).
Africa

101

Kenya

The Hadley School for the Blind
Regional Office for Africa
PO Box 31082
Nairobi, Kenya

Braille production
1,000 pages per month
specialize in secondary education textbooks
70% by volunteers
hand copying used
38 titles produced in 1979
contracted braille used
Grade II braille followed

Braille distribution
100% loaned
braille material available:
   2,000 recreational titles
   1,000 textbooks
library maintained
material exchanged with other organizations
distribution limited to blind or handicapped
distribution to other countries allowed
500 persons and organizations ordered braille material in 1979

Talking Book production
master tapes not maintained; single copies
   recorded only for the use of university students
recorded on Philips Compact Cassette
recorded on full track
maximum program lengths 30 and 45 min. per side

Talking Book distribution
to university blind students only
100% English
100% textbooks
100% Philips Compact Cassette
patron must return recorded material
machines loaned (by Kenya Society for the Blind)
machines cost more than $100

General information
patrons are 100% blind university students
amount of material and services produced and distributed moderately higher than 5 years ago
established in 1968

102

Nigeria

Nigerian National Advisory Council for the Blind
PO Box 2145
Lagos, Nigeria

Braille production
400 pages per month
specialize in textbooks in numerous subject areas
10% by volunteers
hand copying used (plate embossing and duplication projected for the future)
12 titles produced in 1979
contracted braille used
English Braille followed

Braille distribution
50% sold, 50% loaned
braille material available:
   textbooks
   vocational material
library maintained
material not exchanged with other organizations
distribution limited to blind or handicapped
distribution to other countries allowed
20 persons and 6 organizations ordered braille material in 1979

Talking Book production
none

Talking Book distribution
no response

General information
amount of material and services produced and distributed moderately higher than 5 years ago
created by government
established 1959-1960

103

Rhodesia

Jairos Jiri Association
PO Box 1065
Gwelo, Rhodesia
**Braille production**
300 pages per month
specialize in braille text teachers' guide books
no volunteers
hand copying used
contracted braille used

**Braille distribution**
none
braille material available:
  - textbooks
library maintained
distribution limited to blind or handicapped
distribution limited to Rhodesia
10 persons and organizations ordered braille material in 1979

**Talking Book production**
none

**Talking Book distribution**

**105**

School for the Blind
20 Adderley St.
6850 Worcester, South Africa

**Braille production**
2,000 pages per month
in numerous subject areas
no volunteers
hand copying, stereograph, plate embossing and press duplication used
60 titles produced in 1979
both contracted and uncontracted braille used
Standard English Braille and Dic Afrikaanse Brailleselset followed

**Braille distribution**
100% sold
braille material available:
  - 3,000 recreational titles
  - 350 textbooks
  - 1 magazine
  - vocational material (music)
library maintained
material not exchanged with other organizations
distribution not limited to blind or handicapped
distribution to other countries allowed
250 persons and organizations ordered braille material in 1979
Talking Book production
master tapes maintained
recorded on ¼-inch open reel tape and compact cassette
tape speeds 1½ and 3½ ips
recorded on half track
maximum program lengths 30 and 45 min per side
CCIR equalization used
250 titles recorded in 1979
willing to exchange master tape copies with other organizations

Talking Book distribution
7,000 titles available
50% English, 1.5% German, 48% Afrikaans, .5% Dutch
20% textbooks, 80% recreational reading
12% open reel, 88% compact cassette
patron must return recorded material
patron purchases machine
machine costs vary
machine speeds 1½ and 3½ ips
machine manufacturers—a wide variety
mailing containers: metal containers (open reel tapes), suitcase carton containers (cassettes)
maximum 4 open reel tapes or 12 cassettes per package
mailing containers are reusable
4,500 mailing containers sent out each year
reel to cassette TELEX 300, 8:1 speed, 9 slaves, used to record sample material

General information
patrons are 50% students; 50% professionals, elderly, and middle-aged
amount of material and services produced and distributed moderately higher than 5 years ago
established in 1959

South Africa

**Braille production**
300 pages per month
specialize in information pertinent to blind
persons' welfare
90% by volunteers
hand copying used
contracted braille used
English Braille, English edition and American
edition, followed

**Braille distribution**
90% loaned, 10% given free
braille material available:
1 magazine
other: government agendas, minutes, proceed-
ings, and submissions; documents on
consumerism affecting the handicapped
library maintained
material exchanged with other organizations
distribution not limited to blind or handicapped
distribution to other countries allowed
100 persons and organizations ordered braille
material in 1979

**Talking Book production**
master tapes maintained
tape speed 3 3/4 ips
maximum 2 tracks can be recorded
record on half track
maximum program length 45 min. per side
CCIR equalization (usually) used
1 title recorded in 1979
willing to exchange master tape copies with other
organizations
Talking Book distribution
1 title available
100% English
100% Philips Compact Cassette
patron must return recorded material
patron purchases machine
machines cost more than $100
machine speed 1½ ips
mailing container: vinyl wallet made by London
Association for the Blind
maximum 1 tape per package
mailing containers are reusable
600 mailing containers sent out each year
Wollensack Cassette Duplicator, 2 slaves, used to
record sample material

General information
patrons are 67% elderly, 33% employed
amount of material and services produced and
distributed moderately higher than 5 years ago
established in 1945
