Developed for students in kindergarten through second grade, this alphabet book is one in a series of picture dictionaries in the Pima language developed to instill pride in Pima students by presenting their language in print and to increase their vocabularies in both Pima and English. Introductory sections provide a brief history of the project and explain that the book uses spelling and symbols based on an orthography adopted by the Gila River Indian Community Tribal Council in 1979. The book begins with a display of the Pima alphabet, which uses English orthography plus diacritical marks for its 25 characters. Each subsequent page shows an upper and lower case letter of the Pima alphabet, a Pima word beginning with that letter, and a large and easily interpreted illustration of the word. The illustrations, while reflecting Pima culture and southwest influences, show foods, animals, and other items generally familiar to young children, e.g., chair, corn, orange, saddle, sun, skunk, broom, deer, and key. INTRODUCTION

This book represents the first printing of the Pima language developed by native language speaking Pimas. The words, their spelling and the symbols used are a result of four years of research and development and are based on an orthography adopted by the Gila River Indian Community Tribal Council in 1979.

The developers recognize that all speakers of the Pima language may not agree with some of the words as written because of differences in dialect. It is anticipated that future editions may require revisions to truly represent the spoken Pima language.

This book was developed through the use of federal funds from the United States Department of Education, under a bilingual education grant, Title VII, number G008104765.
PREFACE

The Pima Picture Dictionaries were developed through a Title VII grant by members of the staff who teach in the Pima Bilingual program. The purpose of the dictionaries is to instill pride in the Sacaton School District students by seeing their language in written form. Through the use of the dictionaries, students' Pima and English vocabularies will be increased.

The Kindergarten through second grade Pima Pictionary was written by Joan Dixon, Shirley Jay, Myrna Miguel, Sandra Nish, Henrietta Pablo and Regina Williams.

The third through fifth grade Pima Dictionary was written by Gloria Allison, Vernita Antone, and Fioretta Rhodes.

Illustrations were made by Leonard Harrison.

Acknowledgement is extended to the following people for their assistance in this important work:

To Álbert Alvarez, a Papago from San Xavier Mission, who helped to devise the alphabet and orthography used in the dictionaries.

To the consultants, Rosilda Manuel and Ofelia Zepeda, who assisted in the development of the dictionaries.

To the Elders from District 1, Blackwater; from District 3, Sacaton; and from District 5, Casa Blanca, for their assistance in verification of the vocabularies.

The developers of the dictionaries furthered their education in an understanding of bilingual education by attending courses at Northern Arizona University in Flagstaff, Arizona; Arizona State University in Tempe, Arizona; and the Southwest Indian Polytechnical Institute in Albuquerque, New Mexico.
